

## Some Rural Water In Two Weeks

Wilmeth Baptist Church . . . Built 1976

### Wilmeth Baptist Church Dedication Sunday

BY CHARLSIE POE

The Baptists of Wilmeth have recently completed a modern red brick sanctuary, and dedication services will be held Sunday, June 13, at 2:30 p.m.

The Rev. J. H. Halford of Ballinger will preside for the services, and the Rev. Virgil James, a former pastor, will preach the dedicatory sermon.

Prior to the special service, Sunday School will begin at 10 a.m., and after other reports have been made, everyone will assemble in the auditorium for a song service directed by Luther Black, a former member of the Gospelaires.

Each former pastor who attends will be given the opportunity to speak,

according to the Rev. Temple Lewis, pastor, who is in charge of the program.

At 12:30, a catered lunch will be served in the church annex for those attending. Reservations should be made for the meal.

The completion of the new building, which includes five Sunday School rooms an auditorium, seating approximately 220 people, is the fulfillment of a dream for the 34 active members, two of whom have recently joined.

"Two years of work and a lot of love have gone into this building," said Mrs. J. B. Denson, who was still to paint the steps to the baptistry. "That's all we lack being finished and

the members have done almost all of the construction. We also wrote all of our 46 non-resident members and they were most gracious to send us money for this project," she said. "And we expect a number of them for the dedication."

Decision to build the new church came after two hail storms in 1973. The first one in May damaged the old building and plans were made for repairs, when three weeks later another storm did extensive damage. The roof was blown off and the members decided that the Lord wanted them to have a new house of

A few member-customers of North Runnels Water Supply Corp.—those who have their private lines installed and ready—probably will have water within about two weeks, LaDell Davis, manager of the rural water distribution system said Tuesday.

Davis said some sections of the systems are near enough complete "that we will be running water through the lines" within a few days.

This will affect only those customer outlets east and southeast of Winters, Davis said. At first, those who will be connected will get water directly from the Winters system—gravity flow—until the pressure pump stations are completed.

Earl Murphey, project superintendent for the construction contractor, said that if work progresses as planned, the lines will be flushed and cleaned of all dirt and foreign matter,

and then be disinfected and chlorinated to receive water from the Winters plant.

Davis urged all those in the area who have not installed their private service lines to do so as early as possible, to be read when water comes.

Davis also said that some of the outlying customers—on the end of the lines east and southeast of Winters—may not have proper pressure at first, and must depend upon gravity flow from the Winters plant. Construction of pumping plants to increase line pressure was begun this week, and then pumps will be turned on the rural lines when completed.

In other areas of the rural distribution system, work is progressing as expected—if not a bit ahead of schedule, it was said.

### Flag Raising Saturday

A special program, sponsored by the Winters Bicentennial Committee, will be held in the City Park Saturday afternoon, June 12, to inaugurate the special Bicentennial "2-Day Flag Salute," a national observance.

The special flag salute period begins on Flag Day, June 14, and continues through July 4. All business and residents are being asked to fly the U. S. Flag during this 21-day period.

The program in the City Park will

be held at the site of the new band stand, at 4 p.m. Saturday. Mayor Homer Hodge will preside, and a group of children from the kindergarten, first, second and third grades, will present a short song program, under direction of Miss Karlene Eastman. This group will be dressed in the costumes they wore during the school pageant.

The main address will be made by Col. Barrett, USAF, commander of the 463rd Wing at Dyess AFB.

The Winters Post 9193, Veterans of Foreign Wars, will be in charge of the flag raising ceremony, and the Rev. Mel Swoyer, pastor of St. John's Lutheran Church, will give the benediction.

Organ music for the program will be provided by Les White Music Co. of Abilene.

### Guest Preacher At Southside Baptist June 13

Armor Bentley will be the speaker Sunday, June 13, at the Southside Baptist Church.

Sunday school classes begin at 9:45 and worship services begin at 10:50. Evening services will begin at 6 p.m. The public is invited.

