VOL. 18.

BRONTE, COKE COUNTY, DECEMBER 10, 1937.

NUMBER 49.

Nine Schools Now Pressing the Battle to Win Grand Award of \$50.00 In The Enterprise Subscription Campaign

Nine schools now are enlisted in the race to win the \$50. Grand Award offered by The Bronte Enterprise to the school that secures the greatest number of cash subscribers—both new and renewals—according to the present scholastic enrollment of the schools.

The Plan is perfectly fair to each and all—the smallest school has equal opportunity with the schools of the larger scholastic enrollments. Hence the schools throughout the circulation territory of The Enterprise are taking hold of the proposition enthusiastically. Most of the schools have gone to work this week in dead earnest—and there is going to be no let up now until the last moment for securing subscriptions, which is at 4 o'clock on the afternoon of December 24. At that hour the representatives of the schools in the Campaign will meet at The Enterprise office, canvass the subscriptions of the schools and declare the one who is to receive the Grand Award of \$50.

The schools now enlisted are Bronte, Marie, Brookshier, Maverick, Norton, North Norton, Mazeland, Oak Creek and Blackwell. The Plan is such that no school can lose. The liberal commissions The Enterprise pays regardless as to the Grand Award of \$50, pays the schools more liberally for the amount of time they give to soliciting subscribers, than any other thing to which they could give their time and effort. The Plan is such that the harder the school works the more compensation it will receive.

Since our last issue the editor has visited the Marie school and Misses Smith and Russell are the hard-working and popular teachers. After explanation of the Plan to the older pupils they voted enthusiastically to enter the Campaign. The Enterprise has a goodly list of subscribers in the Marie community. We expect to have good reports from Marie at intervals until the Campaign closes.

At Norton we found Prof. O. L. Conger, the superintendent of the Norton school, busy as the proverbial bee. But, Prof. Conger pronounced the Plan a good one and stated that Nortonschool would sponsor the Campaign and seek to get the Grand Award. Their funds will go to aid some worthy girl who is striving for an education! A most noble use to make of the fund! And should they win the Grand Award it will be a fund worthwhile.

North Norton, with Misses Sebastian and Crockett as the teachers, has entered the contest and will do their best to come first in the Campaign, and so expect to make things count for the two weeks of the Campaign. These two young ladies have done a great work for the North Norton school the several years they have taught there.

Mazeland school, with Prof. G. A. Koenig as principal, assisted by Mrs. Koenig, and Misses Jackson and Hash, this growing school is going in a great way. So, the teachers, with the PTA, thought that The Enterprise Subscription Campaign is a fine opportunity for the school. Prof. Koenig said that he thought it a fine opportunity for the school to raise some needed money and could earn it by working for The Enterprise. "And if we win the Grand Award," said the genial principal, "we will have a place to put it right where we can use it immediately." Prof. Koenig

has installed a hot water system in his school that is original, and is something that the school very much needed. The school has the circulating heating stoves. Prof. Koenig conceived the idea of placing a vessel for hot water inside the jackets of the stoves and make an opening through the jackets and insert a pipe through the jackets into the hot water tanks on the inside of the jackets and have hydrants on the outer end of the pipes and thus have hot water available throughout the day. The arrangement is fine, especially at the noon hour when the children can have hot water for bathing their faces and hands. Quite a unique plan and a good one!

At Oak Creek the whole community is becoming interested and not only the teachers, who are Prof. and Mrs. Dale Douglas, and the pupils, but the patrons also, and all are talking and working for Oak Creek to win the Grand Award. Oak Creek is doing some very much needed improvements at the teacherage, adding another room to the teacherage and also erecting a garage for the teacher's car. Prof. and Mrs. Douglas came to Oak Creek only with the beginning of the school year, but already they are making their work to count for the good both of the school and community.

Prof. Leroy Stone, superintendent at Blackwell, advises The Enterprise that if they are fortunate enough to "pull down" the Grand Award they will use it to beautify their school grounds. Blackwell has an elegant building and with the grounds beautified it will indeed be a beautiful place. "Whatever amount we get out of the campaign," said Prof. Stone, "we will apply it to the school grounds. This is something all our people are interested in and when they subscribe for The Enterprise they do good two ways—they become a subscriber for the nearest local paper to Blackwell that seeks to serve the town and community and at the same time the liberal commissions The Enterprise pays us as a school to collect the subscriptions makes the subscriber to aid the school at the same time."

