### DR. HARRIS BACK IN BRONTE FOLLOWING SERIOUS ILLNESS

Dr. John R. Harris was brought to Bronte Monday by Newby ambulance after being seriously ill in an Abilene hospital for about two weeks. He is hospitalized in Bronte Hospital but is seeing patients and making rounds in a wheel chair. Nine patients had been admitted up to Thursday afternoon.

The doctor fell in a bath tub the Saturday before Christmas and broke his hip. He underwent surgery Dec. 26 to repair the damage and became seriously ill following the operation. He was in the intensive care unit for six days.

#### BAND BOOSTERS TO MEET

The next meeting of the Band Booster Club will be Thursday, Jan. 18, in the band hall at 7 p.m. All members are urged to attend.

The sun was shining Thursday morning.

Its welcome rays had a hard job melting the three inch layer of snow which covered the ground, but by midafternoon the warmth had made a dent in the blanket of white ice.

One of the worst winter storms in several years has frozen everything in this area since last

weekend. An Arctic air mass has brought Coke County temperatures in the low teens, rain which froze when it hit the ground, snow and sleet.

Driving conditions in this area had not been extremely hazardous until Wednesday when snow fell most of the day. However, to the north of here, particularly in the Sweetwater and Colorado City areas, driving has been next to impossible. Those cities have had hundreds of stranded motorists trying to find shelter from the frigid weather. Hundreds of trucks have been unable to move and are lined up along Interstate 20.

Actually, the cold weather started more than a week ago with very little letup. Snow was on the ground last Wednesday morning, but temperatures rose high enough Wednesday afternoon to melt it. More sub-freezing weather came the last of the week and everything was iced down Sunday morning. A little more warmth melted ice off highways and streets Sunday afternoon, but Sunday night was another cold one, and temperatures have not risen above freezing since.

#### School Closed

Bronte School was closed Thursday because of icy conditions. However, Supt. C. B. Barbee said classes will meet as usual Friday.

A happy note in the forecast called for a little warmer weather Friday.

### Commissioners Okay Salary Raise

Coke County Commissioners Court voted Monday to approve a resolution to raise salaries of county officials by 10 per cent.

At a December session the court voted to raise salaries of county employees by 10 per cent. County employees who received the raise total 31 and 14 officials were recipients of the raise voted Monday.

County Auditor Weldon Fikes said Tuesday that the raises will cost the county approximately \$19,000 per year.

### Teams Take Wins From Blackwell

Bronte basketball teams went to Blackwell last Friday night and brought home three wins. Playing were the boys and girls A teams and the boys junior varsity squad.

Austin — The State Board of Insurance had good news for homeowners as the new year turned.

Insurance rate cuts which will total an estimated \$25 million a year in savings for coverage on dwellings were ordered effective Jan. 1.

Gov. Preston Smith commended the Board and claimed that debate on insurance rating issues during the special legislative session he called last fall figured in the reductions.

Board members first announced these reductions for extended coverage and homeowners' package policies:

North-northwest territory — 30 per cent for extended coverage and 20 per cent homeowners' policies.

Central inland area — eight per cent and seven per cent.

Seacoast "first tier" counties on the Gulf — four per cent reduction for extended coverage but a four per cent hike for homeowners' policies.

Seacoast "second tier" counties — 18 per cent and 10 per cent less.

Announcement of the first reductions were followed three days later by fire rate cuts for dwellings.

The statewide fire rate slashes amount to 12 per cent for brick veneer, asbestos and stucco houses and nine per cent for frame

dwellings. A three per cent increase was directed for all brick dwellings, but the Board noted this category accounts for only two per cent of Texas housing.

**BUDGET REFORM URGED** — Legislators returning to work in regular session Tuesday found five budget reform proposals designed to save at least \$50 million a year.

Texas Manufacturers Association unveiled the recommendations and announced a statewide campaign to win support for them. These proposals are expected to be introduced by prominent legislators, TMA said.

\* Authority for the governor, as chief state executive officer, to review state spending on a quarterly basis.

\* Authority for the legislative budget board to conduct biennial performance audits of agency and program operational efficiency.

\* Limiting compromise powers of free conference committees on appropriations to adjusting reasonable differences between House and Senate spending recommendations, rather than permitting addition of new items or deletion of others previously agreed on by both houses.

\* Establishing a "pricetagging" system, under which the legislative budget board must project

cost estimates for a five year period on all spending legislation before committee hearings.

\* Creating a two year study by a 15 member gubernatorial commission of the practice of earmarking 80 per cent of total state revenues, free of direct legislative control.

**PENAL CODE REWRITE TRIED AGAIN** — Lawmakers also found the 1973 version of Texas penal code revision as proposed by the State Bar on their desks at the capitol.

The new code, first proposed overall revision since 1857, was rejected by the legislature in 1971, but sponsors feel it may pass this year. Changes have been made in controversial sections, and provisions on drug laws and abortion, left out.

The new code would retain the death penalty for eight classifications of murder.

