Football And Band Queens Crowned at Game Last Friday

Presented at the Coahoma game Friday night were the band and football sweethearts, Cora Beth Whatley and Kitty Sue Gaddy. They were escorted by co-captains Herbert Brigman and J. W. Caudle.

When the referees signalled the end of the first half of the game,

CORA BETH WHATLEY

the drum major called the band to attention. The band, standing in band formation at the West end of the field, played the "Activity March." As the band played this number, the majorettes marched from the east end of the field to their regular position in front of the Longhorn Band. The majorettes did several marching maneuvers as they crossed the gridiron.

The entire group then proceeded down the field to the extreme thirty-yard line where the drum major gave the signal for a coun-

termarch. After this command was executed, the files of the band separated and an aisle was made for the Harris convertible, driven by Mrs. Frank Miller, Coaches' wives, Mrs. H. A. Jolly and Mrs. Jack Price, accompanied her.

The car was followed on the field by the Caperton pick-up, driven by W. H. Robertson. On the bed of the pick-up were two large white boxes with maroon bows.

All field lights were turned out, and at the West goal a large heart made of red flares glowed in the dark. While the heart burned, the sweethearts were lifted from the large white boxes.

Lights were turned on again and the Drum Major, Jo Dell Walton, presented shoulder bands to the Sweethearts. Co-Captains presented arm bouquets to the were made of white carnations and trimmed with maroon ribbon.

A Cornet duet of "Be My Love" was played for the sweethearts by Kenneth Scott and Rudy Gutierrez.

The Sweethearts were escorted to the convertible and carried away by the party. The band marched off the West end of the field.

Word was received late Thursday of the death of Mrs. J. T. Adair, daughter-in-law of Mr. and Mrs. J. I. Adair, and sister-in-law of Mrs. Charlie Phillips.

The Adairs and Mrs. Phillips left last night to attend the funeral services in Houston, tentatively set for today.

J. T. (Tolbert) Adair was born and reared at Bronte.

No. 9 Hickman Rates 200 Barrels in 24 Hours

One of the gas wells which was staked some months ago in the Bronte Field is being drilled by Humble. Royalty on the gasser is owned jointly by R. E. Hickman and Olive Mae Keeney. The well is located on Hickman's property.

Humble No. 9 R. E. Hickman has been completed in the Bronte Field for a daily flow of 200 barrels of 45.7 gravity oil plus three per cent water in 24 hours. Gas-oil ratio was 418-1.

Murray Petroleum Co., Dan Auld and Greyhound Drilling Co. No. 1 Moore has been plugged and abandoned at 6,778 feet in sand. This wildcard was located seven miles north of Bronte, near the old townsite of Fort Chadbourne.

Longhorns Bow to Coahoma Bulldogs

The Bronte Longhorns surprised fans here last Friday night by holding the powerful Coahoma Bulldogs to only three touchdowns. Prediction gave the Bulldogs 40 to 50 points advantage over the Longhorns. Even the 21-0 score was not indicative of the kind of football the Longhorns played. The Bronte line showed its strength by giving the visitors only half the points they were doped out to make; and the backfield gave fans a thrill a couple of times, but unfortunate breaks prevented their crossing pay dirt.

Coahoma's first touchdown came in the second quarter when Jimmy Knight broke through

Bronte's right guard. Bill Read kicked the extra point.

The third period was scoreless, but the Bulldogs bit the Longhorns a couple of times in the fourth. Early in the final period, Jerry Springfield made a first down on the Longhorn 19. After one more play, Read passed to Darrell Robinson for the second touchdown.

In the middle of the last quarter, Knight made a first down on the Bronte 9. He tried the middle on the next play and picked up 2. On the next play, he lost a little. However, on the third try he crossed the pay stripe. Again Read kicked the extra point.

Bronte got as far as the Bulldog 9 one time after J. W. Caudie recovered a fumble on the 22. On the next play Marion McCutchen passed to the 9, but a fumble cost the Longhorns the ball on the next play.

Fans were loud in their praise of the Longhorns, particularly of the way the line held the powerful lads from Coahoma.

The Longhorns were all set Thursday afternoon to journey to Merkel where they were to meet the Trent eleven. The game was moved to Merkel because of the unfitness of the Trent field for a game and had to be moved up to Thursday night.

LEARN TO SAVE

The lesson of saving is simple to learn; Just spend something less than that which you earn; But the man who saves, who lays something by, Must first always learn himself to deny. It's not what you make that brings riches to you, The man who makes less may have more when thru. Many men have made money, rode high on the wave, But their boat hit the rocks, they nothing did save. The FIRST NATIONAL BANK has regard for the man Who makes but little, yet saves all he can.

SELF-EMPLOYED MUST PAY SOCIAL SECURITY THIS YEAR

Are you one of the millions of self employed people newly covered under federal old-age and survivors insurance? If you are, you need a social security account number card, according to George D. Clark, manager of the San Angelo social security office.

"Self-employed people who were brought under the Social Security Act by last year's changes in the law will report their net income from self-employment at the same time they make their federal income tax returns early each year," Mr. Clark said.

"If you have ever had a social security number, that same number should be used," Clark said. "If you've lost your card, we can get a copy of it for you bearing that same number."

Both new and duplicate cards can be obtained through the San Angelo social security office. The address is 307 Federal building, San Angelo. Mr. Clark asks all self-employed people who have any questions about their coverage under social security to get in touch with this office.

Capitalists at play!

-- the American Way!

Capitalists?

Why, yes. Fishermen and fiddlers, bridge players and ball players . . . all kinds of Americans, in fact, are Capitalists . . . because most Americans are owners of the electric light and power companies!

