Dear Friend: Friday afternoon, May 10, 1935 the South Plains Good Roads Association is holding its annual meeting in the ballroom of the Hilton Hotel, in Lubbock, Texas, beginning at 2 o'clock.

You, Your commissioners, city commissioners, Chamber of Commerce representatives, newspaper editors and other local citizens should attend this meeting and, you are not only invited but are urged to be present. Your presence is needed to help formulate plans for the carrying out of highway programs in your particular area.

There are many highways in this area that need improving, hard surfaced or work completed on and many gaps in highways that should be connected up. Therefore, this will be a very important meeting and your help will be needed along with the others present to lay a foundation for working out these problems.

The South Plains Good Roads Association has done much good for our sections; working as a body we have been able to accomplish much that otherwise would not have been possible. Let's continue this good work by attending this meeting in Lubbock and working for the completion of our highways.

Bring as many of your citizens as you can and meet me in Lubbock the afternoon of May 10th.

Mahon Favors Shallow Water Irrigation Project In West Texas

Congressman George Mahon last week called on Secretary Ickes of the Department of Interior for an allotment of \$100,000 from the Public Works appropriation for making a survey of the Underground Water resources of the high plains region. These funds would be used by the Geological Survey in completing work on this problem, a preliminary survey having been made last year. This preliminary report indicated some doubt as to the presence of sufficient underground water for extensive irrigation over a wide area.

He also conferred with Dr. Mead of the Bureau of Reclamation in an effort to secure funds for making irrigation loans to individual farmers. Mr. Mahon has already secured an interpretation from Federal Housing Administration officials which would allow that agency to insure loans made by local banks for this purpose. Dr. Mead is of the opinion that loans may be made in this possible through an allocation of funds from the Public Works appropriation. However, nothing definite may be determined at this time because the President has not announced his plans for administering the new appropriation.

In discussing this problem Mr. Mahon said: "I believe that the two greatest natural resources of West Texas are its soil and its water supply. With a record of the extent of this water supply that would prevent exploitation, and with a properly directed irrigation program, conservation of the soil resources would be possible, and West Texas could look forward to a more stable prosperity."

L. K. Pettigrew Dieb Saturday 27

The Elton community was shocked Saturday morning, April 27, when it was learned that Luby K. Pettigrew, a long time resident of that community, had passed away at his home at 7:45 a. m.

Luby K. Pettigrew was born January 30, 1873 near Adamsville, Tennessee. He was the son of William and Susan Pettigrew. He came to Texas at the age of 19, coming to Dickens county in 1916.

On August 27, 1889 Luby Pettigrew was married to Miss Leona Grizzle in Comanche county, Texas. To this union were born eight children, two of whom died in infancy.

He was converted in August 1900 and joined the Baptist church being a consistent member until his death. He was not known as a church member alone, but as a christian gentleman, kind and considerate to all with whom he came in contact. In the passing of this good man the community has lost a good citizen, neighbor and friend—the family a loving husband, father, brother and uncle.

He also had been a member of the Masonic Lodge for a number of years and had always been true and faithful to its laws and teachings.

Mr. Pettigrew is survived by his wife, four daughters and two sons, Mrs. Annie Gladish, Altus, Okla.; Mrs. Ona Adams, Elton; Mrs. Earl Odom, Morton, Texas; Mrs. Jewel McMeans, Spur; Kelsey Pettigrew and Clyde Pettigrew, Elton; also by nine grandchildren and four brothers, Lee, Jo and Frank Pettigrew of Tennessee and Uncle Albert Pettigrew of Elton who has been particularly associated with Luby—nearer to each other than most brothers, as Uncle Albert has made his home with Luby and family for the last 20 years.

He is also survived by a host of other relatives and friends who are left to mourn the going of this good man from their midst.

Funeral services were conducted at the First Baptist church at Dickens Sunday afternoon at 3 p. m. by Rev. A. P. Stokes, an old-time friend and pastor of the deceased. Interment followed in the Dickens cemetery.

Pall bearers were: Herman Huckabee, Ed Turner, Troy Gilchrist, Lem Durham, R. W. Huckabee and Marion Simpson, the last four being nephews of the deceased.

Flower girls were: Miss Oleta Smith, Mrs. Lillian Young, Mrs. Lola Estes, Mrs. Gussie Fulfer, Mrs. Vela Blurton and Mrs. Versie Durham, the last four being nieces of Mr. Pettigrew.—Con.

