Public hearing set for TV cable rates

A public hearing has been scheduled for Monday, June 21, on a requested rate increase being sought by Texas Cablevision, the local cable television franchise holder.

The amount of increase asked for by Texas Cablevision would total 50 cents per month and for subscribers to Home Box Office an additional 50 cents per month for the subscription television service. The present rate for TV cable is \$8.50 per month and for HBO an additional \$9 per month.

Mayor W. Lee Colburn said that he felt the request was reasonable, but that ordinances call for a public hearing on such a request. A letter from Texas Cablevision Manager Frank Settles said that cable subscribers would receive notice of the pending increase with their July statements.

The only other rate increase sought by the cable franchise was in August, 1980, and that increase

was granted.

Cable officials pointed out increased costs of equipment and operations as part of the need for higher rates along with increased costs for microwave services which brings television programming into Winters.

Texas Cablevision just recently announced that it was expanding services in Winters to offer a number of additional channels, the first of which will be available at no extra cost within the next several weeks.

Cablevision plans also call for the installation of an emergency warning system that would enable officials to notify Winters residents of emergency type situations. This system is due to be operational sometime late this year.

Salary Grievance Committee meets in called session

The Runnels County Salary Grievance Committee met Thursday in a called session to hear a grievance from Tax Collector VaRue McWilliams.

The meeting, set for Thursday morning, was expected to hear a request from the Tax Collector seeking equal pay to the tax collectors employed by the cities and school districts in the county.

In the past the salaries of county officials has been determined by comparing with counties of similar population and tax value in the state.

Mrs. McWilliams says that at the present time, the salary of the County Tax Collector is considerably less than the salaries of same position in Ballinger or the school districts in the county. She continued by saying that with the appraisal district setting all the tax values in the county, the amount of pay received by the tax collectors in the taxing entities in the county need to be equalized also, either up or down.

The Runnels County Salary Grievance Committee is composed of six elected officials and three persons who are not elected officials but are tax payers in Runnels County.

Council asked to help buy Christmas decorations

The Winters City Council, in their Monday meeting, heard a proposal from the Winters Area Chamber of Commerce concerning the purchase of new Christmas decorations for the downtown area.

Dottie Loudermilk, representing the Chamber, told the council that the proposed decorations will cost about \$3,600 and would not include the cost of wiring electric plugs on the poles. Mrs. Loudermilk told the council that West Texas Utilities had agreed to put up the new decorations and furnish the electricity for them.

The Chamber of Commerce representative told the council that it was hoped that the city would take care of about half the cost of the decorations and accompanying expenses. The other \$1,800 would come from the chamber.

Several members of the council suggested that various merchants might want to participate in the purchase of the displays. Following some discussion, the council tabled the request until more information on the cost of the decorations and other facts could be obtained. Most members of the council did, however, express their favorable thoughts about the request.

The decorations, if purchased would be installed along Main street and on Dale street in the business district during the Christmas season and indications were that the proposed new decorations would last many years.

Maximum fine set for theft of U.S. flag

The highest fine possible in municipal court was assessed a 21-year-old Winters man Monday evening after he entered a plea of guilty to the theft of a United States Flag that was displayed in front of a local business recently.

Municipal Court Judge J.C. Hodnett set the fine at \$200 plus court costs for Donald Earl Gray after police officers recovered the flag from a residence at 505 Van Ness street in Winters.

Police Chief L.C. Foster said that information from local citizens led to the recovery of the flag. Foster also said that apparently several other subjects were involved in the

theft.

The flag, one of three stolen recently, is property of the local VFW post and is placed on posts in front of local business on national holidays. The police chief said that the theft of the flags has apparently aroused the interest of many local residents.

Ted Meyer, of the VFW post, said that rewards are still offered for information leading to the return of the flags still missing and that a reward will be given to the person who gave officers information that lead to the Monday recovery.

City Council rejects water extension request

The Winters City Council rejected a request Monday for the extension of city water lines to residences along U.S. Highway 83, north of the city. The motion to turn down the request was made by Councilman Randy Springer and seconded by Dawson McGuffin.

The request, made by Roy Calcote, asked that the city build, at city expense, the water line that would extend over three miles out

of the city limits.

City Administrator Glenn Brown told the council that the property was within about 4,000 feet of water lines owned by the North Runnels Water Supply Corp. The council indicated that it felt it would better for Calcote to contract with the rural water supply company.

In other action, the council tabled a request for annexation of several lots along South Penny Lane until all residents could be contacted to see if they did desire to be annexed into the city. The residents already have city water, sewer, and sanitation service and if annexed would pay lower rates for these services.

