Longhorns Slip by Stamford, 6-0; To Meet Eden Tonight

The Bronte Longhorns will travel to Eden tonight (Friday) and take on a tough Bulldog team. Eden is a Class B team but is expected to give the Longhorns a run for their money. This will be the first meeting between these two teams and should be a good battle. Eden will be seeking its first victory of the year after losing to Junction last week 26-6. The Longhorns defeated the Stamford B team last week 6-0 and should look a little better this week. Game time is 8:00 p.m. Everyone is asked to follow the Longhorns to Eden and support the Bronte lads.

AD-LIB-BEN

We very unpatriotically deserted the Bronte Longhorns at their opening football game last Saturday night and took our kids to the circus in San Angelo. This treasonable action of ours was necessary because of a promise of long standing. Some poor character, who had on a nice clean white shirt sat in front of us. He must have been a father or else the who bunch in our delegation would have got a good licking. It happened during a tight rope walking exhibition, which we were watching attentively. The girls were sitting way out so they could see. When we finally noticed what was happening, it looked as if this man might be bleeding to death. He had red spots all over the back of his shirt. We saw what was happening. Every time the gal on the rope bounced or something, our littlest kid squeezed a mushy snow cone a little harder—and it was right over this guy's back. We concluded that we could figure out how many times the tight roper did something exciting by counting the red spots.

From the looks of the crowd at San Angelo Saturday night, Mr. Ringling Bros., Barnum & Bailey must have miscalculated when announcement was made recently that the days of the big top are over. Clyde Beatty had a good turnout at his show, even though it is not the extravaganza which RBB&B is.

It must be admitted that most every man has his price; but then, most every woman has her figure.

It's a shame for a mother to send her son out so clean and shiny that he's humiliated in the presence of his soiled associates.

It's very pleasing to note the large number of boys and girls from Bronte who are going away to college this year. We can't agree with the fellow who was asked how colleges and universities acquired so much learning. He replied: "The freshmen bring a little in and the seniors take none out, so that it accumulates through the years."

"Always do right; you will gratify some people and astonish the rest."—Mark Twain.

The Bronte Longhorns opened their 1956 football season by defeating the Stamford B Bullpups by a slim margin of 6-0. Although the Longhorns outweighed the Bullpups by almost 15 pounds per man, the Pups outplayed the Longhorns nearly all the way. The Pups had one touchdown called back because of a penalty and were held twice within the ten yard line.

The Longhorns' only score came early in the final period when the Bronte boys took over on downs on their own 45. Walker hit Denman with a pass good for 18 yards and the Longhorns were on their way. Jimmy Lee then took the ball to the three on four straight keepers and then took it over on the next play. The try for extra point failed and the Longhorns led by a score of 6-0. This also was the final score.

The Longhorns showed great prospects on the line and the backfield looked a little more capable than they have ever looked before. Robert Moore and Joe Ramirez were the standouts on the line, while Bill Wrinkle and Aubrey Denman looked good from the back spots.

The Bullpups outgained the Longhorns 138 to 124 yards in the rushing department and outscored the Longhorns 9-7 in the first down column. The Longhorns looked good in holding the Pups once on the eighty yard line and then holding them two downs on the one foot line.

Mrs. Wilson said she regretted very much having to close the store, but since she operates a similar business in Winters, the work of looking after both stores was more than she felt like doing. She said she was well pleased with her business here. Mrs. W. H. Maxwell, Jr. operated the shop for the Wilsons.

Gerald Sandusky of Bronte underwent an emergency appendectomy last week in the Bronte Hospital. He was rated for the starting fullback at Abilene Christian College and had started grid practice.

Finances of the City of Bronte appeared to be in good shape, according to a report presented to the city council last Friday night. The city has \$7,248.67 on hand in its five funds, and members of the council pointed out that time for tax revenue to start coming in is not far away.

City tax collection for 1956 taxes begin Oct. 1, and Mrs. Helen Kirkland, city secretary, said she would start working on tax statements this week.

Nov. 12 Set As Date For Murder Trial

The trial of Vernon Glenn, 33, charged with the murder of Hollis Stevens, has been re-set for Nov. 12. Judge Joe L. Mays, 51st District Court Judge, said Wednesday that the trial has been called in San Angelo on that date and that a special venire of 175 prospective jurors has been summoned to appear.

