Bronte Schools will open for the 1971-72 term next Monday morning at 8:10 a.m. Teachers have been in workshops during this week and other workers have been busy getting the plant ready for business next Monday. Supt. C. B. Barbee said that an increase in enrollment is expected.

Buses will run and the lunchroom will be open for a regular schedule on the opening day. Lunchroom prices this year will be 40 cents for all students, with 5 cents for any extra milk.

The lunchroom program will provide free lunches or pay part of the expense for students who need financial assistance. The school has sent out letters to parents explaining details of the program.

Reserved Seat Sale Starts Aug. 30

Reserved seats for the Bronte Longhorn football games will go on sale Monday, Aug. 30, in the office of Supt. C. B. Barbee. He said they will be sold for \$9.00 on a "first come-first served" basis and that no previous commitments can be honored. Reason for this is that the seats, directly in the center of the stands in front of the press box have been repainted, renumbered and widened. There will be only 102 reserved seats this fall.

Barbee said that persons reserving seats this season will, however, have future priority on the seats. He also said that no seats may be reserved after the season opens Sept. 10.

He said the \$9.00 is the same price as single admission tickets, which will be \$1.50 per game.

Henry, vocational agriculture; Lynda Thornton, commercial-English; Wayne King, science; Marifrances Mackey, Spanish-English; Gerald Sandusky, social studies-P.E.; Bob Shields, social studies-P. E.; Zula Sweeten, English-P. E.; Louis Thornton, band director-music; and James M. Golson, high school principal.

Mmes. Mackey, Turnbow and Taylor are new members of the faculty. Mrs. Mackey is a graduate of Angelo State University; Mrs. Turnbow of Hardin-Simmons University; and Mrs. Thornton of Abilene Christian College.

High School Principal James Golson said that grades seven through 12 will meet at 8:10 a.m. Monday in the school auditorium.

Band Practice

Band practice got underway last Monday under direction of Louis Thornton and a band parents meeting is scheduled for next Monday night. Band music has filled the air around town this week as the band moved through the streets practicing their marching and playing.

Longhorns Start Daily Workouts

Football workouts began last Monday with Coaches Gerald Sandusky and Bob Shields in charge. They have about 18 boys reporting for practice each day. Workouts were held in the mornings the first of the week, but were set up for the afternoons Wednesday, Thursday and Friday.

The coaches didn't make any big promises, as they have only five seniors, three juniors and two sophomores and seven freshmen on which to build a team.

A pre-season scrimmage has been slated for Sept. 4 with Gorman at Coleman. It will begin at 6 p.m. Sandusky said they are trying to line up another scrimmage for Aug. 27 or 28.

Football season will open Friday, Sept. 10. The schedule is as follows:

- Sept. 10: Forsan, here
- Sept. 17: Robert Lee, here
- Sept. 24: Roby, there
- Oct. 1: Eden, there
- Oct. 7 (Thurs.) Lake View Junior Varsity, here
- Oct. 15: Rule, here
- *Oct. 22: Hawley, there

Nov. 5: Wall, here

*Nov. 12: Jim Ned, here.

*—District games

Games through Oct. 15 will begin at 8 p.m. and the remaining ones will kick off at 7:30 p.m. The Nov. 5 game with Wall will be homecoming.

BAND PARENTS TO MEET

A Band Parents meeting has been called for next Monday night, Aug. 23, in the Band Hall. The meeting will begin at 7 p.m. and all parents and friends of the band are urged to attend.

AD-LIB-BEN

It's that time of year again—time for school, football and all that goes with it. We are proud of Bronte Schools and its employees and publicly want to thank them for their cooperation with us over the years.

In talking with Superintendent Barbee this week, he said that teachers here have no official information of what the wage-price freeze will do to proposed salary raises, etc. He expects that information to come to them from the Texas Education Agency, currently looking into the situation. He also said there has been quite a bit of speculation going on among school employees, but nothing official.

It's also that time of year again when Doug McCutchen and Davis Corley start putting Bronte back on the map. We are reprinting below an Associated Press story that appeared Sunday in most of the major newspapers around the state. We have received copies from Fort Worth, Dallas, Abilene, San Angelo, Austin and Big Spring, and we are sure there were many others that carried the story.

We're proud of these boys, too, and they are just about the best publicity this town has ever had. Sportswriters seem to have a heyday with the 999 population, so we won't mess up their fun by pointing out that that figure is now obsolete, since the 1970 census. The article:

Drop by Nutter Cafe and be prepared to talk Red Raider football because two sons of Bronte—Doug McCutchen and Davis Corley—are putting the town on the map at Texas Tech and in the Southwest Conference.

