

Velvety Dimmitt starch tops for exotic goodies

The bakeries and commercial food companies that buy corn starch from Dimmitt Agri-Industries' new mill should be highly pleased with it.

THAT'S THE expert opinion of Mrs. Lena Vaughan, who has been experimenting with the smooth starch in all kinds of "scratch" recipes.

"It's just like satin—it's definitely the best starch I've ever used," she says.

One of Mrs. Vaughan's specialties with the local starch is tropical fruit bars. She uses the starch to thicken the fruit filling for the delicious pastry.

"THE FRUITS I've used most in the tropical fruit bars are cherry and pineapple, but any type of fruit can be used," she says.

She also has used Dimmitt starch in fruit pies and chicken pot pies, and says, "It works very well in any recipe that calls for starch." She often substitutes starch for flour as a thickening agent.

Mrs. Vaughan started experimenting with the locally produced starch when her husband, Eugene, brought her a small jar of it from the Dimmitt mill, where he is with the maintenance department. Now, he has to provide her with a constant supply as she uses the starch in more and more ways through the time-honored "kitchen test."

"I JUST make these things for fun," she says. "Gene and I don't eat all these rich things—we're both on a diet. I give them to friends and ask for their reactions."

Mrs. Vaughan is compiling a list of recipes for all delectable pastries and foods she's making with the local starch, and the News will print all of them in a future issue.

'Roundup' of pre-school pupils scheduled here Friday, Saturday

To simplify registration next fall for 5 and 6-year-old children, Dimmitt Public Schools will hold a "Spring Roundup" of children in this age group Friday and Saturday.

THE ROUNDUP is for children who are not now enrolled. It does not apply to students who are now enrolled in the Head Start and Pre-School Migrant Kindergarten programs; these children have already been enrolled for next school year.

The roundup will be in the west wing of South Elementary School from 1:30 to 4 p.m. Friday and from 9 a.m. to noon Saturday.

Children who will be 5 years old on or before Sept. 1, and who meet Head Start and/or Pre-School Migrant guideline requirements may be enrolled in Kindergarten. Provisions are also made for certain educationally handicapped children who will be 5 years and two months old or older on Sept. 1.

ALL CHILDREN who will be 6 years old on or before Sept. 1 are eligible to enroll in the first grade. However, if your child is now attending Head Start or Pre-School Migrant Kindergarten, you need not attend the roundup since your child has automatically been enrolled for next year.

All parents attending the roundup are requested to bring their child's birth certificate, immunization record and other health records.

"This early enrollment will greatly simplify your child's entrance to school next year," said Weldon Skinner, curriculum director.

NFO urges hold on hogs and corn

National Farmers Organization members in Castro County and throughout the Panhandle are being advised to take a "marketing vacation" on hogs and corn.

PURPOSE of the NFO action is to hold butcher-ready hogs and corn off the market until the prices go up.

As of Wednesday, hog prices in Amarillo stood at 15 cents per pound, and corn was selling on the open market at 2.48 per hundredweight.

An NFO placard being circulated here this week states, "NFO is leading the fight for fair farm prices—but it must have the support of farmers. . . . All the food farmers produce is eaten. Consumers pay high prices for that food—but farmers are being taken advantage of with the low prices they are receiving for producing that food."

Ambulance subsidy okayed

Dimmitt's city commission voted Monday night to allocate \$150 per month, retroactive to last Jan. 1, to help subsidize the public ambulance service here.

THE ACTION, taken during Elmer Youts's first session as mayor, came after a request in April by Dennis Funeral Home, which operates the ambulance service.

In voting the allocation, the city joined the county in helping subsidize public ambulance service here. The county has been paying a \$150-per-month subsidy since mid-1970.

However, the \$300 total monthly allocations from the city and county don't approach the \$850 per month subsidy which Dennis Funeral Home claims it needs to continue ambulance service here.

CITY AND county officials have hinted they will ask the Castro County Hospital District to join in subsidizing Dennis Funeral Home's ambulance service. But hospital trustees, who are fighting a cost-price squeeze of their own, reportedly have indicated they don't want to hike the hospital tax rate to pay the subsidy.

L. C. Dennis, owner and manager of Dennis Funeral Home, told city, county and hospital board officials last month that it costs \$1,150 per month to operate an ambulance but that income from the service averages only \$200 per month. Many emergency trips are never paid for, Dennis said.

The funeral home's main ambulance is a 1967 Buick, "and the income doesn't even make the payments on it," Dennis said. The funeral home also operates two back-up ambulances—a 1962 Chevrolet and a 1957 Cadillac combination ambulance and funeral coach.

DENNIS NOTED that a stringent new ambulance code which the Texas Legislature "definitely will pass" during its current session will require cities and counties to subsidize ambulance services. The new code also will require two attendants per ambulance to be on duty at all times, and \$500 worth of extra equipment to be added to each ambulance, Dennis said.

The \$850 subsidy would allow his funeral home to employ another ambulance driver and comply with the proposed new code, with present personnel "doubling up" when necessary, Dennis said. However, the subsidy would not add enough to also pay for the extra equipment that is expected to be required by the state.

