# Family income lagging here

Castro County's families averaged \$6,645 in income in 1969—almost \$2,000 below the statewide average.

Families here average 3.9 persons per household. Of the county's residents 16 and older, 83.8 percent of the men and 32.9 percent of the women were employed in the labor force in 1969. Less than half of the county's adults are high school graduates.

The two reports are "General Social and Economic Characteristics, Texas," and "Detailed Characteristics, 1970 Census of Housing, Texas."

**OF THE county's 10,394 residents**, 4.6 percent were foreign born and 11.4 percent were native born with one or both parents of foreign birth.

## Open air concert by 'Revolution' on tap Saturday

The youth of the First Baptist Church will present an open air concert by "The Revolution," a young religious musical group, at 8:30 Saturday night.

**THE CONCERT** will be in the Dimmitt High School football stadium, and is open to all ages.

"The Revolution" is a select group of about 20 young musicians of high school and college age from the First Southern Baptist Church of Del City, Okla.

Organizer and director is Aubrey McSwain, who was a professional entertainer before entering fulltime church-related work.

**"THE REVOLUTION'S"** music varies from Christian hard rock with psychedelic lighting to a more contemporary type of music. The young musicians have traveled throughout the United States and have been well received everywhere they've performed.

Among the employed workers in the county, 32.7 percent were holding white-collar jobs and 14½ percent were government workers.

**ABOUT 28.3 percent** of the married women with husband present were in the labor force, and 17.4 percent of these working wives had children under 6 years of age.

The county had 3,222 persons 3 to 34 years old enrolled in school in 1969. In the 25-and-older group, 44.6 percent of the men and 45.9 percent of the women are high school graduates.

The county had an average of 3.9 persons per housing unit at Census time.

tion was constant during the decade of the '60s, with 503 housing units built during 1960-64 and 524 within the five years preceding the April 1970 Census.

Utility gas was used to cook the meals in 1,550 households, electricity in 680, and bottled, LP or tank gas in 572.

There were 2,825 housing units with complete kitchen facilities and 3,004 with complete bathrooms, both for the exclusive use of the households. The

An 8-year-old Dimmitt girl was accidentally shot in the left hand Tuesday by her 11-year-old brother with a rifle they found in an alley, according to Police Chief W. W. Jones.

**JONES SAID** he received a call reporting a gunshot wound victim at Plains Memorial Hospital about 4:50 p.m. Tuesday.

At the hospital, the girl's mother, Ms. Martina Garcia, told Jones that her son had accidentally shot his sister, Linda, with an old 22 rifle the children had found in the alley by a trash barrel.

Jones said the clip in the rifle was missing but that it had a shell in the chamber.

"The bullet went completely through her hand and chipped a bone," Jones said.

**THE TWO NEW reports** are both now available from the US Government Printing Office, Washington, D.C., 20402. "General Social and Economic Characteristics, Texas," PC (1)-45C, costs \$6 per copy while "Detailed Characteristics, 1970 Census of Housing, Texas" HC(1)-B45, costs \$5.25 per copy. # Cyclists need to know state's new bike rules

By BECKY BERRYHILL

Adults, young people and children are taking to the streets this summer on bicycles large and small. Many adults have found biking is a fun exercise and the way to control weight. Of course, children have been biking for fun for years.

**BICYCLES whipping right** and left, popping from behind cars and nearly invisible at night. What's a car driver to do in the bicycle explosion? Or, for that matter what's another bike rider to do?

Both adults and children need to learn the new Texas bicycle laws and obey them. The laws were designed to make bicycling safer and more enjoyable for the biker. Under the new law, cyclists are subject to traffic tickets the same as the car or truck driver.

Bicycling can be dangerous if it isn't done right. What's right? **NEW BICYCLE laws** for Texas bikers are:

1. A person riding a bicycle shall not ride other than upon or astride a permanent and regular seat.
2. No bicycle shall be used to carry more persons at one time than the number for which it is designed or equipped. This law outlaws "pumping" unless the passenger sits on a regular passenger carrier seat. It also outlaws riders on handlebars or astride the bar on a boy's bike.
3. **NO PERSON** riding a bicycle shall attach the same or himself to any streetcar or ve-

hicle upon a roadway.

4. Every person riding a bicycle upon a roadway shall ride as near to the right side of the roadway as practicable, exercising due care when passing a standing vehicle or one proceeding in the same direction.

Riding on the left side against traffic, riding in the middle of the street or weaving in the street, are declared illegal by this law. Stunt riding should be saved for home driveways.

5. **PERSONS** riding bicycles upon a roadway shall not ride more than two abreast except on paths or parts of roadways set aside for the exclusive use of bicycles.

Because Dimmitt has no bike path, local bicycle riders cannot ride more than two side-by-side anywhere in town. It would be safer if biking groups

rode single file on the busier streets.

6. Where a usable path for bicycles has been provided adjacent to a roadway, bicycle riders shall use such paths and shall not use the roadway.

7. No person operating a bicycle shall carry any package, bundle or article which prevents the driver from keeping at least one hand upon the handlebars.

8. **EVERY bicycle** in use at nighttime shall be equipped with the following:

—A lamp on the front which shall emit a white light visible at a distance of at least 300 feet to the front.

—A red reflector on the rear of a type approved by the Department of Public Safety which shall be visible from all directions.

Riding on Left Side of Street . . . WRONG!

## Rabies clinic on tap Tuesday

The liveliest show in town Tuesday is likely to be the county-wide rabies clinic for pets, to be conducted from 1 to 3 p.m. in the Dimmitt Fire Station.

Rabies inoculation is mandatory for a city pet license, and distemper-hepatitis shots also will be available. Dr. Hill said. Cost is \$3 for the rabies shot and \$7.50 for the DH shot.

City officials also will be on hand to sell animal license tags during the clinic. Tag prices are 59 cents for an original license and 25 cents for a renewal.

about dimmitt and castro county by b. m. n.

I learned from a very reliable source, one of the several news gathering agencies, that President Nixon is laying plans to visit Japan. I believe that the release of classified secret papers divulged the information that he would take to the air sometime during August. There could be a problem for the producers of this new production. The problem will be in managing the take-off and landing so that they both will occur during prime time for television viewing. It could be that this was the information that the committee for the re-election of the president was searching for when they were caught ransacking the democratic national headquarters.

It is highly unlikely that any information they might pilfer from the democratic files would be of any benefit in the business of television prime time planning is concerned. A political party that arranges for the acceptance speech of its presidential nominee to occur at five o'clock in the morning just doesn't know too much about the habits of the tube viewing public.

