NORTHWEST CIRCLE BAPTIST W. M. S.

Four members of the Northwest Circle of the Baptist Woman's Missionary Society met in the home of Mrs. J. D. Powell Monday afternoon at four o'clock for a mission lesson.

The circle teacher, Mrs. E. J. Cowan, taught an interesting lesson on "Faith."

This circle will meet next Monday with Mrs. L. W. Langston for a Bible lesson.

LADIES BIBLE CLASS CHURCH OF CHRIST

Members of the Ladies Bible Class of the Church of Christ met Monday afternoon at four o'clock at the church for the usual Bible study.

Mrs. Howard Stubblefield taught an interesting lesson from the second chapter of First Timothy. Plans were made to continue the Bible study until the new pastor arrives. He will then be in charge of the class.

Members present were Mesdames G. W. Conn, E. S. Lee, Oscar Kelley, Thurmond Moore, G. W. Bennett, W. B. Lee, W. R. Weaver, Howard Stubblefield, Dalton Johnston, Loyd Roberts, Joe Collier.

EAST CIRCLE BAPTIST W. M. S.

The East Circle of the Baptist W. M. S. met in the T. E. L. Class room at the church Monday afternoon at four o'clock.

Plans for the coming year were discussed and the teacher, Mrs. C. B. Middleton, reviewed the first few chapters of Judges. Another Bible lesson will be taught next Monday.

WOMAN'S COUNCIL FIRST CHRISTIAN CHURCH

Twelve members of the Womans Council of the First Christian Church met Monday afternoon in the home of Mrs. O. L. Hale at four o'clock for the monthly council meeting.

An interesting devotional was presented by Mrs. R. E. Dickson.

The lesson subject was taken from the "World Call" and was "How the Negroes Live." Several topics were discussed by different members.

Mrs. Joe Shelby Clay presided in a business session for the hour in the absence of the president, Mrs. Arthur Prichard.

A lovely refreshment plate bearing tea, sandwiches and cookies was passed to Mesdames B. F. Hale, Nellie Davis, W. L. Edwards, E. C. Mc-

A section of the modern farm display which makes up an integral part of Firestone Exhibit at the Great Lakes Exposition in Cleveland. The farmyard, complete in every detail, includes all kinds of farm implements equipped with Firestone Ground Grip Tires.

An unusual opportunity for city residents to renew their contact with daily farm life and for farm folks to learn more about the latest developments in mechanical farm equipment is afforded all visitors to the Great Lakes Exposition in Cleveland at the Firestone Exhibit.

A typical American farm, complete to the minutest detail with waving fields of grain in the distance, barn, house, implement shed, real live cows, horses, goats, turkeys, chickens, ducks, and collie dog has been transported into the very center of Cleveland's gigantic lake front show. Every piece of farm equipment including implements and vehicles of the most up-to-date design for efficiency and economy in farm operations are equipped with Firestone Ground Grip Farm Tires. It is a convincing demonstration of how Harvey S. Firestone has put the farm on rubber. Many of the vehicles are

from Mr. Firestone's own farm in Columbiana, Ohio, where he conceived the idea and personally aided in developing the Ground Grip Tire for economy in modern farm operations.

The Firestone Exposition farm is run by a real farmer who has been operating a farm most of his life near Amherst, Ohio. He is on hand to see that the cows are milked, the chickens fed and the eggs gathered.

Hundreds of thousands have visited this exhibit and pronounced it the most interesting and attractive display at the great Cleveland fair. Located as it is at the end of the mall where a cooling breeze is always evident the Firestone Exhibit is rapidly becoming known as the coolest spot on the Exposition grounds. The famed Firestone Singing Color Fountains where six misty fountain domes raise majestically from a pool 120 feet long and 20 feet wide are an ever-

popular attraction. The pool is located in the center of a large parkway which is surrounded by flowers and a delightful expanse of lawn. Benches border the parkway where hundreds of weary feet may be rested in this delightful atmosphere while soft lights change the fountain spray in gorgeous harmony with the tonal variations of sweet music.