### Mac Oil Team Won First In Industrial Golf Tourney

A team of high school boys sponsored by Mac Oil Field Co. won first place in the tenth annual Industrial-Commercial Golf Tournament Sunday at the Winters Country Club.

The team sponsored by Bishop & Sons Dirt Contractors won second, with three teams tying for third place in regular play. The Wallace Murray team won the third place slot in sudden death playoff, over John's International and Shell Oil Co., on the first hole of overtime play.

Partnership low ball honors went to John McAdoo and Dickie Roberts, 67, and second place to Al Fernandez and D. B. Crockett, 68. Tying for third place honors were He-man Baker and Don Hothan and B. Folsom and Scotty Belew, at 69.

Other teams in Sunday's tournament were sponsored by B&S Builders, Heidenheimer's, Abilene Sales, Main Drug, and Packaging Corp. of America.

### Plan Clean-Up Drive

"Civic and personal pride" has been suggested as primary incentives for cleaning up the town and private premises, but the Winters Chamber of Commerce is adding additional incentives—cash and special awards—in announcement of a special drive to begin Thursday, June 24.

The special drive to clean up the town will begin with emphasis on the downtown area June 24, and will carry over during the following weeks and days to the residential area.

All businessmen and concerned citizens are being asked to participate in mowing and cleaning vacant lots and around buildings. Merchants are being asked to pick up trash and unsightly debris in or around their places of business and deposit the trash in pickups or trailers which will be provided. The first clean-up day will begin at 3 p.m. and will last until

8 p.m. The Ladies Committee of the Chamber of Commerce will provide free refreshments for all volunteer workers.

Maintenance personnel from the school system the city, the county, and various businesses will be asked to lend a special hand in the clean-up activities by operating heavy mowers, shredders, and other equipment, Bill Graves, president of the sponsoring Chamber of Commerce, said.

The "Clean-Up Winters" campaign will continue with the presentation of an award each month for the residential "Yard of the Month," and the commercial "Winters Improvement Award."

The residential award will be in the form of a \$10 gift certificate, which can be redeemed by any Winters business. The award will be given to the homeowner with the most

beautiful yard and-or garden in town. Selection will be made by a committee representing the three women's clubs of Winters.

The commercial award will be presented by a committee from the Chamber of Commerce to the business which does the best job of beautifying or facelifting their building or premises during any month. This award will be in the form of a plaque which can be displayed for a month after the presentation is made.

Graves said that the directors of the Chamber of Commerce "feel that his 'Clean-Up Winters' campaign might wake up some of us to the fact that our town needs to be neater and cleaner. All of us are proud of Winters, but we sometimes fail to show our pride."

### 4-H'ers Attend Horse Camp At Coleman

Nine Runnels County 4-H Club members attended the 1976 Sub-District 4-H Horse Camp, held on the Coleman rodeo grounds May 26-30. Purpose of the camp was to provide training in basic horsemanship and showing of horses in various show events.

4-H Club members from Runnels attending were Jay West, Bryan Davis, Wayne and Keith Kraatz, Renne Blackwell, John, Rhonda and Karen Carter, and Misty Bates, all of the Winters 4-H Club, and Steve Neff of the Ballinger Club.

THE WINNERS—These high school boys, left to right, Jeff Russell, Johnny Curbo, Curtis Minzenmayer, and Scott Perry, won the championship in the Commercial-Industrial Golf Tournament at the Winters Country Club Sunday. They shot a low-ball score of 138 for 18 holes. Russell and Curbo won the partnership with a 62. This team was sponsored by Mac Oil Field Co., and competed with adult golfers from

Winters and Ballinger. Although trophies and other awards usually are made to winners of this annual tournament, the winning team this year received nothing for their efforts, not even a trophy, in compliance with University Interscholastic League rules, violation of which would make all of the high school boys ineligible to compete in any school sport or UIL activity.