The council was told that along with the annexation, a new street would be constructed and named "Freddie Way". The city administrator said he would attempt

to contact the residents to see if all of them would desire annexation into the city and report back to the council in its next meeting.

City Administrator Glenn Brown reported to the council that the city had received a letter from the Environmental Protection Agency concerning the proposed new sewage treatment facility and with the letter was the indication of tentative approval of funds for the project. Brown said the project would have to again be reviewed

by the federal agency before the final approval of the funds that that it would be about two years before the construction of the plant could begin. Brown said, however, that the project was looking good.

Before ending their meeting, the council discussed some long-range plans and goals for the city and agreed to look over a list submitted by Glenn Brown and determine which plans should have priority over others and present the proposals at the June 21 meeting.

School's out

The renovation work on the Winters school buildings is in high gear as workmen tear out the interior of the high school. Students, out for the summer and working, say they are getting paid now for doing what they would have been paddled for a month ago.

No insurance charges top police activities

In the monthly report, the Winters Police Department said that a total of 45 cases were filed by police officers during the month of May. Topping the list were eight charges of No Liability Insurance, followed by six charges of No Driver License and six cases of Speeding, clocked by radar.

A total of five citations were issued to drivers who failed to stop at stop sign, three for improper right or left turn, three for contest of speed. Other charges filed during the month included: failed to yield from yield sign; failed to yield right-of-way at unmarked intersection, ran red light, following too close; unsafe backing; driving while intoxicated; and passing without safety.

Police also said that two citations were issued for operating a motorcycle not street legal.

Other offenses handled by police included three cases of theft of merchandise (shoplifting) and one case of possession of marijuana.

Municipal Court Judge J.C. Hodnett said that a total of \$886 in fines were turned over to the City of Winters as a result of the cases filed by city police officers.

authority subject to refund to reduce revenue losses in excess of \$4 million a month.

E.L. Langley, president of General Telephone, said, "The revenue deficiency under consideration in Austin is based upon financial data as of September 30, 1981. This means whatever the commission grants in the way of new revenue in a final order later this summer is to cover deficiencies existing since last September."

"In other words, we have lost eight months of badly needed revenues as we go through the lengthy process of assembling

Swimming lessons to be offered

Swimming lessons will be held June 14-18 with two sessions each morning. Beginner, Advanced Beginner and Intermediate classes will be offered for ages 4 and up, with one class beginning at 9 a.m. and the other at 10 a.m.

The classes will consist of five fifty-minute lessons, at a cost of \$15. The money will be due on Monday before class time.

Students may call the City Pool to register, or they may contact Susan Blake, co-ordinator for the program, 754-4746, to register. They should be registered by Sunday, because classes will be limited to six students per instructor.

Another week of classes may possibly be offered at the end of June, if there is a favorable response to these sessions.

data, filing the paperwork, preparing testimony, holding hearings, allowing time for the parties involved to study all the information, the hearings examiner to issue a report, and the commissioners to issue a final order."

Langley said the losses amount to over \$30 million under the PUC staff's recommendation for new revenues and over \$70 million under the company's request.

"To delay placing rates in effect until a final order is issued, probably in August, would mean we would not begin collecting any new revenues until September, resulting in even greater losses."

He continued by saying the Texas PUC has one of the best track records in the nation as far as turnaround time in rate proceedings. "But even with their record, the time-consuming regulatory process has a 12 to 24-month lag between the time we make new investments and the time we are able to collect new revenues based on those investments."

"Our losses will continue even with the interim rates since we did not place all of the recommended rates in effect June 4. However, this amount will help reduce our losses," Langley said.

The telephone company president said it is critical for the company and its customers to obtain

The Sights and Sounds of Chicago

As the Magic Travelers neared Chicago, Dean Smith, our tour host warned all the ladies to remove their diamond necklaces and see that other valuables and purses were made secure. He also suggested that the women go in pairs to public restrooms.

In an attempt to be helpful, Alma Blair carried a shopping bag down the aisle to collect money and jewelry for safekeeping, but she returned empty-handed.

After his announcement, Dean said, "That was the bad news, now I'll tell you the good. We will reach our hotel, the Ritz-Carlton, at the Water Tower Place early in the afternoon. You will have time to explore the many shops on the lower floor of the hotel and get ready for the next days tour of Chicago."

