Happy New Year.

tend wishes for a very

With an old year on its way out and a new one being ushered in, it's a good time to pause and reflect on the things that are past, and the things that may happen. To most Americans 1951 has been a year of prosperity. Tremendous strides have been made the past year to provide Americans with the things they want and need, and at the same time, provide our defense effort with the necessary materials to carry out its program.

Led by American statesmen, an attempt is being made to set "peace machinery" in motion to make the world safe from war. Regardless of what success this program has had, it is the job of this country to continue leading the way in trying to set up a peaceful family of nations.

The future? No one, of course, knows just what is in store. However, it is safe to say that millions of Americans will be helping young young Master New Year go down in history as a defender of peace on earth and good will toward all men. We hope that he will make the year 1952 one of happiness and harmony among all people right on down to the citizens of our own county and community.

# **1952** Conservation **Program Started**

The 1952 agriculture conservation program has been started in Coke County, according to Oscar Kresta, chairman of the PMA county committee. The Department of Agriculture coordinated Holbrook and later transferred

cessary supervision of the installation and (4) certification of per- About People formance.

The permanent type practices selected for 1952 are: construction of terraces, construction of di-

version terraces, construction of water spreading terraces, construction of erosion control or spreader dams, and construction of earthen dams or reservoirs for collecting and storing livestock water.

According to Kresta, the county PMA committee still has the responsibility of administering all funds exxpended under the Agricultural Conservation Program in the county. The checking and certifying as to performance

on the following non-permanent Mr. and Mrs. Norman Kiker type conservation practices will be done by the county PMA comthe Christmas holidays Mrs. Ida mittee: subsoiling to permit bet-California, Mr. and Mrs. J.
