Last Rites Held at Methodist Church for Dr. J. D. Leonard, Pioneer Physician

DR. J. D. LEONARD

Funeral rites were held here at 3 p. m. Saturday at the First Methodist Church for Dr. James Daniel Leonard, pioneer physician. He died Thursday at 9:55 a. m. in the Sterling County Hospital. He had been in ill health for a number of years. Dr. Leonard was 89 years old.

Funeral services were conducted by the Rev. Auburn S. Neely, pastor of the church. Burial was in Fairview cemetery under direction of Clift Funeral Home.

Dr. Leonard was born Feb. 8, 1872 in Sparkman, Ark. He was the son of Mr. and Mrs. Samuel Leonard. After attending Henderson Methodist College at Arkadelphia, Ark., he took medical training in Little Rock, Ark.

He came to Bronte in 1903 and formed a partnership with the late Dr. W. F. Key. The partnership lasted until Dr. Key's retirement.

In 1953, Dr. Leonard had delivered 2,270 babies in Coke County. Dr. Leonard was married in 1897 to Miss Byrdie Burch. She died in 1910, and on Dec. 2, 1911, he married Miss Eula Lockhart in Bronte. She survives him.

A long time member of the Methodist church, Dr. Leonard served as a steward and church secretary of First Methodist Church of Bronte for 38 years. He was on the building committee which built the first church building here in 1906. A reception was given by the church honoring him on his 75th birthday.

Survivors include his wife; one daughter, Mrs. Emmagene Jackson of Denver, Colo.; two sons, Woodrow W. Leonard of Denver, and Dwain E. Leonard of Big Spring; one brother, John Leonard of Sparkman, Ark.; two sisters, Mrs. Etta Smith of Sparkman and Mrs. Imola Horton of Camden, Ark.; nine grandchildren and nine great grandchildren.

Pall bearers were C. E. McGuire, Claude Beaver, Jack Dixon, Earl Black, T. F. Sims Jr., Edward Cumbie, B. E. Modgling and Craig Chumley of San Angelo.

Ladies Tourney Here Saturday

Bronte and Ballinger will play the opening game at 8:00 a. m. in the Ladies Softball tournament to be played on the local field Saturday.

The second game will be between Robert Lee and Winters, followed by Big Lake and Roscoe at 12:00 noon. Playoffs will be during the afternoon and the final game will begin at 8:00 p. m.

The local ladies have had a very good record this year, having won first place in a Ballinger tournament and second place in the Big Lake tourney. Saturday's tournament will wind up the season's play.

Tournament trophies will be on display this week at Central Drug. The Band Boosters Club will operate the concession stand all day Saturday.

In a game played Monday night at Robert Lee, the local ladies won handily, 13-4. They will play Winters here tonight at 8 p. m.

Labor Day Barbecue Plans Made

Plans are being shaped up for Bronte's Labor Day barbecue. The annual celebration will be held in the County Park Monday, Sept. 4.

Sponsored each year by Bronte merchants and some individuals who wish to contribute, the barbecue is becoming a traditional observance here. Each year it attracts more and more people.

The meat, beans, bread and other foods, except salads, will be furnished. Women attending the big feed are requested to bring salads. A. Z. Denman, who is in charge, asked that no desserts be brought to the barbecue this year.

Everybody in the entire area is invited to attend. Plenty of food for everybody is promised.

Denman said, "the purpose of the barbecue is to bring all the people of this area together in a spirit of neighborliness, so the more people we have, the better. We hope everybody, particularly new residents here, will come."

Longhorns Busy With Practice

Bronte's 1961 version of the Longhorn football team is beginning to shape up this week. About thirty boys are working on their second week of practice. The boys are getting a real workout this week, as they are attending the football camp held each year at the school.

The Longhorns scrimmaged Ballinger Tuesday night, and made a fair showing against the neighboring team. Some weaknesses were noted, however, and plenty of practice is needed to strengthen weak spots and add polish to the team.

The Longhorns play their first game on Sept. 8 against May. It will be played on the local field at 8 p. m.

The turf on the football field is in excellent condition. It has been watered extensively the last few weeks, and early in the summer benefitted from frequent rains.

A movement is underway to build a new concession stand at the football field. Donations of tile are wanted, and anyone who has a few extra tile of any size lying around his place is asked to bring them to the field. Arrangements have been made to get the foundation poured and other work done on the new building.

Mr. and Mrs. Allen Bryan and girls are moving today to Sheffield where he will resume his work for Rowan Drilling Company. They have been on vacation following his return two weeks ago from Alaska.