"We still won't be breaking even with the \$850 per month subsidy," Dennis said, "and this new state code is going to make it worse—it's going to put a lot of small funeral homes out of the ambulance business."

With more and more funeral homes dropping the service—including those in Andrews, Seminole, Morton and Denver City—hedge-podge of city-county arrangements have sprung up.

Plainview has had a city-county ambulance service 10 years, and in Clovis a taxi-cab company operates the ambulances. In Brownfield, ambulance service is the police department's chore, and it is subsidized \$1,000 per month by the city, county and hospital district. The City of Dallas underwrote its ambulance service's losses last year to the tune of \$142,000.

Former resident recovering from shooting mishap

A former Dimmitt youth has lost part of a lung as the result of an accidental shooting in Chillicothe last Wednesday.

CLAYTON ELLIS, 18, son of Mrs. Dorothy Ellis of Brownfield and Gene Ellis of Plainview, reportedly was placing a holstered .22-caliber pistol into the glove compartment of his car when the gun discharged through the holster and sent a bullet into the right side of the chest.

The incident occurred in a Chillicothe service station. After receiving emergency treatment in Wichita General Hospital in Wichita Falls, where the lower and middle lobes of his right lung were removed.

HE IS recovering in the intensive care unit of Wichita General Hospital, where his condition was listed as fair Wednesday morning. "He is progressing satisfactorily, and I believe he'll have a complete recovery," Ellis's physician said Wednesday.

Ellis was a student in Dimmitt High School before moving this year to Chillicothe, where he lives with his grandparents.

WHERE IT STARTED—Mrs. Fluff Hacker shows the starting point of the fire that destroyed her grocery store in Hart last week—this storage room in the back of the building, where a refrigerator shorted out. The building, which had been the home of Hacker's Grocery for seven years, was a total loss.

DAMAGE WAS HEAVY throughout the building in last week's fire at Hacker's Grocery, but some of the merchandise was salvaged. The fire was discovered by Whitfield Truck Line drivers passing by, who reported it and notified Mrs. Hacker's family. A three-layer ceiling hindered firemen's efforts.

Rally is set to reorganize Scout troop

Dimmitt Boy Scout Troop 266 will be reorganized Tuesday night at a rally for all boys 11 through 14.

THE PUBLIC rally will begin at 7:30 p.m. in the South Elementary School Cafeteria. District Scout Executive Jerry Stevens urged all eligible boys and their parents to be present.

Reason for holding the rally at this time, Stevens said, is to give eligible boys an opportunity to join Troop 266 in time to take part in summer Scout activities.

Scoutmaster of the troop will be Bill Stephenson, Dimmitt High School teacher who was a district Scout executive in Oklahoma. Jim Cavanaugh, former Scoutmaster here, has agreed to serve on the troop committee. Stevens said. Bill Behrends is chairman of the troop committee.

"WE WOULD especially like to invite all the boys who have previously been in the troop, plus those who would like to be in it, to attend Tuesday night's rally, along with their parents," Stevens said.

Wheat producers to vote Tuesday

Wheat farmers in Castro and 33 other Texas counties that normally produce 75 percent of the state's 50-million bushel wheat crop will vote Tuesday in a referendum and promotion referendum.

JAMES WELCH, county leader of the Amarillo-based Texas Wheat Producers Association, said this week that individual farmers "are showing an increasing interest in the wheat referendum and producer board election, as a step toward strengthening their income from wheat through stronger organized producer ef-

orts." If passed by two-thirds of the growers voting, an assessment of not more than five mills per bushel will be made at the first point of sale on all wheat marketed in the 34-county area.

Proceeds of the check-off program would be invested in research in production and marketing, disease and insect control, and market development at home and abroad.

VOTING WILL be conducted in the Castro County Courthouse from 8 a.m. to 5 p.m. Tuesday. Absentee ballots may be obtained at the county agent's office if needed.

Our sympathy goes to the Goodwin family on the death of their mother and grandmother Bula Goodwin. Many relatives came in for her memorial service at the

First Baptist Church. We saw Mr. and Mrs. Willie Gipson of Bovina, former Dimmitt residents and Mike and his family. You know Mike is now a Baptist minister. Many I did not know were here also.

The young Boy Scouts played games, had food and received awards for the good deeds and achievements. The mothers were there, some fathers, and cubmaster George Howell and Maria. That was the last meeting till September but Maria Howell says the Little League started Tuesday and her husband George was elected head coach of these little baseball players. Let's all give these people the support they need. It is good training for the boys, even if mama is kept busy taking them places.

The bowling clubs had their end of season banquet at a cafe in Plainview Thursday evening. These ladies went—Neva Hickey, Polly Holland, Zonell Maples, Ola Mae Trimble, another group was Mozelle Lilly, Floyce George and Mary Lou Roundtree. Maybe others went I didn't hear about.

I WAS chatting with Pat Keith, she and husband David and G.L. and Carol DuBoise went up to Cenechs Lake Wednesday, came home Sunday. They got a good sunburn and caught and ate many fish. Pat says the lake was swarming with Dimmitt people. They saw Suzie end Roy Ellis, and Denton and Sue Lingie. These folks teach school, except Roy. They saw Sal and Mary Alice DiCuffi and Tom and Johnnie Davis, Grace Wright and Ben and Bernice Hill.

