AD-LIB-BEN

The Weather: Unseasonably cold this week—at this writing. May be unseasonably warm by the time you read it. Wednesday looked pretty good for rain prospects. You'd better get your summer clothes washed and ironed for this weekend.

Henry Ward Beecher, the famous preacher, once received an anonymous letter with one word scribbled across the page—"fool."

Commenting on the letter from his pulpit, he said, "I've received many letters from people who 'forgot' to sign their names. But this is the first one I ever received where the writer signed his name but forgot to write the letter."

The Cancer Crusade is now going on in Coke County and we hope you've reserved a dollar or so for it. As we said last week in this column, this drive is important. Most of the money derived from it is used for research in trying to find a cure for cancer. Can you think of anything you would rather see done?

We were deeply shocked about the untimely death of Vernon Roland in an airplane crash last Thursday in New Mexico. He had been working as part time Linotype operator at The Enterprise for the last several weeks. Last week, however, he left a note under our door Monday morning which said he had received a call to come to Plains and might not be back in time to work Wednesday and Thursday. Sure enough, he didn't show up, and Friday morning we got the news of the plane crash, which also took the life of the publisher of the Plains newspaper. Vernon was a fine fellow and a fine printer, Linotype operator and machinist.

Money may not buy happiness, but you can get a lot of fine synthetics with it.

April 17—Mrs. Harriet Lenoir and Mrs. Charlie Boecking, both of Bronte, admitted. Paula Dunklin, Don Verner and David Verner, all of Bronte, dismissed.

Guests in the home of Mr. and Mrs. Claude Word last Sunday were his brother, Clyde Word, and family of Fort Stockton.

Fire Damage Low At Smith Home

A fire at noon Wednesday did minor damage to the home of Mr. and Mrs. C. R. Smith. The mattress, sheets and electric blanket on a bed in the back part of the house were destroyed and a small place was burned in the floor.

Bronte firemen were called to the scene and, not being able to get any water through their pumps, were able to extinguish the blaze without water. The mattress was taken from the bed and thrown out the window.

Nobody was at home when the fire broke out. It was discovered by Mrs. Ben Oglesby as she was going home to lunch.

Longhorns Win Blackwell Game

Bronte Longhorn baseball team won their first game of the season last Friday by defeating the Blackwell nine, 7-4. The Longhorns now hold a 1-1 season record, having lost to Miles earlier in the season.

Led by the hitting of Tom Latham and Bill Wrinkle, the Longhorns jumped to a 2-0 lead early in the second inning. In the bottom half of the second frame, the Blackwell lads came fighting back to take a 4-2 lead. In the top half of the third, Bronte racked up three runs to take the lead for good. In the fourth and fifth innings, the Longhorns increased their lead to a 7-4 count. Holding Blackwell scoreless for the rest of the game, Bronte came out ahead at the end of seven innings to take their first victory of the season. The winning battery for Bronte was Bill Alexander and Joe Rameriz. Losing pitcher was Boyce Eidson.

Next district game for the Longhorns will be with Norton April 27.

Minnesota Governor Attacks Republican Farm Program

Editor's Note: The following article was brought in by Clifford Clark, who said he thought it would be of special interest to farmers and ranchmen of this area. We also, thought it timely, in view of the recent action on the controversial farm bill. Articles of this kind are of general interest and do not necessarily reflect the views of this newspaper.

"The Republicans are deliberately misrepresenting the farm problem when they say they inherited surpluses at the time they assumed office. They do this in an attempt to evade responsibility for the present farm crisis," Governor Orville Freeman of Minnesota charged today. Freeman reiterated his statement, first made on the nationally broadcast "Meet The Press" program of March 18, that there were no farm surpluses in 1952 when the Republican administration took over.

"I appeared on the 'Meet The Press' program because it offered an opportunity to present to other parts of the country aspects of the agricultural problems that are widely misunderstood," Freeman declared. "I find that even liberals in metropolitan areas have been misled as to the situation. Since the Republicans are spending a quarter million dol-

Public Urged to 'Fight Cancer With a Check up and Check'

A small group of interested persons met Monday night at the First Baptist Church to make plans for the annual Cancer Crusade in Coke County. Similar meetings have also been held in Robert Lee, according to A. J. Kirkpatrick, county drive chairman.

Mrs. J. B. Mackey is in charge of the drive on the east side of Coke County. Others named Monday night to assist her were Rev. Douglas G. Brown, to be in charge of taking up money at ball games being staged for the drive; I. C. Oden, to be in charge of arranging two benefit ball games; Ben Oglesby, to be in charge of canvassing the business district of Bronte. Mrs. Mackey will be in charge of canvassing the residen-

tial district of Bronte. She said Monday night she is going to try to enlist the assistance of various women's study clubs here. Supt. Garland Black volunteered to be in charge of the drive at Bronte School.

