Blackwell Eastern Star Entertains House Guests

The members of the Eastern Star had as their guests last Tuesday night Mrs. Onilla Peters, DGM, Abilene, and Mrs. J. Headrick DDGM Sweetwater. Other guests included Mr. and Mrs. D. E. Barnhill Sweetwater, Miss Thelma Kinard and Mrs. Juaneta Rodgers, Hylton.

The Chapter room was converted into a flower garden. A garden trellis in the East was covered with orchid colored blossoms, the color of the Worthy Grand Matron for the year.

A memorial service in memory of the departed members that had been arranged by the Worthy Matron, Mrs. Esther Smith, closed beautifully with the officers dressed in white forming a cross at the altar and singing the "Old Rugged Cross."

Gifts were presented the honorees. Mes. Peters and Headrick.

An ice course conveying the colors for the evening was passed.

Boy Scouts Have Organized A Troop At Norton

The forward-looking citizens of Norton have taken a giant stride in the right direction with reference to the proper interest in the boys of their town and community.

A Boy Scout Troop has been organized. There were 22 boys who enlisted signifying that they are willing to become scouts.

Dr. W. W. Mitchell, Floyd Mackey and Buddy Daniel are the committee selected to examine the applicants and ascertain that they are qualified everywhere to become members of the Scouts. Soon as this examination is completed an application will be made for charter. There is quite an interest being manifested in the movement.

Carl Lewis has been made scoutmaster and Rev. D. D. Shaw assistant scoutmaster. It is urged by those directing the movement that every boy within reach of Norton between the ages of 12 and 18 attend and join.

A fine movement and all success to those directing in this organization is the wish of The Enterprise.

RUNNELS COUNTY SINGING CONVENTION AT BALLINGER

The Runnels County Singing convention will meet at Ballinger Sunday April 23, 1939 in an all day festival.

Singers will be there from towns as far away as Sweetwater, San Angelo, Coleman, Robert Lee, Abilene, Eden, Brady, and etc. Stamps new song books "Gospel Tide" with other good song books will be used. Quartets, trios, duets will be there with many good song leaders.

Come to Ballinger and enjoy a good all day West Texas Singing Convention.

R. A. Jennings of Wingate is president, C. E. Gambill of Winters, is vice-president, and H. W. Bigler of Miles is secretary. A large crowd is expected to attend.

Read the ads. Their information will save you money.

Happy School Band To Give Concert At Norton

Norton, that fine little town, east of Bronte, is all excitement just at this time—and they have a right to be. For, they are looking forward to this coming Saturday night as a new occasion for the people of the community.

The high school band of Happy—away out on the plains—is coming to Norton Saturday night to give a program. This school band is one of the outstanding bands of its kind in all West Texas. It is a band of thirty pieces and plays "like all fury." Douglass Forbes, the director of the band for several years is an old Norton boy. He learned that Norton is anxious to organize a band—hence, it was arranged with him by the school authorities and others at Norton for Mr. Forbes to come and bring his band of music-makers and show Norton can be done. Happy is a town not much larger population than Norton and it has maintained a real, worthwhile school band for years. And those at Norton who are interested in promoting a band these state that if any other town the size of Norton can maintain a band, then, it will be an "easy trick" for Norton to do the same thing.

There will be the small admission of ten cents charged for the performance Saturday night—but The Enterprise desires to say now to all who are near enough to attend, that you will get the "biggest piece" of pleasing entertainment for ten cents that you ever bought in your life.

There will be the small admission of ten cents charged for the performance Saturday night—but The Enterprise desires to say now to all who are near enough to attend, that you will get the "biggest piece" of pleasing entertainment for ten cents that you ever bought in your life.

There will be the small admission of ten cents charged for the performance Saturday night—but The Enterprise desires to say now to all who are near enough to attend, that you will get the "biggest piece" of pleasing entertainment for ten cents that you ever bought in your life.

Evert Bruton Takes Over The Banner Ice Plant

A business change this week is that of Evert Bruton buying the interest of Oliver Pittman in the Banner ice business and taking over the management of same. The deal was consummated Monday.

