## AD-LIB-BEN

Brrrr, it was cold Thursday morning. Have you noticed that we have had much more cold weather this year than usually? We received a news release from Lone Star Gas Co. which we may not have room for, but anyway, the story says the 76 day period from Nov. 1 to Jan. 15 have been much colder than the average for the same period. The facts for the story were gathered by the San Angelo weather bureau. The temperature and sleet Thursday morning bears out the truth of this information.

The time for electing a mayor, city alderman and school board members isn't far away. You might be thinking who you would like to have on these two important groups. They stay with you two years, so it's not a matter to be considered lightly. Your city business and your school business needs to be handled by honest and efficient persons.

Socrates once said: Could I climb to the highest place in Athens, I would lift my voice and proclaim... "Fellow citizens, why do ye turn and scrape every stone to gather wealth... and take so little care of your children... to whom one day... you must relinquish it all?"

Employer: Who told you that you could neglect your office duties just because I kiss you once in a while?

Steno: My lawyer.

## Cold Weather, Freezing Rain Hit West Texas

A low of 18 degrees was recorded here Thursday morning for some of the coldest weather of this winter. Sleet and snow covered the ground early in the morning and there was no prospect for it to melt right away. Temperature at noon Thursday was 20 degrees.

Freezing drizzle covered most of West Texas Wednesday night and Thursday morning. Roads in this area were reported as extremely hazardous by the Department of Public Safety.

Forecast by the San Angelo weather bureau called for a low of 10 degrees Thursday night.

## Funeral Held for Mrs. Maggie Price, Pioneer of Bronte

Funeral services for Mrs. T. C. (Maggie) Price, 80, were held at 3 p. m. Wednesday in the First Methodist Church here, with the Rev. W. C. Craig, pastor, officiating. Burial was in Fairview cemetery here with Cliff Funeral Home in charge of arrangements.

Pallbearers were George Thomas, A. N. Rawlings, Edward Rawlings, O. H. Willoughby, D. K. Glenn, F. S. Higginbotham, L. T. Youngblood and W. M. Maxwell, Jr..

Mrs. Price died at 4:15 p. m. at the hospital here following an illness of two months.

She was born Jan. 25, 1876 in Leander and married T. C. Price in 1892 at Llano. They came to Bronte in 1899 and had been residents here since that time. Mr. Price died in 1950.

Survivors include one son, E. L. Price, Lubbock; one daughter, Mrs. Willie Mae Glenn, Bronte; one sister, Mrs. L. Johnson, Winters; three grandchildren, Betty Jo Glenn of Austin, Mrs. Norma Shultz of Dallas and Tommy Price of Abilene; and one great grandchild, Tommy Shultz of Dallas.

## Court Term To Open Monday

Judge Joe L. Mays will preside over a District Court session to open in Coke County next Monday, Feb. 6.

Following a conference between Judge Mays, the district attorney and Sheriff Paul Good, it was decided not to call a grand jury at this time. There were no criminal matters to be investigated.

J. L. Tinkler, District Clerk, says a petit jury will probably be called to report Monday, Feb. 20.

Several non-jury cases are on the docket for next week, Mr. Tinkler advised. They include the following:

D. D. Fieldman vs John Abe March, trespass to try title.

Ollie Christensen et vir vs Mrs. Lou Whiteside, trespass to try title.

J. D. Padgett et al vs Sidney Padgett et al, trespass to try title.

Texas Concrete Block Co. vs C. L. Sanders Construction Co., suit for judgement and costs.

## Former Bronte Man to Try for State Boxing Title

Don Tucker of Gilmer, former resident of Bronte, will fight Roy Harris for the Texas Heavyweight Championship in Tyler on Feb. 20.

Earl Gilliam, Tyler fight promoter, said Don would work out at the Tyler Health Club until time for the fight. He is an employee of Lone Star Steel. He has had little formal boxing training, but has gone far with his native ability.

