Austin — A blue ribbon study commission has come out strong for state constitutional revision and widespread restructuring of the state and local governmental system.

The Texas Urban Development Commission, winding up an 18 month study which enlisted the services of experts and laymen, handed its 200 page report to Gov. Preston Smith.

Smith, commending the body for charting "a clear course for those in government to act on," announced appointment of a 17 member, permanent Texas Advisory Commission on Intergovernmental Relations. The latter will follow up on the report of the study group headed by Arlington Mayor Tom J. Vandergriff as chairman and Dr. Earl M. Lewis of Trinity University in San Antonio.

"The Texas Constitution," said the Commission, "should be thoroughly changed to allow state and local governments to exercise more initiative and to be more responsive to current and future

demands but at the same time free to be truly responsive to changing needs and emerging problems."

Among 50 major recommendations were the following:

* State government should begin moving toward a new organizational and management system and consolidation of urban services in about 20 existing agencies.

* The governor should have more power over budgeting and appointments and removal of state agency governing boards chairmen.

* Local governments should be reorganized to meet specific local needs and granted greater fiscal authority through additional revenue sources and property tax overhaul.

* Growth of special purpose districts must be checked.

* Urban growth planning programs and coordinated land planning should be launched at all levels of government.

BONDS SOLD — Continuation of the veterans land program was assured by sale of \$20.8 million in bonds.

The low bid of 4.48943 per cent effective net interest was submitted by a group of 50 investors. The constitutional ceiling on interest rates is 4.5 per cent for the program.

Land Commissioner Bob Armstrong said the sale means the program can operate until almost the end of 1972 when Texas voters will have a chance to pass a constitutional amendment to raise

the interest rate ceiling to six per cent.

The Veterans Land Program is constitutionally authorized to sell another \$70.7 million in bonds. More than 43,500 Texans have bought land under the program.

A NEW GOVERNOR — Texas will have a new governor briefly in December—when Sen. W. E. (Pete) Snelson of Midland takes over as chief executive for the day.

Snelson, as president pro tempore of the Senate, is third in line for the governorship. Governor Smith and Lieutenant Governor Barnes will absent themselves from the state Dec. 4 so Snelson can have the honor of serving as governor. He represents 35 counties of the 25th senatorial district. Coke County was recently placed in the 25th district when new district lines were drawn.

COURTS SPEAK — The State Court of Criminal Appeals upheld Texas' abortion law, and said the state has the right to prohibit operations, in a decision conflicting with a June 18, 1970, three judge federal court ruling at Dallas.

The Court of Criminal Appeals also reversed a Waco marijuana conviction due to improper questioning of witnesses by the prosecuting attorney.

State Supreme Court heard arguments in a suit seeking to nullify University of Texas acquisition of a 588 acre Odessa site for the new UT-Permian Basin campus because of the proximity of oil and gas equipment and a potential safety hazard.

PESTICIDE DECISION PUT OFF — The new State Pesticide Advisory Committee delayed its decision on banning DDT for household uses.

No recommendation was made because the Environmental Protection Agency has not made its official rulings on DDT, committee chairman Dr. Perry Adkisson of Texas A&M University said.

The five member committee will meet again Dec. 7 to consider the matter. Texas Department of Agriculture, charged with administering the state law on pesticides, asked advice from the advisory panel authorized by the Legislature this year.

HUNT INVITE "DISAPPEARS" — State legislators and officials who had been invited to hunt on state game management areas found the invitations suddenly withdrawn after newspapers publicized them.

Parks and Wildlife Department Executive Director James U. Cross issued the invitations, although other would-be deer hunters are required to draw for the limited number of free permits in the areas. PW Commissioners expressed doubt special exceptions could be made for state officials and legislators, so the bid was unceremoniously taken back. One commissioner called for Cross' resignation over the incident, but the new director said he plans to stay on the job.

Short Snorts

Attorney General Martin lambasted the new state code of ethics for public officials as a "virtual mishmash" and predicted a court effort by one or more political subdivisions to invalidate it.

An experimental fusion machine which may help revolutionize energy producing mechanisms, has been dedicated at the University of Texas.

State health authorities rechecked September rabies tests after a faulty lab check came close to letting a case of the deadly disease escape detection.

Deer hunting, one of the state's biggest businesses — involving 510,000 "customers" who spend about \$88 million in two months on 37 million acres of leased land — gets under way this weekend in most counties.