### City Will Enlarge Fire Station

Winters City Council last week authorized the mayor to contact and contract with construction firms for construction of an addition to the city's fire station.

The mayor is authorized to spend up to \$10,000 for the addition to the present structure, which is part of the City Hall building. Upon completion of construction, there will be room for five fire trucks or vehicles. At the present time, there is room for only

three trucks in the station.

According to City Hall information, construction is expected to begin within the near future.

In other business at the last regular meeting, the Council was presented with copies of a proposed budget for fiscal year 1976-77. No action was taken on the proposed budget; final draft of the budget will be approved following a budget meeting within a few weeks, it was said.

**POE'S CORNER**

BY CHARLSIE POE

After Uncle Johnnie Ballew's sad farewell to his beloved Runnels County, no evidence can be found that he ever moved, not even for a time.

John Lollar says that Uncle Johnnie taught him to farm and he was with him from 1909 until 1915 and he thinks he would have known it if he left. "At least, he never told me goodbye and he wasn't glad to see me when he returned," said Mr. Lollar.

"I was a small boy when my father died," said Mr. Lollar. "My four sisters, who were older, and I worked for people in the Wilmett Community."

After Mr. Lollar left Uncle Johnnie he farmed on a place next to him. "Uncle Johnnie ruined more cotton and maize for me, going across my field without raising his plow. He never took his plows out of the ground for anything, not even pastures." Mr. Lollar also said that Mr. Ballew never had any harness for his teams, he used rope and pieces of chain.

Mrs. Court Meeks, the former Lora Conlee, said that when the Winters Enterprise came each week her Dad always read Uncle Johnnie's column to the whole family, and we always looked forward to hearing what he had to say. Mrs. Meeks had saved a page of the newspaper which told of her wedding in Dec. of 1914, and on the back of it was an article by Uncle Johnnie called "Mazeland Musing". Although he had always promoted cotton, Uncle Johnnie was off in another direction, preaching diversification.

**MAZELAND MUSINGS**

By Uncle Johnnie

We have always wanted to make a bumper crop and now we have made it. We have enough cotton to last two years.

Now the thing to do is to let the cotton business rest for awhile. Our lands are cotton sick anyway. So are we. We need rest and our lands need rest, or a change. We have made more cotton than the world needs. We must raise less cotton and more meat. Meat never was higher and cotton never was cheaper. To raise meat it is necessary to raise grain. But hogs are not the only things that are high—beef, and chicken, meat and turkeys and goat meat are high.

Anything is going to pay better than cotton. If we had made only a normal crop of cotton this year the country would have gone bankrupt. One fourth of a bale of cotton per acre at present prices would ruin any farmer and when you ruin the farmers you ruin every other avocation. I have figured out what I think any farmer in this section of the country can do

next year if he only has the grit and determination.

He can raise:

2 colts worth..... \$130.00  
10 hogs..... 200.00  
100 chickens..... 25.00  
2 heifers..... 50.00  
50 turkeys..... 50.00  
365 lbs. of butter..... 73.00  
200 dozen eggs..... 30.00  
Total..... 558.00

This amount supplemented by some maize, feterita, and oats to sell and a small patch of big boll cotton ought to support an ordinary family. Of course we must gather our own cotton. Runnels County will pay out seven hundred thousand dollars this year for cotton picking. A large per cent of this goes out of the county. Of course with this bale-to-the-acre crop we are glad to give the unemployed of other counties employment but while we are in fine shape with this bumper crop we must look ahead for self protection. We can't raise cotton in a dry country at six cents per pound. Six cents the pound and 1/4 bale per acre, which is a fair average, will bankrupt Runnels County. I am no pessimist by a jug full and a big jug and I am no alarmist, but just you mark what I say, Ikey. If cotton remains at present prices and we continue to depend on it for a money crop there is going to be a yell going up from this country that we have never heard before. We are in fine shape. Responsible parties coming up from down the state are trying to tell us what happened to other sections where short crops have been made and we had better take warning in time. Our cribs are bulging with feed. We have better teams and tools than we have ever had before. We have faith in our land and the business man has faith in us. There never will be a better time to change this section from an all cotton country to a dairy and chicken and hog and maize country. Nearly every farmer can manage to get hold of a few jersey heifers and a few pigs—better make the change before we get to where we can't.

