# Bold New Materials Used for 'Coverings'

**By IRENE KEATING**  
Home Demonstration Agent

I attended a very interesting and informative meeting on FOCUS in Amarillo Thursday and Friday.

FOCUS is the new way of setting up extension home economics programs that are being used nationwide. There are five major areas of concern and all kinds of subject matter can be included in each.

These areas are family stability, family health, consumer competence, family housing, and community resource development. You will be hearing more about these later.

**★ THIS WEEK is National Farm Safety Week.** I hope you are all careful all year. Don't wait until an accident happens before you remove those hazards around your farm and/or home.

Max and I are looking forward to attending the Frio 4-H Club picnic Friday night. This is the meeting all the members look forward to all year.

**★ Do-it-yourself fans,** here is a good idea for you. Slip covers can set the stage for a complete redecorating job in any room. They can dictate the color scheme or add interesting patterns, or even introduce a bold new design.

Slip covers can be designed to call attention to certain furniture pieces, while putting others in the background. Covers in similar fabrics can be used to tie together unrelated pieces of furniture.

**★ THEY CAN add style and flair** to an uninteresting room and at the same time protect delicate fabrics or hide worn ones.

Firmly woven fabrics are recommended for sturdy slip covers. There is a wide choice of colors, textures and weaves from which to choose. Your choice should fit in with your decorating scheme, so decide on the mood or character you wish to create in the room before selecting the fabric.

Choose light, clear colors for a lively, lighthearted room; smooth fabrics, such as polished cottons and damasks, for a feeling of elegance; and rugged fabrics in strong colors for a room where furnishings receive hard wear.

**★ ON THE practical side,** pre-shrink the fabric before you start making the slip covers, and be sure the fabric is colorfast. New finishes that repel both water and air-borne stains and resist wrinkles are available.

Pay attention to details of slip covers. The trim or extra touch can make slip covers distinctive and individual.

**★ FOR THOSE of you who are interested** in the latest from the clothing world, read on. New on

**★ VFW Ladies Vote To Make Presents**

The Ladies Auxiliary of VFW Post 8056 voted last week to make gifts for the sick and conduct a bazaar later.

A workshop to make gifts will be held in the home of Mrs. Georgann Derrick, with the date to be announced later.

**★ MEMBERS also voted** to move their meetings back to the VFW post home. The auxiliary meets the second Tuesday night of each month at 8 o'clock. The July meeting was in the First State Bank community room.

Mrs. Hazel Calhoun, newly elected president, appointed a house committee of Mrs. Eupha Mae Griffin, Mrs. Georgann Derrick and Mrs. Florene Leinen.

**★ SS Field Man Slates Visit**

A field representative of the Social Security Administration will be at the Castro County Courthouse in Dimmitt Wednesday to help residents with any matters relating to social security.

**★ HIS OFFICE hours here will be** 9:15 to 11:15 a.m.

Those wishing to conduct Social Security business may also visit the administration's office in Amarillo, which is located at 1006 Adams St. and is open from 8:15 to 4:30 Monday through Friday and until 7:30 p.m. on Thursday evenings.

Many of the new "faces" you see on these familiar fabrics are results of research by the US Department of Agriculture — the development of chemical finishes to make these fabrics easier to care for, more comfortable, attractive, and durable.

**LEARNING HOW** to yell at Texas Tech this week are Dimmitt High School's cheerleaders for 1967-68. In foreground, from left, are Doricell Oldham, a junior, and Kita Struve and Poppy Byrnes, seniors. In background are senior Rochelle Johnson, freshman Jill Braafladt and junior Anita Cameron. The girls earned part of their tuition for the one-week school through bake sales. They'll return Saturday, and will be the honored guests at a fund-raising "Cheerleaders' Homecoming Dance" Saturday night at the old Catholic Community Building, sponsored by the Jaycees.

**Teen Dance Set Saturday**

Dimmitt's Jaycees will sponsor and chaperone a teen dance Saturday night, pegged as a "Cheerleaders' Homecoming Dance" in honor of DHS's pep leaders, who will arrive home that day from a week-long cheering school at Texas Tech.

**THE DANCE** will begin at 8 p.m. in the old Catholic Community Building in East Dimmitt. Admission will be \$1 per person, and all high schoolers in the county are invited.

Music will be furnished by the Tyrants, a popular string combo of Friona High School boys. Soft drinks will be served, and four Jaycee couples will act as chaperones.

Proceeds will go to the DHS Pep Club fund.

**4-H Workshop In Electricity To Begin Today**

A 4-H electrical workshop will begin today (Thursday) at 2:30 p.m. in the assembly room of the courthouse, according to Charles Hottel county agent.

Leader-instructor for the group will be Lewis McDaniel of Southwestern Public Service Co.

**THE GROUP** will meet several times in the afternoon and study basic principles of electricity. Each member will work on an individual project.

4-H members interested in electricity are urged to enroll in the project. Also, youths who would like to become 4-H members are urged to attend.

For further details, call the extension office, 647-3455, or Southwestern Public Service, 647-3191.

**Mrs. Williams Hosts Children**  
Visiting last week in the home of Mrs. J. C. Williams were her son and daughter-in-law, Mr. and Mrs. Pat Williams and Karen, and grandchildren Stevie and Pamela Williams, son and daughter of Mr. and Mrs. Glenn Williams of Vinita, Okla.

**What's Your Best Beef Bargain Now --- The Retail Cut, or the Quarter?**

What's the best way to buy beef at the consumer level? **THERE IS NO** set answer to the question of whether or not it pays to buy beef by the side or by the cut, Dr. Ed Uvacek, Extension livestock marketing specialist at Texas A&M University, says.

