Hootenanny to Finance Street Signs for Bronte

There will be lots of good entertainment Saturday night in the Bronte school auditorium when the Scosis Study Club will sponsor a Hootenanny. A large number of local, as well as out of town, entertainers will be on hand for the program as a fund raising project to raise money to purchase street signs for the City of Bronte. The women plan to buy more than 100 of the street signs which they feel will be sufficient to mark enough streets so anyone can be directed over town by using the names of the streets.

In addition to the program, the club will serve coffee, cold drinks, cake and pie in the lunchroom all during the entertainment. Those attending the event may come and go as they wish between the auditorium and the lunchroom. The Diversity Club will assist them in operating the concession.

Some of the talent lined up for the program includes:

Tiajuana Rejects, an eight man band from Roscoe, with lots of brass.

The Purples, a few girls and a boy in a modern singing group

Masons-Lions Dinner Cancelled

The annual dinner sponsored each year by the Lions and Masons of Bronte during Public Schools Week has been cancelled for this year. The dinner meeting was planned for Tuesday night, but that is the date for the regional basketball game between the Longhorns and Mertzon Hornets.

Since no special observance is planned, Supt. C. B. Barbee said all school patrons and friends are invited to visit the school any time next week. Parents will be welcome to visit their children's rooms or any other part of the school, he said.

CURRY MOTOR FREIGHT TO START HERE MONDAY

A new freight line will begin service here Monday, it was announced this week. Curry Motor Freight Lines, Inc., with headquarters in Amarillo, will begin Monday with five-day a week service.

Jim Miller of San Angelo, sales representative for Curry, made the announcement. He said present plans call for a truck to make a route from San Angelo to Robert Lee, thence on to Bronte and Ballinger, then returning to San Angelo.

of the match will represent Districts 11-B and 12-B at the Class B regional tournament to be held March 6 and 7 at South Plains College in Levelland. The game with the Hornets will be held in San Angelo Coliseum at 7:30 p.m.

Coach James M. (Sticky) Raughton said Thursday morning that his team is going to San Angelo Tuesday night with every intention of winning the game. The only sad note in his voice was when he mentioned a defeat handed the Horns in a practice game last Friday night with Old Glory. The 60-58 loss broke a 14-game winning streak for the Longhorns.

Last Week's Results

High pointer in the game with Old Glory was Keith McCutchen who had 17. Willie Zuniga was right behind him with 16, Randy Barbee had 10, David Scott 6 Gary Skelton 5, and Donnie Thompson 4.

Another practice game Tuesday night saw the Longhorns put it on May, 96-69. Coach Raughton said the 96 points were the most ever scored in one game in the new gym. Heading the pack in this game was Barbee with a big 29. McCutchen had a respectable 25, Zuniga sank 23, Scott 7, Danny Cooper and Mike Arrott 4 each, Bobby Skelton and Lynn Lawhon 2 each.

To Play Talpa

The Longhorns have a practice game with Talpa Friday night in the local gym. Game time will be 7 p.m.

Caperton Chevrolet Co. is displaying the new 1970 Camaro Thursday, and everyone in the area is invited to come by and see the new sports cars.

According to information released this week by Capertons, owners of the local Chevrolet Agency, "Innovations in design and engineering make the new Camara different from any car now offered."

AUSTIN, Tex. — Homeowners throughout Texas apparently are in for a substantial increase in their insurance payments.

State Insurance Board's staff has recommended these average hikes:

- *Statewide extended coverage, 3.9 per cent.
*Fire insurance, 1.7 per cent.
*“Homesteaders” policies, 18 per cent.

Recommendations were made as the insurance board held its annual hearing preparatory to promulgating new rates and possibly some new changes in its rules concerning these forms of insurance.

Board will set new rates around the end of next month, making the effective date early July.

Rates will vary according to location, building use and construction.

Another jolt would be Texas Insurance Advisory Association's recommendation of mandatory \$250 deductibles statewide on all windstorm, hurricane and hail coverage.

TIAA further suggested one-year optional "Homeowners" policies be permitted. Present policies now run for three years.

DRINKS LAW TO BE ENFORCED — Texas Alcoholic Beverage Commission served notice it still intends to enforce the law against sale of liquor by the drink despite the court's invalidating its private club "guest" rule.

