 3:00 Sermon

—Committee

"HEALTH" WAS TOPIC OF MRS. PERMELIA REED BEFORE P.-T. A MEET

Mrs. Permelia Reed gave an interesting talk on "Health" when the Bronte P.-T. Association met Tuesday, April 10, 1945. It was decided to send the president and one delegate to the Big Spring District Inspirational Meeting. The nominating committee gave a report of nominating the following for the 1945-1946 officers: Mrs. Alfred Taylor, president; Mrs. C. E. Arrott, vice-president; Mrs. Clifford Clark, secretary; Mrs. Marion Mitchell, treasurer. The report was accepted by the PTA.

NOTICE, PEANUT MEN

Because of conditions the peanut seed were not distributed to the growers last Wednesday—but, Wednesday, April 25, is the day the peanuts will be at Bronte. If you want peanut seed be here that day.

Mrs. E. C. Rawlings is recovering from an injury she sustained some time ago when she fell and injured her head.

BRONTE SR. WOMEN'S H. D. CLUB MEETS WITH MRS. CHARLIE KEENEY

The Bronte Sr. Women's H. D. Club met Wednesday, April 18 in the home of Mrs. Chas. Keene, with Mrs. Keene as hostess.

Miss Croslin, Home Demonstration Agent, met with the club at this time.

With the club president, Mrs. O. W. Chapman, presiding, a short business session was held. Mrs. Chapman appointed the following committees:

Year Book—Mrs. Ira Loyd, chairman; Mrs. Frank Keene, Mrs. Donald Huffaker.

Education—Mrs. Chas. Keene, chairman; Mrs. J. D. Leonard, Mrs. Frank Keene.

Recreation—Mrs. J. D. Leonard, chairman; Mrs. Chas. Keene, Mrs. Fred McDonald.

Marketing—Mrs. T. F. Sims, chairman, Mrs. Leonard Keene, Mrs. A. Hanson.

Reporter—Mrs. D. M. West, chairman; Mrs. Jess Percifull, Mrs. O. E. Allen.

Exhibits—Mrs. Frank Keene, chairman; Mrs. Donald Huffaker, Mrs. H. M. Robinson.

Expansion—Mrs. I. E. Loyd,

UNION H. D. CLUB MEETS IN THE HOME OF MRS. AUSTIN SANDUSKY

The Union H. D. Club met in the home of Mrs. Asutin Sandusky, Tuesday afternoon, April 17th. Eight members were present, and one new member, Mrs. Letha Sandusky, and five visitors, Mrs. Jim Simpson, Mrs. Gunn, Mrs. Ray Coalson, Mrs. John Warner, Miss Mary Louise Sandusky.

The meeting was called to order by the president, Mrs. John Coalson. Mrs. A. M. Wynne led the Lord's prayer. Each member answered roll call with their favorite fruit.

For our Exhibit Committee, Mrs. J. R. Johnson, chairman; Year Book Committee, Mrs. M. A. Butner, chairman; Education Committee, Mrs. Louise Ivey, chairman; Recreation Committee, Mrs. F. S. Higginbotham, chairman; Reporters Committee, Mrs. Felix Allison, chairman; 4-H Club Committee, Mrs. John Coalson, chairman; Expansion Committee, Mrs. Austin Sandusky, chairman.

For our recreation period Miss Lela Warner led in games. After a short business session Miss Fay Croslin, Coke County Demonstration Agent, gave a demonstration on food preservation—drying, canning and freezing. Ice cream and cake were served.

The club adjourned to meet with Mrs. F. S. Higginbotham May 8, at 3 P. M.

The club is sponsoring the clothing drive for the European countries. Each member will bring their donation to Mrs. Johnson's drug store in Bronte, and leave it.

Mrs. Felix Allison, Reporter.

chairman; Mrs. R. R. Ash, Mrs. Hermon Rogge.

4-H Club Sponsors—Mrs. Jess together with similar committees of other clubs in the county in cooperation with the council committees of the same phase of work.