Prof. and Mrs. Stone were unfortunate in the recent loss of their home by fire, which necessarily compelled Prof. Stone to defer starting the subscription campaign in his school until he could get his personal affairs re-adjusted. But, the Blackwell school is out now "with a vim" and will press the battle to he last day.

Only two weeks remain—but, that is ample time for each school to canvass and re-canvass every patron in their respective districts and earnestly seek time and time again to get the subscriptions. And it is the earnest, faithful, persistent work during these two weeks that will decide what school will get the Grand Award and will also determine the amount of compensation each school is to receive in the form of the liberal commissions The Enterprise is allowing in this Campaign.

The Enterprise desires to have every family within its circulation territory a bona fide subscriber. Really the families in the territory need The Enterprise, for it gives them more local news of this territory than any other newspaper. By subscribing now you will greatly aid your school. Why not be a

JUNIOR CLUB MEETS

The Junior Woman's Progressive Club met Thursday afternoon at the home of Mrs. Nathan Johnson.

The following program was given on art appreciation:

Characteristics of a Good Picture, Mrs. Cumbie Ivey.

The Language of Painting, Mrs. Otis Smith.

Reproductions of Famous Pictures, Miss Nell Lowry.

Refreshments were served to Mmes. C. Ivey, Charles Baker, James Glenn, W. Bowden, Geo. Thomas, Otis Smith, H. O. Whitt, Barrett Mackey, Miss Nell Lowry and one visitor, Mrs. W. W. Mullins.

Read the ad of the fountain pen sale at the City Drug store—this Friday and Saturday: December 10 and 11. Attend the sale and see how much you save.

"Booster" for your school and find one of the solicitors in your school and give your subscription and thus show that you are for your school and community?

We call attention, again, as we did on the front page last week, that if you are receiving The Enterprise and did not subscribe yourself, it is being sent by some one else—there are only a few exceptions to this, where we have sent the paper complimentary. If you do not receive a paper this week, it will be because you were getting the paper at the expense of some one else. The solicitors in this Campaign have instructions to make note of everyone who says that he is receiving the paper but did not subscribe. At the conclusion of this campaign everyone who is receiving the paper sent by another will be discontinued. Go now and see one of the solicitors of your school and give your subscription and thus aid your school—for, soon as you are discontinued you will want to subscribe again and be put back on our mailing galleys—but, it will be too late then to aid your school and community in this instance.

Miss Margaret Christie, instructor of the Home Ec. department of the Bronte schools, has the following to say to the people of the Bronte district: Dear folks of the Bronte school district:

Encouraged by our superintendent and the other members of our faculty of the Bronte schools, the Home Ec. department, through the young ladies and girls of the department, has undertaken to raise funds that we can use to so much advantage, by soliciting subscriptions for The Bronte Enterprise, our own home newspaper. As all are aware The Enterprise is offering most liberal commissions and also offers the Grand Award of \$50 to the school that wins under the rules of the contest.

Several schools over the Bronte section of country are in the contest and seeking also to win the \$50 award. I am writing this to ask our people who are subscribers, to please give in your renewals at once—only two weeks from Saturday, the 11, to the close of the contest. We hope and are anxious, of course, that by the cooperation of our people to win the Grand Award. But if we do not, if you will get your subscription to some one of our girls before the contest closes you will be aiding us and the whole school as well, and at the same time, it will cost you nothing—for you expect to continue to read The Enterprise.

Thanks to all who have already subscribed, and to all who attend to the matter of getting the price of your subscription into the hands of one of our girls.

DIFFICULT WEEK FOR THE EDITOR

An unusual run of advertising; unfavorable weather, and pledging some of our largest advertisers that this issue would appear a day earlier than usual, and the further fact that the editor is suffering from a severe cold—all the above and still other hindrances conspired to make it a difficult week for us.