It just could be that the democrats should make it easy for the republicans to steal their political secrets. If the republicans would put the pilfered information into practice it just might be the cause of their defeat in November.

It will be interesting to see where the president will land his whirlybird when he gets back from Japan. If there is a bamboo roof somewhere in the nation's capitol, he just might come up with another first.

**BISCHOFF COLLECTION**—Irma Salinas, library trainee, looks over part of the collection of more than 2,000 volumes donated to the Castro County Library by Mrs. Tomye Bischoff. Library workers and board members finished setting up shelves and moving the books into the temporary library building last week. Cataloging of the books will begin soon, Librarian Mary Edna Hendrix said. The technical books are all from the clinical library of the late Dr.

Harold Bischoff, and cover several specialized fields relating to medicine, surgery and electronics. Dr. Bischoff, who became internationally known for his research in medical electronics, died July 1 after practicing medicine here almost 20 years. The collection, when appraised by experts, is expected to make up a big portion of the county's obligation in stocking the new county library.

Sheffy's chatter

The far north is a magnet pulling some people in that direction.

I HEARD that Buck and Doris Word went first to Yellowstone Park on to Canada, then Alaska. They went by car or station wagon with bedding. And Bob and Bobbie Ruth Hill and children of Hart and her folks Jesse and Ruby Wooten went to Yellowstone Park and other scenic spots up there.

The Russel Morans and the Claude Forsons went west and north, first stop Albuquerque, visited a niece, then to Santa Fe where they visited Myrtle Lois's brother Robert Pearson and to see all the interesting places in the city, the new round state capitol, the governors place which is a museum place now and the rest of that. Then on to Taos and looked around. That town is an art center. Came back by Tres Ritos. Oh yes, they went on some of the mountain drives and Russel cooked steak tips and good food over a camp fire. Claude says they had very good food. They stopped at several other towns enroute home.

COMMUNICATION

Telephone lines spread across our nation, giving us immediate contact with loved ones, Vital business is rapidly contracted through this medium.

Our linkage to God is prayer. Through prayer we can express our love, our thanks, and seek God's help.

"Hearken unto the voice of my cry, my King, and my God: for unto thee will I pray."

Attend church, join others in fellowship and prayer to God.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

**JIMMIE CHAPMAN** (left) was rewarded for 20 years' service to boys' baseball when he was presented an appreciation plaque Monday night in pre-game ceremonies at the District 1 Little League Tournament here. Presenting the plaque was Oscar Wylie, Dimmitt Baseball Commission official. At right is umpire Bobby Murdock. The plaque was inscribed, "Jimmie Chapman, for 20 years' service as district, sectional and Southwest Tournament director of Pony League baseball, 1972," and was signed, "Dimmitt Baseball Fans." Chapman helped start the Pony League here, helped expand the Little League program and has worked with the American Legion baseball program. Although he retired as the three-state sectional director of Pony League baseball this year after a six-year stint, he continued as a league umpire. "The main thing we can give our kids is our time, and I've always enjoyed working with them," Chapman commented.

By WES ANTHONY  
The American people spent \$100 billion dollars for food in 1971.

THAT'S A lot of money, isn't it? But listen to this. \$68 billion of it was spent after the food left the farmers' hands.

Let's not accuse anyone of getting rich, for these products are handled by many thousands of people during processing and packaging, and each one of these people (or firms) are entitled to their fair share of the gross.

We require much more of our processed food than we did at one time.

Much of our food traveled across 200,000 miles of railroad, 2.3 million miles of highway and 26,000 miles of improved waterways. Packaging of food last year cost \$19 billion.

—Administration is inequitable. Different standards apply to different types of property. —There are too few professionally-trained assessors and many tax offices lack even the most fundamental tools such as tax map and appraisal cards on each parcel of property. Furthermore, there are far too many tax offices and districts. (Given an "impossible tax law" to administer, local officials do remarkably well, according to a Tax Policy Committee study.) —Personal property — Tangible and intangible — is particularly difficult to assess. Some states have given up attempting to tax all property, and recognize this fact in basic laws. —Taxpayers are at a marked disadvantage in redressing grievances over illegal or inequitable assessment in the courts.

### "ABOLISH BOARD"

Former State Insurance Board Chairman Larry Teaver says the best way to promote insurance regulation reform in Texas is by the drastic remedy of abolishing the board. Teaver was rejected for board membership by the state Senate, and apparently has returned to Gov. Preston Smith's staff. He told an interview panel that insurance industry influence cannot be removed from regulation without getting rid of the Board which he charged is industry-dominated. The former chairman suggested the present three-member Board should be made a nine-member, part-time citizen board or that an elected insurance commissioner be chosen to head the regulatory agency.

By BILL BOYKIN

Texas Press Association AUSTIN—Property tax reform may be one of the big issues before the 1972 session of the Texas Legislature. This is the prediction of Texas Research League in a newsletter analyzing the subject. The property tax, notes TRL, is the largest source of revenue for support of the government in Texas. Collections exceeded \$1.4 billion in 1970 and rose \$220 million between 1968 and 1970. Recent federal and state court decisions holding public school finance systems based on locally-imposed property taxes unconstitutional focused new attention on such taxation. The decisions stimulated interest of House and Senate committees on extensive reforms.

CRITICISM of the revenue source and proposals for reform may center on these factors as pointed up in the TRL study. —Administration is inequitable. Different standards apply to different types of property. —There are too few professionally-trained assessors and many tax offices lack even the most fundamental tools such as tax map and appraisal cards on each parcel of property. Furthermore, there are far too many tax offices and districts. (Given an "impossible tax law" to administer, local officials do remarkably well, according to a Tax Policy Committee study.) —Personal property — Tangible and intangible — is particularly difficult to assess. Some states have given up attempting to tax all property, and recognize this fact in basic laws. —Taxpayers are at a marked disadvantage in redressing grievances over illegal or inequitable assessment in the courts.

### DEER SEASON SET

White-tailed deer season opens Nov. 18 and lasts through Jan. 1 in most counties subject to regulatory authority of the Parks and Wildlife Department. Regular season in the Trans-Pecos is from Nov. 24-Dec. 10. In portions of Terrell and Pecos Counties, seven additional days have been added for whitetails only, with the season opening November 18 and continuing through Dec. 10. Opening date for all deer hunting in the Panhandle is Nov. 18, annual closing date is Dec. 3.