There will be luncheon in the fellowship room of the church. This meeting is similar to World Day of Prayer.

Bible Thoughts THE GOSPEL IN ONE SENTENCE By Ronnie Parker

John 3:16 has been called the "little Bible" because it is so comprehensive. It expresses the gospel in just one great sentence. "For God so loved the world, that he gave his only begotten Son, that whosoever believeth on him should not perish, but have eternal life." Salvation begins with the love of God. Back of all else is the love that God has for man. Love must always express itself and God's love is manifest in the gift of His only Son. As Paul said, "But God commendeth his own love toward us, in that, while we were yet sinners, Christ died for us" (Rom. 5:8). Now! Will God's love, seen in Christ, save all me? No, because all men will not receive the grace of God. If a man wants salvation he must accept the love of God and love God in return. Our love for God must also find expression. Jesus says, "that whosoever believeth on him should not perish". Without faith there can be no salvation. We must never forget that faith includes obedience. Christ became "unto all them that obey him the author of eternal salvation" (Heb. 5:9). The very chapter where this golden text is found closes with this statement; "He that believeth on the Son hath eternal life; but he that obeyeth not the Son shall not see life" (Jn. 3:36). Do you believe? Have you obeyed? WE WELCOME YOU AT ALL OUR SERVICES FOURTH AND BEDFORD CHURCH OF CHRIST

MOTHER It is so important that a child feel secure and loved the first weeks and months of its life. Our foremost authorities say that if a child's spiritual and emotional welfare is neglected in the early weeks of life, there is a great chance of permanent damage to its personality growth. Therefore, on this day, we honor not only the beloved mothers of our adults and youth, but the very young mother who has both the tremendous responsibility and the precious opportunity to mold the life and character of the very young child. May she seek early God's help, who in the person of the Son, said, "Suffer the little children to come unto me."

NEW LIBRARY 'BOOK'—Mrs. Mary Edna Hendrix, librarian, shows a new "volume" presented to the county library this week by the Castro County News—a bound file of all 1970 issues of the newspaper. The year' copies—stitch-bound, trimmed and

covered in maroon buckram by a commercial book bindery—provide a history of the county's news events of 1970 and a handy reference for students. The newspaper will order similar bound files for itself and for the county library each year from now on.

DON NELSON of Dimmitt, who has served as president of the Panhandle Press Association for the past year, received a past president's plaque from his successor, **John Getz** of the State Line Tribune in Farwell, during the Annual PPA Banquet in the Sunburst Room of the Quality Motel in Amarillo. The banquet concluded a two-day convention of Panhandle newspaper editors, publishers and their families.

Nelsons attend PPA convention

Mr. and Mrs. B. M. Nelson, Mr. and Mrs. Don Nelson and children and Gay Odham attended the 62nd annual convention of the Panhandle Press Association Friday and Saturday at the Quality Motel in Amarillo.

DON NELSON, who has served during the past year as president of the PPA, gave the president's report at the opening luncheon Friday, presided over the annual business meeting Saturday morning, and was presented with a past president's plaque at the annual PPA Banquet Saturday night.

Newly elected officers of the association are John Getz of the State Line Tribune in Farwell, president; Kenneth Hogue of the Dalhart Daily Texan, vice-president; David McReynolds of the Stratford Star, secretary-treasurer; and Dolph Moten of the Bovina Blade, Mrs. Sue Cannon of the Olton Enterprise and Ross Middleton of the Earth News-Sun, directors.

Carryover directors are Trenton Davis of the Amarillo Globe-News, Ed Bailey of the McLean News, and Nelson, who will serve as an ex-officio member during the coming year.

KEYNOTE speaker at the annual PPA Banquet Saturday night was Air Force Col. John W. Keeler, chief of information at the headquarters of the Air Training Command, who spoke on "Our American Heritage." Col. Keeler, a former fighter pilot whose family publishes two weekly newspapers in Pennsylvania, was called the "most quoted man in the world" while serving as press liaison officer for Gen. William Westmoreland in Saigon.

Other speakers during the two-day convention included State Land Commissioner Bob Armstrong; State Representative Ben Bynum of Amarillo; Ted Serrill vice-president of the National Newspaper Association; Ellie Hopkins of the Longview News &

Journa', president of the Texas Press Association; Vern Sanford, executive manager of the Texas Press Association; Bill Boykin, assistant executive manager of the TPA; Dr. Billy I. Ross, head of the Texas Tech Department of Communications; and Bruce Romig, public relations director of the Texas State Technical Institute.

The association adopted a resolution calling for Daylight Saving Time in Texas to be reduced to a period beginning July 4 and ending with Labor Day, the first Monday in September; and another that would authorize the study of a possible Press Council of Ethics, which could call journalists of any medium to task for distorting facts or failing to retract erroneous reports.