We will make our word good with our advertisers and send the paper out into the mails a day earlier than usual—but in doing so, we have to leave out two fine letters from our school correspondents—Oak Creek and Mazeland. One of them reached us too late and the other we could not possibly get into our columns. We make explanation so that all will understand.

FOR COUNTY TREASURER

As we were going to press this Wednesday night we received a letter from Mrs. B. M. Manning of Robert Lee, announcing her candidacy for county treasurer of Coke county. Her announcement will appear next week.

ROBT. FAIRBANKS DIES

Robert Fairbanks, an old-time citizen of this section several years ago, died at Kerrville November 26, and the body was returned and interred in the Skinner cemetery, so Ben Brooks of Tennyson informs us.

Deceased was in his 55th year and is survived by his wife, a daughter and two brothers. Mrs. Fairbanks was Miss Annie Billingsly.

Basket Ball Tournament

Blackwell held its 4th Annual Boys' Basket Ball Tournament Dec. 3 and 4, with the following teams as guests: Divide, Bronte, Trent, Bradshaw, Wylie, Highland A and B teams, Pylon, Wingate, Robert Lee, White Flat and Crews. It was a most happy affair throughout the entire meet.

One Minute Sermon

BY REV. A. V. BRADLEY

"CREATION"

"In the beginning God created the heaven and the earth" Gen. 1: 1.

"In the beginning was the word, and the word was with God, and the word was God. All things came into being through Him, and a part from Him nothing that now exists came into being." John 1: 1-3. (Weymouth)

There is no disagreement with the Bible and science as to the Creation of this physical universe and mankind. Read the following:

1. Science: "The beginning of the world was chaotic." Bible: "Without form and void."
2. Science makes no effort to tell where the earth came from. Bible: "God created it."
3. Science: "This mass was without form" Bible: "Darkness upon the face of the deep."
4. Science: "A moving force was in this darkened mass, cannot tell us what it was or where it came from." Bible: "The Spirit of God brooded over it."
5. Science: "There was light long before sun, moon, stars existed." Bible: "Light created first day."
6. Science: "Water covered whole earth" Bible: "Water covered the earth."
7. Science: "Definite order of creation reaching from inanimate matter to plant life, that to animal life, from the lower order to the higher order. Bible: "Dead matter comes first, then plant life, then animal life, then the higher order, then man."
8. Science: "Animal life comparatively late appearing on the earth." A science could have learned that from first chapter of Genesis.
9. Science: "Animal life appeared first in the water." The Bible has been saying that for 6,000 years.
10. Science: Since the appearance of man upon the earth, there has been no further progress in creation of species or kinds." Bible "God rested—created—after creation of man."
11. Science has no facts to tell about the spirit of man. Bible: "Life derived from the imbreathing of the Divine One." In the beginning God created—everywhere else "God made." things out of the materials already created. The man who wrote Genesis could not wait to see what lagging science would say about it. "He wrote as he was moved by the spirit."

W. H. Rampey May Be in Race for Legislature

W. H. Rampey of Wilmeth advises The Enterprise that he has under advisement the question of becoming a candidate for representative in next summer's democratic primaries from this district.

Mr. Rampey was a candidate for representative in the special election in 1935 and made a most creditable race.

Mr. Rampey says that he is making a survey of the situation and will decide shortly after the new year begins as to what he will do about the matter.

Whatever else may be said about Henry Rampey, all who know him, are fully aware that he is a clean man—and of all the qualifications a man should possess at this time, especially, he should be unpurchasable for money, and unafraid of the very imps themselves. And it seems now that the people are going to take notice along this line of a man's qualifications—for, the people are "fed up" on those of the legislature returning home and crying against the lobbyists, and yet they are silent as clams while in Austin where the "lobbyists" gather together, and do about as they please it seems with the little fellows sent down there to make laws and to protect the people. Let all know now that if W. H. Rampey goes to Austin there will be one member at least who will come home without any of the lobbyists' money in his pockets.

Star route mail carriers will meet at Hotel Brady, in that city, Sunday afternoon, December 12, at one o'clock promptly. Every star route carrier is urged by Melvin Evans, district committeeman, to be present and hear some good news from the state president.

