BRONTE, TEXAS, FEBRUARY 16, 1951

All Kinds of Weather **Prevail Last Few Days**

Our Washington News Letter

By Congressman O. C. Fisher

"If Western Europe falls to the Communists, we will probably lose fall Tuesday and reached a low of our atomic supremecy," Ceneral 20 degrees before Wednesday morn-Eisenhower told Congress after his return from Europe.

The General was referring to the School Saturday uranium, used in making A-bomos, which we import from Belgium Con- For Bronte Kids go. He figured the Russians will dominate Africa if Western Europe is overrun.

Eisenhower urged more members of Congress to visit Europe and get a first-hand picture of conditions there and see how our security is involved in the future of the western democracies. He got a big hand when he said:

"Those countries must do their full share in the joint effort to keep them free from Communist domination."

. . . January 30 was a big day for Lions Talk About Speaker Sam Rayburn. On that day he rounded out 3,057 days as Speaker Clean-Up Drive of the House of Representatives exceeding by one-half day the record previously held by the famous Henry Clay of Kentucky.

In House speeches eulogizing Rayburn, many of the Old-Timers recalled the time when John Garner was Speaker. They all praised Garner as one of the most colorful and able who ever tended the gavel.

President Truman, in praising Rays burn at a Texas dinner given by the Speaker the evening of the 30th, retalled his early political career in Missouri. He had served as County Judge and took a hand in carving out a new Congressional district so he could get elected to Congress.

"But after doing all that," said the President, "something happened that changed my plans and now look at what happened to me!"

At the Rayburn party, composed of about 60 guests, were also Vice-President Barkley, Chief Justice Vinson, Justice Tom Clark, and the entire Texas delegation except Bob Poage who was on official business exico City.

Winter weather came roaring back | ing. Sleet and snow, into the area Monday night at the by a thunderstorm, fell during Tues close of a balmy spring-like day that day night and Wednesday morning saw temperatures well into the 80's. covering the ground about 3 inch The north wind hit Bronte about deep.

11 p.m. Monday and the mercury Farmers and ranch sagged to below freezing before the moisture, hoping it might morning. Temperatures continued to the long drouth in the area, althu the bad weather has been hard livestock

All schools in the county closed Wednesday due to the 'cy cor dition of the roads, and the Bron & hools remained closed Thursday. Bright sunshine Thursday and ris-

ng temperatures were expected to A two-day holiday this week bemake quick work of melting the snow cause of ky weather will cost Bronfe and ice on the highways and the school students at least one Saturday. forecast for Friday was much warm-Supt. J. L. Carroll said Thursday er. The winter weather followed that school will be held this Saturweekend of summer temperatures day, February 17, until 1:30 p.m.

accompanied by dust storms. Carroll said that busses will run as usual and he asked the cooperation of all parents in seeing that children attend school in order that the aver-SCRVICC3 age daily attendance will not be low-

ered.

Members of the Bronte Lions Club held their regular meeting Wednesday at noon at the Bronte Cafe. There was no planned program, but members discussed the need of cleaning up the town before warm weath-

er arrives. Suggestions were made that Bronte should have a regular garbage collection system and that ordinances relating to sanitary conditions in the city should be enforced.

The deplorable condition of outhouses, garbage cans and other places where filth collects must be done away with, members of the club

agreed. One member suggested that a mass meeting of all citizens in the town be held and that definite plans be made toward improving the sanitation conditions. Another said he thought 'nw enforcement officers should be instructed to see that recommendations made by the city health officer be carried out.

With the cooperation of our officers, and of the employes who remained at work, Santa Fe managed to keep thousands of freight cars and all its passenger trains moving during the "outlew strike" which began January 30th and which so severely crippled our country's rail transportation. Santa Fe could not, of course, operate at its top efficiency.

Now vital supplies, which have been piling up in freight terminals during the past several days, are starting to move.

A complex situation

There is one point, however, we know the public will understand. So complex a thing as America's transportation system cannot be turned off and on like a water faucet.

Thousands of "car days" were lost due to freight cars standing still. Even though cars are now movng it is bound to take a while before congestion

and the second second

THE ATCHISON, TOPEKA & SANTA FE RAILWAY COMPANY

is relieved and delayed cars are unloaded at their destination.

Santa Fe was able to deliver more cars to other railroads than other railroads delivered to Santa Fe. Consequently, Santa Fe now has substantially less cars on its rails than when the "outlaw strike" began. Naturally, this will result in a shortage of cars until this complex situation has been cleared.

A word to our shippers

We are doing everything possible to speed up the return to normal. We ask, however, that shippers who now need cars bear with us during this period.

Santa Fe expresses its thanks to its shippers and passengers for their patience and understanding during the trying times we have all just passed through - and also to all our people who cooperated in this emergency, many of them responding beyond their normal call of duty.

Santa
