"THE REST OF THE RECORD"

BY JAMES V. ALLRED
 Governor of Texas

This week demonstrated again the wisdom of taking the unrestrained power of pardon out of the hands of the Governor and placing it in the hands of a non-political board.

Upon my return from Mexico I found four men condemned to die in the electric chair. Under the old system the Governor, with all his other cares and responsibilities would have had to pass on these cases. It simply wasn't fair to compel him to submit to the tearful appeals of wives, mothers, relatives and friends. Although he might have a Legislature on his hands, although he might have sickness in his home or several other trying ordeals, he was placed in the position of weighing the life of a man and almost standing outside the death chamber watching the condemned man pace back and forth waiting for the deadly hour of twelve o'clock and the last walk to the little green chamber. I don't think I ever slept a wink on the night any man was compelled to pay the penalty.

Now it's different. Before the Governor can commute a death penalty, or grant any other kind of clemency, it has to be recommended by the Board of Pardons. The Governor can refuse to follow the Board if it recommends clemency, but cannot grant any whatever unless the Board recommends it.

There are three members of the Board. Only one is appointed by

the Governor, and the others by the Supreme Court and Court of Criminal Appeals. The members of the Board have several investigators and of course, no other responsibilities than looking after clemency cases. In this manner both the convict and the public get a better deal than under the old system where the Governor was charged with all the responsibility in addition to his other duties.

I am proud of this great reform. We are not having any complaints about wholesale abuses of the pardon power. It is all based now on merit, and unquestionably everyone is much better satisfied.

Naturally I have been quite busy catching up on my correspondence after a two weeks vacation. However, on Friday of last week I flew down to Palacios on the Gulf Coast to review the 36th Division of the Texas National Guard in camp there. Texans generally probably do not realize what a wonderful organization of fine young men this is. Unquestionably we have one of the best National Guard units in the nation. Nearly 8,000 men train intensively at Palacios each summer for two weeks. This is in addition to their regular drills and parades back home. They are well equipped, well officered, and as fine soldiers as any I saw in the World War.

The total cost for military defense in Texas which is borne by the Federal government approximates more than a million dollars annually. The National Guard has in its possession more than four and a half million dollars of Federal property, guns, uniforms and equipments. Its payroll, including both men and officers from the highest to the low-

est military grade while large in the aggregate, averages only \$3.00 per capita per year. Their time is given freely as a patriotic duty.

In addition to the 36th Division, we have what is known as the 56th Cavalry Brigade, about 1100 in number who train for two weeks each year at Mineral Wells. As Commander in Chief of the Texas militia I always visit these two camps. It was a great joy to me upon my recent visit to Mineral Wells to hear one of the Federal army officers praise the cavalry brigade. He said that we had as good if not the best, in the nation.

Of course, we don't want war, and I pray God we may always be spared what is going on in Europe. It has been the policy of the State, however, to maintain a regular militia from the beginning. The wisdom of this was demonstrated in the World War when our National Guard was the first nucleus around which our defense was built.

It is heartening to know that if a war emergency should arise, our guard is manned, officered, equipped, trained and ready for immediate service.

Of course, as most everyone knows, soldiers don't have much use for a sailor. I was in the Navy during the World War and I had quite a bit of fun out of some of the National Guard officers by reminding them that their Commander-in-Chief was once, a sailor!

I wasn't greatly surprised to find upon my return from Mexico that the politicians have been "buzzing" quite a bit. It is my understanding that State Superintendent of Education L. A. Woods has been running around over the State making speeches condemning me for cutting the ad valorem property tax rate to the lowest it has been in some twenty years. I think this gentleman will find out next summer that the public won't approve of his making political speeches on State traveling expense.

NOTICE OF SALE OF REAL ESTATE

The State of Texas
 County of Dickens

In the County Court of Dickens County, Texas, C. L. Martin, Plaintiff, vs. S. J. Ousley, Defendant.