A USDA Choice carcass advertised at 45 cents a pound may look good, but the consumer should examine the real cost comparisons of such an undertaking. These facts should determine if it would be profitable for you to rush to the store and buy a quarter or half a carcass.

The beef carcass is not all steak and roasts. In fact, only about 50 percent of the carcass is steaks and roasts, with the

other 24 percent miscellaneous cuts. Twenty-six percent of that carcass is lost in bone, fat trimmings, shrinkage, cutting loss, and waste.

On the average, it takes 2.25 pounds of a live Choice grade steer to yield one pound of salable beef in the retail store, Uvacek points out.

**TO FIGURE** your total average cost, multiply the percentage of the carcass (see final paragraph) by the price of that cut in your local meat market. Add these individual costs together and divide by 74 percent, since 26 percent of the carcass is waste. The result is the total cost.

To compute the price of a side of beef, divide the price per pound by 74 percent which is the

yield of salable beef cuts. To this price add about five cents per pound for storage costs.

Several important factors may further affect your decision to buy retail cuts or a wholesale portion of beef, Uvacek says.

**1. SINCE THESE** figures are based on average yields for Choice beef carcass, remember that yields could be higher or lower in individual cases.

**2. Make** sure you are comparing the same grade beef in each case. The difference between US Good and US Choice is a big one in terms of price and satisfaction.

**3. Watch** for specials.

**4. A large** outlay of money is required for most carcass purchase.

**5. Some** cost should be allocated to the interest on this big investment.

**6. Most** retailers guarantee their meat products.

**7. PROCESSING,** cutting, and wrapping are assumed to be included in the price quotation for the carcass. Often, however, it is an extra charge.

**8. Storage** costs vary tremendously and depend upon the number of times a freezer is refilled.

**9. Convenience** in each case is difficult to assign to either situation.

The forequarter consists of four cuts in the following percentages: rib roast, 6; chuck roast, 15; ground beef, 12; and stew meat, 5. The hindquarter consists

of six cuts in the following percentages: T-bone, porterhouse, and club steak, 5; round steak, 11; rump roast, 4; sirloin steak, 8; ground beef, 6; and stew meat, 2.

# French Youths Visit Morans

By **MRS. MYRTLE SHEFFY**  
Patrick Bompont of La Rochelle, France and Francois Guyon-nau of Poitiers, France, were guests of the Russell Morans for two days and attended church in Dimmitt.

The young men are business administration students touring the states. They attend the same university in Poitiers as Michele Bertonau who lived with the Morans while an AFS exchange student here. Russell and Myrtle Lois showed the young men the Bruegel's elevators, the First State Bank and the Dimmitt Feed Lots west of town. Patrick and Francois also visited A. J. and Jean Kemp in Fort Worth. A. J. showed them a real working ranch. Let's get more tourists here and do a Texas brag.

**MR. AND MRS. Sid Perkins** of Amarillo visited her parents, Mr. and Mrs. Wes Brown this week. Mrs. Perkins is the former Jan Brown, and Sid is a well-known square dance caller and is with Jack Gladman (Cookbook Bread) in Amarillo. He has been on the route for Bob West while he and Earlene were on vacation.

**KEITH ANN Howard** is home for a few days' visit with her parents, the Keith Howards. She told me that she is studying voice, piano and English at UT in Austin; and she has also been singing at dinner clubs and modeling dresses for a big department store in Austin.

Recently at the supper club Keith Ann was soloist. Among the guests were Luci and Pat Nugent.

Bob Payne, Austin talent agent, books engagements for Keith Ann and is an associate of Liberace. Diane Rodgers of Midland, granddaughter of the Jimmy Rawlings will be the roommate this fall with Keith Ann.

Stanton Calvert, student at UT, sends greetings. Greg the small brother from here is visiting Stanton this week.

**LINDA DAVIS** has gone back to UT in Austin for the late summer session of school.

Seen shopping in Dimmitt was Mrs. James Carson of Boise City, Okla., with her sister, Beth Stansell, who teaches school here. Both girls visited their parents, the Tom Stansells in Olton this week.

Rev. and Mrs. Darris Egger and son Charles visited last week with the M. E. Cleavingers and the pastor of the Methodist Church at Sweetwater. Their son Darris Jr. is in Viet Nam.

Mr. and Mrs. Garvin Patterson of Yuma and Bobbie Ruth Hill of Hart are visiting the Jess Wootens, south of town.

Mrs. Raymond (Katy) Ross is in Denver visiting her daughter, Mrs. Joe Stockart and family. Their son, David, is in school at Texas Tech.

**VISITED WITH Sybil Nell Moberly** and her daughter Peggy Gilbreath Curtis Tuesday. They were up to visit a few minutes with J. M. and Grace Wright. They live at Hobbs.

Allie Mae Willis and her mother, Mrs. G. L. Willis Sr., bought a new green Cadillac Wednesday. They and the Goodwin Millers went to Hobart, Okla., and picked up a cousin, and all will go on to Oklahoma City. Allie Mae says it is just a fun trip.

Mrs. Jack Keim of Tulsa was here one day visiting her friend, Mary Frances McCaughy.

**MR. AND MRS. Jack Clendenon** and Mr. and Mrs. Jack Boren of Lubbock spent the weekend with Boren's mother, Mrs. Margaret Boren.

Rev. Hugh and Elsie Blylock of Borger visited recently with Glen and Koma Ratcliff. Hugh is pastor at Wesley Methodist Church there.

