It is your business whether you want to be eligible to vote or not. If you are between the ages of twenty-one and sixty you have to pay your poll tax or the election judge won't give you a ballot. That's the case whether its a bond election, Republican or Democratic primaries or general election. I'm not going to urge anybody to pay their poll tax, that's a matter of conscience whether you want to qualify as a citizen and exercise your right of franchise. I think as much of my right to vote as I do the right to express a personal opinion in this column, or my right to shoot my mouth off on a street corner. We talk about our American heritage, of which we are justly proud, but unless we qualify to vote, whatever the requirements, we are forfeiting the right to one of our most important birthrights as an American citizen. You have until January 31 to pay your poll tax.

Shirley Garrison and Carl King were in the News office Tuesday and they undertook the difficult task of teaching me a thing or two about the current government feed grain program. They never did get through to me with the intricacies of the program, but I did get their drift when they pointed out that, on the average, a farmer would realize from \$337.06 to \$699.62 less income on a hundred acres of milo, depending on the degree of compliance, this year as compared to last year's program. It's for sure that the cost of production won't be any less this year than it was last year, if anything it will be higher. These two factors don't make for a bright picture, agricultural-wise for the coming year. Something just has to be done and its up to the Department of Agriculture to do it, and soon. Officials of the Grain Sorghum Producers Association and county chapters of the Farmers Union will get together in a joint meeting in Dimmitt, January 24 to map a plan of attack on this problem. Secretary Freeman must make some changes in the feed grain program, the economy of Castro County and the nation is at stake.

### Betty Vaughan Is Candidate For County Treasurer

The News has been authorized to announce the candidacy of Mrs. Betty Vaughan for the office of County Treasurer, Castro County, subject to the action of the Democratic Primaries. In making her announcement as a candidate for the office of County Treasurer, Mrs. Vaughan declared, "I have been a resident of Castro County for the past eight years, and as my husband has been engaged in business since coming to Dimmitt, I have had the opportunity to become acquainted with many of the people of the county and I feel that they are in position to judge my qualifications as to honesty, integrity and competency. Given the opportunity to serve in the office to which I aspire, I pledge my every effort to honestly discharge the duties of the office to the best of my ability." "I will make every effort to see as many of the people of the county as possible, to personally solicit your vote and influence but in event I fail to see you before election date, please consider this a personal solicitation of your consideration of my candidacy for the office of County Treasurer." "I feel that I am qualified to discharge the duties of treasurer of the county as I have had twenty-five years experience in business bookkeeping. In preparation for that vocation I attended Texas Tech one year where my average grade was a B plus. I later completed a business course at Lippards Business College, Plainview, with an A average." CHAMBER DIRECTORS met at the Colonial Inn Restaurant Monday morning in an organizational meeting that resulted in the election of C. W. Anthony, president and Bill Bennett, vice president. Board members present for the meeting were from left to right, Jack Miller, immediate past president; Dr. J. D. Blackburn, C. W. Anthony, Bill Bennett, Ray Pool, Vaden Kirby, L. C. ### Wes Anthony Elected President County Chamber of Commerce

Wes Anthony stepped into the president's position Friday morning when he was unanimously elected 1966 president of Castro County Chamber of Commerce Board of Directors at a breakfast meeting in the Colonial Inn Restaurant. Jack Miller, retiring president of the board presided at the breakfast meeting of the board of directors. Bill Bennett accepted the position of vice president of the board after he was elected to that position Friday morning. Committee Chairmen reported to the Board some of the activities of Castro County Chamber of Commerce during 1965. Committee reports given during the breakfast meeting of the Board were as follows: Cecil Dennis, head of the Civic Betterment Committee reported that one of the main projects that the committee had been working on came to maturity when the contract to build a new Post Office in Dimmitt was let to an Austin Firm. According to Dennis, the Post Office building should be completed by around October 1, 1966. The Civic Betterment Committee has done extensive work on the pickle storage facilities that has bought land in Dimmitt to begin construction on the salting station sometime in February, 1966. Pete Wright, Chairman of the Grain Sorghum Beauty Pageant reported that the 1965 Pageant was a success. Twenty-three contestants entered the Pageant last year, and he reported that 73 people helped to produce the beauty contest. Lanell Lafon of Muleshoe was crowned "Miss Grain Sorghum of 1965" in last year's beauty pageant sponsored annually by Castro County Chamber of Commerce. Ray Pool, in a report said that the Chamber of Commerce is trying to push the building of U. S. Highway 385 from Prince Albert Park in the Artie Circle to Mexico City. Dr. J. D. Blackburn, chairman of the airport committee reported the committee's progress in building an airport in Dimmitt. He said that the committee spent a great deal of time last year looking for a suitable location to construct the airport. He also said that some thought is being given to the possibility of utilizing the old airport and adding a new airstrip. Al Jackson, chairman of the Retail Merchants Committee in Dimmitt reported the activities of the retail stores in Dimmitt during 1965. In the report, Jackson said that the Dimmitt merchants supported a George Washington Birthday Sale, observed National Cotton Week, and supported a Christmas program that the merchants started planning last September. One of the changes that the retail merchants made over last year's Christmas program was the location of the Christmas decorations. This year's committee placed the decorations on the Courthouse lawn, and had Santa Claus in the Courthouse on certain days before Christmas. The merchants also sponsored a Television drawing, Mary Rivera was the winner on the color TV given away by the (Continued on Page 13)