Case involving the rule is on appeal to the State Supreme Court. Meanwhile ABC said club owners are mistaken in interpreting the Court of Civil Appeals' decision as giving them the go-ahead for mixed-drink sales to walk-in-guests.

BUSING REFERENDUM CONSIDERED — Gov. Preston Smith asked the State Executive Democratic Executive Committee to consider putting the question of school busing to achieve racial balance on the May 2 Democratic primary ballot as a referendum issue.

While not stating his own position, Smith argued that Texas voters should have a chance to express their opinions. He noted that the problem is "a federal and local issue," and called on federal officials to "assist us at the state and local level to upgrade our neighborhoods and our schools."

Meanwhile, the busing issue came in for attention from Democratic Senatorial candidate Lloyd Bentsen, who called compulsory busing "the most disruptive threat facing public education in America."

Smith sent a telegram to Sen. John Tower in Washington, urging him to "use your influence with the Republican administration" to obtain "more realistic, impartial and reasonable" treatment of Texas school districts by the Department of Health, Education and Welfare.

COURTS SPEAK — Court of Criminal Appeals upheld the new state anti-riot law which permits prosecution of a participant in a disturbance even though there is no evidence he committed acts of destruction.

Supreme Court backed the San Antonio Court of Civil Appeals in ruling that a juvenile can be sentenced for as much as five years in a reformatory for an act punishable by no more than a year in prison if committed by an adult.

CRIME INCREASING — Major crime in Texas increased 15.9 per cent last year — to a rate of one major crime every one and a quarter minutes — Department of Public Safety Wilson E. Speir reports.

Statistics show 432,251 major criminal offenses in Texas during 1969 as compared to 372,912 in 1968. Of the total, 389,969 occurred in urban areas and 42,282 in rural sections. Murder and homicide rate was up 1.5 per cent, rape up 33.2 per cent, robbery 53.1 per cent, burglary 17.1 per cent, aggravated assault 22.7 per cent, theft 12.5 per cent and auto theft 22.8 per cent.

HALL APPEALS ELECTION RULING — Frustrated in his State Supreme Court effort to get on the Democratic ballot as a candidate for governor, Sen. Ralph Hall of Rockwall went to Washington to try to get an appeal before the U. S. Supreme Court.

State Court ruled that the constitutional provision on prohibiting a lawmaker from holding an office for which the pay was raised during his elective term makes Hall ineligible. Governor's pay was raised last year. Hall's senate term runs until 1973. He claims the provision was not intended to apply to the governor's office and discriminates against 15 senators.

Hall hopes to get before the U. S. top court on the contention that the restriction violates due process and equal protection under the law guaranteed by the federal constitution.

Mrs. Mary Lasswell was dismissed from West Coke County Hospital in Robert Lee Monday after being a medical patient for several days.

Tennyson Wreck Damages Car

A one car accident occurred last Thursday three miles north of Tennyson, and heavily damaged the auto but apparently did not injure the lone occupant of the car. The accident occurred just before noon.

Cornelie Y. Shockley of San Angelo was the driver of the white 1963 Chevrolet sedan involved in the accident. Highway Patrolman Bobby Hart said the driver apparently fell asleep and lost control of the car.

The car went off the road on the left side where the left rear fender caught a highway sign. Then the auto came back onto the road and off onto the right side and went through a fence belonging to Buck James.

Mrs. Shockley was taken to Clinic Hospital in San Angelo by another motorist, Roy Davis.

Patrolman Hart investigated the accident and said the car was a total wreck and damage to the fence was estimated at \$50.

Fireman Training Course Planned

COLLEGE STATION — Texas A&M University will conduct a five-week firemen training school on basic fire-fighting techniques in Tom Green, Sterling, Runnels, Concho and Coke Counties during March and April.

Instructor Ralph R. Sneed of the Texas Firemen Training School at Texas A&M will be in this area Thursday and Friday to organize the classes, which begin Monday.

Fire departments from San Angelo, Wall, Eden, Ballinger, Bronte, Robert Lee, Sterling City, Miles, Carlsbad and surrounding areas will participate in the training programs, Sneed noted.

