Mayor Urges Care Halloween Night

Mayor Martin Lee this week issued a "careful" warning for Halloween, and asked everyone to lock out for youthful "trick-or-treaters" who will be out in force Sunday night.

The mayor said the city council agreed it would be better to encourage trick-or-treaters to go out Sunday night rather than Friday or Saturday as some had suggested.

Halloween falls on Sunday this year and it will be dark an hour earlier this Sunday night, due to the time change.

graves, 14-12. Games this week include Wall at Hawley, and Jim Ned has an open date.

Last Week's Game

The Bronte Longhorns had a damp good ball game last Friday night when they traveled to Hawley to kickoff District 6-B play and came home with an 18-0 win over the Bearcats.

The game was played in a driving rainstorm and everybody who was out in the weather got a real soaking. As a result of the rain, The Enterprise was unable to obtain its usually detailed information about the contest. There were several lucid reports about the weather in very picturesque language, but reporting it might not be in the best journalistic taste. One side effect of the rain was getting one of the Bronte band buses stuck in the mud.

Hawley received the opening kickoff and started a drive from their 35 yard line. Two long pass plays made most of the yardage to bring up a 1st down at the Bronte 12 yard line. Quarterback Hendon kept the ball and carried down to the 1 where he fumbled and Bronte recovered.

Looking up field the Longhorns saw 99 long yards between them and pay dirt, but they went to work on it. They worked the ball toward midfield and had to punt, but Hawley soon kicked it back to them. During the course of the play, a couple of key runs by Mike Arrott and Jerry Graves ate up some of the yardage and Alan Barbee tossed a pass to Lynn Lawhon which was good for 35 yards. Arrott carried for about 15 yards and Barbee, on the keeper, went over right side for

6 yards to give the Horns their first counter.

The second TD came in the 2nd quarter and was set up on a Barbee to Lawhon pass. Lawhon took the short toss and ran about 45 yards, to the 4 yard line. Bobby Skelton carried to the 1 and Arrott went the final distance for the score.

The 3rd quarter was scoreless. The final tally came early in the 4th quarter when Jim Dan Raughton took a pass from Barbee and went 30 yards for the 6 points. Final score: 18-0.

Blackwell Hornets Try Fluvanna Friday

The Hobbs Panthers scored 24 points in the last half to come from behind and down the Blackwell Hornets, 30-24, in a District 3-B game here last Friday night.

The Hornets' Tom Bledsoe scored first on a two yard run and Bob Watts kicked for two points. Hobbs then scored on a seven yard pass.

Blackwell scored again on a three yard run by Zare McNeill and Watts kicked again for a 16-6 lead at halftime.

Next score was by McNeill on a five yard run, followed by the extra points by Watts. Hobbs countered with two more scores in the third period and two more in the final period of play.

County Fair Has Good Attendance, Exhibits

Over 200 persons visited the County Fair or Exhibit held Saturday in the old gym of Robert Lee School. Viewing, swapping ideas and tales from long ago, visiting with new and old friends, showing and telling how things were made highlighted the day for the visitors. Among towns represented by visitors were Aztec, N. M., Odessa, Lubbock, San Angelo, Granite Shoals, Austin, San Antonio, Waco, Eldorado, Amarillo, Abilene and all the communities in Coke County.

Commercial displays and exhibits created interest and added to the Fair. Displays and tables were set up by H. S. L. Taylor & Co., Bronte; Margaret's Flowers & Gifts, Bronte; Mary Kay Cosmetics, Mrs. Larry Jameson, Silver; Ceramics and dolls, Mrs. J. L. Townsend, San Angelo; Ceramics, Mr. and Mrs. E. S. Der-

rick and Mrs. Deone Roe, Sanco; Handmade Gift Items, Mrs. Jess Womack, Blackwell; and Home Demonstration and 4-H Clubs selling items usually sold for fund raising.

An interesting educational display by the Coke County Soil Conservation Service created much conversation and kept the visitors watching the slides and viewing the maps and other things of interest. W. E. Jacoby and Rex Brand of the local office were in charge of the display.

Robert Lee Band Parents had a display of trophies and band calendars.

