

# The Winters Enterprise

VOLUME SEVENTY-FOUR

WINTERS, TEXAS 79567, THURSDAY, OCTOBER 26, 1978

PRICE 16 CENTS

NUMBER 34

## Livestock Barbecue Tuesday

The annual barbecue for members of the Winters Livestock Association will be held in the Winters Community Center next Tuesday, Oct. 31, beginning at 6:30 p.m.

A membership drive has been in progress for some time, with family memberships selling for \$7.50.

At the barbecue, presentation of the

membership card will admit the entire family. Membership cards may be obtained from directors of the Winters Livestock Assn., or at the door on the night of the barbecue.

Proceeds from the sale of memberships will be used to finance the annual Junior Livestock Show, to be held in early 1979.

## Group Get Building For Teen Center

An entertainment center for teenagers came closer to reality last week, as a group of adults and students met and formed an organization, and obtained a building.

The building on West Dale which formerly housed the McMillan Laundry has been leased, and will be renovated for use as a teen center. Several adults and students already have begun work on cleaning out the building.

The group sponsoring the movement met last week and elected officers, including Mrs. Billy Hall, president; Mrs. Bo Evans, vice president; Mrs. Lynn Billups, secretary; Mrs. Dawson McGuffin, treasurer; and Mrs. Robert Pruser, reporter.

An advisory board also will be named, to include eight high school students and four adults. This will be the governing body for the center. The sponsoring group plans to meet each Tuesday evening at 7 p.m., in the

cafeteria, until the center is ready for use.

Donations are being accepted to help pay for renovation of the building and to purchase equipment. Contributions may be made directly to the bank, or to any officer of the sponsoring organization. A ping pong table has been donated by E. J. Bishop.

## Halloween Carnival

The Junior Class of Winters High School will sponsor the annual Halloween Carnival, Saturday, Oct. 28, from 7 p.m. to 11 p.m., in the Winters Community Center.

Several classes and organizations will have special booths.

A special attraction will be a "Kiddy Spook" contest and parade, for children 2 to 10 years of age. Children will be judged in separate age classifications. Prizes will be awarded to first, second and third place winners in each classification.

There will be no admission charge.

## Hospital Aux Salad Luncheon Thursday Noon

A benefit salad luncheon will be held Thursday, Oct. 26, in the dining room of the First United Methodist Church, sponsored by the North Runnels Hospital Auxiliary. Serving will be from 11:30 a.m. to 1 p.m.

Proceeds from the luncheon will be used by the Auxiliary to purchase equipment for North Runnels Hospital.

Tickets are available from any member of the Auxiliary, or may be purchased at the door.

## Artists' Works

### On Display

### In Bank Lobby

Many works of Winters area artists are now on display in the lobby of The Winters State Bank, and will remain for public viewing through Nov. 2.

The works include portraits, scenes, still life and animals, in oils, water colors, pen and inks, and gold leaf etchings.

Because of the number of paintings and drawings brought in for the showing, it was necessary to place the overflow in the lobby of the Winters Chamber of Commerce, Estella Brede-meyer, vice president of the bank and director of the art show, said.

**RESCUE AT FIRE**—A tragedy was narrowly prevented by the quick thinking of a Winters Volunteer Fireman last Thursday, when the home of Mr. and Mrs. Epigenio Valles in the northeast section of Winters was damaged by fire. Some young people were babysitting in the home when the fire broke out. They brought several young

children to safety, and when firemen arrived, they were asked if there was anyone else in the house. The girls said there was a baby. Jack Davis, Jr. (inset), a member of the fire department, broke out the window in the bedroom, climbed in and found 4-month-old Joe Solorzano (inset), on a bed. The room was rapidly filling with acrid smoke, and

firemen said that within another minute or two, the baby would have suffocated. Baby Joe is the son of Mr. and Mrs. Joe Solorzano. Most of the furnishings in the bedrooms were destroyed by the blaze, and the house was heavily damaged.

## Blizzards Travel To Wylie

The Winters Blizzards, still seeking their first victory in 6-AA competition, will travel to Wylie Friday night for their third district game. Kickoff will be at 7:30.

The Blizzards now have an 0-3 district record, and a 1-5 record for the season. Lacking in depth and experience, the Winters team seems to be unable to "get it together" this season, both offensively and on defense. A necessary change in the offensive backfield last week against Coahoma threw some inexperience against a tough Bulldog defense; and

### UM Church Mexican Supper

A Mexican supper will be served in the dining room of the First United Methodist Church Thursday, Nov. 2, from 5:30 to 7:30 p.m.

Tickets will be \$2.50 for adults and \$1.50 for children.

the Blizzard defense could not muster strength enough to hold the charging Coahoma runners.

Going against Wylie this week, the Blizzards will face another tough opponent, even though Wylie has only a 3-3 record for the season, and a 1-2 for district play.

"Wylie will be the biggest team we've faced this season," Coach Les Fisher said. Their offense is young—sophomores and juniors mostly, and they are big and powerful, he said. Defensively, Wylie fields mostly experienced seniors. Wylie runs a two-platoon system, with only about three boys going both ways, Coach Fisher said. Wylie's No. 44—Running back Marsh, a 180-pound senior, is a breakaway threat, and can cause some trouble.

Winters and Wylie have played only two common opponents this season,

one pre-district, Clyde, and one district contest, with Coahoma. Coahoma edged Wylie 14-13, and beat Winters 44-0. Wylie beat Clyde in pre-district, 24-14; Winters lost to Clyde in the season opener, 25-3.

Winters' record this season: Loss to Clyde, 25-3; loss to Coleman, 53-0; win

over Roscoe, 14-7; loss to Merkel, 33-0; loss to Stamford, 35-7; loss to Coahoma, 44-0.

Wylie's season record: Loss to Jim Ned, 34-20; won over Clyde, 24-10; won over Bangs, 11-0; loss to Coahoma, 14-13; loss to C-City, 27-0; won over Ballinger, 12-6.

## Blood Donations Break Record

A record-breaking 53 units of blood were donated by Winters residents during the visit of the bloodmobile Monday, Shirley Goetz, of the West Texas Blood Service Center at San Angelo, announced.

Ms. Goetz said 59 volunteers showed up, but that six were not

accepted because of medical reasons. This is the largest number of blood donors in Winters for several years, at least, it was said.

The bloodmobile will return to Winters in about three months, it was understood.