Wall Crushes Longhorns, 63-0

About the best thing that can be said about the football game last Friday night is that it's over. The powerful Wall Hawks lived up to their rating as the No. 1 Class B team in Texas as they gave the Bronte Longhorns a 63-0 drubbing.

First Quarter

Bobby Skelton kicked off to Quarterback Jimmy Sefcik to start the ball game and he went to the 38. The amazing Benny Holik went to work and with Leslie Plagens moved the ball for 1st downs on the 48, then to the Bronte 38, the 14 and 12. A 15 yard penalty helped and the Horns held at the 13.

Mike Arrott and Skelton went for short yardage and then Wall recovered a fumble on the Bronte 19 yard line. Holik made a yard, Sefcik went for 13 and a 1st on the 5, and Plagens took a pitch-out and went around right end for the TD. John Edwards kicked the extra point and the score was 7-0.

Gary Skelton took the kickoff on the 20 and ran it to the 35. On first play the Hawks intercepted a Longhorn pass on the 26 yard line. They couldn't make a 1st, however, as Louis Martinez and Andy Eubanks swamped Sefcik on a pass attempt. The Hawks punted out on the Bronte 18. The Horns tried three plays and then Arrott punted to Holik who was tripped on the Bronte 40. One play later the quarter ended.

Second Quarter

The Hawks started a drive, making 1st downs on the 28, the 18 and the 3. From there Sefcik kept the ball and went through for another counter. PAT try failed and the score was 13-0.

Jerry Graves was nailed on his 29 after taking the kickoff. Graves then ran for 5 and Skelton made a good gainer, but a clip set the Horns back, bringing up a 2nd and 20. Skelton picked up 4 of it, so Arrott punted to the Wall 47. It was the same old story as Holik and Wilde moved the ball upfield. From the 25, Holik went around right end for another counter. Edwards' kick was good and the score was 20-0.

Skelton made a 20 yard re-

turn of the kickoff to the 34. Graves picked up 2, but then Wall intercepted on the Bronte 23 and took over. Sefcik passed to Plagens for 3, then tossed another one to Wilde who lateraled it to Plagens and he went the 20 yards to pay dirt. PAT try was good and the score was 27-0. Bronte took the kickoff and ran three plays before the half.

Third Quarter

Weidner kicked off to Arrott near the goal line and he ran it out to the 27. A penalty was called against Wall and a second kick went to Graves who was downed on the 28. After three plays Arrott punted, but Wall was penalized again and he tried another kick. He got a bad snap, couldn't get the kick away and had to play it. The Hawks wound up with the ball on the Bronte 31.

The Hawks moved to the 21 for a 1st, then made 6 yards in three tries. On 4th down, Sefcik passed to Wilde for the TD. Sefcik carried the ball over for the extras, to make the score 35-0.

Following the kickoff, Bronte ran a series of downs, Wall had four plays, and Bronte ran three more before Arrott punted. Holik took the kick on the 48 and raced the entire distance to the goal line. An extra point made it 42-0. The remainder of the 3rd quarter was a see saw affair and the most exciting happening was when Lynn Lawhon recovered a Wall fumble on the Hawk 49. The quarter ended with a 4th and 23 situation.

Fourth Quarter

Arrott punted to Holik who took it on his 25 and raced 75 yards for another touchdown. EP try was good and the score was 49-0. After the kickoff, Bronte ran three plays and Arrott punted to Holik who ran back upfield and stepped out of bounds on the Bronte 32. Edwards was doing the quarterbacking about this time and moved the Hawks for a 1st on the 18. A penalty moved it back to the 33. From there Edwards threw a pass to Darryl Weishuhn for a Wall TD. Extra point made it 56-0.

Once again the Horns couldn't move the ball and Arrott punted to Holik who was downed on the Bronte 37. The Horns held the Wall lads and took over on the 34. Bobby Skelton went for 10 yards and a 1st down, but the Hawks held on the next series and Arrott punted to the Wall 38. The Hawks marched to the 31 and Charles Halfmann took a pass for the TD. Edwards' kick was good and the score was 63-0.

Skelton took the kickoff and must have run a hundred yards zigzagging out to the 36 yard line. Barbee threw a pass to Lawhon for a 1st on the 48. Wall intercepted the next try, however, and took over on the Bronte 49, after a clipping fine was assessed. Three plays later the clock ran out.