Mrs. Charles Joe Morgan, David and Carol of Bonham are visit-

ing a few weeks with her parents, Mr. and Mrs. Norris Wesson.

Ruby Mae (Mrs. E. V.) Hallford Jr. has been visiting her parents, the Ira Clingsmiths, this week. Ruby Mae has a letter from Pia Nasman, former AFS student from Denmark, who is now married and is a model for a Danish fashion store.

**MRS. JACK GREGORY** says the Genealogy Society is making a new record of the cemetery. Many of the names have worn off and need to be replaced.

The record will be permanent and placed in the county library. Allie Mae Wilis is president.

The Oscar Wiley fishing hole north of town is becoming famous. People call me about it now. Perhaps that is an idea for the county — make a good fishing place.

Jeanine Wimberley and Nelda Thomas spent last weekend at G'rietta, N.M., at music camp. Jamine was the "Guinea pig" in a solo repertoire class. They did much singing and had fun as well as work.

**CAROL DYER** and Rosalind Nelson, both teachers here, are in San Angelo this week attending vocational education workshop.

This is not a fun trip. And Marion Lee is in Oklahoma attending classes in the Head Start program. She teaches in Dimmitt also.

Dick Dyer (the golf player) and David Skinner and their Canyon guests attended the musical pageant "Texas," in Palo Duro Canyon Friday evening.

Mr. and Mrs. Russel Nelson attended the reception at the Amarillo AFB Officers' Club Saturday night for friends. This party was hosted by Dr. and Mrs. Scholemer. The Nelsons lived in Amarillo a few years ago.

The Goldman Dyers visited his small part at Floydada Saturday evening.

**MR. AND MRS. Earl Shepard** and Dixie King of Bryson visited Virginia and Cecil Crum this week. They picked up Jane Pollard and children, then went on to New York to visit Jane's sister. They stopped in Cincinnati, Ohio, where Rev. Frank Pollard was in a Baptist Crusade. He went on to New York with them. Jane and the girls are Cecil's cousins "four times removed."

Saw Dorothy Ott at the Gross shower. She says she and Bob have bought the Ott farm west of Sunnyside, north of Earth. They and son Don have moved down there.

Mr. and Mrs. Harold McColum and son Anthony are home from a trip to the eastern US, where they visited relatives, then went on to Canada to see "Expo 67." They stopped in a town near Toronto to visit Pat and Troy Warren, children of the Ed Brocks. I am so envious of the "Dimmitt Gypsies."

**I HEAR THAT Pete** and Suzie Wright and sons are moving soon to Port Lavaca, near Corpus Christi. Pete will still be associated with the Soil Conservation Service. Sorry to lose so many of our folks, but maybe someone else will move in.

Verdove Gayle of Denver, Colo. has been a guest of his sister, Mrs. Lynette Rials.

Mr. and Mrs. Roy Conard of El Paso and Mr. and Mrs. Ray Conard of Oklahoma City were here to visit Tex and Norma Conard.

**MRS. LOIS YOUNG** returned from Roff, Okla., where she attended the funeral of her oldest brother, Mr. Simmons. She also spent a few days with her son, George and family in Tulsa. The Youngs have a new granddaughter, Dana Michelle. The older child is named Kevin.

Mrs. Ann Singer spent a few days at Clayton visiting her sister, Grace Loudder. Her son, El-

ton, is well now after a long stay at Roswell and here recuperating from a sick spell while enroute to Ruidoso.

Mrs. Doyle Martin, Tim and Vanessa of Altus have been visiting her sister Mrs. Rex Sheffy. The girls and children went up to Denver to see Dr. Cilla and Bob Storrs. They made a side trip to the zoo.

**ROY CHURCHILL**, 16, of Fort Worth, is a guest of his friend, Ray Pool, for a few weeks. He says he will do some "car hopping" while here.

Oh yes! I didn't look good enough at the George Sides house. It is not red brick — it is of pretty reddish Tennessee orchard stone. The den fireplace is of the same soft color stone. There were so many folks out there for me to talk to that I didn't get a good look at the walls, etc.

We and the Richard Bills went over to Earth for Mexican food Saturday evening. We saw the Earl Moores, former Flagg folks. He is still in a wheel chair from a car wreck three years ago. Saw Kenneth Fuller in church Sunday. Nice for him to be out of the hos-

pital. He wears a neck brace. And Elton Singer is at his job after a two-month "rest" in a Roswell hospital.

Noel and Oleta Gollehon went up to Conchas Lake for a few days' fishing, and Dr. and Mrs. Dennis Blackburn and boys are home from a three-week trip here and there. I hear that "Dr. 16" took care of his patients while he was away.

**YATES AND Jean Patton** of Carlsbad were here for a visit with her mother, Mrs. Thomas, and his aunt, Mrs. Horace Carlile. Their son Robert went up to Denver to enter college there.

**MR. AND MRS. Doris Smiley** were hosts at a hamburger cook-out Saturday night. Bridge was played later by Mr. and Mrs. J. R. Brown, Mr. and Mrs. Gary Heller of Canyon, Charles Finley of Odessa, Suzie Davis and Aural Davis.

The Duplicate Bridge Club meets each Monday night at the community room of the Bank. Last meeting there were eight tables. The Carvers from Here-

# Don't worry.

There's a lot of confusion now about the validity of customer's drafts and counter checks after Sept. 1.

Under a new Federal Reserve Bank ruling, effective Sept. 1, banks are required to have their Federal Reserve System number encoded on all their checks in magnetic-ink IBM numerals.