**SWEETHEART**—Penny Springer, a junior student in Winters High School, was crowned 1978 Football Sweetheart during halftime activities at the Winters-Coahoma football game Friday night. She was escorted by Brett Billups, a member of the football team. Miss Springer is the daughter of Mr. and Mrs. Leon Springer.

**PLANNING**—Mrs. Robert Pruser and Lanny Bahlman go over some of the plans for the WHS homecoming, scheduled for Nov. 10. Mrs. Pruser is secretary of the Ex-Students Association, and Bahlman is president. The 50 year honor classes will be those of 1928 and 1929; the 25

year classes of 1953 and 1954 will also be presented. Activities will begin in the afternoon of Nov. 10, with a pre-game meal served in the school cafeteria by the Literary and Service Club.

# What Your Hometown Independent Bank Means To You!

## The Winters State Bank . . . .

Dedicated to the Welfare

of this

Community and

the Territory it Serves,

for More Than

70 years!

### 5 Important Things to Know About YOUR HOMETOWN INDEPENDENT BANK:

- 1 Independent banking is a vital and essential part of the American enterprise system.
- 2 Directors, officers and employees of the hometown bank are folks with a whole-hearted interest in the prosperity and well-being of the area they serve. They have a real stake in its future. It is their home.
- 3 The depositors' funds are used in the community, in sound loans to the people and businesses right here at home.
- 4 You can do business directly with the officers of the hometown independent bank. They're right here to advise and serve you.
- 5 Whether you deposit or borrow or use some of our many other banking services, you will feel comfortable in doing business with local hometown people who know and understand your needs.

### Joint Meeting Of Women's Clubs Recently

The Literary and Service Club was the host club for a joint meeting of local women's clubs in the home of Mrs. Max Lewis last week. Co-hostesses were Mrs. Joe Irvin, Mrs. James Lee Johnson and Mrs. Wayne Roberts, the Diversity Club; and Mrs. William Dinger and Mrs. Danny Killough, the Junior Culture Club.

Mrs. Loyd Roberson gave a general and local history of the clubs. Presidents of the clubs were introduced, Mrs. Wayne Sims, Literary and Service Club; Mrs. Donald Wade, Junior Culture Club, and Mrs. Ralph Arnold, the Diversity Club. The Junior Culture Club was organized 24 years ago, and worked on organization of the first library. The Diversity Club was founded and federated in 1925, and is the mother club of the Junior Culture Club.

The Literary and Service Club is the oldest woman's club, having been organized 60 years ago. The club joined the federation on the first day. Two charter members are still living, Mrs. C. S. Jackson and Mrs. J. Q. McAdams.

Guest speaker was Mrs. T. J. Bailey, president of the Heart of Texas District, who spoke on the Federation Heritage. The first state Federation was started in 1887.

### Friendly Neighbors Meeting Recently

The Friendly Neighbors Club met Wednesday in the home of Mrs. Lady Rodgers. Plans were made for Thanksgiving baskets for shutins.

### Webelos Den In Pushmobile Race, Abilene

Members of Webelos Den 2 Pack 249 took part in the Chisholm Trail Council 22nd pushmobile race Sunday at Abilene. The Winters boys were in the finals of the race, winning third place.

Webelos from Winters were David Childers, Chris Osborne, Sam Smith, Robert Vera, Andy Luna, Archie Austin, Paul John DeLaCruz, Greg Michaels. Leaders were Eddie Childers and Manuel Vera. The pushmobile was built by Eddie Childers.

### Naomi Circle Meeting Recently

The Naomi Circle of United Methodist Women met Tuesday in the home of Mrs. Melvin Mapes. Mrs. Gladys Wilson led the opening prayer.

Mrs. E. W. Bridwell had charge of the program, "What women are doing in different countries." Mrs. Paul Gerhardt spoke on Rangoon. Mrs. W. T. Stanley gave a report on women of Africa. Mrs. I. W. Rogers spoke on Korea, and Mrs. Bridwell gave a paper on the women of Korea.

Others attending were Mmes. E. L. Marks, M. G. Middlebrook, Cary Foster, Alfred Rose, W. E. Mayhew, Lee Colburn, T. C. Stanley and a visitor, Stacy Deike.

Present were Mesdames Erna Marks, Alice Traylor, Willie Lois Nichols, Tye Hunter, Hortie Baty, Lady Rodgers, and Frances Campbell.

### Where Is the Class of '69

The 1969 graduating class of Winters High School has scheduled its 10-year reunion for Saturday, Nov. 11. Visitation will begin at the school cafeteria at 3 p.m. A catered supper is planned for Saturday evening.

Anyone having addresses for the following class members is urged to contact Linda Dry or Cindy Hatler. Addresses are needed for: Bill Brock, Ricky Taylor, David Gossett, Cindy Pounds, Steven Wade, J. E. Roye, Kilah Graves Lohman, Venita Sample Hord, Steven Sample, Sandra Crockett, Danny Fenwick and Beverly Frick. All former teachers are especially invited to attend.

### CA's Won Banner In Abilene

The CA Youth Group of the First Assembly of God Church, Winters, won first place banner for the second time in a row in the South Abilene Section youth rally last week.

Points won: Attendance, Winters, 432; San Angelo, 416; Coleman, 341. Offering, Winters 973, San Angelo 749, and Coleman 412.

### Simple Alterations Can Create Good Fit

Simple alterations can create a "good fit" for many ready-to-wear garments, but decide before buying, a clothing specialist advises.

Good fit—a fashion "must"—makes a garment more attractive and comfortable, and many ready-to-wear garments need an alteration to achieve this, Becky Culp adds.

Mrs. Culp is with the Texas Agricultural Extension Service, The Texas A&M University System.

"Good fit is a 'must,' because not even the best quality, color, fabric or the newest fashion trend can make a poor fit look good," she insists.

**Decide Before Buying**  
Consider skills and the time required for fitting and altering before buying a garment that needs alterations.

If ripping is a "dislike," then altering probably will be unpleasant.

However, if a less-than-perfect fit is uncomfortable, then successful altering can save money, expand the wardrobe and add to a good feeling about appearance.

**'Impossible'**  
All garments cannot be altered.

Garments more than one size too small or large usually cannot be altered successfully through existing seams—especially in areas such as the neckline, shoulders and across the back or upper chest.