Other workers are needed in the Tennyson and other rural areas. Mrs. Mackey said anyone who is willing to work on the Cancer Crusade is invited to contact her.

Slogan of the Crusade this year is "Fight Cancer with a Check-up and a Check." Those in charge of the drive hope not only to raise funds, but to bring facts to the people of this area and to urge every adult to have a physical check-up at this time. Each year this horrible killer takes the lives of thousands of persons in Texas, the nation and many even in Coke County. Mr. Kirkpatrick said he hopes people of Coke County will realize the importance of this drive and contribute liberally. Coke County's quota is only \$500. The money will be used to aid in cancer education and research programs.

Husband of Blackwell Teacher Dies at Gorman

Funeral services for Willie Echols, 48, were held in the Church of Christ at Gorman at 2 p.m. Saturday. Minister Lee Fields officiated.

Survivors include his wife and one son of Blackwell; his mother, Mrs. Mary Ann Echols of Gorman; his father, Louis Echols of Gorman, two brothers and two sisters.

Burial was at DeLeon under direction of Higginbotham Funeral Home of Gorman.

Mrs. Echols is a teacher in the Blackwell Schools. Mr. Echols had been in failing health for several years and had been in the Gorman hospital since last Thanksgiving.

Wildcat Staked on Ash Property

Dalton P. Ellis of Lubbock will drill a 6,200-foot rotary wildcat, two miles southwest of Bronte and ½-mile southwest of production in the Bronte multipay field. It will be drilled as the No. 1 Nannie Ash.

Location, on an 80-acre lease, is 400 feet from the northeast and 330 feet from the southeast lines of 951-S. A. Maverick Smith survey.

The Bronte field produces from the Canyon at an average depth of 4,346 feet; Capps, 4,616 feet; Foen, 4,800 feet; and Cambrian, 5,333 feet.

The No. 1 Ash is 1 3/8 miles southwest of Cambrian production.

FHA Girls Meet in Home Of Aletha Murtishaw

The FHA girls met at the home of Aletha Murtishaw Friday afternoon, with Wanda Kirkland, Jettie Kirkland, Pat McCutchen and Aletha Murtishaw as hostesses.

Corine Feil and Aletha Murtishaw were chosen as delegates to go to the FHA state convention at Fort Worth April 19, 20 and 21.

Talks on Date Etiquette were given by Aletha Murtishaw and Pat McCutchen.

High School Girls, Grade School Boys Volleyball Winners

Bronte High School girls won district in final play with Water Valley in volley ball last Saturday at Mertzon. Bronte took the north win over Norton making them in the district playoff. Girls on the team are:

Flora Mae Brown, Scooter Snead, Wanda Kirkland, Jackie Grimes, Wanda Webb, Oleta Brice, Barbara Miller, Patsy Brock.

They are coached by Grady Baker, and he will carry them to the regional meet which will be held at Odessa Saturday, April 28.

Coach Baker's grade school boys volley ball team also won the district last Saturday at Mertzon. Like the high school girls, they were in the finals with Water Valley.

Members of this team are Bennie Corley, Lanny Denman, Neal Black, Mickey Black, Bob Wrinkle, Richard Spencer and Mike Luttrell.

SCHOOL NOTES

A dramatic presentation of "My Little Oscar" will be given by the Senior class of Bronte High on April 27 in the school auditorium. Vetal Flores is director of the play. Seniors are expecting a big crowd and hope to have something you will enjoy. Curtain rises at 8 p.m.

The regional track meet will be held this Saturday, April 20, in Odessa. Garland Black and Oscar Dorsey will take the following boys to participate in various events: Pinky Gentry, Martin Lee, Jimmy Lee, Gene Walker, Jimmy Brunson, Noel Dean Scott, Billy Charles Wrinkle, Gene Sherrod and Robert Moore. These boys will enter regional events for which they qualified in the district meet.

All the pianos at the school were overhauled last week. New rollers were put on the piano on the stage and it was tuned. The others were overhauled at a cost of approximately \$35 each.

Work is coming along on the field house at the football field, according to Supt. Garland Black. Foundations have been laid and plumbing work is being done before the concrete floor is run. A tile building, 16 by 36 feet, is being planned.

Two days of work on plumbing the building was donated by Arthur Wrinkle. He was assisted by Clayburn Webb.

This building has been greatly needed at the field for a long time, Mr. Black said, and will be something of which all football fans can be proud.

Both grade and high school students enjoyed an assembly program last Tuesday morning when the Glee Club of San Angelo College performed. The club was under the direction of Hugo Black.