Mr. Pittman sold because his work as bus driver for the Bronte schools made it impossible for him to be at his place of business all the time which is very necessary—for when people want ice they want it bad and they want it right now.

Mr. Bruton needs no introduction. He has been in business in Bronte before and knows everybody and everybody knows Mr. Bruton.

He is not only a hustler and business-go-getter, but he is genial and pleasant and always ready to serve his customers. Mr. Bruton says that he will be right there all the time and invites all his old time friends and former customers and all the people over the Bronte country to come to him for their needs in his line. Read Mr. Bruton's announcement in this issue.

Mr. and Mrs. C. L. Green, accompanied by the Tucker Twins, Misses Annette and Jeanette Tucker, of Winters passed through Bronte en-route to Robert Lee to the Lions' banquet, given that evening, at which the Tucker Twins were the stars of the entertainers. It is reported that they made a happy hit with their auditors. But had The Enterprise not had such word we would know it true—for the Tucker twins know their entertainment "stuff." They are two "little gals" of which all West Texas is proud.

Club Sponsors WPA Community House Project

Business procedure moved along with a whizz and a bang at the Bronte Community Service Club semi-monthly meeting, Wednesday, following the luncheon served by the junior class of the Bronte schools.

The menu was a chicken "affair," with the other essentials to a reliable lunch. And it was served only as the Bronte girls can do with reference to things culinary, directed by Mrs. Marie Wilson, home ec. instructor in the Bronte schools.

President of the club, H. O. Whitt pushed the business session along rapidly and closed the meeting promptly on time.

Among the important things that were brought before the club were the following:

E. F. Bridges, president of the Bronte school board, reported as to the progress of the improvements of the school building and campus through the WPA project. Prof. B. B. Covey, superintendent of the schools, supplemented Mr. Bridges remarks with suggestions as to some practical ways of improving the Bronte schools.

Prof. J. T. Henry, instructor of the agriculture department of the schools, presented the stock-judging team of the school that went to the state livestock judging contest at A & M College last week, which won second place as a livestock judging team, in which 115 teams from over Texas participated. The members of the team are Joe Rawlings, Edward Williams and Percy Suggs. The boys stood and presented the award banner they received and were lustily cheered.

Robt. Knierim, of the roads committee, made a full and interesting report of the activities of his committee, which showed that the committee is "going places" and is getting things done. The chief interest centered in a plan to get concert of action on the completion of highway 158 from Abilene on through Bronte and Robert Lee to Sterling City and Midland. An invitation was given the towns on the proposed route to have delegates meet with Bronte at the next regular semi-monthly meeting two weeks hence. Plans were made for the entertainment of these guests. Already, far as Bronte is concerned, things are at "white heat" about the early completion of this highway.

A suggestion was made by Mrs. Louise Johnson that the club sponsor a community house for Bronte. The suggestion resulted in an enthusiastic motion that the club sponsor a city hall which should be so constructed that it would be a fire department hall, city council chamber, offices for the various city departments, and a hall large enough for community purposes. So, if things develop a building this town has needed a long time is going to come to pass. Let it be so—for the town needs this very building.

Mrs. Eva Vowell of Robert Lee, county supervisor of the WPA work in Coke county, and Mrs. Callie Bennett, supervisor of Bronte WPA attended a district meet of the WPA at Brady Wednesday and Thursday of last week. This is the 19th district, and it was areas 41 and 42, in the western part of the district that had the meet. Mrs. Bennett reports that there was a large attendance and quite an interesting meeting.

Bronte Fire Boys Hold Their First Annual Picnic

Chief Odas Brunson of the Bronte Volunteer Fire Department, and his men held their first annual sunset picnic Wednesday evening at the Wiygle water hole on the Colorado river five miles from Bronte.

And the affair was a huge success from every angle. The picnic supper was as fine as ever this writer relished, which consisted of barbecue, cooked to a king's taste by N. M. McKinney; also red beans which were likewise cooked perfectly, with pickles and onions and bread, topped with ice cream. In fact, the Bronte fire boys entertained and ate, just like "fightin' fire."