This is to allow the computerized sorting of the millions of checks and drafts that are processed through Federal Reserve branches, clearing houses, and banks that are "on computer."

The same ruling urges you to use encoded personal checks only, and it discourages the use of counter checks. In many areas, customer's drafts will no longer be available after Sept. 1.

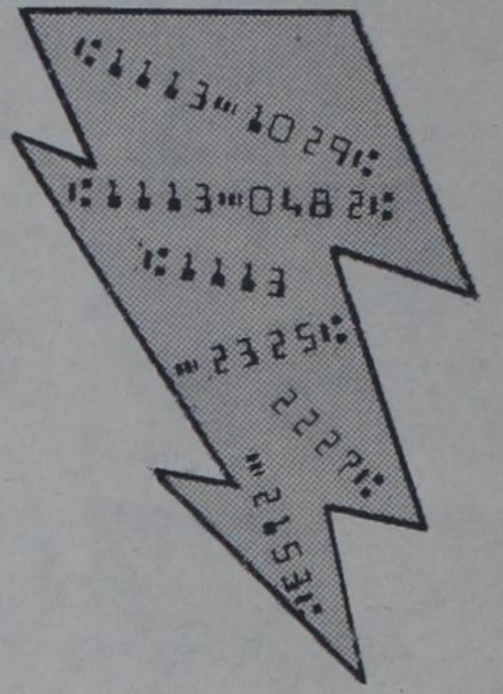

**But if you're a First State Bank customer, don't worry.**

Our counter checks will still be usable after Sept. 1. Our FRS number has been encoded on our counter checks for more than a year now. All our checks complied with the new standard before it was set.

Also, we have a big supply of encoded counter checks from all our neighboring banks, and we'll gladly distribute them to any and all businesses here. They're as good as personal checks at their home banks.

And as an added service, First State Bank has purchased an encoding machine that can make any bank draft conform to the new ruling. With this machine, we can encode the FRS number of any bank in the US, and make any draft computer-ready.

**So if you're a First State Bank customer, remember: When you find yourself without a personal check on hand, our counter checks are good. You'll find them throughout the area, and any bank will accept them.**

And if you're a stranger in First State Bank territory, remember: Your personal, encoded check is always valid. If you find yourself without a personal check, look for an encoded counter check on your home bank—we'll accept that, too. If you can't find an encoded counter check, chances are that First State Bank will have one. If we don't have, we'll encode one for you.

We realize the necessity of computerized check processing in this credit age. But we also recognize an opportunity for service when we see one—and personal customer service is what built our bank. We'll still accept a check written on a one-by-six, if that's the way you want to write it.

**First State Bank started on the strength of a man's signature and handshake. We intend to maintain that tradition. When you deal with First State Bank, the computers will serve YOU.**

**Goods Needed for Girlstown**

By MRS. J. T. STEHR 647-4221

Mrs. Don Gilreath plans to go to Girlstown soon. If you have anything to send, it would be appreciated if you would take it her house or to the Dan Heard home.

Now is the time to be making an extra jar of jam or jelly while the fruit is ready, to be sent later. The gallon jars that vinegar comes in, which use a regular size top that can be sealed, make nice containers. After all, 70 girls will eat quite a bit of jelly at one meal. So the larger the jar, the better. They still need stamps, also.

**TERRY COX**, brother of Mrs. Delbert Timmons, has returned to the states from Korea, where he has been stationed several months. He is visiting his family for a few days. Mrs. Timmons went to Amarillo early Saturday to meet him at the airport.

**HOUSE GUESTS** in the Hubert Edwards home recently were two granddaughters, Debbie Tunnel from Amarillo and Beverly Edwards from Vega, both 7. It is anyone's guess as to who was the most entertained, the girls or the grands. They took the girls to the Clovis Park for an outing while here.

Debby Love, niece of Mrs. Ralph Yerby, came with friends who were coming to Heford and visited several days with the Yerby family. She returned to her home at Cedar City, Utah, with the same friends.

**CUCUMBER HARVEST** is finally getting into top gear after rains caused a month's delay, and Junior Rosa (left) and Luis Gazares are right in the middle of it as they hand-pick top quality cucumbers at the Robert Benton farm west of Dimmitt. Elvon DeVaney, manager of Western Vegetable Co., operations here, said the "pickle

plant" is now processing an average of 60,000 pounds of cucumbers a day, and that the harvest should reach a peak of 150,000 to 200,000 pounds per day in two more weeks. Rain-prompted weeds are creating a problem for pickers in most fields, but quality and yield are good, DeVaney said.

## New Grain Virus Suspected Here

A disease new to West Texas is suspected in some corn and grain sorghum fields.

**THE INVADER** is believed to be maize dwarf mosaic virus (MDMV), says Dr. Robert W. Berry, extension plant pathologist at Texas A&M University's South Plains Research and Extension Center at Lubbock.

Fields heavily infected with the suspected virus have been found in the Hereford area as well as in parts of Parmer, Castro, Dallam, Moore, Donley, Hale, Crosby and Floyd Counties.

**INFECTED** plants show a mottled mosaic pattern of light and dark green on the new leaves as they emerge from the whorl, Berry explained. In grain sorghum, infected plants will turn bright red or reddish-brown in cool weather. In corn, however, the mottling is primarily brown.

Grain does not develop normally in crops infected by MDMV, the pathologist pointed out. On corn, only a few grains may form on the cob while grain sorghum heads may be practically sterile.

