**UNCLE HUIE from HOG CREEK says**

DEAR MISTER EDITOR:

Some fellers go to the barber shop to git a haircut and some goes to git information. On account of me not having much hair left, I reckon you'd have to say I go to git about half and half. Incidental, I note my barber keeps charging me the full price and I aim to write a piece soon advocating that all prices fer haircuts be regulated by the U. S. Department of Agriculture. That'll fix 'em!

But, anyhow, I was over in town Saturday morning gitting my edges evened up and I'd have to say I got more information fer the price than I got haircut. The feller next in line was telling about the featherbedding that's going on right at the White House. I been reading where the railroad workers is being accused of this vice, but I didn't know until Saturday that we got featherbedding on the White House lawn.

This feller said he was reading where the Chief Gardener at the White House was asking fer more help to keep them 18 acres of grounds. The piece said he has already got seven helpers but claims he needs nine. President Kennedy got his private gardener

from Cape Cod to look over the problem. This feller, after studying the work load first hand fer a week, said the job could be done real easy with four men if all four would do a little work. The customer in the barber shop said he hadn't saw what was done about it, but he was guessing the Chief Gardener would git his nine helpers. Until you hear to the contrary, Mister Editor, you can be advised that we got featherbedding planted among the White House roses.

The barber that was featherbedding on hy haircut reported he had saw a piece in the papers where a Congressman by the name of James C. Davis from Atlanta dropped a unusual bill in the hopper the other day. Congressman Davis was agin hiking the roof on our national debt anymore, and his bill called fer reducing the national debt by 1 per cent each year. He argued in the Congress this would pay off our national debt in 100 years and that they wasn't many creditors who'd wait much longer than that to git their money. According to my barber, they not only throwed the bill out of the hopper but was about to throw the Congressman out of the building.

Putting the information alongside the haircut, I reckon I got my money's worth Saturday morning. I'm sorter like my old lady. I've knowed her to spend two hours at the beauty parlor and come out happy, even if she did look like she didn't git waited on.

Yours truly,  
 Uncle Huie

When you build a quality truck, the inclination is to run around asking users what they think of. We do quite a bit of this.

It's a funny thing. You'd think people would talk mostly about the mechanical features of the vehicle—the good ride, its power, the double-wall construction, cab comfort, or tough tailgate.

These things get comment, of course, but they're consistently outnumbered by expressions of satisfaction with the dependability of a Chevrolet truck. Its greatest single asset seems to be the fact that it does its job well day after day without a lot of fuss or attention—and that's what impresses people the most.

Quality is the key to reliability. The next time you have to buy a truck, call your Chevrolet dealer and make your money go farther.

## Oak Creek Fishing News

(Compiled at Oak Creek Village)

Dickie & Harold Schoppe catch the limit after school most any evening, white bass or croppies. Since Mrs. Schoppe refuses to do the cleaning we are not too sure what the limit is, but the boys have fun and fish for the family as proof of their ability as fishermen.

Harvey F. Saunders, Sr., being a rather lively and sport-type sort of fellow, went out fishing for carp one evening this week. After the expense of just the right kind of hook, bait, etc. and quite a time of waiting, he finally got the bite. After landing the good sized one, he discovered it was a cat fish. It is reported he wound up his equipment and went home in disgust.

Sometime during mid-week Ike Pate of Sportsman's Lodge caught a 19 pound yellow cat on a trot line that he was very proud to show. He has plenty of pictures for proof at his place of business.

On the same day Mr. Mullins of Hamlin, Texas, caught a very pretty 16 pound yellow cat. With these two 'big 'uns' and a very fine catch of smaller fish, most anyone would have reason to 'brag' as well as plenty of fish for eat'n.

W. M. Harvey and his wife of Harvey's Bowling Lanes at Andrews reported a nice catch of about 19 cat fish weighing up to 3½ pounds and 4 bass ranging from 6 to 8½ pounds. This was the first vacation they have had in about four years and they were quite elated with their luck.

Melvin Daniels and A. B. Hodges, along with their families from 907 E. 15th St., Big Spring, were down over the past week and caught a big string of nice eatin' size cat fish and bass, with one big fellow weighing close to seven pounds. This was their first trip to our lake and they went away happy with their 'catch'.

Olin Campbell, one of the most regular fishermen we have keeps 'big uns', cat fish that is, in our minnow vat. Can you imagine dipping for minnows and coming up with a net full of cat fish

weighing 5 to 8 pounds?

Out early and after the fish Saturday morning, Jack Steuart got a good string of 7 or 8 cat fish "just right for the pan," he reports.

We know there are other 'fish stories' so bring 'em in and we will report again next week.
