Wait a minute...

By Kerry Craig

Well, I guess those guys at that Abilene paper, big city type, finally learned that Winters Blizzards are a football team to be taken seriously. You know, they even put our score on top of their front page with all the other teams. 'Course it took a bi-district win to get our name there. Thanks guys and keep trying.

Now speaking of trying, not only did the Abilene television stations learn where we are, they even made several trips just to film stories on our football team. The coverage was excellent, the pictures were top quality. Now if they just could change an "o" to an "a" on their teleprompter and cue cards along with that line that pops up at the bottom of the screen to tell us what the announcer is saying. His name is Dan, not Don, Bacon. Keep up the good work.

Before the football season is over, I must relate an incident that occurred at the start of the season.

Our old score board did a poor imitation of an electric short, gave forth a small puff of smoke, and just quit when our season was getting underway.

Well that scoreboard, which had served well for many, many years has gone to its final reward at the local landfill and a brand new scoreboard has taken its place at the south end of Blizzard Stadium.

Now how that new scoreboard with all its fancy electronic tricks (counting forward and backward, blowing its own horn, and many other features) got there is quite something.

You see, the old one quit at the start of a game forcing the officials to keep time and scores on the field. During that game, it was decided by some interested people to get something done.

The new scoreboard was ordered the following Monday, it arrived two days later on Wednesday, and was in operation by the next Friday.

Just what strings were pulled and how we don't know, but it took some doings just to get anything from Dallas to Winters in that length of time. That head coach just keeps pulling tricks out of the bag.

Now all this did not happen free of charge. The new scoreboard cost in the neighborhood of \$5,000. Now that is a bunch of coins.

If you look at the new scoreboard, you will find two names on it. Two businesses picked up the entire tab. The head guy of those businesses is responsible. Not mentioning any names, but his initials are Bobby Airhart. THANKS, from all of us.

Now down to business, when you are sitting in the stands at the game you cannot see how many folks are around you. You can, however, see just about how many folks are in the stands on the other side of the field.

Street program to start Thursday

Weather permitting, the long-awaited street paving program in Winters will get underway Thursday morning according to Winters City Administrator Glenn Brown.

The paving work will be done by Runnels County Crews in a cooperative program with the City of Winters.

Due to the time of year and the cooler temperatures and the type of asphalt to be used, Brown said that traffic will have to be kept off the streets for at least 72 hours.

The first step in the program will be to coat the streets with oil and let that oil dry for 72 hours. Paving crews will then apply more asphalt and crushed rock to complete the paving.

The primer coat will be applied Thursday and the final overlay will be done next Monday provided there is no major change in the weather.

Brown said that the streets will

Extension granted for Stacy project

be blocked off and that residents will be asked to park either in the alley or down the street.

Runnels County Commissioner Robert Virden said that his crews can do a better job, one that will last longer if the traffic will stay off the streets until the paving is completed.

Virden said, "paving this late in the season, this is the procedure we need to follow. It's either this or wait until next spring for the paving."

The streets to be paved include South Penny Lane, Gateway, and Hunters Glenn.

Also to be paved will College Street, Melwood Street from the end of the existing pavement to the intersection with College Street.

Cryer Street, between Walnut Street and the Novice Road; Pecan Street between Trinity and Concho Streets; Murray Street between East Dale and Tinkle; parts of Broadway Street in the 200 and 300

water which would cover parts of Runnels, Coleman, and Concho Counties.

The project has long been opposed by the Austin-based Lower Colorado River Authority. The LCRA recently asked the Texas Supreme Court to invalidate the permit for the dam, issued by the Texas Water Commission.

Lower courts have already held that the TWC did have the authority to issue the permit for the reservoir. The LCRA contends that more permits for water use have been issued that the river yields water.

Originally, construction was to have begun on the Stacy Dam May 31, 1983, and the completion date was to have been May 31, 1989. The new time limits call for a May 31, 1987 starting date and completion is scheduled for May 31, 1991.

blocks through the intersection with Meeks street; Meeks Street to its intersection with Redtner; the 500 block of Albert Street; Frisco Street, between Commerce and Floyd Streets; Floyd Street from Frisco to Magnolia.

City officials asked that motorists avoid these streets from Thursday morning until the paving project is completed.

Vandalism spree costly

Winters police took a 15 year old Wingate youth into custody early Sunday morning in connection with a vandalism spree that damaged three pick ups and two cars at C & C Used Cars in Winters.