I have been raising cotton 40 years and have been successful in a very modest way. My experience is that low prices for a series of years follows high prices. We have had high prices for a series of years and we can figure safely on low prices for the next series. It has

always been so. It always will be so. We must now watch up the corners with a wiser eye. We have been doing big things on the expansive order. Now we must watch the little things. Little things put together make big things.

I am told that the earth is made of small grains of sand. Men have made fortunes out of nickles and dimes. We must not despise the little things on the farm. We can wear our old cap another year but we are bound to eat. Soldiers and civilians are bound to eat. What's better than a large fat juicy roast. Think of a big round ham with a rim of fat running all round. Think of hot biscuits and yellow butter and red nam gravy! And there are the billy-bones, pot pies, drumsticks, liver and gizzards—go away trouble. Goats are good to eat. Mutton is hard to beat. A dressed one to carry o town once a week would bring over a hundred dollars a year. Goose meat is good to eat. Duck meat beats no meat. Let us face about and have some sense and something good to eat and some to sell instead of eating stale stuff out of tin cans and paper sacks.

NEXT Week: Uncle Johnnie's last letters.

- ★ Your air-conditioner will operate inefficiently if filters are not cleaned regularly. Dirt and lint, collected on the filters, restricts air flow to the coils. Clean filters every two weeks.
- ★ Let nature help you save energy by shading your home with trees and shrubs to help cut down on summer cooling costs. Draw draperies against afternoon sun.
- ★ Remember to keep outside doors, windows, and fireplace dampers closed. If you have window units, close the heating vents near the floor, as cool air falls and can escape through vents.

## KRUEGER'S KOLUMN

By CONG. BOB KRUEGER  
21st Texas District

Last week was a time of high school graduations all over the nation. Young people were completing their initial preparation for the responsibilities of adulthood. As they do so, it is appropriate for them and for us to consider some of the changes, positive and negative, that have taken place during the lives of these 18 years olds.

One of the most encouraging signs evident as I met with graduation classes in San Angelo, Comfort, and New Braunfels, was the success that young people have achieved in overcoming much of the racial discrimination that had marked the previous generation. At Lakeview High School in San Angelo, the only boy in a group with nine girls who were among the "top ten" students academically was Mexican-American; he was also the only boy to be a class officer. In Comfort, the girl who took more honors than any other was Mexican-American; and in New Braunfels, the student body president, who was voted Most Likely to Succeed, was black. None of these successes would have been likely ten years ago. Twenty years ago they might have been impossible. Today they are so commonplace as to go almost unnoticed. Yet they reflect movement in America in its bicentennial year to continue toward equal opportunity for all its people. I know of no other nation in the world that can rival the U.S.A. in this regard.

At the same time, however, America has perhaps come to value security at the expense of opportunity. We are less ready to take risks and more ready to suppose that government can guarantee results, whereas all that government can genuinely so is to insure freedoms and opportunities. These young people will find that in many areas where their country was once first and re-eminent it no longer is. How many Americans realize that per capita income in the U.S.A. is fifth, not first? The people of Sweden, Switzerland, Saudi Arabia, and Kuwait all earn more money per person than do Americans. During the last ten years, the average wages of manufacturing workers in Germany, Belgium, Sweden and Switzerland have all moved higher than the average wage of an American worker. At the same time, America's relative productivity has declined seriously. American productivity increased 29% in 1967-74. In the same period, productivity in European countries increased from 40-80%, and in Japan, productivity increased 100%.

### Mr., Mrs. Paschal to Note 25th Anniversary

Mr. and Mrs. Kobert Paschal will observe their 25th wedding anniversary June 14.

