Anniversary parties honor Roy Smith, Allan Webbs

By MYRTLE SHEFFY Mr. and Mrs. Roy Smith celebrated their sixtieth wedding anniversary at their home in Plainview Friday, June 4. Sue Miller from here went to the party. She says all the family were there. The children are Mr. and Mrs. Forrest Chapman, Mrs. Lilla Mae Baker of Plainview, Mr. and Mrs. Floyd Smith of Gallup, N.M., Mrs. Don Tatro of Boise, Idaho. They had a big dinner at the Congress Inn and grandchildren there were Mr. and Mrs. Lonnie Palich, Kristi, Kevin, of Gallup, Mr. and Mrs. Melvin Witt and children Mistie, Melinda, Kim and Melissa of Wichita, Kan. Sue says she visited Dr. and Mrs. R. E. Cogswell at the party. The Smiths are former Dimmitt residents. Kitten was a fine basketball player. Supt. Cryer took that team to Austin to win state.

SEVERAL people went to Ute Lake last weekend fishing and boating. These I heard about—Edd and Jackie McLeroy, James and Maxie Horton, the Fitzgeralds, the Verle Wests, and the George Elders. Most of them have the camper trailer to sleep in and cooking equipment. The Doug Adams took Virginia and went to Ute Lake, other girls going were Debbie Wilson and Beverly Newman. Sharron Acker of Baton Rouge, La. is here for a visit with her parents Jack and Mary Flynt and Arnold's parents Herman and Rose Acker.

NELSON Chavers and Dorothy Wilson were married recently. Nelson is with the Air Force stationed at Altus, Okla. Nelson was a good football and track star on the Bobcat team. His parents are Claude and Kathryn Chavers, and Mary Frierson is his grandmother. The former Miss Wilson is a Dimmitt girl, the daughter of Mr. and Mrs. Joe L. Porter. She attended school here. Mrs. Claude Chavers was hostess at a party for Nelson and Dorothy Saturday evening. She served cake and pickup foods from a pretty table covered with white linen with red garden flowers.

G. L. and Ouida Willis spent a few days at the ranch out west of Clayton. CONNIE Rodgers and her grandmother have had a house full of company lately. A few friends coming were Diane Cox and family of Hereford, a sister of Connie's, other folks from Clovis and Mr. and Mrs. Ewell Perry of Melrose, N.M., Diane Landon and her fiance Bill Alshie and Gary Landon of Hereford. They were here for Connie's graduation also. Wayne Poarch, who has been in the US service overseas came home to visit friend Connie. He has gone back now.

Ruthie, Becky and David Harris are in Dallas visiting their dad, Dr. Jack Harris, who is with one of the medical clinics in Big D. I took my car and daughter-in-law Mildred Sheffy and her daughters Janie and Robbie and son Joe and we went to Crystal City. Mildred will help get Connie moved back to Hereford where she will teach social studies next year. Robbie will teach a fellowship at WTSU in Canyon and work on her masters. The girls were going on to San Antonio and Houston to see everything. Joe and I went by Kerrville to visit my brother Kenneth Knox, then back to Dimmitt.

GUESTS in the home of E. R. and Lois Waggoner last week were Mr. and Mrs. Earnest Waggoner of Kerrville, Mr. and Mrs. Charlie Turner of Tulsa, Mr. and Mrs. Cecil Mathis of Oklahoma City, Brent Mathis of Hart, Mr. and Mrs. Lester Flippen and Shirley of Hart, and Mr. and Mrs. J. Paul Waggoner. All were here for daughter Zelma's graduation and I hear the family is announcing the coming marriage of Zelma and Brent Mathis.

MRS. MARTHA Griffitt of Lubbock was a house guest of her sister Josie and George Bradford last week. Mrs. Dor. Franklin of Houston has been here to visit the kin—the Touchstone family and especially nephew Truett Childers. Merle also won the Ladies Golf Tournament while here. Congratulations Merle, sorry I didn't get to see you. Several of us Dimmitt folks had coffee with the Franklins in their lovely home among the giant oak trees a couple of years ago.

Joe Bill and Janet Butler have been here for a visit with brother Jim and Jerry, also his grandparents the Sam Butlers. Seems Joe and Dugan, the parents, have gone to Montana to the cherry farms. Joe Bill and Janet went on to Oklahoma City for Janet's back surgery.

Mr. Ike Brandon was at Methodist Hospital in Lubbock where the doctor removed a tumor from her neck. Mary is just fine now.

James and Jerrene Parks went to Lubbock Friday night to attend the wedding of a friend Beverly Doyle, the daughter of Mr. and Mrs. Othe Doyle. I didn't hear the grooms name.

MRS. DONNIE Stephens and little Amanda and her parents Mr. and Mrs. Chester Kelly of Earth went to Eldorado, Okla., for a memorial service. Their grandparents are buried at Eldorado and Quanah.

Mr. and Mrs. Sam Lane were hosts to their family recently. They are Roy and Frances Young and children from Bethany, Okla., Mae Ruth Lane and children, Steve, Kary and Kim of Lubbock, Jerry Don and Sammy Kay Lance of Summerfield. They had a big dinner and homemade ice cream. They were here for Charles' graduation also.

Brother and Mrs. William Summers are home from Dallas where they visited their kin. They took their daughter Marilyn home after a visit here. The Assembly of God Church's and the Church of Christ's Bible Vacation School starts this week. The Methodist are through and the Baptist keep those mamas busy.

Dr. and Mrs. Raymond Perkins were in St. Louis, Mo. attending the annual Southern Baptist Convention held there. Mary Hamilton and Grandmother Perkins are staying with Amy Perkins and the boys while they are away.

MR. AND MRS. Clarence Wright and children are moving to Breckenridge soon. They sold their house on Bailes and Estes Street to Mr. and Mrs. Howard Coody.

The Joe Carvers went to Raton as did Dr. Lee. They both have horses running. Such fun to see those pretty animals.

Newt and Earlene Settle and children of Nashville, Tenn., are here for a visit with her family, the Earl Lusts and the James Bradfords.

Rebby Brock flew in from Phoenix, Ariz. one day recently and his brother Shea has been here for awhile. The boys are visiting their grandparents Judge R. E. and Margaret Wilson and the other grandparents Mable and Earl Brock, when they stay home long enough.

Young Henderson from Amarillo is visiting a while with his grandparents Curtis and Maria Tate. His mother is Pat.

Kathryn Birdwell is home from a Fort Worth hospital where she received surgery on her hand, arthritis I think. Libby Cleveland has been in Plains Memorial Hospital. Is okay now we hope.