Out of town guests were Fire Chief E. D. White of the fire department of San Angelo and three of his boys, Messrs. Clyde Haynes, Leon Hunter and Evert Gueggs. Chief White made an inspection of Bronte's fire equipment before going out to the picnic place. He addressed the gathering on "Fighting Fire," and brought out many helpful suggestions as to modern fire fighting methods. Mr. White said that the old hose of the Bronte department, part of it could be salvaged and made to do good service yet. He voluntarily offered that if the Bronte boys would bring the roll of old hose to his department at San Angelo they would make a thorough test of it free of charge—likewise Mr. White reminded the Bronte fire fighters that any time they had a fire of unusual proportions, call his department and they would be out here immediately and aid in conquering the flames. In fact, it was good to have this genial fire chief and his three fine boys at the gathering.

Chief Odas Brunson was as busy as the proverbial old hen with one chicken in directing the details of the evenings lunch and the other features of the program.

There were thirty men and boys in attendance, two of whom were City Councilmen B. E. Modgling and B. F. Bridges.

HIGGINBOTHAM'S AT BALLINGER SELLS PERFECTION STOVES

Higginbotham Bros. & Co. at Ballinger is trying this week to make every housewife in all the Ballinger trade territory to be happy—it is advertising Perfection cook stoves. And what can make the average housewife, out in the rural sections where gas or electricity for cooking purposes is not available, so happy as a new modern, up-to-the-minute cook stove? And that is what the late model of the Perfection cook stove is.

Read the ad of Higginbotham's of Ballinger relative to the Perfection cook stove, elsewhere in this issue—it will make every housewife wish she had one of those stoves—then, too, the Perfection is not only most valuable as a cook stove but it is a thing of beauty as well and always makes the kitchen more attractive.

Lemoine, thirteen-year old son of Mr. and Mrs. J. T. Gillmore, went to Dallas Sunday to go through a clinic. A report from the clinic is that Lemoine is suffering from rheumatism and enlarged heart. The clinic holds out hope to the parents that they can bring the lad back to health and strength—let it be hoped so.

Bronte Takes Season's Opener From San Angelo

Bronte playing their first game of the season, performed exceptionally well in beating San Angelo 7-2. Although the weather was somewhat disagreeable the game was attended by a large number of fans. The game was played Sunday afternoon on the local field.

Due to the lack of practice the boys made several errors at the beginning of the game, but soon hit their stride and turned what most of the fans expected to be somewhat of a muddle-dazzle pre-season affair into a good ball game.

Jack Corley, Bronte pitcher, pitched good ball, striking out 8 men before he was relieved by his brother in the latter part of the game.

Robert Lambert playing 2nd base for Bronte collected three hits out of three times at bat and turned in one of the best performances of the in-field. Homer Walton playing right field for Bronte, was the star of the outfield for the game. In fact all the boys performed well both in the field and at the bat.

Bill Wrinkle, acting manager for the game was pleased, as well as the fans, with the outcome of the game.

Batteries—for Bronte: pitchers, Corley and Corley. Catchers Scott and Dunn.

Officials: Percifull and Bell.

Schuch Motor Co. Observes Its 12th Anniversary

Another new advertiser appears in this issue of The Enterprise. The Co. in question is the Schuch Motor Co., of San Angelo, buick dealers.

Ed Schuch is the head of this large and popular automobile establishment. Mr. Schuch is observing his 12th anniversary in the automobile business. In reality he has been in the business for twenty years, having worked for eight years for the Wood Motor Co., as an employee, then entered business for himself. Mr. Schuch is widely known and has many friends throughout West Texas. He and his crew of men are always pleasing and genial and always makes one to "feel at home," when he visits this place. The Schuch motor Company is on the corner of Beauregard and Oaks, right where everyone from this section of the country goes right by their doors when going into the city.

Mr. Schuch is celebrating his 12th anniversary in a most practical way—he is making some very special prices on used cars. If you are interested in a dependable used car, Mr. Schuch and his force would be pleased for you to visit them and see the values that they are offering in this special sale.