Mrs. K. M. Cook and children of Odessa visited here last week in the home of her parents, Mr. and Mrs. M. G. Gilreath.

Band Practice Starts; New Suits Arrive

Members of the 1961 Longhorn Band will start the coming school year with a new band director and new uniforms. An organizational meeting of the band was held Monday night and members met their new director, Bob Bingham.

At a meeting Tuesday night, the new uniforms were issued to members. Practice sessions have been held each morning this week, with emphasis being placed on marching.

Quite a few improvements have been made in the band hall since last year and new music stands have been received. Instruments owned by the school have been completely reconditioned, also.

Mr. and Mrs. Carroll Robbins of Fort Stockton were Bronte visitors last weekend.

BIDS WILL BE OPENED FRIDAY ON WATER IMPROVEMENT JOB

Bids will be opened Friday on a water improvement project for the City of Bronte. The bids are being received by the Upper Colorado River Authority, which is financing the project.

Main part of the project is to construct a 500,000 gallon storage tank at the city filter plant site in north Bronte. Other improvements include laying of more than 3,000 feet of eight inch water main and laying of over 3,000 feet of six inch main. Additional fire plugs will also be installed.

Estimated cost of the project is approximately \$65,000. L. T. Youngblood, chairman of the UCRA, said the bids might vary either above or below the estimated cost.

Money to finance the improvements will be repaid to the UCRA over a period of years along with monthly payments the city now makes on the pipeline from Oak Creek Lake and the filter plant. Money borrowed from the UCRA for these projects is loaned without interest by the river authority.

Students living in the Bronte School District will go back to the classroom Monday, Aug. 28. The new school term will begin with an assembly at 8:15 Monday morning in the school auditorium. Following the opening exercises students will report to their classrooms and a full day of school will be held.

Buses will run at the usual time Monday, and will arrive at school between 8 and 8:05 a. m. The lunchroom will be open on the first day of school.

High school students registered Monday and Tuesday of this week. Prin. Joe B. Simpson reported that a total of 68 students registered for high school work. More registrations are expected on opening day of school.

Supt. C. B. Barbee announced a couple of weeks ago that the school faculty was complete. Several new teachers will begin work at the Bronte School this year, replacing teachers who resigned last year.

Barbee said that Thursday and Friday of this week will be used for inservice training for the faculty. All teachers are expected to be present for the two day period.

Barbee announced the following prices for lunchroom tickets: daily price for first to sixth grades, 30c and 35c for grades 7-12; weekly prices for grades 1-6, \$1.50, and for grades 7-12, \$1.75; monthly prices for grades 1-6, \$6.00 and for grades 7-12, \$7.00. All the prices include one carton of milk. Extra milk will be 5c per carton. Chocolate milk will be available for the first three grades at 3c per serving.

Once again this year the school is sponsoring an insurance program for students. Security Life and Accident will insure the children at a cost of \$3 each. The school will pay \$1 of this amount and parents will pay the remaining \$2. The superintendent urged that everyone take out the insurance. He said, "according to latest information we have, this is the best program available for the cost." He said that every student will receive a letter explaining the insurance and a policy. He asked that parents keep the policy in a handy place where it can be referred to easily.

The school's first holiday will be one week from the opening day of school. The holiday will be in observance of Labor Day on Sept. 4.

Supt. Barbee announced the following assignments of school personnel:

First grade — Wanda Barbee; second grade — Vera Thomas; third grade — Ada Faye Landrum; fourth grade — Mildred Lasswell; fifth grade — Avis Murphy; sixth grade, Sybil Henry; 7th and 8th grade math and elementary principal, James L. Golson.

Assistant coach and science — John L. Boyles; vocational agriculture — J. T. Henry; homemaking — Jean Fancher; coach and social studies — Bob Howard; language arts and commercial — Diane Luckett; Spanish, English and library, LaRue Broussard; English, speech and library — John E. Hartsell; science and math — Clint Low; band and music — Bobby Bingham; high school principal and math — Joe B. Simpson.

Mrs. Mary Frances Glenn is again school secretary. Custodians are Marvin Corley and Clayburn

UNCLE HUIE from HOG CREEK says

DEAR MISTER EDITOR:

I see by the papers where some doctors from the American Medical Association has give out a warning that eating wild fruit, especial persimmons, that ain't good and ripe will cause a "diopsyrobezoar" in the stomach that might "require removal by surgery."