NANCY Jackson and Shelly George and Sandy Saye of Hobbs, N.M., all students at WTSU, went to Stinnett to attend the wedding of a friend, Vicki Oglesby and Gary McClendon at the Baptist Church.

Kenny Doss, Charlie McLean and Danny Ebeling are working on the Bob McLean Ranch 65 miles from Clayton. That should be a good experience for those boys.

Mrs. Gladys Cleavinger, her brother Ray and Mattie Axtell, of Earth, the brother from Canyon and the two Cleavinger brothers from California, Marge and M. F. Cleavinger, all are spending the week at Tres Ritos. They have a house there.

Mrs. Roy Ivey, Celia and Alice were visiting Mrs. Ira Wimberly over the weekend. They were on their way to Longdale, Calif. to visit Mrs. Ivey's sister.

Alvin and Frances Frazier and Cara Nell spent the weekend (May 29 thru 31st) with Landol Frazier in Fort Worth. Landol and wife has a new daughter, Kendra Kay. Cara Nell is spending a few days with Landol and family.

MILDRED and James Bradford were hosts at Sunday dinner for the family. Their son Bob came in from Ft. Sill at Lawton Okla., her sister Earlene and Newt Settle of Nashville, the Earl Lusts, and Leona Stiles of Big Square. Later in the evening George and Josie Bradford, Doris and Houston Lust, came for coffee. Jack is home from college and is working to help build the new courthouse addition. Oh yes, Loyd Lust and family of Littlefield and Millie and Vern came by for coffee too.

Jim and Ina Cleavinger and sons Tom and Jimmy were among the crowds at Ute Lake last weekend.

Horace and Ceal Carlile had much company last weekend. Her sister Mary Frances Davis of Sweetwater and her son Ross Doyle Davis and family of Salt Lake City, Horace's niece and family Mrs. Birdie Stocks and her son Mr. Stocks and family, Mrs. Fox of South Texas and the Jack Pattons of here all visited.

THE BOB GOSS family and

the Gene Smiths, Gene's mother Mrs. Emory Smith, took the campers and boats to Lake Meredith last weekend. The weather got so stormy, they couldn't fish. Better luck next time.

Brad and Juanita Fuller are spending some time at Lake Texhoma near Denison.

MEN WORKING This is the sign that should be lifted high in our beloved country — "Men Working." Men working with all they have and are, for a country that must show the world how to live in brotherhood and love and peace under God. Let us resolve to dedicate anew our lives and our talents to our country and our God when we attend church

THE CHURCH IS GOD'S appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God. Coleman Adv. Ser.

Army Specialist 5 Gary L. Singer, son of Mrs. Betty J. Singer, formerly of Dimmitt, recently received the Army Commendation Medal near Phu Bai, Vietnam.

THE MEDAL was awarded for meritorious service. Such service can be over an extended period of time or for outstanding achievement in a single situation. In either case, the recipient must have demonstrated skills and dedication far above the average.

"WE NOW plow horizontally following the curvature of the hills and hollows on dead level, however crooked the lines may be. Every furrow thus acts as a reservoir to receive and retain the waters; scarcely an ounce of soil is now carried away. In point of beauty nothing can exceed that of our waving lines and rows winding along the face of our hills ad valley."
— Thomas Jefferson.

Mrs. Hatla's father dies

J. B. Davis, 57, longtime resident of Lamb County and former Lamb County judge, died at 2:30 a.m. Saturday at his Littlefield home following a lengthy illness.

HE WAS the father of Mrs. Glen Hatla of Dimmitt.

Funeral services were held at 2:30 p.m. Sunday in the First Methodist Church in Littlefield, with Rev. David Hamblin, pastor, officiating.

Masonic graveside rites were in the Littlefield Memorial Park with Hammons Funeral Home in charge of arrangements for burial.

Born Oct. 25, 1913 at Hem-house, Mr. Davis moved to Lamb County in 1953 from Vernon. He was active in civic affairs in the community and had farming interests near Littlefield. He served from 1963 through 1966 as county judge.

He was a past chairman of the Lamb County Water Board, was a member of the Littlefield Masonic Lodge, the Lions Club and the First United Methodist Church. He and his wife served as counselors for the Methodist Youth Fellowship and were 4-H leaders for several years. Mr. Davis also worked with the Boy Scouts.

WOW!—Clarence Bearden landed these two beautiful German brown (speckled brook) trout during a recent fishing trip to Vallecita Lake, north of Durango, Colo. The biggest one, which hit a "Christmas tree" spinner combination, tipped the scales at 4½ pounds. The smaller one, which took a small yellow Bomber, weighed 2½ pounds. Bearden, who never comes home empty-handed, also caught quite a few rainbow trout and "Kokomese" half-breed salmon out of the lake. Fishing with him at Vallecita Lake when he caught these two whoppers were his brother-in-law, Roy Simpson of Lubbock, and Clarence Black, formerly of Amherst.

Local residents attend funeral

Mr. and Mrs. Raymond Annen and granddaughter, Denise McLain, Mrs. Cornelia Annen, Mrs. Faye Spencer and daughter Marcie attended the funeral of Mrs. Blanton Armstrong in Amarillo Monday afternoon. Entombment was in the Llano Mausoleum. Mrs. Armstrong's husband was the manager of Dimmitt Wheat Growers, Inc., for several years. There are three teenage children in the home: Dean, Eileene and Kim.

Mrs. Margaret Kuntz

Mrs. Kuntz will graduate Friday

Mrs. Margaret Wilson Kuntz will graduate from Methodist Hospital School of Nursing Friday.

FORMAL ceremonies will be at 8 p.m. in St. John's Methodist Church in Lubbock. The graduation is open to all friends of the graduates.

Mrs. Kuntz is the daughter-in-law of Mr. and Mrs. Fred Kuntz of the Flagg community and granddaughter-in-law of Mr. and Mrs. Wes Anthony of Dimmitt.

Her husband, Charles, is a senior at Texas Tech. The hospital offers a three-year program for the training of registered nurses.

"THE people of a land reflect that land. And people with pinched faces and hopeless spirits have no excitement and freedom and security and the dream of democracy." — Clare Leighton.

Dimmitt is now a center in home-sewing supplies

Home sewing has boomed into a \$3-billion-a-year industry. And four stores here are making an effort to get a share of that industry.

TC&Y, Cobb's, C. R. Anthony Co. and Perry's all have large fabric shops offering every type of fabric and sewing accessory.

