The local club meets at the community center for luncheon and fellowship each Tuesday.

**FOR SPECIAL OCCASIONS**

## Council okays on-site liquor use at Center

In a regular City Council meeting held Monday evening, the Council okayed a motion to allow the use of alcoholic beverages for special occasions in the Community Center.

The motion was carried with David Evans, James Spill and Manuel Esquivel voting "for" and O. J. Murray voting "against."

Alderman Randy Loudemilk and City Attorney Kenneth Slimp were absent.

The Council discussed this item on the agenda thoroughly prior to the vote.

The following rules will apply to any user of the Community Center who plan to have alcoholic beverages on the premises.

- 1) The user must hire no less than 2 security officers to control the situation.
- 2) The user of the Community Center shall pay a \$200 deposit.
- 3) Use of alcoholic beverages will be allowed from 8:00 p.m. to 1:00 a.m.
- 4) The use of alcoholic beverages shall be allowed only inside the Community Center building.
- 5) The user will clean up and pick up all the waste created by guests before leaving the building.
- 6) A release form shall be signed by the user of the building.
- 7) The Council and the City Administrator can include any

other items that seem necessary.

In other action, the City Council heard Mayor Joe Gerhart explain the need for the City to pave numerous short dirt roads within the City. The motion was made and seconded to seal-coat the paved roads as proposed by Charlie Grenwelge. The motion was passed unanimously.

Police Chief Carey Balentine told the Council of plans to auction impounded vehicles, this motion also carrying unanimously.

## County officials meet July 6

Runnels County Commissioners approved the opening of bids for the lease of 8.27 acres north-east of Hatchel July 6th.

Texzona Oil and Gas, Inc. out of Abilene leases the county road, but must renew that lease every year. It is required by law that commissioners advertise the opening of bids for this lease each year.

The hiring of Gwen Ocker as Assistant County Auditor was approved by the Commissioners.

The leasing of two copy machines for county departments was approved.

Judge Murchison reported on the progress of Runnels County jail.

## Business and Industrial Corporation members discuss city improvements

Members of the Winters Area Business and Industrial Corporation met Thursday, July 8 to discuss civic improvement and economic development. (See related story, page 4, "Business Matters.")

Those present were Nelan Bahlman, president; Mac Sayles, Randall Conner, Joe Gerhart, Gary Moore, Aref Hassan and Jim Hanson.

It was brought out that Mac Sayles has attended two of the regional economic development meetings and out of these two meetings, seven top issues concerning all small West Texas towns evolved.

- Those are:
1. Regional Economic Development/funding/cooperation.
  2. Communicating advantages of West Texas life-style.
  3. Representation in Austin to cover our concerns.
  4. New job development/create jobs to keep young people in community.
  5. Business retention/survival/

keeping mainstreet open.

6. Rural health care.

7. Developing community pride/community attitude - positive/community vision.

Mac Sayles stated, "The Regional Economic Development Board is developing a sub-committee to promote contact between all small towns in this area."

Sayles went on to say that "Winters is behind in the mainstreet facelift program. Also, we need better relations with Ballinger to work together in economic development."

Mayor Joe Gerhart related that the City Council will soon influx some of the .05% sales tax money into the Winters Area Business and Industrial Corporation. The city is also meeting with Runnels County officials to discuss economic development.

In May of this year the Texas Legislature authorized 22,000 new beds for Texas prisons. The funding will be addressed in November in Austin.

When funding is approved, City

Administrator Aref Hassan will draw up a proposal for Winters to present to the Texas Department of Corrections.

It was suggested that directors of the corporation call Mr. Bill Berry at phone number (409) 294-6451 to remind him that Winters is interested in a prison, as well as making calls to state representatives.

In other action, motions were made and passed to put Tommy Russell on the Main Street committee; invite Dry Manufacturing, John's International, Alderman-Cave and Winters Manufacturing to send representatives to this committee's meetings.

It was noted that North Runnels Water Supply and the City of Winters are making progress in improving relations.

The Main Street committee has received 20 gallons of free paint from Higginbothams to be used in improving downtown.

Randall Conner and Mac Sayles are working on a "Pioneer Days" to take place in the fall.

## Area farmers attend agri scout clinic

Two in-field scout training clinics were held last week in Runnels and Tom Green counties.