For those who are seeking entertainment, the Firestone marionette show, motion pictures of the Indianapolis 500-mile Race and Ab Jenkins' amazing run of 3,000 miles in less than 24 hours on the Utah Salt Beds provide both laughter and plenty of thrills. There is also an interesting motion picture showing the economical method of changing farm vehicles over to rubber equipment which has been developed by Firestone, as well as a visual demonstration of the many advantages of Firestone Ground Grip Tires.

Love, Suspense and Drama Make New Film Outstanding Triumph

The great love drama of the great war, "The Road to Glory," Twentieth Century-Fox production, opens at the Palace Theatre Sunday, showing Saturday night prevue, Sunday and Monday. This picture is sponsored by the Spur High School Bull Dogs. The picture is rated as one of the outstanding cinema achievements of the year.

Painted against a background of the seething kaliedoscope of battle, no-man's land, and war-torn France, the film depicts love in all its phases.

Love of heart-starved fighting men; love of women who can only wait; love of a soldier father and hero son; love of a cause they all must serve; love of what our world calls Glory.

Vibrantly enacted by an impressive cast including Fredric March, Warner Baxter, Lionel Barrymore, June Lang and Gregory Ratoff, the film tells a robust, dramatic story, and maintains an intense suspense from beginning to end.

Baxter is seen as the hardbitten commander of a war-torn sector, whose only relief from the din of war is found in the arms of Monique a petite French nurse.

Baxter's chief aide, Fredric March, rescues Monique from an air raid, and debonairly commences to make love to her, unaware of the fact that Baxter loves the girl.

Lionel Barrymore, Baxter's father, heroic veteran of war, comes to the front in a group of replacements. Baxter is astonished to find his father at the front, for the old man is well over the age limit.

Despite Barrymore's pleading, Baxter orders him evacuated for he well knows that if one manfalters or errs in his duty, the entire company may be wiped out.

Barrymore is not so easily discouraged, however, and bribes Gregory Ratoff, a sergeant, to destroy the order when it comes through. When the company moves towards the front, Barrymore is in the ranks.

From this stirring foundation, the picture moves swiftly through a succession of episodes, each of which finds the dramatic intensity mounting ever higher. The conclusion, shiny with heroism and tears, is a fitting climax to an outstanding film.

You don't see "The Road to Glory"—you live it. All the strangeness of this drama, the might of its emotion, the fire of its stars, gets you, deep down inside.

ROY ARRINGTON NEW SPUR COMMUNITY CHAIRMAN

The County Allotment Committee appointed Mr. Roy Arrington as Community Committeeman for the Spur Community to serve the unexpired term of Mr. W. P. Shugart, resigned.

Farmers residing in the Spur Community should contact Mr. Arrington in matters pertaining to compliance, measuring and in signing work sheets. Mr. Shugart is located at the Rule-Jayton Cotton Oil Mill Warehouse and will assist Mr. Arrington in preparing work sheets as we only have a short time for this work.

CROTON

Mrs. Sabe Kenedy has moved to Dickens this week to send the boys to school. Mr. Kenedy staying on to gather his crop.

The fine rain of 2 1-2 inches which fell Wednesday and Thursday has put new life in our community. The little feed we all thought dead has revived and Croton at least has a chance to make a feed crop.

Mr. and Mrs. Horace Edwards are the proud parents of a 7 pound baby boy born last Tuesday.

Mrs. J. A. Legg and Miss Jennie Legg and Mrs. Joe Koonsman and Mrs. Dunn spent the week end in Lubbock.

Mr. Jim Hemphill, Los Allen, Cloy Edwards, Jess Wyatt and two other men went to the irrigation district of New Mexico and Colorado last week. Upon their return Friday such glowing and growing (crop) reports have given our farmers a moving fever. Croton may lose some of her best farmers to New Mexico in a short time as 2 bales per acre cotton makes Dickens County look small.

Mr. and Mrs. Parnell have moved to the house formerly occupied by Jimmie Allen. Jimmie and his family are moving to his fathers until his health improves which we hope will be soon.