Last year about one billion yards of material were sold at an average price of \$2 a yard. Notions such as thread, zippers, pins and buttons amounted to \$400 million. About \$225 million worth of patterns was sold, along with more than two million sewing machines.

Two out of five garments worn by women and children are now made at home, reports the Family Economics Bureau of Northwestern National Life Insurance Co.

NEARLY HALF of today's 45 million home seamstresses are under 30. Sewing is the No. 1 hobby of teenage girls.

Over six million teenagers were enrolled in sewing courses at school this year. Sewing classes consistently have the highest enrollments of all adult education classes.

Reasons for the phenomenon include a renewed interest in home crafts, rising prices, rebellion against the dictates of the fashion designers (the mid-skirt, for example) and new fabrics that make sewing easier.

SOMETHING else may be involved—a happy blending of the self-sufficiency of our ancestors with the products of a machine age in which everything is done for us. Home sewing is only one part of the do-it-yourself

trend which began after World War II and which continues today.

True enough, few of us cut down trees to make our own lumber any more, or spin our own thread and weave our own cloth. Big industries process our raw materials.

But in the burgeoning market for home remodeling materials and tools and craft and hobby supplies, and in the intangible pride of accomplishment that accompanies making something yourself, we may not be so different from the pioneers.

IRS can provide drought 'relief' to stock raisers

Livestock breeders can obtain additional tax relief because of the present drought under an obscure section of the Internal Revenue Code, Congressman Bob PRICE has announced.

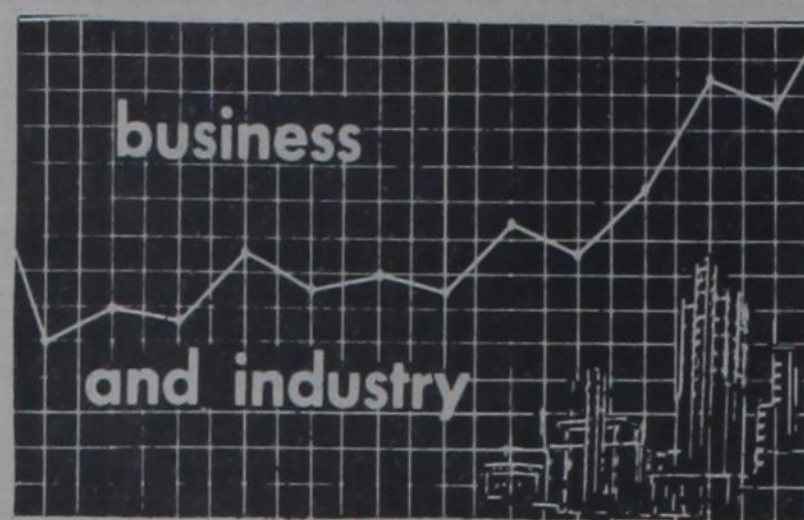

PRICE issued a statement after obtaining a legal opinion from the Internal Revenue Service on the issue.

The IRS opinion stated that if livestock held for draft, breeding or dairy purposes were sold or exchanged because of drought conditions, the sale or exchange constituted an involuntary conversion. Tax on any realized gains can be deferred for two years after the close of the first tax year in which any part of the gain is realized.

The Texas lawmaker pointed out that eligibility for postponing the tax on a rancher's gain was based solely on whether the livestock was sold or exchanged on account of drought conditions affecting water, grazing, or other livestock maintenance needs.

"A LIVESTOCK breeder could take advantage of the deferred tax," Price commented, "to the extent he used the gains realized from this forced sale to purchase similar livestock within the two year grace period provided under the Internal Revenue Code."

The deferred tax is allowable under Section 1.1033 (F), Price said.

Jim Steiert

Steiert named copy editor of WTSU 'Prairie'

Jim Steiert, son of Mr. and Mrs. Pete J. Steiert of Hart, has been named copy editor of "The Prairie" for the 1971-72 academic year at West Texas State University.

"THE PRAIRIE" is the official student newspaper of WT State University. Steiert is a 1969 graduate of Hart High School, and is a graduate of the North American School of Conservation, and a member of the North American Conservation Association. He has won many awards for his writings on conservation.

Steiert is a junior at WTSU. "CONSEQUENCES of contour farming reach far beyond the individual farmer's pocketbook; so do consequences of careless and ruinous cultivation." — Russell Lord.

Livestock market conference set

For the first time, the National Livestock Marketing Conference will be held in Texas, June 16-18, in Houston's Astro-world Hotel.

THE PROGRAM will feature a "mock trial" in which the livestock industry will be on trial. Witnesses will be the top leaders from various industry levels, and the jury will be composed of farm and ranch newsmen and commentators. The "trial" is designed so that the audience can participate in more than half of the actual program time, reports Dr. Ed Uvacek, Extension livestock marketing specialist.

April bond sales approach \$11,000

April sales of Series E and H Savings Bonds in Castro County were \$10,884, according to County Bond Chairman Raymond E. Wilson. Sales for the first four months totaled \$20,198, with 34 percent of the 1971 goal achieved so far.

SALES IN Texas during April totaled \$17,799,730, while year-to-date sales were \$69,658,537, with 38 percent of the 1971 goal of \$181.9 million achieved.

Nationally, US Savings Bond sales during the month totaled \$463 million, 26.7 percent above 1970 sales. Sales for the four-month period amounted to \$1.838 billion, 18.1 percent above a year earlier.

"During this time of year many people are looking for suitable graduation and wedding gifts. Savings Bonds make ideal gifts for any occasion for they are the gift that keeps on giving. They can be bought at our local bank, and the Savings Bonds Division has supplied all banks with special gift envelopes when bonds are given as gifts," Wilson said.

FLB president named to board

Charles C. Thompson of Colorado City, chairman of the Farm Credit Board, announced this week that Herbert H. Decker has been appointed chairman of the President's Committee of the three banks which make up the Farm Credit Banks of Houston.

DECKER, who is president of the Federal Land Bank, will also serve as trustee of the Farm Credit Banks of Houston Retirement Fund. Other members of the committee are Murrell Rogers, president of the Houston Bank for Cooperatives, and W. H. Calkins, president of the Federal Intermediate Credit Bank.

The principal function of this committee is to coordinate the personnel and related activities of the three banks. The chairman serves as liaison officer between the district board and the Farm Credit Administration, the agency which supervises the farm credit banks.

Research center testing cotton in double rows

With the growing interest in narrow-row cotton production, scientists at the High Plains Research Foundation have initiated a study to compare cotton varieties under double-row production methods.