TOP AWARD winners were Melvin Young of the Hereford Brand, community service; Ben Ezzell of the Canadian Record, who received a special award for Courage in Journalism (for his stand on the killing of four Kent State University students by Ohio National Guardsmen); and Terry Martin of the Canyon News, who earned a special award for Professional Service Beyond the Call of Duty (for tracing the story of the "Lost Soldier" to the Pentagon to get to the bottom of it, and learning that the US Army had been undeservedly maligned by the Associated Press).

Other award winners were named in news writing, editorials, advertising initiative, news photos, special edition, column writing and general excellence.

Twenty-four Panhandle newspapers were represented at the convention.

NATURE does not give anything. It lends. It will continue to lend as long as the loan is returned. When nothing is paid back, nothing is lent. Nature keeps a constant balance between its income and loans. When the loans are not repaid, the borrower, man, and not the lender, nature, is eliminated. Anyone who ignores the balance of nature does so at his own peril. Nature will maintain its balance by overthrowing him. — Ayers Brinsler and Ward Shepard, in "OUR USE OF THE LAND."

Church honors retired pastor

Rev. and Mrs. E. Lee Stanford of Dimmitt were honored in special services and a reception Sunday at the First United Methodist Church of Dimmitt.

THE STANFORDS' children and members of the church celebrated Rev. Stanford's 50th anniversary of his license to preach as a minister in the Methodist Church.

Dr. W. A. Appling, Plainview District Superintendent, assisted the pastor, Rev. Jim T. Pickens. Dr. John English of Hereford preached the commemorative sermon at the 10:45 a.m. service. The reception was in the Lamar Fellowship Hall of the church from 3 to 5 p.m. Friends and former members of churches which the Stanfords have served in the Panhandle area attended the reception. Members of the Fellowship Sunday School Class assisted in the celebration.

Rev. Stanford was licensed to preach at First United Methodist Church of Wichita Falls on April 28, 1921. The late Dr. H. D. Kinckerbocker was pastor. Rev. Stanford was a successful barber when he answered the call to the ministry. He then attended Wesley College, Greenville, and the School of Theology, SMU, Dallas.

BORN IN Nocona, Rev. Stanford spent his childhood and youth in Crowell and Weatherford.

After being licensed to preach, he was admitted on trial to the North Texas Conference of the Methodist Church in 1923. He was ordained a deacon in 1924 and admitted into full membership in 1925. He was ordained an elder in 1926.

His first pastorate in the North Texas Conference was at Clinton. Among other churches, he served Garrett Memorial in Paris and Lee Street in Greenville.

He transferred to the Northwest Texas Conference in 1939, and served Methodist churches in Halé Center, Miami, 10th Avenue Amarillo, Dimmitt, Abernathy, Lockney, Olton and Clarendon.

REV. STANFORD married the former Miss Flora Shelly of Plano on June 2, 1925. Their children are Mrs. Arvalée Saul of Houston Jess Stanford of San Antonio, Paul Stanford of Albuquerque, and

Ladies aid Cancer Drive

By IRENE KEATING
Home Demonstration Agent

Last Thursday Nell Ingram and I attended the annual District I Texas Home Demonstration Association meeting in Booker. It was my first trip up there (I had been to Perryton once). It was an enjoyable though long day.

SEVERAL of the home demonstration club women helped in the annual Cancer Fund drive. None of the workers have been publicly thanked, and I think this is sad. The volunteers devoted their time, cars and gas to call on citizens in behalf of this drive. I hope when they came to your house you gave unselfishly. After all, none of us is immune from that dreaded disease, cancer.

I want to say thank you to these club women who helped with this project: Mmes. DeWayne Loudder, Delton Tischler and Robert Yates of the Flag HD Club and Mmes. Jack Ingram and Jack Howell from the Bethel HD Club. I am very proud of these women for being civic-minded and helping. Also, thanks to Mrs. John Womack for calling on me.

THIS IS the time for the May garden check list. Thanks again to Everett Janne, our Extension landscape horticulturist.

1. It is not too late to prune back those spring flowering shrubs, to encourage the growth of new wood for next season's show. Thin out old canes and remove dead wood making all cuts close to the ground. Included in this group are the forsythia (Golden Bells), mock orange, flowering quince, deutzia and spirea.

2. Pinch back annuals such as ageratum, petunia, zinnia, calund-

T. Tadlock, a grandson of Amarillo. A granddaughter, Mrs. R. C. White, resides in Dimmitt.

The Stanfords have traveled widely in Europe and the Holy Land. They were representatives of the Northwest Texas Conference to the World Methodist Ecumenical Conference in 1961. He retired from the local pastorate in 1962 with more than 38 years of active service.

During his ministry, he baptized 165 babies, performed 220 weddings and received 1,477 persons into church membership, not including professions in revival services. In addition to his farming interests at Dimmitt, gardening, and serving as interim pastor when needed, Rev. Stanford is an active horseman. He rides his registered Missouri Fox Trotter as often as time permits.

la, drummond, phlox, dianthus, verbena salpiglossis and snapdragons. Pinching stops the terminal growth resulting in bushier plants and more flower buds. Annuals that should not be pinched include strawflower, cockscomb, and poppy.

