COKE COUNTY ASKED TO GIVE \$320 IN USO DRIVE; OFFICIALS NAMED

Weldon Fikes of Robert Lee has been named as chairman of the U. S. O. drive in Coke County. The drive for funds is now in progress. Fikes said that Coke county has been asked to raise \$320.00.

Attorney General Price Daniel is chairman of the fund drive for the entire state. "Every county in Texas has sent a full measure of its finest youths to serve with the Armed Forces, and every county has a direct responsibility to keep up the home ties

with these young folks", Daniel said. Coke county has eighty-one men and women in the service at the present time.

Some 4,000,000 Americans, many thousands of them teen agers, are expected to be in uniform by 1952 and the people of the United States have again asked that the USO be put into action to guard the moral and spiritual welfare of the men and women of the Armed Forces. As in past wars a very large portion of this citizen army is composed of Texans.

Daniels has announced that the State of Texas has accepted the responsibility to raise \$700,000 this year for the USO. This will be done through the Community Chest campaigns and through local fund campaigns conducted especially for the USO.

TRAFFIC SAFETY IS SUBJECT FOR CLUB

Stressing the ever mounting traffic accident toll in the United States, and particularly in Texas, Miss Eudora Hawkins, of the West Texas Utilities Company, in Abilene, chose Traffic Safety as the subject for her program before the Junior Study club Wednesday night. The club met in the home of Mrs. Charlie Phillips.

After a discussion of the new traffic laws and a review of the state driver's manual, Miss Hawkins showed an impressive and forceful film entitled "And Then There Were Four."

A refreshment plate, carrying out a Halloween motif, of congealed salad, ritz crackers, cookies and spiced tea was served to Miss Hawkins and the following members: Mmes. Lewis Bridges, Heidel Brunson, Norman Kiker, Royce Lee, Ben Oglesby, Noel Percifull, Luther Reeger, Roy Robinson, Donald Sims, R. H. Sims, Bob Wilson and the hostess.

Nearly all 4-H clubbers will sell 6 turkeys at the Coke County Junior Market Show.

Junior Turkey Show Tomorrow

Plans for the first Coke County Junior Market Turkey Show, tomorrow, Nov. 3, are complete. Approximately 100 Broad breasted Bronze turkeys fed and fitted by county 4-H boys and girls will be shown in the first show of its kind ever held in Coke County.

The show will be held in Robert Lee in the vacant building adjoining the Ivey Motor Co. Only Grade A turkeys will be shown. These will be classified as Superior, Excellent, or Good, with Blue, Red, or white ribbons awarded respectively.

The show will be judged by Mr. F. Z. Beanblossom, Poultry Marketing specialist, Extension Service from College Station.

A grand champion pen of turkeys will also be selected.

Coke County will be allowed to purchase the show turkeys but should notify the county agent, T. B. Hicks, of their intention to do so. The price will be approximately four cents above the market at the time of the show. Arrangements may be made to have the turkeys dressed for about \$1 additional.

All the show turkeys will be sold but Coke County will have their first choice of the birds.

Bronte Beats Loraine Friday, 13 to 12; To Meet Ira Tonight

The Bronte Longhorns defeated the Loraine Bulldogs 13-12 in a district game on the Loraine gridiron Friday night.

The game started off looking like a game of fumble and recovery on both sides with the Longhorns ending a long drive toward their own goal line with a touchdown by McCutchen on an off tackle play. The placement by Bagwell was good, making a 7-0 score in the Bronte team's favor.

In the second quarter, Loraine made a touchdown, making them trail only one point. Brigman's drive through center in the third quarter chalked up another TD for the Longhorns and Bagwell failed in the kick, making the score 13-6. Loraine seemed determined to even the score, and was stopped on their own 4 yard line.

On a penalty, Loraine was thrown back to their 3 yard line and lost the ball on the fourth down, but a five yard Bronte penalty gave Loraine the ball and a first down.

Loraine started a ground drive through center, and after seven consecutive first downs, went over for the final touchdown of the game. With only a few seconds to play, the Bulldogs failed to make their extra point.

Loraine led the Bronte boys in first downs, 15 to 7. Bronte journeys to Ira tonight, for another game in district play. The Ira team, new to conference football, has been defeated in every start this season against other conference teams. Trent defeated them 27-0 last week.

The Robert Lee Steers will be in Robert Lee tonight.

90% For! 10% Against
 Railroad workers are represented by 23 standard unions. By mutual agreement, 20 of these unions—comprising about 1,200,000 men, or more than 90%—are working under wages and rules agreed to by them and the railroads. But leaders of three unions—with only about 130,000 men, or less than 10%—still refuse, after more than a year of negotiations, to accept similar wage and rules agreements. These are even more favorable than the terms recommended by the Emergency Board appointed by the President.
Time to settle...

