TOPDRESS PASTURES WITH "MR. GREEEN" 30-TO-O AND

Would you like to double the forage yield of your pastures? The chances are good that you can do it with just one application of fertilizer!

This time of year it is important to see that your grasses have plenty of nitrogen, and a little phosphorus to boot. That's why we recommend an application of Spencer "Mr. Greeen" 30-10-0. Contains 30% nitrogen and 10% phosphorus. Top-dress your pastures with 300 pounds per acre, and see the results.

Tests at state experiment stations show that cattle grazed on well-fertilized forage alone have gained weight at a cost of less 21/2 times that much!

That's why we say, "Grow your own feed with Spencer 'Mr. Greeen'!" See us for further details about pasture topdressing.

tilizer looks good.

First, lets look at nitrogen. If cotton follows grain sorghum, nitrogen is definitely needed, A good rate is 80 pounds ammonia per acre on heavier textured soils. If cotton follows cotton or wheat, 50 to 60 pounds ammonia should be sufficient n heavier textured soils. On light textured sandy loam soils, increase these rates by 20 pounds.

nitrogen.

Phosphorus can still be applied. The most convenient way to apply it now is as a liquid with a dual applicator. Sidedressed phosphorus may not be as beneficial as preplant but there is still time for response. It should be applied soon, however. A suggested rate of phossufficient on heavier textured soils. phorus for cotton is 150 to 200 lbs. 7-21-0 or 8-18-0-3 per acre on clay loam soils and 200 to 250 lbs. 7-21-0 or 8-18-0-3 per acre on sandy loam soils.

When sidedressing cotton, be careful not to prnne roots. Root growth on cotton is good so far this year. It would be desirable to apply fertilizer, particularly phosphorus, just ahead of new root growth. Applying it on 20 inch centers is still satisfactory for most cotton but it may be necessary or more convenient to place it in the middles.

This has resulted in the grower receiving No. 1 wheat prices most seasons. Normally No. 1 wheat sells from 3 to 10 cents more than No. 2 wheat which means an additional return of \$3.00 on each 100 bushels. Comparative Tests in Texas over a 8-year period gave an average test weight of 61.5 for Caddo, Tascosa and Crockett while Comanche, Tenmarq and Turkey averaged 58.5 pounds per bushel in the same tests.

The Tascosa and Caddo varieties have also proved desirable due to their non-shattering characteristic. Tascosa has repeatedly withstood severe hall storms with less varieties. Thus it has been widely adopted in the Southern High Plains where some counties seed more than 75 percent of their acreage to this variety.

Tascosa was developed by I.

M. Atkins and K. B. Porter, TAES researchers, and released as recently as 1958. It was grown on more than 300,000 acres in 1963.

Senator YARBOROUGH'S **☆REPORT☆**

Dear Fellow Texan:
This was the anniversary week of the signing of the World War II GI Bill 20 years ago by President Franklin D. Roosevelt.
At that time, President Roosevelt said the GI Bill gives "emphatic notice to the men and women in our Armed Forces that the American people do not intend to let them down."
Fellow Texans, I am working for

let them down."

Fellow Texans, I am working for enactment of my Cold War GI Bill, co-sponsored by 38 other Senators, because we must not let our country down.

The Cold War GI Bill is paintened after the GI Bills of World War II and the Korean Conflict, which provided additional education and training for more than 11 million men and women. More than 5 million World War II veterans along received home, farm or business loans, totalling more than \$43 Billion. It helped to set off an economic boom unprecedented in history.

For many veterans the GI Bill

ed in history.

For many veterans the GI Bill provided the first educational break-through in their families for generations, perhaps the first in history. And because of this education, they have reared families in an atmosphere where a c.l-lege education is considered as much a modern-day basic necessity as food shelter and clothing.

much a modern-day basic necessity as food, shelter and clothing.
The World War II GI Bill is paying for itself at the rate of a billion dollars more in taxes a year because of increased taxes paid on the higher incomes that are a direct result of the GI Bill. Seven million, eight hundred thousand veterans of World War II went to school under the GI Bill, followed by some 3½ million more followed by some 3½ million more from the Korean Conflict.

Irom the Korean Conflict.

In a discussion of the Col? War GI Bill on the Senate floor, I was pleased to hear Senator Wayne Morse of Oregon point out that passage of the bill would prevent hundreds of thousands of young people from being drowned in a pool of unemployability in this age of technology. of technology

DECLARATION OF INDEPENDENCE

(Continued from Page One)

He has refused his assent to laws the most wholesome and necessary for the public good.