3. **IN THE** northern areas of Texas, peonies should be growing vigorously at this time. For maximum flower size and stem length, be sure to supply supplemental irrigation during this period. Extra large buds can be produced by removing all lateral flower buds on each stem, allowing only the terminal bud to develop into a flower.

4. Sheared hedges require frequent pruning during periods of fast plant growth. Always prune so that the bottom of the hedge is wider than the top. This allows light to reach the lower foliage and prevents loss of the lower leaves due to shading.

5. Daylily beds that have become crowded can be transplanted and thinned out as soon as they finish blooming. This allows you to dig, divide and replant while you can remember the color. Do not allow the plants to get too dry until the roots become well established.

6. **WATCH FOR** White Fly on your favorite evergreens. Considerable damage can be done before you realize it, unless you pay close attention. Malthion and Diazinon are effective against this pest. Two or more applications at weekly intervals may be necessary to eliminate this pest. (Use according to manufacturers instructions.)

7. In the northern section of Texas, Bagworms are probably feeding on your evergreen trees and shrubs. Sevin is very effective if used while the worms are small. Plants should be watched closely when Sevin is used as its use frequently leads to an increase of spider mite population since many of their natural enemies are eliminated by the Sevin.

8. The summer months are critical for azaleas and camellias. Lack of moisture during this time can cause a loss of flowers next season.

9. **CHECK YOUR** mower blade. Dull blades can cause a brownish discoloration of the stems and leaves shortly after cutting. Examine a few blades of grass. Stringy ragged ends that are turning brown indicate a dull blade. Sharpen frequently.

10. Troubled with nematodes in your flower garden? Plant French Marigolds for several seasons to reduce the population. Marigolds are susceptible to red spider mite damage so watch foliage carefully and treat with Diazinon, Kelthane, or Malathion when population builds up. Do not use the same material each time to prevent a build up of immunity by the mite.

11. Continue to spray rose bushes with Phalton or Benlate for optimum control of blackspot and powdery mildew.

12. **SUMMER** flowering bulbs can still be planted including achilleas, cannas and Jahlias.

13. Crepe Myrtles bloom on this years growth. For ample flower production, provide an adequate supply of nutrients. Using a 12-12-12 fertilizer or its equivalent, use about 1 1/2 lbs. of fertilizer per 100 feet of bed area and water thoroughly.

14. Flowers cut late in the afternoon, then placed immediately in warm water and allowed to stand in a cool draft-free room until the water becomes cool, will last much longer than those cut in the early morning.

15. **DO NOT** forget to apply a mulch to flower beds, shrub borders and rose beds. A good mulch will reduce soil compaction, eliminate need for cultivation, greatly reduce weed growth, and

Socially Yours

cut down on watering. Cotton burs make a good mulch.

16. If you have seeds left over after planting the flower bed and vegetable garden, store in sealed jars at 35 to 40 degrees F. for use in later plantings or for the fall garden.

17. If chinch bug controls were not applied to St. Augustine lawns in April, do so immediately.

18. **IN MID-MAY**, fertilize lawns

with 5 lbs. of ammonium sulfate or 3 lbs. of ammonium nitrate per 1000 sq. ft. Water thoroughly after applying.

19. Iron chlorosis is prevalent in much of Texas. In alkaline soils, the iron needed by plants for chlorophyll production is in an insoluble form, making it unavailable to the plant. This results in yellowing of the leaves. See L-435 for corrective measures.

START YOUR fall chrysanthemum show now.

Chrysanthemums are now growing and need to be divided for best results. If disease was not a problem last year, the clumps can be dug and divided at this time. If there was any evidence of disease in the plant it would be best to discard the entire clump rather than move it to the new bed.

New school bands will present spring concert tonight

By MYRT LOMAN
The public is invited to attend the spring band concert to be presented at Hart High School tonight (Thursday) at 8 o'clock. Roger Edwards is the band instructor.

★ **THE STUDENT** Council and cheerleader officer elections will be held today (Thursday). The baccalaureate service for the 32 members of the Hart senior class will be Sunday, May 16, at 8 p.m. in the First Baptist Church.

★ **"Drug Awareness Day"** at Hart High School. The day started off with the student body seeing three films on LSD, drugs and marijuana. Then discussion groups were held with no adults or faculty. Each group had a student leader.

After lunch, the students assembled in the gym for an overall discussion, then went back to the classrooms with a teacher present in each.

The day was described as being both beneficial and enlightening for both students and teachers. They talked about the school and community life, and also noted that alcohol is a bigger problem than drugs in our community.

★ **HART LIONS** Club met Monday.

day noon in the community room of the Farmers State Bank.

