Austin — Texans have just a few days more — until April 5 — to register to vote in the May 6 primary elections.

Major state candidates, including Gov. Preston Smith, viewed with alarm registration totals so far. They noted that less than 3.8 million had registered as of last weekend, although there are nearly 7.7 million qualified voters in the state.

Present registrations are trailing the corresponding period in

1968 by 294,000 and the 1970 figure by more than 370,000.

In 1968, observed gubernatorial candidate Frances Farenthold, 64 per cent of qualified voters were registered before the primaries. This year, only 48 per cent of the potentially eligible are registered. Former U. S. Sen. Ralph Yarborough pointed out that 63.4 per cent of those qualified registered in 1970, and the 1972 dropoff is reflected in many "working class" neighborhoods.

Nearly one million more should register by April 5 if previous patterns are followed, Smith said.

Under the state's new voter registration system, which candidates Farenthold and Yarborough lauded as one of the nation's best, citizens have until 30 days before any election to register and become eligible to vote.

The U. S. Supreme Court threw some confusion over the registration system with a ruling that 12 months' state and six months' local residency requirements for voter eligibility (like those of Texas) are unconstitutional.

The High Court said 30 days' residency is sufficient for any state. Secretary of State Bob Bullock took the case under study. Special legislative attention may be necessary.

TPA POLLS NORTH AND EAST TEXAS — Editors and publishers were polled at the annual meeting of the North and East Texas Press Association in Palestine last week.

First question was—"Who will carry your county in the primary?" In the Democratic Governor's race, the newsmen voted: Barnes, 25; Briscoe, 20; Smith, 8; and Farenthold, 3. Republican gubernatorial candidates rated were: Fay, 12; Grover and Reagan, 9 each.

In the Lieutenant Governor's race it was: Hall, 27; Connally, 14; and Hobby, 12.

The editors selected Sanders 28 to 19 over Yarborough in the U. S. Senate primary.

Asked whom they would vote for personally, the tally read: Briscoe, 19; Barnes, 14; Smith, 8; and Farenthold, 5.

They selected Hall, 26 over Hobby, 10, and Connally, 7. In

the U. S. Senate primary they voted for Sanders 18 to 7 over Yarborough. In the 1972 General Election poll they voted for Tower 21 to 5 over Sanders.

INSURANCE RATES AGAIN—Insurance Board Chairman Larry Teaver lambasted two Board colleagues for proposing a \$27 million homeowners increase which he termed "unnecessary, unjustifiable and an insult to the intelligence of the people of Texas."

Board members Ned Price and Durwood Manford denied any new rates have been finally adopted and said they likely won't be before June 1.

Teaver, who advocates a \$14 million decrease in fire and other building coverage, called another meeting for March 29 to review Board actions and to recommend an "economic trend factor" be kept out of rates pending a study of the price freeze and inflation.

DEMOS LEAVE OFF DST — Democrats ignored a legislative resolution directing a May 6 statewide (non-binding) vote on daylight saving time. Republicans put the issue on their ballots.

Authors of the resolution, Reps. Hilary Doran of Del Rio and John Poerner of Hondo, blasted Democratic Chairman Roy Orr who accepted responsibility for the omission. They also petitioned the State Democratic Executive Committee to reconsider and overrule Orr.

COURTS SPEAK — The State Supreme Court April 26 will hear a lawsuit concerning invasion of privacy and whether a telephone company owes customers protection from a wiretap by an employee.

Court of Criminal Appeals granted a new trial for a Smith County man convicted of raping his sister-in-law.

The State Supreme Court declined to issue orders under which an Austin investor sought to require a deposition from a San Angelo Savings and Loan Association president which may touch on stock scandals.

A \$55,500 claim by a Houston couple against the city as the re-

sult of their son's drowning in a garbage dump was refused by the Supreme Court.

HOUSING SUB-STANDARD — Nearly 350,000 Texas housing units need replacement or major repair, a statewide study informed the governor.

The survey showed the highest percentage of poor quality housing in rural areas, some in urban centers and moderate sized cities and the lowest percentage in suburban areas. Mexican-Americans and blacks live in most of the low quality residences. Only 4.5 per cent of white households live in inferior quarters, the survey showed.

Short Snorts

More than \$1.5 billion in bonds have been approved by the attorney general in the last 15 months without a challenge.

Alabama Gov. George Wallace launched a campaign for Texas Democratic delegate votes in the presidential contest.

Texas construction indexes jumped to previously unachieved heights due to new office-bank buildings and apartments.

A liberal group threatens a ramp or challenge Texas delega-

tion will go to the national convention unless new Democratic rules are altered.

Department of Public Safety reported it received only 194 complaints as the result of more than 3.8 million contacts made by its four uniformed services with citizens during 1971.

BANKING OR POLITICS?—The discussion going on here could be on either subject of Dolph Briscoe, center, Uvalde gubernatorial candidate, and bankers, Gerald Allen, left, of Robert Lee

and E. F. Glenn, right, of Bronte. Briscoe has extensive banking interests in South Texas, but his visit in Robert Lee Monday was on behalf of his campaign for governor.