The club decided to donate to the National Clothing Drive any articles left over from the rummage sale held recently by the club—also any other suitable clothing they cared to donate. The articles are to be turned over to the finance committee to be later sent to Miss Croslin at

LOMETA H. D. CLUB MEETS IN HOME OF MRS. J. C. HARWELL

The Lometa H. D. Club met in the home of Mrs. J. C. Harwell Monday, April 10, 1945.

Food Preservation, Drying, Canning and Freezing were demonstrated by the Agent, Miss Fay Croslin, after the business session.

Delicious refreshments were served to Miss Croslin, six members and a visitor, Mrs. Kelly Haselden of Bronte.

The next club meeting will be with Mrs. Bert Blaylock, at 2 P. M., April 23rd.

Percifull, chairman; Mrs. I. E. Loyd, Mrs. D. M. West.

Finance—Mrs. Leonard Keene, chairman; Mrs. Floyd Modgling, Mrs. A. Hanson.

These committees are to work Robert Lee to be placed with clothing from clubs over the county. These articles should be turned in as soon as possible.

Each member of the club was asked to donate some article that she thinks would be readily salable for a Bazaar. The proceeds of this Bazaar to be used to buy a book for a Circulating Library to be worked out by the County Council. These articles may be turned over to the Exhibits committee. The date and places for the Bazaar will be announced later.

After the business session Miss Croslin gave a very interesting talk on the different ways of food preservation, namely brining, drying, canning and freezing, with demonstrations on canning fresh snap beans and tomatoes. Miss Croslin asked that specific directions for canning these two articles of food be included in the club report for the benefit of any non-club members who might be interested. Her directions follow: For snap beans, as for all other foods, Miss Croslin specially stressed quality of food to be canned as she stated the quality of food of course could not be improved by canning. If we use first quality with good canning methods we have first quality foods canned while if we use an inferior product the canned product will be inferior no matter what method we use. In canning beans she stated: wash beans and cut with a sharp paring knife, to prevent bruising; after placing one teaspoon salt in bottom of jar put beans directly in jar till jar is heaping full. Place in container with rack on bottom of container—leaving lid off jar or can. Fill container to within one to two

Methodists at Robert Lee, Honor Members in Service

Rev. W. Vasco Teer, pastor of the Robert Lee Methodist church, requests The Enterprise to announce that the church will have a special service next Sunday evening, beginning at 8 o'clock, honoring the boys and girls of the church who are in the service.

Rev. Teer said: "We will have readings and special music. We have about forty-five on our Honor Roll. Their names will be called and a candle will be lit to represent each one. A service flag will be placed in the auditorium. "A cordial invitation is extended to each and all, everywhere, to attend this service."

inches of top of jar. Steam without pressure for 8 minutes for pints and 13 minutes for quarts. Count steaming time from the time steam escapes from the pitcock. Remove the jars, press beans down and if not full finish filling from another jar. Be sure that the beans are well covered with liquid. For self-sealing lids should be well tightened before placing back in cooker—but jars with glass lids should be loosened one-fourth way back before placing in cooker. Water should be only warm to prevent breakage of glass jars. Process at 10 pounds pressure 30 minutes for pints and 35 minutes for quarts.

Tomatoes should be placed in a wire basket or cloth and dipped in boiling water for 1 minute. Have jars ready with 1 teaspoon salt to 1 quart; 1-2 teaspoon to 1 pint, placed in bottom of jar. Skin tomatoes and pack whole in jar as tight as possible. Place in water bath cooker on rack and fill cooker within two inches of top of jar with water; steam 10 minutes, refill jars with hot tomato juice or tomatoes from one of the jars. Tighten lids perfectly tight, place back in waterbath and fill cooker to well over jar, to at least one inch; cook, counting from time water begins to boil. 25 minutes for pints; 30 minutes for quarts and half gallons.

After the canning demonstration by Miss Croslin Mrs. Fred McDonald who had charge of the recreation period, gave an interesting contest having to do with foods. Sunshine gifts were distributed to Mrs. Leonard

TENNYSON H. D.
CLUB MEETS WITH
MRS. ROBERT IRA BROWN

The Tennyson H. D. Club met

Thursday afternoon, April 12,
with Mrs. Robert Ira Brown.

Miss Croslin, County Agent,
met with us and demonstrated
canning and drying of vegetables
and talked on other fruit and
vegetable canning and drying
methods.