ACCORDING to Dr. Douglas Owen, who will conduct the program, there is significant interest among farmers and seed companies alike to determine how different cotton varieties perform under close-row, high population conditions.

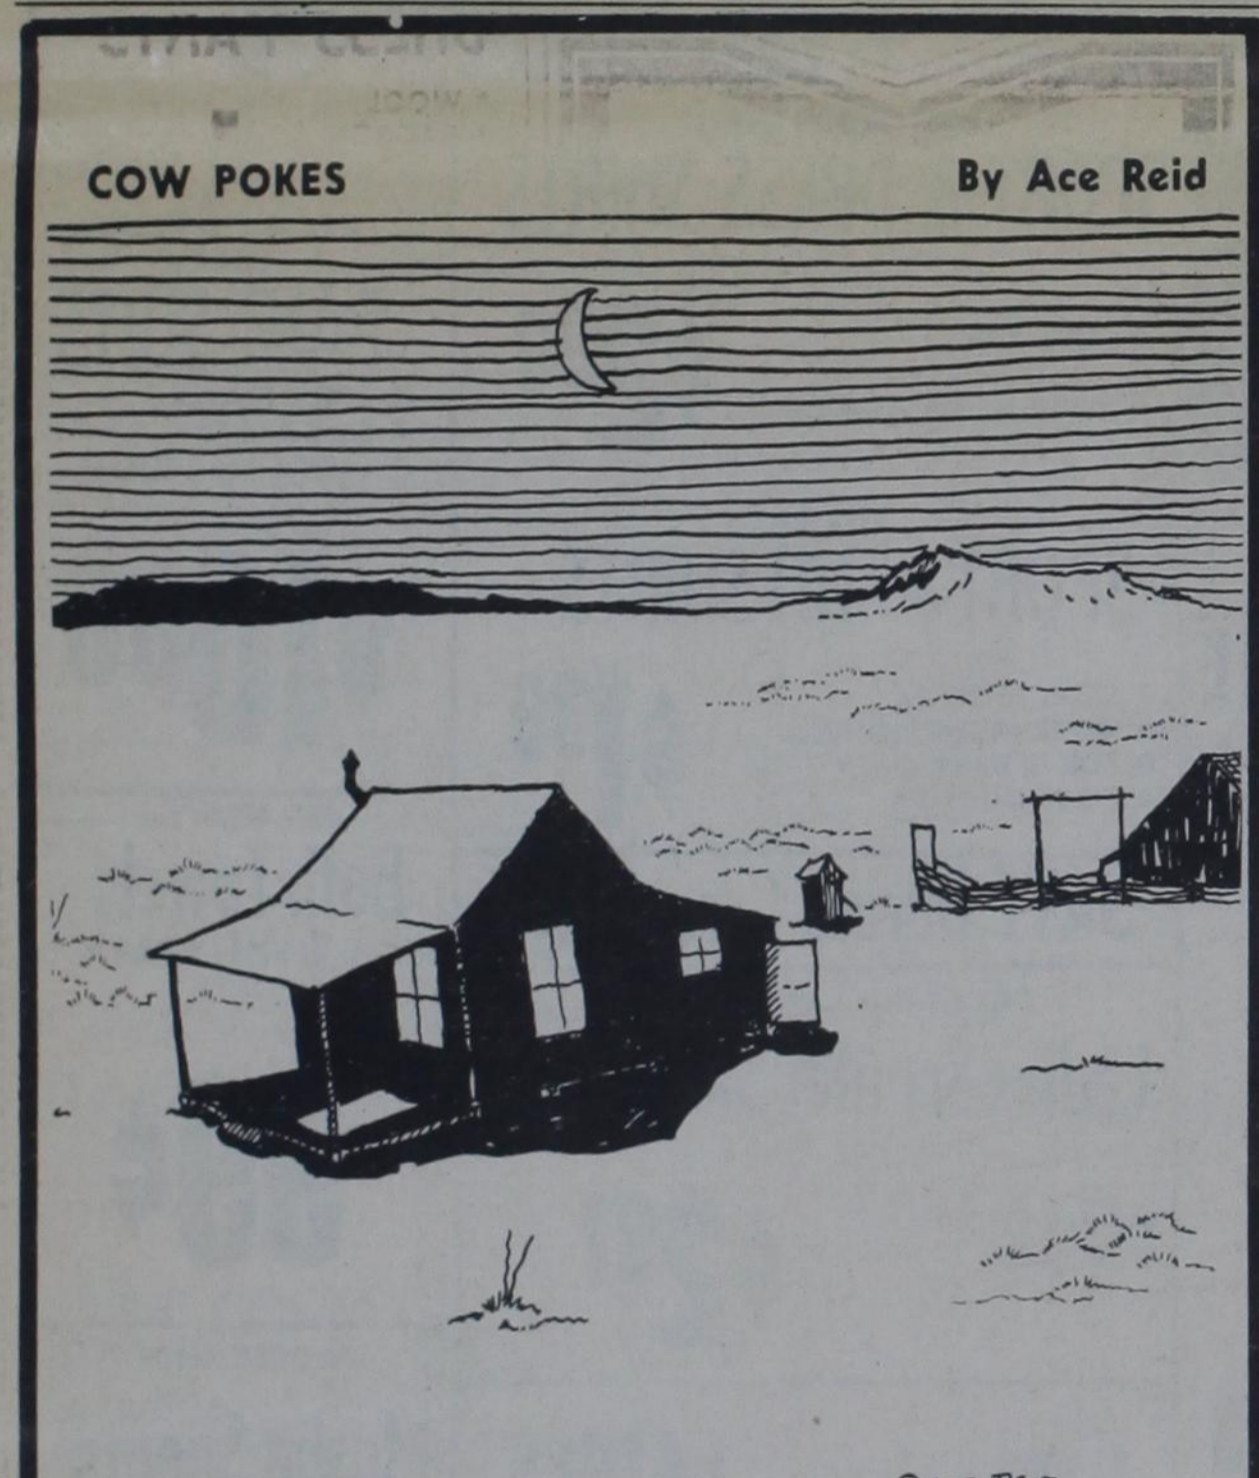

Dr. Owen said that in a double-row versus a single-row test conducted last year on the Dennis Mooney farm near Mayfield, it was pointed out that variety was an important consideration to farmers planning narrow-row cotton production.

He said in close-row operations, populations reach from 75,000 to 100,000 plants per acre. "This is almost double the average standard single-row per acre populations. While some varieties may show increased yields, other varieties won't yield any more," he said.

"WE THINK that the shorter, more determinate type varieties will be best suited for close-row production," Dr. Owen stated.

