Blizzards upset 30-0 in area play-off

By Patsy Roach

In the game for the area championship Friday night in Stephenville, the Winters Blizzards lost to the Boyd Yellowjackets 30-0.

Boyd lived up to their advance billing as a big, fast team ranked second in the state by one poll. They rushed 49 times for 440 yards, compared to 41 rushes for 158 yards for the Blizzards.

Boyd had 19 first downs to Shop-A-Rama begins Dec. 1

Wait a minute...

By Kerry Craig

Wait a minute, or how about just waiting until the game is over. A bunch of folks didn't—they just got up and left somewhere in the fourth quarter.

Okay, we all know that the score was not what we wanted it to be, but after all, we all should have stayed to give our Blizzards our support all the way.

It must give players a kind of empty feeling to look up and see their supporters leaving while they are playing their hearts out.

Our Blizzards gave us the best football season we have had in some twenty years. They won their district title and the bi-district trophy too.

To lose to a team like the last one the Blizzards played is nothing to be ashamed of.

Now we all can think of at least a dozen excuses why we didn't win, but the fact remains.

If you want my opinion, we should be very proud of the Blizzards and of the coaching staff. To lose only two games during the entire season is a pretty good record.

By the way, that team from Boyd was ranked number two in the state in class AA, and may very well win the state title.

For those who followed the team while they were winning, but left when all hope of another win was gone—shame, shame, shame.

The 1983 Winters Blizzards will be long remembered. Congratulations, Blizzards, for a job well done. We are proud of you.

Winters' 15.

Head Coach Danny Slaughter said that he was proud of the kids and of their performance this season, adding that if the team could have gotten the ball into the end zone all of the times they were within the ten, it would have been a different ball game.

Boyd kicked off with the wind behind them, and Winters was unable to move the ball. Don Kvapil punted it away, and the Yellowjackets took over on the Winters 45.

Boyd got two first downs on strong running plays before scoring

on a 20 yard run with 6:48 left in the first quarter.

Ronnie Lujano blocked the kick for the extra point. Boyd led 6-0.

Winters fumbled on its next possession, giving the 'Jackets good field position at the 20. Boyd scored their second touchdown on a 10 yard run. Kvapil stopped the run for extra points. Boyd led 12-0.

Winters could not get a first down; so they punted and then held Boyd on a fourth down and two situation.

Each team punted again before Winters sustained a drive beginning

at their own 41 and ending at the nine.

Kent Billups completed a halfback pass to Eric Belk for a 25 yard gain, and then ran for another first down.

Quarterback Bill Wheat hit Nick Trevino at the 12 and then carried the ball himself to the nine yard line. Faced with a fourth and seven situation, the Blizzards elected to try a field goal. Lujano's kick was off to the left; so Boyd took over at the 20.

The 'Jackets ground out four first downs with fine tackles being made by the Blizzards' John Mesey and

Lujano. With first and goal to go at the three, Winters went into an impenetrable goal line stand and kept Boyd out as the clock ran out in the first half of play. Boyd still led, 12-0.

Boyd received in the second half, got a first down, and broke loose for a long run which was stopped by Alfred Yates on the nine. A running play gained the 'Jackets another TD, and Eric Belk intercepted the pass for extra points.

Boyd picked up a Winters fumble, and then quickly completed a long pass to a player who ran all the way in for a score. The kick failed. Boyd led 24-0.

Winters got two first downs on strong runs by Billups, who at one point was dragging about six defenders with him. On fourth down and five, Boyd sacked quarterback Bill Wheat to regain possession of the ball at the nine yard line.

A long run almost the length of the field earned the 'Jackets a TD, and the pass for extra points failed.

The score stood at Boyd 30-Winters 0.

Winters drove down the field again, only to be repulsed at the 10. Running plays by Billups and Nick Trevino and passes complete to Belk and Yates gained good yardage for Winters, but Boyd went into its own version of a goal line stand and got the ball back at the 10.

The Winters defense kept Boyd from making a first down, and they punted to the 48. Billups got a first down, and a Wheat pass to Lujano brought another ten yards. Billups then carried to the nine for another first down, but fumbled and Boyd recovered.

Neither team could make much headway as the clock ticked off the final minutes of the game.

The Winters Blizzards had achieved a goal of being district and bi-district champions and have earned the respect, honor, and pride of the town for their hard work and excellent effort in the games this fall.

Winters City Council okay's \$80,000 bond sale

The Winters City Council, meeting in regular session Monday evening approved the issuance of \$80,000 in certificates of obligation of finance the city's portion of the cost of construction of the new wastewater treatment facility.

