Bank Gives School Replay Equipment

First National Bank of Bronte recently presented Bronte School with video tape replaying equipment which will greatly assist teachers and school officials in their work with students.

The instant replay equipment allows a scene to be photographed and to be immediately shown on a screen as is done on TV sports events. It will be particularly valuable in filming football and basketball games when immediate pictures are needed.

Supt. C. B. Barbee said the school greatly appreciated receiving "this valuable equipment." He said it can be used at all levels of teaching and will enhance the school's instructional program.

The superintendent said the assistance of the bank in providing "extra things the school needs but which are not likely to be included in the budget" is a big help. He recalled that the bank presented the school with a new scoreboard for the gymnasium last year.

Following is a resolution passed by the Bronte School board of trustees Dec. 14:

WHEREAS officials of the Bronte First National Bank, namely, E. F. Glenn, president, and directors Virginia Boecking, Therell Burwick, Royce Fancher, D. K. Glenn, J. B. Mackey and Edward Rawlings have extended courtesies and considerations to the Bronte Independent School District;

WHEREAS these officials have endorsed and sponsored the maintaining and improving of the community's educational system;

WHEREAS these officials have brought the Bank-School relations on a man-to-man basis; and

WHEREAS these bank officials recently donated to the school some valuable video tape replay educational equipment;

THEREFORE, be it resolved that the Board of Trustees and the school administration express their appreciation and gratitude for each courtesy extended.

bank employees presented him with an engraved key ring and the bank gave him a portable colored TV.

Snead took over as cashier of the bank in 1941, replacing Mrs. Carrie G. Williams who became Bronte postmaster. He has also served as vice president and cashier and at the time of his retirement he was executive vice president.

He and his wife, the former Virginia Thefford, have four children, Mrs. Norman (Hattie Jane) Roberts, Ben D. Snead Jr., Mrs. Jerry (Wanda Belle) Parker and Billy Doak Snead.

In addition to retiring from his bank position, Snead also retired from his job as tax assessor-collector for the Bronte School.

The following resolution was passed by trustees of Bronte School on Dec. 14 as an expression of appreciation for Snead's services to the school district:

WHEREAS Mr. B. D. Snead served the school district as tax assessor-collector for thirty-two years;

WHEREAS he applied high quality skills and kept the financial records in an efficient manner; and

WHEREAS he extended courtesy and understanding to the general public with which he was dealing; and

WHEREAS his services to the school district will be severed because of his retirement;

THEREFORE, be it resolved that the Board of Trustees and the school administration wish him many happy years of retirement.

Austin — Texas legislators, with new leadership in both houses and a swarm of first term members, report here Jan. 9 for their expected history-making regular session.

They face a mountain of problems, the magnitude of some still unmeasured.

Revising the present method of financing public school education stands at the top of the list — depending on a U. S. Supreme Court ruling yet to come.

If the High Court upholds a three-judge court ruling in San Antonio just over a year ago, lawmakers are under orders to revise the present system which is keyed to property taxes. A reversal could allow more time, but the State Board of Education is expected to vote Jan. 13 for a complete state financing of basic education costs spread over a period of several years, regardless of the Supreme Court decision.

Lawmakers are hopeful of avoiding a major tax fight, but again the school finance case may completely upset those hopes.

Among other major items for legislators' consideration are these:

* Reform of the legislative process itself and state government in general, including a new code of ethics law, a revised lobby act and revision of campaign finance reporting requirements.

* Overhaul of state election laws to provide a new method of financing party primaries and possibly moving voting dates for primaries.

* Court reform.

* Redoing the legislative and congressional redistricting of 1971.

POLLUTION MAJOR JOB — Atty. Gen.-elect John Hill assigned top priority in his new administration to tackling a heavy backlog of pollution cases.

Hill said he also plans heavy emphasis on consumer protection, including a fresh package of legislation in the field, and combating organized crime through a special, five member task force of attorneys.

The incoming Attorney General said pollution not only damages the quality of life but is a serious economic factor, especially along the industrialized Gulf Coast.

He pledged to seek accelerated docketing of the air and water pollution cases, quicker filing of new cases submitted by state agencies and fast prosecution by his staff.

CAMPUS TROUBLED — An "extremely volatile" situation on the campus of the University of Texas at El Paso led to sudden appointment of a new president there.

Dr. Arleigh B. Templeton was dispatched to the troubled campus from the new UT-San Antonio

which he had been picked earlier to serve as president. UT regents confirmed the selection in an emergency session. Dr. Joseph Smiley resigned Nov. 1 as UT-El Paso president.