Guide lines for the test require cotton to be planted on 40-inch beds with two rows of cotton planted 10 to 12 inches apart. He pointed out that the regular cotton variety test the Foundation Farm would be planted in single 40-inch row spacing.

The result of the 1970 cotton variety test are reported in the 1970 Annual Research Reports that were recently mailed to supporters of the Foundation.

The little carefree car. Pinto is sized small, like the economy import, but it's bigger on value. And price is only the beginning. Pinto calls for only half as many oil changes as VW. One-sixth the chassis lube. So easy to service that you can do most routine maintenance yourself. And Pinto is bigger on performance. It has a 75-hp engine that has averaged over 25 mpg in simulated city/suburban driving. Sports-car type rack-and-pinion steering. Wider stance and lower silhouette.

The Simple Machine. Maverick's price makes it simpler to own than Nova. But that's not the only reason we call it the Simple Machine. Maverick's simple to drive and park because of its shorter wheelbase and smaller turning circle. Simple to service because it's been designed that way. Maverick offers a 4-door sedan for a low price of \$2235* (\$145** less than Nova 4 door). Or choose the sporty Grabber model. A choice of an economical V-8 and three thrifty Sixes.

*Ford's suggested retail price for Pinto and Maverick. However, the models shown are equipped with accent group (Pinto \$60; Maverick \$52) and white sidewall tires (\$29). Destination charges, dealer preparation charges (if any), state and local taxes are extra.
**Comparison based on manufacturers' suggested retail prices for closest comparable body styles of lowest priced models, comparably equipped.

Bindweeds threatening area land

By TEENY BOWDEN
It is time for us to get concerned about the spread of bindweed in the community and county. I have been assured if you as landowners and renters will express your willingness to fight them on your own side of the fence, you can get cooperation from the county and the state to get rid of them on the highways and along the country roads.

It is a public problem, but such an expensive one the county or state do not kill them without some evidence that they will be controlled across the fence also.

Turn in your written agreement to do your part to the county judge or commissioners' court, and let's see if we can't save some valuable land now being destroyed.

The view from your library

By MARY EDNA HENDRIX

Our summer reading program started out great! We had 144 to sign up this week. Irma Salinas (who will be the library assistant for the next two years.) and I checked out 637 books the first week of our reading program. It's good to see so many reading during the summer.

THE FRIENDS of the Library met Friday with the new president, Maxie Horton. Board members present were Mildred Bradford, Roxie Louder, Margaret Womack, Hazel Merritt and myself.

Plans were made for the summer reading program, and it was decided to end the contest on Wednesday Aug. 11, instead of Saturday Aug. 14, as had been announced at the schools.

MRS. RALPH PERRY sent a copy of the "Hale County History" which will be published quarterly by the Hale County Historical Society. Mrs. Perry also sent a note to tell us she has subscribed to this quarterly for the Castro County Library, and she asked for persons who would like to contribute articles for future numbers to send them to the Editor, Box 90, Wayland Baptist College, Plainview, 79072.

Here are some of the features in coming issues:

REGULAR features:

(1) Up and Down the Runningwater Draw, a collection of random items and interviews by the editor.

(2) Gleanings from Hale County Newspapers

(3) Pioneer Profiles, brief biographical sketches of Hale County citizens.

ARTICLES, Records, Memiors, vignettes, letters:

(1) Articles should be researched and documented.

(2) Records may be public or private. The census of Strip Cemetery in Volume I, Number 1 is an example of public records.

(3) Memoirs are most valuable when they are annotated.

(4) Vignettes may be brief personal recollections of events or persons or interviews.

(5) Old letters are very valuable documents since they were written at the time early history was occurring and offer excellent insights into the life and times of the persons who wrote or received them.

SPECIAL Features:

In each issue, the quarterly plans to feature a special section devoted to a person, an institution or an industry. Upcoming special features will be:

August, 1971 — Mary Cox

November, 1971 — Dr. J. H. Wayland

February, 1972 — Early Hale County businesses and business leaders.

May, 1972 — The Pioneer Roundup.

of Wedding Bells and Beautiful Brides

MRS. LARRY MITCHEL ... The former Carla Robertson of Dimmitt

Robertson - Mitchel

The First Baptist Church was the setting Friday morning for the wedding ceremony of Miss Carla Robertson and Larry Mitchel.

THE BRIDE is the daughter of Mr. and Mrs. Ray Robertson of Dimmitt, and Mr. and Mrs. Calvin Mitchel of Brady are parents of the groom. Rev. Jim Pickens, pastor of the First United Methodist Church officiated at the double-ring ceremony.

Sharon Barker of Dimmitt was maid of honor. Mary Parker and Nancy Robertson, sister of the bride, were bridesmaids. Linda Mitchel, sister of the groom served as junior bridesmaid.

Kyle Brown of Abilene served as the best man. Royce Lewis and Dennis Snodgrass, both of Brady, were groomsmen, and Jeff Robertson, the bride's brother, was the junior groomsmen. Ushers were Terry Robertson, brother of the bride, and Cletus Grady of Silverton.

THE CHURCH was decorated with spring flowers and greenery, and an archway of greenery behind a candelabra containing three tapers. The bride and groom lit the center candle during the ceremony.

Kathy Fisher of Sudan presented wedding music at the organ, and Corliss Latham of Gatesville played guitar and presented a solo, "For Baby, For Bobby." Poetry was read by Darla Kay.

The bride, wearing a formal gown of white sata-peau, was escorted to the altar by her father. Her gown featured a scalloped neckline accented with Chantilly lace and seed pearls. Full sheer bishop sleeves, also

trimmed in Chantilly lace, and panels of lace encrusted with seed pearls on the skirt completed the dress. Her veil, styled as a mantilla, was bordered with matching Chantilly lace and formed a cathedral-length train.

THE BRIDE carried a spring bouquet, featuring pink roses. She also presented her mother with a long-stem pink rose as she came down the aisle, and her new mother-in-law received a rose as the bride and groom were leaving the ceremony. The bride wore the traditional blue garter, and carried a lace handkerchief borrowed from Mrs. Dorothy Mayfield. An opal necklace set in gold, a gift from the groom, completed her attire.

Attendants wore pastel gowns in a number of colors, and carried baskets of spring flowers. Large white picture hats completed their costumes.

Here are week's best food buys

The "new crop" season is fast approaching with a whole new range of fresh fruits and vegetables, announces Gwendolynne Clyatt, Extension consumer marketing specialist.