Richard Minzenmayer, Extension Agent-Entomology of Texas A & M conducted these field sessions. Twenty-six local and area farmers attended.

The Winters training clinic started at Farmers Seed and Supply immediately after the weekly 1:30 p.m. turnrow meeting, according to Randall Conner.

The group drove from Farmers Seed and Supply to the Howard Pruser farm and conducted scouting techniques, identification of cotton insect pests and beneficials, insect damage square sets and plant development. The area farmers used magnifying lens to observe the pests.

## Winters approved for waste oil funding

The City of Winters' proposal to collect waste oil has been chosen to receive funding, excluding some few items in the original proposal.

The City Administrator, Aref Hassan, received word of Winters' selection last week from an official of the Texas Water Commission in Austin.

Assistant Grants Coordinator, Fred R. Wiley, from the Municipal Solid Waste Division, stated, "Once the contract has been prepared, I will advise you what items are funded and the total amount of the grant," Wiley related.

VARIETY OF PROJECTS—will become evident as Economic Development board members strive for city beautification and seek to attract more industry to Winters. Here, left to right, are board members Mac Sayles, Aref Hassan and Pastor Jim Hanson painting one of the planters along Main Street.

## OIL BUSINESS . . .

By Reg Boles ©1993

There are hopeful indications coming out of a recent meeting of oil and gas investment professionals in Houston. The word is that, despite a recent downturn in oil prices, there is money out there looking for placement in oil patch deals.

This may come as a surprise to operators and promoters alike, as scrounging a buck seems as hard as it has ever been. But, there are some signs that money is sneaking into the petroleum investment sector once again.

'Sneaking' is the operative word here, because no one seems to want to be seen as 'hungry for oil and gas deals'. Why that is, I am not sure. Never-the-less, recent news items indicate that some pretty shrewd investment folks are putting some substantial bucks into the oil business.

Witness the newly announced partnership (groundbreaking in a lot of ways) between Enron and the California Public Employees Retirement System (CALPERS). Each partner is providing \$250 million to acquire reserves, pipelines, and operations throughout the oil patch.

This arrangement is unique in that it is more to acquire reserves than to develop them. It is not a drilling fund, as has been more common in the past when an institutional investor (like a retirement fund) has gotten involved in an oil deal. Moreover, an example of a big hitter like CALPERS getting involved in an oil patch investment program is hard to find since about 1985.

Some interesting facts about the partnership's goals are enlightening regarding expectations for oil and gas investment. The partnership expects to achieve at least a 15 percent rate of return, which says that the participants think the oil business is capable of generating about 5 times the return of Treasury bills. Also, the partners have structured the deal to allow leverage of the original investment of \$500 million up to as much as \$2 billion, indicating they are not worried about the safety of the investment.

There are also hints of strong interest in oil and gas drilling and investment projects, the old standby of oil patch investing.

Those who monitor such deals say that several individuals, capital partnerships, estates, investment arms of wealthy families, and even professional money managers have been scouting the more reputable oil and gas firms known to place private investment in oil and gas acquisition and development. They point to the success of such companies as Parker and Parsley in Midland as an indication of the companies available for the right deals. (P&P recently utilized about half a billion dollars to acquire and develop new properties from Prudential.)

Even though some of the people who are the heart and soul of the oil and gas business—the smaller promoters and operators who utilize private investment—may not

be getting the benefit of such strong demand for oil and gas deals just yet, it is possible they may soon. We can all hope so, because it will translate directly into more activity for the oil patch.

## Winters citizens to have opportunity to donate blood

United Blood Services will conduct a community blood drive in Winters from 3 p.m. to 7 p.m. on Friday, July 23, 1993, at North Runnels Hospital. All healthy persons over age 17 are invited to give blood during the drive to help patients in this community.

Blood is one of the doctor's most valuable resources, and many people are alive today because blood was available when they needed it. In this area, 30 blood donations are needed each day to meet patients' needs. United Blood Services, the area's nonprofit community blood provider, relies entirely on volunteer donors to help maintain a constant, sufficient blood supply. Blood comes from only one source -- healthy people who are willing to give of themselves.