Stevens was wounded the morning of July 25 as he sat in the car of Deputy Sheriff Frank Kee-see with Glenn. He died later that day. Kee-see was wounded in the finger by a second shot as he was trying to disarm Glenn.

Glenn was indicted Aug. 7 by a grand jury sitting at Robert Lee and charged with first degree murder. Tentative trial date was set at that time for Sept. 10. However, the defense asked for a change of venue following arraignment on Aug. 20, and the change was granted by Judge Mays. The defendant pleaded not guilty to the indictment as read.

Carl Runge Sr. and Earl W. Smith have been retained as attorneys for the defense. District Attorney Aubrey Stokes will prosecute the case. He will be assisted by O'Neal Dendy, who has been retained as a special prosecutor.

Mrs. Wrinkle Dies After Long Illness

Funeral arrangements were incomplete Thursday afternoon for Mrs. Lillie Belle Wrinkle, who died at 11:45 a.m. Thursday at the local hospital. She had been in ill health for several years and had been hospitalized the past several months.

Mrs. Wrinkle was born March 12, 1872, in McCulloch County, near Moody. She was married in 1889 to J. D. Wrinkle. He died in 1937.

The family moved to Bronte in 1909 and were engaged in farming. Mrs. Wrinkle had made her home the past 16 years with a daughter, Mrs. Will Stephenson.

Survivors include six daughters, Mrs. W. R. Stephenson and Mrs. C. L. Kiker, both of Bronte, Mrs. S. H. Hageman of San Angelo, Mrs. F. A. Askins of Wellington, Colo., Mrs. Francis Seltz of Robert Lee, and Mrs. Art Griffe of San Diego, Calif.; one son, W. E. Wrinkle of Pacoima, Calif.; 17 grandchildren; 19 great-grandchildren and one great-great-grandchild.

Funeral arrangements were being made Thursday by Clift Funeral Home.

The money on hand was divided into funds as follows: general fund, \$2,215.08; waterworks fund, \$3,879.54; street and alley fund, \$343.67; police fund, \$519.80; fire department fund, \$290.58. These figures do not include \$1,056.95 which is on hand in special waterworks fund for the purpose of moving and erecting the new water tank. This latter sum is the balance on hand of \$3,500 borrowed for this purpose.

In the Friday night meeting, council members approved bills against the city and discussed other routine matters. They also were of the opinion that the city should accept the other water tank which was offered by Santa Fe Railway company. Tentative plans are to erect the other tank at the site of the filter plant in the north part of town.

Work on Water Tank Progressing

Work on erecting the new water tank in Bronte was progressing satisfactorily this week, according to a report from the city council. The big tank is being erected alongside the old water tank west of the railroad.

Foundations for the four legs of the tower have been poured and the original legs of the tank, which had to be cut before it could be moved, have been welded back. Work now is being done on the new legs which will raise the tower to sufficient height to assure good water pressure.

The tank was given to the city by the Santa Fe Railway Co. It was moved here from Mertzton. The company also has another tank like this one, located at San Angelo, which was also offered to the city. The tanks hold 50,000 gallons each.

Bronte Federated Clubs Begin their Season

By Mrs. A. S. Whatley

MRS. CLAUDE WORD
Diversity Club President

MRS. GRADY BAKER
Sorosis Club President

September is the month when all federated clubs get underway on their new year's work. The latter part of May end programs for most of the clubs, and the ladies go about other summer activities, with the exception of summer picnics for members and their families.

However, work does not cease in May for three members of each club who are selected to serve on the yearbook committee. They spend a great deal of time during the summer concentrating on the preparation of programs for the ensuing year. Their work not only deals with getting up the type programs all the ladies will enjoy, but in allotting these parts best suited to each individual club member. Their time and effort are spent for the good of the club.

Bronte is fortunate in having a large group of club-minded women. The town should feel highly complimented in having enough women who are interested in this type work to make up four federated clubs. All these club women not only have programs and entertainments during the year for their own enlightenment, they sponsor many projects from which the entire community benefits.

The Junior Study Club is the youngest of the four clubs in town. It was organized in 1954 and was federated a year later. Officers for the next two years are: president, Mrs. William Fletcher; secretary, Mrs. Nile Bryant; treasurer, Mrs. Harry Rucker; and reporter, Mrs. Bill Luckett. They had their kickoff meeting Sept. 4.