"Wheels That Turn the Century" was an unusual display of wheels beginning with the wooden wheel and going on through several changes of wheels. This was set up by Ulmer Bird of Sanco.

co. He also displayed some Indian relics and historical items.

Numerous articles were displayed by individuals. These included interesting lamps, candle sticks, plaques, decoupage, papier-mache articles, paintings, clothing, hooked rug, quilts, afghans, egg carton flowers and baskets, candles, China painting, a man's tie, pillows, unusual hand molded pottery made from native clay, decorative stitched pictures, antiques, beads, and gift items—to name only some of the many items.

The Fair was sponsored by the Coke County Home Demonstration Clubs and Coke County Historical Survey Committee.

The sponsoring groups were well pleased with the quality of the displays and with the attendance.

Austin — Ballot order has been selected for 14 proposed constitutional amendments to be voted on at the Nov. 7, 1972, election.

Major changes, including authorization for a constitutional convention, four year terms for major state officials, higher state bond interest ceilings and equal rights for women are included in the list.

The amendments, in the order they will appear on the ballot, follow:

1. A salary raise for legislators from \$4,800 to \$8,400 a year.
2. To abolish Lamar County hospital district.
3. To provide for compensation of all justices of the peace on a salary basis.
4. To establish a constitutional revision commission and call a convention to revise the state constitution in January 1974.
5. To allow tax exemptions for disabled veterans, their surviving widows and children and widows and children of armed forces personnel killed on active duty.
6. To provide a minimum \$3,000 property tax exemption for resident homesteads of those 65 and over.
7. To guarantee that equality under the law shall not be denied or abridged because of sex, race, color, creed or national origin.
8. To provide four year terms for governor, lieutenant governor, attorney general, comptroller, treasurer, land commissioner, secretary of state and other statutory state officers.
9. To allow soil and water con-

servations district directors to hold, or be compensated for, more than one office.

10. To require that proposed constitutional amendments be described twice in clear language by statewide newspaper publication (633 papers).

11. To fix an annual salary of \$22,500 for speaker and lieutenant governor.

12. To permit state employees to serve on local governing boards.

13. To set a six per cent weighted average annual interest rate for constitutionally authorized bond issues.

14. To allow counties to reduce their permanent school fund and distribute money to independent and common school districts on a per-scholastic basis.

DEMOCRATS ELECT — Fueling Democrats settled a row over election of a new chairman with unexpected calm.

At a Dallas meeting, the State Democratic Executive Committee named Roy Orr, 39, mayor of DeSoto, chairman, rejecting Gov. Preston Smith's preference for Agriculture Commissioner John C. White.

Orr won by a razor thin 32 votes to 30 over the veteran statewide official. Backers of both argued that their man would be the best choice to unify the state party for election year battles ahead. White had backing of liberal and some moderate and conservative members of the committee. Orr drew support of most SDEC conservatives and

some moderates.

Both candidates, the winner and the loser, pledged future cooperation with all factions.

Orr succeeds Dr. Elmer Baum of Austin as SDEC chief until the September 1972 state party convention.

COURTS SPEAK — The State Supreme Court affirmed lower court findings that state employees are constitutionally banned from city council service.

In another new decision, the High Court set a hearing Nov. 3 in the controversy over whether 588 acres were legally acquired at Odessa for a new University of Texas of the Permian Basin campus.

Third Court of Civil Appeals here held a law preventing vending machine owners from holding financial interests in taverns is constitutional.

The death penalty conviction of a Refugio County man for slaying a sheriff and a deputy sheriff in 1969 has been upheld by the Court of Criminal Appeals.

ALLOWABLE REDUCED—For the seventh consecutive month, Texas Railroad Commission reduced the statewide oil allowable.

A cut of .7 of a per cent sets the November production factor at 62.5 per cent of potential. The allowable has been slashed 19.6 per cent since last April.

A maximum production of 3,275,749 barrels daily will be permitted under the November controls, compared with 3,305,129 this month.

BOND SALE OFFERED — A total of \$31.5 million in veterans land program bonds will be offered for sale Nov. 1.