The first floor of the hotel was on the 12th floor of the building and from there we took another elevator to our rooms. Each door had three locks and a peephole with the information that all hotel employees would be wearing badges. Also, no one was allowed on the guest room floors after midnight except residents. Such is progress!

After checking in, B.B. McNeill and I decided to do a little exploring and stopped to eat a sandwich on the way. When we were leaving, a pretty young blonde rushed up and said, "Did one of you ladies leave this?"

It was my billfold, I'd failed to fasten my purse and it had fallen out. After this episode, we decided it would be safer to have breakfast in our room. So we dined sumptuously on sweet rolls and coffee at a cost of \$7.32 each.

At 9 a.m. Irene, a step-on guide representing the "Chicago Is" Company, gave us a guided tour of the city.

With 27 miles of lake front, Chicago is an industrial center and the only inland seaport. Lake Michigan is the third largest of the five lakes and the only one bordered on all sides by the United States. It is great for recreation, fishing and drinking purposes. It has the largest water filtration plant in the U.S. which services the city and outlying provinces. "Best water in the country," said Irene. "But this has not always been so. At one time the people dumped their trash into the Chicago River and it flowed into Lake Michigan, but in 1900 engineers lowered the bed of the river and reversed the flow."

It was a warm day and the Oak Street Beach, lined with white flowering crab apple trees, was thronged with sun bathers. The people seemed to be out everywhere enjoying the sun.

"We had a horribly cold winter, with blizzards and snow that didn't let up and everyone takes advantage of the summertime — It is a great time with bands playing and the people bringing their lunches in brown bags so they won't miss any of it," Irene said.

Chicago has 57 parks with Lincoln Park being the largest. It has a zoo for children and one for adults. Grant park on the lakefront is Chicago's front yard. It has 12 tennis courts, a skating rink, baseball field and

Mrs. Chew's mother and her husband, Mr. and Mrs. J. P. Wallace of Kingfisher, Okla. were unable to be at the funeral due to bad health to both of them.

Manager at Winters, will serve this year as Chairman for the West Central Texas Chapter in Abilene; and Gilbert F. Turner, District Manager at Foran, was elected as the 1982 Chapter Chairman of AOSC for the Permian Basin Chapter in Odessa.

The Association of Oilwell Servicing Contractors is the professional trade association of contractors throughout the United States. It presently includes 475 members, operating approximately 4,800 workover rigs throughout oil producing areas of the USA. The main thrust of the Association is rig safety, research, manpower and management development, recruiting, training and other activities. There are 19 chapters throughout the nation, each having its own officers. The AOSC was founded in 1954, and has developed into an important part of the workover rig industry.

Turner, a long-time resident of Big Spring, has been involved in the well servicing business for many years. He currently directs a 12-rig yard located in Foran for American.

Blackwell heads the company's 9-rig district in Winters, which formerly was the Winters Construction Company, owned by Griff Brown of Winters.

CARD OF THANKS

LE ANN FOGGLE

MICHELLE WHEELER

Former Winters students named as U.S. National Award winners

Two former Winters students, Le Ann Foggie and Michelle Wheeler, both of Somerville, have been named by the United States Achievement Academy as 1982 United States National Award winners in Student Council.

This award is a prestigious honor very few students can ever hope to attain. The Academy recognizes less than 5% of all American high school students.

Le Ann, who attends Somerville Jr. High, was nominated for this award by John Marshall, fifth grade teacher and student council sponsor at the school. She attended school in Winters in her Kindergarten through fifth grade years.

Michelle, who also attends Somerville Jr. High, was also nominated by Marshall, and attended Winters schools from her Kindergarten to sixth grade years.

Both girls will appear in the United States Achievement Academy Official Yearbook, published nationally.

The Academy selects USAA winners upon the exclusive recommendation of teachers, coaches, counselors or other school sponsors and upon the Standards for Selection set forth by the Academy.

Martha SS Class met with Mrs. Jackson

The Martha Sunday School class of First Baptist Church met Tuesday, June 1 in the home of Mrs. Pearl Jackson.

Mrs. Eula Cook presided, with the opening prayer given by Ella Mae Sawyer. Parrie Carwile called roll and read the minutes of the last meeting. She also gave the Treasurer's Report.

Mrs. Charles Poe brought the diversion, a talk on her recent trip to Michigan. She brought pictures, and gave a history of the different scenes.

Parrie gave the devotional. The meeting was closed by everyone repeating the class prayer in unison.

Enjoying refreshments with Mrs. Jackson were Parrie Carwile, Alice Compton, Eula Cook, Allie Jones, Charles Poe, Eunice Polk, Flora McWilliams, Elsie Sanders and Ella Mae Sawyer.