Also, manufacturing techniques, such as punched holes that mark darts, clip-

### Efficient, Effective Decision Making

Children learn decision making from observing how adults make decisions, reports a family life education specialist.

It is a big "plus" for children if they grow up in an environment where the skills of quality decision making are practiced, Jenny Reinhardt says.

However, if children aren't that fortunate, it's possible to modify or acquire new skills.

Miss Reinhardt is with the Texas Agricultural Extension Service, The Texas A&M University System.

She suggests these steps to follow to become a more efficient and effective decision maker:

- 1) Recognize that you have options. Thinking that there are several different choices makes decision making easier.
- 2) Be open to re-decision. There rarely are issues that are forever resolved.
- 3) Learn to base decisions on facts—not emotions. Consider the facts that affect the issue, make the decision and then allow feelings and emotions to flow.

In other words, deal with the facts, and then celebrate.

4) Evaluate options. Look at the best and worst that could happen if a certain option is chosen.

5) Take the initiative. By being on the offensive in decision making, we improve our chances of getting what we want.

6) Accept that all decisions won't be good ones. The evidence to make "perfect" decisions rarely exists.

7) Be persistent in following through after making a decision. Part of the reward of effective decision making is the satisfaction of seeing the decision put into practice.

ped seams and trimmed darts or seams, sometimes make it impossible to alter a garment.

**'Workables'**  
Adjustments that usually "work" are those in the width of the bust, waist and hips, and those in hem lengths—since they have little effect on design lines.

**'Remakes'**  
For garments more than one size too large, the most successful adjustment is to remake it. Re-cut it using a pattern that does fit, and then re-sew it.

**Go 'Smaller'**  
Altering results usually are more satisfactory when making a garment smaller—rather than larger.

Also, garments made in some fabrics are difficult or impossible to make larger.

One reason is that releasing seams or folds in some fabrics may cause the original stitching lines to show.

These include velvet, corduroy, suede, satin, leather, vinyl, sequined and permanent-press fabrics.

Of course, in some cases, pressing, brushing, laundering or drycleaning may help remove original creases or seam lines.

However, before altering, when in doubt, release a small area and look for any needle marks.

**Ask For Booklet**  
For other basic principles of alteration, ask the County Extension Office for a free publication, "Fitting and Altering Ready-To-Wear—Basic Principles".

### O'Connor's Column

#### Weight Control During Holiday Season

Special holidays mean special meals—and extra calories.

These special holidays—Halloween, Thanksgiving, Christmas and New Year's—involve altering eating habits.

The holiday season brings extra guests, specialty recipes, less regular eating patterns and special holiday parties and drinks.

**Controlling Calories**  
To control calories during this extended holiday season, try to slack off from your weight reduction program and work toward maintaining your weight.

Advanced planning of the day's total caloric intake can help prevent overeating.

Recognize holiday foods which are lower in calories and try to incorporate some lower calories special foods into the menu.

Experiment with some new herbs and spices that add a unique flavor—but very few calories—to certain foods.

Refrain from adding rich sauces and gravies to holiday meat, vegetable and fruit dishes.

Also, breading and leaving fat on meat or skin on chicken add extra calories.

Alcoholic beverages add calories without adding nutrients, so go easy on ordering those extra calories. Use lower caloric mixes such as water, diet colas or fruit juice instead of rich, creamy, dessert-type beverages.

Never treat yourself to second helpings even though it may be difficult to refuse urgings from well-meaning relatives. Simply comment on how delicious the food was, but say you are no longer hungry.

Use skimmed milk or buttermilk made with skimmed milk for drinking and cooking where appropriate. You'll save 90 calories per cup.

Use oil and vinegar or other low-calorie dressings for salads.

Make your own sugar-free relishes or jellies at home.

For example, try this recipe for low-calorie Holiday Cranberry Chutney:

**Holiday Cranberry Chutney**  
1 pound canned, peeled tomatoes and liquid  
1 pound fresh cranberries  
1 cup seedless raisins  
¼ teaspoon salt  
½ teaspoon ground ginger  
Enough sugar substitute to equal 1 cup sugar

Cut up tomatoes into large pieces. Place tomatoes, juice and all other ingredients in a large saucepan.

Cover and bring to a slow boil over medium heat. Simmer for 10 minutes.

Cool to room temperature and refrigerate in an airtight container for two days before serving. Recipe makes about five cups.

Each one-fourth cup serving contains 30 calories.

Serve as you would regular cranberry sauce or as a meat condiment.

**Other Low-Calorie Recipes**  
A variety of other low-calorie recipes are found in cookbooks for persons with diabetes and heart problems. They are available through local American Diabetes and Heart Associations or from local book stores.

These recipes are usually lower in carbohydrates, cholesterol and saturated fat if these nutrients must be restricted.

Your local county Extension agent (home economics) can also assist you in securing addresses for ordering some low-calorie recipes.

## How long can you depend on Lone Star for natural gas service?

- 10 Years
- 20 Years
- 50 Years
- More Than 50 Years

"Natural" is the key word in question. Unless regulatory price limitations make the development of new gas fields unprofitable for this area's producers, it will be many years before natural gas supplies run short for our million-plus priority customers.

The good news, however, is that these "natural" reserves can be supplemented with enough synthetic gas to keep Lone Star in the gas business for the next 50 years. And beyond.

Lone Star has weathered too many storms in the last 69 years to shy away from the challenge of the energy future. We know what must be done to meet that challenge, and we'll meet it.

**The groundwork is done.**

There are excellent reasons for optimism. Foremost of these is the fact that 50% of the known onshore gas reserves in the United States are in areas where Lone Star already has pipeline systems in operation.

The energy outlook becomes even more promising when you consider the enormous, long-term potential of the gas fields under development in Texas' Gulf Coast waters. Lone Star is already buying some offshore gas. And we intend to buy enough of it to satisfy our customers' demand as it becomes available in volumes large enough to be gathered efficiently and economically.

Lone Star's ability to take delivery of new natural gas reserves as they are developed gives us an outstanding opportunity to buy our

area's fair share—enough gas to last our customers for many years.

Whether we can take advantage of this opportunity depends mostly on whether we'll be allowed to recover our actual costs on a timely basis.

Without the ability to pay our gas bill, earn a reasonable rate of return on our investments and recover our operating expenses, we will be unable to continue an aggressive supply program in time for it to be really effective.

