WILLIAMS FAMILY HAS REUNION

The Williams family reunion was held in the American Legion park in Bronte on Sunday, August 4, with a barbecue dinner honoring the safe return of 12 members of the family who served with the armed forces in all parts of the world.

This is the family of the late J. M. and Mrs. Williams, who came to Bronte and settled on land, on part of which the town was built in January, 1890.

This pioneer family had much to do with the shaping of Coke County's early history, for Mr. Williams helped to organize the county, the family were charter members of the Bronte Methodist Church. Ten children were born to the union, five of whom survive and were present for the occasion. These include Walter Williams of Seminole, R. M. of Rotan, Eugene of Abinene, John of Las Cruces, New Mexico, and Mrs. Dan R. Campbell of Robert Lee.

SCHOOL STARTS SEPTEMBER 2

Supt. Jeff Dean announced today that school will open for the fall term on Monday, September 2, news which all youngsters had been eagerly awaiting.

Buses will run on September 2, and students are expected to report at 9:00 A. M., but should be registered and over with formalities by noon.

Regularly scheduled classes will begin on Tuesday, September 3, Supt. Dean disclosed.

Preceding the registration requirements, the faculty of the entire school system is called to meet on Saturday, August 31, at 3:00 P. M. in the high school to work out plans for registration on Monday and regular classes on Tuesday.

Supt. Dean reported that Mrs. George B. McCrary had been hired to teach in the intermediate grades, but that still another teacher was needed for those grades. He hopes that such a teacher will be available by the time school starts. There is also need for a high school history teacher, preferably a man, who could

help Coach H. R. Gassiot with the school athletic program.

Coach Gassiot recently returned from the coaching school held in Corpus Christi, and reported he had learned a lot of things there that boded ill for the Bronte football opponents this fall.

Supt. Dean also noted that Marion Mitchell had been hired as school janitor.

"We've also started the installation of a butane system," Dean declared, "and it will be in full shape by the time cold weather comes."

Dean noted that the shower house was nearly completed, and should be ready when school starts. "It'll be nice for the boys," he said, "and we only hope they'll try to take care of it, for it involved quite a sum of money and should serve for a long time."

So don't forget, go to school to register on Monday morning, September 2, and be ready for classes next day. Good luck!

HERE 'N THERE

Gubernatorial candidate Beaufort Jester sped through Bronte last Tuesday afternoon at 1:45, but made no stop to meet people or shake hands as his opponent, Homer Rainey, had done here in Bronte previously. Jester supporters here were dismayed that their candidate did not stop in Bronte, while Rainey backers were happy to point out that their candidate had campaigned in Bronte and Coke County.

Otis Brunson was a Bronte visitor, Sunday, and reported a grand time. Now in Angelo, Otis declared there was no place like Bronte, for the people here were so friendly and cordial, and he sure did like that.

Mr. and Mrs. M. D. Nunnally, Jr. of Jacksonville, Texas, were Bronte visitors last Tuesday. M. D., cousin of the editor, brought out 20 bushels of East Texas yams, and had no trouble at all in disposing of his supply. He expects to return with a load of maize, as he and his father are engaged in farming in Jacksonville, but sure do like it out here in West Texas. M. D. formerly attended San Angelo College, and he and Mrs. Nunnally are also visiting with the editor's mother in San Angelo.

Jeff Dean was an Angelo visitor last Tuesday, while C. R. Smith was over there for a bit of flying.

R. T. Caperton reports that he's had no response to his plea for bathing beauties to enter an Angelo contest today. He'd wanted pictures and an application or so from interested parties in or near Bronte, but said he'd no nibbles as yet. Bashful, maybe.

There have been no further developments to report or the submitted resignation of C. R. Smith, water commissioner. Mayor Noah L. Pruitt declared no action had been taken on the matter, and asserted that Clytus had done more work as a Council member than all other members put together.

During the week, little reaction was observed, although several complained their water supply was off, others charged their meters did not register correctly, some contended they did not use as much water as charged with, and everybody wished it would rain.

The editor still maintains a standing offer to debate any supporter of Homer Rainey's opponent in the runoff campaign. The debate could be held anywhere nearby, to suit the speaker's convenience, and as before, the editor, who is supporting Homer Rainey, challenges anyone to debate the campaign issues. Any takers?

Mrs. D. M. West is opening a dress shop which is located in the West Apartment building on the ground floor. She invites her friends to come down to see the latest fashions and creations.

Nathans in Angelo now has its air-conditioning system working, and it's the darndest thing you ever saw. Women with fur coats are invited in, and if the coats are large and heavy, the wearers should not be too cool. Otherwise, don't say you weren't warned, but really, it's the polar regions brought to Angelo, jewelry and all!

