**Horns Drop Final
Game to Jim Ned**

Bobby Skelton kicked off for the Bronte Longhorns against Jim Ned last Friday night and it looked bad to start as Indian Tommy Herron, senior back, took the kickoff all the way, 85 yards, to cross the double stripe. However, a clipping penalty called the ball back, and they had the ball on their own 39 yard line.

Herron carried four time for a 1st down on the Bronte 23. Tony Elkins, Indian freshman back, moved the ball on downfield until they bogged down with a 4th and 6 on the Bronte 19. An unsuccessful pass attempt ended scoring threat and Bronte took the ball there.

Kim Barrett carried for 3 yards, Jerry Graves for 2 and Skelton made the 1st on Bonte's 34. Mike Arrott took the football 6 more yards, but Bronte was penalized 15 yards and had a 2nd down on the 17. After an incomplete pass, Jim Ned received an offsides penalty, bringing up 2nd and 12. Skelton scampered 9 yards and Alan Barbee kept to carry to the 46 for the 1st down.

In three carries Arrott had a 1st on the Jim Ned 43, then B. Skelton took over for 3 carries and Arrott ploughed through the middle for a 1st down on the 31. On a beautiful play, good for 16 yards through the center, B. Skelton had a 1st on the Indian 15. One fumble was recovered but the next play gave the ball to Jim Ned on another fumble on the 16.

Herron and Elkins continued the Indian ball handling chores until the 1st quarter ended with no points on the scoreboard.

Second Quarter

Herron and Elkins continued to work for the Indians and made 1st downs on their 39, the Bronte 49 and the 39. Good defensive work was noted on this series by Danny Carper, Gary Skelton, Jim Dan Raughton and Arrott. Mike McClure, Jim Ned QB, got into the act, kept the ball for good yardage but the Indians were penalized 5 yards. On 3rd and 14, they threw an incomplete pass, and were forced to punt.

B. Skelton took the punt on the 3 yard line and behind good blocking, he ran it out to the Bronte 47. Graves carried to the Jim Ned 49. After some losses, the Horns were faced with a 4th and 18, so Arrott punted to the Jim Ned 29.

A loss and a motion penalty forced the Indians to punt. B. Skelton made another beautiful runback of about 35 yards to the Jim Ned 41.

Arrott took the 1st carry 9 yards, then a fumble gave the ball to the Indians on their 31.

The Indians went for a 1st on their 45. Then it happened: Herron got loose and scampered 55 yards to pay dirt with 2:26 showing on the clock. The kick was good and Jim Ned led 7-0.

Lynn Lawhon took the kickoff and was downed on his 33. On 1st down the Horns fumbled and the Indians took over on the 39. Herron on a reverse went for 2,

then 8, and McClure lost 3, due to the work of Barrett and Arrott. Herron got a 1st down on the Bronte 26. McClure carried to the 21, and a pass was intercepted by Barrett. However, a personal foul penalty allowed the Indians to keep the ball on the Bronte 17. Another penalty and another play ended the half with the score 7-0.

Third Quarter

B. Skelton took the kick on the 25, the ball got loose and Carper recovered on the 25. Graves and Arrott made 3 yards so Arrott quick kicked on 3rd down to the Jim Ned 14. The next series saw the Indians bog down, so Herron punted out on the 50. Trying in the passing route, the Longhorns got one intercepted and Jim Ned owned the ball on their own 31. But the Indians couldn't make the yardage and Herron punted to the Bronte 39.

Graves moved for 5 yards. The Horns were penalized 5; an incomplete pass on 3rd down and Arrott punted to the JN 16, with no return.

With Herron again doing the carrying, he got stopped short and punted. The punt was tipped and fell short to the Jim Ned 46.

Arrott, Graves and B. Skelton carried for a 1st on the Jim Ned 25. Arrott went for 6, but the next play lost 10 yards. QB Alan Barbee's pass went incomplete and the ball went over on downs as the 3rd quarter ended. Score: 7-0.