**There is no shortage of natural gas.**

There's only a shortage of the low-priced, easily accessible gas that nearly everyone took for granted in years past.

If gas producers are given incentives to continue their risks in exploring for deeper, more inaccessible reserves, there is little reason for our high-priority customers to face natural gas shortages until we're deep into the 21st century.

After that, the future for gas energy still looks good. The technology for gasifying coal is a fact, not some fantasy of the future. And our nation has enormous coal deposits.

Converting it into gas makes sense. Because gas burns clean and doesn't pollute. It also makes economic sense, because this gas can be distributed through the pipeline system we have, and the families who have gas appliances can keep right on using them.

How long can you depend on Lone Star for gas service? We intend to make sure your children's grandchildren can depend on us.

Lone Star Gas Company  
We're working energetically for your area's future.

**Hans Gerhart Died Saturday In Houston**

Hans Frederick Gerhart, 63, died at 1 a.m. Saturday at M.D. Anderson Hospital in Houston after a long illness. Services were at 2 p.m. Monday in St. John's Lutheran Church.

The Rev. Alfred Wolber, pastor, officiated, assisted by the Rev. Mel Swoyer of Abilene. Burial was in the Lakeview Cemetery, directed by Winters Funeral Home.

Born Dec. 19, 1914, in Winters, he had lived all his life in Winters, where he was a stock farmer. He married Billie Joyce Denton March 27, 1937, in Winters. She preceded him in death.

Survivors include five daughters, Carolyn Roach of Fort Worth, Kleta Gerhart of Houston, Barbara Kay Sanders of Odessa, Jeanel Brown of Kilgore and Ginger Bailey of Abilene; three sisters, Emilie Lewis of Lamesa, Margaret Brandt of McGregor and Pauline Brinkley of Quanah; two brothers, Albert of Sallisaw, Okla., and Paul of Winters; and 12 grandchildren.

Pallbearers were Gattis Neely, O. J. Murray, Michael Deike, Lawrence Jacob, Erwin Ueckert, Erwin Schrader, Carl Parks and Charles Kruse Jr.

**Runnels FU Meeting Monday**

John Thomas, field representative from Waco, presented the program at the meeting of the Runnels County Farmers Union Monday night.

Thomas spoke on marketing and achieving profitable prices for agricultural products. He said that colleges and universities for years "have helped farmers produce an abundance, but very little has been done to improve our markets. Many good farmers are forced to drop out because of too much expense and too low prices."

Thomas also reminded that "foreign investors of multi-national corporations are a serious threat to family farming. A recent law was enacted requiring all foreign investors to register their agricultural land holdings in the U.S." He said, "Farmers Union is against all tax breaks to foreign investors and also believes there should be a penalty on foreign investors that do not report their holdings."

Delegates and alternates were selected to attend the convention in January. The Runnels FU will send six delegates. There will be one more county meeting before the convention.

**High School Honor Roll**

- FIRST SIX WEEKS**
- Seniors: Reggie Boles and Terry Gerhart.  
Juniors: Susan Grenwelge, Silena Hubach and Penny Springer.  
Sophomores: Geoffrey Connor, Connie Cotter, Neva Lewis, Betty Lisso, Melody Murphy, Leah Pendergrass and Bobbie Walker.  
Freshmen: Angela Black, Brent Lancaster, Brett Mikeska, Tawnya Murray and Marcia Steinberg.

**A TAXPAYER'S BILL OF RIGHTS IS PAST DUE**

**Bill Clements believes we still have a chance to preserve our future by establishing constitutional protection against excessive taxation and runaway government spending.**

Bill Clements believes the people of Texas should have the power necessary to ratify or reject tax policies made by legislators.

To establish this power (of the people), Bill Clements will introduce an amendment to the Texas Constitution that would give the people of Texas this right.

Bill Clements' "Taxpayers' Bill of Rights" would:

- Give Texans the right of initiative and referendum, a phrase that means we, the people, have a right to vote on the taxes to be levied on us.
- Place a ban on corporate or personal income tax in Texas.
- Require a two-thirds record vote of both houses of the legislature to pass a tax bill.
- Allow local taxpayers to call an election to ratify or reject a tax increase created by a local governmental unit.

Bill Clements believes in Texas and the people of Texas.

Bill Clements thinks that elected officials must work for the people and represent them properly.

As governor of Texas, Bill Clements will work for and with the people of Texas.

*It's about time someone recalled that our form of government was conceived to be a servant of the*

*people and provide the means to insure that principle endures.*

## Poe's Corner

BY CHARLES POE

### ORIGIN OF THE CAPROCK

In "The Plains of Texas" compiled in 1935 by George Garrett, Division No. 5 Engineer, we find a story included that had first been written for the 1936 Anniversary Edition of the Crosbyton Review, which gives the theory of how the plains were formed.

Do you remember the time when you came up over the edge of the caprock, and viewed for the first time this great panorama of level plains, stretching as far as the eye could see? And you wondered what caused this unusual tableland.

Probably the cause of their existence will never be definitely established, but here is a theory that most geologists hold, and which sounds most plausible to us, so we pass it on to you.

Many years ago, probably two or three million, the Rocky Mountains were the highest mountains in the world. The prevailing winds were from the east coming in from over the Atlantic Ocean and heavy laden with moisture. Passing west these

winds finally hit the Rockies and were forced upward to pass over. Now rain is caused by the warm moist air of the upper strata striking the colder air above. Thus the rains were practically continuous in these mountains, with an average rainfall of four or five hundred inches.

Naturally, such a torrent washed away the sides of the mountains and the dirt and rock were carried down with the water to form slow, soil laden rivers on their way to the Mississippi and the Gulf. As the rivers came out on more level ground, the dirt and rock were deposited in the river bed and kept building up until that bed was filled.

The river then sought a new course and the process was repeated over and over again until finally the whole interior of America, from northern Canada to the Gulf, and east to the Mississippi was one vast tableland, traversed by great, sluggish rivers of which Blanco Canyon in Crosby, Yellowhorse in Lubbock and Palo Duro to the north, are all that remain

on sections of the Great Plains.

Then the mountains were washed away so that the rains were not as heavy, the winds changed and nature set in to undo what she had just completed. Erosion began on the outer edges of the great plain. Water and wind has put back the plateau until now the edge of the Llano Estacado is six hundred or more miles from the Gulf and a thousand or more from the Mississippi, and still the erosion continues.