### Feed Grain, Wheat, Cotton And Cropland

### Sign-up For Agricultural Program Begins January 24

The Sign-up period for the 1966 Feed Grain, Wheat, Cotton and Cropland Adjustment Programs will begin on January 24, 1966 and closes on April 1, 1966. Feed Grain and Wheat Notices were mailed to all known operators on January 14, 1966. Producers who wish to appeal their yields or bases must do so within 15 days of the date of their notices. THE BASE YEARS TO BE USED IN COMPUTING APPEALS ARE 1962, 1963 and 1964 FOR FEED GRAINS, WHEAT AND COTTON. 1966 SUGAR BEET PROGRAM A request for a sugar farm proportionate share must be filed with the Castro County ASCS Office not later than January 21, 1966 by the operator of each farm desiring a 1966 sugar beet proportionate share. A request is required even though the farm will receive only National Reserve acreage. The procedure for establishing sugar farm proportionate shares for 1966 will involve the same base years and reflect the formula used in 1965. FILE WOOL AND MOHAIR APPLICATIONS EARLY Growers were urged today to file their applications for 1965 marketing year payments under the National Wool Act at the earliest possible date but at least by the end of January. The applications cover marketings of wool, lambs, and mohair during the calendar year 1965 for which all sales details were completed not later than December 31. Jim Elder, Chairman, Agricultural Stabilization and Conservation County Committee, points out that payments under the program will also be necessary on mohair sold during 1965. The payments represent the amounts necessary to bring the national average prices received by growers up to the previously announced incentive levels under the National Wool Act. The levels for 1965 are 62 cents a pound for shorn wool and 72 cents a pound for mohair; the incentive price for pulled wool will be at a level comparable to that for shorn wool. Since payments under the program are based on the national average prices for marketings during the entire year, it is important that sales reports be as complete as possible before the average price determinations are made. That is why ASCS is stressing application filings before January 31. Payments for the 1965 marketing year are scheduled to begin in April of 1966. Marketings completed after December 31, 1965 are considered as 1966 marketings and therefore will not be eligible for payments until early 1967.

### Poll Tax And City Taxes Due Jan. 31

Kent Birdwell, Castro County Tax Assessor Collector announced this week that 1966 poll taxes and city taxes for 1965 are due January 31. Only 1,175 persons have paid their 1966 poll tax to the present date. Last election year, Birdwell said that 2,650 persons in Castro County paid their poll tax. Birdwell urges all persons who are 21 or who will be 21 to come by the tax office and pick up their exemption certificate. Each person who wishes to vote with an exemption certificate must have the certificate at least 30 days before election. In speaking of those who are eligible for poll tax exemption, Birdwell said, "Anybody that was 21 on January 1, 1965 or later is eligible for exemption. All persons who were 60 before January 1, 1965 are exempt and do not need to pick up an exemption certificate." This year general election will be held in November. Primary election will be May 7. In Castro County this year, there will be election of two county commissioners for precincts two and four, county clerk, county judge, and county treasurer. Persons in Dimmitt may pay their poll tax at the Tax Collector's office in the Courthouse. Those in the Nazareth area can pay their poll tax at Al's Station and those in Hart can pay their poll tax at the Hart City Hall.

### GSPA FU Officials Meeting Planned

According to an announcement this week by Shirley Garrison, president of the Castro County Farmers Union, there will be a meeting of all county presidents of Farmers Union organizations in Districts 1 and 2. The meeting will be held at the Colonial Inn in Dimmitt, Monday, January 24, at 7:30 p.m. Also attending the meeting will be officials of the Grain Sorghum Producers Association, including Bill Nelson, executive secretary. Farmers Union Districts 1 and 2 embraces the Texas Panhandle and South Plains. The meeting of officials of the two agricultural organizations is being held to make plans for a coordinated effort to secure legislative changes in the feed grain program. Close analysis of the 1966 feed grain program, as it now stands, reveals that there will be a considerable reduction in income from the production of feed grains as compared to the 1965 program. Recommendations for legislative changes, resulting from the joint meeting will be reported in a later issue of the News.

The Pink Ladies have been working at the Plains Memorial Hospital since June, 1964. The Auxiliary besides furnishing coffee for the patients, hospital staff and visitors also raises money to buy needed equipment for the hospital. ### Dimmitt FFA Prepare Animals For Coming Livestock Shows

Now is a busy time of the year for Vocational Agriculture students. Within the next few months FFA members will be preparing their animals for the stock shows. The livestock shows the boys will have a chance to participate in are Hereford, Amarillo, San Antonio, Houston, Dimmitt, and Lubbock. The Dimmitt FFA exhibited livestock at the State Fair of Texas and are also showing animals at the Denver stock show this week. A lot of work is required to fit an animal for a livestock show. First, animals for this purpose must be cared for daily. This includes feeding, watering, exercising, and cleaning our pens. Just before a show, the animals are washed, clipped, and trimmed to make them look their very best to the person who may be judging them. The Dimmitt FFA has most of the essential equipment for fitting livestock. This equipment includes a wash rack, blocking tables, calf - hoof - trimming tables, shears, feet trimmers, and weighing scales for pigs and lambs. There is a lot of work that goes into exhibiting livestock but FFA members seem to enjoy it.

