FINAL CONNECTION—LaDell Davis, left, manager of North Runnels Rural Water Supply Corp., and a pipeline construction crewman, show the location of the final "T" on the water distribution system which is

being completed. This "T" ties in the part of the pipeline coming from the Ballinger system to that supplied by the Winters water system. Most of the water in the entire system will come from the Winters treatment plant,

with a limited amount from the Ballinger plant. Davis said there are only a few more chores to be done before completion of the rural distribution system.

WHS Band To UIL Marching Contest

The Winters High School Blizzard Band will be making their annual appearance at UIL marching contest this weekend in Brady. According to WHS band director Mike Ford, the band will march at approximately 2:48 p.m.

Head drum major this year is Rhonda Carter, daughter of Mr. and Mrs. Frank Carter, and junior drum major is Fran Hoppe, daughter of Mr. and Mrs. Calvin Hoppe. The 99 member marching band includes a 12-member flag corps and five twirlers.

UIL marching contest is the first step in a three part competition to win sweepstakes. The band will need to win a first place in marching this weekend, and also a first place in concert and sight reading contest,

which will be held March 15 in Ballinger.

The Blizzard band will leave from the band hall late Saturday morning, eat in Brady, and then change into their uniforms just before marching. According to Mike Ford, they should arrive home about 6:30 p.m.

There will be 15AA bands at marching contest this year. Each performance must last from 5-8 minutes, and judging will be made on originality, precision, and sound. Judges will be Wes Hays, Jr., band director from Graham, Tony Anderson, band director from Mesquite, and Bill Carrico, band director from Pecos.

Blizzard Band director Mike Ford strongly urges that anyone who can make the trip do so to support our local youngsters.

Festival of Homes Tour Scheduled

A "Fall Festival of Homes" tour, sponsored by the Diversity Club, will be held Sunday, Nov. 6, from 2 to 5 p.m. The tour will include several homes in the community, including new homes, remodeled homes, and apartment homes.

Those interested in making the tour may obtain tickets from any member of the Diversity Club, at the Chamber of Commerce, or at any of the homes which are to be visited. Homes may be visited in any order.

Homes to be visited include those of Mr. and Mrs. Bobby Airhart, Mr. and Mrs. Bill Griffin, Mr. and Mrs. Charles Hudson, Mrs. Loyle Lewis, and the apartment of Mrs. Bendina Ashburn.

The Airhart home, 507 Floyd St., is the former Ernest Adami home, built about 1950. Visitors will see a harmonious use of art and color, and use of plants for

decorations. A patio is filled with red geraniums, and the beautifully landscaped yard is emphasized using native mesquites. Hostesses assisting the Airharts during the home show tour will be Mrs. W. L. England, Mrs. Marvin Dozier, Mrs. W. B. Middleton and Mrs. Ralph Arnold.

City Election Amendments

Winters voters will go to the polls next Tuesday, Nov. 8, to elect one person to serve a short unexpired term on the Winters City Council, and also to approve or disapprove the proposition to authorize the City Council to sell or dispose of the Municipal Light Plant.

There are three candidates up for the City Council seat, to fill the unexpired term of Clifton Poe, who resigned some months ago. Candidates are E. J. Bishop, Jimmy Hatler and Lloyd Gilbert.

The short term to be filled by the candidate winning the election will expire next April.

Voting in the City Council Election and on the light plant referendum will be at the City Hall. Fred Young will be election judge.

LIGHT PLANT VOTING

Winters resident voters will be asked to express opinion on a proposal to authorize the City Council to sell or otherwise dispose of the city-owned electric department. Contrary to some opinion, according to informed sources, a favorable vote on this proposition does not mandate the Council to sell the light plant, but merely gives authority to sell under circumstances favorable to the city, it was stated.

The City Council has for many months been studying the operation of the municipal light plant, in view of the reported increase in costs of operation and present rate structure. Officials have expressed the opinion that because of the inflationary trend, it will be beyond the ability of the city to operate the light plant, without a tremendous increase in rates charged.