Land Commissioner Bob Armstrong said sale of additional bonds is necessary to continue the program under which 20,000 applications for low interest rate land purchase loans have been

made since last February. The interest ceiling on the bonds is 4.5 per cent.

Short Snorts

The Legislative Redistricting Board barely made its Oct. 23 deadline for reapportioning the House of Representatives. The new Senate districts were announced a week earlier.

Enrollment in Texas junior

and senior colleges reached an all-time high for 479,807 this fall.

Agriculture Commissioner White says pink bollworms and too much rain are threatening the Texas cotton crop.

Jack-o-Lanterns or Pies

After your real pumpkin jack o-lantern has scared away Halloween evil spirits, don't throw it away.

This member of the squash family may still furnish the family with a delicious pie if the meat isn't too candle smoked.

If the jack o-lantern has seen extra heavy duty, then a fresh pumpkin will be needed for the family's pie making.

Pumpkins are plentiful — available in many shapes and sizes. Look for those that are heavy for their size and free from skin blemishes and bruises. The rind or skin should be hard. Extra large pumpkins may have a stringy, coarse flesh and they will be less flavorful than medium or small ones.

Pumpkins can be baked, boiled or steamed. The rind can easily be removed after cooking, then season the meat according to a variety of recipes.

And, don't toss away the pumpkin seeds! You'll find them crunching good when roasted or toasted and salted.

Halloween Fun

It might be said that Hallo-

ween is the night children's spirits rise to some good fun. But parents should see to it the "good times" are not at someone else's expense.

When older children go out on their own Halloween, parents should know where they plan to be. Remind children to be courteous at doors when asking for treats. Older kids should also remember that destruction or harassment of younger children is not part of the Halloween spirit.

Younger children should never go "trick or treating" alone, or even with a group the same age. Street traffic, older children and the unfamiliar look of a darkened neighborhood can be too much for a small child to handle. A parent or a teenage brother or sister should accompany the younger set.

Children of all ages should wear light colored clothing—or that which reflects light for safety.

Instruct all "goblins" to bring home their treats rather than nibble as they go. Then, parents can check over the loot; sometimes there may be goodies that are not edible.

When ghosts and witches prowl at Halloween, there are some dangers that don't involve the supernatural. But when parents take a few precautions, the annual trek for treats is fun for all.

Costumes Must Be Safe

Halloween is the time for

"trick or treat" but you should take especial care to read labels on the costumes your children may be wearing when they comb the neighborhood.

Fabrics from which costumes are made should be treated so they are not inflammable.

Some costume fabrics are highly inflammable and therefore dangerous when worn near flames. Halloween is often a time for toasting marshmallows and roasting weiners, so be sure your children are safe.

Also check labels on synthetic play wigs. Halloween masks should not have offensive odors which may irritate a child's throat when inhaled.

Let your child have fun — but safely.

2,200 Striped Bass Released in Spence

The Texas Parks and Wildlife Department is stepping up its efforts to establish striped bass in the state's inland waters.

This week an addition 2,200 stripers were stocked in Spence Reservoir, continuing the department's program of releasing hatchery reared fingerlings instead of highly vulnerable fry.

Ted Lowman, inland fisheries coordinator, said more stocking programs of this kind are needed to give the species a firm foothold in Texas. "We're going to do all we can to obtain more stripers for stocking and research during the coming year," said Lowman.

While striped bass are basically a saltwater species, they spawn in freshwater streams. When it was discovered some years ago that they thrive in freshwater impoundments, several East Coast states began experimenting with stocking programs.

Texas has received approximately a million striper fry per year for the last three years and has achieved an unprecedented survival ratio of 20 per cent of those being reared to fingerling size and successfully stocked in public waters. Spence Reservoir is already producing stripers up

to three pounds in weight. Summer rains have raised the water level enough that biologists feel the fingerlings released this week will have plenty of forage.

Department officials hope the program can be accelerated to at least five million fry per year and include experimental work on possible hybridization of the species.

The fingerlings are from seven to eight inches in length and weigh about four ounces. Under the right conditions, stripers in large inland lakes grow past the 15 pound mark and are voracious feeders. They are valuable not only as a sport fish but also as a predator to keep forage fish populations in check.