### Bible Thoughts

"JUDGE THE BIBLE BY ITS FRUITS"

by Ronnie Parker

In 2 Timothy 3:16 Paul asserts that "All scripture is inspired by God and is useful for teaching the faith and correcting error, for resetting the direction of a man's life and training him in good living. The scriptures are the comprehensive equipment of the man of God, and fit him fully for all branches of his work" (Phillips)

The proof of a thing can be seen by the fruit it bears. We believe the Bible and judge it by the fruit it bears. The power of the Bible as a perfected revelation has been exerted in man for nearly two thousand years. It has been perverted by man, corrupted in its teachings, destroying in part its influence; yet the Bible has been the only uplifting power among the nations of the earth. The only permanent good that has ever come to a people, morally, socially, intellectually, physically, or practically as individuals, families or nations has come directly or indirectly through the Word of God.

Without the word of God, man has sunk down in ignorance, in sin, in degradation. He has sunk physically, socially, morally, whenever cut loose from the uplifting and purifying power of the Bible. Indeed, the fruits of the Bible show that the eternal Spirit of God inspired the writings of its pages.

## Students Corner

Recently an English teacher in D.H.S. requested that his (or her) as the case may be) students write a theme on "This I Believe." It was to be on a subject which they believed in deeply. The students were assured their names would not be disclosed.

As you might expect some of the themes were quite thought-provoking, and we thought two of these were definitely worth printing. The names are on file.

## WHAT HAS HAPPENED TO D.H.S.?

Dimmitt High School was once an entirely different school. Not only was it different in the sense of the building itself, but the student body seemed to be different. Although I wasn't a student in the old building, I could sense a strong feeling of togetherness among the students. Our class, being the only class that did not attend school in the old building, seems to see this problem better than most students. I, being an eighth grade member of the high school band, could see this in the older kids with whom I associated. There was never a problem of school spirit. The students were always packed in at the ballgames. Everyone backed their team whether it was winning or losing. Maybe the uniting factor was the memories that were held in the old school. Or maybe it was the lack of adequacy in the old building. When it snowed, everyone froze together. When it rained, everyone swam together.

Today, we have a wonderful building in which to acquire our education, but the student morale is on a steady decline. The school itself is remarkably beautiful. We have wonderful classrooms, a beautiful auditorium and a fairly good gym. The only thing wrong with the gym is that it is not big enough. The students in the gym now. There is no more when we were transferred out here. The traditional pep rallies are no longer held in the "old" auditorium, but they are held in the gym now. There is not more heartwarming shouting of rank in the assemblies now. The faculty thinks it is immature and the auditorium is a place to be quiet anyway. Instead of being heartwarming, it is now heart-rending to the students.

Since the old building no longer belongs to the high schoolers, it is apparent that school spirit does not either. Should we give it up without a fight or a whimper? I do not believe this should be done. When other students visit our school, let us be proud of it. Do not let the exes come back and say, "I am embarrassed to have graduated from Dimmitt High," because of its present status in school spirit. Take advantage of the wonderful facilities, but do not get so engulfed in them to forget your duty to the students of yesterday, today, and tomorrow.

## Mrs. Avis Smith Selected As 'Teacher Of Week'

This week the "Bobcat Tales" is featuring one of Dimmitt High School's favorite teachers, Mrs. Avis Smith. She has taught World History ten of the thirteen years she has lived in Dimmitt. She also teaches Civics.

Mrs. Smith was born in Hutchinson County, Texas, on her father's farm which he homesteaded around 1900. Mrs. Smith attended school in Morse, Texas during the first grade, then her parents, Mr. and Mrs. T. I. Harbour, moved to Spearman, where she received the remainder of her education.

On August 16, 1947, Miss Harbour, married Ralph G. Smith of Hereford. In May of 1949, the Smiths graduated from West Texas State College. Mrs. Smith received her Bachelor of Science in History and Mr. Smith his Master of Arts in music education. The Smiths then went to Childress where he directed the C.H.S. Band for three years and Mrs. Smith taught for one year.

In 1951, the Smiths moved here, and the same year, Steve, the older of their two sons was born. Then in 1954, Rick was born. In 1955, Mrs. Smith joined the faculty of Dimmitt High School and has been teaching students the principles of democracy and how the history of the world was developed.

Thank you, Mrs. Smith, for being our teacher of the week.

## Freida And Gary Winkle "Seniors Of The Week"

Our seniors of this week are Freida and Gary Winkle. They are two hardworking students who have something to keep them very busy, a baby named Karen. She is a sweet little girl who provides much entertainment for her parents.

This couple provides a great deal of entertainment in the second period English IV class. Mr. Newman enjoys teasing them. Freida and Gary don't seem to mind the teasing though. That is an outstanding characteristic of both students; they are very good sports.

The Winkles are a valuable part of our class. They tend to add a sense of seriousness and maturity to our group.

One of the students said of Freida, "She is a very sweet person whom I respect. She's one of the smartest girls I've ever known."

A comment made about Gary was, "He is a fine person and I must say he shows great self-control while driving that bus." Freida and Gary will be missed next year.

Many times here in Dimmitt, people start stories about someone who has been ill or has just married. These people seem to think that a girl cannot get married without being pregnant. Also it appears that these people are unaware that there is any illness other than pregnancy.

This is the usual reaction of the teenagers and citizens regarding a marriage or illness of a less influential student. However, if a popular and active student gets married or is ill, nothing is thought of it.

In this school if a girl does not have money, looks, a figure, clothes, and a car, she is just out of luck. Everything in this school seems to be based on popularity, although this denied. If someone appoints a less active person to an office or something else all the elite seem to cast the poor person down. The elite student does not think about how capably the less influential person may fulfill that job.