Mr. Crabtree has as guests his daughter, Mrs. Ferguson and her son, Johnnie. John gave the sermon at the Baptist church Sunday evening. Mr. Terry held the A. M. services.

Mr. and Mrs. Homer Jackson, Mr. Crabtree and Mrs. Ferguson and son spent Sunday afternoon with Mr. and Mrs. Clarence Butler.

R. E. Rogers and family spent Sunday with his mother, Mrs. Jimmie Rogers.

We are sorry to hear that Mrs. Horace Edwards is critically ill having been partially paralyzed since the birth of her baby last week.

Mr. and Mrs. Link Lovern and Mr. and Mrs. Nathen Thacker spent Thursday afternoon in Dickens.

Mr. Dempsey reports his gin is now ready to gin all cotton that comes his way which he hopes is all in Croton and wishes at least a trial from every farmer.

A number of Croton people went to the ball games played by Croton, Pitchfork and Wichita teams Sunday.

Mr. and Mrs. Jack Dempsey returned home Friday from Duncan, Okla., where they had spent a few days with his parents.

Mr. Dick Dempsey of Duncan, Oklahoma is visiting his aunt and uncle, Mr. and Mrs. Jack Dempsey. He came to Croton last Friday returning home on Sunday by way of bus. We all think Dick is a fine boy and hope he can come again for a longer visit.

Luther Harris went to Ft. Worth Wednesday with a load of cattle.

Mrs. Guy Price and daughter of Fort Worth, and Mrs. B. C. Cairns of Clairemont, were guests of Mr. and Mrs. Clifford Jones last Thursday.

Panhandle-South Plains Fair To Open September 28th

Lubbock, Sept. 9.—Fair time is rolling around again on the South Plains and preparations are in full swing for the greatest exposition ever staged in this section when the gates of the annual Panhandle South Plains Fair open on Sept. 28 at Lubbock.

Combined with a Centennial celebration and offering a full six-day horse racing program, this year's "Show Window of the South Plains" promises to be one of the premier attractions of Texas' birthday celebrations. Space has been reserved for the greatest array of agricultural and livestock exhibits ever offered and the midway attraction features the United Shows of America, America's Newest and Largest Midway.

But officials of the fair this year are stressing the educational benefits to be derived from the exposition and arranged the program accordingly. Besides the usual exhibits this year's fair will offer the most extensive vocational agricultural display ever shown in Texas, including a complete range of soil conservation, crop production and livestock feeding demonstrations.

Included in the Midway will be several educational shows headlined by the "International Museum of Oddities." The museum, a regular feature of the Chicago World's Fair, will include such figures as "Bly, The Rice Writer," who was featured by Robert Ripley's "Believe It or Not." Docen's freak animal show, a deep sea exhibit featuring "Venus on the Half Shell," Mary and Margaret Gibb, the only American-born Siamese twins and a host of other shows which made up the most colossal midway organization seen in this section of the Southwest.

Workmen are rushing to and fro at the fair grounds preparing for the grand opening and officials of the fair have laid special plans for the Centennial Day when a gigantic pageant depicting the history of Texas is to be presented in front of the new steel grandstand fronting the race track.

FARM MEETING AT DICKENS TONIGHT

A community association farm meeting will be held at the Dickens school house tonight. Plans will be made to attend the meeting at Lubbock September 17, an all day affair, where some noted farm leaders will speak. Compliance sheets are now ready and a discussion of these will be held.

J. P. Carson, Jr., is in Coffeyville, Kansas, where he will attend school.

MORE TRUTH THAN POETRY

Man, poor mortal man.
Made of the dust of the earth
Say all the good of them you can
And still he is of very little worth.

He will lie and cheat and steal
And drink his old home brew.
As wise as the wisest he will feel.
And could not buy his wife a shoe.

Man, poor mortal man
He often thinks he's great.
He will lay for himself some scheme
or plan
But if he owes you, you will have
to wait and get it when you can.

He rides around in a big new car.
And goes where ever he wills.
But he cannot pay his taxes nor
His grocery nor his doctor bills.

Man, poor mortal man
He often goes to church
And takes a foremost pew
And in his pocket he will search to
find a dime or two.