SUPPLIES of fresh corn are steadily increasing and the quality is exceptionally good. Squash, new potatoes, yellow onions, cucumbers, radishes, green onions, broccoli, eggplant, carrots, collards, mustard and turnip greens are all deserving selections.

Cantaloupe is on special in the fruit section of many stores. Strawberry prices are about the same as last week, and watermelon supplies are fairly liberal with reasonable prices. Honeydew melons, oranges, lemons, pineapples and bananas are also good fruit choices piecewise.

In the meat department, pork prices have started to increase but many economical features are still available. By careful checking, good buys can be found on butt roasts and steaks, whole loin, loin roasts and rib chops. Bacon, smoked hams and weiners are also being featured.

BEEF PRICES are much the same as a week ago. Chuck steaks and roasts, round steaks, ground beef and hot dogs are the more economical choices.

Fryer chickens are a bargain in most stores. And large size eggs offer the most economy and quality for your egg money. Remember deviled eggs go well with fried chicken for picnics and outings, Mrs. Clyatt adds.

Miss Tucker

We have seven 4-H clubs now

By IRENE KEATING
The Home Demonstration Clubs have all had programs on 4-H this month. We have a new 4-H club with nine girls that was organized last week. They haven't selected their name yet. That gives us seven 4-H clubs in the county.

THIS YEAR the National Extension Homemakers Association will be meeting in Dallas. Our county is making 25 tote bags to take, and our county merchants are donating items for them.

The club women are making the bags out of blue fabric and they also can be used as aprons, clothespin bags or sun bonnets. The reason for blue is that we're the bluebonnet state.

I am very pleased that Nell Ingram has been selected to

serve as a flag bearer for the national meeting. Only 51 women from the state were selected. They will be dressed in yellow for the "Yellow Rose of Texas."

Our club women are compiling a cook book that will be printed this fall. I know many of you will want a copy.

JUNE 13 Dairy Month and I want to share some ideas on an often unused dairy product — yogurt.

Yogurt is a thick, smooth-textured product prepared with a mixed culture of lactic bacteria. It is usually made with fresh, partially skimmed milk that has been enriched by the addition of nonfat dry milk.

The nutritive value of yogurt is the same as in milk—high in protein and calcium. Plain, unflavored yogurt is a cousin to sour cream, but has only one-third the calories. One cup of plain yogurt contains only 160 calories; fruit yogurt of 2.5 percent fat has about 250 calories per eight ounce cup.

YOGURT should be stored at a temperature of 40 degrees, and should be consumed within three or four days. If it is stored for longer periods, the acidity may continue to increase to produce a sharper-flavored product. If entire contents of the yogurt container are not eaten at once, remove the portion to be eaten, then cover the container and return it to the refrigerator.

Freezing yogurt is not recommended. The freezing and thawing affects the texture adversely. When cooking with yogurt, stir or fold it into the other ingredients. The custard like texture of the yogurt will be broken down by any vigorous beating, so treat it gently. Yogurt also thins out during cooking—even more than sour cream.

Yogurt can be eaten from the carton or spooned over fruit for a dessert. It is also good in dips, toppings and salad dressings similar to those composed of sour cream as a base.

CHEESE IS a concentrated form of milk. A medium slice or one-ounce cube of Cheddar-type cheese equals about three-fourths of a glass of milk in calcium.

AWARD-WINNING PIANISTS in the recent National Piano Auditions were these eight Dimmitt students. Those behind the piano won Sonata Awards—the highest possible. From left, they are Gay Oldham and Laurel Summers, who also received five-year pins as international winners; Melanie Nelson and Greg Calvert, who earned their

first Sonata honors. The four girls seated earned Founder's Medals for their performance of music from the collection of Irl Allison, founder of the National Piano Auditions. From left, they are Judith Smith, Pam Heard, Cindy Wakefield and Connie Wakefield.

Even with labor-saving equipment, housewives work longer hours today

Oh to be a housewife—to flip a switch here and there, punch a few buttons, then curl up on a cushioned couch and let the Computer Age take over.

Forget it! THE homemaker still has an eight-hour workday, just like she did 40 years ago, says Bonnie Lysterly, Extension specialist in home management at Texas A&M University.

But the nature of homemaking work has been "modernized," Miss Lysterly adds. Mental work has replaced much of the physical work. The modern homemaker, then, is a decision maker who requires generous helpings of knowledge about goods and services available on the market. She must be skillful in buying, using and caring for goods and services. She is a marketer, record-keeper and manager.

And as usual, housework takes time. Dr. Kathryn Walker, as-

sociate professor at New York State College of Human Ecology, conducted a study at Cornell University to determine how much time a homemaker spends tackling the daily chores. The data, collected in 1967-68, was compared to information gathered in 1925-27 and in 1952. The study revealed that during the 40-year period, homemakers spent almost the same amount of time for household work. Homemakers in 1926-27 used an average of 7.3 hours a day; in

1952, 7.4 a day; and in 1967-68 8 hours a day.

HOMEMAKERS with very small children or many children have the heaviest work load in the home, Miss Lysterly says. And homemakers employed in the labor force likewise have a heavy total work load. In the 1967-68 Cornell study, homemakers who were employed 15 or more hours in the labor force reported a 10-hour workday.

The switch from physical power to mental mastery in housework has imposed certain disadvantages, the specialist adds. Today's homemaker is more indecisive and frustrated. She must choose goods and services for her family from a wide as-

College player to teach tennis

HE WILL teach classes at the Dimmitt High School tennis courts daily. He is returning for the second year.

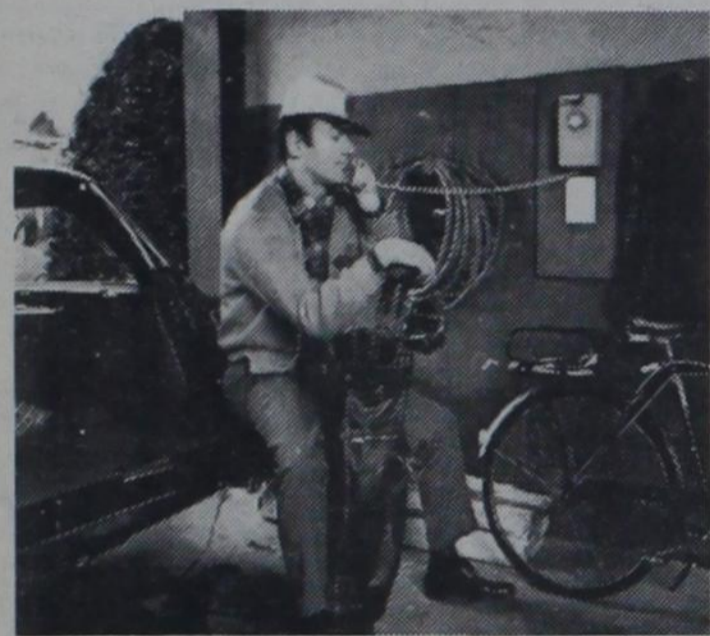

The 10-day tennis course will cost \$10 a student, with rackets and tennis balls furnished. The classes will be open for tennis enthusiasts from 8 years of age up, with classes divided into age groups. Each day's class will last one hour.