Mr. and Mrs. H. A. Springer and Mr. and Mrs. John Coalson attended a Boy Scout Committee-men and Scout Leaders barbecue last Sunday at Camp Fawcett near Rock Springs. A program was given for the group following the barbecue.

SOCIETY

Mrs. A. S. Whatley, Editor

The Bronte Enterprise

April 20, 1956

what's what by whatley

For my column this week, I am going to give you a portion of a letter that I received from my daughter after she had arrived in Germany. I have had so many ask me things about her home and surroundings and I thought maybe that everyone would enjoy knowing a little about what she thought about Germany.

We got in on schedule—8:40 p.m. which is 1:40 p.m. in Bronte. Billy met us and took care of the rest for me with Customs, et cetera. Then we came home and our apartment is very nice. He really had it fixed up for me. He had been unable to get a live-in maid so far, but has a very nice one named Elsa who comes at 8:30 a.m. and leaves at 5 p.m. and will baby sit anytime we want for approximately 25c an hour in American money. Our furniture is very attractive and the coal stoves work fine, now that Billy has learned to operate them. Anyway, when we got home, the house was spot less and Bill had bought flowers and had tulips in the bedroom, living room and kitchen. Also, he had bought 2 beautiful plants, one is an azalia (I think) and the other is a "shoe" plant, and it is the most beautiful thing I've ever seen. It is very odd, is yellow with red spots sorta like a leopard and are shaped sorta like Dutch shoes. Each bloom looks like it's puffed up with air. I can't really describe it, but it's lovely, and I've never seen anything like it before.

Now, for a little bit of my impression of Germany. First, on speed limits—they do have some, but not on their autobahns, which are their wide through highways. You never see a one-story house,

and it is interesting to me to see what are called tree farms. They look like a great big forest, but they're only about a block wide (much longer, however). Also, I've seen very few pretty women, and none of them look chic; and the men are even worse—they are either very coarse or very effeminate looking. In this little village where we live, called Moerfelden, everything is very picturesque. The people dress like the pictures you've seen of the Dutch people, except for the wooden shoes, and everyone rides bicycles. It's odd to see women around 50 riding bicycles. I have to have a driving license before I can drive, but's just as well, because I'd never find anything anyway. Everything is very confusing to me—I can't tell the highway signs from the town names. Oh yes, the driving test is written only, so I plan to study for it very soon. One thing that has impressed me, is how clean the streets of the towns are—you never see debris on them. Of course, everyone drives very small cars, and they have some of the oddest vehicles I've ever seen, for instance small pickups with only 3 wheels, only one in the center front. Also, you see little yellow motorcycles on the highway quite often, and the first impression is that they are policemen, but they just patrol the highway for accidents—they are first-aid men.

Perhaps next week we will give you some more of Sara Fsances' impressions of Germany, but due to the length of her letter we had to stop for this week.

Last week I attended a party at the Humble Rec. Hall and Mrs. Guy Strickland had made a very good brownie. It was so rich and yummy. She so graciously gave me the recipe as there were so

many that liked this and it is different from the every day brownie recipe. This is called:

Marble Brownies

Cream ½ cup shortening and 1 cup sugar
Add 2 eggs
Blend thoroughly
Sift together
¾ cup flour
½ tsp. baking powder
½ tsp. salt.

Stir these into the creamed mixture.

Place half of this batter into another bowl

Add ½ tsp. vanilla to one bowl
Melt one 1-ounce square of unsweetened chocolate to the other mixture

Grease an 8x8x2 inch pan. Drop chocolate mixture by teaspoonfuls in a checkerboard fashion.

Then fill in the empty spaces with the vanilla mixture.

Zigzag a rubber scraper through the two batters but be careful not to blend too well.

Bake in a moderate oven 350 degrees about 35 minutes.

Top with chocolate nut frosting.

Chocolate Frosting
Over hot water melt one half of a 1-ounce square of unsweetened chocolate.

1 tbs. butter with 2 tbs. milk
Then add ¾ cup powdered sugar
Beat to spreading consistency and add nuts

Spread on the brownies and cut into squares.

Mr. and Mrs. Otis Smith left last Friday to make their home in Big Spring where he is employed at the city water station.

Mr. and Mrs. Chris Burrows of Long Beach, Calif., are visiting this week with Mr. and Mrs. M. G. Gilreath and other relatives in Bronte. Mrs. Burrows is Mr. Gilreath's sister.

Mrs. L. E. Smith Hostess To Progressive Club

Mrs. L. E. Smith was hostess to the Progressive Study Club at its regular meeting last Thursday afternoon at her home. Texas Day was the theme of the program and for a roll call each member gave a "Texas of Whom I Am Proud." Mrs. Charlie Keeney gave as her part on the program the story of famous ranches and their brands. Texas Under Six Flags was given by Mrs. Will Gideon.

