POSTMASTER TOM BICE

Postmaster Retires Post After 25 Years

Dimmitt's postmaster Thomas F. Bice announced this week he was resigning and thus winding up a postal career that began here in 1934.

Howard Schulte Receives Lone Star Farmer Degree

Howard Schulte, a 1959 graduate of Nazareth High School, will receive the Lone Star Farmer degree at the 31st Annual Convention of the Texas Future Farmers of America in Austin July 15-17, according to Emerson Bristler, Nazareth vocational agriculture teacher and FFA advisor.

Schulte is the first member of the Nazareth Chapter to receive the degree. According to Bristler, to receive the award is a great achievement for any young man. Only 2 percent of the FFA members in the state can receive the degree.

4-H Girls Dress Revue Tuesday

Castro County 4-H Clubs will hold a dress revue in the basement of the court house beginning at 4:30 p.m., Tuesday, July 21.

Counting his service in two world wars, Mr. Bice has 25 years of government employment to his credit.

He came to Dimmitt in 1926 after attending West Texas State College in Canyon and worked as High School Principal in the old school building that once stood where the City Park is now. He later worked at various government jobs and for an Implement dealer here before taking over the postmaster's job when Castro County News editor and postmaster C. S. Holland moved to Muleshoe.

The job was not a big one then. On July 1, 1934 there were 169 post office boxes rented out as compared with 817 today. Postal receipts (gross) were \$4,757.89 in 1935, as compared with \$11,957.17 in 1950 and \$34,385.58 in 1958.

The post office has been in three locations under Postmaster Bice. First it was located in an old building that was removed to make room for Harman's Department Store. Later it was situated in the first building south of Carlisle Theatre, and now it is located just off Highway 385 on Jones Street.

"The general public has been very nice to me," Mr. Bice said this week, "and I have always been very fortunate in having good help. I have always enjoyed working and living in Dimmitt, and Mrs. Bice and I plan to stay here."

The postmaster said his retirement would begin as soon as a replacement was found. He would consider some manner of part time work in the future, but due to ill health he said he would not try any regular hours again.

Bice served in 1917 and 1918 with the US Army during World War I and for two years with the Army in Africa during World War II. During his period of service in the second World War his wife, Maurine, served as acting postmaster.

A new or acting postmaster has not yet been appointed. Someone to act as interim postmaster until applicants have a chance to take formal tests and be appointed will be named soon.

Area Lake Water Has Great Potential

Recent rains have filled many lakes in the county. Shallow rooted plants, due to frequent replenishment of water in the top foot of the soil, may require early quick irrigations especially if it should turn hot and dry.

A farmer with a lake of water on his farm can get some cheap irrigation water by using lake water. A centrifugal pump is economical and can be powered economically. If evaporation does not get the lake water first, and if the crop needs water there is no way to beat the use of lake water.

A six inch centrifugal pump actually will pump more water than most eight inch wells. A centrifugal pump can be used with separate engine or powered by a tractor. If by tractor, a safety cut off in case the tractor gets too hot will be advisable.

Lake water is rain water. Silt held in suspension is very fertile and animal life in the lake water combines to make a very good quality water for irrigation use. Costs of use of lake water is much

After 10 1/2 Years

Judge Robert Estes Resigns Position

Castro County Judge Robert Estes announced this week that he had resigned his position effective September 1.

Estes, who has been county judge here since January 1, 1949, said he had accepted a position as a representative in this area for Hamilton Securities of Dallas. "I have thought about this change for several months," Estes told the News Tuesday. "While I have been honored and I feel

grateful for the job of Castro County Judge for the past ten and a half years, I still recognize that there is little chance for advancement in this field. My work with Hamilton Securities will offer more opportunities, especially in view of the fact that outside of being county judge here, I have never been particularly interested in political advancement."

"Castro County and its citizens have been very good to me," he went on, "and it is with deep regret that I and my family must leave."

Estes, who is 39, was born and raised in Dimmitt. His parents are Mr. and Mrs. Percy Estes. While the judge and his family plan to leave Dimmitt, they will remain here for an indefinite period until he winds up all his business. They will live in Lubbock where his new duties will entail his traveling from Castro County south to San Angelo.

He is a veteran of World War II, having served with the Air Force branch of the Army in the India-China theatre. He is a 1938 graduate of Dimmitt High School and he attended the University of Texas. Mr. and Mrs. Estes have three children, Ka, 16; Karen, 10; and Kathy, 8. In his new work,

JUDGE ROBERT ESTES

the judge will be dealing with counties cities, schools, banks and individuals in the buying and selling of municipal bonds, corporate stocks and mutual funds.