### COURTS SPEAK

The Court of Criminal Appeals held Texas judges can no longer deny bail in murder cases due to a US Supreme Court decision outlawing the death penalty. The State Supreme Court held cigarette vending machine companies must pay taxes on cigarettes they stockpiled just before a 1969 tax increase. The High Court upheld a \$4,400 judgement for a workman in Nacogdoches County who was injured by a falling tree limb's knocking him into a power saw.

### Southwestern Bell Telephone Company can build a parking lot in a residential area of Spring Valley, Harris County, the Supreme Court ruled.

A dispute over sale of Red Ball Motor Freight Inc. and advancing of nearly \$2.3 million to a new parent corporation will be heard by the Texas Supreme Court. A Nueces County man can recover for damages to his property from Hurricane Celia, though he was past due in payments on his insurance policy, the State Supreme Court held.

### CITRUS BLACKFLY THREATENS

Agriculture Commissioner John C. White warned that the citrus industry in the Rio Grande Valley may be wiped out unless the citrus blackfly is brought under control. White said the fight against the insect has been going on for more than a year, and that eradication measures are a nuisance to Brownsville area residents. Ground spraying of infested trees is necessary every two weeks. If not controlled, the fly can defoliate and kill a citrus tree within two years. The insect is now contained in trees in Brownsville. There have been only two outbreaks of the pest in the U.S., once in Texas in 1956 and once in Florida.

### GRANTS AWARDED

The Moody Foundation of Galveston recently approved almost \$2 million in grants for 26 worthy projects in 11 Texas communities. The 26 projects came from a total of 58 requests for funds totaling more than \$17.6 million. The foundation has awarded nearly \$3.7 million to 2 projects this year. During the last 11 years, the Moody Foundation has awarded more than \$8 million in grants to 450 agencies and institutions all over the state.

### GSPA Board sets meeting Friday

A full board meeting of the Grain Sorghum Producers Association will be held Friday at 1 p.m. in Amarillo.

THE BOARD will meet at the Pioneer Natural Gas Building in the Flame Room, 301 South Taylor St.

GSPA Executive Director Elbert Harp urged all GSPA directors, alternate directors and interested producers to attend the meeting. They will discuss proposed changes in the GSPA by-laws, and a minimum of two-thirds of the directors must be present to vote on these changes.

Harp said the association has grown in the past year to include members throughout Kansas, Nebraska, East and South Texas, as well as the original area of the High Plains of Texas, New Mexico and Oklahoma.

ALSO UNDER discussion at the meeting will be a farm program proposal that would base payments and loans to farmers on the cost of production plus a fair return. Harp said the board will explore some new uses for farm government programs for 1973 and thereafter.

The election of GSPA directors for the fiscal year that will begin Oct. 1, 1972, is now being conducted by mail ballot. Results of the election are expected to be completed by the meeting date, and the new directors for the fiscal year 1972-73 will be announced at the meeting.

Harp and Jack King, GSPA research director, are currently in Washington, D.C., working on several GSPA projects, including the farm program proposal and the shipment of grain to Russia.

### A Day of Reckoning

It is getting close to 30 years since the National Federation of Independent Business started surveying the attitudes of independent business people on various issues.

During this time a pronounced change has taken place.

For up until a very few years ago, the nation's independent business people were invariably behind any moves to raise the protective tariff walls, not to protect themselves, but to protect the jobs of American workers.

But today, this position has eroded substantially to the point where many independent business people feel that free trade is the best thing possible.

The reason for this change in attitude? There is an old saying that the Almighty helps those who help themselves.

It is perhaps best expressed by a Texas construction contractor who comments to the Federation, "I am very much in favor of including talks between unions and business with a stipulation that any increase in wages include an increase in production."

When Wilson Johnson, NFIB, met with other business leaders in a White House conference on controls, there was general agreement that a major cause of the unfavorable U. S. balance of trade is the low productivity of American industry.

Of course, government in another era, encouraged this result when it more or less strong-armed the auto makers to provide for automatic wage increases with increases in the cost of living index, rather than based on increased production.

But more and more, independent business people are taking the viewpoint that imports are good for the country because in time this condition will force American labor to become productive and thus compete for the home market.

However, the big danger involved in this course of action is that the nation will get past the point of no return and be immersed in a depression of monstrous size.

It would be far better if the younger elements in the labor movement stepped to the forefront, and preached the economic facts of life, telling workers the job they save may be their own.

And there is only one way in which this is going to be accomplished, and that is attaining a higher level of productivity and a higher degree of quality. Fortunately there is still time in America to accomplish this without going to "speed-ups" or sweatshop conditions, because there is the technical equipment in this country to achieve new levels of productivity. But machines can do little unless there are the men who are willing to make them perform.

### Highway Dept. offers program on new symbols

That new sign language on Texas streets and highways is the subject of a Texas Highway Dept. "course" in interpretation, ENTITLED "New Life Signs,"

the program is a 16-minute slide presentation designed for use by service organizations, schools and other groups. It interprets the new symbol signs going up along Texas highways.

The presentation, with audio tape of narration and music, is available from the highway department's District 4 office at Box 2708, Amarillo, 79105 (phone 355-5671), or from the District 5 office at Box 771, Lubbock, 79408 (744-8411). The Amarillo and Lubbock district offices also will supply additional information that might be used for a special program on highway development.

The highway department has initiated the new series of symbol signs to replace many of the present word message signs used on streets and highways throughout the state. In addition to providing uniform highway signing throughout the US, the new signs also conform to those used in most other countries to simplify travel despite

language differences. THIS NEW slide program was developed to familiarize the public with the new sign system. As a safety procedure, the highway department plans to use word messages with the new signs temporarily. When highway users become sufficiently familiar with the symbol signs, the word messages no longer will be used.

Now liquid **SEVIMOL** CARBARYL INSECTICIDE  
helps keep borers out of corn  
You can't keep profits up when Southwestern corn borers knock down your plants. Protect your crop with liquid SEVIMOL.  
Since last winter was mild, billions of Southwestern corn borers are getting ready to rip into unprotected crops. Once the larvae tunnel into stalks or girdle them, your plants lodge and your profits slump.  
That's why it pays to protect your crop with liquid SEVIMOL a proven mixture of molasses and SEVIN® carbaryl insecticide, recently labeled for use against Southwestern corn borer.  
Start checking your crop now because maximum hatch occurs between mid-July and mid-August. If 50 to 75 percent of your corn shows egg masses or young larvae anywhere on plants, apply SEVIMOL. Then make a second application in 7 to 10 days.  
SEVIMOL is used in low-volume applications. It gives you a heavy spray that falls fast and resists drifting. It spreads uniformly to leaf surfaces and "hangs in there" when other insecticides run off in rain or irrigation.  
This year, knock out Southwestern corn borers before they knock over your crop. SEVIMOL carbaryl insecticide also controls corn earworm, fall armyworm and certain other corn insects.