In the fringe of counties just off the caprock, evidence still stands that they were once a part of the Plains. There is Double Mountain to the east and Flat Top in Scurry County besides many less noticeable hills each of which has a level, and soil where it has not been washed away, very similar to the Plains formation. Within a few more million years, unless measures are taken to prevent it, the great Plains will be no more, so say the geologists.

Next came the Mastodons, the great reptile like creatures of a million years ago, the elephants, and the three-toed horse; remains of all which geological expeditions have found in the breaks and canyons of Crosby County.

Possibly several thousand years ago, the buffalo, or more correctly, the American Bison, made their appearance on the Great Plains and the breaks that surrounded them. They thrived well in this semi-arid country and grew in volume rapidly, until many millions of them inhabited the Plains as far north as Canada. Other wild life made its appearance but not in as great a number.

What a happy hunting ground for the Indians who came about 500 years ago. But this state of affairs could not last forever.

Imagine the surprise of the Indians camped on Blanco Canyon when they spied a regiment of Spanish soldiers, headed by Coronado, came down off the Plains and head up the canyon, then cross over to the edge of the caprock and follow it to the north. For this is the route that Coronado followed on his famous search for the cities of Cibola.

What happened on these Plains for the next 250 years will probably remain a mystery for other explorers avoided the Staked Plains for fear of getting lost in the great, trackless region, where landmarks were a thing unknown. But during this time the United States of America was established. Then came the Republic of

# Accent On Health

Texas Department of Health  
Fratris L. Duff, M.D., Commissioner

With the big game hunting season fast approaching, the Texas Department of Health warns all would-be nimrods that hunting can be hazardous to your health.

It's not only the potential danger of firearms that concerns the State Health Department, although this is a primary concern. Last year 17 Texans were killed in 80 hunting accidents. Thirty-three of those involved were under 16 years of age. Rifles were implicated in 38 accidents, shotguns in 34 and handguns in eight.

Shotgunners are looking for such game as doves, quail, turkey and waterfowl and rifle shooters in search of deer and other game, making it a doubly-dangerous time of year.

But what are the other hazards?

How about heart attacks, over-exposure to the cold, snake and insect bites, eye injuries, food poisoning and that ole bugaboo, carbon monoxide poisoning.

If you are overdue for your regular checkup, it would be well to schedule it before your hunting trip. It could lengthen and add more productivity to your life—particularly if some unknown condition is found, says Dr. Clift Price, Chief of the Bureau of Personal Health Services of the Texas Department of Health.

But if you're in reasonably good shape, try to protect what good health you enjoy

Texas, and the hardy people continued to push westward into the unknown Indian lands of West Texas.

Even as late as 1875, just one year before the Plains were divided into counties by special act of the Legislature, and Uncle Hank Smith came to settle in Blanco Canyon, the "Texas Almanac" had the following to say: "The Llano Estacado is almost an unexplored region, but little known at present, the tramping ground of the wild Indian and the buffalo."

Most of the buffalo had been killed by 1877, and with the passing of the Indian, Crosby County became a cattle country. Ranching was predominant until 1910, although farming was tried as early as 1880 by the Quakers.

yellow jackets which love unattended deer stands.

Overdoing it, whether hauling a deer out of the brush, pushing a stuck vehicle or chopping firewood, can produce a heart attack in those unaccustomed to hard labor. This is in addition to the dangers of pulled muscles, broken bones and back problems which outdoor activities and falls can produce. Best advice here is to take it easy and be cautious.

Outdoorsmen are urged to wear shooting glasses with hardened or plastic lenses to avoid injuries while shooting or from underbrush and tree limbs. Dark glasses also provide protection from the bright rays of the sun.

While camp cooking can be a real delight, care should be taken to keep all foods cold or hot. Leftovers which are allowed to stay at room temperature for long periods of time can be a fertile breeding ground for germs which cause food poisoning. If leftovers are to be used for another meal, keep them cold between meals and heat them sufficiently to kill any germs which could be present.

Fall and winter are great times of the year, and the State Health Department

A detergent food is one that helps remove food particles from the teeth, says Mary K. Sweeten, foods and nutrition specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

Low carbohydrate foods such as celery, lettuce, green peppers or radishes are examples of detergent foods, the specialist explains.

READ THE ENTERPRISE CLASSIFIED ADS!

says a little thought and preparation can keep them that way.

"Drinking" is a culprit in at least half of all fatal highway accidents, reports Carla Shearer, health education specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

**John Hill calls for state tax freeze**

"Our state taxes in Texas are among the lowest in the nation, and I want to keep them there. As I've said many times, I'll veto a tax increase before the ink dries on the bill."

As Attorney General, John Hill proved he could increase the efficiency of his office without any unnecessary budget increases. He absorbed a three-fold increase in his office caseload by hiring top legal talent capable of higher productivity. The result: his staff lawyers doubled their average workload, and the increased court judgments and enforcement of civil penalty laws returned \$25 for every \$1 of state funds spent on his office.

As Governor, John Hill will insist on this same type of increased productivity for all state agencies. He will institute new controls over federal funds, demand that we follow our "pay-as-you-go" budget policy, and use zero-base budgeting to eliminate unneeded programs before any new programs are added. And he'll block any state tax increase — there won't be any new taxes under John Hill.

**JOHN HILL GOVERNOR**

**Common Sense for Congress**

**Nelson Wolff proposes:**

- ★ ★ A \$104 billion tax cut over three years (two-thirds for individuals; one-third to stimulate investment in the private sector)
- ★ ★ A \$53 billion savings in the federal budget by cutting waste, inefficiency and fraud
- ★ ★ A balanced budget by 1982 and a constitutional amendment requiring Congress to balance the budget by 1982

Nelson Wolff, as Vice-Chairman of the Texas Senate Finance Committee, helped write the first "no new taxes" budget in over 25 years.

**Wolff**  
Congress  
A Common Sense Democrat

## Crews

I don't like to commit myself about heaven and hell, you see I have friends in both places. Our sympathy goes out to the Hans Gerhart family and relatives. Hans was raised in our community. There will be a community Halloween carnival at the

Hopewell Church Sunday night. Come out and have fun.

Marvin Hambricht is home after running tests in Lubbock.