During the time he has spent as county judge, he has guided

the Commissioners Court in the placing of nearly all county farm to market roads, setting up and operating Castro County Hospital, and making it possible for the county to assume and control the fair grounds.

Sheriff's Posse Rodeo Parade Is August 14th

The Castro County Sheriff's Posse will throw their annual parade through Dimmitt on August 14th at 3 p.m. in conjunction with the Dimmitt Rodeo.

For the first time, they are offering prizes for the best floats in hopes of presenting a better parade than ever before. During the past several years the Sheriff's Posse parade has been improving in both size and color and representatives hope this year's will be one of the best ever held in this area.

Prize money of \$20 for first place, \$15 for second place and \$5 for third place will be paid by the Posse for winners in commercial and non-commercial float divisions. Everyone is urged to enter and clubs, individuals or firms wishing to have a float in the parade should leave their names and what they plan to do with the Castro County News at least two days before the parade. A deadline, if one is imposed, will be announced later.

The total of \$80 in prize money will be a joint endeavor between the Posse and the Castro County Chamber of Commerce.

The annual Dimmitt Rodeo will be held at the Rodeo Grounds on August 13, 14 and 15.

Old Settlers will be served a barbecue dinner by the Sheriff's Posse. To be paid for by the Rodeo Association, the barbecue is open only to Old Settlers. A barbecue supper will be held for those connected with the rodeo and parade.

According to A. A. Goolsby and Raymond Crum of the Sheriff's Posse a large number of riding clubs have been invited and in the past some half dozen clubs have participated.

Fair Set For September 17-18-19

According to a recent announcement by Noble C. Howard, Castro County Fair Association President, the fair this year will be held on September 17, 18 and 19.

Committees and other appointments have yet to be made, but general fair arrangements will be the same as in the past. Howard has urged that all persons planning to enter the fair begin making preparations now.

TRAILER SMASHES RESIDENCE—Mr. and Mrs. Noe Garcia, shown looking at the wreckage of their apartment in East Dimmitt, are glad they weren't taking a nap when the trailer owned by John Macon Hutchison of Dimmitt came loose at 130 Wednesday afternoon. The trailer broke free of Hutchison's pickup and crashed into the side of the house. Mr. and Mrs. Garcia were outside watching the family car so no one was injured. One bed was demolished in the apartment on Highway 86 across from Dimmitt Wheat Growers Elevator. —staff photo

Cotton Choppers Receiving 55 Cents

According to an announcement by Ed McDonald, regional director of the Texas Employment Commission from Littlefield, the wages for hoeing cotton is 55 cents an hour in Castro County for mixed crews of men, women and children.

Brown Swiss Show

The Brown Swiss Canton Show will be held Tuesday, July 21st, at the Vincent Braddock Farm, located at Nazareth. Mr. Braddock said there will be classes for all ages of animals. Thirty to forty head are expected for the show. The show will begin at 11:00 a.m. Everyone is invited to attend, and bring a sack lunch.

County Takes Slight Wheat Acreage Cut

The 1960 wheat allotment for Castro County is 104,924 acres, which is a slight cut from this year's acreage.

Wheat allotments were mailed to all known wheat operators in Castro County on July 6th. Farm operators who did not receive allotments and wish to plant wheat or who received allotments for farms they no longer operate, should go to the ASC office and make the necessary corrections.

The County ASC Committee did not make any adjustments in the wheat history for the four years involved in computing the 1960 wheat allotments, 1955, 1956, 1957 and 1958. Allotments are arrived at by using the average number of acres planted during this four-year period as the base acreage and using this as a basis of dividing up the allotted acreage. According to ASC Secretary Charlie Hill, it is more than likely that any farm which showed poor wheat history in any of the four applicable years would receive a considerable reduction in the 1960 wheat allotment below the 1959 allotment. For next year the base acreage (four-year average) is multiplied by 7236 to arrive at the wheat allotment. In other words, the four year 1955-1958 average will be about a fourth more than next year's allotment. Further explanations of the allotment system can be had by calling the ASC office.

New Church of Christ Starts Here Sunday

Dimmitt's newest church, to be known as the Northside Church of Christ, will hold its first services Sunday in the American Legion Building.

Bro. Morgan Sturgess of Tullia will preach at both the morning and evening services Sunday for the new congregation.