It's like this: several million people—from every walk of life—are direct owners of these companies' securities. And some 75,000,000 are indirect owners—through

their life insurance and savings bank accounts! You see, when banks and insurance companies accept your money, they must invest it wisely. That's why so much of it goes into business-managed electric companies like the West Texas Utilities Company.

It's fair and fitting, isn't it, that the companies that serve nearly everybody are owned by nearly everybody?

September 21, 1951
Mr. Frank McCabe, Vice President and Acting Chairman, Hospital Board
Coke County, Texas.
Coke County Memorial Hospital
Robert Lee, Texas.
Project: Texas-46, Coke County Memorial Hospital, Robert Lee, Dear Mr. McCabe:
Upon my return to the city yesterday I find Mr. Dickey's memorandum of September 18, 1951, concerning difficulties which confront the operation of the above-captioned hospital. However, I am addressing this letter to you as an officer of the Hospital Board and am sending Mr. Dickey a copy.
I understand that my office force furnished you with a copy of my letter of March 3, 1951, to Mr. B. A. Austin, who was at that time the President of the Hospital Board. I believe that all the observations made in that letter are

still pertinent to the problem; and I suggest that the letter be read carefully by all members of the Board.
The members of a hospital board carry a heavy responsibility which cannot be shared with others, including the medical staff, the superintendent, or other advisory and cooperative agencies. The board members, and they alone, must assume full responsibility for the operation of the hospital. In carrying out their responsibilities, they may be assisted with information and advice when sought; but such assistance does not in the slightest relieve them of the necessity of knowing what is going on and carrying the burden of responsibility unshared with others.
The responsibility of the board members is of a dual character. In the first place, it is their duty to the community to manage the hospital on sound business principles; to balance income and expenditures; to supply, free of charge, medical service for those worthy of charity, but, at the same time, to prevent imposition by those who should pay; to operate at a per capita per day cost that is reasonable, comparing favorably with that of similar institutions, not only in the total, but in the various items into which the per patient day cost may be subdivided. In the second place, the board members are responsible to the community for the quality of professional service rendered. They say who shall practice in the hospital and on what conditions physicians have that privilege. They should know the character of the professional work. Responsibility for the professional service rendered, being a matter of life and death, is a responsibility graver than that for proper business management, important as that is.
The hospital governing board for Coke County hospital has established a set of by-laws which meet generally accepted principles. They should be sufficient to enable the Board to direct the policies of the hospital. In this connection I am enclosing some information compiled from the State Law which outlines the authority of the Hospital Board of Managers. It is suggested that reference also be made to the statement furnished the County Judge on August 6, 1951, by Mr. Fulcher, Hospital Consultant,

which was published in the local paper. The State Agency endorses the statement made by Mr. Fulcher.
If the present hospital administrator has satisfied the Board of her competence, it would appear that she should be given full authority in matters of hospital administration. The County has gone to considerable expense in providing a workshop for such doctors as may be attracted to the community. Such doctors should be expected to conform to the policies established by the hospital Board and should refrain from attempting to interfere with the representative of the Board. There are certain medical administrative responsibilities, such as those connected with the admission and discharge of patients, the keeping of adequate medical patient records, and preparation of the reports of professional work performed in the hospital, which devolve upon the members of the medical staff. If these are not properly carried out, the Board should be so informed by the hospital administrator. No matter how many doctors there may be on the medical staff, they should not be permitted to interfere with the responsibilities of the administrator in the employment or discharge of operating personnel.
If the hospital Board considers it advisable for the local doctor to continue to maintain his private office in the hospital, measures should be taken to control the use of hospital supplies in order that the use of such supplies may be confined to the care of hospital patients.
I am sure that the hospital Board will consider the above comments in the spirit in which they are offered. The State Agency desires to be helpful to all hospitals in our construction program; and we hope that you will not hesitate to call upon us when ever you feel the need for advice.
Yours very truly,
Dean F. Winn, M. D.
Director, Hospital Survey and Construction Division

prescribed by law and regulations laid down by the Department of Public Health of the State of Texas. It cannot be turned over to private management without forfeiting Federal Aid.
2nd-The Hospital Board has performed their duty according to the regulations under which they had to perform.
3rd-In view of the situation prevailing here, they have had a problem in securing and keeping the prescribed qualified personnel for operation.
4th-The Board has rendered a valuable service without pay. There is not now before the Board, nor before the Commissioners Court and never has been one single complaint containing the facts constituting one single wrong on the part of this Hospital Board.
5th-Until some reliable witness comes forward with evidence of a probable wrong, justice and fairness compels us to sanction and approve the Board and its conduct.
6th-A misunderstanding has come about which is regrettable. We have checked with the State Health Department and other sources of authority and we find that the Hospital Board cannot do what has been demanded of it through the press. It must be remembered that the Hospital is presumed to be a public institution. It does not belong to, nor was it intended for any particular section of the County. Individual practitioners are supposed to have equal rights and privileges. They owe the Hospital their support and co-operation.
If any one has a complaint about the management or conduct of the Hospital; it is suggested that such complaint should be submitted to the Board.
7th-The Coke County Memorial Hospital is an open target for malicious slander. No protection

The Bronte Enterprise
October 12, 1951
is provided for it. It is vulnerable to attacks from political aspirants and publicity seekers.
Being an institution for the treatment of the sick, such attacks cannot help but injure it.
It is respectfully suggested that you, the people, can render a real service to the Coke County Memorial Hospital by defending it against unwarranted attacks and by familiarizing yourselves with the duties and obligations of those managing it, and by using those facts for the basis of your consideration. You should demand corrections of any abuses wherever you find them.

CONCERNING THE HOSPITAL BOARD OF MANAGERS