Tucker earned the right for a try at the Texas title by knocking out the former Mexican champion, Pancho Medrano, Monday night of last week in the second round of their fight in Tyler.

He began his boxing career in Corpus Christi and Robstown. He has a record of 12 pro fights, winning 7 by knockouts and losing 3. He won nationwide recognition in Ring magazine when he K O'ed the experienced Ted Donald of New Orleans last month.

Mr. and Mrs. Tucker and three children lived in Bronte about 1½ years when he was employed by Rowan Drilling Co. They lived in the Leslie Lammers and Walter Scott rent houses.

## JP COURT

Sixteen cases were filed and collected in Justice C. E. Bruton's court during January. Most were for traffic violations. A total of \$388.00 in fines and fees was collected. Distribution of the money was: Small Claims Court, \$18; JP fee, \$88; fines \$122.00; county attorney fees, \$160.

## Kin of Knierims Writes Interesting Letters About His Experiences in Nepal and India

Bob Knierim brought in some letters this week from his nephew, George Knierim, which are highly interesting. Young Knierim is stationed in Nepal for the United States Government, aiding the people there in better methods of agriculture. The letters are quite lengthy and we are reprinting below certain parts of the letters which we believe everyone will enjoy.

George Knierim is the son of Mr. and Mrs. C. L. Knierim, also of Bronte.

"I just returned from a trip by truck to the Southern border of Nepal. The total mileage traveled was only about 250 miles but it was two days hard driving in the truck. We spent the night at a road

camp with a friend of ours. He had a nice camp tent and we brought along a little one-burner oil stove, so we made it fairly comfortable.

"We went through the jungle and had an opportunity to see many wild parrots. There are also wild leopards, tigers and elephants but we did not see any.

"Nepal and Northern India is the native home of the chicken. On my trip last month, I saw several wild jungle chickens. They look like brown leghorns and fly like birds. I saw a dozen or more beautiful peacocks.

"While on this trip, I went down to Roxal, India for gasoline and as I walked down the street I met two elephants. One was a lordly

## Nearly \$1,000 in for March of Dimes

The March of Dimes drive is drawing to a close on the East side. A report from Joe Rose, chairman of the fund drive, last Wednesday night showed that a net amount of \$981.70 had been collected for the fight against polio.

Some small contributions remain to be collected but the main part of the drive is over.

The campaign is also in full swing on the west side of the county. Mrs. Gertrude Gray reported over \$700 had been deposited with more special events being planned.

Rose expressed his appreciation to everyone who worked to make the drive a success as well as to those who have contributed.

Contributions that have come in before press time include Tad Richards dance, \$253.86; school cards, \$63.60; basketball game, \$42.00; Mother's March, \$173.13; personal contributions \$239.15; Barbecue and variety show, \$50.18; coin collectors \$48.84; left from last year, \$23.42 and a transfer of funds \$33.00 making a total of \$981.70 on hand.

## 1,283 Persons Paid Poll Tax In Coke County

A total of 1,283 poll tax receipts have been issued in Coke County, according to Sheriff-Tax Collector Paul Good.

January 31 was the deadline to pay poll taxes for persons who will be qualified to vote in 1956 elections.

The figure is not quite as great as four years ago, but it means Coke County will have a potential vote of around 1,500. A few young persons voting for their first time are not required to pay poll taxes, and those 61 years or older are also exempt.

Bob Edwards sold 135 poll taxes at Silver.

## FATHER DIES

E. J. Smith was called to Junction Saturday by the sudden death of his father Euell J. Smith, 55. Mr. Smith suffered a heart attack.

Funeral services were held at 5 p. m. Monday from the Hodges Funeral Home with burial following in the Junction cemetery.

## Danell Dixon's Club Activities In Farm Paper

Danell Dixon, daughter of Mr. and Mrs. M. G. Dixon of Bronte, has received wide recognition with her 4-H club training. The column "A Letter from Kay" in the latest issue of Farmer-Stockman magazine was devoted to Danell's activities in redoing a basement storage room with open shelves and one small window, into an attractive bedroom for herself.