A reception in their honor will be held in the Shep Community Center, June 20, from two until four o'clock in the afternoon.

If construction and operation of nuclear power plants were restricted by unwarranted safety fears nationwide, for a period of five years, U.S. consumers could pay more than \$230 billion more for electricity, a study by University of Missouri experts indicates. This could mean families would be paying as much as \$230 a year extra for electric power.

### Ladies Aid Circle Meeting

The Ladies Aid Circle of St. John's Lutheran Church met June 3 at 2 p.m. with Mrs. A. C. Minzenmayer, program chairman, leading the opening song. Mrs. Herman Frick gave the devotional and led in prayer. Bible study leaders were Mrs. E. E. Thormeyer, Mrs. Ellis Ueckert and Mrs. Herman Frick.

Mrs. John Hiller read the offertory prayer, and for birthday numbers, Mrs. Johnnie Wessels read a poem, "There's A Cross In My Pocket."

Mrs. Walter Gerhart presided for the business meeting, and roll call was answered with Bible verses by 24 women.

Hostesses for June were Mrs. Jake Presley, Mrs. Charles Kruse and Mrs. W. F. Minzenmayer.

### Merrill Nursing Home News

Our monthly birthday party will be Monday June 14th at 3 p.m. Those having birthdays in June are Tom Harrell June 2; Anna Belle Hatler June 14; and Audrey Martin June 19. Friends and relative are urged to come to the party.

We have recently lost three residents by death. They are Bonita Griffith, Eula Dunn and Mattie Nobels. A short memorial service was held on Tuesday afternoon in our living room in memory of these three sweet ladies.

Three groups of children from the First Baptist Church V. B. S. came down last week and everyone enjoyed hearing them sing and the gifts they brought.

Sister Woelke brought the 5th Sunday message, and the Rev. Mel Swoyer conducted the service last Sunday.

Grace Hight and Mary Murphy are doing a great job with the "Friskey Frosties." We enjoy the rhythm band, as well as the physical exercise each Tuesday afternoon.

The Winters String Band will be here Friday evening at 7 p.m. You are invited to join us at this time.

Among out of town visitors this week was Mrs. Exa Johnson of Abilene, visiting Ara Busher and Rught Carter

### CARD OF THANKS

We wish to express our sincere appreciation to the employers and staff of the Winters Senior Citizens Nursing Home and to Dr. and Mrs. McCreight for being so kind and thoughtful of our mother, Mrs. Bonita Griffith.

Our thanks to Rev. Lindsey, members of Methodist Church, O.E.S. and friends for memorials, flowers, food, cards and other expressions of kindness to us in our time of sorrow. God bless you. Dr. and Mrs. Z. I. Hale 14-1tc.

### TO TULSA

Mr. and Mrs. W. F. Minzenmayer visited in Tulsa, Okla., over the Memorial Day weekend, and attended graduation exercises for Mason High School. Their granddaughter, Kathy Frierson, daughter of Mr. and Mrs. Johnnie Frierson, was a graduate. Exercises were held in Mabee Center, Oral Roberts University. Address was given by Jenkins Lloyd Jones Jr., executive editor of the Tulsa Tribune. Miss Frierson plans to attend Oklahoma University.

The initiation ceremonies were held at the close of the spring semester. Speaker for the program was Dr. Doreen Grimes, an associate professor of music at ASU.

**Local Book Publishing "Pioneers" Need Help**

Modern pioneers have problems, too—especially pioneers in the book publishing field. And they could use a little help.

The Genealogy Club of Winters High School is trying to publish a book, "North Runnels County Pioneers," and have run into several problems. Mrs. Edward Bredemeyer, sponsor and advisor to the club, said. An Abilene publisher had suggested that they sell the book by advance subscription for \$6.00 per copy—so they would have the money to pay the publisher. When they returned to this publisher to make final arrangements for the publishing,

Mrs. Bredemeyer said, he had decided he couldn't handle the project. All the other publishers contacted quoted a published cost of at least \$6 per book, or more for 300 copies. The club was hoping to make a profit of \$500 from this project so they could buy a microfilm reading machine to aid them in their genealogy research.