This particular virus was first uncovered in South Central Texas last year in sweet corn, and losses ranged from 10 to 50 percent.

**THE VIRUS** overwinters in the rhizomes of Johnson grass and is transmitted by aphids, Berry said. As the tender shoots of this grass emerge in the spring, the aphids begin feeding, acquire the virus and move to susceptible crops where they transmit the disease.

There appear to be some varietal differences, Berry added, but all varieties examined in the area

# Youths Are Injured In Separate Mishaps

By Mrs. Owen Andrews  
Van Mason, son of Mr. and Mrs. Gary Mason, was painfully burned last Saturday while starting a campfire with gasoline. His own presence of mind and that of a cousin in putting out the fire seem-

ed to account for keeping the accident from being even much more serious. Van spent Saturday night in the Hereford hospital and was improving this week from the burns on his hand and blistered face.

Kim Gripp is doing nicely, following his accident last week. He was released from an Amarillo hospital Thursday, and was taken to his grandmother's, Mrs. A. G. Gripp at Conway while Mrs. Spicer Gripp, Kim's mother, was keeping a medical appointment at Pampa. They all came home Saturday.

Mr. and Mrs. Wallace White, Brenda, and Rhonda of Biloxi, Miss., arrived Thursday to visit her mother, Mrs. E. B. Berryman, and sister, Mrs. Clark Andrews and their other relatives here. The Whites sons, Gary and Mike, have been here visiting since the first of June. The Whites came a little earlier than planned because Gary received a broken leg last week in an accident while riding a tractor. He spent Tuesday night in the Hereford hospital and was taken to the home of his grandmother Wednesday morning and was doing fine.

★  
**MR. AND MRS. Elza Warrick** visited Mr. and Mrs. Newt Lawson at Granfield, Okla., Sunday. The Lawsons are former residents of this area.

Mr. and Mrs. Glen Reeves of Friona visited the Sparkman families Wednesday. They also went to the hospital to see her uncle T. L. Sparkman, Sr.

Mrs. Harlan Barber and Virgil returned Tuesday from a four-day trip. Mrs. R. G. Alexander of Abernathy accompanied them to Kerrville, where Mrs. Alexander's daughter, Jan, has spent the past six weeks as counselor in Camp Arrowhead, an exclusive camp of junior and intermediate age girls. Miss Alexander had completed her service there and accompanied the group on to San Antonio, where they visited points of interest before returning home.

Jack Andrews called his wife, Anra Ruth, and his parents, the W. H. Andrews, on Thursday night that he would sail with the crew on the USS Matthews Friday morning, bound for Hawaii.

★  
**MRS. H. M. MOBLEY** visited her brother, J. W. Taylor and Mrs. Taylor during last weekend.

Here to visit the Co'es are Ralph Co'e and sons David and Stephen of New Orleans and Thurman Cole of Yuma.

Mrs. Lee Roy Williams of near San Francisco has been here to visit her "in-laws," the Bill Williams family. Lee Roy is on duty with the Coast Guard. The two Mrs. Williamses and the daughter, Mrs. Travis Stafford and Kim of Amarillo visited their relatives at Lubbock while she was here.

**UNEVEN MATCH!**—Seventh grader Ronda Tidwell of Dimmitt Junior High School tests her skill on a borrowed tuba at Texas Tech's Summer Youth Music Camp. The 65-pound daughter of Mr. and Mrs. M. A. "Buster" Tidwell outweighs the big instrument by only 25 pounds. She welcomed the chance to get back to her smaller alto sax, the instrument she hopes to play for Dimmitt Junior High's band this fall.

## 426 Students In Tech Music Group

The Texas Tech music faculty is busy with 426 junior high and high school students from four states who are taking part in Tech's Summer Youth Music Camp.

The two-week camp, which began July 18, spread to various parts of Tech campus to accommodate the choir, four concert bands, three orchestras, a stage (jazz) band, two sections of twirlers, drum majors and separate ensembles for woodwinds, brass, percussion and string.

Camp Director Joel Leach, an instructor in Tech's Department of Music, said various sections of the camp had moved into the Music Building, two rooms of Tech Union, two rooms of the Agricultural Engineering Building, three

Music Building annexes and the band practice field.

The first of two concerts was presented Sunday evening by the young musicians when two 80-piece bands, one 52-piece orchestra and a 48-member choir presented an outdoor concert on the campus.

The second concert is slated for Friday, at a time and place yet to be determined. At the final concert, all of the 426 music camp students will participate, Leach said.

### Congressmen Ask Hike in Benefits For Pensioners

Rep. Bob Price and 30 other first-term Republican Congressmen were to introduce legislation today (Thursday) for a retroactive increase in Social Security benefits.

**PRICE SAID** the retroactive payment and increased benefits can be made without increasing Social Security tax rates.

According to Price, the Social Security Trust Fund was large enough on Jan. 1, to finance an across-the-board increase of 8 percent. He added that the fund has grown larger now and that an even bigger retroactive payment and increase in benefits may now be possible.

The freshmen House members declared that the increase is needed to offset the continuing rise in the cost of living.

**IN A JOINT statement** the freshmen Republicans said, "Twenty-two million Americans today depend upon their Social Security payments to provide for their daily needs. Each day, continuing inflation and a lack of White House leadership combine to rob these Americans of fixed incomes of their purchasing power."

**Returns From Vacation**  
Mr. and Mrs. Hooper Shaw have returned from a 3-day vacation spent at Dodge City, Garden City, Kansas and Trinidad, Colo., and Raton, New Mexico. They report a wonderful time.