Dolph Briscoe Visits in County

Gubernatorial candidate Dolph Briscoe of Uvalde was a visitor in Robert Lee Monday afternoon. A group of 50 to 60 persons were present to meet and visit with him in front of the Coke County courthouse. Briscoe is a prominent Southwest Texas rancher and banker.

Briscoe was introduced to the group by Gerald C. Allen, Robert Lee banker, and made a short speech. His main point was that Texas government needs to be conducted more openly so that such occurrences as the Sharps-town Bank scandals cannot recur. He indicated that he thought some new faces in high governmental offices would be the answer. Following his talk, Briscoe spent some time mingling with the crowd, which included persons from Robert Lee, Bronte and other sections of the county.

The candidate had been to a rally in Big Spring and detoured through Sterling City and Robert Lee on his way to Colorado City.

Cubs Study Americanism

A program on Americanism highlighted the monthly meeting of Cub Scout Dens 1 and 2 and the Webelo Den of the Bronte Boy Scouts March 23 at the scout hut. The program climaxed a month long study of Americanism.

After singing the Star Spangled Banner, the boys moved inside for the program. Den 2 gave a demonstration of the different flags the U. S. has had and some of the history of each.

Den 1 then led the group in the pledge to the flag and gave their flag ceremony which is a requirement toward a badge.

Easter Egg Traditions

The tradition of Easter eggs came to the United States from Europe.

In Ireland, the Lenten Fast is traditionally broken at dawn on Easter Day with a meal of eggs.

In Italy, it's popular to pay calls to other homes on Easter Sunday. Everyone who enters the house is offered one blessed Easter egg. A host would be offended if this symbol of the Resurrection were refused.

In the 17th century, it was customary for the people of the British Isles to write messages on eggs at Easter and send them to

distant friend or relatives. For generations, people in the Ukraine have covered eggs with intricate designs resembling stained glass windows. It may take several days of tinting to cover a single egg with these designs.

The White House Easter egg roll was started on the Capitol grounds in 1810. When children were denied use of these grounds in 1878, the egg roll was moved to the White House lawn and has become a tradition there.

Eggs are highly nutritious food. Not only are hard cooked eggs a part of the Easter tradition, but they provide an excellent way to serve eggs. In preparing your hard cooked eggs for Easter decorating and eating, obtain best results by following a few suggestions. They will be especially helpful if you've had trouble peeling eggs in the past.

To prevent cracked shells when using eggs directly from the refrigerator, warm them a few minutes in warm water before placing in boiling water.

Next, lower the eggs into the boiling water carefully. Reduce heat and hold the eggs at a simmering temperature (185 degrees F.) for 18 minutes. Higher cooking temperatures or longer cooking time causes the white to lose its tender texture and become rubbery.

Remember to remove the eggs from the simmering water immediately and place under cold water (60 degrees F. or less) until cool. This helps prevent the dark green color around the yolk.

Crackle the shell and peel from the large end. To crackle a shell, roll the egg between two hands or crack the shell thoroughly all over the egg in some other way. It's often a good idea to place the egg under running water to peel it.

Of course, you won't want to peel the eggs until after they've been decorated with food colors. Let the children find the eggs and then refrigerate until time to eat them.

This recipe for Peanut Butter Pie was given to me by Alice Beatty. Thought you might like to try it for Easter—or just any meal since it is different.

Peanut Butter Pie

1/2 cup peanut butter
3/4 cup sifter powdered sugar
Mix together in small bowl and set aside.

Cook 10 inch pie crust

Filling:
4 tablespoons flour
1/2 teaspoon salt
2 cups milk
1 teaspoon vanilla
1 cup sugar
3 egg yolks
1 tablespoon butter

Cook filling until thick. Spread peanut butter and powdered sugar mix in bottom of crust, reserving a scant 1/4 cup. Pour filling into crust.

Meringue:
3 egg whites. Beat until frothy and add 1/4 teaspoon cream of tartar and 1 teaspoon cornstarch. Add 1/2 cup sugar gradually, beating until meringue stands in peaks.

Put onto filling in crust, sealing edges carefully.

Sprinkle remainder of peanut butter and powdered sugar mixture on top. Brown meringue in 350 degree oven.

Chaplain (LTC) Merlin R. Carothers (Ret.) began his military career in 1943 as an enlisted man with the "All Americans" of the 82nd Airborne Division. As a demolition expert during World War II, his duty assignments took him to France, Germany, and Belgium. After VE Day, he served as a guard for General Eisenhower.