I'm mighty glad to git this information. It'll give me the will power to quit eating fruit, wild or tame, ripe or unripe. At my age I don't want to git diopsyrobezoar. Anything with a name like that could be fatal to us old folks. Let a doctor tell a old sot he's going to die if he don't quit drinking and it's like pouring water on a duck's back. But tell him he's going to git diopsyrobezoar and you've done cured him quick.

Incidental, I see where they've got a New York surgeon on the carpet fer using a stand-in fer operating. The stand-in-surgeon don't show up till the patient is asleep, then he is gone afore the patient comes to. The big name surgeon takes credit fer the operation, pads the bill extra heavy to take care of the stand-in. In basketball they've been calling it the "fix," and with them big electric companies, the Government calls it "rigging," but the medical perfession will come up with a fancy name fer this stand-in business, maybe call it diopsyrobezoar spelled backwards.

It's gitting so, Mister Editor, everthing in this country is operated on the "fix" or "gap" system. We got the missile "gap," the import and export "gap" and a dozen other gaps, all of 'em bad. But at least we can understand that kind of language. It's a great pity them Government agencies and bureaus don't git down to some three-letter words.

But ever now and then one of them agencies will show a little improvement. Fer instant, I was reading where a Alberta farmer shot down a crow wearing a leg band that said, "Wash. Biol. Surv." The farmer sent a letter to the Government: "Dear Sir, I shot one of your pet crows the other day and followed your instructions. I washed it, biled it, and surved it. It was terrible." He got back a letter saying the leg band was a abbreviation fer "Washington Biological Survey," and on account of the confusion they was changing it to: "Notify

The County sheep planning committee has planned a program for Monday, Aug. 28, that I know all concerned with the industry will want to attend. With the margin of profit growing smaller each passing year any experiences, any practices that can be employed to improve our margin will help the economy of our area. The men that will be on the program in the County Courtroom, at 1:30 p.m., will present information that could place us in a better position to make the proper decision when a vital question arises.

On the program will be Jim Gray, Extension Animal Husbandman; Dr. Charles Roberg, D. V. M.; Robert Kensing, Extension Management Specialist, and a wool warehouseman, all of San Angelo. The meeting will be opened to questions following their short discussions of sheep selection, insects and diseases, the sheep outlook, the wool outlook, and wool preparation.

Thursday, August 24, is wheat referendum day. If you are qualified to vote and help decide whether or not marketing quotas will be in effect in 1962, be sure to exercise your privilege. You can cast your ballot at the County ASC office in Robert Lee, according to J. E. Quisenberry, local County office manager.

the cotton bollworm and bollweevil. Only one serious buildup was found but progressive buildups of one or both insects were noted in all areas of the County. If you plan to institute control measures if they become necessary, I would make two or three square counts weekly in order to avoid any slip ups. Following the recent shower and because the corn fields are drying up, the bollworm will probably buildup in some fields. The bollweevil has been building up all season and could do extensive damage before cotton matures. Presently the weevil is primarily laying eggs in the squares, but they will invade the bolls in the near future.

From now on, the decision to control or not to control insects bears greater importance than it did earlier in the season. A number of factors must be taken into consideration before control measures are recommended, such as moisture available, egg counts, stage of growth of the cotton, cotton set on the plants and amount of damage being done.

Check your cotton, consider the above factors, then make the decision according to the findings on your field.

Mrs. R. J. Millikin is here visiting her mother-in-law, Mrs. Willie B. Millikin, for two weeks. Her husband is finishing his army duty at Fort Hood and expects to be released within the next two weeks. The couple will move to Nacogdoches where he will continue his studies at Stephen F. Austin College. He will be a junior student. He is majoring in biology with a minor in physical education.

Mr. and Mrs. Norman Roberts and children have moved from Robert Lee to Rocksprings where he will coach football.

Migratory Workers Need to Be Protected from Vicious Abuses

By LESTER L. VINSON

Editor's Note: This is second in a series of on-the-spot observations made during a special appointment of Lester L. Vinson, pastor of Bronte's First Baptist Church, to serve with the Spanish Speaking migratory workers on the Eastern Shore section of the state of Virginia. This period covered the dates of May 15-July 15 this year.

Spreading across the vegetable growing areas of this vast and fertile nation of ours is an unending flow of migratory laborers whose livelihood depends on the various growing and maturing seasons of much of the fresh vegetables and fruits which in our present economy we simply take for granted.