A letter to the council from financial consultant Joe Smith of Abilene said that a proposal by the Winters State Bank would be advantageous. The proposal suggested that the Winters State Bank purchase the certificates of obligation at an interest rate of 9 per cent with a ten-year pay back. The plan also would give the City of Winters the option to repay the debt in full after five years.

The bank also offered to handle all the payments to the contractors, a step which will save the city several thousand dollars.

Smith also said in his letter that

following this course of action would enhance the city's position when the time came to consider the financing for upgrading the fresh water treatment plant.

The council tabled a number of items and rapidly handled several others after the council elected Randy Springer to sit as presiding officer in the absence of both the mayor and the mayor pro-tem.

The council gave approval to a motion rejecting a bid from Charles Bahlman Chevrolet on a new vehicle for the police department. It was noted the bid was very reasonable, but that it was cost-prohibited. The council, in taking the action, said that it had decided to not purchase a new car for the police department.

The council authorized the expenditure of \$3,500 for the purchase of a retired Texas Highway Patrol car. In their last meeting the council

heard a report from the city administrator about a number of cities about the size of Winters that were using these vehicles.

The purchase of one of these autos will allow the city to replace the radio equipment in the patrol cars, as well as adding the extra vehicle to the department.

In other action, the council approved the signing of a letter of agreement with Donald Rauschuber & Associates for the engineering of the fluoridation system at the water treatment plant. The letter of agreement specified that the work would be done at a cost not to exceed \$2,000.

The council also set December 12, as the date for a workshop meeting for the water treatment plant and related improvements. The workshop session will begin at 5:00 p.m. in order for the council to tour the plant before dark.

The council heard a request from the local West Texas Utilities manager Gary Moore for an extension of an additional 30 days on the suspension of the WTU rate increase request. Moore said that the extension was made necessary by the Public Utilities Commission. He said that the PUC had still not taken action on the request for higher rates by the utility.

The council gave approval to the appointment of Billie Alderman to the Planning and Zoning Commission for the City of Winters

Ballinger police nab two on drug charges

Two Abilene men were arrested in Ballinger early Sunday morning on charges of possession of a controlled substance after police officers stopped a vehicle for suspected driving while intoxicated.

Ballinger Police Chief Paul Bogess said that officers Joe Baird and David Van Winkle attempted to stop the 1979 Chevrolet vehicle driven by the pair on U.S. 67 south of Ballinger when the officers noticed the vehicle weaving from lane to lane.

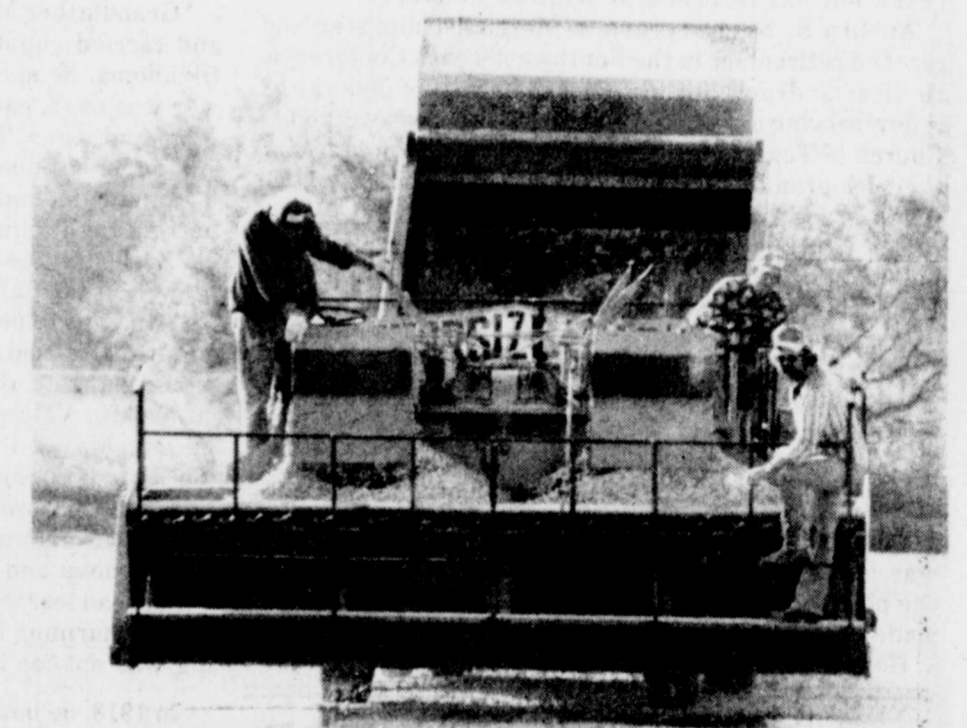

The officers finally got the car stopped on U.S. 83 just north of Ballinger and took the driver, Rudolph Martinez, Jr. 24, of Abilene into

custody on charges of DWI

A subsequent search of the vehicle turned up about three ounces of a substance thought to have been Marijuana was found in the glove compartment of the vehicle.