Farm Safety Week

Why are fatal accidents increasing on Texas farms?

Fires, drownings and machinery and tractor accidents continue to be the major sources of accidental deaths on Texas farms and ranches, according to the Texas Safety Association.

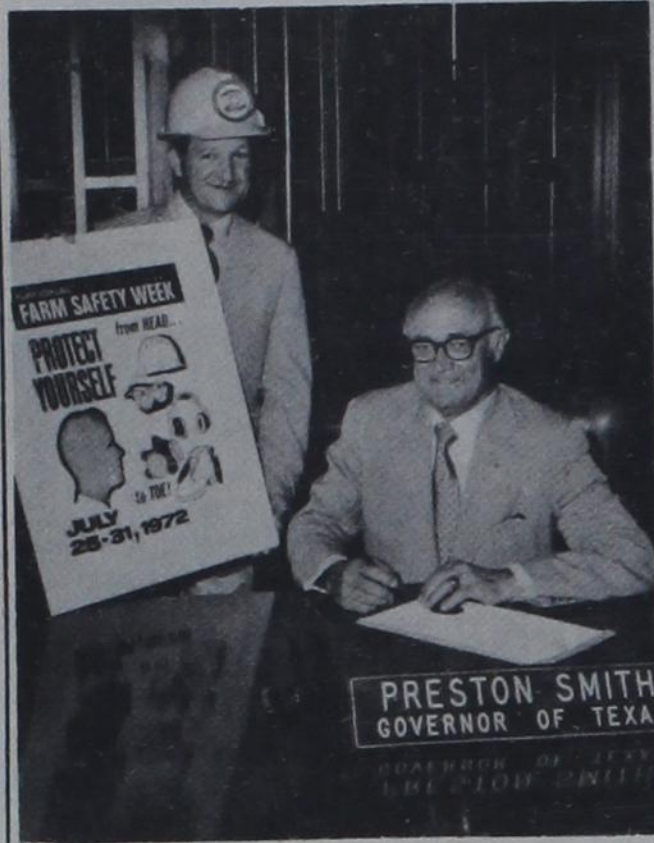

JOE L. SMETANA, vice-president for farm and ranch activities for the statewide safety group, discussing Texas Farm and Ranch Safety Week July 25-31, said that accidental deaths took the lives of 203 persons in 1971 in rural areas of the state.

"One of the most surprising factors in last year's accidental deaths is the large number of persons who were killed by fires, explosions and burns," said Smetana.

The TSA vice-president said 35 deaths were recorded which were a result of fires, explosions or burns. The safety group spokesman said the figures point up the need for farm and ranch families to provide adequate protection against the dangers of fire.

OTHER LEADING causes of accidental death last year on Texas farms and ranches included 29 drownings, 28 accidental shootings, 26 machinery accidents, 22 tractor accidents, 22 falls, and 17 accidents involving animals.

"These figures on accidental deaths in rural areas of the state during 1971 show a continuing upward trend of deaths in nearly every category," said Smetana.

ACCIDENT PREVENTION on the modern farm and ranch is the message that both Gov. Preston Smith and Texas Farm Bureau Queen Phyllis Shutt of Edna want to spread. Gov. Smith signs a proclamation designating July 25-31 as Farm and Ranch Safety Week in Texas, as Joe L. Smetana, vice-

president of farm and ranch activities, Texas Safety Association, exhibits a theme poster for the observance. Miss Shutt demonstrates the need for industrial type hard hats and roll-over protection of farm machinery.

The safety spokesman also turned his attention to the ages of the persons who are being killed in accidents on Texas farms and ranches. He revealed that four age groups have the highest number of accidental deaths. The largest number, according to Smetana, of accidental deaths occurred to persons between 10 to 19 years of age. Thirty-four persons were killed last year in that age group.

"ANOTHER of the apparent high-risk groups are persons between the ages of 60 to 69. Thirty persons in this age group lost their lives in farm and ranch accidents last year," said Smetana.

Twenty-eight persons between 50 and 59 years of age and 25 persons between 70 and 79 years of age lost their lives in accidents in 1971 on farms and ranches, according to the safety group spokesman.

"The great tragedy of these deaths is that none of them have to occur," said Smetana. "Every single one of the 203 persons who died accidentally on Texas farms and ranches last year could have been alive today if they had taken proper precautions, used personal protective equipment, or been prepared for emergencies," he said.

"TWENTY-TWO persons were killed in accidents involving tractors. Most of these accidents were incidents in which the tractor overturned and in which neither roll-over protection devices nor seat belts were in use. The use of these items could have prevented most, if not all, of these deaths," Smetana commented.

"Twenty-six persons lost their lives in accidents involving machinery. These too are classed as needlessly lost lives. In most cases the individual violated some basic safety rule regarding the machine and its operation. Persons responsible for the operation of farm machinery need to make sure that they are familiar with all the details of safe operation. Those who have employees on the farm who run machinery should insure that every person who operates the machine knows its dangers and how to operate it safely," said Smetana.

"Perhaps the greatest of the

tragedies are the drownings. Every farmer and rancher in this state should consider it a solemn duty to teach every member of his family how to swim as a first precaution against such an accident. In addition, flotation devices and other life-saving equipment should be kept near stock ponds, creeks, swimming holes and other places of water recreation on the farm or ranch. Dangerous water areas should be declared out of bounds and should be fenced off for adequate protection," said the TSA spokesman.

SMETANA also had the following suggestions for safer farm and ranch operations.

—Keep all guards and shields in place when operating machinery or power tools of any kind.

—Equip your tractor with a protective frame or crush resistant cab.

—Always fasten your safety belts when driving or riding. Insist that others do the same.

—BE PREPARED for emergencies such as fire, flood, blizzard, windstorm, sudden illness and injury. For information on emergency preparedness contact the extension service, civil defense, or other groups. Plan and practice ways of evacuating the house if fire strikes.

—Install fire extinguishers in buildings, on motor vehicles,

tractors, and self-propelled equipment.

—Applying pesticides and other agricultural chemicals, wear gloves and recommended protective clothing and chemical respirators.

—KEEP pesticides in a suitable storage area, inaccessible to small children and animals.