A salad plate was served to one guest, Mrs. C. C. Glenn, and the following members: Mmes. Edna Butner, Joe Carter, W. C. Duncan, W. S. Evans, Claude Gentry, Gideon, F. S. Higginbotham, Keeney, J. D. Leonard, L. T. Youngblood and the hostess.

Diversity Club Presents Musical Program

Music was the theme of the program for the Diversity Study Club at its regular meeting held last Thursday night at the Methodist Church.

Mrs. Edith Kreyer of San Angelo, who teaches piano and voice in Bronte, presented her pupils in a short recital. Those taking part were Don and Eddy Glenn, Tommy Glenn Sims, Ann Harris, Carolyn Kemp, Marla Lou Rees,

Dana Eubanks, Nona Rippetoe, Jimmy Ed Mackey, Jane Austin of Robert Lee and Sally Wyatt of Eola.

Members of the Progressive and Sorosis Clubs were guests; also Mmes. Lucile Baldwin, W. G. Moon, Nora Bridges and A. L. Carlile.

At the conclusion of the program, cake squares, frosted lime punch and nuts were served from a tea table laid with a white drawn cloth over green with an arrangement of white Iris making the centerpiece. Mrs. George Thomas presided at the punch bowl and Mrs. Otis Smith served the cakes.

Hostesses were Mmes. Thomas, Smith, Joe George Wilkins and A. S. Whatley.

HONORED WITH SHOWER

Mrs. Ivey Eubanks was the honoree at a pink and blue shower given last Friday night at the home of Mrs. Marvin Landers.

After several games were played, gifts were opened by Mrs. Eubanks. Punch, cake squares and mints were served with marshmallow baby carriages as favors. Hostesses were Mrs. R. H. Sims, Mrs. H. C. Murtishaw, Jr., Mrs. E. G. Collins and Mrs. Landers.

Mr. and Mrs. Brown Freeman spent last weekend in Odessa with their son, Richard Freeman, and family.

Mrs. Curtis Ramin returned to her home in Fort Worth last Friday after she had spent several days in the home of her sister, Mrs. O. H. Willoughby, and Mr. Willoughby.

SHOP BRONTE FIRST

WHAT DO YOU MEAN, "JUST FACE LIFTING"?

EVERY NOW AND THEN, we run across someone who seems to think that 1956 cars do not offer anything really new—just a little face lifting from the year before.

We won't try to speak for the automobile industry. But we certainly can speak for Buick.

And let us announce in no uncertain terms—it's the newest thing on wheels.

The Styling is New

Sure, it looks like a Buick. But it has a new V-prowed grille that says 1956 and no mistake. The hood's new—the fender ports are new—the sweep-spear is new—and it all adds up to a new sweep-ahead look that ends in a sassy new slant to the rear contours.

But that, friends, is only the beginning.

The 1956 Dynaflo* is New

It introduces what the engineers call "double regeneration"—which means a double-action take-off. It gives you new,

split-second response in the first inch of pedal travel—plus the "switch the pitch" at full acceleration, which no one else has yet approached.

The Ride is New

To coil springs on all four wheels, a brawny X-braced frame, and torque-tube drive, the engineers have added deep-oil shock absorbers to give new softness, new buoyancy, new comfort, and a brand-new "sense of direction" handling response.

The Power is New

All 1956 Buicks have new 322-cubic-inch V8's—with record highs in power and compression—with unique new double "Y" manifolding to step up efficiency—with new carburetor "deicing"

—and a host of other new features to make owning a Buick pure pleasure.

The Thrill is New

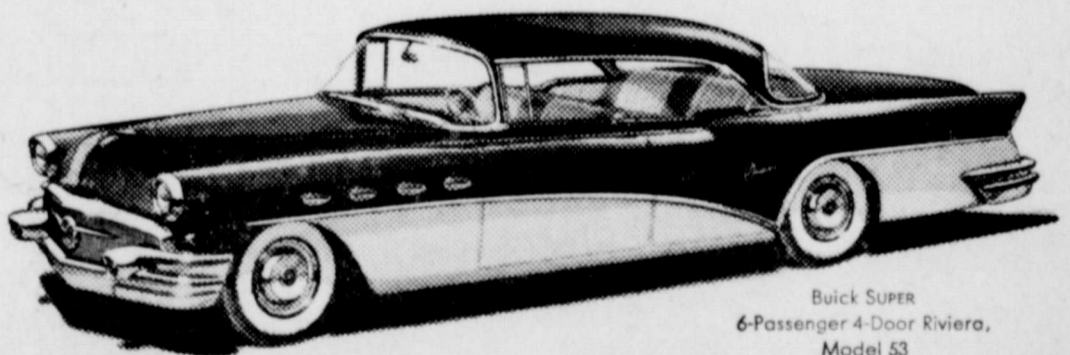

And the surest way for you to find out how right we are, is to sample a 1956 Buick yourself.