Officers said they were notified about midnight Saturday that several windows had been broken out of several vehicles by a Mexican-American male. When officers arrived, it was learned that side windows had been broken out of the vehicles by someone using a tire tool or lug wrench.

Investigators also said that a large rock was used to shatter the windshield of another vehicle. Both the tire tool and the rock were found at the car lot.

Damage estimates totaled \$1,105.63 plus an additional \$125 to clean the broken glass out of the vehicles.

No charges have been filed in connection with the incident but, officers along with Justice of the Peace J.C. Hodnett said that the youth's parents have agreed to pay for the damage.

District Attorney Dick Alcalá said that although there are provisions in the law for detaining the youth, local officers are authorized to work out such a solution.

Local officers said that if the restitution were not paid by the youth or his parents, the case would be referred to juvenile authorities.

The Winters Blizzards blasted the Mason Punchers last Friday to win the bi-district championship in Brownwood by a final score of 29-12.

Mason kicked off to start the game and the Blizzards were unable to move the ball and punted in a fourth down situation.

With Mason on the offensive, the Blizzard defense held firm and forced the Punchers to punt.

Winters was again unable to mount an offensive and punted the ball back to Mason. The Punchers then executed a series of plays that began on their own 42-yard line and ended with quarterback John Dutton in the endzone to put Mason on the board with six points with almost four minutes left in the first quarter.

Greg Guevara returned Mason's kick-off to the 29-yard line and Kent Billups and Ronnie Lujano accounted for three first downs to end the quarter.

Bill Wheat connected on a pass to Ronnie Lujano but a flag for holding set the situation at fourth down with eight yards to go. Ronnie Lujano kicked a field goal from there to get the Blizzards on the scoreboard, but still behind 6-3 early in the second period.

Following Winters' kick, Mason gained good yardage on a reverse, but a penalty for holding nullified the gain and forced a punt by the Punchers.

Beginning on their own 49-yard line, the Blizzards began to move the ball with a pass from Bill Wheat to Eric Belk for 20 yards. Billups added another first down for the Blizzards before a fumble gave the ball to Mason.

The Punchers completed a pass for the first down and then fumbled the ball back to Winters—Ronnie Lujano recovering on Mason's 45-yard line.

Billups then racked up two first downs behind good blocking. Lujano carried the ball to the five-yard line for another first down. Billups then powered in for the

touchdown and Lujano added the PAT and the Blizzards took the lead 10-6 with 2:22 minutes left in the half.

Mason, unable to make a first down, lined up to punt only to have the punt blocked and Kent Billups picked up the ball to get into the endzone. Lujano again added the points to make the score 17-6 with less than one minute remaining in the half.

The Blizzards then kicked off to Mason but an off-sides penalty forced Winters to kick over. Mason then left a pass incomplete to end the half.

Mason received the second half kick off, got a first down, then fumbled the ball. John Mesey recovered the ball on the Mason 49. Both teams punted and then the Blizzards took over on the 49. Kent Billups scored for the third time on a 16-yard run, the extra point attempt failed to make the score 23-6.

Mason received the kickoff and started their next possession on their own 11-yard line. Pushed back by the Blizzard defense, the Punchers elected to punt on third down from their six-yard line.

The Blizzards were held just short of the first down marker and forced to punt giving Mason control of the ball on their 23. A pass play by Mason netted 22 yards, but the next three pass attempts were broken up in turn by Eric Belk, John Mesey, and Eric Belk. A punt to the six gave Winters control of the ball again.

Unable to gain a first down, Winters punted and the Mason receiver bobbled the ball and Alfred Yates recovered. The Blizzard offense was again forced to punt.

Mason executed two pass plays for good yardage, three passes were incomplete and the ball again changed hands.

A Blizzard fumble gave the ball to Mason on their own 37 and an off-sides penalty against the Blizzards. (See Blizzards page 10)

Irving man injured in Sunday chase

A high speed chase that began in Ballinger early Sunday morning ended in a major accident near Brownwood that left an Irving man in critical condition in an Abilene hospital.

The chase began when Ballinger Police officer Joe Stokes attempted to stop a pick up for speeding and suspected driving while intoxicated in Ballinger.

The pick up, driven by Oscar Sosa of Irving, then fled at speeds of 80 and 90 miles per hour on U.S. 67 east. Sheriff's deputies then joined in the chase that crossed Coleman County and into Brown County.