'GO HOME'—With the Castro County All-Stars trailing Littlefield 1-2 in the second inning, All-Star Manager Charles Doss attempts to coach David Nino home from third with the tying run in the first-round game of the district tournament at Littlefield Monday night. Nino scored to tie the game, and the Castro County team surged ahead later,

7-3, on a two-run homer by Kenny Doss. Littlefield rallied in the final inning, but pitcher Mark Wohlgenuth bore down and Littlefield's last two batters—one of whom had hit a homer earlier—went down swinging to give Castro County a 7-6 victory.

KEEP HIM HONEST—First baseman Perry Floyd of the Castro County Pony League All-Stars takes a peg from pitcher Kent Bradford in an attempt to catch Littlefield's Paul Forer off base, but Forer makes it back to the bag safely. Tuesday night the Castro County All-Stars fell victim to a Borger pitcher's perfect game and went down 21-

0 as not a man reached first base. The powerful Borger team racked up a no-hitter Monday night, too, to rip through Anton 12-0 in five innings. Castro County meets Littlefield again tonight (Thursday) at 8:30, and the winner will meet Borger Friday night at 8:30.

## Gerbers Sweep Tennis Tourney

Five brothers and sisters of a tennis-loving Nazareth family swatted their way to seven championships and a second place in the first Castro County Tennis Tournament at Nazareth Saturday.

**THEY'RE THE** children of Mr. and Mrs. Albert Gerber, who live across the street from the Nazareth High School tennis courts where the tourney was staged. The Gerber children — Sandy, Carroll, Patricia, Keith and Kevin — won county championships all the way up the line, from 12-and-under boys' singles to 18-and-under girls' singles and doubles. Fifty-three youths from Nazareth and Dimmitt entered the tourney and more scrambled for places after the entry deadline, tournament director Don Stulting said. ## Flynts to Step Down Sunday From Top State Legion Posts

After serving at the helm of the Texas Department of the American Legion and Auxiliary for a year, Jack and Mary Flynt of Dimmitt will turn over their commander's and president's gavel to their successors Sunday.

**THE COUPLE** had the distinction of being the first husband and wife team to ever head up the Texas American Legion and Auxiliary. They were elected and installed at the state convention in Corpus Christi last July 24.

Texas Legionnaires and wives will hold their annual convention Friday, Saturday and Sunday in Dallas, with the Baker Hotel as headquarters. A new department commander and auxiliary president for 1967-68 will be elected during the conclave.

**THE FLYNTS** can point to a highly successful year as the top officers of Texas Legionnaires and their wives' auxiliary.

Flynt has been named to the national "honor court" of department (state) commanders for having reached all membership targets set by the national commander. As a result, he will be the personal guest of National Commander John E. Davis when the American Legion convenes in Boston later this year. This was the first time in years for the Texas department to exceed its membership quota.

Also, eight new Legion posts were chartered during the year.

**TEXAS WINNERS** in Legion programs went on to become national winners as well this year. Gray Miller, Texas Boys State Governor, went on to be elected President of Boys Nation at Washington, D.C., and Alan Keyes, Texas Oratorical Contest champion, became the first Texas boy to win the national contest.

The Legion's Rehabilitation Commission initiated three separate schools at VA hospitals in Houston, Dallas and Big Spring.

**IN HIS** annual report in Texas Legion News, Flynt recalls, "My travels carried me into every district of the department while making visitations and representing the Department of Texas American Legion at functions other than those of the American Legion."

The Flynts' travels also took them to Washington, D.C., several times, as well as Bismarck, N.D., Indianapolis, Ind., and Atlanta, Ga.

"Mary's and my homecoming which was hosted by the Hereford post, the many friends we have made, the warm welcome and hospitality extended on all visits, the achievements that you have made possible, our wonderful staff, shall all go into my collection of memories that I shall hold sacred forever," he told his fellow Legionnaires in his annual report.

## Three FFA Boys Earn 'Star Farmer' Award

Keith Gross, Tommy Martin and Darrell Pope attended the State FFA Convention in Dallas last week, where they received the Lone Star Farmer Degree. **THE DEGREE is the highest award presented on the state FFA**

level. The award is based on leadership, participation in FFA activities, and supervised farming program.

One minimum requirement for the degree is that the boy must have earned from his supervised farming program a minimum of \$500.

The award is presented annually to only two percent of the state membership.

**GROSS**, son of Mr. and Mrs. Oscar Gross of Dimmitt, has served as chapter officer for one year. His supervised farming program has primarily been based on swine production. He will be a senior in Dimmitt High School next year.

**Martin**, son of Mr. and Mrs. W. J. Martin of Dimmitt, served as chapter president last year and was a district officer also. His supervised farming has been diversified. Included in his farming program are swine, beef, cotton and grain sorghum production. He will also be a senior at Dimmitt High School next year.

**Pope**, son of Mr. and Mrs. G. C. Pope of Dimmitt, has served as chapter secretary, and was re-

cently elected vice-president for the coming year. His supervised farming program has been centered around swine production. In addition, he has ewes for lamb production and has fed fat lambs for show the last several years. He will also be a senior at Dimmitt High School next year.

**ALL THREE** boys have been active in the local chapter for the last three years, and all have shown livestock in several major livestock shows each year. Others attending the convention from the Dimmitt chapter were Johnny Davis, chapter president; Jerry Killingsworth, voting delegate; and John Quinby, advisor.

### Service Draws Top Attendance

Minister Bedford W. Smith described Sunday as "a wonderful day" at First Christian Church, as attendance in the morning worship service exceeded the entire resident membership including those living in nearby towns within driving distance of Dimmitt.