Danell took a color scheme of blue, pink and gold, her favorite colors and painted the walls blue, did her upholstery and drapes in gold denim and used pink enamel on her furniture. She converted an old bed into a hollywood bed with bookcase headboard and made two night stands out of an old vanity. For the dresser she fixed up an old one and made a stool to match. From an old table and a nail keg she made a study center. Her last addition was a bulletin board for her souvenir collection. The completed project cost \$23.86 and a "little hard work."

## WEBB RE-ELECTED

C. N. Webb, Chairman of the Board of Supervisors of the Coke County Soil Conservation District, has been elected as a director of the Texas Association of Soil Conservation District Supervisors. This is the second year that Webb has been elected to this post. As a director of the Association Webb will represent landowners and operators in the 51 counties of Southwest Texas in matters pertaining to soil, water and plant conservation.

## Trains Due To Run Soon Over Spur To Silver

Favorable weather conditions have permitted contractors to beat their schedule by nearly 60 days in getting the Santa Fe spur constructed from Maryneal to Silver.

Railroad and oil company officials were to meet his week to decide upon a date when trains would start running over the 20-mile route. It was expected to be well within the next three weeks.

Only a few heavy rock cuts remained for contractors to complete in getting the roadbed ready for the the last ties and rails. Construction of the track has been under way from both Maryneal and Silver ends.

Texas Natural Gasoline Corp. loading rack facilities are being completed on Highway 208, a half mile northwest of the Silver corner. It will have a capacity to handle 32 railroad tank cars.

A pipeline from the Texas Natural plant, across the river 8 miles southwest of Silver, has been completed and transport trucks are now loading there and hauling to Bronte where butane is pumped into tank cars in the Santa Fe yards.

## what's what by whatley

The nicest thing happened to Mrs. I. C. (Neil) Oden last week as she was the winner of TEN whole silver dollars after entering a Dr. Pepper Slogan Contest. She bought the carton of drinks at the Sims Food Store and that made him also a winner on ONE silver dollar.

She took the card that was on the carton and it had the following imprinted on it: "Dr. Pepper is the nicest thing that ever happened to a thirst because..." Mrs. Oden's answer was "It is a drink

so healthful and refreshing, designed for discriminating people who demand the best for lasting flavor and satisfaction."

Nell said that she only filled the blank out for the fun of it, not thinking that any thing would come from it. . . But sure enough in a short time, here came a man and said that she had won \$3 for the prize winning slogan. Also that he would give her one silver dollar for every cold bottle of Dr. Pepper that she had in the refrigerator. Luckily, she had SEVEN. So in all she was awarded ten shiny silver dollars. There was something else nice about this as they take the one they find in refrigerators and send them to Boy's Ranch. Nell, I think that you are an awfully smart girl for being the lucky winner.

The size of my family has certainly grown since last week. We have our daughter and two little sons with us while her husband has gone to Germany. She will be here until he gets over there and finds them a place to live.

I have had the following recipe in my files for a long time to bring you but just never have gotten around to it. In all of my in-law gatherings, a sister-in-law always brings this and it is "loved" by all. It is very unusual as it is a jello salad without water.

### Boiled Jello Salad

Place in a small pan:  
1 pkg of lemon or orange jello  
1 small can crushed pineapple  
1 pkg. cream cheese.

Place on low heat and let boil slowly until cheese is thoroughly melted. Remove from fire and let cool but not congeal.

Add 1/2 cup nuts and 1/2 cup chopped celery and lastly, fold in 1 cup of cream, whipped.

Place in a mold or bowl and set in refrigerator until firm. I have tried this with whipped canned milk and it is also good with it. This can be put in a ring mold and put on a large tray or plate and garnished with parsley, crab-apples and what have you and it makes a very festive dish for the table as well as an appetizing one.