"Donating blood is safe, simple and satisfying," said Gary Karschner, Community Relations Representative for United Blood Services. The body contains about

10 to 12 pints of blood and, since the body constantly manufactures blood, the amount given is quickly replaced.

The donation process takes about 45 minutes, with about five to seven minutes for the actual donation. First, a brief medical history is taken. Second, the temperature, blood pressure, pulse and blood iron levels are checked. After the blood is collected, it is typed and tested for diseases that might be transmitted to those receiving transfusions. This procedure benefits the donor as well as the patient because, if any of the tests indicate a need for medical attention, the donor is referred to his or her personal physician.

Blood can be separated into components, so one donation may help several patients. These components must be processed within a few hours of donation, so there is always a need for a constant, fresh supply of blood donated by volunteers in this community.

## The Coffey home dedicated

The Coffey Ranch House at Lake Ivie was dedicated with a subject marker for the Texas Historical Commission, on Saturday, June 26.

A caravan of some 70 vehicles left the Ballinger court house at 9 a.m. for a 24 mile ride down a rough caliche road to the site of the home.

Three brave commission members from Winters followed instructions and set out in a high ground clearance vehicle, each with a lawn chair. Nina Hale drove her pickup carrying Mary Margaret Leathers and Charlsie Poe with her. Another commission member, Alton O'Neal, drove his own truck.

Bishop and Mary Powell, owners of the house, met the travelers at the court house early Saturday morning. The couple led the way, crossing the historical 12-mile bridge spanning the Colorado River southeast of Ballinger.

The home was originally built by Rich Coffey, one of Coleman County's first permanent residents, in 1881.

Bishop Powell, great-grandson of Coffey, moved the rock home piece by piece about three quarters of a mile to avoid flooding by nearby Lake Ivie.

Dimensions and material wise, the home is the same. Powell said the only difference in the house was the staircase, which originally started from the outside and led upstairs. Powell said, "Mary

didn't want the children to have to go outside to go upstairs."

The Powells lived in Ballinger but now reside in Abilene. They will be using the Coffey house as a home away from home.

Martha Freeman, researcher from Austin, spoke about the history of the Coffey family.

Abilene Mayor Gary McCaleb also spoke at the dedication. "This house is close to where the Abilene pump station will be. The river of life and civilization continues to run through today," said McCaleb.

Charles Dankworth, president of the Texas Historical Commission, presided. He spoke of the lake and its importance to west Texas and said, "I can promise you, there is an easier way to get to Concho County."

Daniel Herren from Nashville sang a song he had written about his impressions of Rich Coffey and the men of his time entitled "Memories of a Good Man Never Die."

Descendants of Rich Coffey gathered for a photograph.

Powell said that moving the house was something that just had to be done. He said he learned a lot from the process and could see Rich Coffey as being very pleased.

The Powells were perfect hosts as they guided visitors through the house. Some people were present who had lived in the house over the years. Guests were served lemonade and homemade cookies.

Meanwhile, the historical

marker stood proudly under a canopy made of wood near the restored rock house, a permanent memorial.

The inscription is as follows: "Rich Coffey (1823-1897) was a prominent pioneer and settler in the part of the state that now encompasses Runnels and Concho Counties. In 1862 Coffey moved his family, cattle, and cowboys to a site near present day Ballinger. Several years later he established a settlement at the confluence of the Colorado and Concho Rivers."

In addition to raising cattle, freighting and trading in salt, Coffey served as a Coleman County Commissioner, participated in the first County Grand Jury, and started a post office in 1879.

Jonathan Cook, an Irish stone mason, was hired to build a rock house for Coffey in 1880. The house was completed in 1881 as a one-and-a-half-story dogrun structure with exterior chimneys and a staircase in the dogrun that led to a loft. Outstanding features included the quality of the masonry construction and the particular dogrun configuration which was a form common to wooden structures in Coffey's home state of Georgia, but unusual for masonry buildings in central and west Texas.

In 1989 the Rich Coffey house was moved to this site to avoid inundation by the construction of the nearby Lake Ivie in 1992.

## From The Well

by Pastor Jim Hanson

On Saturday the 3rd of July, Ramona and I got up early and headed for Stamford. The Texas Cowboy Reunion. Several years ago, when I was living in Odessa, a friend of mine told me about this reunion and how he remembered Will Rogers coming to it. I've wanted to go ever since.