Brown County authorities were notified of the chase and set up a roadblock at the top of Bangs Hill, on the west edge of Brownwood.

As the chase left Santa Anna, in

Coleman County, the pick up rammed the Ballinger police car and kept running.

Officers said that Sosa apparently lost control of his pick up before he got to the road block and overturned several times.

A patrol car from the City of Early was struck by the fleeing pick up as it spun out of control injuring the driver and a Brownwood police officer also in the car.

Sosa's pick up then overturned about four times throwing Sosa from the vehicle and into a field.

Sosa was treated at a Brownwood hospital then transferred to Hendrick Medical Center in Abilene where he was listed in critical condition with neck injuries.

Local authorities say that several charges are pending against Sosa and may be filed later.

Former Student Writes Nostalgic Letter

In response to the series of articles on the history of Winters schools, Jack Callan of Kaufman wrote a letter to the Enterprise expressing his interest. He said that the announcement of the open house at the remodeled and refurbished high school plunged him into a nostalgic mood.

Jack expressed his feeling of loss that the rock building constructed in 1911 was demolished in 1955. It was in this building that he began his schooling in Winters. His mother moved to Winters from Menard, three years after the death of his father. Mrs. Callan was a sister to the late John Q. McAdams.

While the building now used as the school cafeteria was constructed in 1923, most of Jack's education took place in the original structure. "I was a senior when the new high school was completed just a short time before the graduation—but early enough for us to enjoy its use and be the first class to receive diplomas in the new building. I was valedictorian of the Class of 1927. How proud we were of the new auditorium, which was, indeed, a far cry from the old combination study hall and auditorium in the old building.

Callan was a student when the first Glacier was published in 1925, and his picture appears as a sophomore, although he wrote the Freshman class history for the yearbook. This came about because he entered high school at mid-term, January 1924 and was still a freshman at the start of school in September—but became a Sophomore at mid-term. This prompted him to accelerate his studies and graduate in three and one half years with the class of '27.

After attending Texas Christian University in Fort Worth during the college year, 1927-28, Jack received his early newspaper experience working on The Antlers, Okla., American for a year. He returned to TCU in the fall of 1929, but by that time the call to newspaper work was so demanding, he wrote George C. Hill of The Enterprise, asking for a job, and he agreed. He enjoyed working for Mr. and Mrs. Hill, but could not dismiss the idea of having his own

newspaper. In January of 1931 an older brother and he with some financial help, bought the Kaufman Herald. They published the paper as a partnership until 1952, when he bought his brother's interest. He owned and published the paper until he sold in December of 1971.

Charles Koehler, and Cora married Clifford Moreland, now deceased. They have one daughter. Others who live nearby are George Newby who had a funeral home at Ballinger but is now a Commissioner at Robert Lee. He married Mavis Pounders and they have two girls. Christine Barnett married a Mr. Peek and when last heard of was teaching school at Eden. Fannie Joe Bartlett is married and lives at Dallas. Loyd Edwards lives near Lubbock. He has a son and daughter. He is remarried after his wife's death.

Several members moved some distance from home after finishing college. Henry Dixon moved to Akron, Ohio where he is employed with BF Goodrich Tire Company. Dorothy Green was married to Truett Barber. They had a son and daughter. After Truett's death, Dorothy married Oscar Koepke and they live in Corpus Christi.

Le Roy (Sam) Seitz married Fannie Lee Mullins. A letter from her says that she and Sam will be married 48 years in December. She said "we are doing fine and just returned from Europe last weekend, where we took our two daughters and husbands for three weeks. Sam is chairman of Am-Cot, which is an International Cotton Market. It keeps us overseas about half the time but we love it."

The Seitz live in Bakersfield, Calif. and she says they continue to receive the Enterprise. They enjoyed the school articles especially the one of the girls basketball team whom they both know. They sent the newspaper on to Isabel Adams who lives in Modesto, CA.

Two members of the class married each other; they were Sallie Lou Newby and Alton Roberts. After her death he remarried and lives on Star Route Ovalo.

Others of the class who are deceased are Brooksie Justice, Mack Dedmon, Horace Adams, Parham Witt, Richard Seagler, Robert Lee Jonas, Marjorie McAdams, Gaylord Singleton and Mary Ella Bradley.

Those that we have been unable to trace since graduation are Gladys Palmer, Thurman Mitchell, Evelyn Piercy, Bennie McAdams and Marie Griffis, a cheerleader.