Cost circumstances have forced the club to take a second look at the selling price of the books. Mrs. Bredemeyer said the club has sold only 142 copies at the present time, at \$6 per copy. So, a sales campaign is now on, to last through June 15, to sell more copies at the

\$6 price. After June 15, the price will be \$10 per copy.

The book will have approximately 200 pages, with 60 pictures, hardbound. Delivery date will be August 15. There is information on more than 130 pioneer families, with many listings including all descendants.

Books will make nice birthday or Christmas gifts, the club said. If you are interested in purchasing a copy of this book, which should become a collector's item, make checks payable to the Genealogy Club, and mail to Box 125 (Winters High School), as soon as possible. The price will be \$10 per copy after June 15.

**HEAT MOLECULE**

Only 100 years ago, scientists thought that heat was caused by a substance called "caloric" that entered and left a substance. But heat is really the movement of tiny particles, called molecules, which make up a substance.

Before you endure hours of discomfort, baking in the hot sun, you should know that the healthful effects of a suntan are almost nil. In fact, excessive exposure to sun permanently damages the skin and leads to premature aging, wrinkling, a leathery texture, and can cause a cancerous condition of the skin. A quality suntan lotion reduces sun damage, as does limited exposure to the sun.

**Runnels County Citizens Committee**

releases names of committee officers: J. B. FIVEASH, Chairman, Norton JIM KING, Vice Chairman, Wingate SALLY BUXKEMPER, Secretary, Rowena MR. AND MRS. MELTON FULTON, Treasurers, Ballinger.

The Runnels County Citizens Committee originally consisted of two persons from each town in Runnels County, Rowena, Miles, Norton, Wingate, Winters and Ballinger. The committee at this time consists of approximately 51 sub-members and over 300 other citizens who have pledged financial or verbal support. This write-in campaign is no small venture. By November, we expect to be some 4,000 strong.

The committee is determined to work hard in large and small groups even to the extent of carrying the campaign from door to door in every community in Runnels County. The name of our write-in candidate will be announced when he has been cleared from his present position. Until this time we ask the citizens of Runnels County to support this man and vote on November 6, 1976, so all Runnels County will have a Sheriff they can be proud of.

## Local Student, Teacher Attend Nuclear Symposium

Cheryl Colburn, Winters High School student, and Mrs. Diann Wetsel, Winters High School science teacher, were among 19 outstanding students and teachers from the area served by West Texas Utilities Company who attended the 16th annual Nuclear Science Symposium at the University of Texas at Austin, Tuesday, June 1, through Friday, June 4.

The Symposium was jointly sponsored by the Texas Atomic Energy Research Foundation and the University of Texas. West Texas Utilities is one of the sponsoring companies.

The 500 selected high school science students and teachers who attended the session were offered the rare opportunity of hearing lectures by some of the nation's outstanding nuclear scientists.

The Foundation was formed for the primary purpose of conducting the world's first and largest privately financed research effort in the field of nuclear energy. Currently, the Foundation and The University are sponsoring a program in nuclear

fusion research aimed at controlling thermonuclear reactions for the production of electric power. Fusion is the energy process of the sun and the stars.

The goal of the Foundation and WTU is not research alone, but to also assist in the advancement of the knowledge of nuclear science in Texas schools. Of special interest to the

Wilmeth Baptist Church . . . Built 1923

**Wilmeth Baptists**

(Continued from Page 1)

worship. They razed the old structure and salvaged most of the lumber for the new building. Church services were held in the annex during the time of construction.

Mrs. Denson, the former Genevieve Puckett, is the daughter of Mr. and Mrs. W. E. Puckett, pioneers, and has spent all her life in the Wilmeth Community. Her mother, known as Miss Mollie, was the last charter member of the church. She died June 20, 1972.