"Since it is impossible to determine if inflation and the fuel situation will get better or worse or if our fuel might be cut off completely in the near future, the City Council elected to talk to West Texas Utilities Co. about buying the electrical system from the city. We have met with WTU several times in the past two years on proposals and counter proposals," city officials said in a report recently.

Several days ago, a proposed contract was presented to the City Council by WTU, setting forth the offers made and agreements between the two. In that contract, WTU proposed to purchase the light plant, including all transmission lines and equipment, "for the sum of \$40,000 in cash, plus a promissory note (from WTU) equal to the outstanding balance of the 1960 Refunding Series Bonds of the City of Winters and the 1972 Electric Plant Revenue Bonds of the City of Winters (\$210,000 before the \$10,000 principal payment which is due on Dec. 1, 1977."

Although it was announced that the contract presented to the council at a recent meeting was tentatively accepted, pending approval by the state Public Utilities Commission and a favorable vote by Winters residents

Poe's Corner

BY CHARLIE POE

Every Tuesday afternoon is fun time at the Senior Citizens Nursing Home and last week this was combined with a birthday party for those having birthdays in October.

There are four active residents of the home who have birthdays this month and the total number of years they have lived adds up to 330, and most of them have been spent in Runnels County. They are Myrtle Wilbanks, Nettie Hamilton, Lydia Kelly and Fred Williams.

Women of the First Baptist Church presented the program which began with group singing led by Darlene Sims with Myra Dorsett at the piano.

A "This is Your Life" type of program followed with Lillian Roberson giving a sketch of Mrs. Wilbanks life:

A baby girl was born to Mr. and Mrs. Bud Brannon of Mills County on Oct. 1, 1895, and they named her Myrtle. She went to school in Italy, that's Italy, Texas. She married M. C. Wilbanks on June 1, 1913, and they moved to Runnels County in

1919, where they farmed near Drasco. Here she organized the first Training Union for the young people and walked a mile to the church from the Mayhew farm where they lived.

When the Wilbanks moved to Winters in 1921, she again organized a Training Union and recalled the names of some of the children: Glee and Lottie Ingram, Naomi Hunt, Charisie Graham and three of the Bedford boys. She started yet another Training Union at Wilmeth when they farmed there in 1926.

A son, Ray Hood, was born when the family lived in Winters. Although she lost her son, Mrs. Wilbanks has a daughter-in-law, Billie, who works at the home, and a lively grandson. She is still active in church and community affairs, as her health permits.

Billie Whitlow gave the highlights of Nettie Hamilton's life:

Mr. and Mrs. Sam Miller of Bell County became the parents of a tiny baby daughter on Oct. 20, 1899. This wee little girl was

named Nettie, and she never grew very much for she weighs only 72 1/2 pounds today. She said she weighed 111 lbs. at one time, but she got sick and the doctor had her to reduce. She went to school in Killeen and moved to Runnels County in 1923. A year later she met and married T. E. Hamilton.

Nettie has one daughter, Shirley Crouch, who now lives in Lamesa. She has an adopted daughter, Claudia Munn of Lubbock. Our own Jo Miller is her granddaughter. Nettie likes to sew and made all of her clothes when she could see. She loves her church and has been an active member for many years. She and Mrs. Wilbanks both said they loved being roommates and enjoyed caring for each other.

Lydia Kelly's life was reviewed by Patsy Rogers:

On Oct. 29, 1889 a pretty little girl was born to Mr. and Mrs. William Gehrels in Hill County and they named her Lydia. She was the oldest of six brothers and three sisters, and says she has carried them a thousand miles on her hip. She still loves children and kept the nursery at the First Baptist Church for ten years. She also nursed for 12 years, and Mrs. Rogers gave her credit for saving her baby's life.