Callan ended his letter with some information about himself. He owned the Kaufman Herald for 41 years, and was the manager of the Chamber of Commerce for seven years. He retired October 1st. His wife is the former Wynelle Pound, schoolteacher in the Kaufman school system for 29 years. They have two married daughters, Janelle (Mrs. Henry Ozimy) age 38, and Debbie (Mrs. James Faulkner) age 24. Both reside in Kaufman. They have two grandchildren.

Those of us who have remained in Winters are just as eager to hear from former students and citizens as they are to know what goes on in the old home town—So keep those cards and letters coming!

1983 Arts & Crafts Show, best ever

The 1983 Arts & Crafts Show sponsored by the Winters Area Chamber of Commerce stands as the Best Ever. Over 950 guests registered at the door (with many more coming and going) during the two day affair, November 11 and 12, 1983.

Comments were more than favorable from the exhibitors as they delighted in the sale of their hand-made goods to the crowd who seemed to be doing a lot of Christmas shopping. Several of the visitors to the show were heard to say that they enjoyed the good variety in the types of booths this year and the good quality of the items on display.

The Stew Cook-off Contest was again a huge success with 28 entries to be judged. The winners, who took home ice chests filled with steaks, sausage, and cheese donated by Dry Manufacturing Co., Super D, and Piggly Wiggly, included: First place, Mary Jane Blackshear; Second place, Sandy Griffin; and Third place, Edna England. The judges of the stew were: Debra

Stelter, George Gosness, and Joe Amarol, all from out of town.

The Chamber of Commerce gave away door prizes every hour during the two days, including green plants and Winters Wheeler Dealer games. A drawing held Friday, November 11th, to give away a Remington Deer Rifle, was won by Tommie Hodnett, of Winters.

The Children's Art Fair and the Quilt Show at the Z.L. Hale Museum were both well attended during both days of the event.

The Chamber of Commerce wishes to thank all the wonderful people who donated their time to make the 1983 Arts & Crafts Show such a success. It took the labor of those in the kitchen, the ladies at the front door, the Winters Ag. students and teach, the elementary teachers, the employees of the city, Dry's, Alderman-Cave, Foxworth-Galbraith, and many, many more people who worked to enable the Chamber of Commerce to sponsor such a great event. The community should be very proud.

"Pick a Phone, Any Phone?"

Just because a phone will plug into your wall jack, it doesn't mean that it will work.

Why?

Well, for instance, let's look at a phone that will be used on a party-line. Since customers share a common line to the telephone company switching office, each

phone has its own special ringing-cycle setting which allows the phone to know when it should ring on the party-line.

Even if you have a 'Private Line', you still may have problems.

Single-line customers may also have special dialing or ringing requirements that are not apparent. So, they purchase a new phone and sadly discover that it won't work. This is especially true for customers who may be

considering a cordless telephone or even a universal dialing telephone, a clock radio that offers telephone access capability or any other special telephone service.

Trading in your dial phone could be asking for trouble.

The joy of owning your very own 'Touch Tone' phone could turn into tragedy if your phone line is designated for a dial or pulse phone. A pushbutton 'pulse' phone will work on most lines, since it also duplicates the signal of a regular dial phone. However, a

So, if you decide to buy a new telephone, take the time to stop by your neighborhood GTE Phone Mart and see if your particular line has any special limitations. It could possibly save you a lot of frustration and money.

American Legion & Shriners fund drive

It's one of the best combinations since Hope and Crosby, love and marriage, and, coffee and doughnuts. It's the American Legions of Texas and the Shriners.

For the first time, the 80,000 members of Texas American legions are putting their fund-raising efforts behind the efforts of the Shriners and the purpose is to raise \$1 million for the Shriners Crippled Children's Hospital in Houston and the Burn Institute in Galveston.

For everyone who has had their doubts about those people collecting money on street corners, there's no need to wonder any more. Since Legion Commander C. "Red" Sonntag and Arabia Shrine Temple Potentate Maurice

Elsberry kicked off the campaign in mid-October, fundraisers all over the state have been easily recognizable by their Legion caps and Shriner fez.

And, there's no need to wonder where the money goes. The Houston hospital has helped treat, free of charge, 250,000 children with orthopedic problems and the Burn Institute has helped save victims of fires from around the world.