UMW hear program on alcohol, drug abuse

The Winters United Methodist women met at a general meeting at the church Tuesday morning with Mrs. Billie Middlebrook, presiding.

The opening prayer was given by Mrs. Zelma Lee Lange.

After the business meeting, the program "Women and Drug/Alcoholic Abuse" was given by Mrs. Willie Lois Nichols, assisted by Odessa Dobbins, Ozie Stanley, Zelma Lee Lange, and Margurite Mathis.

The meeting was closed with the Lord's Prayer.

Warriors defeat 'Mean Machines'

The Winters Warriors baseball team defeated Lawn's "Mean Machines" Sunday with a score of 23-0.

Dwight Belk struck out the first 9 batters in the first three innings.

Tino then came in and finished pitching for the game.

Toliver hit 2 triples, with Jerry Mac Jackson hitting one triple.

The Warriors now have a 7-1 season record.

The team will travel to Eden to play in a tournament this Sunday.

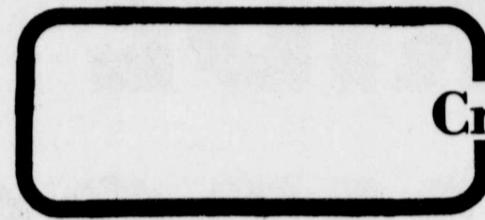

Ice cream supper planned at Shep

An ice cream and cake supper will be held at Shep on Saturday, June 12, beginning at 7 p.m. The event will be held in the Shep Community Center, with the ice cream and cake provided by the ladies of the Shep Community.

Everyone is invited to attend and enjoy this supper.

Keep frozen poultry hard-frozen until time to thaw, and cook promptly after thawing.

Jerry Lackey's Country Folk

Still the diamond fiber, mohair clip went on sale at warehouses across the state following spring shearing and by early June was mostly sold and on the way to mills. In comparison, wool tonnage movement has been slower, especially for the short wool.

In visiting with Bevie DeMerville, buyer for A.C. Wood & Sons, Ltd., and Wm. Bussey Ltd., I learned most of the Texas mohair has been cleaned out. "There is probably less than one million pounds left in the entire state." With the Texas production around 25 million pounds annually, that means there is only a pocketful left in warehouses.

A mohair sale in Uvalde recently cleared about two-thirds of roughly 150,000 pounds offered. Average and plain adult brought \$2.40, young goat \$2.80 to \$3.70, kid hair \$4.40 to \$5.88. Bids on better adult hair were turned down.

The U.S. produces 60 percent of the world's mohair, and 97 percent of the U.S. clip is produced in Texas. Having grown up on an Angora ranch in the Hill Country, I can say first hand that the 97 percent is pretty much located on the Edwards Plateau.

Now that summer has arrived, registered Angora buck sales will take place in the Junction and Rocksprings areas. Kimble County Goat Breeders Sale and the Stanley Lackey Dispersal Sale is scheduled for July 24 at the Lackey Ranch, 16 miles west of Junction.

Robert and Jean Ebeling will offer 100 registered Angora goats in a sale July 19 at Junction Stockyards. The second annual Performance Tested Angora Sale will be July 8 at the Sonora Experiment Station.

The Texas Angora Goat Raisers' Association will sponsor an Angora Kid & Yearling Club sale in Rocksprings July 10. Longtime breeder Brooks Sweeten of Rocksprings is offering some kids and commercial does for sale at the ranch.

In August the annual Texas Angora Goat Raisers' Association Sale and Show will be presented in Rocksprings. It will be followed by the annual Angora Buck Sale in Junction on the second weekend.

With the coming of the annual sales, I always recall with a great deal of nostalgia the many pioneers of the industry. Names like Mrs. M. Armer, Judge Bob Davis and Arthur Davis, C. A. Pepper, Sr., J. A. Ward Sr., Jack Turner, J. L. Gulley, Pete Gulley, B. M. Halbert, Sam Cooper, F. O. Landrum, Len Clark, Fred Earwood, S. F. Lackey, Carlton Godbold and Mrs. Vera Burrows... Their work is carried on today through the bloodlines they established.

Well, it goes back to 1849 when the first goats arrived on American soil from Turkey. Dr. James D. Davis was credited with bringing them here.

The American Angora Goat Breeders' Association is headquartered in Rocksprings, known as the Angora Goat Capital of the World. The organization was established as a registry service in 1900 and has since registered over 400,000 goats.