—Protect small children and others by covering tank openings, and fencing dangerous areas such as manure lagoons and farm ponds. Have flotation aids available at ponds.

—Check electrical wiring; use proper size fuses.

—Wear safety shoes, especially for repair and construction jobs, machinery operations and materials handling.

—PROTECT your eyes with glasses or goggles with safety lenses.

—Protect your head with an industrial type "hard" hat or "bump" cap.

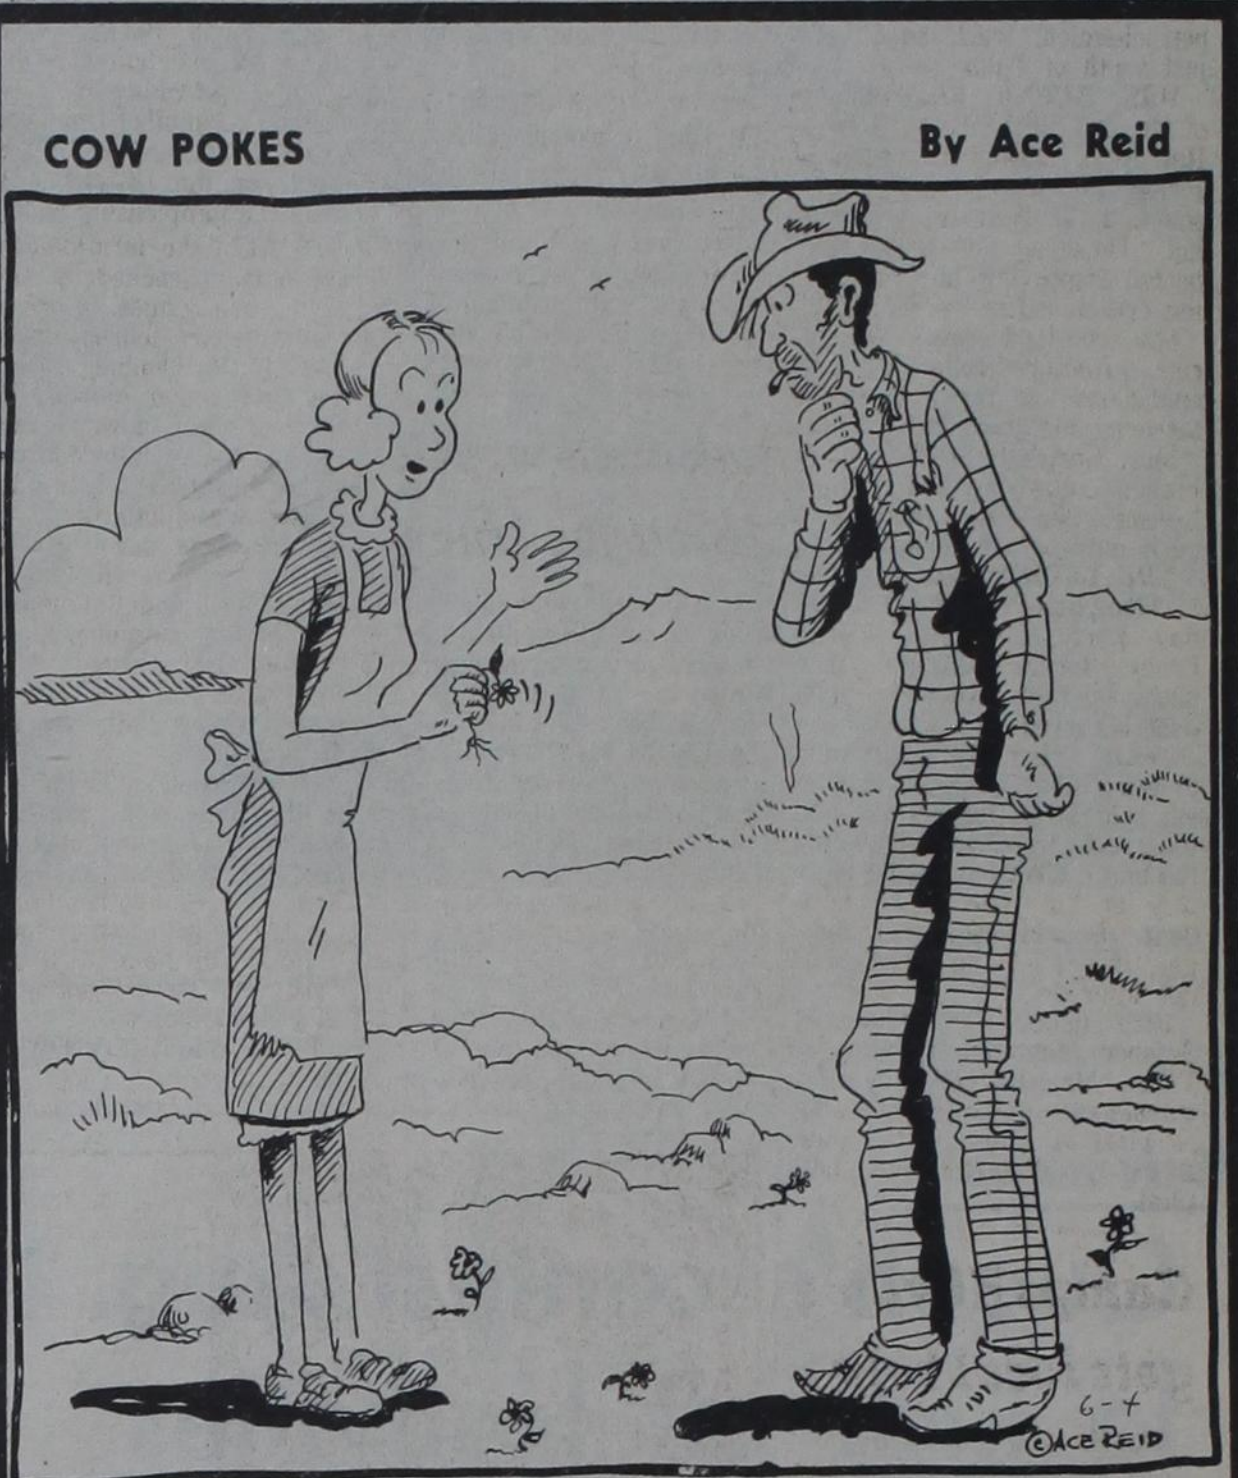

—Spare your hands on rough jobs with heavy-duty gloves. Wear rubber gloves when handling farm chemicals, petroleum products and other solvents. Use good hand lotions to prevent chapping.