The orange juice you may have had for breakfast most likely was produced from fruit gathered by some Spanish-speaking worker in Florida who had to climb high on a ladder, up and down for eight or ten hours a day and only receiving a minimum of pay. He probably belongs to a crew of workers who had been gathered together by a man with a large truck and the ability to bargain with the producer or farmer. The "Troquero" or crew leader is the only person who deals directly with the farmer. He receives all the pay and after exacting 15 to 20 per cent from each worker, distributes the day or weeks' pay.

Since most of the workers are illiterate as well as very poor, some crew leaders exact much more. They must depend on the Troquero for transportation to town on Saturdays for which he may charge them as much as a dollar apiece to and from town. Also, be-

cause there are many days that rain prohibits their working, the migrants are forced to borrow from the crew leader who in turn charges them sometimes two dollars for the loan of one. Some states have enacted crew leader registration to help protect the laborer but still they are victims of a vicious circle.

I have indicated the circumstances existing in the above paragraph in order to help you to see that some of the mis-information that has been perpetuated by such documentaries as "Harvest of Shame" have only shown one side of the picture and has left the impression that the farmers themselves are guilty of mistreatment of the laborers. Actually from my contacts with the farmers I have a great deal of respect and appreciation for their situation. Many of the farmers have tried very sincerely to conform to the Department of Labor's specification for housing and sanitation. I have seen very modern migrant camps that had been vandalized by the migrants themselves to the point that the farmer is financially unable to replace that which was destroyed. Mattresses that were brand new had been ripped up or burned; plumbing facilities had been maliciously broken and even completely removed and taken away by the migrants themselves. The trouble with some of the so called "documentaries" is that they document only a part of the total picture.

On the Eastern Shore of Virginia which is a peninsula jutting down from Maryland some 21 miles across the Chesapeake Bay from Norfolk, the entire economy, with the exception of sea food, depends on the production and harvesting of perishable food items such as strawberries, asparagus, broccoli, cabbage, snap beans, egg plant, English peas, sweet potatoes, irish potatoes and tomatoes. Some of these crops are processed by freezing and canning but the bulk of the harvest must be gathered and sent by refrigerated trucks to the heavily populated eastern seaboard. City areas such as Washington, D. C., Philadelphia, Boston, New York, Richmond, and others receive the largest attention as markets.

Among the 1,500 to 2,500 migratory workers at least 90% are colored, 7% are Spanish speaking and perhaps 3% or less are white. The difficulty in estimating the percentages and even the number of workers is brought about by the fact that not all the crew leaders or crews are registered with the department of Farm Labor Employment of the State Employment commissions. There are many of the so called "free wheel-

ers" in this area.

Among the thousands who work in the crops and live briefly in the communities where the vegetables or fruit is mature, there are so many who lack spiritual direction. Few denominations have seen the real "harvest" that they could be reaping if only they would put forth sincere and friendly efforts and a helping hand. The National Council of Churches has a rather "social welfare" program in some of the camps but offer very little in a spiritual understanding and love for the people.

By CAROLE HOOPER

I've just received a recipe for frozen peach jam from the extension foods and nutrition specialists of the A & M College of Texas.

It may be a little late for some of you, but I thought you might want to clip it for use next year.

Frozen peach jam is a convenient food to have in the freezer, not only for making sandwiches or for use on toast, but also as a topping on ice cream, puddings and other desserts. This jam has fresh flavor because the peaches are not cooked.

Frozen Peach Jam

3 cups crushed peaches (about 2½ lbs.)
5 cups sugar
1 package powdered pectin
1 cup water

Wash and drain the fully ripe peaches, remove pits and skins, and crush.

Measure 3 cups of crushed peaches into a large mixing bowl, add sugar, mix well and let stand for 20 minutes, stirring occasionally.

Dissolve the pectin in the water, bring to a boil, and boil for one minute. Add pectin solution to the fruit and sugar mixture, and stir for two minutes.

Ladle the jam into jelly glasses or into suitable freezer containers, leaving ½ inch space at the top. Cover the containers and let stand for 24 to 48 hours, or until the jam has set. Then cover jam with ¼ inch layer of hot paraffin. This will fill 9 six-ounce glasses.

Uncooked peach jam can be stored in the refrigerator for a few months or in the freezer for up to a year. If it is left at room temperature it will mold or ferment in a short time. Once a container is opened the jam should be kept in the refrigerator and used within a few days.

I have a new leaflet on steam irons. You may be thinking of investing in an iron or you may have some questions on the use and care of your iron; if so, you will want a copy of this new leaflet, The Steam Iron.