Congratulations to you, Mr. Schuch, and here's hoping that the next twelve years shall be more prosperous even than these twelve have been.

Mr. and Mrs. Oran Keesee who some time ago moved to Jal, New Mexico write Mr. and Mrs. Grover Wylie that they are doing splendidly and are pleased with their new home. Mrs. Keesee and Mrs. Wylie are sisters. Mrs. Wylie has sent them "the old home town paper," which we hope they will enjoy reading each week.

TYPHOID FEVER IS NOW LARGELY UNDER CONTROL

AUSTIN, TEXAS—April 19. "The control of typhoid fever in the United States represents an outstanding achievement in preventive medicine. In 1900 the national death rate from this disease was 31.3 per 100,000 population. Today the rate is 2.1 nationally, but 6.5 in Texas. This marked decrease in typhoid's

killing power is based on knowledge of its cause, how it is spread, and the application of scientific control measures," states Dr. Geo. W. Cox, State Health Officer.

Today no other disease is more vulnerable to scientific attack than typhoid. Indeed, it is no exaggeration to say that, from a public health viewpoint, there should be no typhoid fever.

"Typhoid fever is caused by a germ. The organisms are found only in the excreta of persons suffering from it, or in those of carriers, the latter being persons who harbor the germ but are not ill. If it were possible to prevent people from becoming infected with germs coming from these sources, typhoid would cease to be a problem.

"In cities and towns, thanks to safe water and milk supplies, adequate sewage facilities, and environmental sanitation, typhoid has been almost eliminated. Un-

fortunately, sanitary and environmental protection on a community basis cannot be offered to those in rural areas. While control methods are the same for both city and country, in rural districts it is essential that not only public health officials but the householder become personally interested in them if they are to be effective," Dr. Cox warned.

"If every rural dweller in Texas realized his personal obligation in the anti-typhoid campaign and conscientiously took the necessary precautions, the typhoid rate in Texas eventually would come close to the vanishing point. It is an attainable objective. Personal cooperation in eliminating typhoid hazards and wide-spread typhoid immunizations are the key.

TEXAS HIGHWAY DEPARTMENT ACTIVE

Ten years ago there were 18,034 miles of State Highways being maintained by the State. Today there are 21,870 miles, and, in maintenance, our highways are second to none. A high standard of maintenance is demanded by the traveling public and furnished by the State Highway Department. Where formerly maintenance consisted of keeping drainage ditches open and a satisfactory riding surface, now many kinds of traffic service are furnished.

There are over 130,000 signs and markers on State Highways, and, of these, 65,000 show the U. S. and State Route number; 32,010 are yellow caution signs of various types, and the balance is made up of signs indicating the distance to cities and towns; city limit markers; county line markers; speed limit signs, and others. Many signs have been reflectorized for night driving, and soon 75 per cent of all the caution signs will have been reflectorized.

In the past 8 months 6,608 miles of highways have been center striped, and 875 miles of shoulders were stabilized in 1938. The money available for construction will not permit replacement of all narrow bridges at one time, so reflector buttons have been installed in the end posts of all bridges having less than 4' greater width than the paved approach. Steel plate guard fence or a row of guard posts have been installed at these bridge ends to help channel traffic.

A recently adopted practice is to install reflector buttons in the guard posts around the outside of sharp curves, and at night these buttons show up like a row of lights, indicating the curve.

One of the most noticeable improvements was the providing by the Department of standard type rural mailbox supports, replacing the thousand and one old, ragged looking supports; and the graveling of shoulders at mailbox locations. The cost of this work has been more than offset by reduction in maintenance work since the supports are easily movable and shoulder maintenance at these points has been reduced to a minimum.

One Of Frank Norfleet's True Funniest Stories

The statement Frank Norfleet, the bad man catcher, is giving in this issue of The Enterprise as to the fine results he has had from the treatments he has taken at Grogan Wells Sanatorium in Sweetwater, reminds us of one of the funniest stories we ever heard him relate.