When new students come to D.H.S., they say it's friendly. The new students say this because at first the old students of D.H.S. are friendly; but if one goes back and talks to the new students later, they will tell you that they do not like D.H.S. after attending it for some time. I have talked to several students that feel this way. However, if they were lucky enough to get into the popular group, they like D.H.S. Sure, why not?

Every week in the BOBCAT TALES the same people's names are seen. Those of lower socioeconomic status have dates too, but they are just over looked. The less fortunate students do not put their Ideal Boy or Girl in the paper or articles regarding their activities. Their names are not mentioned in Top Hits and Who They Hit.

Why are people like this? Does money give them the right or make them think that they can say and do anything and they can say to anyone that comes along even if it hurts someone?

I have tried to accept these students as they are and hope that they will accept me. Perhaps with God's help things will work out. I only wish that everyone including myself would remember "Do unto others as you would have them do unto you."

Some of these statements are pretty hard hitting, but I'm sure that if we sat down and thought about it, we would find they are right. I'm sure that we could improve our school all the way around if we followed the Golden Rule.

## Bobcat Football Teams Receive Sweaters & Jacket

Wednesday, January 12, was a very important day for the 1965-66 Bobcat football teams. In a special assembly the boys received their sweaters and jackets; head coach Brown L. Smith, commended the boys for their hard work and informed the student body that the sweaters and jackets are only a small token of appreciation. Coaches Bill Narrell, Roy Hunter, and Kenneth Cleveland assisted in giving the boys their awards.

Twenty-four eager freshmen received purple sweaters with a white "D" on the left side. This was the first year that the freshmen have been recognized in assembly.

White sweaters with purple letters were presented to the fifteen boys who made up the "B" team.

The twenty-seven varsity players received solid purple jackets with white letters, with a stripe for each year the boy has lettered. In past years, the jackets have had grey leather sleeves; this year the sleeves are the same color of purple as the jacket.

The new sweaters and jackets are very becoming, and the boys should be very proud of them. We agree with Coach Smith — they were made for the boys NOT for their feminine admirers.

The assembly was closed by the student body singing the D.H.S. Fight Song.

## DHS Promotes "Clean Up Vietnam" Campaign

The Journalism Department is again appealing for contributions from the men and boys who are fighting the war in Vietnam. This box, which will be outside the journalism room, will contain wash cloths, soap, toothpaste, tooth brushes, and antiseptic powders. These are necessary items that the people in Vietnam do not have. All of us know how good it feels to be clean, so please help us to "clean up Vietnam."

There will be posters in several places to remind you of the campaign. There will also be a place for you to sign your name if you would like to do so. In this way the people in Vietnam will know who is sending the articles to them. The journalism class will appreciate your contributions and your support as will the men in Vietnam who are fighting for our freedom. Let's show our appreciation to our country-men by sending them these articles.

## Campus Chat

Yesterday I got a phone call from a man who called himself R. C. Cola. He called to tell me he was to be married to a Sprite girl and was looking for a doctor who could give them blood tests. He insisted that he wasn't like his friend, who seems to be slightly alcoholic.

Mr. Cola's fiancée recommended another doctor, but he told her he wouldn't use anyone but good old Dr. Pepper; so he called me today. Having argued with him for over an hour, I finally agreed to come to his home.

On my way to Mr. Cola's house Friday night, I stopped off at the basketball game. There I saw Paralyn and Beelee, Evelyn and Robby, Donny and Juanelle, Kay and Stanley, Keith Ann and Mike, Vickie and Joe, Anita and Anthony, and Donna and Tommy. After the game I decided to visit the hootenanny also. Before arriving, I spotted Janice and Jack, Janet and Joe Don, and Vickie Powell and Mike Robinson. After searching vainly for Mr. Cola's house, I finally gave up and went home.

Saturday night I decided to go to the play, "The Diary of Anne Frank", before I began the search for Mr. Cola's home. There I saw Johnna and Richard, Vickie and Joe, Bob Bradford and Sue Lust, Mary and Kent, Gene and Poppy, Jean and Dan, Kay and Stanley, Janet and Joe Don, Kathy and A. D., Jackie Johnston and Joe James, Robby and Evelyn, Paralyn Render and Jacky Dunn, Donna and Tommy, Nell Wood and Tommy Tittle, Linda McGuire and Gary Gerber, Joanie Beavers and Dero Seargent, and Larry Hobratsch and a girl from Hereford. After the play I saw Mary Kirby and Anthony Mays and Carolyn Young and Dee Gibson. It was reported that Jan Willis and Eva Giles spent the week end in Lubbock after taking their S.A.T. test. Eva and Gary were seen together, and Jan had a date with Lynn Pendergrass. Once again I was unsuccessful in finding Mr. Cola's home. By this time I was getting a little suspicious of the whole mess.

Nevertheless, I again attempted finding him on Sunday night. I asked everyone I saw — Evelyn and Robby, Beelee and Paralyn, Keith Ann and Mike, Ann and Jerry Don, Linda and Harley, Vickie Powell and Mike Robinson, Johnna and Richard, and Joe and Vickie — but no one had seen him; so once more I gave up.