BLACKWELL NEWS CORNER

Mrs. Charles Ragsdale, Reporter

Club Honoring Mrs. George

The Decker Home Demonstration Club gave a shower at the home of Mack Keating's. Mrs. George was the honoree. She has been the president of the club for the past year. She is moving to Colorado City. A report on the years work was given. A wonderful time was enjoyed by all. Delicious cake was served to a large crowd.

Mr. and Mrs. Al Snead have returned from Alabama. They reported a wonderful time Mrs. Snead said there was too much rain for her.

Pounding for New Pastor

Rev. and Mrs. A. J. Jones, the new M. E. pastor, were given a shower at the Methodist church Thursday night. Games were played after the program was rendered. There were many useful gifts of food.

Delicious cake and coffee and hot chocolate were served to a large crowd.

Honoring Four Ladies

Mrs. W. M. Thompson gave a

shower Friday honoring Mrs. LeRoy Chew, Mrs. Laffette Johnson, Mrs. Fred Gaston and Mrs. Clifton Gaston.

Delicious fruit drink and cake were served to a large crowd.

Mr. and Mrs. Matlock and children of Arkansas, are visiting Mrs. Matlock's brother and family, Mr. and Mrs. Hildger.

In Memory of Carl Lewis

The relatives and many friends of Carl Lewis heard the radio program that was dedicated in memory of Carl Lewis who died November 24. Death came from injury sustained while playing foot ball.

The program was dedicated by the Roby High School, through Abilene station. It was a very beautiful program and appreciated by every one who heard it.

Mr. and Mrs. Elver Turner have moved to Colorado City. Mr. Turner has bought a filling station in that city. Their many friends regret to see these good people leave Blackwell.

(Continued on last page)

May'rick School News

We are preparing for our Christmas program, which will be given on Friday night, Dec. 17. Every one is cordially invited to come.

First and Second Grade News

We have some new health books.

We are going to have a Christmas tree in our room the 24. We are going to have a Christmas program that day, too. Every-

Community Singing

Everybody is cordially invited to take part in a community singing at the Methodist Church at Robert Lee next Sunday, Dec. 12th at 2 p. m.

A wholesome and uplifting diversion for everybody regardless of creed, or choice of songs, is provided by these gatherings and they should receive the support of the good people of Coke county.

J. C. Jordan,
President of local class.

"List your buying, selling, and trading of real estate, leases, live stock, and etc. with State Representative James M. Simpson, Jr. of Eden, Texas. Cover a wide territory. In a position to make or save you money.

James M. Simpson,
Eden, Texas.

WANTED: Solicitors for the Abilene Reporter-News to work COKE county. Liberal commission paid to solicitors in rural communities. Address Circulation Manager, Box 30, Abilene, Texas. 482tp

one has a part to say. We are learning to play Jingle Bells in our Rhythm Band.

Sixth and Seventh Grade News

We are glad to have the Bryant's back from the plains, where they have been pulling bulls, they are Johnny, Clyde and Jack.

We have taken our second examination and working hard for the third and mid-term.

Eight and Ninth Grade News

The seventh, eighth and ninth grades have been learning Christmas carols for our Christmas program.

The world history class has been doing some interesting work this year.

Each one has been assigned to do a certain thing. Some have carved the Sphinx out of soap, others have made miniature pyramids, and still others have made papyrus rolls and Egyptian chariots. It helps us to gain more interest in class and also gives us a better understanding of how the people lived long ago.

Community News

J. W. Borders, James Glenn, Ray Berry and Cecil Glenn left Monday morning for Davis mountains to hunt deer for a few days.

Rev. Hubert Crain preached at the Methodist church here Sunday morning and will also preach here Sunday at 10 A. M.

Renza and Robert Lee have taken their father, Joe Lee to Dallas, for an operation on his eyes.

Mrs. W. C. Hearrell is visiting in the home of an old time friend, Mrs. N. D. Lee.

San Angelo's Leading Store for Men and Boys!

... every business has
something to sell

—but people don't patronize them just because of that fact
—patronage goes to the organization that shows a personal
interest and a desire to please—we sincerely try to keep
that in mind in every transaction that we make—may we
serve you?