The Sorosis Club was organized in 1946 and federated in 1947. Selected as officers for the next two years are: president, Mrs. Grady Baker; vice president, Mrs. Royce Lee; secretary, Mrs. J. B. Morrow; treasurer, Mrs. Bob Wilson; parliamentarian, Mrs. Royce Fancher; and reporter, Mrs. Ben Oglesby. This group had their first meeting of the new year Friday, Sept. 17.

In 1930, a group of women got together and called themselves the Diversity Club and it was federated the same year. Their officers for 1956-57 include: Mrs. Claude Word, president; Mrs. J. T. Henry, vice president; Mrs. T. F. Sims, Jr., secretary; Mrs. Wade Rees, treasurer; Mrs. A. S. Whatley, reporter; Mrs. Collins Saylor, counselor; Mrs. H. A. Springer, parliamentarian. The Diversity Club was the first to start their fall meetings, having their initial meeting Aug. 27.

Last but not least is the Progressive Club, which is the oldest federated club in Bronte. It was organized in 1915 and five years later was federated. Officers for this club are: Mrs. L. E. Smith, president; Mrs. Claude Gentry, vice president; Mrs. W. J. Gideon, secretary; Mrs. Charles Keeney, treasurer. They will hold their first meeting on Sept. 20.

Mrs. W. D. McDonald Hostess to Sorosis Club

Mrs. W. D. McDonald was hostess to the Sorosis Club members last Friday night when they had their first meeting for the 1956-57 club year.

Program for the evening included the introduction of the new yearbooks by the yearbook committee. Mrs. J. B. Morrow was in charge of the recreation hour and had back to school games for the group.

A salad plate was served to the following members: Mmes. Grady Baker, Garland Black, Edward Cumbie, Royce Fancher, E. F. Glenn, Clyde Lee, Royce Lee, J. B. Morrow, Ben Oglesby, Roy Robinson and the hostess.

What's What by whatley

I have had at least a half dozen people tell me the last week that they enjoyed reading the letters my daughter sends back to me. I guess that everyone is tired of the get-up that I write. I am sorry to disappoint you all this week but it is not that she has not written me anything of interest—it's just that she has not written me anything—period. I guess they have sold out of stamps in Germany. From what she wrote me not long ago, I think I will make a trip over there to buy my winter wardrobe. She had bought her little sons some winter pants like the German children wear, to be able to cope with the cold weather they have over there—and they were less than 50 cents a pair. I went to town the other day to try to buy me a new hat and I didn't find things quite that cheap. In fact, I came home without a new bonnet. If anyone has any old turkey feathers lying around loose in the yard, please bring them to me and I'll see what I can do about trimming me up a winter chapeau. Frankly, I think I could take a bucket and trim it and it would be as becoming to me as some that I tried on.

We have one less mouth to feed around our house. This happened when the husband gave away the little four-legged canine. We do everything the hard way. We got him when he was a mere infant and he has chewed up everything on the place which was not made of iron. I think he even put dents in those things. They say that every boy should have a dog and I have always agreed, but I have almost changed my opinion on this matter. Since he had gotten to a more mature stage and I thought it would be a pleasure to look out and see he was at last leaving things alone—then we give him away. Don't anyone offer us another as we are not in the market . . . we will just keep the bird and eat around for awhile.

I have a very good recipe for you this week, for brown sugar squares. This is a very old recipe of Mrs. J. R. Rasco's mother. They are a chewy type cookie and I know you will enjoy them. They will make excellent after school eating for the kids.

Brown Sugar Squares

- 2/3 cup white sugar
- 1 cup brown sugar
- 1/2 cup oleo or Crisco
- 2 tsp. baking powder
- 1 1/2 cups flour
- 1 tsp. vanilla
- 2 eggs
- 1 cup nuts (these are optional)

Melt sugar and butter together and let cool. Beat until very smooth and add all the other ingredients, and spread on a cookie sheet. Bake at 350 degrees. When cool cut into squares.

Mrs. I. C. Oden was in charge of the program on "The Island Awaits His Word." Mrs. B. E. Modgling led the devotional and Mrs. Loeffler sang "In His Heart," accompanied by Mrs. Modgling.

Open face sandwiches, cookies and bottle drinks were served to the following: Mmes. Oden, H. O. Whitt, Edna Butner, Modgling, J. A. Percifull, J. W. Bagwell, Loeffler, T. F. Sims, Sr., and the hostess.

