2 Firms Burglarized Here Tuesday Night

Two Bronte business firms were broken into Tuesday night and merchandise was taken by the intruders. Central Drug and White Auto Store were victims of the burglary.

Norman R. Kiker, owner of Central Drug, reported early Wednesday morning that his drug store had been illegally entered, but C. E. Bruton, owner of White Auto, did not discover his loss until about 10 o'clock.

Both buildings were entered through the small windows above awnings. The intruders broke the glass windows and let themselves in from the elevated position.

Sheriff Melvin Childress, Deputy Jesse Parker and Texas Ranger Ralph Rohatch of San Angelo investigated the break-ins.

Kiker reported that he lost some watches and billfolds and Bruton said he lost several boxes of .410 shotgun shells, 20 boxes of .22 long rifle shells and some baseball caps.

AD-LIB-BEN

Supt. C. B. Barbee said this week that the Bronte School board of trustees, in a meeting last Thursday night, voted approval of a preliminary study of pertinent facts relating to the school's building needs.

Considerable discussion has been heard in the community since last spring when a report of a study on consolidation with Robert Lee was made at a public meeting here.

No official count was made on public opinion regarding the consolidation matter, but a vast majority of school patrons and other local residents were unalterably opposed to the consolidation move. A few reacted favorably.

The Enterprise publisher has talked with a large number of local citizens since the spring meeting, and most of them are of the opinion that any steps necessary should be taken to keep the school here, to improve it, and keep its curriculum and facilities in step with the times.

We cannot say at this time just what we are for in the way of building. However, we can say that we are 100 per cent behind the school board in its approval of a study of building needs.

The stakes are high on a project of this kind, for (1) it involves the future welfare of all children of the district, and (2) it involves the expenditure of a considerable amount of money over a long period of time. In short, our stand is that we should build what we need, do a thorough job, and at the same time stay within our means.

That may be a big order, but it must be done.

In next week's Christmas edition we want to have as much local news as possible about the coming and going of Bronte residents during the holidays. Won't you please call us at 473-2001 and tell us your Christmas locals?

Speaking of traveling, we received an interesting map this week from the Texas Department of Public Safety showing present highway construction in Texas. Anyone planning a holiday trip, and wanting to stay clear of construction, is welcome to come in and look at the map.

He pointed out that Bronte merchants donated the prizes as a gesture of appreciation for the business which has been given them during the past year. The Jaycees are sponsoring it as a public service, he said.

Blackwell Tourney Is Not Cancelled

It was erroneously reported in last week's Enterprise that the Blackwell Invitational Basketball Tournament, scheduled for this weekend, had been called off.

According to Supt. Jimmy C. Bickley, the tournament will be played as originally scheduled, beginning today, Dec. 17, and continuing through Saturday, Dec. 19.

The only part of the tournament which has been cancelled, Bickley said, is Bronte High School's participation in it. Barnhart will take Bronte's place on the schedule of games. Conflicts with other activities caused local school officials to cancel participation of Bronte teams.

The publisher of The Enterprise regrets that this mistaken information was printed last week, and sincerely hopes that no one will be inconvenienced by the error.

County Agents News Column

By STERLING LINDSEY

Economic outlook reports are being prepared and studied by various sources as we approach the new year. Accurately figuring what is in store for the coming year, many times has a definite influence on prices and the disposition of a number of agricultural commodities.

The Extension economist believes the sheep outlook is favorable. The number of sheep on farms and ranches at the turn of the year is expected to be down one million head from the same time a year ago. Also, sheep and lamb slaughter is expected to be substantially reduced.

Their final statement on sheep is that the lamb crop is expected to be down four to six per cent and prices are expected to be above the corresponding 1964 level.

The beef cattle picture as they see it is not as bright. Current cattle numbers are high and slaughter of steer and heifer beef under Federal inspection through September 1964 was up 13 per cent from a year earlier and up 25 per cent from two years ago. This, naturally, has influenced cattle prices.

As for the future, the 1965 production is expected to be up two to three per cent over 1964. They add that a large part of the expected increase will be calves from the 1964 calf crop. Slaughter numbers in 1965 are expected to increase only slightly over 1964.

Their statement regarding prices is that they are expected to continue under pressure.

The addition of technical grade ammonium chloride to the ration may afford almost complete protection to steers and weathers against urinary calculi or "water belly" in the feed lot. The added protection will add approximately one and a half cents per head daily for steers and 50 cents per weather for a 112-140 day feeding period.

The first screwworm free period in ten weeks occurred last week. Officials of the control program are hopeful that the record can be maintained, and during the cool season, the eradication line be pushed into Mexico. We, too, hope their desire can become a reality. The job will become much simpler and much less expensive if this desire is accomplished.

YEARBOOK SALES PERIOD EXTENDED THROUGH WEEK

Supt. C. B. Barbee announced that sale of 1964 annuals has been extended through this week.