Mr. and Mrs. Rodney Faubion and son gave a mother-in-law dinner Sunday for Mrs. Harvey Mae Faubion. Others for the occasion were Mr. Faubion, Mrs. Winoa Goode of Ballinger, Rosa Marie, Melissa Faubion and Sherri Gerhart.

Mr. and Mrs. Burley Campbell visited in the home of Mr. and Mrs. Marvin Hambricht in Ballinger on Monday. On Thursday they visited with Mrs. Flossie Yancey of Wichita Falls in the home of Mrs. Jimmy Brown. Mrs. Yancey is an old timer friend, in fact she attended the Campbells wedding.

Mrs. Winoa Goode spent Saturday night with the Noble Faubions.

J. M. Martin of San Angelo will return home on Wednesday from Galveston where he had his treatment.

Mr. and Mrs. Norvell Alexander had his sister Mr. and Mrs. Jay Archer of Glen Dale, Calif., for several days this week.

After church services Sunday Bro. Ken Jenks and son Brad of Brownwood, Jana and Sammy Brown had dinner with the Sam Faubions.

Mrs. Sam Faubion spent the day Saturday with Mrs. Fred Tyree.

Charlie and Lonnie Foreman of Dallas spent the weekend with the Coleman Foremans and hunted birds. They also visited with their grandparents Mr. and Mrs. J. H. Cleveland in Ballinger. On Tuesday Mrs. Twila Nowell and Mr. and Mrs. O. Z. Foreman were out with the Coleman Foremans for dinner.

Correction—Mrs. Ethel Bridwell is not going to Weight Watchers in Abilene. Sorry.

Over the weekend with the Marion Woods were Mr. and Mrs. Ronnie Walters and Brett of Fort Worth and Mr. and Mrs. Jim Lanier and Corey of Fort Worth.

With Mrs. Effie Dietz were Mr. and Mrs. Clarence Hambricht, Mr. and Mrs. Coleman Foreman, Mrs. Carl Baldwin and Richard DuBose.

Mr. and Mrs. Mike Hill of Drasco were out Saturday night with the Robert Hills. On Sunday Mr. and Mrs. Rodney Hill and daughters of Sweetwater spent the day.

Recently Mrs. Andrew Michalewicz, Mrs. Walter Jacob, Mrs. Sharon Bus-

## Plan Now For Spring Bulbs

For an array of landscape color from spring flowering bulbs such as crocus, snowdrops and winter aconite, planting must be done this fall.

Everett E. Janne, landscape horticulturist with the Texas Agricultural Extension Service, says that except for tulips, spring flowering bulbs should be planted in October and November so they have ample time to develop a good root system. In Central and South Texas, tulip bulbs should be refrigerated at 35 to 40 degrees F. until mid-December for longer stems and good flower development.

For best results, plant bulbs in clusters around tree trunks and shrubs in a natural woodland setting or rock garden, Janne points out. The variety of flower color and size within each type of bulb is limitless. Grouping bulbs of the same color together in mass plantings produces the most effective landscapes.

The general rule is to plant outdoor bulbs so the top is below the surface at about twice the diameter of the bulb. Bulbs should be planted in well-drained soil of average fertility to achieve blooming over a period of years. Bulbs prefer a sandy loam soil in a sunny area.

A few choice bulbs can be set aside for indoor forcing, senlechner were in Garden City and visited Mr. and Mrs. Cecil Halfmann. On Tuesday Mr. and Mrs. Andrew Michalewicz and Mr. and Mrs. Walter Jacob visited with Mrs. R. H. Hanke in Coleman.

Miss Jeanene Hoppe of McMurtry in Abilene was home with her folks the Calvin Hoppes and Fran over the weekend.

Mr. and Mrs. Coleman Foreman and Mrs. Ethel Bridwell were out to Lamesa on Friday where they visited the Bill O'Briens and the O. M. Archers. On Saturday night they attended the Gospel Singing Festival hosted by the Ninth Street Church of Christ in Ballinger.

Mr. and Mrs. Sam Faubion, Mr. and Mrs. Therin Osborne were with the Rodney Faubions one night this week.

Mr. and Mrs. L. K. Sommerville of San Antonio were here for the weekend with Mrs. Corra Petrie. The Sommersvilles also came for his folks Mr. and Mrs. Lester Sommersvilles 50th anniversary in San Angelo on Saturday. Mrs. Cecil Hambricht and Mrs. Corra Petrie also attended that anniversary. Mrs. Petrie also visited with the Marvin Hambrichts.

Mr. and Mrs. Robert Kraatz hosted Sunday dinner Sunday for Mrs. Marla Daniel, Andy and Jonna of Ennis. Others attending were Mr. and Mrs. Jerry Kraatz and family, Mr. and Mrs. Lucius Wood, Mr. and Mrs. Rodney Stenard and Chance, Mr. and Mrs. Randy Hancock, Mrs. Carla Whitteburg, Mrs. Darla Davis, Mrs. Fay Daniel.

Dennis McBeth is home from Exxon's school in Houston and is now on a training job in Robert Lee this week. The McBeths and Dennis spent Friday night with their other son Mr. and Mrs. Lyndon McBeth in Monahans. On Saturday they visited a cousin Mrs. Lee Tabor in Andrews. Friday morning they went in to see Marvin Hambricht in Ballinger.

The Coleman Foremans were in Snyder Friday and saw Mrs. Weldon Foreman and daughter Tonya.

Mr. and Mrs. Horace Stokes and Mrs. Alta Hale attended the musical in Oplin Saturday night.

Mr. and Mrs. Tommy Moss, Scarlett, Mindy and Chad of Midland spent the weekend with Mrs. Hazel Mae and Russell Bragg. The Harold Braggs, Joy and Mike of Glen Cove came for Sunday.

## Refinish, Re-upholster To Stretch Furnishings Budget

Redo worn furnishings to redecorate without straining the budget, a housing and home furnishings specialist suggests.

Many families find great satisfaction and savings by refinishing wood furniture or re-upholstering, Sue Young explains.

Mrs. Young is with the Texas Agricultural Extension Service, The Texas A&M University System.

**Color**  
To begin with, decide on the color or colors which will look nice.

When shopping for fabric, take samples of other fabrics, wall colors or floor coverings to coordinate colors, the specialist advises.

**Design**  
Consider designs in furnishings. Too many bold designs create confusion and seem to take up space.

A large design in upholstery fabric is more difficult to work with than small all-over designs or tweeds, because the design should be centered and matched.