Upon finding the suspected Marijuana, officers took the second man, Alfredo Serrano, 24, of Abilene into custody on charges of possession of a controlled substance and the possession charges were also filed against the driver.

Martinez was freed on bonds totaling \$1,000 on charges of DWI and possession of a controlled substance and Serrano posted a \$500 bond on the possession charge.

Street paving

Runnels County precinct crews got to work Tuesday to get several streets in Winters paved. The paving is being done by the county in a cooperative effort with the City of Winters.

A coat of asphalt was spread on the streets last week and the paving

was supposed to have begun Monday. The work was delayed because the asphalt supplier was unable to get his trucks to Winters Monday and crews rushed Tuesday to get completed before the cold rainy weather began late Tuesday evening.

Wild bull rider

The final score in the Texas Championship Bull Riding held at the Winters Rodeo Arena Sunday probably had the bulls way ahead of the cowboys, as evidenced by this picture of an abrupt dismount.

Booger Brooks of San Angelo won the first place money in the bull riding, a total of \$640. Brooks scored 75 points on a bull named

Shockwave.

Second place went to Jim Sharp of Kermit with 72 points on bull 134. Kerry Brantley of Kerrville, mounted on good ole number 7, scored 65 points.

Fourth place went to Billy Wayne Busby of Midland after he scored 64 points on number 81.

There were a total of 31 entries in the first Winters Bullriding.

Thanksgiving thoughts

By Patsy Roach

Thanksgiving should be not just a holiday and a time to eat lots of good food, but a day to give thanks to God for all the things He has done for us.

With that idea in mind, we asked several people in downtown Winters

Jack Callan letter continued

Callan wishes that he could have attended the open house at the newly refurbished high school to see the changes and improvements provided by the \$2.2 million bond issue. He said, "How times have changed! If my memory is accurate, the high school was built after a \$110,000 bond issue was approved."

While he has been a resident of Kaufman for 53 years, Callan says that Winters and the Winters schools occupy a very special niche in his heart. He knows that time has taken its toll, but it would be interesting to know the names of members where they live and what they are doing.

He recalled that officers of the class of 1927 — the first to graduate in the new high school — were: John G. Key, president; Marie Hill, vice president; Gladys Geistman, secretary; Jack Callan, reporter; and Miss Veda Wells, sponsor.

John G. Key and his wife are both deceased. Their son, John Glenn, teaches history in the Winters High School. They have another son, Allen, Marie Hill, school teacher, and later employed with the State Music Department in Austin, is retired and lives in San Angelo. Gladys Geistman married George Hall and they have lived in Abilene for many years. Veda Wells married Howard Hodge and they lived in Midland, she is deceased.

Class members who have continued to live in Winters are Aleene Brown, Lela Pruser, and Annie Williams. Aleene said that she and Earlene Brown had a room in the Callan home when they came to Winters to finish school. Aleene married Melvin Mapes in 1930. He was employed for 16 years with the county and retired as commissioner. They have a son and daughter and five grandchildren. Lela married Ernest Thormeyer, an implement dealer and land owner. A son and daughter live in Winters. One son is deceased. They enjoy their five grandchildren and several great grandchildren. Annie Williams was employed at Grissoms in Abilene for 25 years, but has returned to Winters to live.

Auburn S. Neely became a Methodist minister and reached retirement in the Southwest Texas Conference. He lives at Hugh Springs (55 miles N.E. of Tyler) and is now serving as assistant pastor of the First Methodist Church in Texarkana, Arkansas. His son and daughter are both prominent in educational fields and they have seven granddaughters.

Eva Williams married Durwood Montgomery and they live in Kingsland where they own and operate a dress shop. They have two boys and a girl, all are married.

Two members of the class live in San Angelo, Winnie Mae Jeffreys and Cora Jordan. Winnie Mae married Charles Koehler and Cora married Clifford Moreland, now deceased.

Earl McWilliams, Sheriff

to keep a Negro from being lynched. His nephew, Ralph McWilliams recalled how it happened. "A Negro killed Sheriff Pauley at Coleman. He shot him from a refrigerator car after the Sheriff had been warned he was in the car. He went down without his gun and stuck his head in the door."

