FARM QUOTAS: Look for quotas on both cotton and wheat next year.

Cotton farmers fro inthe Pecos area, here last week, urged Agriculture Department to consider recent heavy increases in cotton planting in Texas when lower acreage quotas are set for 1954.

Recent ruling by the Department's solicitor says 1954 quotas must be based on planting of past seven years, not including 1953. Plantings in West Texas and South Plains were much smaller in 1947 and 1948 than in more recent years. The ruling, if it stands, would require growers in these sections to take acreage cuts far greater than the national average.

Revision of wheat quota laws will be proposed to bring them more nearly in line with laws covering cotton, tobacco, peanuts. Congressman W. R. Poage of Waco reports House Agriculture Committee, of which he is a member, is working on revisions.

ECONOMY: First seven regular appropriation bills passed by the House cut Eisenhower budget figures by 8.6 per cent.

Senate also is economy minded. Last week, for example, in and Sunday, June 13 and 14. passing appropriations bill for State. Justice and Commerce departments, we cut out an appropriation and expenditure authority totaling over 40 million dollars for ship subsidies. I support ed the cut.

LOANS AND GRANTS: During first five months this year. Texas received the following Fe-deral loans and grants: \$394,000 | Fort Worth; Mr. and Mrs. Milton deral loans and grants: \$394,000 | Modrall Abilene: Ollie Modrall fecting five counties, \$2,433,000 for 10 electric cooperatives affecting 59 counties; \$1,547,303 for 125 schools in 41 counties.

HILLBILLY MUSIC: I recently asked for advice about a request I had received to support a resolution raming a National Hillbilly Music Day. A Houston lady writes: "If we must have uch a day - let it be February 29. That would save us from such a celebration except every four years." Anybody else?

WHAT'S AHEAD? Rent control will end July 31 in Borger, Lone Star, Port Laveca, Rockdale, Big Spring, Hondo, Mineral Wells and Weatherford.

Prospect is brighter for extension of Reciprocal Trade Act, without crippling amendments.

Proposed appropriations cut for Federal Petroleum Board will likely be restored. This is the agency that enforces the Connally Hot Oil Act. Charlie Devall, aggressive Texas publisher, wrote in his Kilgore News Herald a strong editorial on the subject, which I had inserted in the Congressional Record.

NEWS BRIEFS: Wiren the Rio Grande stopped flowing, I wired officials at Laredo to offer any available aid from the Federal Government....Once more we have brought home to us the vital need for an effective water conservation program in Texas.

"This is an example of the personal feeling of gratitude felt by the grateful people who suffered such tragic losses in the recent storms, but the greater fering. joy was experienced by all who were givers," Rev. nesday that several complaints have been turned in to him about young people of the community driving much too fast in the residential section of town.

Whitt said that on Tuesday a child was almost run over on the street that runs in front of the school building.

"We're going to have to put a stop to this fast driving or some body is going to be killed," the mayor pointed out. He said that steps are being taken to pick up and cancel drivers licenses of those who are guilty of the offense in the future.

Traffic officers say that most of the wrecks in the country today are caused by excessive speed. They point out that driving too fast is extremely dangerous in residential sections where children are likely to be playing in or near the streets.

There's only one answer...

Chevrolet trucks must be the best buy!

Fleet operators, farmers, independent truekers—truck users everywhere buy more Chevrolets than any other make. There can be only one reason for that: Chevrolet trucks offer more of what you want.

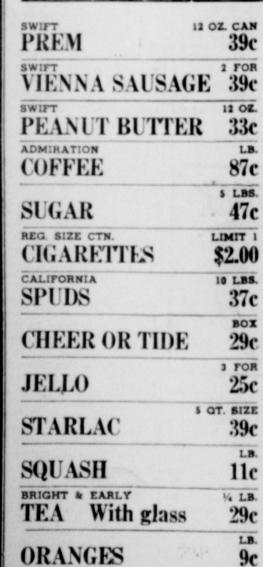

As the official registration figures keep rolling in, they keep telling the same positive story about truck popularity and truck value: Again in 1953, for the twelfth straight production year, truck buyers show a clear-cut and decisive preference for Chevrolet trucks. If you're a truck user, this fact is mighty

important to you. Why? Well, as you know, trucks are built and bought for just one reason-to do a job. So isn't it logical then that since Chevrolet trucks outsell all others, they must do a better job at lower cost? That's why it will pay you to stop in and

see us before you buy your next truck. MORE CHEVROLET TRUCKS IN USE THAN ANY OTHER MAKE!