SPUR BAKERY REDECORATED

A color scheme of black and white, both inside and out, was used in the annual spring redecoration of the Spur Bakery and which spring coat of paint was applied last week by Joe Shelby Clay during a continued sandstorm, said sandstorm failed however, to lessen his enthusiasm or dispel the smile, or was it a sandstorm squint which he wore while doing the job.

Regardless of which the desired effect was obtained as the Bakery now presents a brightened and very pleasing appearance.

THE CHURCH

The subject we have to consider this week is still the Church. We propose to discuss this question thoroughly in order that we may clear up the false impressions that abound in regard to the Church of the Bible.

Last week we found a "Kingdom" was to be established with Christ on the throne as king. (Dan. 2:44, Heb. 1:8). We discussed the false theories in regard to the time of its establishment. We know the Church could not have been set up during the days of John the Baptist, for at that time Christ had not shed his blood, hence, if the Kingdom had been in existence it would have been both a "headless" and "bloodless" institution, and there would be no reason under the sun for its existence. But the question is, when was the Church set up?

Luke 23:51 tells us of Joseph of Arimathea, who also waited for the kingdom of God. We know the Kingdom was to come for Christ said to his disciples to pray, "Thy kingdom come thy will be done on earth as in Heaven" (Matt. 6:10). In Mark 9:1 Jesus said "verily I say unto thee, that there be some of them that stand here, which shall not taste death, till they shall see the kingdom of God come with power." We learn from the above scripture that the kingdom was to come with power. Now if we are able to find the time that the power came then we will know that the Church came at the same time for they were to come together. Read Luke 24:49 and hear Jesus say, "And behold I send the promise of the Father upon you; but tarry ye in the city of Jerusalem until ye be indued with power from on high." The disciples were to stay in the city of Jerusalem until the power came or until the Church should come, as it was to come with power. In John 14:26 we read, "But the Comforter which is the Holy Ghost, who the Father will send in my name he shall teach you all things and bring all things to your remembrance whatsoever I have said to you." There can be no doubt that the power with which the disciples were to be indued was the promise of the Father, namely, the Holy Ghost. Jesus said in Acts 1:5: "John truly baptized with water but ye shall be baptized with

the Holy Ghost not many days hence." Again (Acts 1:8) "But ye shall receive power after that the Holy Ghost is come upon you" In Acts the second chapter, we find that the promise of the Father is fulfilled for at that time the Holy Ghost came to dwell in the hearts of rain. Acts 2:4 We have learned that the kingdom was to come with power (Mark 9:1) and we know that that power came on the day of Pentecost, hence, we are safe to say that the Church was set up at that time, for Joel in the long ago said: "It shall come to pass in the last days, saith God, I will pour out of my spirit upon all flesh", (Joel 2:28). Then Peter on Pentecost said, "But this is that which was spoken by Joel the Prophet" (Acts 2:16) But someone says, "Which Church was the one established on Pentecost? It is impossible for it to have been a man-made organization as the Church at Pentecost was a heaven sent institution and all man-made organizations are of the earth. We can be members of a Church that is almost two thousand years old then why men want to be members of some institution that is unknown to the Bible is something I have never been able to understand. But more next week.

The Rural Community Has Come to Town

The rural community and small city faces a new future. Electric service and all that electric power and light mean to home life, commercial and industrial development is now available for a more constructive and wider field of achievement.

Much work, planning, testing, engineering and large investments of capital was necessary in order to make this possible. Our 2600 miles of power transmission lines, interlacing 49 counties in West Texas and serving 160 towns and communities provide an adequate and economical source of dependable electric service with precise regulation to meet the requirements of modern day appliances.

Today hundreds of small West Texas towns and communities can offer to industry this modern electric service in proximity to its raw materials... two very necessary prerequisites for industrial progress.

We point with pride to our part in assisting the small towns and communities in this way, thus guaranteeing to them the same opportunities in respect to power as the larger metropolitan cities enjoy. It is our policy to fully co-operate with the small towns and communities we serve so that they may realize the full benefits accompanying and made possible by electrical development.

Modern Coffee Table For Saw-and-Hammer Boys

MANUAL training students and other amateur woodworkers who would like to surprise their mothers and wives with a piece of their own craftsmanship will make a happy choice if they build the modern coffee table suggested in the accompanying illustration.