Refreshments of cake and
punch were served to eleven
members and three visitors.

We will meet with Mrs. Claud
Ditmore on April 26. Living to-
gether in the home will be the
topic and each one is to bring a
gift for the grab box gift.

TENNYSON 4-H CLUB
GIRLS HOLD MEET
AT THE SCHOOL HOUSE

The 4-H Club girls of Tennyson
met at the school house, Tuesday
afternoon, April 10.

The girls made aprons. Our
president and secretary traded
offices and now we have Dar-
lyne Miller for president and
Wanda Brown as secretary. Mar-
ry is song leader, Louella club
delegate, Dorothy Ellen as sec-
retary and Hazel Irene James
as club reporter.

No Runts among these grunts

A LOT of credit goes to our Agricultural Colleges and
Experiment Stations where men spend their lives
working out improved methods of breeding and feeding.
For example, E. F. Ferrin, head of the swine division
of the University of Minnesota, recently ran a feeding
test with seven lots of pigs. He found that too small an
amount of protein in the ration produces more runts,
slower gains and less profit.

All pigs in the test started at an average weight of
50 pounds and were self-fed without
pasture for 14 weeks. All seven lots re-
ceived the same kind of protein supple-
ment which was tankage and
soybean meal in equal parts
with 10% alfalfa meal to sup-
ply adequate amounts of B
vitamins. Some lots got a
high-protein ration (18% of
the total feed); others were cut down to 15%
and 12% protein. As pigs get heavier, they
need less protein, so in some lots the amount
of protein was reduced as they gained in weight.

The best results came from an 18% protein
ration until the pigs reached 100 pounds, and
15% protein after that weight. The hogs on
low-protein rations made smaller gains and
were more uneven in individual weights when
the test ended. By just such careful experi-
ments, the "know-how" of hog raising has
reached its present efficiency.

E. F. Ferrin

There's More Money in Eggs

if you: 1) collect them
often, 2) cool them promptly,
3) keep them clean. All
this improves their grade
and therefore means a better
price to you.

SULPHUR FOR LAMB COCCIDIOSIS

Coccidiosis in lambs may be successfully prevented
by the addition of ground crude sulphur to their feed
in proportions ranging from 1/2% to 1 1/2% of the
ration, claims the Idaho Wool Growers Bulletin.
Effectiveness of this sulphur treatment has been
demonstrated by the U.S.D.A. working in coopera-
tion with large lamb feeders, the report states.

CATFISH CAN'T RAISE CORN

Nature has equipped catfish with
feelers so they can find their way
about in muddy, silt-laden rivers.
Most of that mud and silt is rich
topsoil from once fertile farmlands;
the type of soil that should still be
producing 50 to 100 bushels of corn.

Catfish can't use that fertile mud to raise corn,
and that's too bad. Because right now, America
needs all the corn it can produce. There's no need
to let catfish have any part of your farm. Your top-
soil can be saved. Soil conservation practices hold
the raindrops where they fall, control water erosion,
stop gullying, stabilize the soil. The Agricultural
Extension Service of your State University will be
glad to help you work out a special program to fit
your farm.

Through soil conservation practices fertility is
maintained, crops make better yields, carrying capacity
of pastures is increased, more and cheaper feeds
are provided for livestock. All this means more
money in the farmer's pocket. Swift & Company
believes that whatever helps livestock helps all of
us—producer, meat packer and consumer. To you
as a producer, we earnestly suggest that an investi-
gation of soil conservation
land management may be
worth your while.

F. M. Simpson,
Agricultural Research Dept.

Keep Your Cream Checks Up!

If you've noticed that the cream content of your milk
goes down at this time of year, it may indicate that your
dairy cows are not getting all the feed they need for
heavy production. Those first blades of grass aren't as
good as they look, for they won't give the cows all the
proteins they require. So don't turn your dairy cattle
out to graze and expect them to take care of all their
feed requirements with early pasture.

Supplement their spring ration of grass with grain and
protein supplement mixture, and hay... grain and pro-
tein supplement for milk production, hay for necessary
roughage. This tonic is sure to put new spring in the
step of an undernourished cow.