It was a few weeks ago that we met him at Grogan Wells and engaged him in conversation. He was so entertaining with his stories as to his experiences in running down criminals that before we knew it, we had spent almost the whole afternoon, sitting and listening to him narrate the episodes he has been in. Some were tragic, all were adventurous and some were humorous.

One of the funniest stories, to us, that Mr. Norfleet related was an incident in his early life as a cowboy. He was living in Oklahoma, on the banks of the Canadian river. The little town, just a country post office and store, was on the opposite side of the river from the home of the justice of the peace. The justice was a typical old time frontiersman. He was getting a little old and weighed about 225 pounds. The day came for the high court of the justice to be held. It had rained terrible rains and the Canadian was full from bank to bank. The old justice, Norfleet and two or three other cowboys went down to the crossing on the river and it was not fordable. The old justice said that he simply had to get across the stream—that important cases were pending in his court that day. It was decided to take the bed off the wagon and set the bed afloat in the stream and make a boat of the bed. That was done. A box was set in the center of the wagon bed and the only law book the old justice had was placed high and dry on the box in the center of the bed.

The crude boat made out of the wagon bed was set adrift in the roaring, raging stream. The Canadian river when bank full is a whirling, roaring, raging stream. The wagon-bed boat got out about middle of the stream and got into one of those whirlpools. Norfleet said it swirled around so fast it made all of them almost dizzy—when, just at that moment the wagon-bed boat became a total wreck instantly right out in mid-stream. The occupants were all hurled into the water. All were good swimmers except "his oner", the court. He, being so fat and clumsy, could not swim much. Some of the cowboys saw the statute book finally tumble off the box it had been floating on and was going down.

One of the cowboys yelled, "save the statutes." "His oner," the high justice, was paddling for dear life, trying to keep his head above water.

When the justice heard the cowboy yell to save the statute, the old justice yelled out, "save the statute, h-ll—save the court," thus showing that the court regarded itself as more important than the statutes.

Thus on though the afternoon, this crook-catcher told story after story. But, we think the one above was his best.

WANTED—I want to do your quilting. Satisfactory work, prices right.

When Buying a Cookstove Consider this fact:

More Perfection Oil Stoves are
in Use Than All Other Makes

There's a Reason!

Perfections are the world's most popular oil stoves, and have been for 50 years. There are more Perfections in use today than all other makes.

"Table-Top" Perfection Range K 906

There must be a reason. There IS a reason: Perfections give the greatest SATISFACTION. They give the greatest satisfaction because of excellent performance and long life.

When all things are considered—cooking speed, cleanliness, adjustability for any degree of heat desired, baking ability, movability, and ECONOMY—no other cookstove has so many desirable qualities as the modern PERFECTION with its HIGH-POWER burners.

SHOE SHOP REMOVAL NOTICE

This is to advise all my patrons in Coke and Western Runnels county and all others who may chance to read this that I have moved my boot and shoe shop across the street directly in front of where I formerly was, next door to West Texas Utilities Company. So, let all take notice and call to see me in my new location—for, I have a much better shop in which to work.

REMEMBER:

To give your boots and shoes that need repairing to Melvin Evans, the Bronte-Ballinger mail carrier, and he will bring them to my shop, they will be repaired and returned to you. This is true at Marie, Maverick and Norton the same as at Bronte.

noon, on the creek, east of Tennyson near the C. W. Derrick farm home. All are looking forward and are expecting a great time.

ICE
Announcement

To all my friends and the people generally in Bronte and throughout the Bronte country:

I am glad to announce that "I am in again." I have bought the interest of Oliver Pittman in the Banner Ice Company's business in Bronte and have taken charge of same.

Folks, I am here to serve you. I have happy memories of the kind way the people treated me when in business in Bronte heretofore. And as I come back again now I invite each and all to come to me for their ice needs. And when you have poultry or other saleable country produce I will appreciate an opportunity to buy it from you. The top of the market prices will always prevail. I know the produce business and will always work to the advantage of those who sell me their produce.

As to the ice business I will have my regular routes both in town and through the country and will try to serve you promptly and courteously.

I will also have my feed mill located at my place of business, and will grind corn meal and all kinds of feedstuff. My prices are 10 cents a hundred, except for corn meal. I charge one-half cent a pound for grinding meal.

