If anything good has happened during the Republican administration since 1952, it has been to show the world the GOP can't improve on anything, despite the way it once threw criticisms here and yon with reckless abandon.

The last example of this ridiculous game of table-turning came when Presidential advisor Sherman Adams quit his post Monday night in a nationwide televised speech. Despite his former unforbearing manner in hunting down influence peddling by government employees, Mr. Adams was caught up in his own web. He swore he had "done no wrong" but yet conclusive evidence of his taking gifts from textile tycoon Bernard Goldfine was presented before congressional investigating committees and evidences were shown of Goldfine's use of the Adams name for his personal gain. On a local or state level this could have been called bribery. On the national scene it is being "indiscreet." Perhaps Adams is right. Perhaps he did not wrong and history will make his a martyr to gigantic injustice. If this happens it will indicate one thing—that our national code of ethics, which has been changing and losing force for years, will weaken even more in the future. It is easy to feel sorry for Adams, but it is also possible to feel sorry for a man convicted of breaking a law he didn't know existed.

Another issue that has thrown the nation into the throes of anxiety and turmoil is school integration. Most southern governors are realistic, sane, and sensible men who can understand reasoning. This does not include Arkansas' Governor Orval E. Faubus, whose one-man campaign for national self-glorification has caused most of the strife in the integration-torn Southland today.

One of the South's ablest governors, A. B. (Happy) Chandler of Kentucky, had this to say about strong segregation sentiment at a recent governor's meeting in Lexington: "It's just like any other sickness—the longer you let it run, it becomes chronic and the patient may die before he gets the proper medicine. We cannot escape the indictment that for all of my lifetime we have not given these people (Negroes) equality of opportunity or any opportunity at all, sometimes . . . we can't talk about states' rights and not accept our state obligations."

Governor Chandler pretty well expressed the problem. As a nation we have long expressed pride at this being a country made up of all nationalities, creeds and faiths—that is, all except the Negroes. All this talk about how we should not have pushed this integration thing so quick is more than likely an attempt of this generation to pass the buck on to the next. Most people who are for promoting integration are not doing it out of any love for our Negro segment—it's a matter of principle that can't be absolved with word or emotions or the Klu Klux Klan. No one may want their children to go to school with Negroes but in this world there are many bitter pills to swallow. Strong people swallow these pills and go on—others cry and wail and cannot accept the fact of their pain.

One of the men in the mechanical department of this newspaper says he's eagerly watching for the new 1959 model automobiles trying to make up his mind which to buy. But he says he's in no hurry—he's got ten years to decide.

The Castro County Fair this year was the best yet and it was good to see the excellent response from the people of this area. We have hoped for many years that the annual fair would someday begin to grow bigger and better with more people taking an interest in it. Apparently that day has come.

Jokes have a way of going around and around until they get worn out. Here's one we've heard three times, by actual account, one day this week: A man was walking along the sidewalk in front of a row of houses minding his own business. At one house he saw a small boy straining and trying to reach the doorbell. It was such a pathetic looking case the man walked up to the porch and rang the bell for the boy. Expecting a thanks, the man asked, "Now what do you say, sonny?" "I say I'm going to run as fast as I can," the kid said as he ran off the porch and up the street.

**NEWS TO PUBLISH
FAIR RESULTS**

The Castro County News will run a complete listing of the results of judging in the Castro County Fair beginning with next week's issue. Lack of time for the complicated composition ruled out its publication this week.

MISS JO BEECHER was crowned queen of the fair Saturday night by Fair Association President Noble C. Howard. Also at the top in the queen selection were Sandra Leeth of the Lions Club and Carol Cowser for the Southwestern Public Service Company. Bobcats Braced for Tough Abernathy

The Dimmitt Bobcats maintained their unscored-on record Friday night against a strong Hereford Whiteface team. At game's end the score was 6-0, which reflected the least scoring accomplished by the Bobcats in a game so far.

This game brought the Bobcats to one of their toughest competitions of the year—their upcoming affair with the Abernathy Antelopes Friday night.