### WSCS Meets in Home of Mrs. J. W. Labenske

An all day meeting of the WSCS of the Methodist Church was held Monday in the home of Mrs. J. W. Labenske in the Hayrick community. At noon a covered dish luncheon was served. A combined program was given with Mrs. Will Gideon having charge of the morning program. She gave a book review "To Combine Our Efforts for Lasting Peace."

"World Federation" was the topic for the afternoon program with Mrs. Barney Modgling in charge. This was put on in the form of a radio program with Mrs. T. F. Sims, Sr., acting as Master of Ceremonies. Mrs. Modgling, assisted by Mrs. W. C. Craig, gave the parts.

Present for the meeting was one new member, Mrs. W. G. Cresap, and Mmes. Sims, Modgling, Craig, Gideon, O. H. Willoughby, Edna Butner, I. C. Oden, C. E. Arrott, S. A. Kiker, Lloyd and Ida McClesky, J. A. Percifull and the hostess.

Here from Robert Lee one day last week was Mrs. Cumbie Ivey, who visited with Mrs. T. F. Sims.

### Francisca Gutierrez and Antonio Martinez Wed In Church Ceremony

The wedding of Miss Francisca Gutierrez to Antonio Martinez was January 28, at 8 a. m. at St. Isidore's Catholic church here. Father Fidelis read the ceremony. The choir was brought from San Angelo and Mrs. Walter Phillips played the organ.

The bride wore a traditional gown of white satin with an all-over lace jacket, and a long veil with lace trim. Her tierra was of pearl trim and a rope of pearls was used in the ceremony.

Her bridesmaids were dressed in formals of white, orchid, pink and blue. They wore matching head band and shoes. They included Hortencia Puente, Carolina Montez, Rebecca Montez, Maria Flores and Hortensia Garcia. Jimmie and Alicia Montez were pages.

Attendants for the bridegroom were Modesto Gutierrez and Jimmie Vasquez.

Following the wedding a reception was held at the home of the bride's parents, Mr. and Mrs. Jesus Gutierrez. The wedding party then went to the Jesse Gutierrez home where they were served a turkey dinner and spent the remainder of the day.

A dance was held at 8 p. m. in honor of the couple.

### Here's Blackwell

By Mrs. Charles Ragsdale

Mrs. S. P. Smith, Mrs. Bill Hamilton, Mrs. Austin Jordan, Mrs. W. C. Shamblyn and Mrs. Charles Ragsdale attended the Eastern Star School at Abilene Thursday.

## Handicapped Do Okay at Tech

(Editor's Note: The following article appeared in the Lubbock Avalanche Journal recently. The article appeared with a picture of William Jesse Green, Tennyson, as he was helped down dormitory steps by his roommate, Stanley Phillips of Bronte and a freshman football player from Hermleigh, Neal Wilcox.)

Several students at Texas Tech are proving that serious physical handicaps are not an insurmountable obstacle to a college education.

There are three students confined to wheel chairs; two blind students; another with partial vision; and one with only partial vision and partial hearing. All of these, along with several others overcoming handicaps, are undergraduates taking full courses.

Many of them live in dormitories and fit into campus routine with little difficulty. Dean of Men Lewis N. Jones cites Bobbie Blake Baugh, a sophomore who lives in Doak Hall despite his dependence on a wheel chair. The nephew of famed quarterback and coach Sammy Baugh, he is a popular student and a member of the Saddle Tramps, men's service organization. A wheelchair is also used by Terry Young, a Lubbock student taking an architectural course.

### Transportation Big Problem

The primary problem confronting both the blind persons and those in wheel chairs is transportation around the big Tech campus and its many stairways. Are the teachers cooperative in giving the handicapped students a little leeway in making it to class?

"I don't know," answers polio victim Bill Green from his wheel chair. "I haven't been late but once."

Green's problems are more or less typical of those of Tech's other handicapped students. A junior majoring in accounting, his courses are scattered over the administration building and the library. All of his classes in the administration building are on the second or third floor, and his class in the library is located in the basement. In addition he must navigate stairways with the aid of other students to get to the dining hall in the basement of his dormitory, West Hall, as well as steps leading into almost every building on the campus.

