## County Valuations Down \$1 1/2 Million

The Coke Commissioners Court board of tax equalization accepted the proposal of Thomas Y. Pickett and Company Incorporated, Evaluation Engineers, that the Coke County values for tax purposes be \$24,483,615 for the year of 1961. This figure is \$1,494,620 less than it was in 1960.

Companies and representatives that appeared at the board of equalization meeting Tuesday were: Thomas Y. Pickett Co., Inc., Charles H. Pickett, John Lochaby, Joe Lee, Ben Garrity and H. N. Fancher; Sun Oil Co, R. L. Bodenhamer and T. F. Phelan; Pan American Petroleum, Guy Proctor; Reasor-Hill Corp., V. S. Wooten; Sinclair Oil & Gas Co., Addison Walton; Humble Oil & Refining Company, W. B. Lockhart; Texas Electric Service Co., L. L. Zeigler; Lone Star Gas Company and Lone Star Producing Company, C. J. Collier, Jr.; Kirkwood & Darby, Paul Hart; Taylor Electric, Earl Watts.

All parties present agreed that the proposal based on surveys and studies by Thomas Y. Pickett Co. Inc. was correct for tax purposes for the year of 1961.

Most of the decline in tax evaluation was in oil and mineral properties.

The following information was taken from a table showing the comparative values of 1960 and the proposed values for 1961:

Mineral interest of lease holders and their equipment dropped from \$15,244,430 in 1960 to \$13,945,220 in 1961, a loss of \$1,299,210.

Value of the interests of royalty holders also was dropped. The 1960 figure of \$2,422,470 was dropped to \$2,168,780 for 1961, a reduction of \$253,690.

Total valuation as set up by Thos. Y. Pickett Co., which includes all oil properties, utilities properties and railroad properties was set at \$19,009,070, compared to \$20,648,120 for 1960. This represents a reduction of \$1,494,620.

Small increases were set up over 1960 in oil field personal prop-

erty, pipe lines, plants, and utilities.

Rolling stock and intangible assets were set at \$308,220, while local real estate and other property has a valuation of \$4,166,325, both the same figure as was used in 1960.

## Swimming Classes Scheduled to Start Monday

## Landers Home Burns Sunday

By Mrs. Herbert Holland

The Jerry Landers home in the Brookshire community was destroyed by fire Sunday night during a rain, wind and electrical storm. The fire is believed to have started when lightning struck the house. The Landers family was in their storm cellar at the time and the fire was well underway when they emerged from the cellar and discovered it.

An alarm was answered by Balingier and Bronte Fire Departments, but the house was practically

gone by the time the fire fighting equipment arrived.

The house was on the Luther Nixon property and was partially covered by insurance. Personal property of the Landers was not insured, however, and furniture, clothes and other items were a total loss.

This is the second disastrous fire the Landers family has had. They lost all their belongings about 20 years ago when their home burned.

## AD-LIB-BEN

We took the special \$1.25 guided tour through Caperton Chevrolet's new construction job Tuesday, and must say that the local agency is going to have a mighty fine home when it is finished. Each of the three owners and the bookkeeper will have a private office, and the washing and greasing facilities will be completely away from the other part of the business.

The additional space and remodeling will give the local agency a home which is not matched in towns of this size anywhere. We are proud of this fine addition to Bronte. Everything of this nature adds to our town and makes it a more desirable place to live.

**UNCLE HUIE from HOG CREEK says**

DEAR MISTER EDITOR:  
I was reading some figgers last night by a column writer fer the Associated Press showing the awful price the world is paying on account of Russia trying to git the upper hand all over the globe. This feller said \$14 million a hour is being spent in the world on weapons and armed forces ever hour round the clock, with the United States and Russia spending 73 per cent of it. The piece went on to say that it's costing \$40 a year fer ever man, woman and child in the world, including the millions in China and India. This feller figgered out that this money would furnish housing fer 240 million families, or pervide food and medical care fer three billion people. And it looks like Russia has got us on a treadmill. We can't

git 'em to quit and we can't quit till they do. Looks to me like sooner or later the hole is going to git bigger'n the doughnut. I don't know what the answer is, Mister Editor. About half the world seems to be working on the solution and the other half is part of the problem. Things is gitting too complicated fer me anymore. Fer instant, I see where they is predicting that in 20 year houses will be made out of plastic, won't rot, won't need paint. Cars will have turbine motors and tires will last 100,000 miles. Sidewalks will have moving belts so's a feller can stand still and git there just the same. Electronic stoves will git dinner ready in three minutes, and food will be kept market fresh fer a whole year by radiating it, whatever that is. And to put the stopper in the jug, Time

Magazine predicts that afore long wimmen's girdles will be sprayed on from a can. At my age, I ain't liable to make it another 20 year, and maybe it's fer the best. I don't know if I could stand so much progress in such a short time. I was raised up the rocking chair age and as a feller gits older he ought to worry less about life on account of they being less of it to worry about. With things in such a mess, I'd just like to take me a vacation that is, if I could git up the collateral or find enough co-signers. But I reckon I'll just take my vacation as usual, settling up at the store and enjoying hearing about my neighbor's trouble. Don't cost me a cent and always leaves me refreshed to know I ain't suffering alone.