We got there about 7 am. Already the cook fires were burning and you could smell the coffee cooking over an open fire. We came to start this week end out right, by attending a prayer breakfast. Charlie Stenholm was the speaker, and he shared his experiences as a member of the House of Representatives prayer breakfast that meets every Thursday in D.C. We saw some folks we knew from Bethel Lutheran near Avoca, and felt right at home.

After breakfast and visiting with the folks, we wandered over to the bunkhouse, a large stone building which houses the Texas Cowboy Old-timers Association. We signed the guest book and were immediately ushered over to the coffee pot and cookie bar, where two lovely ladies made us most welcome. There were vases filled with wild flowers fresh picked from the prairie to brighten up the room and bring the outside in. We looked at old time pictures on the wall, old bridles and stirrups and the working stuff of cowboys that had been collected these past 62 years.

The reunion was started in 1930, right at the beginning of the Great Depression. When folks have a good idea, they don't always need a lot of "up front" money. All it needs is to be put into action with some good old fashioned values and some time tested "get up and go."

Then we wandered over to another big old building. This one was called The Roundup Hall. The Old-timer Fiddler's Contest was about to begin. The judges were seated at a table up front. The stage was lighted by 2 bare light bulbs screwed into ceiling sockets. The rest rooms were situated on either side of the stage, so that some times you might be mistaken for a contestant if you went up front. It didn't seem to slow anybody down or from answering nature's call.

Then the contest began. The oldest fiddler was 87 and the youngest was 55. Fun! Foot stomping fun. Each contestant played 3 numbers. The place was packed, young and old, thoroughly enjoying the music that spoke of former years and timeless values.

We had to leave without seeing the rodeo. It would be fun to see a 76 year old cowboy roping and they had one. Maybe next year. We went back to the bunkhouse, I had seen a prayer written on the wall that I wanted to copy, I wish to share it with you, a prayer that was written for rodeo contestants in the arena. "Our heavenly Father, we have paused in the midst of this rodeo, mindful of you and all the blessings you have bestowed on us. We just pray Lord that you will be with each of us, especially the contestants in this arena as we pray that you will be with us in life's arena. We don't ask you for any special favors. We don't ask that it always rain when we need it, nor do we ask that you always let the sun shine. We don't ask always for the calf to run straight, nor do we shun the bull that won't spin. We just pray Lord that you will help us so that we may live our lives in such a manner that when it comes time to make that last ride to the country up there where the water runs cool, and deep, and where the grass grows stirrup high and lush and green that you will tell us as our last Judge that our entry fees are paid. Amen."

No wonder the Texas Cowboy Reunion keeps growing and going. And why we'll go back again another time.

## BUSINESS MATTERS

### Program brings Main Street back to life

*I live in a small Texas town. Our town square has deteriorated over the past 10 years. Where can we get help in the restoration of our downtown area - both the buildings and the economy?*

In most small Texas cities, the downtowns are in a serious state of decline. Better mobility, suburban housing, and the growth of local and regional shopping centers and malls have greatly reduced the traditional role of Main Street as the principal center of economic activity.

Over the past 12 years, a new philosophy for revitalizing central business districts has evolved. The concept is simple: rehabilitation of existing structures capitalizing on the unique character of the buildings, coupled with development of progressive marketing and management techniques. The preservation and rehabilitation of historic commercial buildings provides a downtown area image and encourages area merchants and building owners to reinvest in downtown.

The Texas Main Street Program of the Texas Historical Commission works to bring this proven approach of downtown revitalization to towns across the state. Each year the program accepts applications for official designation to the program from cities with populations under 50,000. Up to five cities are selected annually. The cities are required to fund a full-time program manager who is employed by the city and reports to the city manager. Cities under 5,000 population qualify for the program by employing a half-time Main Street manager. A similar program is also provided for historic commercial neighborhood ar-

reas and manageable downtowns of cities over 50,000 population. Up to three urban areas are designated each year.

The Texas Main Street Program works with each of these communities for three years, providing start-up assistance and developing more local initiative and expertise in the second and third year. Training and supervision of the local program manager is provided, as well as professional assistance and supervision in design, restoration, marketing, parking, and other areas where the community does not have local expertise.