Folks, I sure will appreciate your patronage.

Wednesday Night
"YOUTH TAKES A FLING"

Futha Higginbotham happened to a serious accident Wednesday afternoon. He roped a cow and somehow his finger got caught in a twist in the rope and one of his fingers was jerked off, with one of the tendons of the lower arm being jerked out with the finger. He was carried to San Angelo for treatment, but is now at home and resting well as could be expected.

Mr. and Mrs. Clitus Smith went to Dallas Monday, where Mr. Smith will undergo an operation for trouble in his head. The report is that he is quite ill from the preparation being made for an operation, which likely will be today.

A. J. Muston is among the number who has moved his figures in advance on our subscription books for which we thank him—we wish many others would follow Mr. Muston's fine example. Thanks.

Mr. and Mrs. Delbert Walton and little daughter of Big Spring, spent the week-end in Bronte visiting Delbert's parents, Mr. and Mrs. W. C. Walton.

Mr. and Mrs. Minot McWilliams of Wingate were Sunday visitors in Bronte. The McWilliams were formerly residents of the Bronte community.

**15 Coke County
Boys Enrolled
In CCC Camp**

The following fifteen boys from Coke County have just been enrolled in CCC camp at Brownwood, Texas: Ester Eugene Alberts, J. M. Berry, D. C. Brunson Jr., Edward B. Buford, Robert L. Buford, William B. Hawkins, E. H. Ivey, Thomas B. Jones, Leslie Lofton, Favian Minjarez, Vernon D. Muston, Edsel J. McDaniel, Joe E. Scott, J. W. Vanzandt and Johan M. Vosburg.

Since the beginning of this program, more than one hundred thousand boys in Texas have been enrolled in the Civilian Conservation Corps. There are at the present time thirty boys from Coke County enrolled. Allotments totaling \$660.00 per month are being returned to these boys' beneficiaries.

These young men were selected between the ages 17 and 24; they were not attending school, were unemployed, physically fit and selected because of their

**Ship Your
WOOL and MOHAIR**
to the
Wool Growers
Central Storage Co.

(Federal Bonded Warehouse)
San Angelo

For more than 30 years the "Wool Growers" has been handling wool and mohair to the satisfaction of its customers throughout the wool producing section. An experienced sales committee is in charge of each sale.

Loans are solicited on wool, mohair and livestock

THIS COMPANY ORGANIZED IN 1909

good reputation and character in their community.

Each enrollee is paid \$30.00 per month, \$22.00 of which is sent for their families' use. The monthly payment is earned by the CCC enrollee who works seven hours daily, five days each week, performing various kinds of work in and around the camp. The boys will be given an opportunity for training in citizenship as well as useful skills that will help to make them self-

sustaining, valued members of society at the expiration of their enrollment. The boys are properly housed in the camps, given good substantial food and outdoor exercise which builds up both their minds and bodies. They are given every opportunity to broaden their education. All activities are supervised by Army officers, trained engineers and teachers. They learn to work during work hours and to enjoy various kinds of recreation during their free time.

BUTANE GAS IS THE THING
For Heat And Cooking

On Farm, and Ranch, or in the town where you have no other gas connection.

Ask the Users of Butane

Whom you know what they think of Butane and Butane systems—some of your most prominent citizens in town and country are users of Butane.

See or Write Us

And we will contact you at once and give you all the information about installation and costs, etc.

J. Frank Norfleet
Says:

"After a serious automobile wreck which injured my neck and thereby impaired my hearing, a leading Specialist of New York City recommended skilled Chiropractic treatments. I IMMEDIATELY took the first Airplane for Sweetwater to place myself under Dr. A. W. Canfil's care for I consider him the peer of all in Chiropractic work. I am overjoyed at the wonderful results I am obtaining and in seeing so many others restored to health. Grogan Wells Sanatorium offers the most skilled and complete Drugless service I have ever found. I hope all my friends who need better health will write Dr. Canfil for such HEALTH information as you require or better still come immediately for one of his free examinations."