Yes, it certainly seems to be finally about time that the leaders of the three unions stop their delaying tactics—their quibbling. But the leaders of the Brotherhood of Locomotive Engineers, the Brotherhood of Locomotive Firemen and Enginemen, and the Order of Railway Conductors continue to refuse. They continue a course of dillying and dallying. It is definitely time to

END THIS QUIBBLING!

On June 15, 1950, an Emergency Board appointed by the President under the terms of the Railway Labor Act—an Act largely fathered by the unions themselves—made its recommendations on certain wage and working conditions ("rules" in railroad language) which had been in dispute between employees and the railroads.
More Than 90% of Employees Accept
 Since then, terms equal to or better than the Board recommendations have been accepted by about 1,200,000 railroad employees—more than 90% of the total of all workers. They are represented by 20 of the 23 standard railroad unions.

Less Than 10% Refuse
 But three unions—with about 130,000 men, or less than 10% of the total—have refused to accept, even after months of negotiations. These three unions are the Brotherhood of Locomotive Engineers, the Brotherhood of Locomotive Firemen and Enginemen, and the Order of Railway Conductors. These are three of the so-called "operating" unions. Already the highest paid men in the industry, their leaders demand still further advantages over other workers.

In all, there are about 270,000 operating employees. But not all of them, by any means, are represented by BLE, BLF&E, or ORC. As a matter of fact, less than half—132,000 to be exact—are in these three unions. More than half—about 140,000—are in other unions, principally the Brotherhood of Railroad Trainmen. What makes the whole situation so hard to understand is that these 140,000 operating employees are working under wages and rules which the leaders of the other 130,000 say they cannot agree to.

What Do the Railroads Offer?
 They offer these three unions the same settlement which was contained in a Memorandum of Agreement signed at the White House on December 21, 1950, by four brotherhoods and the railroads. Later these brotherhoods sought to repudiate this agreement. But on May 25, 1951, the Brotherhood of Railroad Trainmen signed a complete agreement carrying out the

principles of the Memorandum Agreement of December 21. They have been working under this agreement since May 25.

What About Wages?
 Under the terms of the agreement, yard engineers, firemen and conductors would now be receiving a wage increase of \$34 an hour (\$2.72 a day) and road engineers, firemen and conductors would now be receiving an increase of 19% cents an hour (\$1.56 per day). Large sums of retroactive pay have already accrued and if the agreement is carried out, will be paid promptly.

What About "Cost of Living" Increases?
 The White House Agreement includes an "escalator" clause under which wages will be geared to changes in the Government's cost-of-living index. Two such increases—April and July, 1951—have already been paid to the 90% of railroad employees covered by signed agreements.

What About the 40-Hour Week?
 The White House Agreement calls for the establishment of the 40-hour week in principle, for employees in yard service. The employees can have it any time after January 1, 1952, provided the manpower situation is such that the railroads can get enough men to perform the work with reasonable regularity at straight time rates. If the parties do not agree on the question of availability of manpower, the White House Agreement provides arbitration by a referee appointed by the President.

What Else Do the Union Leaders Demand?
 The continued quibbling of the leaders of the three unions has to do principally with

rules changes, which have already been agreed to by the Brotherhood of Railroad Trainmen. Of these, the principal one seems to be that having to do with so-called "interdivisional service"—runs which take in two or more seniority districts.

The union leaders would bar progress and efficiency in the industry, and better service to the public, by maintaining a situation where they can arbitrarily stop a railroad from establishing such interdivisional runs. The carriers propose that if a railroad wishes to set up an interdivisional run, the railroad and the unions should try to agree on such run and the conditions which should surround its establishment, and if the railroad and the unions can't agree, the matter will be submitted to arbitration.

Rules Can Be Arbitrated
 The railroads have not only offered these three unions the same rules agreed to by the BRT and covered by the White House Agreement, but have even agreed to submit such rules to arbitration.

The Industry Pattern Is Fixed
 With the pattern so firmly established in the railroad industry, it seems fair to suggest that the leaders of BLE, BLF&E, and ORC stop their quibbling and take action to make the railroad labor picture 100% complete. Certainly today's economic and international situation calls for a united front. And certainly no good reason has been advanced why these three unions should be preferred over all other railroad employees.

SCHOOL SPIRIT
 Welcome to Bronte high school, the richest school in the world! Perhaps you never thought of BHS as a wealthy institution, but it is—rich with companionship, with laughter, rich with co-operation, and most important, rich with spirit. These things are all far greater than monetary values. The excitement a freshman feels during the first few days never seems to wear off throughout the entire four years of high school. Sincere greetings, laughing voices, respect for other's opinions—all these are a part of Bronte High School. We, the 1951 and 1952 student body, have a tradition to uphold, a tradition of spirit and companionship that was instilled years ago when he BHS was still very young. This same spirit remains in our school and each must do his part to make it flourish as it has done in previous years.