Then when he sees close by his side
Hundreds in dire need.
In his big car away he glides
And does not give the slightest
heed.

Man, poor mortal man
There is that great one above
Who knows the hearts of many
And gives to us His gracious love
And willeth not the death of any.

So let's not lie and cheat and steal
Nor any thing else that's wrong.
But in our lives God's love reveal
And help poor mortal man along.

Great Al G. Barnes Circus To Be in Lubbock Next Monday

MARY CORNELL AND TILLIE FAN DANCING ELEPHANT

The circus! Lions, tigers, clowns, acrobats, peanuts, popcorn, and horses, horses, horses.

The Al G. Barnes show, one of the world's largest circuses, will exhibit in Lubbock, on Monday, September 14.

For more than a quarter of a century the Al G. Barnes Circus has excelled with trained wild animals. More than a score of international wild animals trainers will be seen. Foremost among them will be seen Bert Nelson, who has returned to

America after fresh foreign triumphs. For this season he is presenting a group of 40 lions and tigers in a display of courage, daring and patience.

Tillie, the ran dancing elephant, has gone high hat this season with her ostrich plumed crown and will have the women ogling her jealously. Mary Cornell, one of the pretty girls with the circus, has a prominent place on Tillie's howdah, where she may also shine among the plumes.

The "Fiesta of the Rio Grande," a gorgeous processional fiesta with the charm and romance of old Spain a glorious fairyland spectacle of pantomime enchantment, will open the circus performance as a prelude. Superb beyond belief, indescribable, a triumph among colossal productions, it is today sweeping all before it with its all-powerful appeal and the very vastness of its character. It is the crowning spectacle in the long, eventful career of Al G. Barnes. One thousand men and women, horses and animals participate in the stupendous spectacle. Great companies of trained singers, orchestras of vast size, grand golden tongued organs, cymbals and trumpets will be heard. Seventy thousand dollars was expended on wardrobes for this gorgeous prologue pageant.

Performances will be given at 2 and 8 P. M. The doors will open at 1 and 7 P. M. to permit an inspection of the zoological collection or to enjoy a concert of popular and operatic music by Prof. Woeckener's military band.

"The Universal Car"

ONE NAME comes quickly to mind when you think of "The Universal Car." The description is distinctively Ford. No other car is used by so many millions of men and women in every part of the world. Everywhere it is the symbol of faithful service.