Located in the rolling, mesquite dotted ranch country between Abilene and San Angelo and sporting a population of 999, Bronte spawned the SWC's leading rusher of 1970 in McCutchen plus Corley, who is slated to start at defensive tackle this fall.

The town is justifiably proud of McCutchen and Corley, two stars on the 1967 Bronte team that chalked up an 11-0 record and a Class B regional championship while sometimes draw-

Wrinkle Opens RL Store

A big formal opening is planned Friday and Saturday for the new Western Auto Store in Robert Lee. A grand opening sale is planned. There will be free prizes and refreshments for everyone who attends plus two big drawings for door prizes.

Everyone is invited to come in and register for the door prizes and no purchase is necessary to register. First prize will be a man size 3-way rocker-recliner, that reclines, tilts or rocks. Second prize will be the Western Flyer's Rough 'n' Ready Buzz bicycle.

In addition to the door prizes, every person who comes in will be allowed to draw a bean from a pot to determine their free prize. These prizes include ladies' rain bonnets, pens, balloons, nylon hats, bike bells, car polish, portable mixers, electric drills and badminton rackets. There is no obligation and no purchase is necessary; however, these prizes will be limited to one to each person.

month.

The store handles a complete line of Western Auto merchandise, including all kinds of hardware, tires, batteries, television sets, major and small appliances, auto accessories, home and garden tools, toys, gift items and others. Many of these items are marked down for the grand opening sale.

Mr. and Mrs. Wrinkle invite everyone in the area to visit their store during the weekend, get acquainted and have refreshments with them.

Austin — Legislative Redistricting Board will meet here Aug. 24 to begin consideration of state senatorial reapportionment.

Shortly after the Board announced its meeting date, Gov. Preston Smith issued a sharply worded statement calling on the Board to forget "political considerations" and start work on a House of Representatives redistricting bill also.

Smith noted the fact that Atty. Gen. Crawford Martin's appealing a district court decision invalidating the 1971 legislative act which attempted to reapportion the House does not preclude the Board from preparing for any eventuality.

Supreme Court of Texas, Governor noted, may uphold or overturn the district court's Aug. 2 decision that the Legislature illegally divided more than 20 counties. In either case, he said, the Board should be prepared with a House as well as a Senate reapportionment plan to avoid the need for a "million dollar" special session of the Legislature.

Lt. Gov. Ben Barnes, a member of the Legislative Redistricting Board, expressed surprise at Smith's blast. He said the Board has made no decision not to consider House redistricting and, indeed, has not even discussed the

Board has just 60 days to draw the reapportionment after its initial meeting which means its lifespan expires in late October.

State Supreme Court Chief Justice Robert W. Calvert said the Court will meet within 48 hours after receiving a request for an appeal hearing and can reach a decision in 10 days or less.

Attorney General Martin said a transcript of the lower court proceedings is being speeded to completion and can be placed before the Supreme Court within another week.

AUTO INSURANCE RATE CURB ASKED — Governor last week called on the State Board of Insurance to permit no increase in auto coverage rates this year.

He summoned three members of that agency to his office to hear his proposal.

Board is due to meet this month to review requests of insurance companies for increases totalling almost 10 per cent on all types of auto insurance. Board staff members have proposed a modest 2.8 per cent average hike effective Sept. 1.

Governor asked the Board to begin study immediately of no-fault insurance plans with a view toward adopting one for Texas. He said Massachusetts achieved

a substantial reduction in auto insurance rates under its no-fault concept.

Smith also urged the Board to study the feasibility of establishing a flexible and competitive insurance rating system in an effort to reduce rates.

"We are confident that a suitable alternative to the ever-rising rates could be found—if the insurance industry and the agencies of state government wish to find them," said Smith.

WATER BONDS SOLD — A Chicago firm was low bidder on a \$25 million Texas Water Development Bond issue to help build or improve sewage treatment facilities.

Issue was the first step in a \$100 million program authorized by voters May 18 for loans to cities, towns, river authorities and water districts. State loans make political subdivisions eligible for increased grants from federal government for water quality improvement.

Board said it expects 40 or 50 applications for assistance by Oct. 1. It will act on the first ones at its meeting here Sept. 16-17.

Local units can borrow 25 per cent of cost of a sewage treatment project from the state. Federal government will provide 50 to 55 per cent of the cost where a state program exists.

Halsey, Stuart and Co. Inc. and Associates bid effective interest rate of 4.9533 per cent for the issue.