Two lots have been donated by Mr. and Mrs. Egbert Ramsey of Dimmitt, to the church. These lots are located on Halsell Street just east of Third Street and will constitute the location when the new church constructs a building.

No minister has yet been selected for the work of the new congregation. Most of the organization of the church will be taken care of Sunday. For the Sunday Bible Classes Mrs. Edward Jones will be in charge of the primary department; Giles Tate will instruct the Intermediate department; and Edward Jones will lead the high school department. Adult class will be in the Legion Building auditorium under the direction of Minister Sturgess.

Worship Service as follows: The announcements and opening prayer will be by E. V. Barnes. Song director will be Edward Jones and Byron Ray Tate will have charge of the communion service. Following the sermon, J. H. Flood will give the closing prayer.

A weekly midweek service has been set for each Thursday night when Minister of the Earth Church of Christ, W. E. (Bud) Irvine will bring the lesson.

Funeral Rites For Mrs. Traylor Held Sunday

Funeral services for Mrs. Margaret Dumas Traylor, 78, were conducted at 10 a.m. Tuesday in the First Methodist Church in Dimmitt.

She was the mother of Mrs. Peggy Webb of Dimmitt and she was a one-time resident of Castro County.

Rev. Darris Egger, pastor of the church, officiated, assisted by former pastor Rev. Raymond Van Zandt, now of Petersburg.

Burial was in Castro Memorial Memorial Gardens under direction of Dennis Funeral Home.

Mrs. Traylor, who lived in Castro County since September 1949, died at 12:10 a.m. Monday in Bivins Nursing Home in Amarillo following an illness of three years.

Born in Rockwell, Texas, she graduated from high school there, and graduated from a girl's college in Dallas in 1901.

She then taught for one year in Simmons College, now known as Hardin-Simmons University in Abilene. Teaching for one year in Danglefield, Texas, she married the late John Traylor there on October 14, 1903.

An active member of the Presbyterian Church for 64 years, she joined the First Methodist Church in Dimmitt because there was no Presbyterian Church here then.

Besides Mrs. Webb, survivors include one daughter, Mrs. Peggy Webb, Dimmitt; one sister, Mrs. J. A. Wilkerson, Dallas; one brother, Walter Dumas, Dallas; and three grandchildren.

Wheat Loan Set At \$1.82; Voting Next Thursday

The final loan rate for the 1959 wheat crop remains as originally announced at \$1.82 per bushel less storage, according to an announcement this week by the Castro County ASC office.

The 1959 wheat marketing quota referendum has been set for Thursday, July 23 to determine whether wheat producers approve or disapprove wheat quotas. Anyone who has an interest in a wheat farm in Castro County is eligible to vote. Both husband and wife are eligible to vote.

Farmers may vote at one of the following places: Arney-Harmon-Toles Elevator; Easter-Community Grain Co.; Dimmitt-ASC office; Nazareth-Nazareth Grain and Grain Company; Flagg-Flagg Grain Company; Hart-A. A. Lindsey Grain Co.

Margaret Odom and Francis Parks Exchange Nuptial Vows at Local Chapel

In a double ring ceremony before an arch covered with stock and gladioli and sprays of stock and white columbs entwined with white...

Church. Punch and wedding cake were served from a table laid with a white satin cloth and flower appointments of white French decorations.

For a going away ensemble the bride wore a brown sheath dress of textured cotton and silk with matching jacket and white accessories.

discuss the stars, many nights, before falling asleep. The fresh air was wonderful. One always needed some cover as the night breeze was usually cool. I never sleep so good.

There was only one draw back, and I didn't let it worry me too much, but the sun would not get out fairly early. It was really a waker-upper! However, early in the season, I learned to cover my head to blot out its brightness and also to deafen me to the first few calls from Mother to get up.

My boy and a neighbor boy worked all day fixing up a place to sleep in a little house out back. They even managed to get one of the dads to carry out a mattress for them to put on a day-bed they had borrowed from another neighbor.

Our girl and two neighbor girls fixed themselves beds on the ground. They worked their mothers into giving them pillows and blankets. They were really fixed up with flash-lights, too. Big Deal!!!

Well, we slipped up to the door and quietly turned the door knob and we were getting ready to jump in with a whoop and a holler when the door was jerked from our hands, an alarm clock went off, a flash-light shined in our startled faces, and two boys came out yelling. They had been tipped off! They were expecting us.

Well, our scheme really backfired! I nearly fell in the door on my face. I got a "catch" in my poor old back, and the others were dazed. ... part of the yelling wasn't from the boys...

