Brown and J. L. Hutto are opposing captains in a "Dues Collecting Contest" and each is willing to accept your dues.

Three Ways to Sell Cotton Certificates You Do Not Need

Cotton Producers within the county are fortunate enough to have three ways of disposing of their unused 1935 Tax Exemption Cotton Certificates. Providing they can make certification that the amount is surplus to him. By this I mean he must have completely harvested his 1935 cotton crop or must have retained sufficient amount to harvest the balance of same. Cotton Producers must remember that Certificates can be transferred for surplus cotton and for surplus cotton alone. Speculation in this matter is strictly a violation of the Act. All transfers must be recorded in the county office where the certificate was first issued at a constant price fixed by the Secretary of Agriculture.

The National Tax Exemption Certificate Pool will operate in 1935 practically on the same basis as in 1934, with the exception that the Certificates will have the value of not less than 5c per pound for the portion that is sold. The Pool is now open to all producers who wish to participate.

As in 1934 Producers have the same privilege as in 1935 to buy and sell Certificates from producers in the county. Before any local transfers can be made under this Section they must also be recorded in the County Office and the Producer certify that they are surplus to him and he is receiving a uniform price as fixed by the Sec. of Agriculture.

Transfer From One Producer To Another Within The Same State:

Any Cotton Producer may transfer or assign to any other Cotton Producer who is a resident of the same State any Certificate issued or re-issued to him or any portion thereof which is not needed by him to procure bale tags for any cotton produced by or for him in the crop year of 1935-36 or the crop year of 1934-35 at the uniform price fixed (continued on back page)

County Students Are In Hartford Insurance Essay Writing Contest

More than the usual interest is being taken by the students of Spur High, Patton Springs, and McAdoo high schools in the essay writing contest for the Hartford medal. Instructors in each of the three schools report that some of the homes should be far less likely to be destroyed by fire because of the practical efforts being made by the contestants. They are applying the safeguards suggested by a booklet called "Hints for Householders"—a booklet of Fire Prevention Suggestions given out by the Clemmons Insurance Agency, the local agent for the Hartford Fire Insurance Company, the donor of the medal that will be awarded to the winner of the essay contest. A sample medal is on display in the window of Clemmons Insurance Agency as well as one in the McAdoo and Patton Springs Schools.

It is probable that the medals, with the name of the winner engraved on it, will be presented in each school about the latter part of October. The actual writing of the essays is due to close at the end of the week and the winners will be announced at the presentation of the medals.

The Bulldog's first string was not complete, Cravey and Chapman being out because of injuries received in an automobile accident enroute. Centennial Stamps Good For Eats, Gas & Transportation

Announcement of the Centennial Thrift Stamp plan in last week's issue of The Texas Spur flooded the local bus offices, the Western Union, this newspaper, the Shriners and Masons with requests for details, explanatory pamphlets, and stamps.

Already more than 200 local families have signified their intention of saving these stamps, which enable them to pay transportation cost to any 1936 Centennial Celebration, defray hotel and restaurant expenses, gain admission to the various attractions, etc. Locally this unusual plan will be made available through the cooperation of the various business houses.

"This stamp plan is not a contest," explains Wm. H. Schneidre, the Executive Chairman. "We are all moved with a sincere patriotic desire to furnish the means and the methods by which every Texan will be enabled to visit the historical spots dear to his or her heart. Every organization, corporation and local firm cooperating in the Centennial Thrift Stamp plan does so from a purely unselfish angle."

"All Texans, with absolutely no effort on their part except for accumulating stamps, can avail themselves of this plan. It costs them nothing, there is nothing to sell, there are no "charges" of any kind—it is truly idealistic in its workings and has but one ultimate object—and that is to: give every Texan the opportunity to visit around his State, during 1936."

"This plan originated with members of El Mina Shrine, and eventually 'worked out' with the transportation concerns, hotels, restaurants, gas and oil companies, newspapers, and hundreds of Texas business houses."

Turn to the Centennial advertisement on page five, clip out the stamp The Texas Spur offers you. Paste it in your book or save it until you obtain a book. It is fully as valuable as the lithographic stamps you will receive later.

NOTICE TO TAXPAYERS

A recent legislature passed House Bill No. 6, allowing a discount on ad valorem taxes paid during the months of October, November and December at 3 per cent, 2 per cent, and 1 per cent discount respectively.

The Attorney General ruled this bill unconstitutional, and at the present time the validity of this law is being tried in the Supreme Court at Austin. Since it will probably be a month or more until we know whether or not the law is declared valid, taxpayers will be allowed to make tenders of payments less the discount and receipts will be issued if payments are made immediately after the Court's decision.