Tuffy Sims was in Angelo, Tuesday, while visiting the doctor.

Anne Franklin took in a show in Angelo, Monday night, but was irked because she'd seen it before. Anne says the drive-in is fine.

Mrs. J. W. Warner dropped in the other day for a brief round of visiting.

J. W. WARNERS HAVE REUNION

Four generations of children, grandchildren, and great-grandchildren met in the home of Mr. and Mrs. J. E. Warner of Anson on August 7, 1946, for a gala occasion, and family reunion.

J. W. Warner, father of J. E., is 78 years of age and is an active member of the Baptist Church. Not only does he walk to town, but he manages to do lots of odd jobs around his home. Mother Warner is also active in church work, and does a lot of visiting besides.

Those present for the occasion were: Mr. and Mrs. J. W. Warner, Mrs. Monroe Alexander, Mrs. Noah Pruitt, Mrs. Pat Beavers, Mr. and Mrs. Merl Andrews, all of Bronte; Mr. and Mrs. J. E. Warner of Anson, and Mr. and Mrs. Earnest Warner of Portland, Oregon.

Grandchildren there included the following: Mrs. Billy Dan Labenske, J. L., Eddie Roe, and Billy Alexander, Warren and Dean Beavers, and Vernon and Don Andrews, all of Bronte. Also Mr. and Mrs. Jethel Warner of Anson, and Jean and Wayne Warner of Portland, Oregon.

Among others present was one great-grandchild, Cleon Warner, baby of Mr. and Mrs. Jethel Warner. Others included Mr. and Mrs. Todd Roberts and sons, Todd, Jr. and La Dell of Anson; Mr. and Mrs. W. E. Spencer of Anson; and Mr. and Mrs. Earl Spencer and son, Winford Hawley.

TRAFFIC DEATHS INCREASE

Texas traffic deaths jumped 47 per cent in the first six months of this year compared to the same period last year, N. K. Woerner, chief statistician of the Department of Public Safety, announced today.

The six-month toll was: Killed, \$74, Injured, 30,346; Economic loss: \$26,141,075.

This compared with 594 killed and 20,790 injured in the previous period. "The increase continues to be greater with each succeeding month," Woerner pointed out.

Most dangerous today are highways and the small towns through which motorists are prone to pass at high speed. Highway fatalities are up 66 per cent. Towns of 2,500 or less population recorded a gain of 70 per cent.

Most such towns have little or no traffic policing, and enforcement on the highways is grossly inadequate because the Texas Highway Patrol's 125 cars are limited to 100 miles a day by depleted funds, Woerner said.

In the cities, with increasing emphasis on safety programs and scattered additions to police personnel, the increase was only 22 per cent.

The pedestrian continues to be the number-one target of death in city traffic, Woerner pointed out. For the entire state, 217 pedestrians were killed in the half-year, and a 1946 total of 485 was predicted.

ALLRED SPEAKS FOR RAINEY TONIGHT

Former Governor James V. Allred will be in San Angelo tonight at 7:30 to speak in behalf of the candidacy of Homer Rainey for governor, and Coke County friends and supporters of Homer Rainey are urged to attend this huge rally, which will be held on the Courthouse lawn.

Allred, one of the most popular governors Texas ever had, has been active in Rainey's campaign, and this speech is only one of many that are being planned.

Although the rally will be held in Angelo, friends of Rainey from half a dozen counties around here will be on hand for the program. Quite a few folks from Coke County have already indicated plans to be there, and others from Concho, Sterling, Irion, Schleicher, Runnels, and Tom Green counties will be on hand to hear Allred discuss the campaign issues.

Part of the speech will be broadcast, but the main program will be from the Courthouse steps tonight at 7:30, and Rainey supporters are urged to be there.

Mr. and Mrs. Jess Percifull left Sunday for San Antonio to take their daughter, Marjorie, back to work. She came Friday for a weekend visit, and during their absence, Noel is being assisted by his brother, Wayman, of Lamesa. Wayman and his wife and two children, Wayman Allen, and Denzel, expect to be here a week.

EDITOR'S MAIL BAG

Seoul, Korea.
23 July, 1946.

Dear Editor:

Well it looks like I have finally hit my destination. I was really proud to get settled down a little, too.

As you can tell, I am in Korea. It is located between the Yellow Sea and the Sea of Japan. It is a peninsula. The people are like the Chinese and Japanese. They are a very peculiar bunch. They really hate the Americans, and they don't care if you know it. However, you really can't blame them I guess, because they have been under an Army of Occupation since back in 1905 or somewhere along there.