The high-riding Antelopes played a Class A power this year, to the tune of 30-8 with Sundown managing a score with seconds left in the game. In other games this season the Antelopes dropped Spur 20-8 and Tulla 16-14. Abernathy is generally considered to have a stronger team than Hereford.

Dimmitt will go into the game at 8 o'clock Friday night at Abernathy with several injuries on its roster. Probably out for the sea-

son is James Collins who suffered a back injury. His injury is not considered serious, but is painful and he will need most of the remaining season to recuperate. Other players who received hurt backs during the contest were Jack Ragland and Junior Coffey. The rugged Hereford contest also saw Whiteface fullback Joe Sherman suffer a back injury. Norman Nelson will be handicapped with a sprained ankle.

Abernathy would like to defeat Dimmitt, probably more so than most other teams. Last year Dimmitt upset the undefeated Antelopes 32-0 and the year before that, when Abernathy was supposed to whip everyone in sight, Dimmitt pasted them with a 13-7 defeat at the Abernathy High School.

Although the score indicated a tight game Friday night, the Bobcats completely dominated the game. Hereford was never able to get its offense moving and mustered a net gain of only 40 yards on the ground with 52 on punt returns. This compares to 156 yards made on the ground by Dimmitt, plus 38 through the air and 26 on kick returns. Dimmitt rolled up 12 first downs to Hereford's three. Most of Dimmitt's major scoring opportunities were lost by fumbles

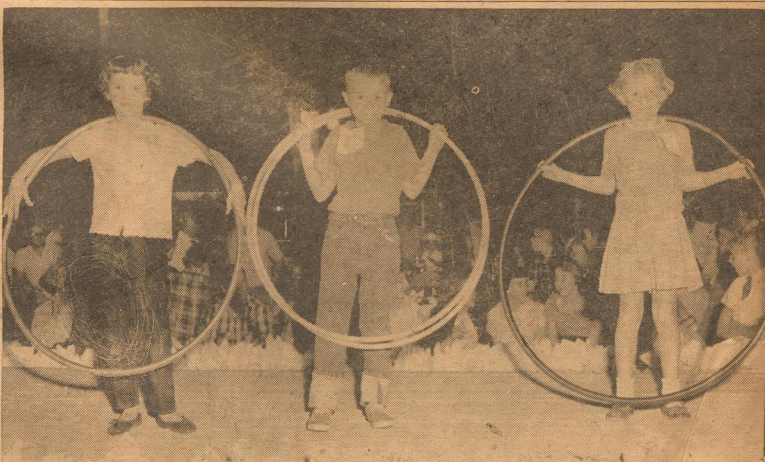

and penalties. The Bobcats completed four of seven passes, while Hereford failed to complete either of the two they tried.

**Police Raid Saturday
Nets 12 Gambblers**

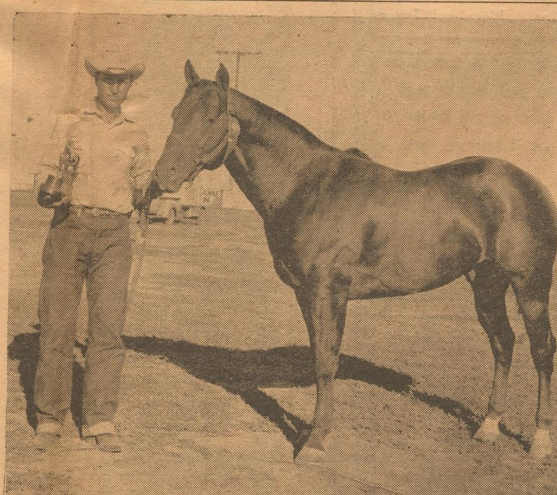

A raid by County Sheriff Jack Cartwright and City Marshal W. W. Jones Saturday night resulted in the apprehension of 12 Spanish men involved in an open-air dice game in East Dimmitt. The two law officers drove past the lookouts stationed by the gamblers in a pick-up truck and made the arrests. The men were marched to the Court House where they paid fines of \$10.25 each.

County Fair 'Best Ever Held'

The Castro County Fair held last week end was one of the most successful ever held, according to officials of the annual event.

An estimated terrific crowd of from four to five thousand people thronged to the fairgrounds Saturday night in the largest gathering of county people ever seen.