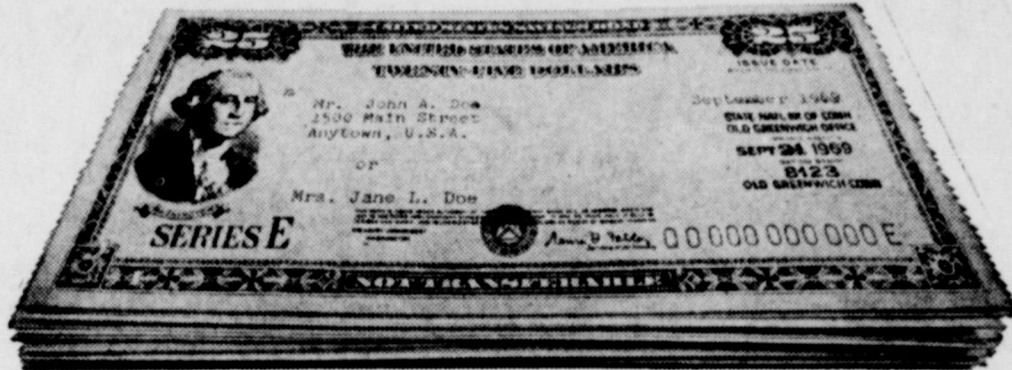

"We expect most of the men from each department to attend the courses," Sneed pointed out.

Training will include equipment operation and maintenance, basic fire attacks, placement of lines, manpower use and equipment utilization.

The school was requested by several fire departments but is open to any firemen in the area, Sneed stressed.

A&M's seven-man training staff operates under the Texas Engineering Extension Service and offers on-campus and extension courses throughout the year.

Now all your U.S. Savings Bonds pay higher interest.

Now it's official.

Now one of the safest investments in the world brings you new and higher returns.

Now your U.S. Savings Bonds pay the highest interest in history: a full 5 per cent when held to maturity of 5 years and 10 months. (4% the first year; 5.20% thereafter to maturity.) Previously, these Bonds earned you only 4 1/4% if you held them for seven years.

The new interest began June 1, 1969. So all of the Bonds you own, no matter when you bought them, have been collecting higher interest since that time.

Those Bonds are still replaced if lost, stolen or burned.

You can still buy them through Payroll Savings or the Bond-a-Month

plan.

Regardless of your other investments, can you think of any easier, better, or safer way to build a nest egg for yourself?

It's nice to know that you are doing a little something for Uncle Sam, too. The \$52 billion in U.S. Savings Bonds now outstanding in the hands of millions of Americans go a long way toward keeping your country financially strong.

There never was a better time to take stock in America.

There's a man at the place where you work who can start you on the Payroll Savings Plan right now.

Bonds are safe. If lost, stolen, or destroyed, we replace them. When needed, they can be cashed at your bank. Tax may be deferred until redemption. And always remember, Bonds are a proud way to save.

Take stock in America.

With higher paying U.S. Savings Bonds.

DO YOU NEED A SAFETY LOCK BOX?

We have a number of safety lock boxes you can own without any monthly or annual rental. Simply pay the net cost of the box and it's yours to use for 30 days or 30 years. When not further needed, return the keys and we will refund the entire cost. You won't be out anything for its use.

Special Care

Are you conscious of what fibers make up the clothes you buy? Did you know that a garment which needs special care may not be worth it?

Some garments consist of fibers which change drastically under normal cleaning processes. One such fiber is vinyon, a heat sensitive fiber which will stiffen and shrink when exposed to even moderate heat.

Garments containing vinyon must be cleaned in a special "cold" process. Before you buy, decide if the excess trouble caused by the special cleaning process is worth the garment.

Remember, to find a real bargain, examine the clothing care and content label. If the garment

isn't tagged or labeled for fiber content or care, you are taking a chance in buying it.

Substitutes

Don't jump to conclusions about foods you buy.

A prime example today is non-dairy cream substitutes and whipped toppings. Don't assume they are lower in saturated fats than their dairy counterparts.

The products don't make this claim and it is not true.

A study of 14 cream substitutes by a Harvard University scientist revealed that substitutes have up to 20 per cent more saturated fatty acids than the dairy creams they replace.

Many of them are made with highly saturated coconut oil.

The dairy substitutes are not necessarily lower in calories, either.

Home Economics Tips

Have you noticed some food can are white on the inside? Researchers have found that some kinds of foods, especially those that are highly colored in the natural state, will keep their attractive appearance better if they are canned in enamel-lined cans. This enamel lining has no effect on the food.