I am stationed here at Seoul which is also known as Keijo, or Kyunsung. It is the capitol of this country. It is a town of about 700,000 people. They have street cars here, but I had rather walk, myself. They removed the seats, and people just stand up. They are so crowded that people just bulge out the windows and doors. I don't see how they can tell the conductor from anyone else, myself. They have a few rickshaws here, but only the rich ride in them. They have very few cars over here. I saw one '33 model Chevrolet going down the street the other day, and I could hardly believe my eyes. I don't know what they do for parts when the things break down.

You should see me try to talk to these Koreans. It is funnier than a three-ring circus. Some of them know quite a bit of English. The first boy I tried to talk to in Korean just stood there and looked at me, and after I finished he said, "Speak English, I understand." That got me. The Army issues us language books to use in talking to the Koreans.

They say this is a very beautiful country in the winter time. It is nearly all covered with snow. This is a very mountainous country. The mountains compare in beauty with the Swiss Alps.

Mr. Nunnally you can give the papers to my mother who will call for them, and she will send them to me in a package. That is the back issues. You can start sending them (the weekly issues) to me. I sure will be proud to see what is going on around Bronte and Tennyson. Guess, that I had better close and get to work. Thanks very much for your trouble.

Tell everyone hello for me.
Sincerely yours,
Pic. Hervey Latham.

Our Washington News Letter

By Congressman O. C. Fisher

After a year and a half in almost continuous session, the 79th Congress has adjourned and most of the members have hurried away to their homes in the 48 States. Barring the unexpected, the recess will last until next January when the newly elected Congress will convene.

During this congress many historical events have occurred. It saw Germany and Japan go down in defeat. The atomic bomb made its advent. The United Nations Organization, giving hope for permanent peace, was created and ratified by the nations of the world. President Roosevelt, on the verge of seeing his dreams of victory and peace come true, was stricken in untimely death. Harry Truman, the man who didn't want to be President, was sworn in.

On the home front America, so powerful in war, has seen its reconversion program in peacetime retarded by a wave of strikes unprecedented in this or any other country. This Congress, a fairly conservative one, has struggled with domestic problems amid the demands of various conflicting groups. The overall success of the session will be measured not alone by laws that have been enacted but also by what was not done. The prevention of the passage of a law may be more important for the country than the passage of one. It depends on the subject.

In the closing days of the session, the House and Senate got together on a resolution designed to reorganize Congress. The measure has been highly publicized as a "streamlining" action. It is doubtful that the new program will create any miracles, but it is certain that many of the procedures that have hardly been changed since Jefferson's time will be modernized. There are now 48 standing committees in the House, many with overlapping jurisdiction, and this number will be reduced to only 19. The committees will be staffed with expert help. It all lends hope to an improvement in the present set-up and a more efficiently operated Congress in the future. The measure also increases congressional pay and provides a pension plan which is supposed to be self-supporting eventually. However, I voted against these two provisions.

Recess Plans

Beginning on August 15 my office in the Post Office Building in San Angelo will be open. The office in Washington will remain open throughout the recess period where all mail addressed to me at the Capitol will receive prompt attention.

During the recess period, which will likely continue until January, I will be in the San Angelo office or visiting over the district. Those who have problems they desire to bring to my attention may reach me by mail, telephone or even better, by personal calls.

I was requested by the Chairman of the House Committee on Immigration to go to Europe this Fall to collect certain data and information pertaining to immigration problems, but have foregone the trip in order to spend more time in the district.

By a Presidential Directive issued last December, six special consulates were opened in our occupied zone in Germany to speed the processing of immigration visas by displaced persons there under our quota laws. These applications are being screened and processed by the Army and our consular officials, and an average of 11,000 immigrants a month are now being brought out. It is most important that the number be held down and that every care be taken in the selection of personnel who are permitted to enter this country. In fact, many of us believe the quotas should be reduced during this postwar period.

There are 300,000 displaced persons in our camps in our zone in Germany. These are being cared for by UNRRA under Army supervision. The Army considers this one of its most difficult problems over there at the present time.

Farm, Ranch and Livestock News

Little change is expected in the level of harvested acreages in Texas this year. Cotton and wheat show increases over 1945, while corn, oats and peanuts are down slightly.

Drouth conditions west of a line north and south through Dallas prevented the planting of peanuts, cotton, corn, and other crops until very late. This resulted in a lower acreage.

Farmers east of this line were handicapped by too much rain. In general, feed crops are fair to good, cotton poor to fair, while rice ranges from seed just planted to fields heading.