The people are easy to recognize, and so is the need. Donations for the fund can be sent to Department Headquarters, PO Box 789, Austin, TX 78767. Checks should be made payable to "American Legion-Shriner Fund Drive."

CAPITOL UPDATE
by Jim Parker

As I am sure all of you know by now, ten of the eleven propositions passed in the November 8th election. The only proposal that failed was proposition No. 8 which would have allowed political subdivisions to exempt veteran and fraternal organizations from ad valorem taxes.

While we will all be affected eventually, either directly or indirectly, by these Constitutional amendments, probably the one which will have the most immediate, positive effect on some in our district is proposition no. 7 which makes veterans eligible for a \$20,000 loan from the Veteran's Land Board to assist them in buying a home. For this reason, I thought I would take this opportunity to explain the process and the steps which veterans will need to take to put the program into action.

The Veterans' Land Board of the General Land Office may use \$500 M in the Veterans' Housing Assistance Fund for the purpose of making a loan of \$20,000 to qualified veterans in order to assist them in purchasing a home. The remainder of the mortgage would be financed through one of the participating financial institutions. Both the Land Office and the lending institution would share first lien on the house. By December 15th a list of participating financial institutions in the state will be published so interested veterans may be aware of the ones closest to them.

Eligible veterans will go to a lending institution approved by the Veterans' Land Board and qualify for a housing loan in the same way all other borrowers would. The institution takes into consideration that the applicant would have an additional loan from the Veterans' Land Board. If the veteran qualifies for a loan from the lending institution and is certified as eligible for the Veterans' Housing Assistance Program by the Veterans' Land Board, the Board will send the lending institution up to \$20,000 toward the money loaned for the home purchase. The borrower will make only one mortgage payment per month to the lending institution, which will in turn, send partial payment to the Veterans' Land Board for repayment into the Housing Assistance Fund.

This program should enable many veterans to purchase a home and I hope any in my district

Scout meeting November 22

Executive Board Members of the Chisholm Trail Council, Boy Scouts of America, will be joined by other Council members at large and Scouting Coordinators representing the chartered partners for the Council Annual Business Meeting on Tuesday, November 22.

Election of officers for the new year, financial reports, and the annual progress report of the Scout Executive will be included on the agenda.

Dr. Dale Brannon, Council President, will call the meeting to order at 7:30 p.m. at the Council Service Center, 3233 So. Willis. There will be no meal served and the meeting should be over around 9:00 p.m. The Chisholm Trail Council includes 9 1/2 counties in and around Abilene.

The first image transmitted on experimental television in the 1920s was that of the cartoon character, Felix the Cat.

Some say sneezing before a journey is a bad sign.

Rates increase cut by RRC

The Railroad Commission has reduced a 15 percent rate increase sought by Greyhound Lines Inc., approving a 6.4 percent increase in fares and rates. The new charges will apply to most bus companies providing the same services in the state.

Greyhound originally asked the Commission to approve a 15 percent increase in passenger fares and express rates and a 25.7 percent increase in charter coach charges. Today's Commission action allows the 6.4 percent increase for all these categories.

The new rates and charges will give Greyhound an operating ratio of 90 percent, according to the RRC's Transportation Division staff. The operating ratio is the ratio of total operating expenses (all expenses except taxes and interest) to total operating revenue. Testimony from other bus companies was also studied by the Commission.

The staff also noted that the Commission could later investigate the rates if the labor costs of the affected bus companies begin to decrease.

F & C Week Nov. 18-24

November 18-24 has been designated as Farm-City Week, which focuses on the teamwork of farm and city people as partners in growing, processing, marketing and consuming food and fiber. In Texas, movement of food and fiber from the farm or ranch to the supermarket and family table provides jobs and income for about a fourth of the working force, notes an economist with the Texas Agricultural Extension Service, Texas A&M University System.

One out of every 35 Texans is a farmer or rancher, and about 30 percent of the state's retail trade business is directly associated with agricultural production and selling of food and fiber products. Farm-City Week is under the direction of the National Farm-City Council, Inc., which is coordinated by Kiwanis International.

who are interest will take part in it. Remember to watch for a list of the participating lending institutions on December 15th. Should you have any questions, Commissioner Garry Mauro of the Land Office has set up a toll-free telephone line which you may call for assistance. The number is 1-800-252-8387. I encourage you to call for any help you might need. They are there, as I am, to serve you.