Learning that R. C. Cola was a former teacher, I decided to try there. I saw a beautiful display in the Home-Ec window; it featured purple, wine, and gold as popular spring colors; and I soon discovered that it had been done by Miss Cox, Donna Summers, and Linda Kuntz. Also I saw all over the halls signs, made by Mrs. Kuntz and Evelyn Waggoner, in support of the basketball team. It didn't take me long to conclude that the students and teachers of Dimmitt High School were hard-workers. Still searching for Mr. Cola,

## Views From D.H. Students Concerning Parental Discipline

The following story was suggested from a recent article in the Amarillo Daily News:

The Brown and Smith families lived next door in a small town. Both of the fathers had good jobs, the mothers did not work. Each had good homes and cars, and they both occupied good social positions. Both families also had three children.

Mr. and Mrs. Brown believed that their children should obey and respect them. They also thought that the home was the place to learn responsibility. They backed the school on all its policies and made sure that their children developed good study habits and made good grades. The children had reasonable care, few and were allowed to have friends in their home often; however, they had to clean up any mess they made. They sometimes protested their parents discipline; nevertheless, these three children grew up to be good citizens. They went to college, made good marriages, and became respected parents.

The Smiths raised their children in a much different manner. Since they wanted their children to have every opportunity possible to have fun, they never checked their actions. These teenagers could come home at any time of night and could run around anywhere they wanted in their own cars. Their parents wanted them to make good grades, but they didn't make them develop good study habits, and therefore their grades were low. These children had no respect for their parents as they refused to obey them, and they had no respect for authority or other people's rights and opinions. When they did get in trouble with the school or city officials, their parents would get them out of it instead of letting them get out by themselves. These children grew up to be dissatisfied and unhappy, and they couldn't adjust to the responsibilities of the adult world. The Smith boy wanted to be an engineer, but he only got into college with the lowest rating allowed. He flunked the first semester and

bed for a week's rest, vowing never again to fall for such a trick.

The Bobcat Tales Staff takes this opportunity to congratulate the Bobbies, Bobcats, and play cast on their excellent achievements of the past week. Also we would like to wish the basketball team the best of luck in the District games.

Don't forget the Journalism class campaign for soap, wash cloths, towels, etc. for the people of Vietnam.

Here's a report on the Home-Ec girls: The Home-Ec 4 girls are knitting this week. I wonder what they are making. The Home-Ec 3 girls are studying child-care. The Home-Ec 1 girls have been going downtown to study lines. There has been no report on the activities of the Home-Ec 2 girls.

Mr. Otte and several Ag boys left Thursday for Denver to attend the Stock show. They will be gone about a week. We wish the boys luck with their projects.

Don Ott has been in the Amarillo hospital with Meningo-Encephalitis, but he is recuperating at home at the present time. All students have enjoyed a one-day vacation while the teachers sweat at their task of grading tests and averaging grades for the first semester. Poor teachers; they surely have a rough time.

See ya next week.

## Johnna Hastings "Bobbie Of Week"

Behind every successful team there seems to be a successful manager. At every ballgame people will see a strawberry blonde running around and doing errands for the coaches and the Bobbies. This girl is better known to everyone as Johnna Hastings. This senior's main activity is plussing on week ends, but she has minor ones such as basketball manager, drama club, FTA secretary, and FHA. Activities in addition to being a very important member of the Bobcat Annual and Newspaper staff.

In her spare time she likes reading, listening to the Tijuana Brass, and being basketball manager. She plans to have fun this summer and attend college next fall. She is undecided on this problem, but we can hazard a pretty good guess as to which it will be. Johnna has been a leader in our senior class this year and many in the past. We predict she will be a success in whatever she chooses.

mature enough to completely control their own lives. Of course, they should make many of their own decisions, but they should feel that they have someone to depend on when they need help. Parents should fill this place."

"No. They grow up thinking they can get away with everything. They think they never have to work for anything."

"No. This is a well-worn question. Some parents contend that if they discipline their children, the kids will hate them. Most psychologists say that young people want to be disciplined and their rebellious actions are only pleas for their parents to punish them. Too often the child who is given a free hand to do as he pleases may go too far in the other direction and over discipline their children, but as a whole, most parents hit the happy medium and raise healthy, normal, well-behaved children."

"No. The children grow up to be irresponsible people who really can't succeed at anything. They are usually very unhappy individuals because they think they are unloved if their parents don't discipline them at all."

"No. All persons will have to undertake the inevitable task of accepting responsibility. Responsibility is taught by discipline — parental, social, and school. Lack of discipline and responsibility will eventually lead to a society of shiftless, incompetent bums."

"Either yes or no. A person should not be overly sheltered. Over-protected children tend not to mix well and also be very timid. But rules should be levied on children until they are responsible enough to be sensible about the way they use their privileges."

"No, because as the article shows, if they do, the children are frustrated and are unable to cope with life or their future. The Brown's children were disciplined, and therefore the Browns and their children were more rewarded."

It is obvious, from these comments that D.H. students want and expect some degree of discipline in the home and at school, even though at times they appear very rebellious. It is to be hoped that both parents and faculty members will read this very interesting and revealing article, and change some of their ideas regarding the responsibility of adults to young people.

## Dear Blabby:

DON'T GIVE UP  
By Oma Siler

Dear Blabby: I met a cagey fellow on the bus. He was courteous, very friendly and we had a date. That was four years ago . . . we've been dating regularly since, but I can't get this romeo to the altar.—HOPEFUL.

DEAR HOPEFUL: Your romeo either has multiple interests or he's having a long happy fling at bachelorhood. Make one of your dates a shopping spree with "hard-to-catch." Try looking at wedding gowns, baby clothes and new furniture and appliances at ALLENS HOME FURNISHINGS. Perhaps their famous brands will get him interested in starting a home . . . with YOU.—BLABBY.