Cars were reportedly backed up as far as four blocks away from the crowded fairgrounds. Even optimistic members of the fair association said they were amazed at the turnout.

The crowds found plenty to see, too. A laugh-filled pie-eating contest was won by Bill Arnold, who went home \$10 richer and with a full stomach. Fourteen boys and one girl vied with each other to see who could cram their pie down the fastest.

Another novelty on the Saturday night entertainment was a hoola-hoop contest. First place in this division was Carolyn Jones, who could make one of the plastic hoops do most anything. She was followed by Teddy Smithson and Paula Byrnes. The whirling hoops fascinated most everyone who watched.

The Dog Show was won by the

following: Katherine Taack, quietest dog; Benny Simpson, best behaved dog; Mark Simpson, dog of least known ancestry; Janie Mae Boothe, prettiest dog; Charles Richmond, dog with the shortest tail; and Jerry McGuire, dog of the best breeding.

Some 1,500 ribbons were awarded to contestants at the fair in all divisions.

Big Square H. D. Club won first place in the Educational Exhibits division, followed by Flagg, Bethel and Hart Senior H. D. Clubs in that order.

In the Culinary, first was won by Mrs. Ben Smithson and second by Mrs. Raymond Smithson.

Mary Helen and Glenn Ann Maples captured all the grand and

reserve championships in the poultry division with Mary Helen holding the edge over her sister. She also won grand champion buck and grand champion doe in the rabbit division as well as the grand champion hen and reserve champion hen in the turkey show. Both Mary Helen and Glenn Ann have carted ribbons away by the basketful from judging all over the state and at all kinds of shows, principally with their turkeys. The two sisters kept up the pace in the Castro County Fair and this year also took plenty of ribbons in the girls may soon be getting real competition from their little sister Elaine, who also garnered several ribbons in the contests.

In the swine division, Gene Johnson showed the Grand Champion Gilt and Jackie Clark had the Reserve Champion Gilt.

Gerald Braddock had the champion heifer in the dairy division and Melvin Braddock had the champion bull.

Champion in the sheep division was Jerry Blackwell with his lamb.

L. B. Bowden won first place in Milo Hybrid; Don Curtis was first in Kafir; and Mary Helen

Maples was first in Hegari. Mary Helen Maples won first in yellow, white and pop corn. J. R. Smithson was first in Sesame, Milton Bagwell was first in soybeans, and George Bagwell was first in Sheaf Forage. Cotton first place went to Roy Taack. In the fruits division, Verdona Curtis was first in peaches and Roy Taack was first in watermelon and cushaw and Roy Taack was first with Honey Dew Melons.

Bethel Has Best Float

One of the largest and most colorful parades of any kind ever to appear in Dimmitt was held Saturday in connection with the Castro County Fair.

A total of fifteen floats were in the parade, plus other entries making a total of twenty-two separate participants (all commercial entries are counted as one).

An Educational Division first place prize trophy awarded to the Bethel Community entry with their theme of "Gateway to Progress." The Dimmitt High School Junior Class won second and the Girl Scouts third in this division.

In the Commercial division, Southwestern Public Service Company won first place, followed by the Castro County Chamber of Commerce in second place and the Lions Club in third.

The Bethel Community float also won the grand award of traveling trophy for being the best all-

around float. Judges for the parade were John Noble, Rex Aycock and Carrol Gunter, all of Tulla.

Making arrangements for the parade were Earl Brock, chairman of the parade committee of the Fair Association; Bruce Wooddell, Parade Marshal; Gene Kenmore, J. B. Moore, E. V. Hargrove, and Deroy Cates.

Joe Cowen, mayor of Dimmitt, presented the parade awards.

Leading the parade were the Hart and Nazareth American Legion Posts carrying the American, Texas and Legion color. They were followed by the Dimmitt Bobcat Band and the floats.

**County ASC
Committee Is
Named Here**

The Castro County ASC Committee was elected Wednesday morning at a meeting in the office in the Court House.