He has no special schedule worked out with students to aid him in getting to class except for the first period on Mondays, Wed-

nesdays and Fridays. At that time his roommate, Stanley Phillips of Bronte, helps him to the administration building.

At other times "someone either volunteers to help me or I ask," he says, reporting full cooperation on the part of other students.

### Likes Movies, Cards

His recreation consists of attending a movie once or twice a week and playing cards, dominoes and other games in the dormitory.

Green became a polio victim at the age of nine and was in the hospital intermittently for four years, although the longest consecutive period of time he was hospitalized was three months. He lost about a year of school.

Paralysis affected both his legs. He has regained some use of his left leg, but must wear a brace on it and a built-up shoe on his right leg.

His entire right side had been paralyzed in a fall when he was only two months old. He had gradually overcome this paralysis, except for some speech impediment and the loss of the use of his right hand, until the polio attack. He is still unable to use his right hand.

Green says he is righthanded by nature and his handwriting is one obstacle to education. "You can read it, but it isn't very neat" he says, "and I'm pretty slow."

A native of Tennyson, about 23 miles north of San Angelo, Green is the son of Mr. and Mrs. W. T. Green. He was graduated from San Angelo High School in 1953 and attended San Angelo College for two years.

Green drives a 1956 car but must use a special device enabling him to operate the accelerator with his left foot. He also has a device on his wheel chair giving his left hand control of both wheels.

## Home Demonstration Club Activities

By Faye C. Roe

It's nice to be back at work after a few days on sick leave. It's also nice to be remembered by so many friends who sent cards.

Mrs. Tom Rives, Jr., Mrs. C. E. Arrott and I will be in Brady Monday for the T. H. D. A. District Planning Meeting. The part of the program each county will give in the District Meeting will be decided at this time. Mrs. Arrott is T. H. D. A. Chairman for Coke County.

Hearty winter appetites call for good nourishing meals. For economy, plus flavor and nutrition—dried beans have a lot to offer.

A serving of home-cooked beans costs about two cents. From the can, it costs about six cents. Either way, beans are a cheap source of calories, vegetable protein, iron, thiamine and riboflavin.

Dry beans can be used as a meat substitute for some family meals, especially, if combined with another protein-rich food that comes from an animal source. Such foods include milk, eggs and cheese.

Make the most of plentiful dry beans to help keep food costs low and nutritive values high.

Danell Dixon of the Bronte 4-H

scored a "hit" when her picture and the story of her bedroom improvement appeared in the February issue of the Farmer-Stockman. Hope all of you read this article, so you can see what a girl with energy, ideas and a little money can accomplish. Danell is the daughter of Mr. and Mrs. M. J. Dixon.

The Concession Stand at the Stock Show must have turned out

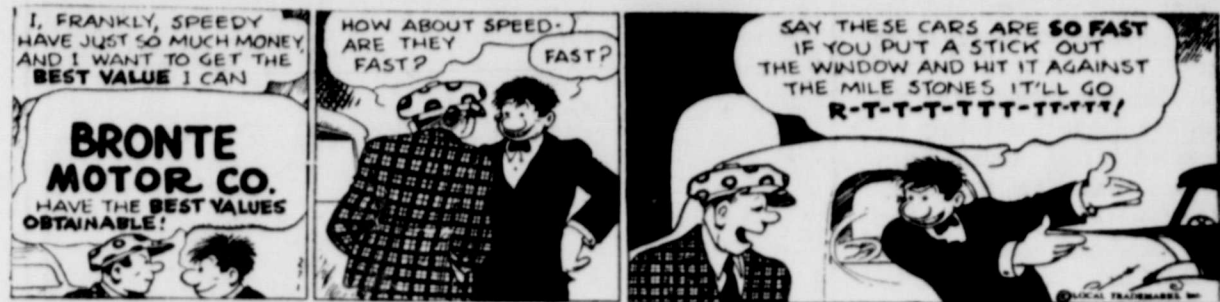

satisfactorily from the reports I have heard. Thanks to all the ladies for their donation of time and food. Proceeds will be used for H. D. and 4-H work.