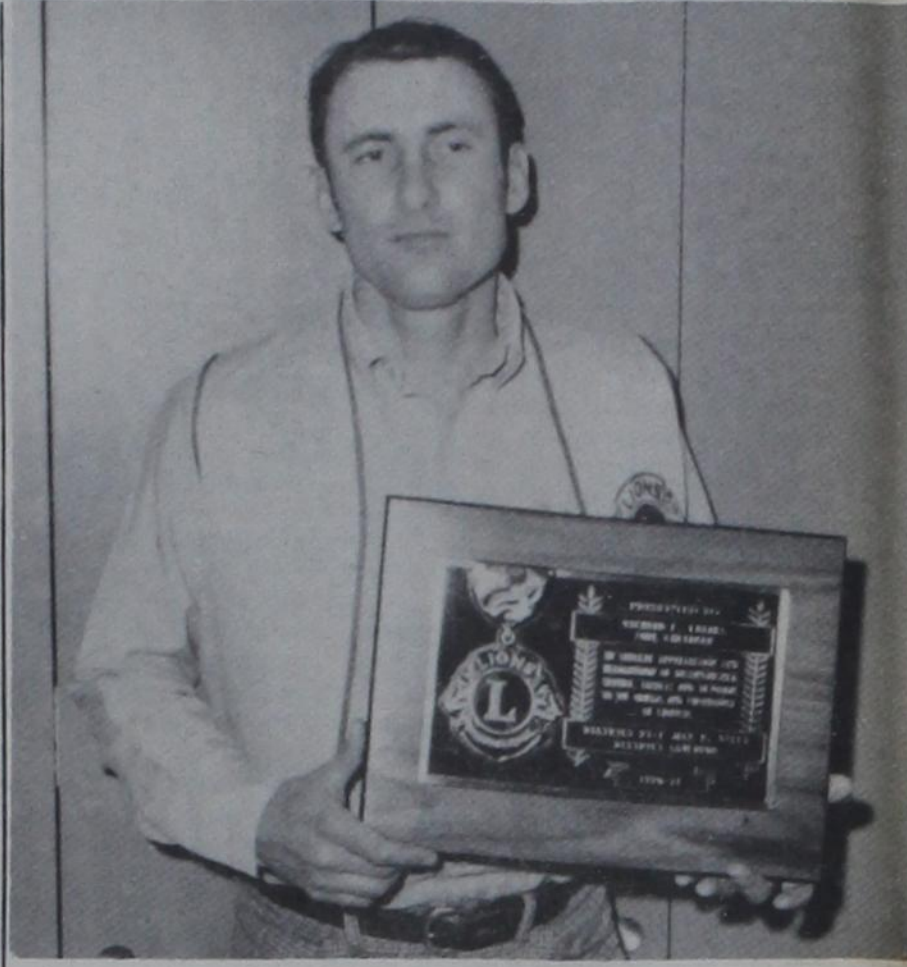

Jimmy Rous, Castro County attorney from Dimmitt, presented the program on "Wills." He stressed how important it is that everyone should have a will regardless how little or how much they own. The legal procedure of probating a will after one's death relieves the heirs of extra cost, time and worries, he said. A will in a person's own handwriting is legal if it has certain stipulations as to sound mind and date.

A committee report was given on the Elvon DeVaney Blood Drive. The mobile blood bank will be in Hart May 12 from 10 a.m. to 4:30 p.m. The blood bank can take care of four donors every 15 minutes, and it is important that each person wishing to donate blood contact a member of the Lions Club as soon as possible.

Hart Lions Club members would like for each 15 minutes to be filled, and are asking that each one to try and be a part of this cause. Not only will you be helping the designated recipient, but in case we have a catastrophe in this area, some of the donated blood might help save a life here. For each pint of blood contributed to defray this family's financial burden, the sum of \$10 will be contributed.

Richard Franks received a plaque for serving as zone chairman for the past year. He has spent much time and money in working for the Lions Club. He has presented programs throughout the district, and has met with clubs of the district to see that they are fulfilling the objectives of Lionism.

Franks accepted the duties as one of the deputy district governors at the district convention in Borger this past week end. He will be serving under the incoming district governor, Floyd Sack-

Financial Facts

By Willis A. Hawkins, Jr.

Have you ever heard of "hoggies"? Issued in about 1616, they were the first coinage struck for the English-American colonies. Hoggies come from the Sommer Islands, which are present day Bermuda. When Juan Bermudez stopped there in 1515 he left behind a few of his cargo of hogs.

In 1609 Sir George Somers arrived to a greeting party of descendants of Juan's hogs. Somers became famous in the islands, so when they minted coins for the colonies, they honored him. The reverse side of the coin pictured his full rigged galleon.

On the front of each hoggie was, naturally, a picture of a hog with "Sommer Islands" encircling it.

The hoggies were made of brass or a similar substance lightly silvered. They were in four denominations: shilling, sixpence, three pence and twopence.

A GAS outdoor grill gives food a tangy outdoor flavor without the time and bother of charcoal fire. Char-broiled flavor comes from the smoke of meat juices dripping on hot briquets. Charcoal itself provides no flavor.

Permanent ceramic briquets in the gas grill reach cooking heat in a few minutes, and there is no long wait to start cooking. The heat is regulated manually so there is no need to move a grill up or down.

Letter to the Editor

Legislator says letter-writers are distorting facts on No. 1

Dear Editor: I have read dozens of newspaper articles and "letters to the editor," and not one have I seen which discussed Amendment One fairly or even objectively.

AMENDMENT One was prepared by a group of citizens throughout the state even before our present legislature was elected. The Ethics Commission which would be so created would be appointed by the judiciary, over which legislators have absolutely no control.