The U. S. Justice Dept. advised UT Chancellor Dr. Charles LeMaistre corrective steps were needed at El Paso to prevent a campus tragedy sparked by demonstrations against the administration.

PARK PLANS MOVE ON — Texas Parks and Wildlife Department, over protest of some landowners, plans to add another 550 acres to the Lyndon B. Johnson State Park along the Pedernales River near the former president's ranch.

GAS ORDER EXPECTED — A Railroad Commission order setting priorities for use of natural gas when supplies are short is due to be entered by mid-January.

At a hearing here Nov. 30, two Commission officers examined views on gas curtailment. They later made recommendations (as yet not disclosed) to the three member Commission. Opposition to a statewide standard of priorities was expressed at the hearing. Testimony was also offered in favor of granting priorities to homes, schools and hospitals in time of drastic short-

age. INAUGURAL DINNER SET— Democrats will celebrate inauguration of Gov. Dolph Briscoe and Lt. Gov. Bill Hobby at a combination fund raising and party victory dinner Jan. 15.

by Briscoe, Hobby and new National Democratic Chairman Robert Strauss. State Democratic Chairman Calvin Guest of Bryan, will be master of ceremonies.

Janet and I feel that God brought us to Bronte to be of service to His people. He knows our needs. To you who pay your bill with us regularly we are extremely grateful. You make it possible for us to pay our bills and stay here to help meet the needs of others who either CANNOT pay, or WILL NOT pay us.

Gradually our accounts receivable have increased to an alarming amount. They are now more than our inventory, and this is a dangerous situation.

If God had wanted us to make money, He probably would have sent us somewhere else besides Bronte. Now He has the opportunity to show us how we can stay here and be of service to His people.

We have learned to look to Him for the answer to EVERY need. Now the need is financial, for His pharmacy. I say His because all we have belongs to Him. John 3:2 is His answer: Beloved, I wish above all things that thou mayest prosper and be in health, even as thy soul prospereth. We pray for all of you according to this scripture. If you can't pay us we pray for you to prosper financially so you can; to you who won't pay us we pray you will be convicted in your heart to see the need of paying us so we can continue to be of service to those who can't pay us. We love you just the same, whether you do, can't or won't.

We are thankful for each of you. We look to God to meet our needs. We will not be disappointed. We covet your prayers. May 1973 be the BEST year of your life.

the most dramatic increase. Estimated production now at 3,900,000 bales is 1,321,000 bales more than 1971. Yield per acre for 1972 was almost 100 pounds per acre above 1971.

Texas continued its dominance in the cattle feeding industry during 1972. For most of the year, it was and still is the number one cattle feeding state in the nation. It apparently will retain that honor for some time to come.

Cattle and calves on feed for slaughter in Texas feedlots number 2,225,000 head, up 29 per cent from a year ago. Iowa is the second ranking state in the nation, with 1,689,000 head, far under the total for Texas.

BASED on Dec. 1 conditions, the 1972-73 crop of Texas citrus is forecast at 17,200,000 boxes. This is 15 per cent above the production of last season.

Grapefruit production is expected to total 10,400,000 boxes, 13 per cent above last year. Early and mid-season oranges are forecast at 4,500,000 boxes, up 18 per cent from last season. Valencia oranges are estimated at 2,300,000 boxes, which is 15 per cent above last season.

PECAN production for Texas in 1972 was first set at 71 million pounds, which would have been a new all time high. Latest production figure, however, is 65,000,000 pounds. This still makes it the second largest on record.

It is also almost three times the production of 1971 which was only 24,000,000 pounds.

Texas will produce about one-third of the nation's total supply of pecans for 1972.

EXPANSION of the 1972-73 six major winter vegetables is forecast. An estimated 57,000 acres will be planted to the six major winter vegetables in Texas. The crops are cabbage, carrots, cauliflower, lettuce, spinach and broccoli.

This acreage will be an increase of nine percent over last season.

In the Lower Rio Grande Valley, acreage of the six winter vegetables is estimated at 39,200 acres, or 16 per cent above the 33,900 acres harvested last season. Acreage of carrots, cabbage, lettuce and cauliflower all showed significant increases. Acreage of spinach remained the same as last season while broccoli acreage decreased.

In other areas, acreage is expected to total 17,800 acres for harvest, which is three per cent below last year.

GRAIN SORGHUM production in Texas at 456,000,000 bushels was more than 50,000 bushels ahead of 1971. Texas produces about 45 per cent of all the grain sorghum in the nation.

PEANUT production was up in Texas this year over 1971 by almost a million pounds. The 1972 production estimate is 456,000,000 pounds.

SOYBEAN production in the state in 1972 is almost double the production in 1971. Texas production for 1972 is set at 5,670,000 bushels.