Financial Facts

By Willis A. Hawkins, Jr.

Some people can make money in the market by anticipating the business cycle. The great mature American companies do not increase their profits every year. When business is good, they make a lot of money, and when it is not so good, they make less.

How well this Game is played depends on perspicacity in evaluating economic intelligence. Let us say that we have had two disappointing automobile years. By determining the scrapage rates, the average age of cars on the road, the disposable personal income, the number of new buyers coming into certain age brackets, the average length of credit paper outstanding on existing cars, and a few other factors, we can have a pretty good guess that next year may be better

WATCH NEXT WEEK FOR "ANTICIPATING INTEREST RATES"

Even though it has rained a little bit, it is still mighty dry in some places.

We are always ready to discuss your financial needs at FARMER'S STATE BANK. Whether you're interested in opening a savings or checking account or in securing a loan, we're ready to serve you. Make us your banking headquarters: FARMER'S STATE BANK in Hart, phone 938-2111. Open daily 9 till 3.

Four county girls will attend Bluebonnet Girls State, Seguin

Bluebonnet Girls State will begin Tuesday at Texas Lutheran College in Seguin, and four Castro County girls will attend the 10 day conference.

DIMMITT'S delegates are Judy McLeroy and Kimberly Sims. Lucy Maurer and Juanita Wilhelm are Nazareth's delegates.

The purpose of Girls State is to teach high school girls the fundamentals of self-government and to create a desire to be more interested citizens of our state and nation.

They will study city, county and state government and actually participate in these governmental forms by establishing their own cities, counties and state, filing for offices, holding campaigns and elections. The present laws of the State of Texas are used for the teaching program. The girls will be bused into Austin for inaugural ceremonies.

MISS McLEROY is the daughter of Mr. and Mrs. Edd C. McLeroy. She is a member of the National Honor Society, 4-H and 4-H Junior Leaders, the United Methodist Church and the Bobcat Band. She serves as reporter for FHA and treasurer for FTA.

Miss Sims is the daughter of Mr. and Mrs. Weldon Sims. She is a member of the National Honor Society and will serve as vice-president of FTA, vice-president of FHA and reporter for the Student Council this fall.

MISS MAURER is the daughter of Mr. and Mrs. Al Maurer. She served as president of FHA and received her state degree this year. She won the "God, Home and Country" award and was a member of the girls' basketball team.

Miss Wilhelm is the daughter of Mr. and Mrs. James Wilhelm. She is an FHA member, secretary-treasurer of CYO, and staff photographer for the school annual.

The Nazareth delegates are sponsored by the American Legion Post Auxiliary, Catholic Daughters of America and the Nazareth CYO.

Mr. and Mrs. Ronnie Hathaway are the parents of a son born June 7. He weighed 6-pounds, 12-ounces and has been named Ronnie Hathaway Jr.

Relatives attend funeral service

Attending Mrs. Grace Loyd's funeral here last week were Lt. Col. and Mrs. H. O. Spraberry, Suzan and James of Omaha, Nebraska, her brother, Tom Owen of Amarillo, and her niece and family, Mr. and Mrs. E. J. Smith.

The Spraberrys stayed several days in the Hub Spraberry home and visited Mr. and Mrs. Billings in Lubbock.

Mr. and Mrs. Smith visited with her parents, the Hub Spraberrys, while here.

Gibson's Discount Center opens here today

MRS. NAOMI SCARBOROUGH, SOFT GOODS DEPT. MANAGER
... Prepares for today's grand opening of Gibson's Discount Center

Greetings from the Gibson Discount Center to our friends and neighbors in this town and its surrounding area. We are both proud and happy to be a part of your business community. It is our goal to offer to all an opportunity to maintain a respectable standard of living in spite of rising costs.

THROUGH DIRECT factory buying, we are able to bring to you the most popular brands of merchandise at the lowest possible discount prices. In this manner, we can be of great help to you in balancing your household budget, which is your one great expenditure in today's cost of living.

We would appreciate any comments or suggestions, good or bad, at any time. Constructive criticism will be especially helpful to us in providing the type of merchandise and service you desire.

Please feel free to call on us at any time we can be of service to you. We hope you enjoy shopping at your new Gibson Discount Center.

Most products are name brands

A major factor in the success of Gibson Discount Centers throughout the country can be directly attributed to their emphasis on name brand merchandise from reputable manufacturers or importers at reasonable prices.

H. R. GIBSON Products Company which serves the franchise network, notes that over 75 percent of all merchandise in the Gibson Stores bears recognized name brands. This applies to all departments.

The central offices at Seagoville, Texas utilize the cumulative buying power generated by total volume of all Gibson Stores to attain volume pricing in dealing with various manufacturers and importers.

AS A RESULT, Mr. Gibson noted that major brand lines are made available to the various Gibson Stores at substantial savings.

Gibson stands behind products

Gibson Discount Center in Dimmitt operates under the same guarantee as all Gibson Stores.

ALL OF our merchandise is brand new, first class, shipped direct to us from the manufacturer, Delmar Watkins, local Gibson Discount Center owner, said. He added, "There is no warehousing, no rejected merchandise, no second rate products, and no merchandise that has been in a jobber's warehouse for long periods of time."

"Our merchandise is unconditionally guaranteed. If the customer is not completely satisfied, his money will be cheerfully refunded provided he has the sales slip showing that he purchased it here," Watkins continued.

Shoppers enjoy true discounts, manager notes

True discounting has provided the basis for immediate acceptance of the Gibson's Discount Center by shoppers in the city as well as other areas of the nation. This is the judgment rendered by the local store manager, Glenn Phelps.

"I'VE FOUND it to be a "true" discount organization which offers discounts on all merchandise and not just selected items."

"We're continually expanding merchandise selections and introducing new lines in such a manner as to maintain the interest and excitement in our own merchandising as well as to give the shoppers outstanding values and reasons to keep coming back," he added.