Mr. and Mrs. R. T. Caperton went to College Station last weekend for homecoming activities at Texas A&M University and a reunion of his classmates. They also attended the SMU-A&M ball game Saturday and visited their son, Randy, an A&M student. They were met there by their daughter and grandson, Mrs. Jacque Henderson and Chance of Houston.

Predator Program Coming to a Vote

Members and directors of the Texas Sheep and Goat Raisers' voted Saturday at their Fall Tri-Annual Meeting at Angelo State University, to sponsor a proposed referendum which would involve 16,704 producers and 5,578,000 head of sheep and goats in 73 counties, to raise needed revenue which would go into a predator control program.

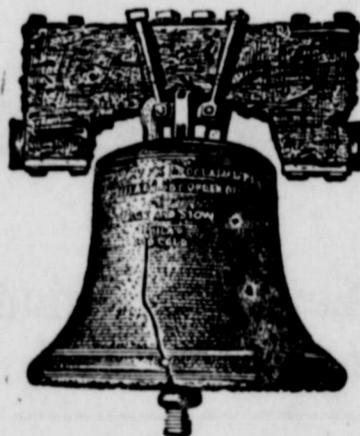

The proposed program calls for the maximum deduction of 20 cents a head on sheep and 10 cents a head on goats, and would be expected to raise over \$400,000, from which 32 new trappers would be hired to help combat predators by coordinating with the county trappers to assist them in problem areas.

The proposed program is not meant to take the place of any predator control work now being done in counties but to add to their present control work. Assessment in the program, if the referendum is passed, will be made on all sheep and goats coming off pasture and/or producer raised lambs going into feedlots. Assessments will be collected and forwarded to the Commodity Board at the end of each month. Collections will be made by any firm or individual who purchases sheep or goats off pasture.

The referendum which now must be petitioned to the Commissioner of Agriculture for his certification, would be conducted by mail ballot sent together with a self-addressed, postage-paid envelope to all sheep and goat producers in the 73 county area. Producers would then vote for or against the referendum and elect one director from each of the six districts which comprise the 73 counties. Three directors at large will also be elected, and these directors will make up the producer board of nine directors.

Coke is one of the counties in which the referendum will be held.

County Men Going To FB Convention

Coke County Farm Bureau will be represented at the 38th annual convention of the Texas Farm Bureau to be held Nov. 14-17 in Amarillo.

Those from this county planning to attend the Amarillo meeting include Fred McCabe Jr., president, and Ben A. Boykin, director.

Some 2,000 county Farm Bureau leaders from all over Texas are expected to attend the annual meeting where Texas Farm Bureau policies for 1972 and recommendations to the American Farm Bureau Federation on national issues will be formulated by some 900 voting delegates from the 206 organized Farm Bureaus.

Food and Fiber Week Nov. 15-21

Texas is a giant in the agricultural industry and Texans have much to be proud of and to thank for regarding the food and fiber produced in this state. Thus the state's agricultural products will receive special notice during Texas Food and Fiber Abundance Week, Nov. 15-21.

Special observances are planned in many areas to emphasize that the people of Texas have a large stake in the vast amount of food and fiber produced by those in agriculture. Texans benefit both as consumers and as residents of this state due to the tremendous contributions of agriculture to the overall economy.

County Judge W. W. Thetford, who is in charge of the observance in Coke County, pointed out that agriculture in all its phases adds almost \$10 billion annually to the Texas economy. Cash receipts from farm marketings during 1970 were \$3.1 billion and are expected to reach the \$3.76 billion mark by 1976. Every dollar produced by agriculture has a multiplier effect of 2.7. This means that a \$1 million increase in agricultural income results in an increase of \$2.7 million in the total Texas economy.

Texas is the leading state in the production of cotton, grain sorghum, beef cattle, sheep and wool, and goats and mohair, and is second in rice production and third in peanuts, pecans and citrus. The state generally ranks third after California and Iowa in total crop and livestock receipts.

Judge Thetford urges all Coke Countians to observe Texas Food and Fiber Abundance Week, the week prior to Thanksgiving. "This is an excellent opportunity for all of us to reflect on the bountiful harvests that agricultural producers over the state reap each year to provide for us high quality, yet economical food and fiber products."

Make Your Winter Coat

Make your own coat to keep warm this winter.

If you select just the right pattern and fabric, sewing a coat should not be difficult. Avoid collars, lapels, bound buttonholes and extra heavy fabrics — these are trouble makers.