The Main Street Program also recognizes "self-initiated Main Street cities." Self-initiated cities employ a full-time program manager trained by the Main Street Program. They receive limited assistance in the form of periodic Main Street staff visits, merchandising and display assistance, participation in Main Street training sessions, and help in finding professionals to provide required design, marketing, parking, and other assistance.

In the first 12 years of the Texas Main Street Program, more than \$266 million was reinvested in the downtowns of the official and self-initiated cities, moving 1,819 new businesses to cities' downtowns, and creating 5,884 jobs. If you would like more information about the Main Street Program, contact the Texas Historical Commission at 512/463-6092.

### Wal-Mart SUPERCENTER under construction in Brownwood

When construction is complete on the Brownwood Wal-Mart SUPERCENTER, approximately 225 area residents will be added to the store's payroll. The new store, located on US 67 and Looney, is scheduled for grand opening in the fall of 1993. The new 201,998 square-foot Wal-Mart SUPERCENTER will increase the size of the current store for added merchandise selection and customer shopping convenience.

Additional jobs to be filled by area residents hired as Wal-Mart associates include positions of department manager, cashier,

sales clerk, receiving clerk and office clerk. Job applications will be accepted at the local store. In addition to offering additional associate jobs, the change to a SUPERCENTER will create local job opportunities in the construction and service industries. Last year, Wal-Mart Stores accounted for \$482 million in sales tax revenues for the State of Texas. "The goal of every local Wal-Mart store and SUPERCENTER is to become an active part of the community, and by working with area merchants, promote that city as a retail trade center," said David Glass, Wal-Mart president and chief executive officer.

### Donate garage sale items to American Legion

### Gyms will close for the summer

WISD Athletic Director Robin Byrd has announced that the school gymnasiums will be closed for the remainder of the summer for repairs and maintenance. The metal building will close after Friday, July 16. The weight room will continue to be open from 6 to 9 p.m., Monday through Friday.

### Taking it easy -- the safe way

Summertime is when the livin' is easy -- or so said a famous American composer. But when you take it easy with family and friends, it's wise to take precautions, too. If you don't, a Texas summer can leave you itching, burning, or worse.

Here are some hazards to watch for, with tips from Texas Safety Association:

**Food Poisoning.** A picnic is a great way to relax. But remember that food can spoil quickly on a hot day. Cold air flows downward, so put the most perishable items at the bottom of your cooler, with ice or gel packs on top. Frozen juice boxes can do double duty as "ice blocks" to keep other foods chilled. Serve cold items at 40 degrees or less, and return them to the refrigerator or cooler as soon as possible after the meal.

If you're barbecuing, be sure your meats are thoroughly cooked. Don't put cooked meat on the same plate you used to carry the raw meat to the grill!

**Bees and Wasps.** A sting can ruin anyone's afternoon. For people with severe allergies, it can be life-threatening. Picnic away from garbage cans and fallen fruit, which can attract these insects. Avoid perfume and heavily scented soap. If someone does get stung, an ice pack will reduce the swelling, and baking soda paste can relieve the pain. If the victim is known to be allergic, don't wait for a reaction -- get the person to a hospital right away!

**Bites and Rashes.** Lyme disease, transmitted by ticks, is a growing threat in eastern Texas. Bites from mosquitoes, chiggers, and fire ants are less serious, but they can make you miserable. Repellents will discourage some of these creatures, but it's best to wear protective clothing in places where they're known to be a

problem. The same goes for poison oak and ivy. After being outdoors, wash your clothes and inspect your body for ticks. Remove them with tweezers, tugging gently but firmly until the tick lets go. The sooner you get it off, the less likely it is to transmit Lyme disease.

**Water.** Swimming and boating will help you beat the heat, but caution is in order. Make sure there's a life jacket for each person on your boat, and have children under 12 wear them at all times. Never leave small children unattended in swimming areas, and remember that alcohol and water don't mix.

**Weather.** Thunderstorms come up quickly in summer. If lightning starts while you are

swimming or boating, get off the water immediately. Seek shelter away from trees, metal fencing, golf courses, or other large open area. If you're far from home, a closed metal vehicle may be the safest place. Its frame will deflect lightning charges to the ground.