For Delmar Watkins, this is eighth store

Eight Gibson Stores in as many years! That is the success story of Mr. Delmar Watkins of Pampa. He opened his first store in Pampa, Texas in 1963, one year later the second Gibson Store was opened in

Hereford, Texas. In 1965 a Store was constructed in Borger, Texas, and since that time Stores have been opened in Canyon, Dumas, Tulia, and Tucumcari, New Mexico. Gibson Discount Center will be opening June 10th in their newest location to serve the people of Dimmitt and surrounding areas.

Since then he has spearheaded the formation of a growing retail operation that encompasses parts of two states and has created jobs for over two hundred people, adding to the economy of the area and giving retail business a "shot in the arm."

Ladies enjoy self-service, big selection

It is safe to say 80 percent of a family's shopping is done by the wife of the household. With that in mind, the designers of Gibson's Stores have created a veritable woman's paradise. Women like a big store — so we've given them big stores — they like lots of selections — and they find variety at Gibson's.

BORN IN Canadian, Oklahoma, Mr. Watkins attended both elementary and high school there, graduating from Canadian High School in 1948. He served in the United States Air Force during the Korean Conflict for four years. He attended Oklahoma State University and North Texas State University where he majored in Business Administration and minored in Accounting. Further education with merchandising training in 1956, he moved to Pampa in 1957 and went to work with National Cash Register Company. He was with the firm seven years in the Amarillo and Dallas offices. In 1963 he presented a self-compiled dossier and an idea to investors.

The idea is, states Watkins, "eliminate the middle man, buy by the car load and truck load from the manufacturer and pass the savings on to the customer." Gibson's stock 16,000 name brands, nationally recognized and double-guaranteed. Watkins believes the double-guarantee offered customers, the Store's money back-plus-factory guarantee, and the desire to save the customer money have been contributing factors in the success of his stores.

Mr. Watkins conducts his duties as president of a fast growing organization from a suite of offices in the Pampa, Texas, store. He and his wife Sandra reside at 1820 Fir with their two sons, Joe, 15, and Mike, 11.

'Gibson story' started in Texas

THIS IS the apt description of Gibson's Discount Centers proffered by Delmar Watkins, owner and president of Gibson Products of Dimmitt. Women like self service — so we've given them that too. When they are in a hurry and need to dash in and out, they can find what they want without possible delay in waiting for a clerk to be free to help them. And when they are not in a hurry, they can take all the time they like to browse through the store without being interrupted by a sales clerk or uncomfortably thinking they may be taking up the clerk's time.

The Gibson Story started in a small one-story converted warehouse operation in the south part of Abilene. The year was 1958. The Gibson Wholesale Drug & Sundry business, in operation for 23 years, was battling the squeeze on wholesalers. "I was going down, down, down, like everybody else," recalled Mr. Gibson.

company had spread to 30 states, racking up 1968 sales of \$1,021,000. Expansion is now running at the rate of six stores per month on the average. "We operate differently from any other chain in the United States," Mr. Gibson said. Due to the volume of our orders, we can obtain merchandise in many cases for less than the jobbers cost.

Of course, there are clerks available to help in locating an article or to give information on merchandise when desired. They may ask if they can be of service, but they won't try to push a sale. Mr. Watkins noted that Gibson's has found women also like lightness and brightness, so the stores are amply lighted.

HIS WAY OUT was to move the firm's merchandise off the shelves, stack it in the middle of the floor or on display gondolas, and advertise goods for sale at discount prices. When the first store opened in 1958, the first day's sales totaled \$3,000. In 1965, Gibson opened a new 93,000 square-foot store in an Abilene, Texas suburban shopping center. Its first days sales were \$300,000.00. In the first ten years the

SOME individual Gibson orders run from \$500,000 to \$1 million. The chain has two types of stores — those owned by the Gibson family, and those franchised to individuals.

Gibson's network of discount centers are rated second largest in the nation, and have now joined the select \$1 Billion Club of American Retailers. Sales volume topped an annual rate of 1.5 billion dollars in 1970.

Direct buying, volume selling make discount prices possible

Gibson Discount Center in Dimmitt, like all other Gibson Stores features brand name goods at 30 to 60 percent off the regular retail prices, store officials say.

ing all items in massive quantities direct from the manufacturer, eliminating the middle man and also eliminating the greater per unit cost of buying a smaller volume, he continued.

HOW DOES the nation's largest discount chain manage such massive price reduction? The answer is a relatively simple one — huge volume and low overhead, says Delmar Watkins, store owner. Gibson Stores begin by buy-

more than 16,000 items of reputable merchandise, 12,000 of them being famous brand names.

HOW DOES the individual Gibson Store have access to such a large selection of merchandise? Because the Gibson chain holds four merchandise shows a year, spring, summer, winter, and fall in Dallas' massive Market Hall, inviting the display of goods from manufacturers from whom they want to buy — 16,000 items in all.

Individual store owners then tour the shows, order what they

want for the coming season, the orders for each item are totaled and the manufacturer gets one big order instead of several small ones — better for the manufacturer, the Gibson Stores and especially the customer, who receives the savings.

Brand names assure the customer of "the best," and the Gibson system of purchasing in volume and reducing overhead makes the customer sure it is "for less."

Gibson owners gather quarterly for 'biggest trade show on earth'

Use any superlative of your choice ... mammoth, gigantic, colossal ... and you still won't be guilty of exaggeration in describing the Gibson's Trade Show, held exclusively for the nationwide chain of Gibson's Discount Centers. Dubbed several years ago as the "Biggest Trade Show On Earth," the four annual shows have now gained recognition as the world's largest private trade shows.

EMPLOYEES of Gibson's and dealers with the organization just say, "Color It Big." Four times a year the entire 222,000 square-foot area of Market Hall in Dallas is reserved exclusively for the shows. And even before one show gets underway, plans are being formulated for the next.

The guiding hand of genial show director Ward Hamilton Jr., Gibson sees to it that each show is conducted with precision, at the same time taking advantage of the occasion to transact diverse business with franchise holders, manufacturers' representatives and executives of many companies with which the discount chain does business.

Hamilton points out that the four annual trade shows are seasonal in merchandising emphasis. For instance, the November Show will highlight sporting goods, soft goods, and hardware, lines. Other merchandise categories represented will include groceries, nursery items

MANAGER of the new Gibson's Discount Center in Dimmitt is Glenn Phelps, a 1964 graduate of Phillips High School. Phelps was employed four years by Gibson's of Borger. Prior to being transferred to Dimmitt, he was the department manager for hardware and automotive products at Borger. He and his wife, Anne, reside at 1007 W. Grant St.