Mr. and Mrs. George Braswell visited her parents, Mr. and Mrs. D. N. Vosburg, at Hubbard last week. While they were gone, they also visited her brother-in-law and sister, Mr. and Mrs. D. J. Huse, and family, and her brother, E. R. Vosburg, and family in Hico.

NATURE OUR BEST TEACHER

Even in winter the rain and the snow
Are stored in the soil to make our crops grow;
It's the wisdom of nature, who keeps things in store,
Prepares for the future so we may have more.
Since Nature so wisely shows by her plan
That storing will add to the comfort of man,
It looks like man this lesson would heed,
And store for himself the things he may need.
THE FIRST NATIONAL BANK has looked all around,
But no better teacher than Nature has found.

Mr. and Mrs. Delos Alsup Honored on Their Golden Wedding Anniversary

By Mrs. Charles Ragsdale

Children of Mr. and Mrs. Delos Alsup of Blackwell were hosts with an open house Sunday afternoon, Aug. 13, in honor of their golden wedding anniversary.

Mr. and Mrs. Alsup were married in Rankin, Aug. 13, 1911. They have lived in and around Blackwell most of their married lives. Mr. Alsup has retired from the trucking business. Mrs. Alsup is the former Sarah Gray.

All four of the Alsup's children were present for the occasion. They are: Bruce Alsup, Windon, Ariz.; Mrs. Bernice Story, Abilene; Mrs. Merlin Wilson, Colorado City; Mrs. Byron Holley, Sweetwater; and seven grandchildren.

Others in the house party were Mr. and Mrs. J. W. Thompson, Overton; Mrs. Pearl Gray and Mr. and Mrs. H. A. Gray, Deming, N. Mex.; Mr. and Mrs. Joe Smith, Blackwell; Mr. and Mrs. Noble Whitaker, San Diego, Calif.; Mr. and Mrs. Paul Kelly, Fort Worth; Mrs. Jack Grammer, Morgan City, La.; Mrs. Lula Brown, Ft. Worth; Mrs. Irene Lummus, Austin; Mrs. Lida Moore, Kermit; Mrs. Bruce Alsup, Windon, Ariz.; Byron Holley, Sweetwater; Merlin Wilson, Colorado City.

Relatives from Arizona, California, Louisiana, Wisconsin, New Mexico, and Texas were present.

The serving table was covered with a linen cut work cloth with a center piece of yellow roses. The appointments were crystal and silver.

Seventy seven relatives and friends registered during the afternoon.

Charles Copeland Is Honored on 88th Birthday

By Mrs. Charles Ragsdale

Mr. Charles Copeland was honored on his 88th birthday with an open house at the Vernon Copeland residence at Blackwell Sunday, Aug. 20.

150 guests were invited to call from 2 until 5 p. m. Guests were invited from Blackwell, Bronte, Winters, Robert Lee, Wingate, Sweetwater, Abilene, San Angelo, Austin, Strawn and Midland.

Mr. Copeland was born in Salado, (Bell County), Texas on August 22, 1873. He moved to Wingate in 1891, when he was 18 years old. Here he broke horses, did ranch work and broke prairie with a 6 ox team. In 1902 he moved to Fort Chadbourne and bought the present home place. During the years he has raised horses, cattle, and sheep. For a number of years he owned the

Wheat Vote Will Be Held August 24 At Courthouse

Wheat producers eligible to vote in the 1962 wheat marketing quota referendum to be held August 24, may cast their ballots at the courthouse, according to Clarence E. Arrott, Chairman, County Agricultural Stabilization and Conservation Committee.

Growers eligible to vote in the referendum are those who produced more than 13.5 acres of wheat in any one of the years, 1959, 1960 or 1961. Producers who signed applications under the feed wheat provisions permitting them to grow wheat for feed use only on their farms for 1961 will not be eligible to vote.

The results of the referendum

will determine the kind of wheat program that will be in effect for next year's crop. For this reason, every wheat producer should make his wishes known by casting his ballot at the polling place, the Chairman declared.

Voters in Coke County may vote in the wheat referendum on Thursday, August 24, from 8 a. m. to 6 p. m. at the courthouse in Robert Lee.

Jeanne and Eddie Vinson were met in Stamford Sunday by their parents, Rev. and Mrs. Lester Vinson. They had been visiting their grandparents, Mr. and Mrs. Newt Gullett in Duke, Oklahoma for 10 days. They also visited their great grandmother and great aunt in Mangum, Oklahoma.