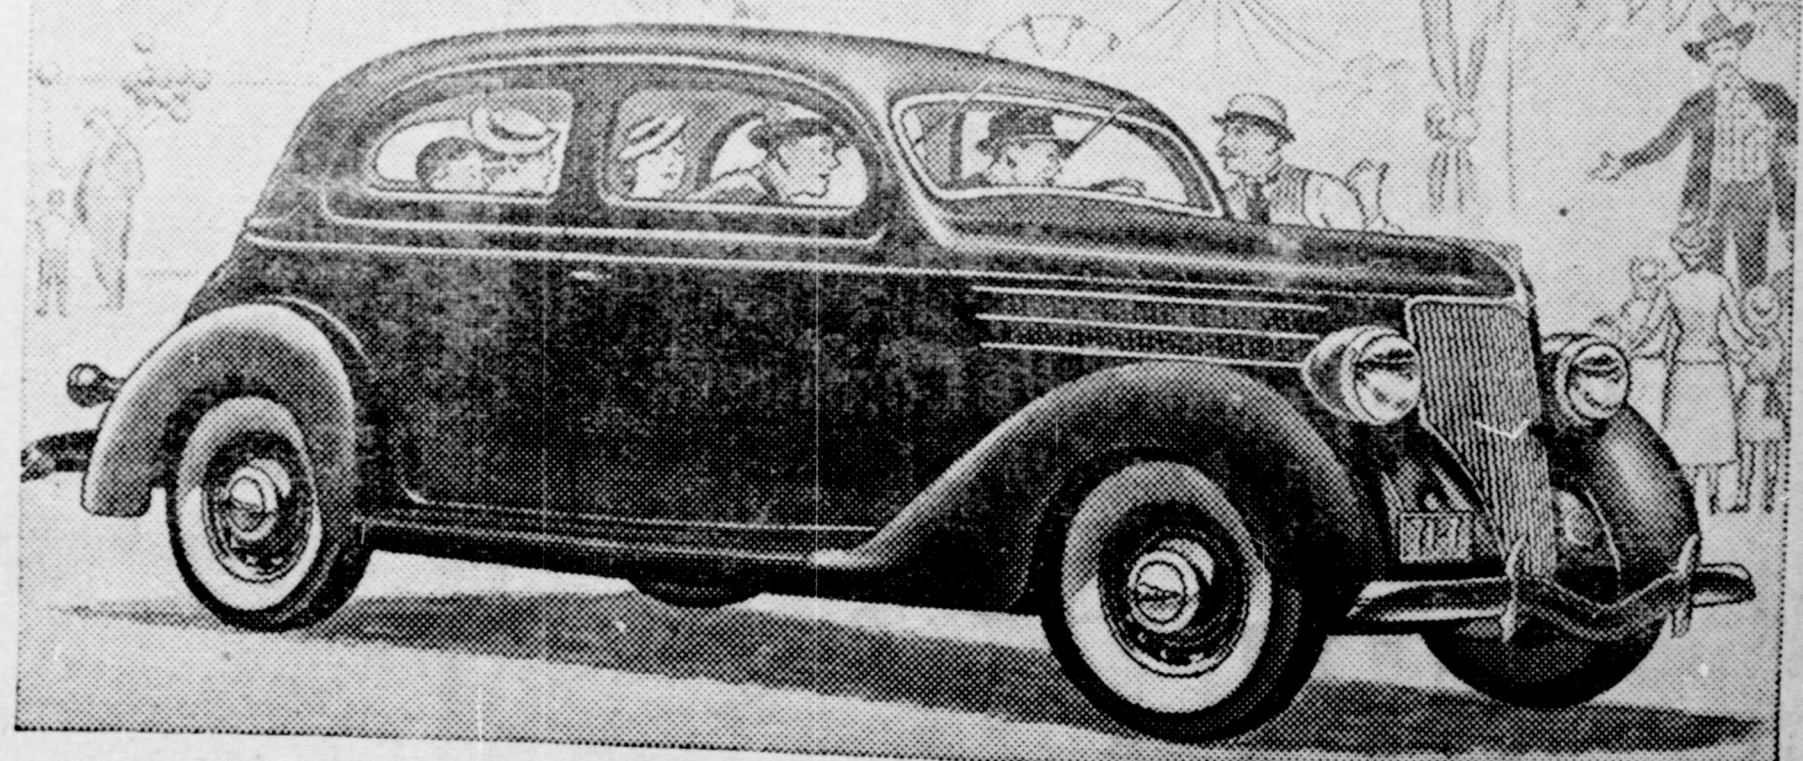

That has always been a Ford fundamental. Something new is constantly being added in the way of extra value. Each year the Ford has widened its appeal by increasing its usefulness to motorists.

Today's Ford V-8 is more than ever "The Universal Car" because it encircles the needs of more people than any other Ford ever built. It reaches out and up into new fields because it has everything you need in a modern automobile.

The Ford V-8 combines fine-car performance, comfort, safety and beauty with low first cost and low cost of operation and up-keep. It depreciates slowly because it is made to last. There is no other car like it.

Only the Ford V-8 Gives You These Fine-car Features

1. V-8 ENGINE PERFORMANCE WITH ECONOMY
2. SAFETY GLASS ALL AROUND AT NO EXTRA CHARGE
3. SUPER-SAFETY MECHANICAL BRAKES
4. CENTER-POISE RIDING COMFORT
5. WELDED STEEL BODY... STEEL STRUCTURE AS WELL AS STEEL SURFACE
6. NEW INTERIOR APPOINTMENTS

My Trip To The Texas Centennial

by CLARA RICH, McAdoo 4-H Club Girl

(Clara Rich won a trip to the Texas Centennial last fall on her

work as garden demonstrator in the McAdoo 4-H Club. She has just returned from the trip.)