Yours truly,  
Uncle Huie

A finger tip veil of bridal illusion was attached to a coronet of seed pearls and iridescent sequins. A single strand of pearls was the brides' only jewelry.

A white lace covered Bible held

a cascade arrangement of white gardenias, white roses and stephanotis. The lace used to cover the Bible came from the wedding gown of the bride's mother.

## BUCKET SEATS ALONE DO NOT A MONZA MAKE

■ Gee! ■ Little did we know, when we introduced the Corvair Monza last year, that we were starting a Big Thing. We just thought it would be pleasant if you could buy a car that treats you, the driver, like you want to be treated. ■ The bucket seats, of course, are the most obvious evidence of our desire to please you. But they're not the most important thing. No sir. What's really vital is the way a Monza handles—something nobody in the U.S. has yet copied. Or can copy. Because Corvair is the only rear-engined car made in this country, and you know what that means: steering light as thistle-down. (You even park this one more easily, it steers so briskly.) Beautifully balanced braking—the car stays level even under panic braking, which we hope you'll never have to do. Traction and more traction, so you don't become a stick-in-the-mud. The kind of cornering that's sheer joy to experience. ■ You get more: a fully independent suspension that blots out road shocks before they can ruffle you. Clean, crisp styling. Thoroughgoing economy, from purchase price to operating cost. ■ You're not going to be satisfied with bucket seats alone, are you?

I am conducting a Clothing Workshop for the girls in the senior 4-H Club in Robert Lee this week. All ten girls are making dresses, of course, the pattern requirements are different. Some of the girls are making simple dresses for the first time (they have made skirts and blouses previously), while others who have a great deal of experience are making dresses with more difficult features. Three of the more experienced girls will make tailored buttonholes for the first time.

Girls attending the workshop are Carolyn Prine, Betty Hughes, Rhea Jean McCutchen, Kitten Dean, Linda McBroom, Barbara Blaylock, Kay Wink, Prescilla Wylie, Leta Robertson and Jo Alice Evans.

The garments will be judged July 5th by the Tom Green County H. D. Agent, Margie Williams and one of her leaders. The dress revue will be the night of July 6.

I will be in Silver next week sewing with the girls there, then to Bronte the week of June 19 to work with the girls who are not in Clothing groups.

If your kitchen woodenware — chopping bowl or board, bread board, and mixing spoons and forks — becomes dark with use, scrub occasionally with well-lathered steel wool.

Once the wood surface is light again, wash the pieces quickly in warm suds, rinse without soaking, and wipe dry immediately.

THOUGHT FOR THE DAY — Tact — the ability to close your mouth before someone else wants to.

**County Agents News Column**

By STERLING LINDSEY

The moisture situation in the County has done an about face during the last several weeks. The row crop season is just starting so we can not be optimistic. We can, however, plan and act with more assurance and optimism than we dare expected a month ago. A little moisture, properly spaced and proportioned, can go a long ways. Maybe our hopes will progress into realities.

The Sears Foundation Swine Program began a new year recently as eight 4-H club members received resigtered duroc gilts from the members in the program during 1960. The 4-H'ers chosen to participate in the program this year are Jimmy Wayne Millican, of Silver; Bill Sharp, Bob Wells, Darwin Caswell and Jerry Parker, of Bronte; and Rae Roe, Sue Perciful and Selso Abalos of Robert Lee. Mike Krall will receive the boar.

The eight members received registered gilts that they will develop and exhibit in the gilt show in September. Following that the cycle will be completed again as the litters are farrowed, fed and weaned. One pig is given back by each member to replace the one they were given. Each litter of pigs is compared, by weight, against the others in the store area, for the Store Area Heavy Litter prizes.

Rats produce three to six litters per year and each litter adds seven to nine more rodents to the population. No wonder they are hard to get rid of.

Five Coke County 4-H club boys attended the District 1 boys camp held in Junction last week. Bucky and C. L. Sparks, Jerry Burson, Ronnie Varnadore and James Bird Pentecost spent three days working and having fun with 160 boys, leaders and agents from over the district.

The tractor, today, we find in the fields,

They have a machine now that does the trick.  
The work advances and we may progress,