The Committee will remain with the same members at last year although Jim Elder was made a regular member instead of chairman and his old post was taken over by former member Clyde Hancock. Vice-chairman is Willis A. Hawkins, Sr. First alternate is Vern East and second alternate is Owen Andrews.

These men were elected by delegates to the county convention who had been chosen in the community elections earlier this month, and Bill Simpson of Community A; M. L. Simpson of Community B; H. C. Nelson of Community C; and Milton Bagwell of Community D.

The new county committee takes office October 1. Purpose of the county committee is to administer the rules of the United States Department of Agriculture in this county. They set farm acreage allotments and handle general ASC county business also.

**Shotgun Diplomacy
Used in Local
Marital Problem**

When Henry Baker, Negro laborer from Hart, saw his wife coming toward him with a double-barrel shotgun Wednesday morning, he knew enough to run.

Baker, who was working in a corn field at the time, ran fast enough that he wasn't touched by the single shot fired at him by his irate wife.

The wife, Martha Daniel, claimed that Baker had not been a faithful husband and that if she "could 'a got closer the sheriff would 'a just had one person instead 'a two to bring in." She also indicated she would like another opportunity with the shotgun which she had purchased especially for this purpose.

The couple have a baby which was turned over to the husband who returned home. The wife is in jail.

DIMMITT BOBCATS EDGE HEREFORD WHITEFACES 6-0

The Dimmitt Bobcats remained undefeated and unscored on by beating the Hereford Whitefaces 6 to 0 last Friday night at Hereford.

The first time the Bobcats got the ball, they drove 75 yards in 20 plays. Halfback Norman Nelson plunged through the Whiteface line for the final three yards and the lone touchdown of the game. During the game he carried the ball 15 times for 75 yards, an average of 5 yards per try.

Jimmy Curtis and Jerry Hyatt help fill out the 193 yard total made by the Cats.

The Dimmitt team threatened again in the second quarter when they drove to the four-yard line, but were held there for four straight downs. The Bobcats dominated the remainder of the game, which consisted of short drives. Don Warren led the linemen in tackles and recovered one fumble. Hal Rateliff and Ben Holcomb were close behind Warren. Holcomb covered the ball after he and Junior Coffey had blocked a punt.

James Collins, starting fullback, will probably be out the rest of the season because of a back injury received in the Hereford game.

This week the Bobcats go to Abertown to play the highly rated Antelopes, who are the favorites of the Class AA teams of the South Plains.

SCIENTIFIC HOOP METHOD REVEALED

In a recent hula hoop contest in Memphis, Tenn., the winner, President Peyton N. Rhodes of Southwestern College, explained the secret of his winning thusly:

"Anyone who has had the benefits of physics I and II was sure to be a winner. Actually, what it involved is the conservation of angular momentum.

"It is merely necessary to exert a small but carefully regulated impulse, the product of force X time, by allowing a hypersensitive sacroiliac to impinge on a small portion of the interior periphery of a short section of the hoop.

"The impulse, applied with some discretion, serves to produce a change in the angular momentum of the hoop, and if the force of this impulse is so directed that there is a small vertical component of this momentum opposing the force of gravity which acts uniformly over the plane of the hoop, then the resulting horizontal motion will be maintained with rare uniformity to the amazement of all beholders who do not realize that the whole deal is just as easy as falling off a log."

FROSH EDGE HEREFORD 14/2

An end run for tweekra points gave the Dimmitt Freshmen a 14 to 12 victory over the Hereford Freshmen here last Thursday night.

Gene Bradley ran 0 yards for the first score and Jimmy Chavers went around the end for the two extra points. After Benny Nelson had run 55 yards to set up a second TD, Chavers raeed 20 yards for Dimmitt's final six points. Squad members vote Nelson and Bradley the two to players of the game.

Band on the March

The band is stepping up in high style this year with two parades in three days. The first was Saturday, here in Dimmitt for the Castro County Fair.

Monday, September 22, the band traveled 72 miles to Amarillo to help kick-off the Tri-State Fair. This was followed by a day at the fair. The Fair Association gave each member of the band a dollar for the noon meal.

At promptly 4:30, the band loaded on the buses and returned to Dimmitt, where they drilled for the Friday night football show.