Visiting in the home of Mr. and Mrs. H. O. Whitt for the past two weeks is their son, Hubert, Jr., of Jal, N. M. He is here on vacation. Weekend guests in their home were their son-in-law and daughter, Mr. and Mrs. D. O. Fleming and children of San Angelo.

Birthday Party Given For Mrs. C. C. Smith

Mrs. C. C. Smith was honored on her 78th birthday last Sunday at the home of her son, Curtis Smith, and wife in San Angelo. All four of Mrs. Smith's children were present for the occasion.

TURKEYS MAKE PROFIT EVEN AT LOW PRICE

By JACK B. WAIDE
Coke County Agent

Many of you are no doubt interested in the progress of the turkey growers who were mentioned earlier in this column. As a review Marvin Corley, Jack Corley and J. W. Latham, all of Tenyson, started 1000 turkeys each early in March and Jerry Hurley of Robert Lee started 1000 the latter part of March. Jack Corley and Latham started 1000 each in June.

All of the hens from those started early in March have been sold at 26 and 27 cents per pound. The hens averaged between 14 and 15 pounds per head. 240 toms have been sold at 27½ cents per pound with a 25-pound average.

Another 400 have been contracted at 27 cents per pound but have not been delivered. Jerry Hurley still has all of his, but they should be ready to go in another two weeks. About 700 toms remain to be sold at Tenyson. Of course we still have 2,000 from the June hatch which should be ready early in November.

Sales and contract prices to date indicate a profit of about 80 cents per bird. This doesn't sound like much, but when you consider that we have a 45 percent increase in turkeys in Texas which is causing a very poor market, the fact that our growers are able to squeeze out even a small profit indicates a job well done by them. It also indicates that there is an opportunity for others in the county to add to their income by growing turkeys.

COW TESTING

Several have inquired about having their cows tested recently. I wish all of you in the county would contact me or leave word at my office in Robert Lee or the Red Chain Feed Store in Bronte if you would like to have your cows tested for bangs disease. If we have enough to justify it, I will get a veterinarian to come over and take blood samples. The more we get, the cheaper it will be. I will contact the vet after you send me your names and see how much it will cost, then write each of you for a definite answer.

MORE ON SOIL BANK

The conservation phase of the soil bank program was announced this week. It is a very interesting program which could prove to be very beneficial to this county. Some of the details still have to be worked out on a county basis, but in general you can put your cultivated acres into the conservation reserve for either five or ten years.

The land must be put in permanent grass. The government will pay eight dollars per acre per year for the length of the contract. This land cannot be grazed or harvested in any way while it is in the conservation reserve.

This program has two purposes. It is another attempt to take land out of cultivation and it also takes the problem of restoring some of our land to a natural state of fertility. Regulations permit the farmer to draw the payment while he is trying to establish a cover of permanent grass on his fields.

In many cases here we may have to plant cane or some other crop first in order to condition the soil properly for planting grass. In this case, the government will have part of the expense of putting the field in cane and also make the eight dollar payment. The government will also pay part of the expense of putting the field in grass the following year.

The details of the program are too complicated to explain in this

article but we will be happy to discuss it with you in the ASC office or in our office. Information will be passed on through the papers as the details are worked out.

Home Demonstration Club Activities

MRS. A. J. ROE, JR., H. D. Agent

I have begun a series of H. D. meetings on "Color for You." The first meeting was held in Green Mountain Wednesday and Thursday of this week Friendship and Silver will be visited. This program includes a discussion of color of "Types" of people, fashion and to fit into a wardrobe. Color samples are tried on the ladies to find what various shades of colors and colors do to become or detract from a person's appearance.

This is a busy time in our office as 4-H yearbooks are being mimeographed; plan of work, H. D. yearbooks, annual reports, and the beginning of school when we reorganize 4-H clubs all take up considerable time.

A Recreational Training School is being attended this Monday, Tuesday and Wednesday evenings by a group of 4-H girls, Mrs. Jahew Jameson and I. This school is being held to teach girls and boys wholesome recreation which can be used in community and club meetings as well as in home and church parties. Miss Lucille Moore, Recreation Specialist with the Extension Service is conducting the training for Coke, Concho, Runnels and Tom Green Counties on the campus of San Angelo Junior College.

Others attending are DaNell Dixon, Bronte, Mary Beth Schooler, Marjorie Gladys Rives, and Gayle Lewis, Robert Lee.

PTA Has First Meeting of Year

The first meeting for the year was held Tuesday at 3:40 p.m. by the Bronte Parent-Teacher Association. The meeting was held in the school auditorium.