He has forbidden his governors to pass laws of immediate and pressing importance, unless suspended in their operations till his assent should be obtained; and when so suspended, he has utterly neglected to attend them.

He has refused to pass other laws for the accommodation of large districts of people, unless these people would relinquish the right of representation in the legislature - a right inestimable to them, and formidable to tyrants only.

He has called together legislative bodies to places unusual, uncomfortable and distant from the repository of their public records, for the sole purpose of fatiguing them into compliance with his measures.

He has dissolved representative houses repeatedly, for opposing with manly firmness, his invasions on the rights of the people.

He has refused, for a long time after such dissolutions, to cause others to be elected; whereby the legislative powers, incapable of annihilation, have returned to the people at large for their exercise; the state remaining in the meantime, exposed to all the dangers of invasion from without and convulsions within.

He has endeavored to prevent the population of these states; for that purpose obstructing the laws for the naturalization of foreigners; refusing to pass others to encourage their migration hither, and raising the conditions of new approprations of lands.

He has obstructed the administration of justice, by refusing his assent to laws for es-

tablishing judiciary powers.

He has made judges dependent on his will alone for the tenure of their offices, and the amount and payment of their salaries.

He has erected a multitude of new offices, and sent hither swarms of officers, to harass our people and eat out their substance.

He has kept among us, in times of peace, standing armies, without the consent of our legislatures.

He has affected to render the military independent of, and superior to, the civil power.

He has combined with others to subject us to a jurisdiction foreign to our constitutions and unacknowledged by our laws; giving his assent to their acts of pretended legislation:

For quartering large bodies of armed troops

For protecting them, by a mock trial, from punishment for any murders which they should commit on the inhabitants of these states;

For cutting off our trade with all part of the world;

For imposing taxes on us without our consent;

For depriving us, in many cases, of the benefits of trial by jury;

For transporting us beyond seas, to be tried for pretended offenses;

For abolishing the free system of English laws in a neighboring province, establishing therein an arbitrary government, and enlarging its boundaries, so as to render it at once an example of fit instrument for introducing the same absolute rule into these colonies;

For taking away our charters, abolishing our most valuable laws, and altering, fundamentally, the forms of our governments;

For suspending our own legislatures, and declaring themselves invested with power to legislate for us in all cases whatsoever.

He has abdicated government here, by declaring us out of his protection, and waging war against us.

He has plundered our seas, ravaged our coasts, burned our towns and destroyed the lives of our people.

He is at this time transporting large armies of foreign mercenaries, to complete the works of death, desolation, and tyranny, already begun with circumstances of cruelty and perfidy scarely paralleled in the most barbarous ages, and totally unworthy the head of a civilized

He has constained our fellow citizens, taken captive on the high seas, to bear arms against their country, to become the executioners of their friends and brethren, or to fall themselves by their hands.

He has excited domestic insurrection among us, and has endeavored to bring on the inhabitants of our frontiers the merciless Indian savages, whose known rule of warfare is an undistinguished destruction of all ages, sexes, and conditions.

In every stage of these oppressions we have petitioned for redress in the most humble terms: our repeated petitions have been answered only by repeated injury. A prince whose character is thus marked by every act which may define a tyrant is unfit to be the

ruler of a free people.

Nor have we been wanting in our attentions to our Brithish brethren. We have warned them, from time to time, of attempts by their legislature to extend an unwarrantable jurisdiction over us. We have reminded them of the circumstances of our emigration and settlement here. He have appealed to their native justice and magnanimity and we have conjured them by the ties of our common kindred to disavow these usurpations, which would inevitably interrupt our connections and correspondence. They, too, have been deaf to the voice of justice and of consanguinity. We must, therefore, acquiesce in the necessity which denounces our separation, and hold them as we hold the rest of mankind—enemies in war in peace, friends.

We, therefore, the representatives of the United States of America, in general Congress assembled, appealing to the Supreme Judge of the world for the rectitude of our intentions, do, in the name, and by the authority of the good people of these colonies, solemnly publish and declare that these united colonies are, and of right ought to be, free and independent states, that they are absolved from all allegiance to the British crown, and that all political connection between them and the State of Great Britain is, and ought to be, totally dissolved; and that, as free and independent states, they have full power to levy war, con-clude other acts and things which independent states may of right do. And for the support of this declaration, with a firm reliance on the protection of Divine Providence, we mutually pledge to each other our lives, our fortunes and our sacred honor.