The big lie which has been carried by state papers in their "letters to the editor" reflect this is a subterfuge for legislators to get a pay raise. The facts are that salaries will be left as they are, or adjusted only by the Ethics Commission. The legislature has only the power to accept or re-

ject any change. The truth of the matter is this plan has worked well in many states in giving a fine balance of representation in the legislature.

FINALLY, why have Texans resisted all efforts to raise legislators' salaries? The answer is simple. Obviously, any effort on the part of us, as legislators, to campaign for a raise would be resented. As a result, those who fell for the Communist line that "all elected officials are bad," have their heyday.

The view from your library

By MARY EDNA HENDRIX

On April 27, the Friends of the Library held their annual meeting in the community room of the First State Bank with the president, Mrs. Irene Keating, in charge. Mrs. Welch gave the secretary-treasurer's report, Mrs. Margaret Womack read the names of the new officers for 1971 and Hazel Merritt introduced Mrs. Teeny Bowden as one of the local authors.

JACK MILLER, chairman of the Library Board, gave the 1970 report of the Castro County Library and I introduced the "Library Family of the Year." I have been observing the families who were using the library and I selected the Jess Willard family—Jess and Martha and their children, Jay, Julie and Lance. I chose this family because of their regular use of the library and the type of books they read—especially Jay and Julie, who read books above their age level.

Jerry Rogers of Lubbock was the special guest and speaker. He is working with the Ranch Headquarters Project at Texas Tech University so he showed some interesting film showing the progress that has been made so far.

We now have three persons who hold life memberships in the Friends of the Library—Dr. Hilma Carrell and Mr. and Mrs. W. E. Kirkpatrick. We are so thankful for these who are so interested in our library.

MRS. IRENE KEATING has worked very hard during her term of office as president of the Friends of the Library as well as the other officers, Mrs. Roxie Louder, Mrs. Reta Welch, Mrs. Margaret Womack and Mrs. Rita Hartman. I enjoyed working with this group last year.

Hazel Merritt had to resign from her office as chairman of the Library Board about a year ago because of her health, but she is gradually getting involved more and more now and we appreciate all that she has done for the library throughout the years.

MRS. BILL SAVA served refreshments to 11 boys and girls at the Children's Story Hour Friday, and Mrs. Al Forrester stayed to help.

Letter to the Editor

Why do ministers argue about who visits who at hospital?

Dear Editor: In reference to Bill Wadley's letter a few weeks ago, I feel I should say a few things.

MY FATHER was quite ill for a year and a half. During his stay at the hospital he made a lot of new friends in the ministers who visited him there. They were pastors of other denominations, which made no difference to Daddy—they had the same God and

the same purpose in life, to glorify Christ.

They did not talk of denomination, just Christ and what He meant to them.

Praise the Lord for ministers who visit for this purpose!

Thank you, Bro. Wadley, for your concern for people.

HIGH ACCOMPLISHMENTS — You don't usually see these two DHS boys sitting around. They spend most of their time running, and it paid off this spring. Dimmitt High School's two qualifiers for the regional track meet last week in Lubbock were Richard Davila (left) in the 440-yard dash, and Jerry Matthews in the 880-yard (half mile) run.

Campus chatter

By PAT BARRIOS and DIANE GARCIA

Hi out there, people, here is the authentic Campus Chatter from the halls of DHS and all around town.

OUR BIG NEWS of the week is Rebecca Stanford's wreck. She was taken to Plains Memorial Hospital for treatment. Buck Buchanan skipped two classes to go see her, but I guess that is love. Hope you get well real soon, Rebecca.

Some people just don't know any better. You just don't drive 70 mph while hauling a hovercraft. Better luck next time, Joe Langford.

John L. Thomas finally got a haircut. Mr. Miller says he looks straight enough to sell insurance. It is really humorous to watch the longhairs of DHS try to hide from Mr. Moore. Might as well give up and get a haircut, guys.

We have some new couples in school. They include Lance Davis and Delores Waggoner.

We understand that Charlie McLean and Marla Mayfield switched cars during banquet preparations. Charlie has had so many cars that they all look alike to him.

It is rumored that Coach Smith is going to make a defensive guard out of Dan Frierson.

Golfers end good season

Dimmitt High School golf team completed the season by being edged out in the 3-AA district golf competition. The Bobcats were downed by one stroke by Abernathy who won the district with Floydada finishing second.

DIMMITT'S number one player, Mark Wohlgemuth, garnered medalist honors in the district meet and advanced to regional competition in Lubbock. The Dimmitt linester fired an 88 and a 78 at the Pine Hills golf course during regional play in Lubbock.

The 1971 Bobcat squad consisted of Mark Wohlgemuth, Bo Myers, Kyle Broderson, and Jim Glenn. "Our golf is picking up. Lots of freshman are playing now. This has to help," stated Kenneth Cleveland, Dimmitt High School golf mentor. "Mark was our best golfer this year," added Cleveland.

The Dimmitt squad engaged in two district meets and the regional during the season.