The best indication of contentment in the dairy herd
is the butterfat test of your milk!

\$5 IDEA Salvage metal pails or tubs
which have holes in the bottom
by pouring in a half-inch of
concrete. Let stand a week before using. Makes
them a trifle heavier, but serviceable.

—Mrs. A. L. Mishimon, Wellsville, Kans.

SODA BILL SEZ: That you can't make
fat hogs on slim rations.

That money invested in War Bonds buys
tanks today—tractors for you tomorrow!

A Martha Logan Recipe for PARTY-STYLE MEAT PIE

To serve four, buy 1/2 pound of table-ready meat loaf—
either minced ham, New England cooked speciality or
bologna. Dice. (Or, if you prefer, use 1 1/2 cups of cubed
beef.) Mix 2 tablespoons flour with 1 teaspoon salt and
dash of pepper. Dredge cubes of meat in flour mixture.
Brown in 2 tablespoons of melted fat. Add 1 medium
onion which has been diced, and brown. Combine with
1/2 cup each of cooked green peas and cooked sliced car-
rots. Cover with hot water or leftover gravy. Pour into
a deep, wide casserole. Top with mashed potatoes. Bake
in a hot oven (450° F.) about 20 minutes, or until pota-
toes are browned. Serve with a fresh fruit salad, hot
rolls and dessert.

LOST! A MILLION EXTRA ANNUAL MEAT RATIONS

Approximately 200 million pounds of meat a year are being
wasted as a result of bruises, crippling and death losses of live-
stock in transit to market, according to H. R. Smith of the
National Livestock Loss Prevention Board. This Board has
found that all of us who have to do with the handling of live-
stock can help save much of this needed meat by following
these simple rules:

1. Inspect chutes, trucks and cars for nails and rough corners.
2. Do not overload or jam animals. Partition mixed loads of livestock.
3. Never beat or prod with whips or clubs.
4. When trucking, start and stop with caution; watch for bumps, ruts and sharp curves.
5. Check your load frequently. Livestock shift in transit.

By observing these simple rules, we can all cooperate in cutting
down this loss of a million extra meat rations a year; and we
can help contribute to the nation the additional meat supplies
which it needs so greatly right now!

\$5—IDEA WINNER—\$5

1. Keep first aid articles—tape, gauze,
iodine, etc.—handy in a glass jar
in the kitchen, workshop or barn.
Also keep nuts, bolts, and nails
assorted as to size in glass jars.
2. Use a salt shaker in planting small
seeds in vegetable or flower gar-
dens. They are distributed more
evenly.

—Z. A. Dine, Borger, Texas

U. S. IS TOP BEEF PRODUCER

Farmers and ranchers in the United
States raise more cattle for beef than
in any country on earth. We have a
third more cattle than Russia, twice
as many as Argentina or Brazil. There
are actually more cattle in India, but
there the cow is sacred and not used
for food.

This is an illusion

but this is NOT!

The average American family gets about twice as much electricity for its money today as it did 15 years ago

Yes, the first is a *trick*, but the second is a *fact*—a fortunate fact for you.

By using more and more electricity over the years, you've helped us reduce the price to a point where the average family now gets about *twice as much* electricity as it did 15 years ago for the same money.

Keeping the price of electricity pinned down to the floor in wartime is a much tougher job than keeping a pin-up girl floating in mid-air!

It takes much more than magic. It takes careful planning, hard work and good *business* management.

formation from this headquarters. If at first you do not heard from them as often as you would like, please, understand that they have been through a long and arduous campaign against the enemy. They did a splendid job, and are now undergoing a period of readjustment. Please write them as often as possible as your letters mean so much to them. When writing please make certain their full name, army serial, Company, unit designation, and APO number.

To all of you who were worried and could not understand why you could not hear from your loved ones direct, it may now be stated that they were a part of the mass task force which was engaged in a long hard fight in Burma. We are certain you have heard through your local newspaper, magazines or radio of the large part they played in our victories over the enemy in this theater. They were instrumental in developing the re-opening of the Burma road which will have a great bearing on our achieving final victory.

We are all proud of their splendid achievement. You, too, should be proud.

For the commanding officer, Thos. J. Dalton.