**HELPING** boost attendance were the children of Mr. and Mrs. Othele Fry. In addition to the Paul Frys of Flagg, who are members, the Othele Frys' son Cinton and family of El Paso were present, plus their daughter, Mrs. George Streetman and children, with Mrs. Streetman's mother-in-law, Mrs. Lela Streetman of Hazel Crest, Ill.

Member families and friends will meet at the church tonight (Thursday) to honor the Bill Kellers, who are moving to Hereford. The period of fun and fellowship will include volleyball and croquet with the church's new sets. Ice cream will be served.

Minister Smith's sermons Sunday will be "The Way to Peace" at the 10:50 a.m. service, and "He Careth for You" as the 6 p.m. worship theme.

## Wheat Allotment Down 13 Percent

Castro County's wheat allotment for 1968 is 13 percent below the 1967 figure.

**CHARLEY HILL**, Agricultural Stabilization and Conservation Service county office manager, announced that 1968 wheat allotments were mailed Monday.

The county's wheat allotment for '68 is 101,875 acres, compared with an allotment of 117,415.4 in 1967.

"The 1968 program is almost the same as the 1967," Hill reported. "No acreage diversion is required. You may substitute wheat and feed grain acreages if you take part in both programs. Also, you may use permitted barley acreage for wheat by advance arrangement with the county AS-

CS office. **"WHEAT** certificates will be issued on 40 percent of the farm allotment on participating farms," he added.

Hill said producers who have certified their wheat and feed grain acreages will receive their wheat payments "within the very near future."

"**WE URGE** you to get the acres measured and turned in as soon as possible," he said. "The sooner you file your final acreage report, the earlier you will get your final payment."

## Parcel Post Now Six Days a Week

Postmaster John Hardy Wood has announced that parcel post deliveries in Dimmitt will be expanded from five to six days a week as of July 31.

**THIS IS IN** line with a recent directive from Postmaster General Lawrence F. O'Brien following the signing of the Post Office Department appropriation bill by President Johnson. The legislation contains an \$8.5 million item for restoration of the six-day a week delivery, which had been cut back in May 1964 as an economy measure.

Nearly 5,000 cities are affected, Wood said. The Dimmitt postmaster noted that the improved service will remove an inequity for many business and residential routes.

**POSTAL** customers served by "motorized" letter carriers have been receiving six-day deliveries all along. They were not covered by the 1964 cut-back, since carriers on vehicles can deliver parcels of any size.

Bible Thoughts

JOURNEY TO ETERNITY By Ronnie Parker

"Journey to Eternity," a program designed to carry the Bible story into the homes of the high plains area, will be televised over Amarillo's KGNC-TV, August 28th through September 1st.

The program will be telecast in prime time for five nights, from 9:00 to 10:00 p.m. M. F. (Mid) McKnight is featured teacher for the full-color programs. McKnight occupies 45 minutes of the program time, with the remaining time being taken by a panel of area Christian answering Bible questions coming in by way of telephone.

"Journey to Eternity" is designed to answer three questions:

- 1. Where did I come from? 2. What is the purpose of life? 3. After death, then what?

We want to invite and urge that the citizens of Dimmitt take advantage of the opportunity to see these fine Bible programs. 4th & Bedford Church of Christ

Rancher Profits By Weed Control

A DeWitt County rancher is making an extra \$3.51 an acre by using chemical weed and brush control in a range management demonstration.

The demonstration is on the Will Rob Miller ranch, near Westhoff.

ACCORDING to County Agent Gilbert Heideman, one pasture was treated with 2,4,5-T, diesel oil and water, applied aerially. A similar pasture got no treatment.

Heideman figures it cost about \$3 an acre for the chemicals and application, but this cost was more than offset by the extra beef raised.

The treated pasture produced an average of over 65 pounds of weaning calf an acre and the untreated pasture produced about 49 pounds an acre.

Cipping tests show that grass on the treated pasture produced 6,300 pounds of air dry forage an acre, said Garlyn Hoffman, Extension range brush and weed control specialist at Texas A&M University. He said the untreated pasture produced only 2,965 pounds an acre.

HOFFMAN pointed out that soil moisture in the treated pasture averaged more than two percent higher than in the untreated pasture. Reason for the higher moisture, he said, is less competition for moisture from weeds and brush.

The treated pasture was stocked at one animal unit to 6 1/2 acres and the untreated at one animal unit to 8 acres. Because of a shortage of grazing in the untreated pasture, hay had to be fed to those cows at a cost of \$1.71 an acre.

Hoffman said the demonstration brush control used with a deferment program will be a paying proposition for most ranchers.

Square Dance Tips

By ANN ALEXANDER Twenty-four Dimmitt Promeraders enjoyed our regular square dance July 18. We had guests from Fortales, New Mexico, Hereford, Mu'teshoe and Dimmitt.

LEON COLLINS of Mu'teshoe was guest caller for one "tip." Muriel and Judy Bussey and Wes and Helen Brown served refreshments.

Sid Perkins, our caller, had several couples compete in a "fun" stunt during intermission. A business meeting was held after the dance. Bob Murdock was elected president; Ted Robb, vice-president; Mildred Barnes, secretary-treasurer and reporter; and Muriel and Judy Bussey, social chairmen. We also voted to reduce our monthly dues.

Our next dance will be Aug. 1 at the American Legion Hall. We invite all square-dancers to join us: "Square dancing is Fun."

PRIDE AND JOY!