He urged any person who wants one of the yearbooks to make his deposit with one of the annual staff members. "Remember," the superintendent said, "there will be none for you if you don't make a deposit at this time."

Miss Linda Jones is yearbook faculty sponsor.

Mrs. K. M. Cook and children of Odessa were here for a weekend visit with her parents Mr. and Mrs. M. G. Gilreath.

Texans Alerted to Driving Dangers During Christmas-New Year Period

The Texas Safety Association this week issued its annual "Accidental Death Alert" for the 1964 Christmas-New Year period. The 11-day alert begins at 12:01 a.m. Thursday, December 24. It coincides with the annual death watch of the Department of Public Safety.

In appealing to all citizens to be on the alert for hazards, TSA President Quincy V. Tuma of Houston, said it is estimated that 105 persons will be killed in traffic and 45 persons in other accidents.

"However, this tragic toll can be reduced if everyone will put safety first — at home, at work or behind the wheel," he added.

He challenged citizens to accept their moral responsibility to conduct themselves in a safe manner and to practice the Golden Rule. "Be thy brother's keeper," he said.

Last year, during a nine-day holiday period, 132 persons lost their lives in accidents in Texas. There were 84 persons killed in traffic and 48 persons killed in other types of accidents.

Christmas Eve took the heaviest toll in traffic deaths — 14 persons. Christmas Day and New Year's Day had 13 traffic fatalities each.

Tuma pointed out that traffic fatalities for the first 11 months of this year increased about 12 percent over the same period in 1963. "This trend, plus the fact that December is one of the most dangerous months of the year for traffic and that both Christmas Day and New Year's Day this year occur on a Friday, increasing the possibilities of high-way travel, could bring the total figure for 1964 traffic deaths to the 3,000 mark.

In 1963, traffic deaths reached a record-high with 2,729 persons killed. As of Dec. 4 this year, traffic fatalities were only 87

Blackwell Places 2 On All Dist. Team

Two members of the Blackwell Hornets 6-man football team made the 4-B all district team for 1964. Back Courtney King and Lineman Robbie Cook were selected for the honor.

Larry Don Patton, also on the Hornet team, received honorable mention.

Other members of the 4-B team are Ronnie Krezci of Highland and Tommy Lay of Hobbs, backs; Freddie Martinez of Hobbs and Jim Vineyard, center of Ira, linemen. Honorable mention also went to Gary Rotan of Divide, Ronny Jeffrey of McCaulley, Jack Payne of Ira and Larry Taylor of Highland.

Blackwell won the district this year, but was defeated by Miles in the bi-district playoff.

Enterprise to Run Letters to Santa

The Enterprise will print Letters to Santa Claus again this year. They will run in the Christmas issue which will be printed Dec. 23, so that readers will have it on Christmas Eve.

It is expected that a large number of greeting ads will be run in next week's paper, also. For the first time, The Enterprise has a large number of small greeting ads suitable for families or individuals who would like to send greetings to their friends.

Business firms of the city will be contacted regarding publication of greeting ads, but individuals who wish to run one should come by The Enterprise office and make their selections.

Fitzhugh Awarded NATO Fellowship

Henry Allen Fitzhugh Jr., San Antonio, a grandson of Mr. and Mrs. F. S. Higginbotham of Bronte, has been awarded a NATO fellowship to study for one year at the University of Edinburgh in Scotland.

Fitzhugh is the son of Mr. and Mrs. H. A. Fitzhugh, who for-

merly lived at Bronte. The elder Mr. Fitzhugh was a vocational agriculture teacher here several years ago.

Fitzhugh's study while he is in Scotland will be in the field of genetics. He is a graduate of Texas A&M University and also holds a Ph.D. degree from A&M.

Fitzhugh studied last year on a scholarship which paid his expenses for research in Venezuela. He and his wife will leave next

August for Edinburgh, Mrs. Higginbotham said. The university there is world renowned for its place in the study of higher education and culture.

NATO scholarships are awarded only to holders of the Ph.D. degree, and covers many fields of study, which take the recipients all over the world.

Only two more games remain on the schedule before the holidays. The high school boys and girls teams will travel to Westbrook next Tuesday night. Games are scheduled to begin at 6:30.

Elmer Hurley Heads MOD

Elmer Hurley Bronte pharmacist, will serve as Coke County campaign director of the 1965 March of Dimes, Basil O'Connor, president of The National Foundation, announced today in New York.

Hurley will direct the volunteers throughout the county during the January campaign to raise funds to support the voluntary organization's attack on birth defects through a nationwide scientific research program, a network of 50 March of Dimes treatment centers throughout the country as well as a comprehensive public and professional information program.

In announcing the appointment, Mr. O'Connor said, "We are fortunate in having a man of Mr. Hurley's leadership abilities to direct his county's efforts against birth defects, which afflict one out of every ten American families. The problem constitutes a national emergency, because 250,000 children each year are born with mental or physical defects. These defective children cannot be considered isolated individuals. They are members of a family. Because a child has a handicap, the family frequently undergoes emotional, social and financial stress. It becomes a family with a handicap."