As we said before, this is the *best Buick yet*—by a wide measure—and when you learn the prices we're quoting, you'll know why this Buick is one of the three best sellers in today's market.

It takes a lot more than face lifting to produce such a winner as this.

*New Advanced Variable Pitch Dynaflo is the only Dynaflo Buick builds today. It is standard on Roadmaster, Super and Century—optional at modest extra cost on the Special.

MINNESOTA GOVERNOR—
Continued from Page 1

—There were 2,700,000 pounds of butter which, at the 1952 consumption rate of over 100 million pounds a month, was less than one days supply.

These figures on quantities in government storage come from U. S. D. A. publication, PRICE PROGRAMS, Agriculture Infor-

mation Bulletin No. 135, issued January, 1955, page 65.

Certainly Republicans should not challenge figures on government price support inventories issued by their own administration," Freeman asserted.

"There are two or three points I want to make crystal clear," Governor Freeman declared. "First, the Republicans refuse to distinguish between reserves and surplus," Freeman declared. "If we are to follow the principle of the ever-normal granary—if we are to be prepared for any natural or man-made emergency, reserves of essential food, feed, and fiber are certainly as important to national welfare and defense as reserves of strategic metals. Yet, the Republicans persist in calling every bushel of grain and every pound of butter not currently being consumed a surplus. Any

wise program must take account of essential reserves."

"Second, if the Republican administration had in 1953 foreseen the need for cutting back production, it should have expended the Agricultural Conservation Payments program for holding land out of soil-depleting crops. Instead, it adopted policies which discouraged participation in the A.C.P. program, and advocated a reduced budget for it. As a result, by 1954 there were 16 million more acres in feed grains than in 1952."

"Third, the best qualified experts in 1952 called for increased agricultural production, obviously more concerned about shortages than about surpluses," Freeman stated. "The U.S.D.A. and the land grant colleges cooperated in a special study and issued a report in June, 1952, which stated: 'In view of the currently declining reserves of feed grains, how can we produce even greater quantities of livestock and other farm products, and at the same time replenish our feed stocks and maintain the reserve supplies that might be needed in case of drought or international emergency? It is apparent in the years ahead that we must increase the productive capacity of our farm plant.' This quotation," Freeman continued, "comes from page 1 of AGRICULTURE'S CAPACITY TO PRODUCE issued by the U.S.D.A. in June, 1952."

"The disregard of the farmers' interest on the part of the Republican administration is of concern to us all," Freeman stated. "It is of concern partly because of the farm crisis—if allowed to continue—will be reflected in all other segments of our economy."

"It is of further concern because

it presents the point of view of a single-interest administration, an administration devoted to the interests of only the privileged few at the top of the economic ladder. It ignores the pressing problems of our farmers. It pays only lip service to smaller business. It has nothing to offer the ten million families with annual incomes of less than \$2,000. It has no adequate solution for our crowded classrooms, our slums, or the health needs of our aging citizens. It gives away to a privileged few the God-given resources that belong to 160 million Americans."

"If that single-interest administration goes far enough or lasts long enough," Freeman asserted, "our social and economic progress will be seriously retarded. Only a return to the Democratic party,

with its representation of all the interests of all the people, can meet the challenge to our democracy in the years ahead."

Mr. and Mrs. Cecil Kinney spent the weekend at College Station visiting with their son and daughter-in-law, Mr. and Mrs. Charles Kinney. Mr. Kinney is attending A&M College.

Sunday guests of Mr. and Mrs. T. E. Tidwell were Mr. and Mrs. Cotten Springfield of Stratford and Mr. and Mrs. Jim Springfield of Snyder.

Mr. and Mrs. Bob Wilson and children and his parents, Mr. and Mrs. L. F. Wilson, of Winters spent the weekend in Midland with his sister, Mrs. Paul Neill, and family.

with your EGGS

We have been getting quite a few eggs lately that didn't come up to the grade they should have. Of course, we will not be able to pay you as much as we would if your eggs were properly cared for. MAY WE SUGGEST THAT YOU—

- Gather eggs at least twice daily in vinegar.
- Place eggs in a wire basket until they are cool.
- Keep eggs refrigerated at all times.
- Clean eggs with a cloth dipped
- Keep egg containers out of barn where dust can settle on them
- Always place eggs in case, small end down.
- Always Feed Red Chain Feeds

BROOKSHIRE BROWSINGS

By Mrs. Herbert Holland

Mr. and Mrs. Charlie Brown were at Zephyr last weekend at their ranch where they attended to the shearing of their sheep. They were accompanied by Robert Brown of Tennyson. Flora Mae Brown stayed with the Jerry Landers while her parents were away.