Proud Father... you bet... this is my child... she's sweet, trusting, lovely and brings great joy to my life. I work harder in order to better my income so that I can provide for her. She thrills me, and already I am making plans for her future. Right now we are all dressed up and getting ready to go to church. I love her, and I want the best for her. I want her to know early about God, and that he means a lot to me, and I want God to mean a lot to her, too!

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

### Medicare Costly, But Successful, Official Claims

During its first year the new federal Medicare program paid out more than \$130,300,000 for the care of people 65 and over in Texas, according to Wayman Register, Social Security regional assistant commissioner in Dallas.

ABOUT \$100 million of this amount was paid to the 548 hospitals which participate, and the remainder was mostly for doctors' services, Register reported.

Register said 895,500 people over 65 in the state are eligible for the hospital insurance, and this group produced 300,000 hospital

admissions. While there was an increase in hospital use by older people, Register emphasized that the increase has been within "reasonable limits."

"OVERALL, the program has increased total hospital occupancy rates by no more than 5 percent," he said.

Register explained that it is hard to measure the improvement in the quality of life for the older person who has had surgery or therapy under Medicare, but it is substantial, he said.

"And just as important," he emphasized, "many more elderly Americans have been able to get medical care with the dignity that goes with the ability to pay."

**Visits In Ruidoso**

**YOUNG KITCHEN HELPERS** at Hart received their "graduation certificates" Friday after two weeks of classroom training on how to get along in the kitchen imaginatively. Mrs. Jeannette Malone of Tulia taught the course, which was sponsored by the Swisher County Electric Cooperative. Here, Mrs. Malone supervises while (from

left, at table) Rhonda Rolwand, Kendra Bishop and Melanie Upshaw learn to make carrot curls. Thirty-two youngsters 6 through 12 took the course. Friday night they served their parents carrot curls, sandwiches, dips and chip, relishes, and chocolate-covered cherries—all of which they had prepared themselves.

They are made of precast concrete, then lifted into place by giant cranes. The top of each roof becomes another family's garden. This is a permanent project which may influence future family living.

**THE TIME** has come to say good-bye, adios, and au revoir to Montreal, Quebec, Canada, and Expo 67! We would like to take our leave with a closing thought by Julius K. Nyerere, President of Tanzania:

"We, the people of Tanzania, would like to light a candle and put it on top of Mount Kilimanjaro which would shine beyond our borders, giving hope where there was despair, love where there was hate, and dignity where before there was only humiliation... we cannot, unlike other countries, send rockets to the moon, but we can send rockets of love and hope to all our fellow men wherever they may be."

### West Texan at Expo

# It's the Biggest World's Fair Ever

By **JASPER SANDERS** (Last of six articles.)  
Today is the last day, a day of gladness mingled with sadness. Let's take a look at some more of Expo 67's many attractions.

**HAVE YOU** wondered about Montreal, our gracious host city? It would take a big book to really describe it. It is a metropolis with 2,600,000 people and is increasing by \$87,000 each year. The human diversity of Montreal is shown by its more than 30 ethnic groups. The 121,000 Italians, 86,000 Jews, 4,400 Indians or Eskimos are as complete Montrealers as the 1,608,000 French and 445,000 of Anglo-Saxon stock.

Montreal is the banking and financial center of Canada. It is a terminal for 15 airlines and a railroad center. There are more than 5,500 manufacturing plants. But Montreal is not all work. There are 4,000 restaurants so you can surely find a place to eat; and for fun there is Expo 67, the biggest and best world's fair ever held. Ask any Montrealer, or maybe somebody from Texas or the south of France.

**LOOKING** over an illustrated map of Isle St. Helene and Isle Notre Dame, site of Expo 67, I am appalled at all the exhibits I didn't get around to viewing. A person could spend a month here and not see it all. It's really that big.

All in all, it has been an exciting, educational adventure. Let's take a last look. What're a few more blisters on the feet.

For those interested in religion—and who isn't—a visit to the Pavilion of Judaism is in order. You might find at least a partial answer to some of these questions: What is a Jew? What has he given to civilization? What does he believe?

**ANOTHER** one, the Christian Pavilion, with eight of Canada's major Christian denominations joined together, present at Expo 67 an uncommon message with a common voice. The pavilion theme is that in a world often without hope and love, Christ is an eternal hope and source of joy.

The Canadian National Pavilion takes an imaginative and comprehensive look at the twin elements of time and motion, some of the stuff that life is made of. Visitors enjoy a wide screen color film.

The Venezuelan Pavilion offers fine live entertainment, lively folk music, exotic fruits and drinks. The pavilion is composed of three colorful, cube-shaped buildings.

**I PROMISED** a young tennis pro in Niagara Falls I would look his brother up at Expo. He is a chef in the Ontario Pavilion restaurant, but I lost his name and failed to contact him. So many things got left undone, it seems.

A ship is being built at Expo. It should be finished near the fair's end in October and launched.

One of the striking innovations in modern living is called Habitat 67. Since man first moved out of his caves, he has tested many forms of shelter—crude huts of mud, tents with skin covers, blocks of stone. Around a group of such dwellings—always near water—a village would grow, then a town.

**NOW HABITAT 67** in Cite du Havre (on the mainland) combines ingenious shelter with all the attributes of modern life in a world where living space is often at a premium.

From a distance it looks like a huge pile of stones tossed together in a loose semblance of order.

The housing area consists of 158 units of 20 types, ranging from a one-bedroom, 600 sq. ft. unit to a four-bedroom house of 1,700 sq. ft.