"D" club? What is "D" club? When this question is asked of high school athletes they usually answer by saying "It's an initiation." This is a fact. In the past years the "D" club has merely had initiation and that's all. This year we hope to change this by taking a trip or having some kind of party. Also, we received some new members last Monday. Welcome to the club, rookies.

★
IT LOOKS as if the athletic department at DHS will have a very successful season next year. Both football and basketball coaches look like they will have plenty of talent to work with.

Our football team will lose only eight lettermen from last year's squad which posted a 7-3 record. The coming year looks very promising on the gridiron for DHS. The backfield is full of talent with Daniel Frierson, Nati Anes, Joseph Finch and Jay Stanton.

The only problem confronting head football mentor Brown L. Smith, is finding a replacement for Mark Wohlgemuth at quarterback.

The line is also full of experienced people. Plenty of work is expected from Rocky Kay, Hellis Annen, Lynn Buchanan, Pat Barrios and Mike Shepard.

Now's the time for 'big push'

Spring fever comes but once a year. When it does the whole school seems to grind to a halt.

WITH ONLY four weeks left in school, spring fever seems to have taken "holt!" It seems that grades drop, periods get longer, and teachers get tougher. You know the symptoms.

Even though eyelids do become heavier, we should try not to let our grades drop. These last few weeks are very important ones. Maybe the most important of the whole semester. We've all heard of the inning rally. It's also possible in the grade point average with some 11th hour effort.

So if you've neglected your studies, due to some unforeseen events, there's still time for you. You may not make the honor roll, but you still may end the year with a solid, respectable C average.

Club grateful and apologetic

The Dimmitt High School Key Club would like to thank all the people for their support of "Zogi's Revue."

WE DO want to apologize for the type of show we had. We didn't feel this show was up to par of the type show we were expecting. We were very disappointed in Zogi ridiculing the audience.

Again, we want to thank you for your support.

Nazareth sweeps district meets

When all points were totaled after the recent Interscholastic League spring events, Nazareth Public Schools emerged as the District 3-B champions in both the elementary and high school divisions. Nazareth's elementary students racked up 100 points in tennis, taking first place honors in each category, and added 60 points in literary events to run away with the overall district title. The closest finishers to Nazareth's overall point total of 160 were Lazbuddie and Whiteface, which tied for second with 39 each. In the high school division, Nazareth students finished second in literary events with 64 points and first in tennis with 65 to take the District 3-B spring title. COTTON CENTER led the literary competition with 69 points, but dropped to fourth in tennis and didn't score in track, field or golf, so didn't threaten Nazareth's overall point total of 128. Finishing second in overall totals was Anton with 114 1/2, including 47 1/2 points (fifth) in literary events, third with 10 in tennis, second with 10 in track and field, and first with 47 in golf.

Girlstown gets 'outside' paint

Exterior paint has been delivered to Girlstown to repaint the main dormitory, and only \$25 is still needed to buy paint for the dormitory's interior. MRS. A Texas Tech student's organization is planning a work day to paint the Girlstown dormitory, she said.

Cumming's unit earns citation

Second Lieutenant Howard W. Cummings Jr. and his associates at Eglin AFB, Fla., have been especially recognized by the Secretary of the Air Force as members of the Air Force Systems Command (AFSC) currently observing its 10th anniversary. LT. CUMMINGS, son of Mr. and Mrs. Howard W. Cummings Sr., of Dimmitt, supports operations of the AFSC Armament Development and Test Center which directs the Air Force non-nuclear munitions program. He and command personnel were commended by Dr. Robert C. Seamans Jr. for their part in significant achievement in defense aeronautics, missiles, space and electronics during the past decade. Dr. Seamans stated that future US progress would "unquestionably depend upon the research and development efforts of AFSC," which manages the acquisition of Air Force aerospace systems.

Now you can plan your own funeral with new service

Dennis Funeral Home of Dimmitt is now affiliated with Funeral Security Plans, a service that enables the customer to specify his own funeral arrangements, cost and payment plan while he is still living. UNDER the new pre-arrangement service, the customer can sign a contract for funeral arrangements of his own choosing, and can specify whether he wants to pay in full for his funeral at the time or make payments over a long or short term. Federal law guarantees that the customer's contract will be carried out by the funeral home and the pre-arrangement service at the time of his death. One of the main advantages of the new service, according to L. C. Dennis, owner and manager of Dennis Funeral Home, is that time payments are made through an insured credit life plan, so that if the customer dies before his contract is paid, the balance is automatically paid off. IN ADDITION to allowing the customer to plan his own funeral in advance, the new service is a safeguard against future inflation since it freezes the cost of the person's funeral, Dennis said. Funeral Security Plans, the largest pre-arrangement company in the world, is headquartered in Kansas City, Mo. Supervisor for this area is Danna Howerton of Amarillo.

Young pianists taking part here are the students of Mrs. Leon Sanders, Mrs. Howard Hershey and Dwight Joiner of Dimmitt and Mr. Pendleton of Lubbock. Sponsored by the National Guild of Piano Teachers, the auditions are billed as "The Biggest Piano Playing Event in the World." Auditions are being conducted nationwide all spring through June.