The Wilmeth Baptist Church was first organized as the Mazeland Baptist Church of Runnels County, August 2, 1906, in the old Mazeland school house. S. T. Hazel of Hylton and W. P. Hicks of Miles, missionaries of the Content Association, composed the organizing presbytery, with Miss Willie Sadler of Nort acting as clerk.

The following persons were received as charter members by presentation of letter. They were Mr. and Mrs. W. C. Spence, Mr. and Mrs. J. W. Warren, Mr. and Mrs. E. M. Bond, Mr. and Mrs. S. J. Williams, J. W. Williams, Charlie Spence, Willie Bond, Mrs. W. E. Puckett, Miss Beatrice Warren and Miss Eva Warren.

The article of faith and the church covenant were read and adopted by the new members. W. C. Spence was recognized as a deacon at that time and E. M. Bond was elected as church clerk. Rev. Hazel and Rev. Hicks

acted as supply pastors, along with the Rev. J. H. Tyre of Winters, and the Rev. L. Overman of Norton. This arrangement was kept until the third Sunday of February in 1907 when C. Smith was called as pastor of the church. Sunday School and church services were held in the old school building.

In 1909 a tabernacle was built to serve for summer revivals. It was a big roomy building which was finally closed in. Revival meetings were held in the tabernacle by L. E. Hunt, with the assistance of Rev. J. L. Speer of Winters, and R. A. Scranton assisted by A. P. Morgan, Rev. Frazier of Springfield, Mo., and the Rev. Sherman assisted by Rev. C. S. Cornelius of Brownwood.

In 1914 the Methodists of the community built a new church near the old tabernacle, and alternated with the Baptists in the use of the facilities. The Methodists had church and Sunday School on the second and fourth Sundays and the Baptists on the first and third Sundays of each month.

Some of the pastors that conducted services during this time were S. E. Milan, L. E. Hurt, E. Thompson, R. A. Scranton, W. D. Bond, C. S. Cornelius and E. E. Mason.

In 1921 the congregation made plans for a new church building. Land for the new church was bought at Wilmeth, 2 1/2 miles east of Mazeland, from Tom and Della Puckett for \$10.00, with the land to remain with

members of the Baptist Church forever. First trustees were J. F. Hudson, W. B. Hodges and F. E. Berryman.

Foundation was laid by A. M. Moreland and John Heck, with lumber hauled by wagons from Winters by some of the church members. The new building was erected while E. E. Mason was pastor in 1922-23. The church consisted of one big room with curtains used to separate the Sunday School classes. In the 1920s, the church organized a Young People's Training Union.

W. M. Foster was pastor when the new building was dedicated in 1924. Dr. George W. Truett preached the dedication and homecoming sermon and from that time the church has been known as the Wilmeth Baptist Church.

A parsonage was built on the church grounds in 1941 with lumber from the old Norton school house, which had been purchased. Sam Brian was pastor. The church went into full time service in 1946 while Virgil James was minister.

In 1953 while C. T. Cloud was pastor the church was redecorated and five Sunday School rooms were built inside the church. A fellowship hall was built on the north side of the building. Again in 1955 when Earl Gaines was minister, the church was repainted and more work done on the educational building. It was also repainted in 1964.

The first homecoming since the dedication in 1924 was on Easter Sunday in 1964 when 302 registered for the morning service. In 1966 there was an old settlers homecoming which was held at the Wilmeth Baptist Church, and was attended by some 300 people. The last celebration was on June 16, 1968, when a historical marker was dedicated on the church grounds at a homecoming event for the Wilmeth Community.

Some of the pastors of later years include Joe Priddy, 1958-60; Archie Henager, 1960-62; Lester Carter, 1962-65; John Dwiggins, 1965-66; Jim Sellers, 1966-66; Clovis Griffin, 1966-71; and the present minister, Temple Lewis, came in 1972.