Senior boy of the week

On February 21, 1940, Dr. Stork delivered a bouncing baby boy to the home of Mr. and Mrs. O. E. Warren in Bonham. They named him Don. When Don was in the sixth grade he moved to Lubbock. In 1957 Don moved to Dimmitt. Don plays tackle on the Bobcat football team and kicks for extra points and the kick off. Last week he was listed on the Dream Team of the Avalanche Journal. He was also listed among the outstanding linemen in the story of the Dimmitt-Lockney game. Some of Don's favorites are:

Food—Steak, Color—Blue, Actress Kim Novak, Actor—Joel McCrea, Pastime—Playing football, Pet Peeve—Homework.

Surgeon to attendant: "Get the name of the accident victim so we can tell his mother."

Problems of City Shopping Told by Editor

(Ed. Note: This newspaper has always plugged the trade at home principle because of the assumption that it works out best for all concerned. The recent toughing-up of police activities in Amarillo is a case in point. Several newspapers over the area have picked up the following story and used it also to point up the difference between small city and large city attitudes towards people.)

By CECIL WAGGONER
Editor—The Claude News
Where there is progress there are police and Armstrong County residents are finding that a great deal of progress is going on in Amarillo, of which they are helping to finance.

Every week several Armstrong County residents get stuck with the tab and the friendly Amarillo gestapo is free-wheeling the city out of rural trade. On checking the following stories more than one plans to stay out of Amarillo. All of these offenses are over-parking, not traffic violations.

One woman almost had to lay out a fine in jail. The court wouldn't take her check and she had spent all her cash in the "friendly city."

A man was denied a hearing because the judge wouldn't be in that afternoon. He was refused bond and thus forced to pay the fine or wait in jail until the judge opened court again.

Two ladies visited a dentist. One had a tooth pulled and was suffering. They were five minutes late in getting back to their car. The car was being impounded, they refused to give her a ticket and leave the car. The car was towed away and ladies were fined \$35 plus \$5 tow fee.

One man was almost cited for contempt of court because he absently said "mam" instead of "your honor" to a lady judge.

Another man's car was impounded. He didn't have his certificate of title and was forced to catch a ride home and get it because they wouldn't accept a verification by phone from the Armstrong County Sheriff.

One lady with three children wandered the streets aimlessly thinking her car had been stolen. She found it had been towed away or overparking.

There were plenty more but space won't permit us listing them. However, several have been fined because they were in the intersection when the light turned amber. One man now stops on every blue light, regardless.

Every case I checked were forced to plead guilty or face the possibility of several return trips to Amarillo or staying in jail.

After reporting this, I plan to stay out of Amarillo. I'm certain they have effective means of retaliating.

Mother of Year Speaks to Teachers

Mrs. Jessie Boardman, 1958 Texas Mother of the Year, spoke at a meeting of the Castro County Teachers' Association, Monday night in the school cafeteria here.

Following a business meeting with Sister Loyola Schmucki of Nazareth presiding, Mrs. Boardman spoke on "Reflections of a Retired Teacher."

"My heritage in parents who taught us to live fully and completely would rule out as folly retiring to idleness or succumbing to a passive existence. Rather, it should be a time of opportunity for varied and challenging experiences," Mrs. Boardman stated.

"It is my sincere belief that teachers of all periods have been on the whole conscientious persons, eager to give their best efforts for the welfare of pupils," she continued.

"We cannot afford to lose sight of the fact that the most important thing is to instill in children the desire for worthwhile achievements."

Mrs. Boardman feels that in order to do this, teachers must be alert to the talents and interests of children and further, that in the light of present day criticism of our schools, teachers must realize that in a cramming of facts without relating them to daily living, much will be lost.

Mrs. Boardman concluded her talk with some highlights from her experiences following the awarding to her the "Mother of the Year" title in Texas.

"Some common principles which have contributed to successes achieved in the most challenging of all careers, that of Motherhood, can be applied to teachers: Love, Discipline with Justice and Reliance on God," Mrs. Boardman said.

Mrs. Boardman now lives with her brother, Mr. Joseph Davis of Amarillo, president of District IX of the Texas State Teachers' Association.