Bullish outlook for fed cattle

The market for fed beef looks "Bullish" down the road, believes an economist with the Texas Agricultural Extension Service, Texas A&M University System. Fed Beef supplies should be lower for the rest of this quarter and on into the first part of 1984.

That should bring higher fed cattle prices over the next few months—possibly even in a matter of weeks. This could radically change feedlot operator attitudes. Feeders are currently facing higher feed grain costs and registering losses and have little incentive to feed cattle.

Thomas singers perform here November 19

The Thomas Singers consist of Don, his wife, Virginia and daughter, Leana. Each member of the family play several instruments such as: banjo, guitar, bass and keyboard.

Don formerly appeared in the country and western music scene, working with such stars as Buck Owens, Johnny Cash, Tex Ritter and others. He was a regular on a TV show on the West Coast for 2 1/2 years. Since turning his life to Christ he had dedicated his efforts to a full time singing ministry and for the past

eleven years the Thomas family has been traveling nation-wide in a labor for the Lord.

The Thomases have recorded 15 albums and make numerous appearances each year in churches, auditoriums and on TV and Radio Broadcasts across the land. The joy of the Lord is reflected in the lives of the Thomas Singers and you will enjoy the warm humor and country gospel style of their concert service.

They will be performing in the Assembly of God Church in Winters on November 19 at 7:00 p.m.

Parent Support Group

The Runnels County Parent Support Group met Monday night November 7th, at their regular monthly meeting. Betsy Sadler from the Education Service Center Region XV was the speaker for the meeting. Mrs. Sadler is very enthusiastic about the Early Childhood Intervention Program they now have. The prospects of catching children with developmental delays at earlier ages is exciting both for the professional educator and for the parent. If there is any child that you know or are aware of that has developmental delays or any problems you can call CHILD FIND/SERVE 915/658-6571 for testing and help. They now have two home-trainers for this region that are available to train parents to work with and better meet their children's needs in the home. The home trainer works as a liaison between the therapist and the parents to help cut down cost and inconvenience of traveling to and from therapy sessions. The more the parent is directly involved the better chances of the child having a quicker developmental growth.

The group also viewed a behavioral management film by Hal DeShong entitled "Antecedents-Triggers to Behavior." This is one of a series of films available to us through the Education Service Center and we will be having others for the group.

The Runnels County Parent Support Group plans programs which increase the parents' skills and sense of competency and encourages parents to be involved in the activities of the school and the home, with emphasis on direct interaction with the child and on the strengthening of enduring emotional ties between the child and parents.

Our next meeting will be December 5th at 7:30 in the Fellowship Hall of the First Presbyterian Church. All interested parents of children with learning disabilities are encouraged to attend.

Plan spending year ahead

The best time to plan for next year's holiday spending is right now. According to a Texas A&M University Agricultural Extension Service home economist, advance planning allows consumers to take advantage of the after-Christmas sales and other sales throughout the year to purchase gifts.

Consumers can also set up a special savings account to save for next year's holidays, but should avoid special holiday accounts unless they pay the same rate of interest as other savings plans. How much should a family plan to save for holiday spending? Some financial counselors suggest allowing 1 1/2 percent of your gross income plus ten percent of that amount for last minute purchases, says the home economist.

PRO BRAND WHEAT 817

Northrup King's PRO Brand Wheat 817 is a medium maturity Hard Red Winter Wheat. It is resistant to leaf and stem rust. Moderately susceptible to soil borne mosaic virus. 817 has resistance to Hessian fly biotypes commonly found in the Great Plains region. This allows planting prior to fly free dates. One of the best winter hardy semi-dwarf wheats available that also has excellent stem and leaf rust resistance. 817 has better winter survival than Vona. Much better lodging resistance when grown under good growing conditions than taller varieties such Centurk.

PCNB Terra-Coat® LT-2* seed treatment has been applied to 817 Wheat seed at 2 oz./bu. This fungicide is designed to control common smut or bunt plus damping off by Rhizoctonia. (*Registered trademark of Olin Corporation.)

Former Winters coach to speak to Super Team

Gordon Wood, the legendary football coach at Brownwood High School, will speak at the 1983 All-Central Texas High School Football Super Team, according to Phil Watts, Executive

Director of the event. Wood, who has won nine state championships during his more than 40-year career, has won 381 high school football games in Texas, more football games than any

Glen Shoemake will preach at the event. This is sponsored by the ministerial alliance.

coach on any level of football competition has ever won. The banquet is scheduled for Dec. 15 at the Travelers Steak House in Brownwood.