AG OPINIONS — Justices of the Peace must take a 40 hour course of instruction determined by state supported accredited institutions of higher learning in performance of their duties unless they are licensed attorneys.

Martin also ruled:
* Non-elective state officers or appointees who accept other non-conflicting state positions of honor, trust or profit must receive clearance of their agency heads.

* A sheriff has no authority to release prisoners in his custody prior to expiration of sentences imposed and may be compelled to re-arrest prematurely released prisoners.

18-20 YEAR OLD VOTE RULE CHANGED — Voter registration has, in effect, been reopened for newly enfranchised 18-20 year olds to permit them to sign up at any time prior to March 1, 1972, close of the voting year.

County registrars have been instructed to accept applications from 17, 18, 19 and 20 year olds, with registration certificates to be effective for any election held 30 days or more afterward. Young voters who failed to register during the registration which ended Feb. 28 may now present their applications to tax assessor-collector either in person or by mail.

They must sign up again Oct. 1 or thereafter to remain eligible to vote in elections beyond March 1, 1972.

TIGHT WELFARE CONTROLS ADVISED — New State Welfare Commissioner Raymond W. Vowell, in meetings with field workers, is urging tighter controls on welfare caseloads.

He also is calling for greater effort at detection and elimination of fraud in claims and limitations on Texas' Medicaid Program. Vowell has been visiting 17 regional offices of the Welfare Department in a two week swing.

Highway Department has approved an expanded program for multiple use of highway right of way — or parks, parking areas and recreation.

Texas Animal Health Commission announced that authorities are very close to bringing Venezuelan Equine Encephalomyelitis, a major threat to the state's

horses, under control.

Salads

Salads have no season, but their popularity zoom in the summertime. Crisp and refreshing, salads beat the heat and pep up flagging appetites.

With the fresh produce array available during the summer months, vegetable and fruit salads are especially a joy to prepare.

But no matter what kind of salad you create, it will usually include greens, either as the basic ingredient or as a bed or garnish for other ingredients. According to the national average per capita, each of us eats 21½ pounds of greens yearly.

Head lettuce is the most popular salad green. But other kinds add variety in texture, taste and color. The brilliant green of escarole, for example, or the dark green of spinach leaves, help make a salad more interesting. Or add watercress and spark salad with a spicy flavor.

If you're not familiar with salad greens, the quickest way to become acquainted is to buy and try. Once you know the taste you can use greens to their best advantage.

Proper handling of salad greens is also important for crisp, tasty salads. At home, remove fringed or inedible leaves and twist or cut out cores. Wash greens gently under cold running water, then drain well. Place in a moisture-vapor proof container and refrigerate. Store the greens in a separate area from fruits, such as melons, apples and pears. These fruits give off ethylene gas as they ripen and are one cause of "rusting greens."

Another salad favorite is the tomato. This rich red fruit turned vegetable is rich in vitamins A and C. One medium sized tomato, eaten raw, supplies almost one-half of the daily requirement of vitamin C and one-third of the vitamin A.

When you buy tomatoes look for those which are firm and not overripe. Test their firmness by holding them gently in your hand. Choose plump, smooth tomatoes that have an even red color and are fairly well shaped. Avoid bruised, puffy tomatoes; they are watery and usually break down when cut and have a poor flavor.

Tomatoes with small irregularities, such as well healed growth cracks, roughness or uneven shape, are undesirable only from the standpoint of appearance.

Tomatoes are usually sold by the pound this time of year. When buying them, remember one pound equals four servings—about 2 large, 3 medium or 4 small tomatoes.

At home, store ripe tomatoes

in the refrigerator and use quickly. Tomatoes with a greenish tinge will ripen when left at room temperature, out of direct sunlight.

Children Resist Rest

A universal trait of children often seems to be the hate to go to bed syndrome. But the youngsters are not just being contrary.

During the ages of 2 to 4, children may resist rest for several reasons.

Children often are not sleepy at bedtime. Check the actual amount of time your child sleeps in 24 hours. Like adults, children differ in the amount of sleep they need.

A child may have played too hard just before bedtime, consequently finding it hard to settle down. Read him a story before bed, instead of rough hous-

ing with him.

Excitement or excess noise at home may distract the child.

Or, he may be seeking attention you've been too busy to provide during the day.

For a youngster, going to bed interrupts everything he is doing; he lives only for the moment, with little understanding of what tomorrow means. Many sleeping difficulties can be avoided if you help your child understand that going to bed is a time reserved for rest and sleep. Treat bedtime as a routine, not open to question.