On Dec. 26, 1906, Lydia married Enoch Washington Kelly and they moved to Runnels County in 1916, farming in the Drasco Community. She has four children, two live in California and one in Mississippi. One son is a deacon and she says there are four preachers in the family. One son-in-law and three granddaughters have husbands who are preachers. She lived in Waco for a time but after her mother's death she returned to Winters in 1961.

Sketches from the life of Fred Williams were given by Charlie Poe:

It was a cool, crisp, morning on Oct. 30, 1895, when a baby boy was born to Mr. and Mrs. W.L. Williams of Hill County. They named him Fred. In a few years the family moved by covered wagon caravan to Runnels County. Fred said, "We landed in Ballanger, Nov. 1, 1899, and went out to a farm my father had bought two miles southeast of Norton. We were supposed to have possession but had to help the farmer pick his cotton and live in a tent for several months."

Fred married Beth Crockett and they lived on a farm by his father. She died in 1925 leaving him with three small children. Fifteen months later he eloped with Vickie Lewis. "We didn't tell our children for two days," he said. "But they went along with the idea when they found out." Vickie had three girls.

We know that Fred and Vickie had hearts of gold, and the patience of Job, for they also raise four grand-

children after the death of Fred's daughter. Fred's son, D.W., lives in Winters and a daughter, LuDell Gentry lives in Bronte. Mrs. D.W. Williams and Mrs. Gentry provided lovely chocolate and coconut cakes for the party.

Fred Williams was always active in community affairs. He enjoyed singing and helped organize many singing schools. His bass voice is still enjoyed in the home. He likes ball games, farming and concerns himself with others. He was Buford Owens roommate and helped look after him.

The party ended with another round of singing favorite hymns after refreshments were served. There was also visiting with relatives and friends who had come for the occasion.

Proper Storage of Pecans Retains Flavor

Runnels County pecan crop looks reasonably good and it would be a shame to lose them now, says Glenn Bragg, County Extension Agent. They are hard to grow during hot, dry summers, like the one we just experienced. Proper storage is very important to retain their naturally good quality and taste.

Pecans are semi-perishable and unless properly cared for may become inedible due to mold, off flavor, discoloration or insect damage. The detrimental characteristics can be prevented if proper storage practices are employed. Several of the more important factors to consider include: adequate drying, proper packaging and refrigeration.

According to County Extension Agent Glenn Bragg, it is imperative to start with a high quality nut since proper storage conditions will not improve quality, only maintain it at or near post-harvest cured conditions.

High oil content and the fact that the oil is 93 percent unsaturated is one of the most important factors affecting the storability of pecans.

Nutritionists say that an unsaturated oil is healthier, but this type oil shortens the life shelf of pecan products because of increased susceptibility to rancidity.

Bragg says that homeowners should store pecans in a polyethylene bag, either in shell or shelled, and place them in the refrigerator or the deep freeze, depending on how long they want to store them. At room temperature the shelf life is 4 months in the shell and 3 months shelled. In the refrigerator the pecans will hold good quality for 19 months in the shell or 12 months shelled. Pecans can be held in the deep freeze near 0 degrees F. for two years with very little adverse effect on the kernel quality.

HALT!—David Esquivel seems to be indicating for the defender to halt in this action Friday night against Coahoma.

Krueger's Kolumn

By Cong. Bob Krueger
21st Texas District

We are a nation of over 80 million working men and women. Together we comprise America's most important national resource. And singly, we each are deserving of the highest standards of on the job safety and the best protection against occupational accidents.

With this in mind the Occupational Safety and Health Act (OSHA) was put into effect in 1970, long before I entered Congress. Almost since its beginning, however, problems with regulation and enforcement of this law have received attention.

Indeed, some people associate the name OSHA only with reports of stringent enforcement of workers' bathroom facility regulations.

Studies indicate that the Occupational Safety and Health Administration has been successful in its primary objective of reducing the number of deaths caused by accidents in over 5 million workplaces.

Yet because of past preoccupation with the enforcement of trivial regulations, small businessmen find it practically impossible to keep up with the number and complexities of regulations.