Mohair was one of the primary textile fibers of early mankind and was used in the times of Moses. So, I would say the industry has come a long way and now, more than ever, mohair is the diamond fiber.

My sincere thanks to the voters of Runnels Co. A special thank you to my family and friends who worked so faithfully in my behalf.

Again, my thanks!

Loretta Michalewicz

Runnels County Farm Bureau seeking entries for contest

The Runnels County Farm Bureau is now seeking entries for its Queens Contest. The contest is scheduled for July 18, at the County Farm Bureau office in Ballinger at 3 p.m.

The Junior Queens contestants must be 13 years of age by contest time, while Senior Queen contestants must be between the ages of 16 and 21 by September 1, 1982, and must never have been married. To enter either contest, the entrant must be either the sister of a Farm Bureau member or a daughter of a Farm Bureau member.

Contestants will be judged on appearance, poise, and personality, although other qualities such as grace and charm will also be taken into account. In addition, Senior contestants will be required to speak for about one minute in response to questions about Farm Bureau current events.

Farm Bureau is also seeking contestants for its Talent Find Contest, which will be held in conjunction with the Queen's contests. The age requirements for the Talent Find are the same as those for the Senior Queens' contest. Acts may be performed by individuals or groups, and are limited to 5 minutes.

Sanders reunion held in Tuscola recently

Descendents of the late J. S. and Mattie Sanders met Saturday evening and Sunday for a reunion in the Tuscola Community Center. Time was spent taking pictures, visiting, looking at former reunion albums, and playing dominoes on Saturday night.

A covered dish luncheon was served on Sunday for the noon meal. All nine children were present.

Attending were Mr. and Mrs. Darrell (Wilma) Gresham of Plainview; Mr. and Mrs. Wilford Sanders of Caldwell; Mr. and Mrs. B. C. (Lucille) Walker of Waco; Mae Sanders of San Angelo; Clyde Sanders of Stephenville; Mr. and Mrs. Morris Sanders and Mr. and Mrs. Fred (Octavia) Gideon of Abilene; Elsie Lee Sanders of Winters, and Mr. and Mrs. Bruce (Rebecca) Pierce of Tuscola, and Mrs. Charlie (Ruby Touchstone) Sanders, of Tuscaloosa, Ala.

Others attending were Mrs. Charlene Harris of Northport, Ala.; Mrs. Wanda Van Zant and son of Mesquite; Mrs. Dot Wilson, Arkansas; Mike, Patricia, Michelle, and Michael Gentry of Arlington; Jim and Julie Gresham of Early; Mrs. Ellen Anthony of Abilene; Melvin, Zoe, and Wayne Bartley, and Joy Sanders, all of Hewitt.

Also present were O'Neal and Billie Pierce, Mrs. Rufina and Tommy Frymier, Esther Adams, and Donald and Peggy Reynolds, all of Tuscola; Billy Pierce and Linda of Abilene; Emily Pierce of Laughton, Okla.; Mr. and Mrs. Aaron Blankenship of Lawn; Richard Gresham and David Sharpston of Dallas; and Larry Tatum and Tracy Harvey and son, all of Abilene.

Visitors included Mr. and Mrs. Travis Downing and Mrs. Ruby Gresham, all of Winters; and Bessie Buchanan of Tuscola.

Entrants must be amateurs. If an accompanist is required, each entry should make his own arrangements. Senior girls may enter both the Queens Contest and the Talent Find if they wish.

Farm Bureau employees, dealers, service agents, and their families are not eligible to enter the contests. Winners will receive various gifts, and the Senior Queen and the Talent Find winner will compete in the District Contest. District winners will attend the State Convention, all expenses paid, in November, and State winners will attend conventions in Dallas, Waco, and Missouri, with their expenses paid.

Entry forms are available at the County Office in Ballinger, and from Betty White in Winters. Entries must be in the County Office by July 1.

Sahawe Indians to perform in Eden

As part of the Eden "Festival 100" activities, the internationally famous Sahawe Indians from Uvalde will set up a teepee village and perform traditional Indian dances. "Sahawe" means long feathers, which are used in the construction of the colorful costumes. The group will feature such dances as the Taos Hoop Dance, Kiowa War Dance, Chippawa Feather Dance, and the spectacular Pueblo Comanche Dance. Each year the Sahawes travel many thousands of miles presenting their exciting shows to audiences of all ages.

Once one has seen the show, it is hard to believe that the performers are not real Indians, but are members of Explorer Post 181, B.S.A. They have been performing their famous interpretive dances throughout the U.S. and Mexico for more than 30 years.