Members of the club are Messrs. and Mesdames James Autry, Juli Baldridge, Hugo Bryers, Wes Brown, Cecil Crum, Jack Flynn, R. W. Scoggin and Earl Taylor.

Pamela Heard Honored Mrs. Dean Heard entertained her daughter, Pamela on her first birthday Friday, July 10 from 4 to 6 p.m. at their home northeast of town.

Decorations of balloons were used to give a festive effect. Horse and other books were given as favors. Refreshments of ice cream, cake, punch and candy were served.

Attending the party were Louann and Lynette Autry, Keith Gary and Gail Crum, Sherri McJinnay, Genelia Smiley, Rodna Tidwell, Sandra, Vicki and Becky Carpenter, Jan Giles, Latrelle Hoyle, Rhonda, Vicki and Kristi Heard, Kay and Linda McCormick, Blenda Ray and Vivian Thompson, Donna Terrell, Tony and Emmerson Heard.

Mothers attending were Mesdames Smiley, Autry, Crum, McJinnay, Carpenter, Giles and George Heard. Attending from the field were Mesdames W. W. Heard.

Mr. and Mrs. Ray Williams are the proud parents of a 10 lb and 3 oz. boy born July 6. His name is Marshall Lynn.

The grandparents are Mr. and Mrs. Pete Sargent, The Hair and Mr. and Mrs. J. M. Williams of Cameron, Texas.

Three Nazareth Boys to Attend State FFA Meet

J. M. Slavik, superintendent of Nazareth Schools, announced this week that a delegation of three boys representing the Nazareth Future Farmer Chapter will go to Austin July 15-17 for the 31st annual convention of the Texas FFA.

Ralph Brockman, chapter president for the coming year, will head the group to be accompanied by Mr. Emerson Britter, vocational agriculture teacher and FFA advisor. Others in the party include Robert Schacher, Stephen Schacher, chapter secretary; and Howard Schulte, past chapter reporter and the first member of the chapter to receive the Lone Star Farmer degree which will be awarded at a banquet.

Hundreds of Austin cars will bear a sticker, "FFA ride with me," offering transportation between the new air-conditioned municipal auditorium and hotels. 5,000 Future Farmers are expected at the convention.

In addition to business sessions, the young conventioners will be taken on a tour of Austin, swim in the famous Barton Springs Pool, attend a "Fun Night" featuring top FFA talent and professional acts, attend the huge Lone Star Farmer Banquet and grant honors, scholarships and awards to deserving Future Farmers and adults.

Reformation & Restoration

"Thus through the centuries rings the voice of 'reformation', and in our own day it is by no means silent; or, indeed, should it be; for each generation has its peculiarities, abuses, corruptions and innovations. The 'reformer' has a noble mission; and as no 'reformation' stays reformed' for any long period of time, there is the ever recurring need of raising the 'battle-axe'—back to Jerusalem, back to the Bible!"
In the beginning of the Nineteenth century the Bible, without any human addition in the form of creeds and Confessions of faith, began to be preached and preached by many distinguished ministers of different denominations, both in Europe and America. This is "restoration" not "reformation." There is a vast difference in the terms. The plea of the Church of Christ today is, "restoration." Back to the Bible.

Becky Martinez has been visiting a cousin in Montoya, New Mexico the past ten days. She's expected home the first of the week.

SCANNING THE NEWS

THE taxpayers of the nation have just about completed paying the biggest tax bill ever assessed against any one nation in a single year—more than \$70 billion into the Federal treasury and more than \$30 billion into state and local treasuries for the year 1956. This total of more than \$100 billion adds up to about \$800 for every man, woman and child in the United States, and about a quarter of the country's output of goods and services.
And unless something is done about the 1957 levy will be still higher. There are some who declare that the only way to reduce taxes is to increase the nation's output or production. The theory is based upon the fallacious argument that the more production, the more taxes will be collected, and thus there can be a cut in taxes.
But the present budget before the Congress, the highest peace-time budget in the nation's history is an example of that fallacy.
President Eisenhower sent his \$70 billion-plus budget to the Congress with the admonition to "cut it where you can." At the same time, he sent up government services which required more spending than before, and the House, in a spirit of frustration passed a resolution calling on the President, to "cut it where we can cut it." And the President replied in effect, "That's your job."
Here's what has happened with federal spending. When the Eisenhower administration came into power in 1952, it was on a promise to "balance the budget." In past years there had been a back log of appropriations of several billion dollars built up which had not been expended, for there is often