Financially, the small businessman and farmer is then faced with an unfair burden, as penalties are levied for what is often an inadvertent violation of regulations which do not pose a serious threat to the well-being of employees.

That is why I co-sponsored a bill designed to make OSHA requirements more reasonable for the small businessman.

Under the bill, an employer who does not employ more than 25 people would receive a warning rather than a citation for a first instance violation that is not willful or serious.

And significantly, OSHA itself now plans a dramatic shift in focus away from the policing of safety regulations and toward the prevention of serious occupation related diseases.

This change in perspective would mean a decreased emphasis on comparatively less important standards and would leave OSHA free to concentrate on the prevention of tragic occupational health incidents such as exposure to toxic chemicals.

This is as it should be. Every precaution should be taken to insure the safety of employees as individuals and as a valuable American resource.

Serious violations of OSHA regulations should result in swift action. Our priority should be those violations that directly threaten the life and limb of the American employee.

Let us allow common sense to guide us. Small businessmen should not suffer under a crunch of endless penalties and citations for minor violations while much more dangerous hazards go uninvestigated.

WELCOME TO WINTERS—This host of Blizzards converge on a Coahoma ball carrier to give him the official welcome of the Big Blue defense.

Blizzards Lost 40-6 To Coahoma

Friday night's football game in Blizzard Stadium lasted just over two hours, but to Winters fans and players, it seemed a lot longer. It was a big offensively tough Coahoma Bulldog team that defeated the Blizzards 40-6.

The game dropped the Blizzards to a 1-3 district record, and gave the Bulldogs a 3-1 record. The Coahoma team now holds second place in District 6-AA with Colorado City in first place.

First quarter scores were limited to the Bulldog team with credit for the TDs given to senior running back Dusty Douglass, junior Randy Phillips and running back Tracy Frazier. Gary Paige kicked the only successful PAT to

make the first period score 27-0. Quarterback Tim Greenfield added six points in the second quarter with Paige again kicking the PAT.

Then with 4:08 left in the period, Blizzard sophomore Pat Salas scored on a four-yard run. Chuck Evans' attempt for two points was unsuccessful.

The final score of the game came in the third quarter when Bulldog Tracy Frazier ran 24 yards for the TD. PAT attempt failed, and the final score was 40-6.

COACHES' SCORING
Bit hit: Ruben Esquivel; Gary Schwartz; Pat Salas. Most tackles: Pat Salas, 21

tackles. Leading rusher, Pat Salas, 18 carries for 74 yards.

Receiving coaches' game stars were Schwartz, 2; Salas, 4, most tackles, TD

and big hit; Jones, 4, caused fumble; R. Esquivel, 1, big hit; D. Esquivel, fumble

recovery; Calcote, blocked extra punt; Kraatz, 1, caused fumble.

Literary and Service Club Plan To Serve Dinner

Members of the Literary and Service Club met last week in the Charles Kruse home with Mrs. Kruse and Mrs. C. A. Lacy as hostesses. Sixteen members were present.

It was announced that club members are to bring Christmas gifts for the San Angelo Center to the November meeting. This center, Carlsbad, Tex., is for mentally retarded adults. Blizzards Go To Colorado City

The Winters Blizzards, next to luckless in District 6-AA competition this year, travel to Colorado City Friday night to meet the Wolves, most likely district champions this year.

The Blizzards have won only one game in district play this season, with two more to go before the regular season ends. Their last game will be against the Ballinger Bearcats, another bad-luck team this year, next week, Nov. 11.

Colorado City's team is comparable in size to Coahoma, but possibly not

quite as strong. The Wolves feature Quarterback Frank Sanchez, who is speedy and quick, and likes to run. Their offense is similar to the Blizzards' slot T and wing T. Against Ballinger—38-0—the Wolves' quarterback had 220 yards on 18 carries. They run a split 6 similar to Coahoma on defense.

School classes will be dismissed at 2:30 Friday so buses can make regular runs, and the football team will leave Winters about 3:45. Kickoff at Colorado City will be at 7:30.