Mrs. R. T. Roberts of San Angelo is here recuperating at the home of her daughter and son-in-law, Mr. and Mrs. H. A. Springer. Mrs. Roberts has been seriously ill but is improving.

Miss Betty Jo Glenn was here from Austin last weekend visiting her mother, Mrs. Willie Mae Glenn.

Here for a weekend visit in the C. E. Bruton home were Mrs. Bon Spoonts and children of Priddy. On Sunday the Bruton's other daughter and husband, Mr. and Mrs. E. O. Nicholas came over from San Angelo.

## Wynne Family Gets Write-up in Paper At Pittsburg, Tenn.

Mr. A. M. Wynne brought to the Enterprise this week the Jan. 26 issue of the South Pittsburg (Tenn) Hustler. The newspaper carried a feature about the Wynne family, complete with the picture of the two-story frame home in which the family was raised.

The home of the Bill Wynne family is at Jeffries Cove and the reporters account, in part, is as follows:

"While the son focused the camera on the house, the roving reporter went to the dining room window and with an imaginary mind we peeked through and watched the nine children of 'Uncle Bill' and 'Aunt Sally', together with their parents, seated at a table which fairly groaned beneath the burden of food.

"Aunt Sally had sounded the dinner horn and the clanking of trace chains were heard as the mules, each mounted by his respective plowboy, came up from the corn field in the valley below.

"On the table was a large dish laden with greens, such as lettuce and onions from the garden, saturated with good old gravy from a country ham. Large slices of cured ham, egg bread and a pitcher of cold butter milk completed the menu with the exception of black-berry cobbler."

"The children of this pioneer Tennessee family included Nancy Elizabeth Gonce who lives now near Stevenson, Ala.; Mattie Ann Howard, deceased; Margaret Erwin, deceased; Mary Janette Gentry, who lives at Paint Rock, Ala.; Amelia Leah Rorex, who lives at Alexandria, La.; Charles William Wynne, who lives at Sarasota, Fla.; Albert Marion Wynne, who lives at Bronte, Texas; Ernest Oran Wynne of Rosedale, Miss.; and John Berry Wynne of Gallatin, Tenn.

The mother of the family, Sarah Jane Cargile Wynne, died Jan. 1, 1928 and William Thomas Wynne died February 6, 1942.

## Boy Scouts Mark 46th Birthday

**Onward... For God and My Country**

**46th ANNIVERSARY 1956  
BOY SCOUTS OF AMERICA**

### OFFICIAL BOY SCOUT WEEK POSTER

More than 4,100,000 Cub Scouts, Boy Scouts, Explorers, and adult leaders throughout the nation will observe Boy Scout Week, February 6 to 12, marking the 46th anniversary of the Boy Scouts of America.

Since 1910, Scouting has served over 24,500,000 boys and adult leaders.

The new Four-Year Program, "Onward for God and My Country," is launched in 1956 to help prepare America's boys to live

in today's world and to prepare them to carry their full share in the years ahead.

Boy Scout Week observances will feature rededication ceremonies to be conducted by each of the nation's 104,000 units at their meeting places on February 8, the actual birthday of Scouting in America. Demonstrations and exhibits will dramatize the purposes of the Boy Scouts of America and its rich heritage.

The couple began housekeeping on Big oon Creek, southwest of Stevenson, later moving to Mt. Carmel and from there to Jeffries Cove, where the family was reared.

The W. T. Wynne farm was

sold a few years ago to Arch G. Phillips, who is also well known here, being related to a number of local people.