# An investment in Your Future ATTEND CHURCH SCIENCE and GOD

Not too long ago, a man determined from accounts in the bible that oil could be found in certain areas of bible lands . . . now this country is rich in oil wells.

In the past, vigorous arguments arose between some scientists and bible scholars, however with the passing of time, new discoveries in science have helped us to have a better understanding of God's word and now most scientists and bible scholars are in accord. God's word has not needed to be proved, for it will stand forever.

"For the earth shall be filled with the knowledge of the glory of the LORD, as the waters cover the sea." ATTEND CHURCH AND STUDY GOD'S WORD.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Octettes From Lfd. Sing At Hootenanny

On Friday, January 7, 1966, the students of Dimmitt High School met after the Dimmitt - Hereford basketball game...

While the students and guests were eating brownies and drinking Cokes, they were entertained by the Octettes from Littlefield, Texas...

The girls have made numerous appearances. One was at a Texas Tech talent program. The group had an offer to make a record, but they did not want to be termed as professionals.

should become professionals they will not be allowed to participate in any high school activities.

The teens and parents enjoyed this group very much and we wish them the very best of luck in their future endeavors.

Kent Lindsey - It was different and I liked it very much.

Donna Dehtan - I enjoyed the entertainment and wished more could have been there to enjoy it.

Penny Hays - O-O-OH!! I liked it! I think that someday the group will be a big success!

Kathy Leinen - I enjoyed it very much. I wish they would come back very soon. They were great!! I wish them much success.

FFA Sweetheart Presented Jacket

The fifth regular meeting of the Dimmitt Chapter of the Future Farmers of America was called to order January 11, with the opening ceremony at 1 p.m. in the High School auditorium.

Ray presented the 1966 F.F.A. Sweetheart, Rochelle Johnston, with an F.F.A. Sweetheart jacket. In further business, Ray named a list of committees in preparation of the F.F.A. Banquet, which is to be held May 3, in the Vo Ag building.

An honorary member to the chapter was voted on, but the name will not be disclosed until the night of the banquet. Recently the chapter purchased a new Polaroid Land camera and a slide camera which cost the members \$175.

Mr. Otte informed the chapter that an F.F.A. Farm would be erected if a suitable location could be found and agreed upon. This farm would belong to the chapter place to keep a project.

The Shadow

Being a citizen of the state of Texas, you know how much the wind can blow and how terribly frightening it can be for anybody who tries to stand up against it. Well, if you were as light as I, you would really be frightened!

For protection I latched on to a boy last Wednesday whom I became quite attached to. I decided to stay with him for a while. He seemed very nice, and I was a lonesome shadow so I decided to become the shadow of this junior boy.

Wednesday night, my first night with my new master, I found that he needed to study. It is so much easier to study if one has somebody to study with, so my master asked this girl to come over and study. She accepted the invitation, so the evening was spent slaving over books.

My master went to school Thursday as everyone seems to do. After school I got my first basketball workout. Boy!! It seemed that all his notebooks and themes were due Friday, and it was plain to see that more hard studying was necessary. I went with him to study at a certain girl's house. Since it was ball game night my master went home and went to bed early.

Friday all of his assignments were turned in on time. Wow! Tonight was a big night. The Bobcats played Hereford in basketball. I was very proud of my master and all the Bobcats for winning the game.

Saturday was a lazy day and my master didn't get up until time for dinner. After dinner we washed his car. We once again went to see the same girl and got her to help us vacuum the inside of the car. Since his girlfriend had helped us clean his car to look shiny new, we all did something a little special; we went to the all school play, 'The Diary of Anne Frank'.

Sunday morning we got up and hurried to Sunday School. We went to get our girlfriend to go to church with us. After church we went home to eat with his mother and daddy, while our girlfriend went to eat with one of her friends. We went out to the gym after a big dinner and played basketball with Kent, Don, Jackie, Ronnie, Robby, and a bunch of other boys. We had a date with our girlfriend to eat after practice.

Monday morning it was very hard for us to get up, but we finally made it to school. This was the week for semester exams, who would want to go to school? We had another afternoon of basketball practice; it wasn't any easier than Thursday's. We went over to our girlfriend's house to study again Monday night. We left early and went home to get a good night's sleep for the game Tuesday.

Tuesday was a pretty regular day except we got on the bus at 3:30 with a whole bunch of other kids to go to Canyon for our ballgame. All the teams played good games and no one could say the bus was quiet going home. Me, my master, and Ronnie rode home in a car, so we missed the excitement of the bus ride home.

Wednesday, after basketball practice, my master and I went over to Kent's to study. We were to have the rest of our exams Thursday. This was my last day to be with my master. The wind was unusually calm, and I had to go on my own way.

Oh, yes, if you haven't guessed, I was the shadow of Tommy Stafford. You should all be careful for you never know when I may latch on to you to be my new master.

Bobcats Net Ten Victories

The Dimmitt Bobcats avenged as they breezed past the Canyon Eagles by a score of 62-52. The Bobcats trailed by a 10-17 score at the end of the first period but fought back to lead at halftime, 32-31. The 'Cats went on to build up their lead to 4 points going into the last eight minutes.