City Election—

(Continued from Page 1)
Nov. 8, Mayor Homer Hodge said Tuesday of this week that signing and final approval of the proffered contract was being held in abeyance until after the election and further study of the contract. He said there were still some questions to be resolved concerning responsibility of outstanding bonds against the light plant.

Following the election next Tuesday, the City Council will again study the contract and proposal to determine the best course of action to take, the mayor said.

City officials have reported for many months that the light plant was losing money. According to the last audit, as of Sept. 30, 1976, the light plant realized a loss of \$17,370.31. The

The congregation of the Drasco Baptist Church will celebrate the 70th anniversary of the church with special services and programs Sunday, Nov. 13.

previous year, loss was \$6,899.09, according to the report. However, the report of the losses have not included specific areas of loss, except through fuel cost increases, and no cost analysis figures on the operation of the light department have been released, if a cost analysis study has been accomplished.

Mayor Hodges said Tuesday that nothing more would be done regarding proposed contracts or offers until the opinion of the residents of Winters has been determined.

about 60 years old, and was moved from the Crews community. It had been vacant for several years, but remodeling after moving has added to the beauty and it is modern in every way. Hostesses assisting will be Mrs. C. R. Kendrick, Mrs. Jo Floyd, Mrs. Buck Smith and Mrs. T. C. Stanley.

Mr. and Mrs. Hudson live at 104 Penny Lane in a home recently completed. As they designed their home, conservation of energy was foremost in their thoughts, with use of natural lighting, insulated windows and arrangement of the living area so the rest of the house can be closed off. They utilized storage space in the hall area, attic and baths. Outstanding features keep the easy, friendly atmosphere for home entertaining. Colors chosen are green and gold. Hostesses will be Mrs. Earl Roach, Mrs. Wayne Roberts, Mrs. Fred Young and Mrs. Roy Crawford.

Mrs. Loyle Lewis lives in Winters' Heritage House. It was built in 1910 by D. R. Smith, and was the show place of the area at the time. Mrs. Lewis' family moved into the house in 1914 and it has been known as the Kornegay. The stately two-story house has an air of home dignity, with beautifully landscaped grounds where 27 deer and two antelope roamed in the early years, a joy to many Runnels County youngsters. Mrs. Lewis has kept the house well preserved, and it contains many family memorabilia throughout, which will be of interest to visitors. It is located on the Wingate highway on the western edge of Winters. Hostesses will be Mrs. George Garrett, Mrs. Clarence Ledbetter, Mrs. Joyce Krause, Mrs. Z. I. Hale and Mrs. M. L. Dobbins.

L & S Club Will Serve Turkey Farm Operation Requires Planning

The Literary and Service Club will serve the annual turkey dinner Friday, Nov. 11, preceding the Winters-Ballinger football game.

Serving will begin at 5 p.m. in the school cafeteria and will continue until 7:30. Tickets are \$2.50 for adults and \$1.50 for children under 12.

As a part of the activities to honor the Veterans of World War I, the vets also will be guests of the Literary and Service Club for dinner.

Tickets may be purchased from any club member or at the door.

The menu will include turkey, dressing, gravy, cranberry salad, green beans, yams, garlic bread, coffee, tea, pie of your choice, all home cooked by club members.

The dinner is an annual fund-raising event. Money is used to finance projects sponsored by the club, including the Winters Public Library.

Farm Operation Requires Planning

Any farming operation requires planning, and this is particularly true when it comes to applying fertilizer. Fertilizer applications should be based on a soil test, and fall is a good time to take soil samples for testing, points out Glenn Bragg, Runnels County agent for the Texas Agricultural Extension Service.

Containers and instructions for submitting soil samples are available at the Runnels County Extension office. Based on a soil test, a sound fertilization program can be developed for the coming crop year.

Such a program will be increasingly important in the months ahead. Under present economic conditions, low yields are not profitable, and fertilization, at least with nitrogen, is generally necessary for profitable yields.

Happy Birthday Brenda