I was very proud of Castro County and its people last week when one of the largest and best Parades and Fairs ever seen in Dimmitt was held. The parade was on the "big town" level it its beautiful and colorful floats. The fair was a great success in that it had such good exhibits.

This was the first time for Dimmitt to hold a Quarter Horse Show that was approved by the American Quarter Horse Association. There was more entertainment than has ever been offered and it had one of the larger carnivals engaged.

However, a fair and parade are not just thought of one night and held the next day. There was much work and planning put into them by many Castro Countyites. Long hours of mental and physical labor went into the making them such a success.

I was also impressed by the most attractive queen candidates. Everyone of the six girls were winners. I am glad that I didn't have the task of being a judge. I know the decision was not a quick and easy one to make.

Thanks, and my hat is off to all of you who had even a small part in making another mark for our county by having such a successful fair and parade.

Did you see the Pie-Eating contest? If you didn't, you missed having a good laugh. I've seen

boys and girls with dirty faces, and I have seen them eating as if they had never had a bite before in their lives, but this event took the cake. Not only were their faces a sight to behold, but their hands and arms were stickily covered by meringue as well as their clothes, from the shirt collars clear down to the cuffs of their trousers.

Another thing, have you ever tried the now famous Hula-Hoop? Well I have. But with little or no success. However, some of the youngsters around here proved very efficient in their keeping one or two of the hoops spinning endlessly. One little girl even took off her sweater and put it on again with apparently no effort on her part to keep the hoop spinning.

The Flower Show was another event that I thoroughly enjoyed. I didn't know there were so many beautiful flowers still in bloom at this time of the year... around here, that is. However, there were many different kinds of flowers exhibited and the arrangements

were outstanding.

I am looking forward to next year, now. I know that with such a successful year as we had this year, we will stage another, perhaps bigger and better, next year.

The only blemish on the record that I found, is that we could use another fair building, providing the future fairs can be as successful as this one.

'nuff said,
Mary Flynt

CONTROL JOHNSON GRASS

(AND OTHER GRASSES)

CHEMICALLY . . .

WITH

DOWPON

Unwanted grasses are usually the toughest problem where farming is best. They thrive on the very climate and soils that should produce top crops.

Now you can control grasses, without cutting, cultivating, or oiling. Dowpon, is the new chemical way to keep grasses from invading your fields, throttling irrigation and drainage ditches. Hoeing, chopping, cultivating, and oiling only get grass out of sight temporarily. Dowpon gets rid of it.

How DOWPON works

Dowpon is a systemic grass killer—meaning that it kills by working through the plant's system. You simply spray the foliage. Dowpon is absorbed through the leaves and works down through the plant, right into the roots, usually killing the entire plant.

Because it works inside the plant, a Dowpon spray is less likely to be affected by weather conditions. Rain can't wash it off after it has been absorbed.

You can use Dowpon with safety on your farm—foliage sprayed with Dowpon is non-hazardous to grazing livestock.

Walter Rogers' WASHINGTON NEWSLETTER

ADJOURNMENT

Although the word "adjournment" has been mentioned in no less than 10 newsletters, it was always used in the future tense. The word is being used in this newsletter in the past tense because the House of Representatives finally adjourned at 2 a.m. on Sunday morning, August 24, and the Senate followed suit at 4:11 a.m. the same morning. Adjournment is a funny thing. The Congress begins to prepare for it in the spring and works on it all summer but never seems quite ready. This probably explains why it is necessary to stay up all night in order to finally close down the session.

As usual, the House of Representatives finished its work ahead of the Senate. There was very little to do in the House from mid-afternoon Saturday, August 23, except to wait for the spasmodic actions of the Senate on measures that had already been acted upon by the House. We did recess from time to time waiting for one of these measures to be returned from final House action. This waiting period usually creates a tension among the House Members. This tension creates a desire to let off steam and some of the Members like to employ these waiting hours by singing or citing poetry or other such activities on the floor of the House. In some

past sessions of Congress singing has been permitted as well as the playing of musical instruments by some of the members. However, this year these waiting hours were devoted primarily to the discussion of legislative matters as between the members. Efforts to engage in song and musical activities, or other nonlegislative activities, were stopped. Personally, I feel that the Speaker did a great service in not permitting a departure from action in complete keeping with the jurisdiction and rules of the House of Representatives and the Senate that should be observed at all times. I feel that this traditional dignity should not be challenged by activities that may appear unbecoming in the least. It is my hope that in the future the adjournment of Congress will, like the convening thereof, be conducted in a decorum befitting a body charged with such serious responsibilities. I feel sure that if the wishes and desires of Speaker Sam Rayburn are adhered to, the House Chamber will never become a forum of frivolity for even a fleeting moment.