Hurley was reared in western Coke County and moved back here a couple of years ago to set up his pharmacy business. He graduated from Lubbock High School in 1942, served in the U.S. Navy in the Pacific for three years and attended the University of New Mexico for four years, graduating from its pharmacy school. He lived in Andrews for 12 years before moving back to Coke County. Mr. and Mrs. Hurley and their four children live in the southeast part of Bronte.

RL Dam Hearing Held in Austin

Hearing on the proposed dam at Robert Lee was resumed Wednesday after a stormy session Monday in Austin.

Persons from Robert Lee who attended the hearing say they feel that proponents of the proposition held their own with the opposition. Howard Brock, commissioner of precinct 2, and Jack Corley, commissioner of precinct 4, were among those attending the Monday hearing.

Opposition apparently has dwindled to residents of Mitchell County, who oppose moving the site from the south part of their county into Coke County, and to persons downstream, who say the Robert Lee dam would deprive them of needed water.

No report had been received at press time as to how the Wednesday session was going.

Most citizens of Bronte seem to be in favor of the dam being built on the Robert Lee site.

LETTERS TO THE EDITOR

Dear Friend:

I want you to know how much I personally appreciate your good work in helping President Johnson and the Democratic ticket in our tremendous election victory.

Thanks to the efforts of such leaders as you, our rural areas were proudly out front when the winning votes were counted. The President, I know, shares my great pride in the outstanding job that was done by those who worked so faithfully in the Rural Texans organization.

There's a new pine Christmas tree in your future—one that grows its own ornaments of decorative cones!

It won't be ready this Christmas, nor the next, but growers will get young trees for field testing in 1967.

Developed by scientists at USDA's Institute of Forest Genetics, Placerville, Calif., the new tree is a cross between the Sierra Nevada lodgepole pine and the shore pine. It grows fast—about six feet in four to five years—and develops into a full, many-branched tree with a conical shape and straight trunk.

Just as the tree reaches Christmas tree size, it develops decorative cones among the thick dark green foliage.

For a healthy, fire-resistant Christmas tree, keep your tree well watered.

A 6-foot tree may take up as much as a quart of water a day when it's first brought indoors. This water is needed to replace the moisture given off by the needles in the warm atmosphere of your home.

Also, the more moisture the needles give off, the more fragrant your tree.

It happens only once a year—the purchase of a poinsettia. That's why it's so hard to remember just what makes a good plant.

To jog your memory—or in case you never did know—the U. S. Department of Agriculture offers these pointers for choosing a long-lasting poinsettia.

◆ Select first for health and size. Choose a low, compact plant for a table centerpiece; large plants for a tub of color in the living area.

◆ Look for plants that have green foliage all the way to the soil line. This indicates a good root system, a disease-free plant, and one that has been properly fertilized.

◆ Select only plants with small green buttons in the middle of the red bracts. These buttons eventually develop into flowers. If the plant is already producing pollen, you'll know part of its useful life has already passed.

Pack them in popcorn.

One manufacturer of model car kits, who each year sponsors a model car contest, insisted this year that all entries be packed in popcorn. Few cars are damaged that way, he says. But more than 75 per cent of the cars packed in other materials arrive damaged.

At the end of the contest, the manufacturer always ships the cars back in popcorn. Last year the firm need 1,100 pounds of popcorn for the job. And they had trouble finding it—until they remembered Ringling Brothers Circus was in town.

Some of the cars were returned in salted, buttered popcorn; some even in cheese corn.

You probably won't be packaging any model cars, but maybe you've bought a fragile Christmas gift that needs special cushioning or plan to send a cake or cookies to someone away from home. Try packaging it in popcorn.

According to the U. S. Department of Agriculture, there's always plenty of popcorn. Produc-

tion averages 380,000,000 pounds a year—unpopped.

TIPS—Do NOT thaw commercially frozen STUFFED turkeys before cooking, warns the U. S. Department of Agriculture.

—An opened jar of peanut butter keeps best in the refrigerator, say food specialists at the U. S. Department of Agriculture.

—Allow 2 to 3 days to thaw a large, whole frozen turkey in the refrigerator.

If DISASTER Struck Our Town - HOW WELL WOULD YOU BE PROTECTED?

MOST SERIOUS COMPLAINTS ABOUT PAYMENT OF INSURANCE CLAIMS ARE MADE BY PEOPLE WHO HAVE NOT INSURED THEIR HOMES THRU LOCAL ESTABLISHED AGENTS... says Legislative Investigating Committee.

In its Official Report on loss adjustments made after Hurricane Carla, the Committee of the Texas House of Representatives gave full credit for responsible performance to those companies represented by independent agents! The committee went on to say that most serious complaints were made by witnesses who did not have the service of an insurance agent with whom they were personally acquainted.