**Re-Upholstering**  
Select upholstery fabric that's firmly woven and treated for stain repellency.

Before buying fabric, measure the chair or couch and determine the amount of fabric needed, Mrs. Young

adds Janne. Crocus, grape hyacinths, daffodils, tulips and hyacinths are good for indoor use.

Bulbs should be potted as soon as they are available in equal parts of soil, peat and sand on top of one inch of gravel. The tips of large bulbs should be showing above the surface while small bulbs should be barely covered with soil.

Store newly potted bulbs at 40 to 50 degrees F. for six to ten weeks, then place them in a cool semi-lighted location. Gradually move them to a sunny location for good growth and color. Janne says most bulbs will be flowering in January, and pre-cooled or pre-treated bulbs may bloom by Christmas.

work, but very rewarding when considering money saved.

**Refinishing**  
A clean-up and repair, or complete refinishing, can

bring many old pieces of wood furniture back to their original beauty.

Try a natural finish for wood with pretty grain.

Purina Rat Control Pellets

It can cost you \$25 to keep a rat.. But only 25¢ to kill it.

When you figure that it might cost up to a hundred times more to keep a rat than to kill it, the use of Purina Rat Control Pellets is obviously the best choice. Ask FFA Member for this improved, better-tasting rat bait.

SHOW—The Winters High School Blizzard Band and the Flag Corps perform during halftime activities at the Winters-Coahoma football game Friday night.

### AROUND THE 6AA FOOTBALL LOOP

Not much happened last Friday night around the loop which had not been expected . . . unless it was Anson's chopping up of the Merkel Badgers, 20-12; Coahoma kept their winning streak going by defeating Winters 44-0; Colorado City took Wylie 27-0; and Stamford's Bulldogs took a 6-0 win over Ballinger's Bearcats.

Coahoma, Colorado City and Stamford still were in the forefront in the district after last week's encounters, with 3-0 records for district play. But this status will probably be changed a mite with this week's games—Colorado City goes to Stamford, and one of them will end up in third place. It is expected that Coahoma will retain the lead, as the Bulldogs will host the Anson Tigers this week. (This is only a prediction . . . strange things have been known to happen on the 6-AA grid-irons when every action counts.)

The schedule calls for Ballinger to go to Merkel, and Winters to Wylie.

PASS PLAY—Blizzard Quarterback Chuck Evans fades back for a pass during the last moments of the Winters-Coahoma football game Friday night. The 40-yard pass was completed to Chris Gehrels.

## Winters 0, Coahoma 44

The Winters Blizzards lost to the Coahoma Bulldogs Friday night 44-0.

The first quarter saw Coahoma score 29 points. The first score came with 9:42 left in the quarter on a 45 yard run. The other two were on passes of 28 and 16 yards.

In the second quarter the

Bulldogs scored twice on one yard runs. The score at the half was 34-0.

The Blizzards played tougher defense the second half and were able to contain the Bulldogs better.

Late in the third quarter, Coahoma scored on a six yard run.

The fourth quarter saw

the Bulldogs score on a 20 yard field goal to end the game 44-0. The Bulldogs are undefeated in district play.

The blizzards had 65 yards rushing for the night. John Musick gained 65 yards on 16 carries. Chris Gehrels caught one pass for 40 yards and John Pruser caught one pass for nine yards.

The Blizzards travel to Wylie this week.

## Junior Varsity Blasted Ballinger 24-0 Thursday

The Winters Blizzards Junior varsity defeated Ballinger Thursday night 24-0. The win was possible be-

cause of a total team effort both offensively and defensively.

In the first half, the first

scoring drive was set up by a 30 yard pass from quarterback Toby Gerhart to Adolfo Torres. The score came on a fifteen yard run by Roger Cortez. The extra point was blocked. The second score came on a 60 yard run by Mark Whitlow.

In the second quarter, Ballinger took the ball to our 25 yard line but the Blizzards held them and took over on downs. The Winters Blizzards then drove the ball the length of the field and Gerhart scored on a three yard run. At the half the score was 18-0.

In the second half, the final score came on an 82 yard run by Whitlow to make the final score 24-0.

The Blizzards were able to hold Ballinger offensively while racking up over 300 yards for the night.

Thursday, the junior varsity, seventh and eighth grade all play at home against Wylie beginning at 5 p.m.

Watch out for bill collectors who pose as survey takers, government agents or court representatives—any deception is illegal, warns Claudia Kerbel, consumer information specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

## FFAers' Animals Place In State Fair Show

Winters High School FFA members showed some of their animals in the State Fair stock show in Dallas last week, and came away with several places in three divisions.

In the junior barrow show, James Blackwell showed a heavyweight cross to 2nd place; a heavy weight Chesterwhite to 5th place; and a heavyweight cross to 18th place Wednesday.

In the junior Limousin

heifer division, Rusty Allen had the 2nd place heifer; Jay West, 4th and 5th place heifers; and Jerry Don and Susy Vinson, 6th, 7th and 8th place heifers.

In the junior lamb division, Allison Allcorn had the 6th place Shropshire; Walston Bros., 9th place Hampshire; Bill and Kathy Bredemeyer, 5th place Southdown, 15th Finewool, 29th Suffolk, and 32nd Hampshire.

By  
**U. S. Representative  
Bob Krueger**

Government intervention in our private lives has reached alarming proportions with a maze of paperwork constantly before us, lists of regulations coming at us from all quarters and intimidating bureaucrats anxiously searching for Americans who ignore some of their most absurd guidelines.

The only way to reverse this dangerous trend is to enact legislation that will put a cap both on the number of regulations governing our lives and on the paperwork attached to those regulations.

I sponsored in the 95th Congress legislation that will be reintroduced in the next session which could effectively eliminate much of the excessive paperwork which currently burdens all of us, but particularly people in business.

House Resolutions 14165 and 14166 both are designed to make the bureaucracy more aware of the effect regulations have on the people of this nation and both resolutions empower the President to play a key role in eliminating outdated regulations in the event well-entrenched bureaucratic heads are reluctant to rescind useless regulations.

Already, it is costing taxpayers \$4.8 billion a year to administer the nation's 41 regulatory agencies and a recent study by the Federal Paperwork Commission states that much administrative effort is unnecessary and discriminates against

people who operate small businesses, the very people who can least afford having to accommodate excessive government regulations.