Fourth Quarter

Jim Ned had the ball on their 29 but Graves recovered a fumble and the Horns took over on the JN 26. After a 5 yard penalty B. Skelton carried twice and then Jim Ned paid the Longhorns back and recovered a loose ball on the 8 yard line.

After three tries the Indians punted out at the Bronte 49. A Barbee to Raughton pass carried for 12 yards to the JN 38. The next series was stopped short and the ball went to the Indians on their 35.

Herrons and Elkins couldn't make 10, so the punt went to the Bronte 21. A pass was intercepted on the 18 and Jim Ned had the ball again. Herron carried for 4; Elkins kept for 5; then Herron for 1 to set up a 1st and goal on the Bronte 7. McClure went around left end for the TD, and a 2 point conversion set the score at 15-0.

Elkins kicked to Lawhon on the 28. Barbee's pass to B. Skelton carried to the 45; then a pass to Arrott took the ball to the 3 and it was 1st and goal. Arrott took the TD in and Barbee passed Lawhon for 2 points to bring the score to 15-8, with 3:03 left in the game.

The Horns tried an onside kick, but Jim Ned got the ball at the 48. They managed to control it the short time remaining and the game ended 15-8.

All experiences of the toddler, both rewarding and frustrating, determines how he grows and develops.

Most 2 year old children are fascinated with themselves; their abilities are rapidly increasing and new experiences are constantly widening their horizons. This rapid development stems from an in-born pattern. These patterns, which include sleeping, waking hours and eating, gradually become routine to the infant.

When the baby is between 3 and 6 months, he learns he and his mother are two distinct people. He begins to use his physical body by grasping, kicking and pushing, and he notices mobiles or ornaments in his crib and new toys. His senses are developing, supplying him with clues for recognizing new foods and familiar sounds. He loves to hear sounds and see certain movements repeated, then he will learn by mimicking these sounds and motions.

At 6-9 months, mother and the baby can communicate. The parent learns to recognize tired, hun-

gray, angry, painful, contented and happy sounds of her child. Early in this period, the mother is the most important figure in the baby's world. He is assured of her love and support. But by the 8th or 9th month, the baby begins preparation for weaning. For the first time, strangers become more pleasurable and frighten him less.

By 9-12 months, the baby learns what "no" means. He is beginning to respond to behavioral cues from his parents, learning to recognize their moods and responses. And by the end of the first year, he sits alone and probably stands. He reaches out, pulls back, communicates with mother and expresses awareness of others.

From 1-1½ years, the infant takes pleasure in learning to walk and in connecting jargon into simple words or symbols. He climbs, meddles into things and bangs pots and pans. He is easier to dress, but delights in taking off his shoes and socks. By now, the baby has established a hard preference, either right or left, and he wants to try to feed himself. He is also learning the concept of time—when it's naptime or when it's time for daddy to come home from work.

By two years, toilet training is usually nearing completion. The 2 year old is independent, wanting to do everything himself. He begins to tease and to develop a sense of humor. He wants you to hold him and look at a book.

New experiences and a variety of situations offer a sense of security, helping toddlers develop positive concepts and pride in themselves. But remember, each child is an individual and will develop at his own pace.

Food and Fiber Abundance Week Recognizes Texas Farmers, Ranchers

County Agricultural Agent Sterling Lindsey and County Judge W. W. Thetford invite the citizens of Coke County to pause during the week before Thanksgiving and reflect on the bountiful supply of food and fiber that is available to them.

The week of Nov. 15-21 has been designated as "Texas Food and Fiber Abundance Week" to pay tribute to the state's agricultural industry.

"The people of this county, state and nation have the highest standard of living in the entire world, Lindsey pointed out. "This is due to our country's valuable natural resources and the hard work and the dedication of today's agricultural producers."

"The next time you help yourself to that extra helping of potatoes and gravy or reach for another piece of chicken, think about this great land and the hard working people who produce all of your favorite foods," suggests the agent.