Whereas, by virtue of an execution issued out of the County Court of Dickens County, Texas, on a judgment rendered in said county on the 5th day of May, A. D. 1937, in favor of the said C. L. Martin, and against the said S. J. Ousley, No. 600 on the Docket of said court, I did, on the 31st day of July, A. D. 1937, at 10 o'clock A. M., levy upon the following described tract or parcel of land situated in Dickens County, Texas, and belonging to the said S. J. Ousley, to-wit:

Being survey No. 1, on the waters of Red Mud Creek, a tributary of

the Brazos River, about 18 miles South 42 degrees west, of the center of Dickens County, patented to W. M. Standifer May 12, 1888, by patent No. 39, and containing 160 acres of land,

and which is most generally known as the S. J. Ousley Land; And on the 7th day of September, A. D. 1937, being the first Tuesday of said month, between the hours of 10 o'clock A. M. and four o'clock p. m. on said day, at the courthouse door of said county, I will offer for sale and sell at public auction, for cash, all the right, title and interest of the said S. J. Ousley in and to said property.

Dated at Dickens, Texas, this 11th day of August, A. D. 1937.
 J. L. KOONSMAN, Sheriff of Dickens County, Texas.

LIFE

There are those perhaps who think that I have placed too much stress on breath, but let me double that here for, breath is the beginning of individual consciousness.

Now, I do not mean to infer that breath is either life or consciousness but, it is food for both.

Spiritual things are not so much to be explained as they are to be experienced, for they are unseen things and are realized.

You and I might see the same show at the same time but have entirely different conceptions of it, then we would say it is a matter of view point, and that is the way it is with this life and death proposition, it is a matter of view point. For as you think so you are, but beneath, deep down in the center of all of us, silently lies the Truth, and it is our job to find it. If the truth makes us free we are free indeed, for the Prophet truly said,

"Seek ye first the Kingdom of God and His righteousness and all these things shall be added unto you."

One writer asks this question "What is Truth," then he tried to answer it by saying, "My Word Is Truth," but that only brings up another question which is, What is my word? And that brings us back to a matter of view point.

We are told that a friend one day asked Jesus about eating some meat and, His reply was, "I have meat that ye know not of." Do we today know from experience what He meant by that?

That meat is what established the Truth, or makes it known to us, There are those that claim the sex life is all there is to life and that all creation is just a dream, but there is that within us that is not satisfied with such an explanation of life, and when one searches on into the very center of his or her being they will there find a different explanation that is wonderful.

One who surely knew said, "I am the way the truth and the life." It is up to us to make His experience

our experience and what a different world this would be if we did just that.

Breath, Love, Thought, Heart-beat with a consciousness of the invisible, dynamic, immutable, omnipresent power that is behind them will turn the trick if persisted in and trusted.

Each of these including truth have a materialistic definition, they also have a spiritual meaning and I don't know what they are, I have my conception of each and all of them, and the soul of man also, but it can not be proven for none of us have returned back from over there with the proof.

Oh, the littleness of man and the immensity of God. Truly, seen things are temporal and unseen things are eternal.

MISS MAJORINE BOOTH HOSTESS ON THURSDAY

Miss Majorine Booth was hostess on Thursday afternoon when she entertained members of her Sunday School class with a "Kid Party". The guests were dressed as little girls and games were played in the yard. A treasure hunt which resulted in finding suckers proved to be great fun. The hostess, assisted by her mother, Mrs. O. R. Booth served fruit punch and ice cream cones with red balloons as favors. Included in the guest list were Mrs. L. W. Langston, teacher of the class; Mrs. A. M. Walker, department Superintendent, Misses Ruth Cowan, Thelma Hale, Loretta Cruise, Billy Powell, La Fern Hazelwood and Nellie Dozier.