Those from Brookshire attending the final service of the Tennyson revival were Mr. and Mrs. J. C. Boatright, Mr. and Mrs. Herbert Holland, Rev. Bill Cope, A. J. Essary, Mr. and Mrs. Charlie Brown and Flora Mae.

Mr. and Mrs. Jack Rawls of Marfa flew down and spent Saturday with Mr. and Mrs. Herbert Holland.

Rev. Bill Cope of Norton and Mr. and Mrs. J. B. Arrott and boys of Tennyson were supper guests of Mr. and Mrs. J. C. Boatright Sunday night.

Mrs. Willard Caudle attended the funeral services for Floyd

Jones in Ballinger Thursday morning. Saturday Mrs. Caudle visited her sister, Mrs. Willis Smith, who is ill, in Ballinger.

Mrs. Luther Nixon and Oscar Isbell were called to the bedside of their father, Jack Isbell, who is living with another daughter, Mrs. Jerry Curry, in Norton. Mr. Isbell has been ill for several weeks and became worse Sunday.

Charlie Hudson and Herbert Holland were in Nimrod last Tuesday on business.

Mr. and Mrs. Charlie Brown and Flora Mae were supper guests of Mrs. Studie Brown in Tennyson Thursday evening.

Cecil Lowery and Homer Clark of San Angelo visited Mr. and Mrs. Jim Clark Monday afternoon.

Visiting the Willard Caudle family Tuesday were Mrs. Verlin Oates and Mrs. Dean Stephenson and son, Terry, of San Angelo.

Mr. and Mrs. O. D. Collins visited Willard Caudle Thursday.

A. J. Essary visited Mr. and Mrs. George Blackman in Ballinger Friday. Saturday, he visited his son, Clarence Essary, and

family.

Billie Tounget, who is staying with Mr. and Mrs. J. C. Boatright and attending Bronte school, got his shoulder injured last week while playing ball. He was hospitalized overnight but was released next day. Billie spent the weekend at Christoval with his parents, Mr. and Mrs. Zack Tounget.

Cancer Killed 9,379 Texans The Past Year

AUSTIN, April 12 — Cancer, the second leading cause of death, took the lives of 9,379 Texans last year. This means that a little over one person out of every 1,000 of our population died from this disease during that period.

According to Dr. Henry A. Holle, Commissioner of Health, one-third of these deaths could have been prevented by earlier detection and prompt treatment. On this basis 3,126 Texans needlessly died of

The Bronte Enterprise

April 20, 1956

cancer in 1955, because proper treatment was begun too late.

There are some encouraging aspects in the fight against cancer. Deaths from that disease among women in the United States have declined more than ten per cent in the past ten years.

Many thousands could be saved if men and women would have a complete physical examination once a year. Women over 35 should have a mid-year check-up for signs of uterine and breast cancer and men should secure an X-ray for signs of lung cancer.

Dr. Holle says that at least 50 per cent of all cancers are accessible to examination by a physician through sight or touch.

Of all Americans who die of cancer today the deaths of one-third could be avoided if proper treatment were begun before the cancers spread. The profession of surgery is proof of this, as the latest figures show that cancer deaths among surgeons are only 66 per cent of the general rate. Evidently surgeons not only have