### RELATIVES HERE

Out of town relatives and friends here this week for the funeral of Mrs. T. C. Price included Mr. and Mrs. Fontaine Porter, M. G. May, Las Cruces, New Mexico; Mr. and Mrs. Elmo Caudle, Mrs. J. J. Caudle, Hale Center; Mrs. Vincent Cunningham, Abernathy; Mr. and Mrs. Frank Strom, Mrs. W. L. Hayley, Snyder; Mrs. F. G. Guittard, Waco; Mrs. Carrie Williams, Brooks Browning, Tommy Price, Abilene, Mr. and Mrs. James Glenn, Mrs. L. Johnson, Jimmy Glenn, Mrs. Douglas Cole; Glenda Jo Cole, Emma Leta Cole, all of Winters; Drs. Don and Norma Shultz and Tommy, Dallas; Mr. and Mrs. E. L. Price, Lubbock and Betty Joe Glenn of Austin.

### ATTEND DESIGN SCHOOL

Mr. and Mrs. Claude Word attended a design school over the weekend in San Antonio. They were accompanied by her parents, Mr. and Mrs. J. O. White, who visited their son and family at Randolph Air Force Base.

Visitors at the school enjoyed a banquet Saturday night in Bolivar Hall in La Villeta Par. Sunday, the school was conducted in the Crystal Ball room of the Plaza Hotel from 9 a. m. until 4:30 p. m. with a luncheon and style show in the Walnut Room of the Plaza. Joskes was host for the style

show.

On Sunday night, Travis Wholesale Florist entertained all the florists at a buffet supper.

### SCHOOLS— THE AWFUL TRUTH

Ten years from now 23% more children will be entering elementary schools than today, 55% more in high schools and 40% more in colleges. We will need some 600,000 more classrooms to accommodate them — a jump of about 60%, according to the Kiplinger Letter.

We'll also need 200,000 more teachers every year for ten years to cover school growth and to replace those who quit or retire.

The main problem, of course, is more taxes. The total cost of money, which in the end means schools, public and private, now is eight to ten billion dollars a year. In the next ten years this may double and most of it must come from taxes.

What kind of taxes will support the schools? Mostly property taxes for already nearly 45% of the property taxes collected in states go to the schools. So there will be higher local taxes, higher property assessments, and fewer exemptions.

Among the 20 top industries in the nation, the printing industry ranks third in the number of establishments, with 45,000 plants.

**LETTERS TO THE EDITOR**

Dear Ben;

We, the Board of Supervisors of the Coke County Soil Conservation District take this means of expressing our appreciation to you for the excellent way that you have supported our district program of soil, water, and plant conservations. You have given of your time, effort and space to provide information about the activities of the district. The news stories of district cooperators have been good.

We want to say thanks for a job well done on the Kickapoo Creek Project. You did an outstanding job of informing the people of the program. We hope that the people in the watershed will become more interested, give the project more study.

Yours very truly,

C. N. Webb

Chairman of the Board of Supervisors.

**News From Tennyson**

By Mrs. Jack Corley

Congratulation to Dee Arrott and his display of prize winning livestock which took top honors at the show in Robert Lee. The San Angelo newspaper listed Dee as being from Bronte, but Tennyson still has a claim on him. Also honorable mention goes to Russel Brown and Benny Corley for their winning entries at the County Show. Mr. and Mrs. Kenneth Ray Ste-

wart of Buffalo Gap are parents of a boy, Mickey Ray, born in an Abilene hospital on Jan. 21. Great-grandmother is Mrs. S. W. Gaston.

Continued from Page 1

the campfire. Each night for a week a huge tiger had been coming to their camp about 10, walking around, growling and roaring. The woodcutters merely stayed near their fires and eventually the tiger would go away. They were anxious for us to shoot it. We talked it over and decided we dare not tackle the tiger unless we had at least three high powered rifles as a wounded tiger could kill a person easily. We didn't even want to see the tiger bad enough to wait two hours. In fact, I don't want a tiger very badly."

"We are well situated as far as food is concerned. We have about \$500 worth of food in our store room now. It is amazing that one can find so many things in Katmandu, too. We can buy matches, sugar, beans, spices, vegetables buffalo meat, wild boar, lamb and goat on the local market.