MRS. JOHN ESTES HONORED WEDNESDAY

Mrs. John Estes, who was Miss Nell Mecom before her recent marriage was named honoree at a shower given Wednesday afternoon at the Spur Inn from five to seven o'clock. Hostesses for the occasion Mrs. Sybal Taylor, Leona King, Ovia Senning, Misses Era Belle Hogan, Ann Lee, and Martha Nichols. In the receiving line were Mrs. Sybal Taylor, the honoree, her mother, Mrs. J. I. Mecom and sister, Rita Mecom and Mrs. Leona King. After the guests were registered in a lovely bride's book, presided over by Mrs. Ovia Senning, Miss

NEW CHAFFEUR'S LICENSE TO BE ISSUED IN OCTOBER

Instruction from Colonel H. H. Carmichael, Director of the Department of Public Safety, state that the issuing of Operator's and Chaffeur's licenses, under the new state law would start in October. The de-

partment has been delayed in putting the law into effect because of the lack of man power. The new law specifies rigid examinations for applicants for a license and the license will be issued by representatives of the department instead of the sheriff's office

Don't Lose Time with a Worn-Out Row Binder

Speed is essential at silo-filling time—it pays to have a Row binder you can depend on for sure, steady performance. Don't try to get along with an old, worn-out binder—an investment in a new McCormick-Deering is more than worth while.

The McCormick-Deering is available in vertical and horizontal types, and there is a special vertical binder for use where corn is short. Both have a reputation for good work under all sorts of conditions. They get all the corn and bind it tightly in evenly butted bundles. A bundle loader, available on special order, carries the bundles to a wagon or truck driven alongside.

Put in your order now for the type of McCormick-Deering row binder you prefer.

SIDELIGHTS

By MARVIN JONES

The session of the Congress which is nearing its close has enacted more major farm legislation than any other session in the history of the government. Among the more important ones are:

1. Extending the operation of the present Soil Conservation Act to 1942.
2. Agricultural Marketing Agreement Act. This probably affects more farm products, in value, than any other measure that has been passed.
3. Farm Tenant Act
4. Reduction of interest on Land Bank Loans.
5. Perishable Agricultural Commodities Act.
6. Great Plains Drought Act.
7. Farm Credit Act of 1937.
8. Crop Loans for 1937.
9. Cotton Classification.
10. Provision to destroy grasshoppers.
11. Extension of Commodity Credit Corporation.

The agricultural production of America is vast and far-reaching. More than 200 different agricultural commodities are produced in this country. The total income from the sale of these commodities is about \$9,500,000,000 per year.

We are now endeavoring to work out general farm legislation. It is difficult for this to be done in a way that is fair to all sections.

For instance, the Farm Bureau presented a bill which on its face sounds well, but in reality it would be utterly unfair to our section. Under its terms, the corn growers would receive nearly as much in total payments as would the producers of wheat, cotton, rice and tobacco combined. This hardly seems fair to some of the Representatives from these latter areas.

The FAIR STORE

Contrary to some reports, the President has not endorsed the Farm Bureau bill.

The President and the Director of the Budget have indicated that the most the farmers could hope to have appropriated for a farm program would be about \$500,000,000 per year. This would mean if this bill enacted that farmers could not hope to receive more than half the amount they would be promised, or 50c on the \$1.00. I agree with most of those who have studied with question that any promise made by the government should be lived up to.

Then, too, the Farm Bureau bill would be very unfair to our country in that it would allot production on the basis of the ten year average of the years 1927-1936, inclusive. As these years include the great drought years, it would be unjust to the Great Plains area.

Another provision that would have to be greatly changed in order to be practicable is the provision in the Farm Bureau bill for so-called production "control". As a practical matter it is no control at all. It provides an allotment to farmers; then permits the farmers to sell any amount in excess which they produce but requires the United States District Attorney to file suit in the federal court for approximately \$40.00 per bale on cotton, 50c per bushel on wheat, and 40c per bushel on corn as a penalty for the sale of the excess production.

In many parts of the Old South where there is a high percentage of tenancy and about one-half the farmers are colored, and also in certain other sections of the United States where there is a high percentage of tenancy, many feel that these suits could not be collected and that therefore the "control" would break down. It would be particularly hard on our country because judgments should be collected against a much larger number of farmers in our section than could be collected in many other areas.

These are just a few objections to that measure.

I have found that we must be particularly careful to see that our section is not discriminated against.