a lead time of as much as three years between the time contracts are made and money appropriated is finally expended, as in the case of new planes, ships, and other military equipment. But the Eisenhower Administration cut the budget on paper, but at the same time did not decrease spending, and has finally, now four years later dipped deep into these unexpended balances so that new government commitments are to be kept, and we live at a rate to which we have been accustomed.
This tremendous tax bite is one of the factors in the steady rise in the cost of living and which is not accounted for in the Bureau of Labor Statistics on living costs. Economists who have studied the rise in costs of products going back 100 years, believe there can be little reduction in the cost of products; that prices will continue to rise and that neither labor nor business can be blamed for this cost increase, as long as there is a proper proportional increase in wages and salaries and costs of products.
But there are areas in which the costs are getting out of proportion as between prices and wages and this is in the area of services; in such services as automobile repair and parts; in television and radio repair; in shoe repair; in laundry services; in barber shop services; in parking services; in banking services, including interest rates; freight and passenger rates on all modes of transportation; public utilities such as electricity, gas, oil, telephone and telegraph; health and legal services. . . all these have outstripped the costs of products. . . except possibly automobiles.

July 19-25 Is National Farm Safety Week

The need for encouraging safety-consciousness among farmers and ranchers to reduce the tremendous farm accident toll was pointed out recently by F. F. Collins, president of the Castro County Farm Bureau.
"The urgency of this matter is attested by the fact that both President Eisenhower and Governor Daniel have proclaimed the week of July 19-25 as 'Farm Safety Week' to focus attention on this one of our gravest social problems," Mr. Collins said.
"Farming leads all other occupations in work-accident casualties, taking nearly 13,000 lives and injuring over a million people in one year's time" he said.
"This is a needless sacrifice of human life and a flagrant waste of money—not to mention the untold grief, suffering, time loss, and worry attendant upon accident victims and their loved ones," Mr. Collins said that there is "a

Local Pioneer Gas Manager Takes Award

A V. Barnes, Manager of Pioneer Natural Gas Company's Dimmitt office, received the company's first "President's Trophy" Friday at a special presentation ceremony in the firm's general office at Amarillo, Company President C. I. (Stoney) Wall presented the award.
The "President's Trophy," a golden gas light, was presented to the Pioneer city office having the greatest percentage of gas light sales over its established quota in a recent sales campaign.
The Dimmitt office registered a 314 percent sales record by the end of the three-month period.
For purposes of the contest the Pioneer Natural operating system was divided into four large groups, each competing for a separate "President's Trophy." Other winners include Lubbock, Soerges and Minden, Louisiana. The golden gas light awards will remain on display in the winning city offices until August 1. At that time, a drawing will be held in each of the offices and the employee who submitted

Walter Rogers' WASHINGTON NEWSLETTER

INTEREST RATE RAISE

The demand of the Administration that the interest rate ceiling on long-term marketable government bonds be lifted has caused one of the most bitter behind the scenes debates in many years. The President wants the authority to ignore the interest rate ceiling fixed by law and permit the interest rate on these long-term government bonds to be determined by whatever the money markets require. An indication of what will happen can be seen in the disclosure by the Treasury last week that it would pay an interest rate of 4.78 percent on a two billion dollar issue of one-year bills. This is the highest interest rate on any Treasury issue since 1920.
As most of you know, money is a very complex subject. One fellow said he could never keep any of it long enough to really study it. But, complex or non-complex, the fact remains that continued tampering with the interest rates, as has been done by the Administration, will produce more inflation and more burden on the already sorely pressed taxpayers of this nation. There has been a great hue and cry about the devaluation of the dollar because of inflationary practices, yet, those who decry the inflationary trend support the proposed interest rate increases. The fact of the matter is that money is like any other commodity. Those who are producing the daily needs of the citizens of this country utilize money in carrying on their businesses. When the price for that money is increased, it simply means that the producer of the products sold to the general public must, in turn, increase the price of the products he sells in order to absorb the additional cost of the money he has had to borrow. This is inflation at work. Not only must the individual pay more for the products he needs in his daily living, but he must also assume a larger tax burden, because the amount of interest to be paid on the national debt increases. Between the years 1935 and 1958 the amount of money required from the taxpayers as interest on the public debt increased by several billions of dollars, simply because of increased interest rates.
Should the President be granted the authority to pay higher interest on long-term government obligations, it will follow as a matter of course that all interest rates will be increased on all transactions in lending agencies from the smallest to the largest. This could mean an extended period of curtailed activities, insofar as the expansion of the economy is concerned, and the complete control of the economy of this nation by those who control the big money. If this continues, the chances are the government will be called upon to step in and force the lowering of interest rates, should the government do that, it would mean the creation of much distress property and an economic upheaval that could be disastrous.

