### THE MERLE NORMAN HOME COMPLEXION TREATMENT

Mira-col is "never to be used alone" but always in conjunction with Merle Norman Cold Cream and Merle Norman Powder Base. Apply it two or three times a week, regularly, after a cleansing with the Cold Cream. A teaspoonful is sufficient to cover the face and throat. Apply with brush provided with Mira-col purchase. Leave the application on for twenty minutes and then remove with cool water. Dry well and immediately apply Powder Base. If the treatment is taken at night before retiring, Powder Base "must be" applied and left on overnight. This is important. Next morning you may either dash the face with cold water, blot dry and apply your usual makeup, or, if you prefer, the Powder Base which you applied the night before may be removed with Cold Cream and a fresh quantity of the Base may be applied.

It will not be necessary to renew your make-up during the day when following the above instructions. Merely blot the face with a tissue when necessary and re-powder.