When skies are fair, don't overdo it. Texas heat is no laughing matter. Drink plenty of water and save strenuous activities for early morning or late evening.

**Sunburn.** Too much sun can cause short-term discomfort, premature aging, or even skin cancer. Children are especially vulnerable. When working or playing outdoors, wear a sunscreen with a protection factor of at least 15. Reapply after swimming. Use hats, long pants and long-sleeved shirts to block the rays.

Texas Safety Association is a statewide, not-for-profit educational association whose members work to promote safety in the workplace, at home, and in the community.

## Winters Police Beat

The information below is taken from reports on file with the Winters Police Department. Some of the information is provided to police by citizens, and in some cases, police have not finished investigating the reports.

Winters Police Department reports received and/or investigated from Sunday, July 4 through Saturday, July 10, 1993. Winters Police Officers:

- made a routine traffic stop of a vehicle with out of state license plates and discovered that the plates did not match the vehicle, that the driver did not have a driver's license and that there was no insurance on the vehicle. Closer inspection revealed that the five individuals inside the car were Mexican nationals, none of whom had the proper paper work to be in the U.S. The U.S. Border Patrol was notified and the five were taken into custody by the Border Patrol.
- arrested Vera Spill, 34 years of age, of Winters for Driving While Intoxicated.
- investigated a civil dispute between a merchant and an individual involving a warranty. The parties involved were advised that this was a civil dispute and that recourse was available in Civil Court.
- investigated a Terroristic Threat and Harassment case in the 500 block of State St. The complainant was advised about how to file charges. Charges are expected to be filed later this week.
- arrested Ransford Steve Fowler, 57 years of age, of Abilene for Felony Driving While Intoxicated.
- investigated a Family Violence Class A Assault in the 300 block of East Dale. Two adults were treated and released from North Runnels Hospital as a result of the assault. Charges have been filed on Jose Alfredo Martinez, 27 years of age, of Winters for Class A Assault, Family Violence.
- investigated an accident in which a juvenile was driving a 1971 Ford pickup and Michael Ysa was driving a 1984 Oldsmobile and the two vehicles collided at a controlled intersection at W. Dale and Frisco Streets. The juvenile's pickup was south bound on Frisco and Ysa's vehicle was west bound on W. Dale.
- investigated an accident in which Lee Jose was driving a 1988 Ford pickup, backing out of a parking lot in the 600 block of E. Broadway, and backed into a parked 1990 Ford pickup.
- investigated an accident in which Louisa Rodriguez was driving a 1982 Dodge pickup and struck a steel post protecting a gas pump in the 400 block of N. Main.
- investigated an accident in which Norma Robinson was driving a 1982 Chevrolet, and was backing out of a driveway in the 100 block of Paloma and backed into a parked car.
- filed charges on Harvey Sparks of Winters for Driving While License Suspended after Sparks was stopped for a traffic violation.
- investigated a Telephone Harassment case in the 500 block of Wood St. The investigation continues.
- received a report of a Hit and Run at the intersection of State and Arlington Streets. Roy Gray was driving a 1986 Buick west bound on State Street when a vehicle failed to yield right-of-way to Mr. Gray and struck the right side of his vehicle. The vehicle which struck Mr. Gray left the scene of the accident. While the officer investigating the Hit and Run was trying to locate the suspect vehicle, he received a Disturbance call in the 400 block of Melwood. After responding to the call, the officer discovered the suspect vehicle, a 1980 Buick, parked at the location of the disturbance. The vehicle had been driven by Norma Campos, 22 years of age, of Winters. She was arrested for Driving While Intoxicated, Failure to Maintain Financial Responsibility and Failure to Stop and Render Aid. Also arrested at the scene was Lino Arispe, 25 years of age, of Winters for Public Intoxication. The disturbance call was in regarding a purse having been stolen from the resident. Charges have been filed on Norma Campos for Class B Theft in that case.

The Winters Police Department would like to remind citizens to call 754-4121 for non-emergency call and 9-1-1 for emergency calls. Using any other phone number to make reports causes delay.

Also, remember that the curfew went into effect July 8. The curfew pertains to juveniles (16 and under) between hours of 12 midnight and 6 a.m.