This was the third loss the 'Cats have avenged in as many games. Earlier the 'Cats defeated Tulla and Hereford. The victory for the Bobcats was the tenth in the last twelve games. John Howell and Bob Bradford have led the Dimmitt offense as Bradford is averaging 14.8 points per game and Howell has an average of 12.7. The 'Cats, with the victory over the Eagles have taken five wins over Class AAA schools. Besides the three latest victories, the 'Cats have defeated Muleshoe twice.

The 'B' team won their game over the Eagles behind the 15 point scoring of Ronnie Hutton.

The Dimmitt Bobbies had as much luck as the 'Cats as they downed the Canyon girls by a 61-27 score. The Bobbies also overcame a first period deficit to lead at halftime by a 29-15 score. Debra Summers led the Bobbies with 20 points and Pam Sternburg had 10 for Canyon.

Friday, January 14, the 'Cats and Bobbies open their District play as they meet the Olton team in the Dimmitt gym. We would like to wish the teams the best of luck throughout the conference race.

Future Homemakers Conduct Business Meeting

The Future Homemakers of America held a short business meeting Tuesday afternoon in the homemaking sewing lab. Plans for the Foreign Exchange panel were discussed because of a sudden change in plans. As plans now stand, there will be an exchange student from Bovina; Claudio, our own student from Italy, and Miss Chetinkaya, but plans have been made to contact students from other neighboring towns. Plans for a world dinner have been discontinued.

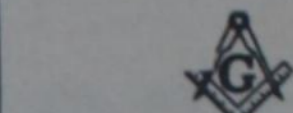

The suggestion was made that the program for February be changed because of the number of hootenannies the students have participated in recently. If there are any suggestions, please contact Penny Hays, Mary Hays, or Johnnie Holcomb.

Next on the agenda was the election of a girl from the Big and Little Sister Chapters to represent the club in the Annual Queen Contest. Those chosen were Mary Lynn Hays from the Little Sister Chapter and Vickie Beyer from the Big Sister Chapter. The F.H.A. girls would like to wish these girls good luck in the contest.

The highlight of the meeting took place when Eva Giles presented Mrs. Hottel with a few gifts of appreciation from the two chapters. Mrs. Nelson presented her some gifts from several of the women on the faculty.

To Mrs. Hottel, the F.H.A. girls would like to say thank you for being such a great homemaking teacher and friend and we wish you the very best of luck with the new addition to your family. The meeting was adjourned and

we reported to our sixth period classes.

 The Medco Sonilator is purchased. That's the machine that pinpoints the X-rays so you aren't over-exposed. Your subscribing to Operation Christmas Greeting did it. The cost will be subtracted from the \$387.80 when we get the invoice, then we're thinking of buying a positive pressure machine. Modern medicine is miraculous.

Plans are being made for the Awards Banquet. The committee is: Jennie Miller, Chairman; Jo-die Lippard, tickets; Nell Copeland, decorations; Jerry Butler, invitations; Kate Burkett, program chairman. The Banquet will be held around the middle of February, depending upon the time we can reserve the facilities for it.

The monthly meeting took place at the usual time and place Wednesday, January 12. The Christmas Gift Show earned \$335.60; the rummage sale, \$313.18.

The Licensed Vocational Nurse School will begin in May. The Auxiliary is financing \$450.00 of it. Books and a tape recorder have been purchased. Our funds will go toward acquiring a life-size chase doll and anatomy charts. Much study and planning is going into this project which

will be on a yearly basis. There is a new procedure to learn for the Central Supply team. If you don't know about it call your leader! Jane Blackburn.

One of the nicest bits of business was making Mrs. Edna Lippard an honorary member for the many, many hours of hospital mending she has done.

Anyone who has a morning or afternoon a month to spend in helping at the hospital would be most welcome in the Auxiliary. Call Jo-die Lippard or me. We're in the book.

### LETTERS TO THE EDITOR

Dear Editor:  
 The last time I wrote you I asked you to kick over a few tumble-weeds till you found Joe Cowen and Jack Cowert then catch and hold them till they promised to put some of their thinking in print so that we can all enjoy the same. Russell Moran is also interesting to think with and to talk with even if he is a Republican.

Some of the most interesting people I ever knew are on the other side of the fence from me in politics, religion, and philosophy. Some of the most disappointing people I ever knew have same view points on the same subjects or at least they claim to have.

If you squawk when this hits, you I know I have your range and drift so I will let you have it in a big way. You may not like some things I have to say.

Guess there are a few ex-navy men in the county that will know what range and drift means.