The All-Central Texas High School Football Super Team, which was started last year, honors players from an area that extends south to Junction, east to Stephenville, north to Breckenridge and west to Sweetwater and San Angelo. The project is sponsored by the Early Bank.

"We're pleased to once again be connected with the All-Central Texas Super Team," said Jerry Wheat, President of the Early Bank. "We are especially pleased to have Coach Wood as our speaker."

Last year's Player of the Year was Mullin quarterback Randy Sims, who lead Mullin to the six-man championship game. Rodney Hess, who now coaches at Montgomery, was named Coach of the Year after taking Eastland to the Class AA state title.

Wait —

From my vantage point down on the field you can see both sides. At everyone of the games our Blizzards have played away from home, as well as at home, our community has been well represented.

When we went to Anson, the Winters fans outnumbered the Anson fans more than two to one. In the bi-district game in Brownwood, Mason was outnumbered even more.

Now you know that has to have an effect on the team. Win, lose, or draw we should support these young men and let them know it.

Its gotta be tough to play a game in your own back yard and not have your own folks show up. Might take the wind out of the sails.

Now we go to Stephenville this Friday to meet the Boyd Yellowjackets. That is only about 125 miles or so, a couple of hours drive.

I think Boyd is about the same distance.

Bet we have more folks there than they do.

See you there.

GO BLIZZARDS...

The highest tides in the world are found in the Bay of Fundy, which separates New Brunswick from Nova Scotia, in Canada.

zards gave the Punchers the first down.

Ronnie Lujano intercepted a Mason pass and carried the ball to the 41. Kentt Billups then went in for the score.

On the try for the extra point, the throw was high and Lujano was forced to try to pass the ball to Eric Belk but Mason intercepted the ball. With one minute, 10 seconds remaining in the game the score was 29-6 for the Blizzards.

With all hopes of winning the play-off game gone, the Punchers launched a passing attack that netted two first downs and a touchdown with only six seconds remaining in the game. The try for extra points failed and the score was locked in at 29-12.

Mason then attempted an on-side kick which was taken by Winters to end the game. The final score was 29-12 and gave the Blizzards the bi-district crown and trophy.

The Blizzards now will face the number two ranked Boyd Yellowjackets Friday in Stephenville as the play-offs continue. Game time is 7:30 p.m. in Stephenville.

2, 4, 5-T and Silvex cancelled

EPA has announced its intent to cancel the registration of all 2, 4, 5-T and Silvex products. These herbicides were used on rice, range, sugarcane and orchards to control brush and weeds and miscellaneous non-crop areas.

Lucky winner!

Mrs. J.C. (Tommie) Hodnett was the winner in a drawing held recently by the Winters Area Chamber of Commerce for a deer rifle and telescopic sight. The drawing is part of an annual activity of the Chamber of Commerce to mark the opening of deer season in West Texas.

Bermuda grass available

More Brazos bermudagrass will be released next May through the Foundation Seed Section of the Texas Agricultural Experiment Station. Brazos bermudagrass is an improved bermudagrass with higher animal performance and digestibility compared to Coastal bermudagrass, says a forage specialist with the Texas Agricultural Extension Service, Texas A&M University System.

Application to become a certified grower must be made to the Texas Department of Agriculture by Dec. 1. Once certified, application must be made to the Foundation Seed Section at Texas A&M University for the planting material.

Runnels Baptist meeting set

The meeting begins with the W.M.U. and Executive Board at 5:30 p.m. The evening meal begins at 6:15.

The program begins at 7:00. It will be presented

by Christine Clark, Association W.M.U. Director. A program on Foreign Mission Emphasis is to be presented. The public is invited.

Recipes in a Nutshell
Nuts Improve Vegetable Variety and Flavor
Many of us remember vegetables as being tasteless and overcooked foods we ate for nutrition, but rarely flavor. But this is changing.
For instance, Sweet N' Sour Slaw is one zesty variation of traditional coleslaw. Made with Planters Dry Roasted Unsalted Cashews, cabbage and apple, it is seasoned in a light sauce.
Oriental cooking has always inspired vegetable preparation. Broccoli and carrots taste distinctly unique when stir-fried in oil, garlic and ginger, and sprinkled with Planters Dry Roasted Unsalted Cashews. Try both recipes for a new taste experience that is low in sodium, too.