"BY OBSERVING these safety and accident prevention protection rules the average farm and ranch family in Texas can avoid a serious injury or fatal accident," said Smetana.

"This week is Farm and Ranch Safety Week in Texas, as proclaimed by Gov. Preston Smith. But it will take more than just one week of activity to prevent last year's tragic record from growing again this year. Texas farm and ranch families must strive to put safety to work for them every day of the year," Smetana concluded.

WHEN science proves new truths, they remain truth despite the fact that some refuse to believe them.

THOSE who think they're too smart to be governed by the laws of their land are overestimating their smartness.

"Oh Jake, that one fourth inch rain we had early in the year wuz so great, just smell all these spring flowers!"

### Ladies injured in Tulia wreck

Mrs. Decimae Beene of Friona and Mrs. Lois Bartlett of Dimmitt were hospitalized Friday after their car collided with a petrochemical truck on US 87 just south of Tulia.

MRS. BEENE, 53, daughter of Mr. and Mrs. Edwin "Goose" Ramey of Dimmitt, received serious injuries and was unconscious until Wednesday morning. However, she is now reported improving after regaining consciousness.

She received seven broken ribs, a fractured collarbone, and contusions on the left hand, forehead and above her left eye.

Mrs. Bartlett, 81 received a broken collarbone and multiple bruises. She is now reported to be in satisfactory condition.

THE LADIES were en route to Memphis to attend a birthday party for Mrs. Myrtle Crabb, former Dimmitt telephone operator, when the accident occurred.

Texas Highway Patrolman James Gilbert, who investigated, said Mrs. Beene's car and the truck were both traveling the same direction on the highway at the time of the accident. Donald Overbay of Borger, driver of the truck, was not injured.

Both ladies were taken to Swisher Memorial Hospital in Tulia. Mrs. Bartlett was later transferred to Plains Memorial Hospital in Dimmitt, but Mrs. Beene is still in the Tulia hospital.

### Carver enlists in Air Force

Bill Hubert Carver, son of Mr. and Mrs. Joe Carver of Dimmitt, has enlisted in the US Air Force, according to Sgt. Ken Fortenberry, local Air Force recruiter.

Airman Carver attended Dimmitt High School prior to entry into the Air Force. He departed for Lackland AFB to undergo six weeks of basic training. The training includes courses in traditions and customs of the Air Force, its mission, field exercises and ceremonies.

### Lubbock wreck damages truck

A Whitfield Tank Lines, Inc. truck from Dimmitt, loaded with anhydrous ammonia, overturned on US 87 and Loop 289 near Lubbock Tuesday.

A SPOKESMAN at the local office said the driver, John Malivore, was hospitalized but had been released and was now at home.

He said it appeared the truck slipped off a curve going into the US 87 and Loop 289 cutoff and "just laid over." He also said damage to the truck appeared heavy, but that the insurance adjuster had not seen a dollar value on the damage yet.

## North Borger romps to title

The North Borger All-Stars combined six home runs and brilliant pitching by Raythan Cotton to smother the Randall County All-Stars 26-1 Tuesday night for the District 1 Little League championship here.

IN ALL, the formidable Borger barrage racked up 41 runs in its two games in the four-team district tourney at Dimmitt Little League Park. In the first round Monday night, North Borger downed Sunray, 15-2, while Randall County eliminated Memphis, 5-1, to advance to Tuesday night's finals.

Cotton was downright intimidating from the mound as he fanned 13 Randall County batters in the championship bout. Cotton also clouted Borger's first home run, a second-inning round tripper with one runner aboard.

George Bell followed Cotton to the plate and clouted Borger's second homer in a row to give the Redmen an 8-0 lead. Bell walloped another homer in the fourth with two runners on base and in the sixth Brad McCurdy and Greg Fleming clouted round-trippers.

RANDALL COUNTY used three pitchers. Terry Collins started and fanned two before

he was relieved in the third by Monte Harrison, who fanned six before a sixth-inning change brought in Ches Bostick. Bostick fanned two.

Dan Heard, Dimmitt Little League president and tournament director, presented the Borger All-Stars with an attractive, full-size pennant symbolizing their District 1 championship.

In the tournament opener Monday, Borger's Jim Ollis gave Sunray's batters the shakes as he fanned 11 to pace his team to a 15-2 win.

AFTER OLLIS retired three-up and three-down in the first frame, Bryan Foster clouted a bases-empty home run for Borger to climax an eight-run rally in the bottom of the inning. The Borger lads coasted to victory from that point while Sunray suffered a plague of errors.

In the second game of Monday's opening round, Randall County got home runs from Stan Crammer with two aboard in the first and Ches Bostick with one runner on in the fifth to gain a 5-1 victory over Memphis.

Randall County's Ty Pruett struck out eight batters and Memphis' Jesse Hernandez fanned six in a pitchers' duel.

2. Walk your bicycle across dangerous intersections.

3. Do not weave in and out of traffic or ride out from behind parked cars.

4. Move off the street to stop, park or make repairs to your bicycle.

5. DO NOT ride on streets where there is much traffic.

6. Avoid riding in bad weather.

7. Always obey all signs, signals and traffic laws.

RECENT VISITORS in the Washington office of Congressman George Mahon were (from left) Mrs. Sue DeVaney; Sandra Carpenter, daughter of Mr. and Mrs. Don Carpenter; and Tanya DeVaney, all of Dimmitt. The Lubbock congressman and his staff showed the Dimmitt visitors around the Capitol, and Mahon shared a bowl of the

House Restaurant's famous Bean Soup with them at lunch. Mrs. DeVaney and the girls also attended sessions of the US Senate and House of Representatives. They were in Washington to visit Mrs. DeVaney's parents-in-law, Mr. and Mrs. C. H. DeVaney. Mr. DeVaney is a Washington spokesman for the American Farm Bureau Federation.

### Camps Kiwanis gets local help

The Kiwanis Club of Dimmitt voted this week to sponsor two children at Camp Kiwanis in Lubbock this summer. Both of the young campers are students in the Dimmitt Satellite School.

THREE Dimmitt girls—Sherri Bruegel, Martha Bates and Rebecca Stanford—are putting in their second week as volunteer workers at the summer camp for retarded children.

Kiwanis President Wayne Lindley announced this week that the local club will donate an additional \$500 this month to help complete construction at Camp Kiwanis, which is located on the grounds of the Lubbock State School.

### Deputies attend Amarillo school

County Sheriff's Deputies Granville Martin and Charles Triplett attended Search and Seizure School in Amarillo Tuesday and Wednesday.