Chaplain Carothers

After being discharged from the Army in 1946, Chaplain Carothers attended Marion College in Marion, Indiana, and then Asbury Seminary in Wilmore, Kentucky. Following his ordination, the new minister became the pastor of a Methodist Church in Claypool, Indiana. Three years later (in 1935) he answered the call to serve his country once again and became Chaplain Carothers. Since Chaplain Carothers returned to active duty, he has served tours in Germany, Korea, The Dominican Republic, Panama and Vietnam. Upon his return from Vietnam in January 1968, the Chaplain was assigned to Fort Benning, Georgia, and The Candidate Brigade. There, as Chaplain for The Candidate Brigade, over 5,000 officer candidates and 2,500 non-commissioned officer candidates plus 1,000 enlisted cadre and officers comprised the congregation served by him and his staff. He has made over 90 parachute jumps and proudly wears the Master Parachutist Badge. However, his experience in the field of aviation is not merely limited to jumping from aircraft. The Chaplain is also a pilot and has flown with the Civil Air Patrol.

Chaplain Carothers was a guest speaker at the World Convention of the Full Gospel Business Men's Fellowship in 1969. The Chaplain has spoken at many chapter meetings throughout the United States including the special Governor's Luncheon that was held for Governor Ronald Reagan last year. Over the past two years Chaplain Carothers has traveled equivalent to seven times around the world speaking to various groups. His book, "Prison to Praise," has been rated 9th Best Selling religious book in the United States. It has now sold 250,000 copies.

WASHINGTON
 "As it looks
 from here"
OMAR BURLESON
 Congressman
 17th District

Washington—Occasionally letters are received with only the first named signed. Knowing so many people we are usually able to identify the writer with the post-

mark of his hometown. Since the reorganization of the Post Office Department, which for all intents and purposes removed control from Congress, mail is now received with postmarks such as "TX 781." Some may be IA 713 and so on. Sometimes it is a little difficult to identify one Joe, Bill, Jim or Jane as the writer of the letter. This is because the local postmark is that of the Regional Distribution Center. When complaints have been made to the new post office setup, they say that anyone in our small towns can still get their local postmark by going to the Post Office but they have to do so at certain hours.

This has the effect of losing the identity of small communities. There is a pride in having our own postmarks and, besides, there is no evidence that improvement has been made in postal service. The complaints are still numerous. As a matter of fact, there exists many doubts as to whether making the Postal Service a semi-public corporation is going to bring about the efficiencies which it was recommended to do.

The organization is subsidized at \$98 million a year, which is supposed to be eliminated by 1985. Of course, this is a lot less than the \$700 million or more loss before the reorganization but it has yet to be proved.

The Postal Service may get into enough sidelines to make it profitable in a few years. From plans they have, it looks as if the Service may become sort of a variety store. Patrons in Alaska can buy automobile tags at the post office window and Europe-bound travelers can get passports

at the same place. For a special price the Postal Service promises that in the near future they can deliver a letter about 300 miles away in two minutes.

The Service, in addition to selling stamps, is now designing more exotic issues to keep collectors busy and money coming in. The bigger offices also carry stamp albums. Even the rogues' gallery will be blown up and likely the pictures will be in color.

Post Offices may soon be selling hunting stamps, stock job applications for Federal positions and information on the Federal budget.

Some old time postal managers deplore the new operations saying they are gimmickry designed to take the public's mind off the fact that mail service is not getting any better. The complaints may get louder as more and more over the counter transactions are put into effect.

There is still the problem of the delivery of the individual letter across town in a reasonable time. Postal officials have said that "in instances we can get a letter across the country faster by jet plane than a letter can be delivered on the other side of the city by truck." This seems to be one of the hangups.

Some officials have plans whereby post offices will become sort of like a shopping center, dispensing goods and services for those who want to pay for it. There are even guarantees of delivering packages within so many hours.

One must wonder if marriage and divorce may eventually be offered over the postal counter.

Rainmakers Get Permit to Work

The rainfall stimulation project for the Colorado River Municipal Water District was okayed this week by the Texas Water Development Board in Austin. The project will be carried out from April 15 to Oct. 15.

The weather modification permit was issued to Atmospherics, Inc., of Fresno, Calif.

Eleven residents of Borden and Scurry counties had signed a petition asking the permit request be turned down, objecting to the effort to change and modify the precipitation during the planting season.

The company attempts to increase precipitation by means of aerial application of silver iodide and other means.

Work will be conducted over a wide segment of West Texas, including the watersheds of Lake E. V. Spence at Robert Lee and Lake J. B. Thomas in Scurry and Borden counties. Both reservoirs are owned and operated by CRMWD.

EASTER SEAL APPEAL IS GOING WELL

Coke County's Easter Seal Representative reported this week that the 1972 Easter Seal Appeal of the Easter Seal Society for Crippled Children and Adults is going well. Judge W. W. Thetford heads up the drive for Coke County.

Last year money provided by the Easter Seal Society helped over 22,000 disabled persons through its program of assistance in finding and making effective use of services for the disabled and their families.

As Easter Seal Representative, Judge Thetford is the person to contact for services.

Judge Thetford added that contributions to the Easter Seal Appeal should be sent to him as soon as possible, as the 1972 Appeal ends Easter Sunday, April 2.

An Enterprise Want Ad will sell it!

To all of our many customers and friends, we wish all the blessings and joys of Eastertime.