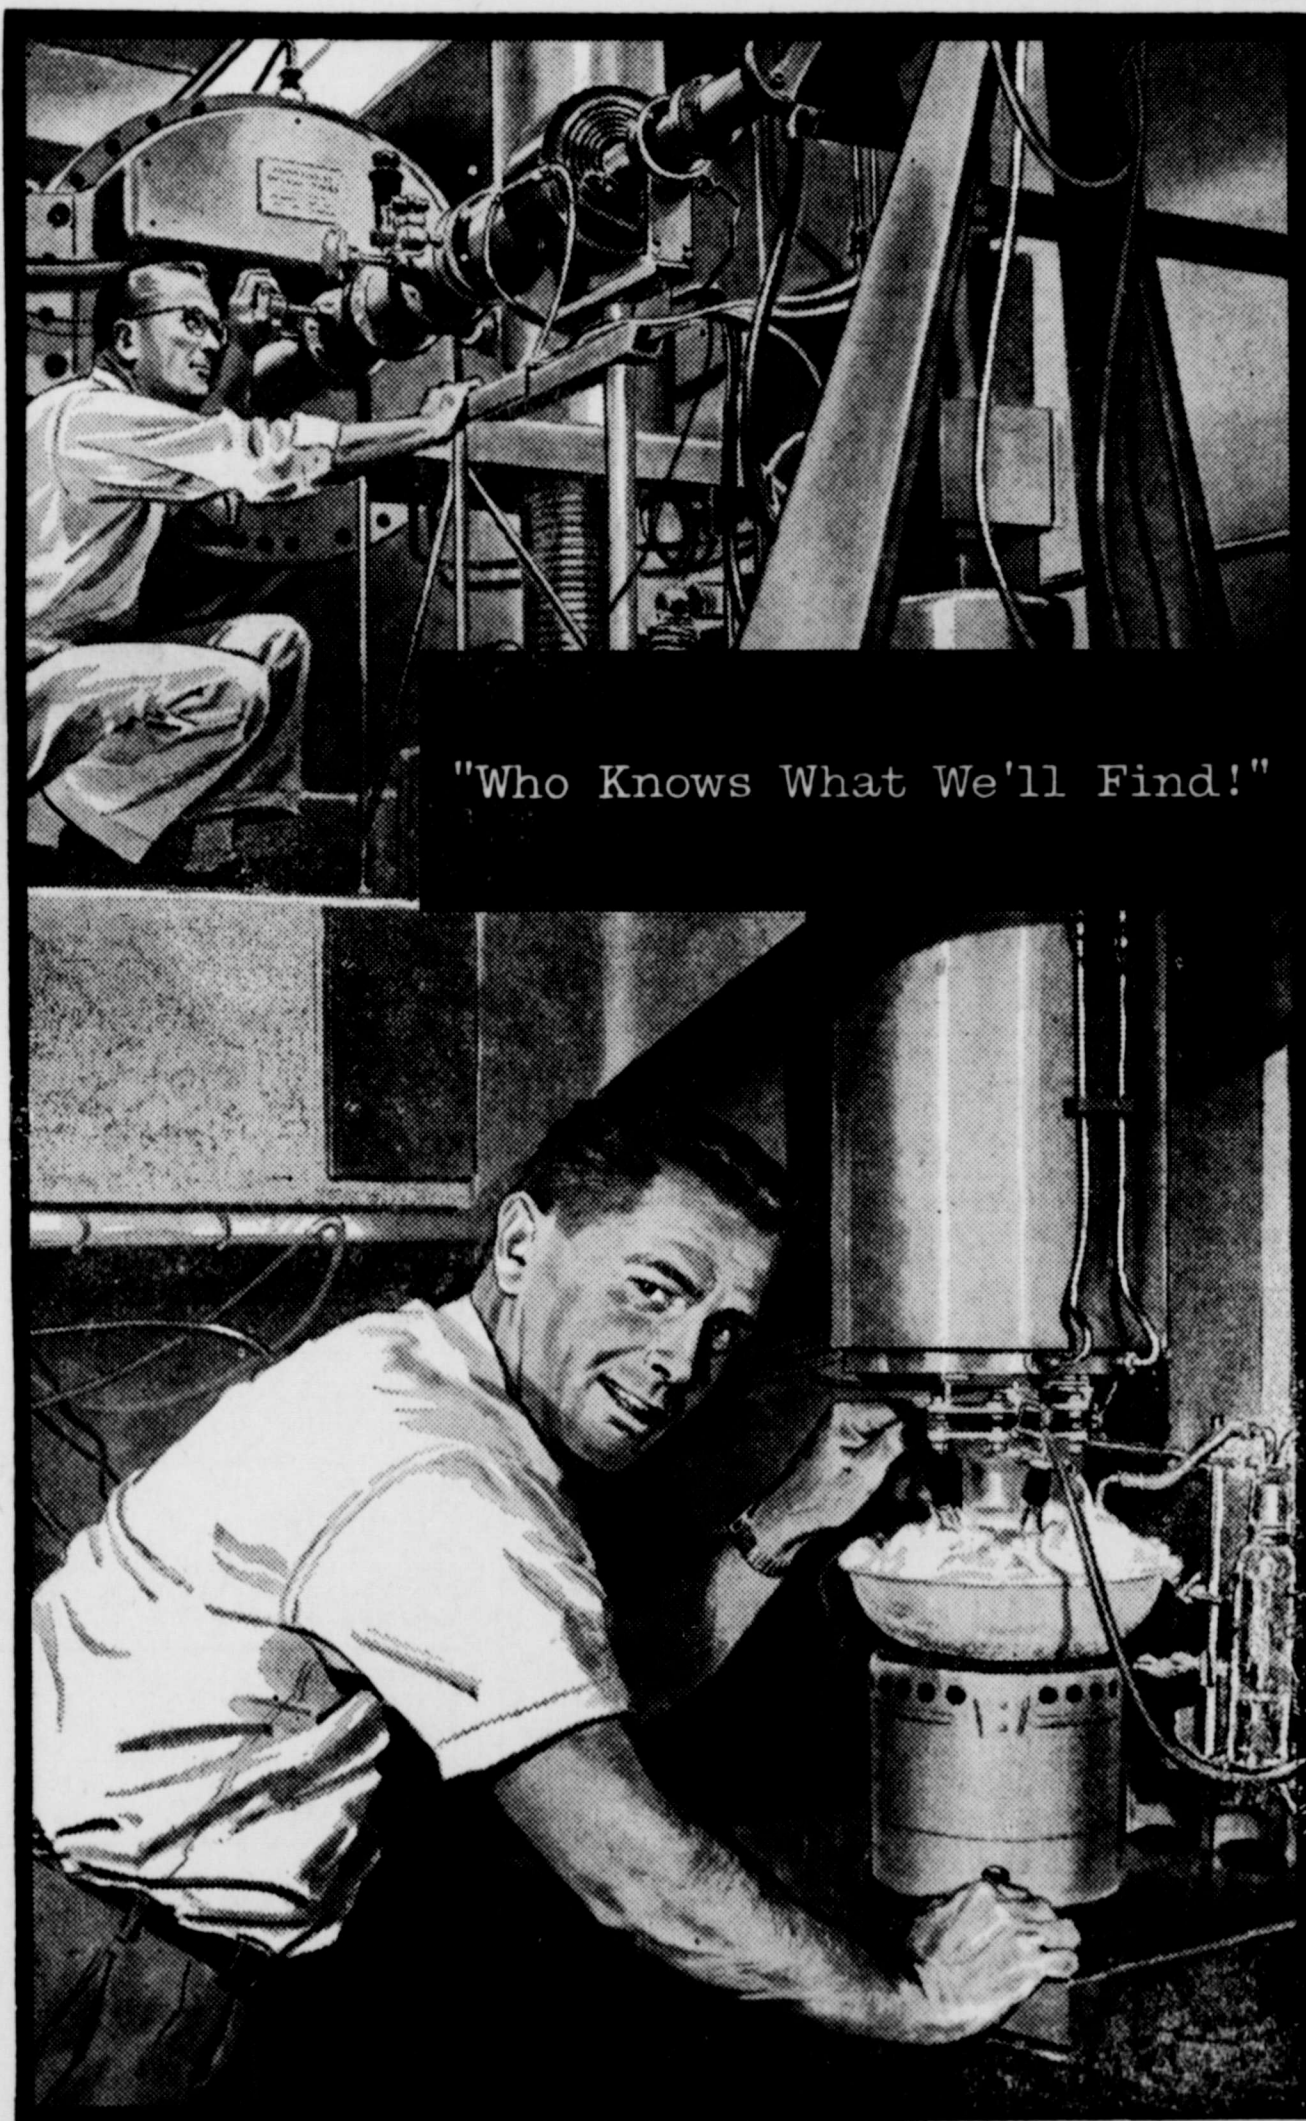

the proper knowledge of the facts about cancer, but act promptly on the basis of that knowledge.

Today cancer is being attacked by research within nearly every branch of science. Also, studies are being made of large numbers of people to discover if living conditions are in any way responsible for cancer.

Local News

O. Faries, who has spent the past several months in Azle, has moved back to Bronte to live on his place between here and Robert Lee. A cousin of Mr. Faries, Ross Stoker, of Hill County has come to live with him.

Visitors in the home of Mr. and Mrs. R. S. Walton this week for several days were their son-in-law and daughter, Mr. and Mrs. F. P. Brown, of Delmeta. Their other daughter, Joe Dell, of San Angelo came over for the weekend.

"Who Knows What We'll Find!"

Dear Friends

As a part of their work in Humble's Refining Research Laboratory, Humble scientists bombard petroleum hydrocarbons with electrons in a 2-million volt Van de Graaff Accelerator.

But if you ask one of these scientists what he expects to find, he'll answer, who knows!

For this is fundamental research. Results may be quick or they may be a long time developing. Who knows?

. . . Perhaps the scientists will find a way to increase the yield of useful products from a barrel of crude oil.

. . . Perhaps they'll be able to make improvements in the fine products already supplied you.

. . . Perhaps they'll develop an entirely new group of petroleum products.

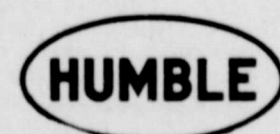

Who knows!

This much, however, is certain: Humble research scientists at Baytown use every device of physics, chemistry, mathematics and mechanics to provide you with more and better petroleum products.

Two quick examples: The specifications for Esso Extra gasoline, the formula for Humble Uniflo motor oil. These, without question, are the finest products you can use in your car.

Sincerely

HUMBLE OIL & REFINING CO.