Allow plenty of time to get your child to bed. If he senses your haste, he'll find ways to prolong the performance just to keep you around.

Going to bed happily is more apt to produce a peaceful sleep.

ing as many as 2,100 fans into every nook and cranny of its 850 seat stadium.

"Doug and Davis are two great assets to Bronte," said Mayor Martin Lee. "Boys from a small town that make good in sports will get more publicity for a town than anything I know.

"Persons that stop through Bronte talk about Doug and Davis. And if you go out of town and tell 'em you're from Bronte, they'll bring up about the boys."

Though McCutchen and Corley spent part of the summer away from home — McCutchen working construction and then in a dairy in Oregon and Davis tending a moving and storage firm in San Antonio — both are now back in Bronte. Both readily attest to the values of growing up in a small town.

"They're real friendly people," said McCutchen of his fellow townsmen. "That's one of the reasons I went to Tech — because the people there were so friendly." Added Corley: "Everybody knows everybody else in Bronte."

McCutchen, who scored 689 points during his high school career, signed a letter of intent with the Red Raiders a week earlier than Corley during their senior year.

Davis admits the decision of his lifelong friend to attend Tech helped him make up his mind.

"I figured I would like to go somewhere where I knew somebody," he says.

Bronte supports its two favorite sons in person at Red Raider football games. "I imagine a majority of the town turns out for games at Tech," said Mayor Lee. "Also, Doug and Davis have helped draw a lot of Bronte students to Tech. They have high praise for the school."

Cecil Toliver, who coached McCutchen and Corley from the eighth grade through their senior year, watched his pupils play in "four or five" games last fall. He hopes to do the same this year.

According to Toliver, "Doug McCutchen was the best high school running back I ever saw in my life—all classes, bar none." McCutchen showed his skills last season as he rushed for 1068 yards enroute to all-SWC and Associated Press offensive sophomore-of-the-year honors.

"Ole Davis is a tremendous football player," said Toliver. "He's got a lot of ability." Texas Tech Coach Jim Carlen decided last spring that Corley was capable of making the switch from defensive end where he started several games as a soph to tackle.

The change was designed to bolster the front five, which lost such marquee names as Bruce Dowdy, Wayne McDermand, Bob Mooney and Jim Dyer through graduation. "I think Davis' moving over is really going to help the team," says McCutchen, a prime booster of his longtime teammate.

Rare athletic ability is nothing new in the Corley family. Davis' brother, Jack, played for SMU and a cousin, Benny, saw action for Baylor.

The Longhorns rolled up a 33-13 record during the four year stay of McCutchen and Corley, winning three bi-district titles and one regional championship. Six players on the 1967 squad were offered college football scholarships, highly unusual for a Class B school.

The town provided steadfast support as the wins continued to mount. "When it came ball game time, somebody could have robbed Bronte and people would have

never known it until after the game," said Toliver.

Fans from surrounding towns who heard or read about the Bronte powerhouse sometimes joined the crowd.

"We played several games where we had more than 2,000," said Toliver. "I've seen 'em where they were lined up six and eight deep all around the field."

As proud as Toliver and Bronte are of the two Tech players, they are even prouder that they have taken things in stride.

"I coached Doug McCutchen from the eighth grade on and I never heard him say one bad word to anybody," said Toliver.

Mayor Lee noted, "We're really proud of the boys because, despite what they've done, they haven't gotten big headed. They won't tell you what they've done

—you have to ask them."

Bronte, in turn, has reason to show a large measure of pride in itself. After all, not many towns can boast of producing one Southwest Conference starter for every 499½ people.

LETTERS TO THE EDITOR

Dear Sir:

Recently a small group of people formed the Bronte Baseball Boosters Club. The purpose of this club is to raise funds for Little League, Men's and Women's softball teams. We are going to buy our Senior Little League boys some uniforms, also buy some equipment. We hope to form another Pee Wee team, and make some improvements on our field. Our Little League program is going down the drain unless we get behind it and keep it going. Attendance at our meetings has been poor. We have a few faithful members, but we need a bunch of parents. Let's wake up and keep this Little League in good shape. We have boys in Bronte who are not getting to play baseball.

We will have a membership drive Aug. 23. Membership is \$5.00 a year. It is not necessary for a boy to play baseball; it is a donation to keep a good ball program in Bronte. We will be around to see you Monday, Aug.

23, or better yet, meet us at the City Hall at 7 p.m. Help us keep a good baseball program going in Bronte.

We would like to thank everyone who has already given to this organization. All softball players, we want you to be at the meeting, also.