Instruction included investigation and preservation of evidence for burglaries, break-ins and other field investigations.

They will receive kits for the county patrol cars to aid in field investigations.

### Wrecks, stabbing cause busy week for local police

A two-car accident at the intersection of Halsell Street and US 385 about 11:30 p.m. Saturday heavily damaged both cars involved, according to Police Chief W. W. Jones.

JONES SAID Juan Ruiz of Hereford crossed the intersection and failed to yield the right of way to Jack B. Bohannon, also of Hereford, who was traveling north on 385.

Jones said Ruiz was charged with failure to yield the right of way through a stop sign and DWI. He was fined \$162, Jones said.

City officers also investigated an accident about 5 p.m. Thursday on Southwest Third near the First State Bank.

JONES SAID Ms. Daphne H. Montgomery of Dimmitt was backing out of the bank parking lot when the car driven by Ricky Douglas Oldfield ran into her car.

Jones said Oldfield told him he saw her backing up and tried to avoid the collision, but couldn't.

"No citations were issued, because it was raining and it wasn't clear exactly what led to the accident," Jones said.

JONES estimated the damage to the Oldfield car as between \$500 and \$600.

While officers were investigating the wreck Saturday night, they received another call from northeast Dimmitt reporting a knifing, Jones said.

"We took David Gil Jr., who had been stabbed in the leg, to Plains Memorial Hospital," Jones said.

Gil told officers that he had been standing outside a dance when he was stabbed. No charges have filed.

OFFICERS received another call about 4:30 a.m. Sunday reporting a prowler in the vicinity of Bedford and Seventh. Jones said a man was questioned, but that police were still investigating the incident.

**V.F.W. NEWS**

By GERALD BROADSTREET  
Greetings, Comrades

At our dance last Saturday night we had a real crowd-pleasing band, the "Wells Fargos." They were everything we had heard they were, and that good fiddle playing plus the steel guitar really dressed the music up. The attendance at our dance was real good and everyone seemed to be having a good time.

COMRADES, our District 13 convention will be here before you know it. Everything is still going according to plan and all phases of the planning seems to be fitting right in place. I hope most all of you have made plans to attend, and if you haven't, please do. Not only will you enjoy the convention, but you'll find it very informative. Remember, the date for this event will be Aug. 12 and 13.

Our department representative will be Senior Vice-Commander W. K. Huber, a hard-working and very congenial person. The entertainment committee has booked the "Wells Fargos," the group that played for us last Saturday, to play for the convention dance the night of Aug. 12.

We have some industrious members under the direction of painting contractor Red Hill. They have started the project of painting the trim on our post home and they should be finished, weather permitting, this weekend. Those helping Red were Larry Odom, John Roberts and Charles Wilkerson. Thanks a lot, men, it sure does look nice and we sure do appreciate it.

Keep in mind, people, we have Game Night activities every Wednesday night starting at 8:30 and we've been having some nice crowds, so if you want a good table, try to get there a little bit early. See you then, okay?

Church slates 'singing' Sunday

The Old-Fashioned Fifth Sunday Singing will be held in the Lee Street Baptist Church Sunday from 2 to 4 p.m.

Everyone is invited to attend and to bring a friend.

DO NOT bite at the bait of pleasure till you know there is no hook beneath it. — Thomas Jefferson.

**JAYCEE TAKE SEZ . . .**

At our meeting last Thursday at noon in the Colonial Inn, the Castro County Jaycees discussed further plans for the annual Jaycee Air Show, Roundup activities and the Miss Castro County Pageant.

THE AIR SHOW will be Sunday, Aug. 18, in conjunction with the annual Castro County Roundup. Truman Touchstone, who is chairman of the event, says everything is on schedule for the blast-off.

Avery Thrasher is in charge of arrangements or the float which the Jaycees will enter in the Roundup Parade Aug. 17.

Carl Lee Kemp, chairman of the Miss Castro County Pageant, has announced that the pageant will be held Saturday, Aug. 28.

The Jaycees would like to thank Dimmitt's new Ford dealer, Dale Fowler Ford, Inc., for donating a used car to the club. So long for now.

MRS. BILLY FRANK SANDERS  
... The former Suzan Gail Jones

## Formal vows read Saturday evening

Miss Suzan Gail Jones and Billy Frank Sanders exchanged wedding vows Saturday evening in the First United Methodist Church of Dimmitt.

**THE BRIDE** is the daughter of Mr. and Mrs. E. M. Jones of Dimmitt. Sanders is the son of Mr. and Mrs. M. L. Simpson Jr. of Dimmitt.

Given in marriage by her father, the bride wore a formal floor length wedding gown of Angelmist peau de soie and embroidered Alencon lace over bridal taffeta, designed with a high neckline, natural waist, long Camelot sleeves and full skirt. Inserts of lace enhanced the neckline, bodice, sleeves and skirt of the gown. The full back ended in a sweeping chapel-length train. Her veil of imported illusion was secured by a coil of matching lace. She carried a bouquet of white roses and pink feathered carnations.

The bride's sister, Sondra Jones, was maid of honor. Serving as bridesmaids were Sherry Jones of Canyon, sister-in-law of the bride; Cindy Calfin of Lubbock; Lisa Simpson of Dimmitt, sister of the groom; and Linda Malone of Dimmitt. Candlelighters were Sarita White and Jeanne Petty. Amy

DuBose of Dimmitt was flower girl.

**THE BRIDE'S** attendants wore formal length pink flocked long-sleeved dresses with matching hats and shoes. Their hats were made by the bride's grandmother and cousin. The attendants also carried small white lace umbrellas with pink carnations scattered over the tops.

The groom's brother, Joe Bob Sanders, was best man. Groomsmen were Brent and Brad Sanders and Mark L. Simpson, all brothers of the groom, and Roger Jones of Canyon, brother of the bride. Brian Smitherman of McLean was ring bearer. Ushers were David Harris of Tulia, Leon White of Follett and Gary Langford and Mark Cleavinger, both of Dimmitt.

Rev. H. Weldon McCormick of Midland officiated at the formal ceremony. The sanctuary was decorated with baskets of white gladioli and pink carnations and spiral candelabras. The aisles were accented with pink bows, greenery and votive candles.

**REV. MCCORMICK** sang "Twelfth of Never" and "We've Only Just Begun." Mrs. Marie Winders was organist. A reception honoring the couple was held in Lamar Fellowship Hall. The bride's table was covered with a white net over satin cloth and was centered with candelabras, two of the bridesmaids' umbrellas and the bride's bouquet. Punch was served from a lighted bubbling fountain. Ann Lust and Beverly Hill served cake and Diane Dyer registered guests.