Not only does the amount of paperwork that comes with heavy regulations pose a threat to the financial solvency of small business, but all indications are that unless quick action is taken, this infringement on our lives will continue to grow.

In four short years, from 1974 until now, the amount of federal money expended on administering federal regulatory agencies has more than doubled, up 115 percent from the \$2.2 billion budget of 1974.

Add to that the enormous cost the private sector must absorb to comply with federal regulation and the amount is staggering.

In 1979, government regulation is estimated to cost the business community \$97.7 billion merely to comply with regulation.

Specifically, the resolutions I have worked for would force the heads of regulatory agencies to annually review regulations they administer and to know precisely just how much they are costing the private sector to meet these regulations.

The resolutions also require these same agency chiefs to conduct studies to determine if their regulations are duplicative of regulations being enforced by other government agencies, or by state or local

## WHS President School of Dist. Council

Winters High School was elected president school of Student Council District II of Texas, for 1978-79, during a meeting of area school councils at Hamlin last week. The district includes more than 20 schools in the area, including Abilene, Dublin, Stephenville, Cooper and others. Abilene High School is the outgoing president school.

Other officer schools elected were Ballinger, vice president; Lincoln, secretary; and Stephenville, parliamentarian.

The Winters High School student council will attend the state conventions in April.

agencies.

And Resolution 14165 calls for, over a 5-year period, a 25 percent decrease in the cost of compliance.

It grants the President the power to consult with agency chiefs and to recommend just where this annual 5 percent cutback could occur. The President's recommendation goes into effect unless Congress passes a resolution overriding him.

The power of regulatory agencies and the burden of paperwork demanded by them works in several ways against both the American consumer and the businessman.

Consumers are affected by runaway regulations because, ultimately, the cost of complying with federal regulations are passed along to the consumer in the form of increased prices.

Second, the cost of regulation is a significant percentage of our federal budget, which we must bring under control.

Until federal spending is curtailed, inflation will continue to run rampant to the financial detriment of all Americans, and a good way to regain control of our federal budget is to begin eliminating excessive paperwork, particularly that imposed by excessive regulation.

An uncovered lemon peel will absorb refrigerator odors and add its own fresh smell.

Policy Outlined For Publication of Wedding Stories, Pics

Because of limited space and the costs involved, the following policy is in effect regarding publication of wedding stories and pictures in The Enterprise. This policy will also govern publication of articles on anniversaries and other similar events.

—Wedding information, along with pictures, must be received no later than Friday of the week prior to the week of publication. In most instances, this information and pictures are available prior to the wedding date. It is our desire to publish the story and pictures in the issue immediately following the event.

—Simple details only, and no pictures, will be published in the second issue following the event. No wedding or anniversary story will be published in the third issue following the event.

—Only the main facts of the events will be published, and no pictures will be

printed, for weddings or anniversary celebrations which take place out of town, except for immediate former residents, such as students, whose parents still reside in the area. Pictures of nieces, nephews, grandchildren, and other relatives, who have never lived in the area will not be published. Only short notices of the events will be published, and then no later than the second issue following the event.

—We solicit pictures of local weddings and anniversary celebrations, and will hold the original pictures for only one week following date of publication. We cannot return pictures by mail unless a stamped, self-addressed envelope accompanies the picture.

—For weddings, we will publish only one picture. If an engagement picture is published, there will be no wedding picture published.

GIFTS—Gary Jacob, president of the Winters Young Farmers, presents checks to Sharon McGinnis for the Winters Little League (top picture), and to Marvin Bedford, for the Winters Volunteer Fire Department. The money was earned by the Young Farmers at their summer dance.

## Consumer Food News

Best buys at Texas grocery markets this week include fryer chickens, cooking greens and dairy "features," Mrs. Gwendolyn Clyatt reports.

Also, pork counters now offer a wider range of cuts and more attractive prices as the seasonal supply increases, she says.

Mrs. Clyatt is a consumer marketing information specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

This week's price-quality trends include the following: POULTRY—Best values are found on whole birds and mixed parts. Medium-size eggs usually are best egg buys.

FRESH VEGETABLES—

Cooking greens such as mustard, collards and turnip tops are good quality and attractively priced.

In addition, carrots, broccoli, corn, squash, dry yellow onions and potatoes are worthy of consideration, price-wise.

DAIRY—Look for features on a variety of cheeses, sour cream and yogurt.

PORK—Featured items include several cuts for roasting, such as fresh picnic, Boston butt and loin-end roast.

Other considerations in-

## Home Tour Scheduled November 5

A "Tour of Homes," sponsored by the Diversity Club, will be held Sunday, Nov. 5, from 2 to 5 p.m. The tour will include new homes and one older home, which has been remodeled.

Those wishing to make the tour may obtain tickets from any member of the Diversity Club or at any of the homes on the tour. Homes may be visited in any order.

Homes to be visited include those of Mr. and Mrs. Joe Floyd, Mr. and Mrs. J. P. Dry, Mr. and Mrs. James Brown and Mr. and Mrs. Hal Dry.

clude quarter-loin cut into chops, shoulder steaks and pork liver. Smoked features include semi-boneless hams, bacon and frankfurters.

FRESH FRUITS—Red and Golden Delicious apples are now in largest supply and prices are trending downward slightly. Both peach and nectarine supplies are winding down, although they are still available.

Plums, prunes, grapes, bananas, pears and cantaloupes are generally found at moderate price levels.

GROCERY MARKET AISLES—Check prices on peanut butter, cooking oil and bread.

FROZEN FOODS—Many frozen food chests highlight complete dinners, bread dough and ice cream.

BEEF—Along with ground beef, other beef features include chuck roasts and steaks, round steaks and beef liver.

CONSUMER WATCHWORDS: A quart of milk, which is more than two pounds of food, is a "best food investment."

POLLING PLACE

There are over six million more women of voting age than there are men.

## Swine Meeting At Norton Next Wednesday

Dr. Bill Thomas, swine specialist for the Texas Extension Service, will conduct a swine production meeting Wednesday, Nov. 1, at 7:30 p.m., in the Norton Community Center.

Dr. Thomas will speak on herd selection, management

and feeding, and will also hold a session on producers problems.

A consumer can cancel a home solicitation transaction up until midnight of the third business day following the day the contract was signed, reports Linda McCormack, family resource management specialist with the Texas Agricultural Extension Service, The Texas A&M University System.