The Indians will have their village open and be performing their elaborate dances between 1 p.m. and 5:30 p.m., June 12, on the Eden city square.

To add a touch of spice, the San Angelo "Muzzle-loaders" will be nearby demonstrating the care and loading of antique guns and welding the ancient tomahawk into a wooden target.

In addition to the Indian Village entertainment, the nearby gazebo stage in the city center will be featuring nine different entertainment groups from mariachis to barbershop to German Oompa music. And if that isn't enough, those of competitive spirit can toss cow chips, washers, horseshoes, or race armadillos all afternoon. They can even spit or lie for prizes. The Eden Festival 100 will last all day, June 12. Everyone is invited.

Rabies clinic at Wingate

A special rabies clinic, sponsored by the Wingate Volunteer Fire Department, will be held from 2 to 3 p.m., June 12.

Dr. Jimmy Smith, of the Pioneer Veterinary Clinic in Winters, will be on hand to give the shots. A \$5.00 charge will cover the cost of the rabies shots. Dystemper and Partho shots will also be available on request.

Everyone is urged to bring their pets to the fire barn in Wingate to have them vaccinated.

Outlaws now 5-2 for season

The Winters Outlaws added another victory to their record by defeating the "Mean Machine" of Lawn with a score of 7-0.

The first inning saw five batters come to the plate for the Outlaws, with John Esquivel being successful in making it around the diamond to put the Outlaws in the lead 1-0.

During the second and third innings, the outlaws were held to only one hit, with the score remaining the same.

Fourth inning play brought six more batters up for the Winters team, with John Joeris and Micky Smith adding points for the Outlaws to stretch the lead 3-0.

Roy Torres added to the score during the fifth inning with 3 other hits being accounted for. The score was upped 4-0.

The sixth inning livened up with Ronnie Lujano hitting a homerun for the team.

Three batters were unsuccessful in their attempt to get to base during the seventh inning.

Once again, during the eighth inning, Ronnie Lujano hit a homerun. This wrapped up the game for the Outlaws, with a 7-0 win.

Pitcher Johnny Miller went the nine innings with 15 strike-outs.

The Outlaws now have a 5-2 record for the year. Their next game will be a rematch with Lawn at 2 p.m. June 13 at the Winters Park.

Jr. Culture Club installs officers

The Junior Culture Club recently held their installation of new officers. To celebrate, a salad luncheon was held at the Church of Christ Fellowship Hall.

Members were then treated to an installation ceremony by Mrs. Patsy Rogers. The ceremony likened the club's offices to various characteristics of diamonds, such as clarity and cut.

Officers for the next two-year term will be: president, Mary Lynn Presley; vice president, Sue Keene; recording secretary, Beth Rives; communications secretary, Nancy Evans; parliamentarian, Kandy Sheppard; treasurer, Brenda Bahlman; historian, Brenda Brown; and federation counselor, Brenda Killough.

Members and their guests who attended were Brenda Killough, Patsy Rogers, Melanie Wade, Jan Jordan, Dottie Loudermilk, Brenda Bahlman, Beth Rives, Cindy Rogers, Becky Blackwell, Mary Lynn Presley, Rhea Sue Paramore, Nancy Evans, and Kandy Sheppard.

The evening was an enjoyable one for everyone.

How's your honey?

Is your honey raw or processed? How can you tell?

Raw honey is that which has never been heated above 100 degrees f. or strained, says Dr. Cass Rya-Crowe, a food and nutrition specialist.

Processed honey has been heated and filtered to remove any foreign particles, she adds. The color of honey varies depending on where the bees collect the nectar, the specialist says.

In addition, heating honey can cause it to darken slightly.

To store honey, keep it in a tightly covered container in a dark, cool place, she advises.

Freezing or refrigeration will not harm the product, but may cause it to form granules.

McDorman's Winters, Texas BUDGET TERMS

Since you can't tell what's inside...

Treat all your seed with Vitavax-200

Farmers throughout our growing area are reporting an outbreak of true loose smut in their fields this spring. Research shows there is a direct correlation between the percentage of infection and the loss in yield. A 5% infection, for instance, results in a 5% yield reduction. A 10% loose smut infection results in a 10% yield loss.

Since even a small loss due to smut is more than you can afford, you should have Bronco Seed Company treat your wheat seed with powerful Vitavax-200 systemic fungicide. Vitavax-200 protects your wheat against disease losses from true loose smut, common bunt, seed rots and seedling diseases.

Vitavax is patented as a growth stimulant.