Rice acreage remains about the same as last year, 400,000 acres. Excessive rain caused a decrease in the intended acreage, however, farmers have just completed replanting. The crop is estimated at 16,400,000 bushels, compared with 18,000,000 bushels last year.

Cotton acreage in cultivation July 1 was placed at 6,350,000 acres, an increase of 4 per cent over that of 1945. Drouth conditions in the north-west and central west reduced planting. Early planted cotton elsewhere looks good but the late crop was stunted by too much rain and insect damage may be heavy.

Corn in general looks good in color and has a chance of making at least a fair crop, although ear worms are plentiful and considerable damage will result. Wet weather at planting time caused a slight reduction in the corn acreage compared with last year. Grain sorghum in the south is making good yields.

Heavy rains and high temperatures cut watermelon production some 60 per cent this year, and harvest is practically over. Rust and mildew also reduced the cantaloupe crop. Parker County reports a record peach crop, with an estimated value of more than \$300,000. Elbertas are moving at present.

Drouth continues to hold on in northwest Texas. Although enough moisture was received in July to germinate most of the cotton and grain sorghums and give the plants a start, this part of the state is badly in need of rain. The wheat harvest is over and a large part of the land, much of it summer fallow, is ready for the next crop.

Dry weather has delayed cotton and the crop is late. Plants are dwarfy and have no subsoil moisture to draw on. The cotton acreage in this part of Texas is estimated at approximately 450,000 acres, an increase of 30,000 acres over last year. Two-thirds of the acreage is dry farmed and has only limited prospects. The other third is irrigated and has a good outlook.

While dry weather is seriously affecting grain sorghums in the north-west, the crop has a fair start and with plenty of rain from now on could make a bumper crop. This area went all-out for grain sorghums this year by planting at least 2,250,000 acres but only 250,000 acres are irrigated. Alfalfa, all of which is irrigated, is becoming of more importance in this part of the state, and acreage is gradually increasing. The best potato crop in the history of this area is being harvested at this time, and the outlook for sugar beets is quite promising.

Cotton acreage in 1945 was 6,133,000, while the July 1 estimate was one of 6,350,000 acres.

Figures on winter wheat — in 1945 Texas produced 41,778,000 bushels, and 1946 estimate was 53,946,000, but by July 15, 1946, the estimate was 53,613,000 bushels.

In 1945, Texas produced 66,832,000 bushels of corn, while the July 1, 1946 estimate was 67,456,000 bushels, according to figures released by the U. S. Department of Agriculture.

LT. AND MRS. LEWIS VISITING KEMPS

Lt. and Mrs. Hugh S. Lewis and children, Gayle, 4, and Lexye, 3, are guests in the Cecil Kemp home, where they arrived last week for a month's visit.

Lt. Lewis is Mrs. Cecil Kemp's brother, and is also visiting his parents, Mr. and Mrs. H. S. Lewis of Robert Lee. Before her marriage, Mrs. Lewis formerly lived in McCamey.

Lt. Lewis served with distinction on Luzon, where he was seriously wounded, and since that time has been in the hospital. For the past 15 months he has been in an Army hospital in El Paso, and this is the first time he has been able to get out.

The doctors believe in his eventual recovery, Mrs. Kemp related, but noted that he'd had serious wounds in the leg, when ambushed by the Japs, and that it took time to get well. The visitors have been taking it easy since their arrival, content to relax and rest.

RAINEY ADDRESSES ABILENE AUDIENCE

Homer Price Rainey, candidate for governor, addressed a large crowd last week in Abilene, where he again restated his platform in his campaign for the governorship.

In summarizing his stand, Dr. Rainey listed 11 things he is for and 6 things he is against. On the positive side, he declared himself:

1. For the finest educational system in America.
2. For a first-class public health program.
3. For removal of the ceiling on pensions and payment of the full \$40 a month to our old people; meeting our obligations to the blind, dependent children and helpless needy.
4. For reasonable increase in taxes on oil, gas and sulphur.
5. For farm-to-market roads; improvement of rural life through soil conservation, farm co-ops, scientific research and promotion of farm ownership.
6. For industrial peace so that management and labor can devote their time and energy to production instead of costly strife, the public interest to be at all times paramount.
7. For organized labor under responsible, public-spirited leadership, like organized farmers, organized business and organized professional men.
8. For genuine free enterprise for the little business man and the veteran entering business, as well as every other American.
9. For State's Right thru an active, alert state government.
10. For a constitutional amendment to prohibit a public official, while holding one office, to run for another until the last year of his term.
11. For separate schools and separate polling places for Negroes.