### SPORTS AFIELD

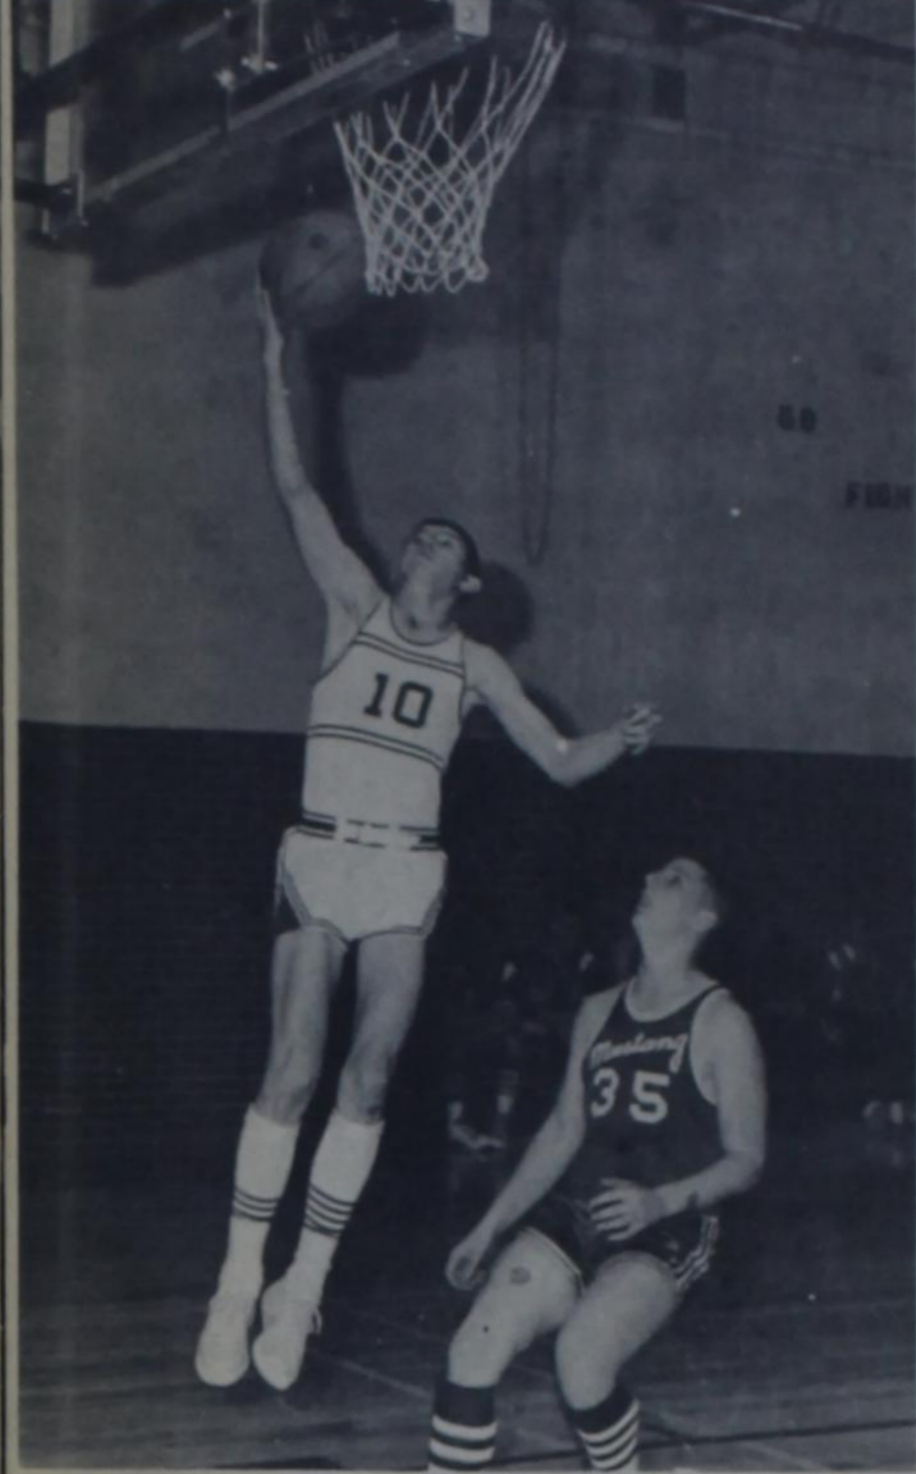

By Ted Kesting

Educated whitetails that know there is trouble when they see a man leaning against a tree; deer that can walk across dry leaves without noise—two reasons why there are more whitetails now, according to some naturalists, than in the days of the pioneers. For the white-tailed deer has proved that it is able to adjust to civilization and reproduce, even in our land of disappearing wilderness, perhaps better than any other wild animal with the exception of the gray squirrel and the opossum, reports Jack Denton Scott, Roving Editor of Sports Afield Magazine.

Although the unholy combination of burning and chopping has destroyed much of our woodlands, these two devastating actions have actually aided deer—especially the whitetail, which thrives in lightly wooded places with open areas. Here there is usually some kind of pasture. Burned-out ground sends up new green shoots. Grass and weeds and browse of all kinds grow where trees have been cleared. In the report of a careful national census taken in 1961, it was stated that nearly two million deer had been bagged that year, the majority whitetails. How many had warily evaded the army of part-time hunters is anybody's guess, but the figure must be astounding. The range of this big-game animal that promises to be with us forever is most of the United States and southern Canada.

Whitetails range west to parts of Arizona, Utah and Washington, south to the Florida Keys and even in Central and South America. With the exception of the Coues, often called the Sonora dwarf whitetail, the white-tailed deer in this enormous area belong to one species—*Odocoileus virginianus*. Although the subspecies of whitetails may differ physically because of environmental influence, running from the big buster of the north country that often goes over 200 pounds to the more slender and faster deer in Florida of half that weight, the animals all carry the same brain and talent for survival. Summer coats also differ with habitat, confusing some as to the whitetail's identity—ranging from a rosy chestnut in the Northeast and Canada to almost slate-gray in southern and western states. But generally, in much of his range, the whitetail is quickly identified by his almost red coat, his tail colored the same as the coat on top and a pure, startling white underneath—the flag that named him.

The whitetail starts life as a four-pound tottery-legged weakling, usually born in late May or early June, probably a twin. It is not unusual for a whitetail doe to have triplets, but the norm is two. (Another reason the whitetail will be around for a while: it is believed that every normal doe, with her offspring in turn reproducing, brings forth 100 progeny in ten years.)