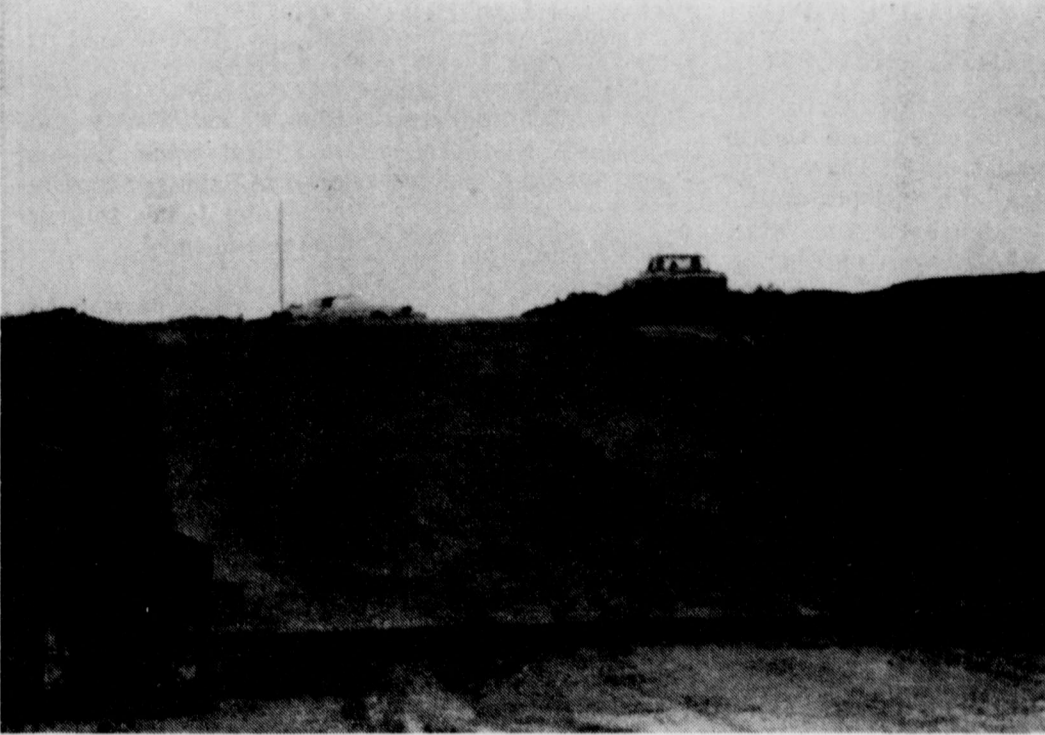

Under field stress conditions, like drought or cool, wet weather, Vitavax-200 treated plants normally emerge faster, develop more extensive root systems and larger crowns, and produce healthier stands that contribute to higher yields.

With today's fluctuating grain prices and profit margins, you have to make the most out of every acre you plant. Now, more than ever, you should be planting top quality seed treated with the best fungicide available.

Bronco's custom conditioning plant always assures you of pure quality wheat seed, and we treat with Vitavax-200, the leading seed treatment in the United States today.

new rates as soon as possible to improve the company's financial picture. "Deterioration of our earnings resulted in our bond rating being dropped from A to A- last year. If we do not show improvements, that rating could slip further and the money we must borrow to continue our modernization and service improvement programs would become more costly, a cost ultimately paid by customers." "By placing the rates in effect in June, we can im-

prove our financial picture more than if we wait until a final order is issued." Under rules established by the Texas Legislature, a utility can place rates in effect 125 days after filing a request if final action has not been taken. Rates placed in effect under the procedure are subject to refund, including interest on the difference, if any, between the interim rates and those ultimately approved by the commission. However, if the commission were to approve higher rates, the company

protect all parties and permit adequate time for the regulatory without excess penalty to the utility," Langley said. The bonded rates include restructured local service rates to reflect the additional costs of providing extended area service (EAS), or toll-free calling, between two or more exchanges, and are shown separately on customer bills. "Historically, EAS costs have been paid by would not be able to collect the difference. "The bonding process is a method established to

Wedding gowns, pictures to be featured at museum open house

Wedding dresses and pictures of the bride and groom will be displayed at the Z. I. Hale Museum open house on Sunday, June 13, from 2 to 4 p.m. Joyce Bahlman, exhibits director, urges all those with wedding dresses of any period, please bring them to the museum on Saturday, or to call her or Mildred Gardner during the week. Plans were made at a board meeting recently for a formal opening of the museum on August 1. An open house has also been planned for July 2.