Members of the houseparty were Mes. Ina Cleavinger, Joy Barker, Diane Halla, Carolyn Sides and Carolyn Andrews.

**THE BRIDE** wore a pink hot pants set and a corsage from her bouquet for a wedding trip to Six Flags Over Texas. After July 29, the couple will be at home at Rt. 1, Box 148, Canyon.

The bride graduated from Dimmitt High School and will attend Amarillo College this fall.

A graduate of DHS, the groom has attended Southwestern State College in Weatherford, Okla. and West Texas State University. He will also attend Amarillo College this fall.

## District dress revue coming up

By IRENE KEATING

We all had a good time at 4-H Leadership Electric Camp last week. Angie Wilhelm gave a demonstration on the microwave range to the 158 persons at camp and did an excellent job.

**MONDAY** is the District 4-H Dress Revue in Amarillo. Please come to the style show at 1:15 p.m. if you can. We'll be at the Quality Motel.

Patti and Carol Hochstein and

Leoria Welty will represent Castro County in the contest. Agnes Acker will serve as a hostess; we'll also have a boy escorting the senior girls as they model.

**THIS IS** definitely the canning season. We'll have a canning workshop on August 8th so make your plans to attend. You'll get more details later.

Next week I'll be in Dallas attending the state meeting of our County Home Demonstration

Agents Association. We are running an agent for president-elect and we plan to get in a lot of campaigning—there are two others running also. There will be several good tours that I'm looking forward to taking. I'll tell you about that when I return.

**LET'S ALL** make our plans to participate in Roundup Week in August and make floats, etc. I hope this will be the best

Roundup Week ever.

The 4-H Junior Leaders Club will be having a beer can and bottle drive on August 6th. They did this in June and collected several pick-up loads in just a few hours. This is a good contribution to our community and they enjoy doing it.

'I CAN'T BLOW THIS BULB OUT—CAN YOU HELP ME?'  
... Khiva Clowns entertain nursing home residents Sunday

'THEN YOU TWIST IT LIKE THIS ...'  
... Clowns make balloon puppies

### Clowns cheer patients Sunday

What could be more cheering for a patient in a hospital or nursing home than a Sunday afternoon visit by half a dozen gaily dressed clowns?

That was the treat which patients in the Golden Spread Nursing Home and Plains Memorial Hospital enjoyed Sunday when members of the Khiva Clowns popped in for a laughter-filled visit.

The clowns are all Shriners, members of the Amarillo Khiva Temple, and are area businessmen and farmers. But as clowns, they're as good as most professionals you'll ever see.

You'd never guess any of the clowns' real identities after they've put on their colorful costumes and makeup. But two of the six who toured the hospital and nursing home Sunday were Castro County men—R. J. Murray and Jack Dyer of Hart.

Other members of the wild clown party were Warren "Windy" Kerndon, Clay Willis and Curtis "Country" Downs, all of Amarillo, and Bill "Dusty" Mayfield of Canyon. Willis is president of the Shriners' clown unit.

Accompanying the clowns on their rounds was Al Whitaker, past potentate of the Amarillo Khiva Temple who was the first president of the Khiva Clown Unit when it was organized back in 1956.

The clowns obviously have a lot of fun from their hobby of bringing cheer to others. They

give up their Sunday afternoons—and a lot of other time, too—to don their costumes, go through an hour's makeup session and drive around the countryside to make others happier. They also perform regularly at special events, parades (some of them will be in the Hart Day and Roundup Parades next month), and annually in the Shriners' Circus in Amarillo.

"Want to smell my flower?" asked the clown with a large plastic flower on one lapel and a full-size faucet coming out of the other. Nearby, a buddy was hypnotizing a rope.

All of the clowns have been to balloon-tying school—wherever that is. For every patient, they blew up long, thin balloons, then proceeded to twist them expertly in every way imaginable into all kinds of toy animals—dogs, jackrabbits, bighorn rams.

All these gimmicks—plus a big trunkful of magic tricks and jokes—brought a fresh ray of sunshine into the lives of local patients.

And the best part of it is that the clowns plan to make it a regular happening in Dimmitt—the fourth Sunday of every month.

RUMORS are often an effort by one person to destroy the popularity of another.

THERE is always time for one more good joke.

### The view from your library

By **MARY EDNA HENDRIX**

The Summer Reading Program is nearly over. The contest ends on Saturday, Aug. 5, and the party, sponsored by the Friends of the Library, will be held at the community room at the First State Bank Wednesday, Aug. 9 at 9:30 a.m. The children need to read at least 12 books each in order to attend the party and receive a certificate. The fast readers would still have time to read 12 books before the contest closes.

**LYNN KING**, Irma Salinas, Lupe Quinonez, Maria Leal and I worked for several days moving the book collection that Mrs. Tommie Bischoff donated to the library. Robert and his helpers did most of the heavy work, for which we are grateful. The girls have all the books on the shelves that Jack Miller built for us—now the next big job is cataloging these books!

**INTERESTING** people in the library: George Bagwell, who is interested in woodworking, returned his book on that subject. He is also interested in old plows...

Louise Kemp passed by and I insisted that she come in the library and look around. We enjoyed her visit and I think she enjoyed visiting with us... Mark Smith, grandson of the W. E. Kirkpatrick, has been in the library several times while he is here visiting...

We were glad to see Joey Cowen when he came by the clinic while we were moving Dr. Bischoff's collection of books.

More donating books last week: Mrs. Fred Bruegel Jr. and Natalie Cline. Also, Genell Craig gave a book of poems, "Shattered Dreams," by James Thompson, in memory of her parents, Viola and Raymon Preston. I would like to share one of the poems from this book.

**ANGUISHED DISGUISE**  
The face that I let folks see Is not the one that's really me It's just a means I use to hide The real me is deep inside. The smile that's seen on my face

Is nearly always out of place For I've learned throughout the years A smile is best to hide your tears.

Though I may seem serene and calm I'm desperately searching for a balm To hide the fears there in my heart Threatening to tear my life apart.

No matter how calm my voice may seem I'm trying hard not to scream Out in anguish at the life I lead

And searching hard for the peace I need. I know of love I have my share Still I live in a world of care I cannot tell just how I feel But the me you see just isn't real.

There will be bridge Friday at 9 a.m. at the Castro County Country Club. The lesson presented this week will be an advanced lesson "Overcall." All who are interested are invited to come.