On the other hand, Dr. Rainey declared himself to be:

1. Against admission of Negroes to white schools.
2. Against communism, atheism, fascism, Ku Kluxism or any other "ism" contrary to our democratic way of life.
3. Against socialized medicine.
4. Against election or control of our public officials by invisible government, whether it be in the form of big business or any other group.
5. Against monopoly or destruction of the American system of free enterprise.
6. Against a general sales tax or a transaction tax.

PERSONALS...

Jeff Bernard, father of Mrs. Mac Rippetoe, was taken to the hospital, Monday, where he is reported to be resting nicely.

Bob Keyes was an Angelo visitor the first of the week.

Mrs. F. S. Higginbotham and Betty Jane were in Angelo, Monday, where they were to meet Mr. Higginbotham upon his return from San Antonio.

He went there two weeks ago for an operation, and was to fly home, "the first time he'd ever been up," Mrs. Higginbotham related.

Betty Jane said she was about ready for school, as nearly as could be expected.

Jimmy Allen was also an Angelo visitor the first of the week.

C. A. Best reported lots of good luck on his chickens for sale want ad. "Sold about 20 the first day," he chuckled.

Feeder Supply in Angelo, in the person of Winston Newberry, reported it was snowed under as a result of its want-ads in the Bronte Enterprise.

"We could have sold hundreds of those print bags," Winston said, "if we'd only had them." As it was, he went on to say, they had visitors, callers, phone calls, and letters in reply to their Bronte Enterprise ad.

Lester Webb, too, said they had long-distance phone calls about their stoves for sale.

That is proof again that want-ads in the Bronte Enterprise pay off. Have you got something to sell, or something you want? Try a want-ad in the Bronte Enterprise.

Cussie Taylor, over at T. W. Taylor and Son Furniture Company in Angelo also reports success with his want-ads.

Mrs. D. M. West recently recovered her lost pig, Mr. Allison got a tire and tube back, and all through a want-ad in the Enterprise. The cost is low, the results will amaze you.

Allan Shivers Is People's Favorite

Senator Allan Shivers, in thanking the voters of Texas for the heavy lead they gave him in the July primary to make him the favorite candidate for

lieutenant governor, also warned citizens that attempts will be made by "scheming minority pressure groups" to defeat him in the August 24 run-off. The Jefferson County legislator, lawyer and farmer, pointed with pride to the overwhelming support which he received in his present home county and in the county where he was reared to manhood. Shivers, a World War II combat war veteran (the only veteran in this race), polled approximately 75 per cent of the votes in Jefferson County, his present home, and was a 25 to 1 favorite over his run-off opponent in Tyler County, where he spent his youth. Senator Shivers led his runoff opponent by approximately 100,000 votes in Texas. "I am deeply grateful for the confidence the people of Texas have shown in me and the progressive program for Texas which I advocate," Shivers said "I shall strive even harder to work for the welfare of Texas." "Because I represent the masses of the people, there will be those in the runoff campaign who will conspire to defeat me," Shivers predicted. "I will not be swayed by these radical, minority groups - the C. I. O. noisemakers in particular. My opponent is welcome to the support which they are giving him. I will continue to fight for the right and welfare and progress of our people who make up the backbone of Texas." (Paid Political Adv.)

A Long Cool Summer Drink

Iced-Coffee drinks are versatile and easy to prepare. Plain iced coffee, shown at left, is tops if you pour fresh hot coffee over the ice cubes. Brew it double-strength by using twice the usual amount of coffee or half the usual amount of water.

Also excellent is home-made coffee soda. Make a syrup by blending 1 1/2 cups cooled black coffee with 1/2 cup light corn syrup. Add 1/2 cup light cream. Mix well and pour into 4 tall glasses. Add coffee ice cream and fill with sparkling water.

Here also is a tested recipe for the coffee ice cream.

3 eggs, separated
1 cup double strength cold coffee
1 cup light cream
1/2 cup light corn syrup
1/2 cup of sugar
1 tsp. vanilla

1 envelope (1 tablespoon) unflavored gelatine
1/2 cup cold water
1/2 cup of sugar
1 tsp. vanilla

Beat egg yolks until thick and lemon colored. Add coffee and cream. Cook over hot water, stirring constantly until mixture thickens and coats the spoon. Cool. Sprinkle gelatine on cold water. Combine corn syrup and sugar. Heat to boiling point. Remove from heat. Add gelatine. Stir until dissolved. Beat egg whites stiff. Add gelatine mixture gradually while beating. Add vanilla. Fold into cool custard. Freeze in refrigerator tray or freezer. If frozen in refrigerator tray, beat once during freezing to a thick mush. Beat smooth with egg beater. Return to tray and freeze until served. Serves eight.