The use of one-quarter inch pressed wood, obtainable at almost any building supply dealer, not only makes for uniformly good appearance, but also simplifies construction and for fine interior trim as well, is perhaps one of the most versatile and durable building materials ever developed. It is a one hundred per cent wood product, made by exploding clean waste wood and then pressing the resulting fibers into a thin hard board that will not split, chip, crack, warp, or swell, under any normal conditions. It saws readily, and

screws or nails may be driven as closely to the corners as possible. To make the table suggested above, procure framing material with a one-half inch tongue and groove for fitting. Assemble the top and bottom frames, then attach the large side pieces of pressed wood, screwing them to the side of the frame.

C. D. Copeland and son, "Shorty" were in town the first of last week from their farm home 6 miles East of Spur. Mr. Copeland stated that they of that community were among the chosen during the recent rains as they received 2 1/2 or 3 in. of rain which not only gave them a good season for planting but filled a surface tank which he built six years ago and which is the most water in the tank at one time since it was completed.

Cash Wileman has been ill and confined to his bed the past several days and during his absence from the Spur Motor Company office Miss Mozell Mason of Jayton, has been acting in the capacity as office clerk for the company.

Mrs. A. C. Hull accompanied by her mother, Mrs. Ward, visited relatives and friends in Oklahoma City last week returning the first of this week to Spur.

Two Propaganda Plays Open Run

Communism Preached Openly By Vigorous Young New York Dramatist

IN less than ninety days, toiling with the unrest of his times as a central theme, a young actor in the New York theater has become the most exciting spokesman the world of workers yet has produced and perhaps the most articulate dramatist available in the theater. Clifford Odets, almost a boy, lean, nervous, aflame with indignation at what he sees around him, is the author of three plays which have made his name a new conjure in drama and his work a new power for the restoration of drama, reports *The Literary Digest*.

Taxi Strike Portrayed
He had written a short play about the 1934 taxicab drivers' strike in New York. A bitter, contemptuous arraignment of the criminal forces which herded the deluded drivers and exploited them, the Group Theatre gave it special Sunday night performances in a downtown theater. In a few weeks the public clamor for the work of Odets had risen to that point where this producing organization had to bring it up into Broadway for regular showing. To it was added another short Odets play, "Till The Day Die," an anti-Nazi preachment based on the information smuggled out of Germany in a letter.

Candid Propaganda
This play and "Waiting For Lefty," the taxicab strikers' play, have been made into a single evening's program. It is an evening of, candidly, propaganda. His Nazi play is the first one to take note of the plight of Communists in Germany.

"Waiting For Lefty" is Mr. Odets at the sum of his best. His play roves the entire theater. It is played simultaneously on stage, in the orchestra section and from the gallery. The audience is, in effect, a meeting of desperate, goaded taxicab drivers. With these units, Mr. Odets weaves a startling composition, a short play as chilling as the front end of a machine-gun.

Mixed Audiences
Audiences at the three Odets plays have been mixed, mixed, that is, from a political point of view. Liberals, Communists, middle-class men and women with good jobs and men in the ranks which still represent capitalism mingle together and watch these plays. The roar and surge of the propaganda in them inflames the Communist patrons, but not once has it, also, failed to impress and give pause to those who, at heart and in their minds, are opposed to what the plays represent.

And in that, *The Literary Digest* points out, lies the strange, exciting magic which Clifford Odets has brought to the theater in this short time.

Device "Reads" for Blind

FOR an invention that enables a blind person to read any book or paper, the John Price Wetherill Medal will be awarded on May 15 to Robert E. Naumburg, of New York, by the Franklin Institute, Philadelphia. As reported in *The Literary Digest* Mr. Naumburg's invention, known as the *Visagraph*, "reads" printed words for the blind with the aid of a photoelectric cell, and embosses each letter, several times enlarged, upon a strip of paper which passes under the fingertips of the operator.

M. L. Rickles and H. O. Albin were business visitors to Sagerton Wednesday where Mr. Rickles received a shipment of cattle.

DEMONSTRATORS STUDY TABLE SERVICE

To serve a company or a family meal with Family Style table service is the simplest, easiest way for the hostess and the guest to enjoy the meal, the farm food supply demonstrators learned in a meet-

ing of that group at the home of the home demonstration agent Saturday.