From the moment one enters the gate until he leaves the park, he is much impressed with the beauty of architecture, the blending of colors, the landscaping, and the convenient arrangement of the buildings. As he walks or rides about the grounds that are 186 acres in extent, he finds himself searching for words with which to express himself.

One is immediately impressed with the fact that the builders of this great exposition have incorporated many new ideas and that the entire set-up is in keeping with Texas' glorious history and Texas' unprecedented progress during the past 100 years. It is at night that the park becomes a fairyland. It seems that a

magic city has come into being. The effect of scientific illumination is so beautiful that one could easily imagine that he had been transported to a new and glorious world. The beams from the powerful searchlights rib the sky with the colors of the rainbow. The flood lights with ever changing tints intensify the beauty of the buildings and creates in the mind the picture of a city constructed in dreamland. These lights are thrown back from reflecting basins in which fountains of many colors play. There is no glare and the scene is quieting and soothing.

The Texas Centennial committee and managers have made a substantial contribution to the progress as well as the history of the State. The buildings are mostly permanent in construction, and will be used for many years for staging the state fairs of Texas, and for other exhibitions. The great industries of the country have contributed to the success of the exposition by placing hundreds of beautiful and costly exhibits.

The Ford Motor Company constructed its own building. It is one of the largest on the grounds. It is brightly lighted and air conditioned. It contains an exceptional exhibit, one that will interest everybody. One on entering the building sees a display of the motor cars dating back to the beginning of the industry. Other motor companies are represented in the Transportation and General Motors buildings. Southwestern railroads are represented by actual miniature action with beautiful scenery. In connection with the transportation exhibit attention is directed to the exhibit from Galveston. It shows the city on the island, one model showing the dock and wharf facilities, and the other the famous Galveston beach.

As Texas produces 98 per cent of all the sulphur of America, there is an exhibit of the uses and mining of sulphur.

One of the most interesting things you'll see is the Midget City. It seems impossible that 117 little people, none over four feet and the smallest only 21 inches in height, can carry on the interests of everyday life so completely. In this city you will find a real example of their living with their small courts and town life included.

Other very interesting exhibits you can't afford to miss are Little America, that portrays the life there; Humble's Hall of Texas History, where the progress of Texas is portrayed step by step by miniature exhibits; the Aquarium, where plant and animal life is balanced; the Federal Building, where life in the house to life on the ships are shown and many other exhibits pertaining to Texas' annexation on to the present relations with Texas; the Agriculture Exhibits, that show the progress in this field and the present problems; the Food Exhibits, where actual demonstrations are continually being made; and of course you must see "The Cavalcade," where the history of Texas is actually acted out down to the present.

BRYANT-LINK MANAGERS HOLD MEETING HERE

Managers of the Bryant-Link Company stores met in Spur Tuesday evening to discuss fall plans of the organization.

The members of the organization present were: J. C. Bryant, Stamford, Chairman of the Board; R. B. Bryant, President; Billie Bryant and Joe Smith of Stamford General Office; W. H. Taylor, manager at Rotan; Tom B. Johnston, manager at Jayton; Tom Teague, manager at Hamlin; Charlie Speck, manager at Aspermont; Cecil Speck, manager at Lamesa; Guy Speck, manager at Post; Mr. Weatherbee, manager at Snyder; T. C. Ensey, L. R. Barrett, E. F. Laverty, D. D. Dillingham, department managers at Spur; Geo. S. Link, Sr., manager at Spur and Geo. S. Link, Jr. of the Spur office.

BONDS SOLD

Bonds voted sometime back for the purchase of the right-of-way for the continuation of State Highway 18 thru Kent county from Jayton to the Dickens county line are reported sold and just as soon as the money is in the hands of the commissioners court work will start on securing the road bed. This will probably take a little longer time than some would think, but this work will be pushed just as fast as possible. The court hopes to get everything in shape and get the road work started so surplus labor in this territory will be provided for during the late winter and early spring. We believe the land owners will be perfectly willing to cooperate with the court and do their part toward getting this work started.—Jayton Chronicle.