through a hard-hitting, conscientious ADVERTISING PROGRAM

Competition is a demanding taskmaster—but it can also be the greatest rewarding factor in merchandising or servicing. It is a taskmaster when competition defeats, when it sets the rut that engulfs the businessman. Competition is rewarding when the merchant forces it to become his tool, when he knows he has a thriving, growing business that will never want for customers. Business goes where it is invited—and competitive prices, outstanding courteous service with a good selection, and promotional advertising will do the most inviting.

Do yourself, your customer, and your community a favor by using the pages of the Castro County News to sell your goods and services. It is not only good business but it will help you gear your operation to today's quickly changing trends and increasing competition.

Success stories of large businesses almost always hinge around concentrated advertising and other sound business practices. Start a campaign now—you'll be amazed at how quickly you will feel the difference. Just telephone 88 and a salesman will call on you at your convenience.

THE CASTRO COUNTY NEWS

Cooperatives are the balance wheel that strengthens our free economy

SEEMS TO BE A NATURAL THING for small boys to wrestle. Put two or more together, and within five minutes the chances are good that they'll be rolling on the ground in furious action.

Doesn't appear to be any harm in it, if you overlook wear and tear on clothing, but there's a lot of good. This vigorous competition strengthens muscles, develops agility, heightens alertness.

But it takes evenly matched youngsters to bring out the best efforts of each. In the field of business, you could put it this way—when competition is keen, everybody has to work harder, give better service, be more alert to customers' needs. And businesses grow stronger because of it.

Supplying the kind of vigorous competition that makes other businesses do their job more effectively is one of the purposes of co-op organizations.

Being owned and operated by their patrons, co-ops think first of service. Other businesses must try to give equal service. In the give and take of brisk competition for patronage, with each striving to out-do the other, the whole community benefits.

Everyone shares in CO-OP BENEFITS

Mr. and Mrs. J. Paul Wagoner and boys visited in Olton Sunday with relatives.

Mr. and Mrs. Noah Spencer and family visited in Bedford Sunday with Brother and Mrs. Wayne Lee and family. Ann stayed to spend the night with them.

Mr. and Mrs. John Bridges, Bruce and Glad of Earth visited Sunday with Mr. and Mrs. Howard Bridges.

Mrs. M. Taylor and Mr. and Mrs. Dehrendt of Lubbock attended the wedding of a friend in Phinney Sunday afternoon. Mr. and Mrs. Dehrend were a part of the wedding party.

The Adult II Sunday School

Class enjoyed a class dinner in the home of Mr. and Mrs. J. C. Holbrook and family. Other present were Mr. and Mrs. Weldon Sadler and family, Mr. and Mrs. Tom Conant and family, Mr. and Mrs. Edall Sadler and family, Mr. and Mrs. Houston Carson and family, Mr. and Mrs. L. C. Holbrook, Mrs. James Powell and Randy and Brother and Mrs. Marie Rogers and Dutch.

Mr. and Mrs. Kenneth Ford from Alamo, Texas visited Sunday with Mr. and Mrs. Jess Terrence on their way to visit relatives in Kansas.

Mrs. Edward Gammage and children of Lubbock visited Friday with Mr. and Mrs. Jess Terrence.

100 attended Sunday School with 50 in Training Union Sunday. Gifts were presented to Mr. and Mrs. Jack Ogletree and Jane after the evening service. They will continue to the community in El Paso, Texas in the near future.

GET READY FOR BIGGER CROPS

IN 1959

with

DOW

82 AMMONIA

This year farm operators see conclusive proof that use of anhydrous ammonia produces substantially bigger crops in areas where weather prevented timely application of Nitrogen yields are down. Where Nitrogen was used, farmers who had check plots report highest returns on their investment in Nitrogen fertilizer.

Get ready for next year's big crop. After mid-harvest, apply Dow 82 ammonia. Also stalks and roots provide the ideal organic material to help the fertilizer work best for you. Dow's 82% Nitrogen speeds decomposition of round-baler stalks improves soil fertility. Dow 82 resists leaching. It stays in the ground, ready for use. Spring plantings get a healthier, quicker start; develop vigorous root systems that help prevent blowing soil.