Just lookin' for a home

These puppies at the Winters Animal Shelter are ready for adoption. Animal Control Officer James Staggs says these pups, some of them blooded, are ready to be taken to a new home.

To adopt a puppy, contact the City Hall for an appointment and pay the impoundment and boarding fees for the animal. The dogs must then be vaccinated and receive their city registration tags.

I would like to take this opportunity to thank everyone who supported me throughout my campaign for District Clerk. Each and every vote was certainly appreciated.

Thank You!

all customers, whether their exchange has the service or not," Langley said.

"First, under the billing concept being placed in effect under bond, only customers having and benefiting from EAS will pay the costs associated with the extended calling scopes. Second, customers in a location with the service will know what the EAS calling service is costing them per month."

He explained EAS is a communitywide service which provides communities unlimited toll-free calling to one or more exchanges. Of the 289 exchanges served by the company in Texas, 188

have toll-free calling to one or more exchanges. The service is not the same as the optional metro service available in some Dallas-Fort Worth and Houston area exchanges.

"Under the current statewide rate-making policy, the costs associated with the service (EAS) are included in the local basic rate of every customer, whether they have the service or not. Under the bonded rates, only customers in exchanges having and benefiting from the service will pay. This will keep local basic rates for customers in exchanges without the service lower than they would be under past policies, and those with EAS service will know what they are paying for," Langley pointed out.

EAS rates were established based upon costs determined as follows:

(1) Intercity cables and circuit equipment were assigned to EAS based upon actual costs.

(2) The balance - land, buildings, central office equipment, outside plant, and station equipment - was assigned to EAS based upon actual minutes of use for EAS calling.

(3) The EAS intercity facilities costs were combined with the costs associated with EAS usage and rates were then established, by rate groups, based upon usage. "It should be understood that EAS provides for unlimited calling for the basic charge," Langley said.

Class of '57 to meet for 25th reunion

The 25th reunion of the Class of 1957 will be held Saturday, June 19.

The day will begin with registration at 10 a.m., and a visit and coffee for everyone at the Winters school cafeteria. Lunch will be served at 1 p.m., and will be catered by Southern Seas of San Angelo. A business meeting will be held at 2:30 p.m., and at 3 p.m. pictures of the class and the entire group will be taken. A 3:45 program will be held later. At 5 p.m., everyone will travel to Bishop's picnic area at Wingate for a hamburger/hot dog supper to begin at 7 p.m. After supper, time will be spent visiting, relaxing, playing games, etc. The picnic area will be lighted, so darkness will be no problem.

Anyone with questions may contact Janice Pruser at 754-4120, or Noleta Rice, 754-4286.

Visitors are welcome, but will need to make reservations for the meals.

To preserve left-over egg yolks, place them into a small bowl and add two tablespoons of salad oil, then keep refrigerated, Texas Department of Agriculture home economists advise.

Always keep cultured butter-milk chilled. If it becomes warm, it may separate. If it does - stir it.

"Should a community having EAS desire to change, they may elect one of two options. The first option would be to return to regular toll network. The other option would be to utilize usage sensitive service. Either of these alternatives would provide individual customers greater control over their costs for telephone service."

Under interim rates, a one party residence would increase from \$6.95 to \$7.60 plus an additional \$1.20 for EAS. One party business would increase from \$18.30 to \$20.05 plus \$3.25 for EAS.

YOU can control your use of electricity and your bill by using energy wisely.

Higher fuel prices and inflation have pushed electric costs higher in recent years. But YOU still are a key factor in determining the size of your electric bill. Because only you can control the amount of electricity you use, a large part of the control over your bill is in your hands. We offer these wise-use suggestions as a guide for getting the most out of every dollar you spend for electricity:

- Make sure your house has insulation equal to at least an R-19 rating in the ceiling and R-11 in the walls. Insulation pays for itself within a few years in reduced heating and cooling costs.
- Weatherstrip windows and doors, then keep them closed.
- Eliminate excess heat with draperies, storm windows, reflective films, window shades and overhangs.
- Set air conditioning thermostat at the highest comfortable setting, around 78 degrees.
- Clean or replace air conditioner filters every month or—even better—every two weeks.
- Have leaky hot water faucets repaired immediately; they waste both water and the energy used to heat it.

• Check the temperature control on your water heater. For most needs, the correct setting is 135 degrees; water heaters used for baths only may be set at 110 to 120 degrees.

By following these tips, you should be able to control your use of electricity—and the size of your bill.