Today, food and fiber products continue to be one of the best bargains at the marketplace. There are two reasons for this: consumer incomes have risen faster than food prices, and agricultural producers continue to become more efficient.

Consumers spend only 16.5 per cent of their disposable income on food, the lowest in any country. Ten years ago this figure stood at 19 per cent. The present day agricultural producer provides for himself and 46 others, about 10 of these being in foreign countries.

Texas' share of the 1970 agricultural exports was \$442 million, or about 15 per cent of its cash

receipts from marketings. It ranked fourth among agricultural exporting states. United States agricultural exports totaled \$7.2 billion in 1970.

Last year Texas held the top spot in exports of cotton and cottonseed oil with 29 per cent of the total and was second in rice with 24 per cent. Other top export products included hides and skins, tallow, nuts, flaxseed, feed grains, fruits and vegetables, meat and poultry products, and wheat and flour.

According to Charles K. Baker, Extension agricultural economist, foreign markets have a marked impact on the economic stability of Texas agriculture. Exports sales in 1970 equaled 79.5 per cent of farm cash receipts for rice, 50 per cent for wheat, 44.5 per cent for feed grains and 33.5 per cent for cotton.

More than three-fourths of the total U. S. farm exports represent dollar sales and the remainder are under government programs, added Baker. Most exports under government programs, such as Public Law 480 (Food for Peace), do not return dollars to the U. S.

Looking at the total picture of agriculture and its impact on the economy of Texas, one will be surprised. The marketing system in Texas has the equivalent of one million full time workers who added \$5.5 billion in value to the agricultural foods and fibers in the state in 1970. There are 188,000 farms and ranches containing 140 million acres of land. Texas cash receipts consist of returns from marketing over 100 commercially important crops, livestock and their products.

In percentages, meat animal products, feed crops and cotton are the major cash producers in Texas. Meat animals are responsible for 46 per cent of all cash receipts from agricultural products; feed crops, 12 per cent; and cotton, 11 per cent of the total.

Coke County likewise relies heavily on agriculture for food and fiber products. Meat animal returns account for most of the income with feed crops and cotton a distant second and third in returns.

"Ranching and farming are honorable occupations which have a direct effect on the livelihood of each of us," Lindsey said. "Let's give our agricultural producers an extra pat on the back during Texas Food and Fiber Abundance Week."

food contamination out of the kitchen, automatic vents for quick elimination of smoke and odors, special milk dispenser and food storage all add to the home. The electric climate conditioning is for year-round comfort of patients.

Electronic eyes watch over the living areas and automatically sound an alarm at the first sign of smoke, and close doors automatically into each wing to prevent spreading of fire. All doors are equipped with emergency exit releases, and each of the ceiling to floor windows can serve as a door for quick exit.

The entire building is of brick and masonry construction; furnishings are from Sears and patient equipment is provided by E. H. McClure. Gandy is supplier of milk and ice cream and equipment to refrigerate them. DeCoty Coffee Co. furnishes the coffee and some other foods. Meat is to be provided by Sims Food Store of Bronte.

Clark said he's as happy about the facilities as the red, aqua, russet and palmolive colors which decorate the walls. He said that he enjoys his work. He first became interested in the care of golden age citizens about four years ago. His first work as administrator was in 1968 in Deering Nursing Home, a 60 bed facility in Odessa and Midland. He came to Bronte from Terraco Gardens Nursing Home in Midland, although the Clarks were living in Odessa where Mrs. Clark was administrator of Deerings Nursing Home.

Clark said he operates a nursing home on the theory that it should be as much like home as possible, "with opportunity to paddle in the garden, gather fresh fruit and visit with family and friends."

The Clarks and youngest son, Stephen, 11, make their home near the nursing home. They have two other sons, Ronald, who is a chaplain in the Amarillo Hospital District, and David, who is a senior at the University of Texas at El Paso.