"An organized mob came to the jail. Uncle Earl stepped out with a shotgun loaded with buckshot and told them the law would take care of him. The Black man paid the penalty, I understand," said Ralph. "Uncle Always went out alone to bring a man in."

Ralph recalled another occasion when a Mexican killed a deputy at Lawn. The railroad crew thought he was in the train and notified A.T. Obar, sheriff at Abilene. Obar called on fellow officers to come and help. Since it was not known which car the fugitive was in, the cars were set on a sidetrack. Two men were picked to find him. Earl drew one of the chances. The Mexican shot at the man who located him. After they knew which car he was in, the others were pulled away and it was blown up with dynamite.

"Grandfather McWilliams was a Confederate veteran and carried supplies to the Indians that were kept in Oklahoma. he spoke five Indian dialects and when the war was over, each man was told to take a wagon and team and leave. There was no one to whom they could surrender. He took a buckboard, a pair of mules, his fiddle, and rifle, and set out for Indian territory. A union patrol caught him and took all he had but his fiddle. Uncle Earl got it, he was the only one of the boys who could play it," said Ralph.

After this experience, Mr. McWilliams made his way south and settled at the White Chapel Community, north of the highway about seven miles, where the road turned back to Valera. He built a gin there. Earl was born here on May 3, 1885, he grew up on the ranch. His first big job was running the gin. His father later sold the gin to a Mr. McKissack who lived in Runnels County south of Glen Cove. Earl and his brother, Shannon, helped their father move and erect the gin for Mr. McKissack.

Earl had learned that the did not like ginning and went into the farming business, but soon found out that farming was not for him.

In 1913, he bought a ranch north of Talpa and started ranching. He raised Black Angus cattle and had a herd of registered sheep. Ralph recalled that his uncle's ranch was west of the Herring school house where he started to school and he baled hay for him.

Earl always dressed well; he liked good clothes and enjoyed wearing a tie. He became interested in law enforcement and moved his family to Ballinger in 1923. The following year, he ran for sheriff and was elected. The race was a hard one. Jim Flynt had been sheriff first from 1908 to 1916, and was elected again in 1920. He had many friends and Earl won only by a few votes, but he won and now could dress and wear a tie every day.

The McWilliams family moved into the new brick jail and he started a law enforcement career that few men could equal. The roaring twenties were tough years, with prohibition in effect there were numerous raids on whiskey stills. The country was full of bootleggers and it was the sheriff's job to enforce the law. Most of the court trials were for those caught making and selling whiskey. The stills were brought in and stored in the courthouse to be used for evidence. The ones found guilty were usually given a one year sentence in the state penitentiary.

The county was full of "toughies" who got drunk, gambled, stole, and did other unlawful acts. McWilliams despised a thief and stayed on his trail until he was brought to justice. No one was ever too tough for Earl. He had nerves of steel.

The Runnels County Fair was organized in 1924 and in the first part of October of each year, Ballinger overflowed with people. Working with the city police, Earl solved the traffic problem in an efficient way.

PRO BRAND WHEAT 817

Northrup King's PRO Brand Wheat 817 is a medium maturity Hard Red Winter Wheat. It is resistant to leaf and stem rust. Moderately susceptible to soil borne mosaic virus. 817 has resistance to Hessian fly biotypes commonly found in the Great Plains region. This allows planting prior to fly free dates. One of the best winter hardy semi-dwarf wheats available that also has excellent stem and leaf rust resistance. 817 has better winter survival than Vona. Much better lodging resistance when grown under good growing conditions than taller varieties such as Centurk.

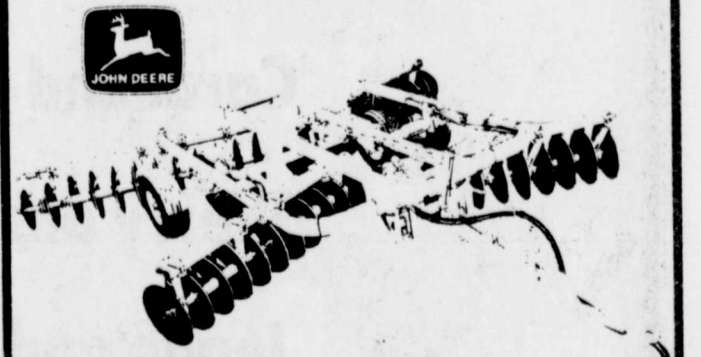

PCNB Terra-Cot® LT-2* seed treatment has been applied to 817 Wheat seed at 2 oz./bu. This fungicide is designed to control common smut or bunt plus damping-off by Rhizoctonia. (*Registered trademark of Olin Corporation.)