The invocation was given by the Rev. Douglas Brown, followed by a welcome to teachers, by the Rev. R. W. Blackmon. Supt. Garland Black introduced teachers.

In a business session the group voted on the following proposals: To continue meeting in the afternoon immediately after school is dismissed.

To continue the pre-school nursery during meetings of the organization.

To discontinue the social hour after PTA meetings.

To have a Halloween carnival this year as the major fund raising project for the PTA.

A report was given on the pre-school round-up which was held at the John Harris Clinic for all pre-school children. Announcement was made that a district board of managers meeting will be held here Tuesday, Sept. 18. All local PTA officers are urged to be present and act as hostesses to the visitors.

It was also announced that all members are urged to attend a mental health workshop in Big Spring Oct. 16.

Mrs. Garland Black and Mrs. Grady Baker accepted dues for this year, and Mrs. Nealy Mackey and Mrs. Foy L. Moore sold subscriptions to the state and national PTA magazines.

A social hour followed the program and business meeting. Punch and cookies were served to approximately 50 persons.

Some Farmers Can Qualify For Social Security

More than 100 self-employed farmers who have reached age 65 have in the past three months filed their claims for social security benefits in the 13 counties served by the San Angelo District Office, according to E. M. Bowers, manager.

These persons, Bowers continued, filed their 1955 tax returns, paid the self-employment tax thereon, and have already grossed \$600 in creditable farm income in 1956. By a special provision in the law, farmers past 65 who meet the two conditions just outlined may file their claims now, without having to wait until the end of 1956, their second year of coverage under social security.

Payments are in the process of being certified to those who do not expect their net earnings this year to exceed \$1200, and to those other farm and ranch operators who have passed their 72nd birthday. If the farmer thinks he may net over \$1200, but cannot make a reasonable estimate of the expected net for 1956, his claim is still approved, but no checks are released until the end of the year when exact figures become available, or at such earlier time as he can make a fairly accurate estimate.

As there may be advantages to having a claim filed at this time, Bowers urged all self-employed farmers who are over 65, who have filed their 1955 tax returns, and who are still operating their lands, to get in touch with the San Angelo social security office in the very near future. A copy of the 1955 tax return and cancelled check or money order stub showing payment should be presented when the claim is filed.

Careless Use Of Insecticides Is Dangerous

AUSTIN, August 9 — State health authorities have raised a red flag of warning against careless use of insecticide compounds around homes and gardens.

Despite being "tremendous agents for good" when used properly, the potent compounds can be fatal when absorbed through the skin or mucous membrane or when inhaled, Health Commissioner Henry A. Holle said.

Only last week health department food and drug officials asked that a roach paste containing thallium be recalled from the market because its odor and taste make it attractive to children.

Two of the newer garden spray

products — parathion and tetraethyl pyro-phosphate — come from a group known as "organic phosphate" insecticides. They were originally designed for professional use only, by workmen thoroughly familiar with the danger associated with them.

Now they are available in small packages or bottles which frequently reach the general public.

Dr. Holle urged persons who insist on using either of the two powerful formations to handle them as professionals do.

"They wear special protective clothing with goggles to keep spray from their eyes, and respirators approved for protection against organic compounds.

"They never smoke or eat until they have thoroughly washed after using the preparations, and they know the symptoms of insecticide poisoning."

Holle listed headaches, excessive sweating, giddiness, blurred vision, weakness, nausea, cramps, diarrhea, or chest discomfort as symptoms of insecticide poisoning.

"Unless a man has the equipment and technical know-how, he'd better steer clear of organic phosphate insecticides. And he would do well to read the precautions on the label of any insect poison, regardless of the ingredients."

As further insurance against poisoning, Holle suggests:

Keeping the insecticide out of reach of children and pets, and keeping it in the original container, covered and with the warning label attached.

Never give insecticides to a neighbor in an unmarked container. Write a warning in bold letters and personally attach it to the neighbor's bottle or can.

Our farms are just as wide and just as long as they ever were, but are only two-thirds as thick and getting thinner every day. A third of our Nation's topsoil has washed away. Topsoil is the basis of America's wealth and greatness. All of our food, clothing, and shelter comes from the soil. When our iron, coal, oil, and other natural resources are gone, we shall have to devise substitutes from products grown from the soil, because the soil is one natural resource that does not have to wear out or be used up.