Hand wash Fiberglas curtains in warm water with any mild soap or detergent. Just swish them around in the water and rinse thorough in clear, warm water but don't wring or twist. Do not use bleach. Drip dry and hang curtains over a shower rod or a line padded with towels; then rehang them while they are still damp.

Preparing Chickens

Here are guidelines on preparation for various kinds of chickens:

Rock Cornish: The smallest, youngest member of the chicken family, suitable for roasting (especially with a rice stuffing), baking, broiling or frying. Usually weigh 1½ pounds or less;

many serve an individual bird to each diner.

Broiler-Fryer: The all-purpose chicken, a young meaty bird (about 9 weeks old) that weighs 1½ to 3½ pounds. Don't be deceived by its name, it may also be roasted, simmered or sauteed, for chicken dishes with moist succulent meat.

Roaster: A little older and larger than the broiler-fryer, weighs 3½ to 5 pounds, is about 12 weeks old, and has tender meat.

Capon: A larger bird, weighing 4 to 7 pounds, with a fine flavor and a generous quantity of white meat.

Fondues

Different types of fondue pots fit different kinds of fondues. Metal pots usually are used for beef fondue but can be used for cheese fondue if the temperature is kept low enough so cheese will not stick or burn. Earthenware pots should be used for cheese or chocolate fondue only. Earthenware can withstand temperatures required for these but it tends to crack under higher temperatures used for meat.

If you dry your clothes in an electric dryer, you'll pay as much as 5c a load, in most places.

If you dry your clothes in a gas dryer, you'll pay only about a penny a load.

New Camaro. Feb. 26th.

We've never announced a car at this time before.
But then nobody's ever announced a car like this before.

Super Hugger

If it were an ordinary sportster, we'd have introduced it at the ordinary time.

Instead, we took the time to build a whole new Camaro.

We started with a sleek new shape and a low road-hugging stance.

And added more hood. A faster fastback. Wider doors. And new deeply contoured bucket seats.

The instrument panel wraps around you. With enough dials to make you think you're piloting a 747.

There are four transmissions. And six power plants up to the Turbo-Jet 396 V8 that you can order.

Pick the one that best suits your driving. Then go pick on an open road.

And make it one with plenty of twisting turns. Because Camaro has a remarkable new suspension. And standard front disc brakes for a leech-like grip on the road.

New Camaro. The Super Hugger.

Other sportsters always feared it might come to this.

And they were right. Only their timing was wrong.

Putting you first, keeps us first.

See it. At your

The peach twig borer may cause serious damage to peaches and plums if control measures are not carried out. Early generations of the peach twig borer larvae tunnel into twigs and buds resulting in growth stoppage or twig death. Later generations feed on the fruit either penetrating to the pits or hollowing out areas beneath the skin.

The overwintered larvae become active in early March as the buds swell and begin to open.

Three complete generations follow the overwintered generation. Larvae begin to attack fruit as soon as it passes the pit-hardening stage and continue to damage fruit throughout the season.

Control measures applied at the pink bud, petal fall, and shuck-split stages are adequate for control of overwintered peach twig borers. Good initial control can be obtained using only the petal and shuck-split applications. However, it is usually best to make all three applications.

Succeeding applications are required to control later generations of this pest. Commercial growers should apply three cover sprays following the shuck-split application, at intervals of 10 to 14, 14 to 21, and 21 to 25 days. For small orchards, only the first and second cover sprays will be needed.

The above spray schedule will control most of the in-season insect pests of peaches and plums.

Further information on the peach twig borer and other pests of peaches is available in L-245, "Texas Guide for Controlling Insects and Disease on Fruits and Nuts", which is available at the County Agricultural Agent's office.

Slow Drizzle Gives Needed Surface Moisture to Area

Slow drizzling rain the first of this week has added up to about 1.25 inches of moisture over the entire county and area. The wet weather started last Friday when a front moved into this part of West Texas. Some small snow flurries occurred Friday afternoon.

The wet drizzle fell during the weekend and continued through Tuesday. Wednesday morning was still cloudy, but by early morning, the sun was shining and skies were clear.

Farmer and ranchers were glad to see the moisture, as it will provide the surface moisture needed by small grains and pastures. County Agent Sterling Lindsey reported that the deep moisture supply in the county is fairly good, and the rain this week will help a great deal to provide the surface moisture needed.