Resume of the 85th Congress Second Session

The second session of the 85th Congress was continuous from January 7, through August 24, 1958. The House was in session for 562 hours and 12 minutes and met on 135 days. The Senate met on 138 days and was in session for a total of 1,014 hours and 45 minutes.

Proceedings of the House required 6,721 pages in the Congressional Record. The Senate consumed 11,389 pages. A total of approximately 444 public bills became law. Three hundred and four of these were House bills and 140

were Senate bills. Two hundred eighty-four private bills became law; 179 were Senate and 105 were House. The House passed a total of 1,348 measures, including Senate bills, House bills, Senate joint resolutions, House joint resolutions, Senate concurrent resolutions and simple resolutions. The Senate passed 1,370 of the same. Four thousand nine hundred forty-four measures were introduced in the House, while 1,647 were introduced in the Senate, making a grand total of 6,591 measures introduced during the second session of the 85th Congress. It is well to note that at the time these figures were compiled on August 27, 1958, only 444 of the public bills had become law. This will afford some idea of the exhausting screening process through which all measures introduced in the House, while 1,647 before becoming law. In the House of Representatives there were 102 quorum calls and 93 yeas and nay votes, making a total of 195 record votes and quorum calls. The Senate had 114 quorum calls and 202 yeas and nay votes. All bills are not passed by a record vote. A yeas and nay vote may be on a motion to strike the enacting clause, on a motion to recount or on passage of a bill. This explains why there were more bills passed than there were yeas and nay votes. The President vetoed 6 Senate bills and 8 House bills or a total of 14. Only one veto was overridden. He presently has several bills on his desk which may be vetoed before you receive this letter.

LIVESTOCK MARKET REPORT

An outstanding feature of this week's market was the liberal volume of Choice grade stockers and feeders. Receipts were posted at around 6,600 head, this being

around 500 head larger than last week and 1,300 greater than one year ago. Stocker and feeder classes comprised around 95 percent of the total with cows accounting for less than 5 percent of the run. There was a slight increase in the number of bulls with around four loads on offer. The largest portion of the stocker and feeder feeder offerings was stock calves. Trading was moderately active, however, the demand was narrow due to the limited number of

buyers present. Despite the meager number of cows and bulls for sale, prices ruled mostly 50 lower on these classes. The market was on a par with stocker and feeder classes. Feeder steers found ready outlet at strong levels, instances 50 higher on Choice grade, while stock steers and heifers opened steady but closing averages were mostly 1.00 lower. Stock calves uncovered downturns of 50-1.00 on Monday but this loss was recovered on the following session, leaving this class steady for the week.

Parmer County Man Reports— Increased wheat yield 24 bushels per acre

Leon Billingsley, successful High Plains farmer, says: "I applied 100 pounds per acre of Phillips 66 Agricultural Ammonia pre-plant to my irrigated wheat and increased my yield from 18 bushels to 42 bushels per acre. I figure my net profit increase to be around \$40 per acre."

Other successful Southwestern farmers use Phillips 66 ammonia to give them higher grain yields... and more profitable grazing. The 82% nitrogen in Phillips 66 Agricultural Ammonia gives young wheat a fast start, supplies plenty of lush, protein-rich forage that puts on more beef at less cost per pound.

Many of these farmers plow down Phillips 66 ammonia in the fall on maize land. They know that the 82% nitrogen helps decompose crop residue, to provide extra plant food and make the soil more productive. Remember, Phillips 66 ammonia gives you more nitrogen per dollar than any other form of fertilizer—a full 82%.