Winter '71 looks feature capes and hooded and wrapped coats. Capes are a great fashion item, yet are easy to make. Selection of a hooded style will eliminate collar and buttonhole construction. And even though the wrap coat has a collar and lapels, you can forget about buttonholes.

In addition to construction details, the fabric you choose can also create sewing problems. Select material with an interesting look, such as tweed or tapestry.

A flannel or gabardine material can make an easy coat pattern hard to construct. These very plain fabrics will show every stitching or pressing mistake.

Bonded fabrics also deserve consideration if you make a cape. However, avoid using them to mold or shape a coat.

Look for a closely woven fabric. It's more stable and easier to handle than soft stretchy fabrics. Many fabrics sold for coats are thick and spongy, thus difficult to sew and press.

Even if you're not the most experienced seamstress, your coat making can be a success if you select the proper pattern and fabric.

Use Cleaning Products Carefully
Children and dangerous chemicals don't mix. Mothers know this, yet they flirt with danger themselves by using household cleaning products improperly.

A high percentage of the nation's housewives regularly mix and experiment with cleaning products in search of a better cleaning agent. Mixing and experimenting can lead to the release of highly toxic gases capable of causing pulmonary damage and occasionally death.

Chlorine bleach and ammonia are the most commonly misused products. When chlorine bleach is added to ammonia or to an acid compound—such as rust remover, bathroom bowl cleaner, lye or vinegar—chlorine gas may be released.

Chlorine gas, once used in chemical warfare, can be recognized by a burning sensation of the eyes, nose and throat or by sneezing or coughing. It can cause death if inhaled.

Home poisoning from inhalation of such vapors usually occurs in poorly ventilated area. The Council on Family Health advises women to always keep windows open when cleaning. If vapors from any cleaning product begin to cause irritation, all cleaning should be stopped until the air has cleared.

Timely Homemaking Tips

FRUITS AND VEGETABLES—Fresh fruits and vegetables deliver a lot for a little—supplying over 90 per cent of the vitamin C and over 50 per cent of the vitamin A consumed. Low in calories, tasty and attractive, these fresh treats are also economical. Compare the cost of a pound of apples or pears with a common snack food. All in all, it's just good sense to substitute fresh fruits and vegetables for high-calorie, less nutritious snack foods.

DON'T SHOP WHEN HUNGRY—A survey has officially revealed what homemakers have known unofficially for a long time. Shop just before lunch or dinner when you're hungry, and you will buy noticeably more groceries than had you waited until after lunch

or dinner.

MEAT TERMS — Meat advertisements sometimes have terms with variable meanings. For example, Swiss steak, pot roast and London broil are methods of cooking—not cuts of meat. And these preparation methods can be applied to a number of cuts. The Swiss method is generally used for cuts from the blade chuck and heel of round. London broil is the method associated with cuts from the sirloin tip, top round or flank. All these terms are clues to the shopper that the cuts are less tender, thus requiring moist heat cooking.

YOUTH RALLY PLANNED

Runnels Baptist Association Youth Rally will be held next Saturday night, Nov. 13, at Hopewell Baptist Church. Beginning at 7:30 p.m., featured speaker will be a Howard Payne College student whose home is in Nigeria.

The meeting date is a change from the originally announced

Stripers in Spence Show Big Gains

Striped bass in Spence Reservoir must be finding things in the lake to their liking.

The stripers caught in Texas Parks and Wildlife Department nets averaged an approximate one pound increase over what they weighed three months ago.

Test nets in Spence yielded 27 of the stripers which have been released into the waters each year since 1969.

Two of the bass weighed more than four pounds each, and the fish averaged 3 3/4 pounds each.

Striped bass are a saltwater fish which can live in fresh water. Department biologists are trying to establish the fish as both a predator fish to take care of overpopulation of lakes by roughfish and as a sport fish.

The biologists hope that someday anglers in Texas will face the prospect of hooking a 10 or 13 pound striper.

Coke's First Frost Hits Wednesday

First frost of the season was recorded Wednesday morning, Nov. 10. A moderately heavy frost covered most of the area, but whether or not it was a killing frost was not determined at press time.

The season's first really cold weather prevailed over the region since last Saturday with temperatures in the low 40's, but a cloud cover prevented frost until Wednesday morning. Cool nights and warm days were the weather rule this week.