"I wish we could hve some beef-steak, however. Since cows are considered sacred no Hindu can eat beef. They are afraid to even strike a cow for fear of offending it. They believe in reincarnation

of the soul and a cow is probably one of their relatives that was deceased and has returned in the form of a cow. Cows wander freely down the streets, large Brahma bulls stand in the road, on the sidewalks, walk into houses and no one will raise a hand to beat them. It's against the law to hit one and it is as great a penalty to kill a cow as a human.

"I am advisor to a large number of county agents and I try to assist them by showing them how to teach the village farmers. I also assist the teachers at the Agricultural school. It is inspiring to see so much good teaching going on at the school.

"The natives are so friendly and appreciative of any effort. When we stop to eat, while on trips, a group gathers around to watch. When one throws away a tin can there is a scramble for it. They use them for drinking cups and they are very rare in Nepal. The Hindu people are very peacable and they never fight among themselves except that a Hindu man beats his wife every time she needs it. Uncle Robert, do you believe like the Hindus?"

"Our apartment is comfortable. We have three bed-rooms, some well-used furniture, a good new oil burning refrigerator. It is hard to realize that the are 14,000 miles away. Actually we're only 10,000 back as we have traveled more than half around the world.

"Christms has come and gone. The weather was very much like we always had in Arizona, clear, with warm sunshine during the day and chilly nights.

"Thousands of people in Nepal have never used electricity, have never spoken on a telephone, have never ridden a motor vehicle, have never read a newspaper, listened to a radio or had an opportunity to go to school. Until three years ago there were no public cinemas. less than 2% of the population can read and write and medical facilities are very limited. There is a significant mingling of the Buddhist and Hindu religious customs and beliefs. There are only a few paved roads in the Kathmandu Valley and none to be found elsewhere. I spent the weekend here with Mrs. where in Nepal.

"During June, July and August the weather is wet. That is Monsoon season. It rains every day, not all day but some part. Our clothes closets are equipped with light bulbs to keep out the moisture."

**Killing Mesquite Increases Water Intake in Soil**

"The eradication of mesquite on our rangeland will increase the rate of water intake during rainfall," said J. W. Service, district cooperater with the Coke County SCS. "I bulldozed the mesquites on 23 acres of my rangeland last summer. The holes and brush increased the rate of infiltration; thus I had no runoff from the 23 acres. My farm pond at the bottom of my pasture has not caught any water since I pushed the mesquite. On my adjoining pasture the runoff cross under the fence but would not travel far until the ground would soak it up" Service explained.

To secure maximum benefits from his brush control Service plans to seed the area to a mixture of native and introduced grasses. The mixture will include K. R. Bluestem, sideoats grama, blue grama and blue panicum. The area will be rested during the growing season to allow the grass seedlings to become established as well as to allow the native grasses to grow, increase in plant vigor, mature a seed crop, and build up a plant litter on the surface of the soil. Brush control, deferred graz-

ing, range seeding and keeping live stock in balance with feed supply are some of the practices included in Service's complete coordinated plans that he is carrying out. Technicians of SCS are assisting with the technical phases of the planes. The ASC County Committee is also assisting.

As a district cooperater Bill Blanks of the W. C. Blanks Estate is trying a new range pitting practice. The pitting is being done with a bulldozer equipped with a cedar bit. The pits are about 30 inches wide, 8 to 10 feet long and about 8 feet apart. The bulldozer is equipped with a small seeder attachment. The area is being seeded with blue panicum and will be hand seeded with K. R. Bluestem, sideoats grama and blue grama before spring. The operator reports that he is doing about three acres per hour. The area will be deferred during the growing seasons as well as the rest of the

ranch. Cedar control is another practice that district cooperaters are applying on their ranches. Foster S. Price has recently completed 400 acres, Bill Blanks is pushing 250 acres and Joe Chapman is working on 326 acres.