Everyone take notice that on December 10th, there will be an election on a proposal to build a new high school building at Centennial and tie the three buildings together into one large structure. It will be a \$1.2 million bond election. An explanation of the proposal will be submitted to the school patrons at an early date. You can vote at Talpa High School or Centennial Grammer School buildings. Everyone better study the proposal thoroughly before casting a vote.

Clarence (Chig) Cole, 76, of Pineville, Louisiana, former Talpa and Valera resident, died Saturday, after a long illness. Graveside services at 2 p.m. Monday in the Talpa Cemetery took place. Glynn Mitchell officiated. He married the former Lewis Parker. Survivors include his wife; a son, Robert Howard Cole, of Pineville; five grandchildren; one daughter preceded him in death.

Rev. Waldrep to pastor New Life Chapel

New Life Chapel Pentecostal Church of God on Cryer Street has a new pastor. He is Reverend Steven Waldrep, Sr.

Waldrep and his wife, formerly of East Texas, report that exciting activities have taken place at the church lately, with many more planned.

A weiner roast for the young people was held November 12, and a singing will be held the second Saturday night of every month at 7 p.m.

Anyone who likes to sing

or just listen to good old fashioned gospel singing is invited to go out and join them, the pastor said.

The church has a number of young people, and for them, there is the PYP organization.

This month at the rally, they won the church of the month award. Waldrep is expecting great things from them.

"God is really moving at New Life Chapel and there is a special welcome for any persons who would like to attend," he added.

IT WILL SAVE YOU MONEY....

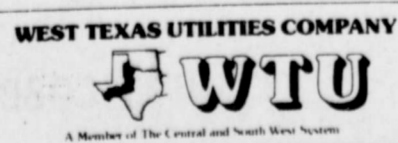

The Heat Pump the most efficient system for heating and cooling.

A heat pump can actually produce more than 2 units of heat for every unit of electricity used, in a properly insulated home.

Unlike a conventional furnace, the heat pump doesn't make heat. It transfers or "pumps" heat. Even on cold days, there is some warmth in the air. The heat pump transfers this heat into your home to warm you and your family.

THE ELECTRIC HEAT PUMP WILL SAVE YOU MONEY! If you have plans to buy, build or remodel, or need a new heating and cooling system for your home, call a local factory trained HEAT PUMP DEALER or talk with WTU. We will arrange for a WTU heating and cooling specialist to contact you.

Energy savings may vary according to home construction, family size, or energy usage habits.

WISD buys house, sprinklers

In recent meetings of the board of trustees of the Winters Independent School District, approval was given to the purchase of a house and lot located near the high school, and a bid for a new sprinkler system for the high school lawn was awarded.

The property to be purchased from Van and Debra Whittenburg is designated as Lot 1, Block 5 of the College Heights Addition.

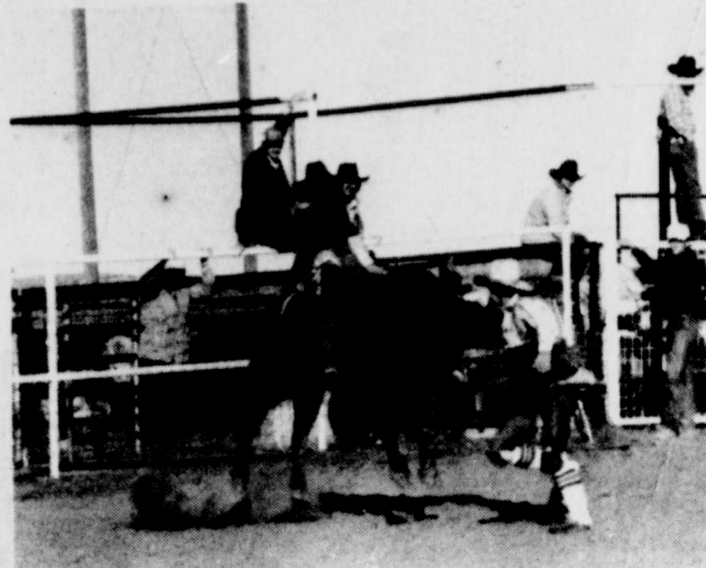

The lot will cost \$8,000, and the seller will furnish clear and complete title to the land.

Oasis Company, Ballinger, received the contract for installation of a complete sprinkler system for the high school lawn at a cost of \$6,300.

Payment of one-third of that amount will be made for the first week of work, another third for the second week, and the final portion upon completion with the system in working order.

A report from Superintendent Tommy Lancaster included several items: financial report, discussion of the purchase of a 19 passenger school bus, discussion of the accident at school crossing on Highway 83, a report on the survey status, and a report on the computer.