Sixteen hundred sections of the old penal code have been boiled down to 246. It contains four felony punishment classifications and three classes of misdemeanors, with penalties specified for each.

**AG OPINIONS** — The attorney general's office recently concluded:

\* County commissioners must be petitioned by one per cent of county voters before they can call a countywide road bond election.

\* An advertising scheme whereby merchants award prizes by drawings and punchcards is a lottery in violation of the law.

\* A requirement of persons applying for a marriage license appearing together or separately, before the county clerk may be waived, and ceremonial marriages may be performed by proxy where there is a valid marriage license issued.

**Short Snorts**

The new Homer Garrison Jr. Law Enforcement Academy of the Texas Department of Public Safety, named for the late DPS director from 1938-1968, was officially dedicated here Jan. 4 and hailed among the best equipped in the United States.

Gross agricultural income for Texas during 1972 may exceed \$4 billion, according to Agriculture Commissioner John C. White.

Revenue from cigarette taxes dropped \$2.5 million — to \$17.4 million — from December 1971 to last month.

Governor Smith said state gov-

ernment will have a \$300 million "nestegg" of unexpended fund balances when he leaves office.

Texas Education Agency received a national leadership award for developing performance-based teacher education programs.

Rep. Frances (Sissy) Farenthold, unsuccessful candidate for governor last year, announced she will maintain a permanent Austin office and monitor the legislature.

**POWER IN THE CHURCH**

Each week Faith in Christ Ministry will publish a question most often asked about the baptism with the Holy Spirit. Your questions are invited. This is being done in order to stimulate your Christian growth and participation in the Body of Christ, His Church.

This week the question is:

Some of us who heard of the baptism with the Holy Spirit only recently know practically nothing of its history. Can you give us some background information?

If you are searching for the baptism with the Holy Spirit and the power it promises, the best place to begin is with the New Testament, especially the book of Acts because it describes the ministry of the first group of Spirit-filled believers. Reading the book of Acts I quickly understood why most churches want to be known as New Testament churches and why they proudly claim a New Testament heritage. It was because that church was an exciting church; a powerful church.

Comparing the New Testament church with ours today it seems obvious that one of two things must have happened. Either God deliberately deprived the church of the power of Pentecost, with all its supernatural gifts and powers (a rationalization we hear over and over), or else the church has somehow lost contact with Pentecost as a vital, continuing experience. The second proposition is the true one. The resurgence of Pentecostal power in our day proves it.

I believe when Christ returns for His church that He expects to find a church with more power than it was born with. You are the church. Are you being used to the greatest extent possible? Your comments are welcome.

In response to any letter, if you desire, we will be happy to send you, FREE of charge, Tongues Under Fire which will be of great help to answer some of your questions.

**Hog Numbers Decline... Wheat Seeding Increases... Citrus Blackfly Survey Continues... March 1 Is Deadline...**

Fewer hogs and pigs are reported in Texas compared to a year ago, the Texas Crop and Livestock Reporting Service notes.

In Texas, the number of hogs and pigs total 1,264,000. This is a decrease of 10 per cent from a year earlier.

Reports based on farmers' intentions indicate that during the period now through May, 124,000 sows will farrow in Texas, four per cent above a year earlier. The average value of all hogs in Texas is \$35 per head, giving a total inventory of \$44,240,000.

Nationwide, hogs and pigs total 61,500,000, two per cent less than a year ago. Hogs and pigs kept for breeding are estimated at 9,000,000, an increase of six per cent.

WINTER wheat seeding for harvest is estimated at 4,400,000 acres which is a nine per cent increase over a year ago and is a fourth larger than 1971.

A crop of 70,400,000 bushels is now expected in Texas. This

compared with 44,000,000 bushels produced in 1972.

Wheat seeding for all practical purposes is completed with bad weather causing some delays.

Nationwide, the 1973 prospective winter wheat crop is a record 1,278,000,000 bushels. This would be eight per cent more than the 1972 crop and 12 per cent more than in 1971.

Generally, condition of the crop is mostly good to excellent. Estimated yield is 29.9 bushels per acre, just slightly below the 1971 record yield per acre.

Indications are now that 88 per cent of the seeded acreage will be harvested for grain. If realized, this would be the highest percentage since 1966 when 90.3 per cent was harvested.

SURVEYS of the citrus blackfly continue in the Rio Grande Valley. A new infestation has been found in the San Benito and Harlingen areas. The blackfly can cause great economic damage in commercial citrus. Even infestations of short duration may reduce crop yields as much as 50 per cent.

Personnel of the Texas Department of Agriculture are cooperat-

ing with the U. S. Department of Agriculture specialists in combating the fly. The survey will provide a specific picture of the extent of the problem.

Federal-state crews will survey the Valley once each month for six months, examining more than 100,000 points. Entomologists said the survey is sensitive enough to detect infestations as low as one infested tree in 33,000.

After the survey is complete, federal and state officials will decide on appropriate courses of action.

MARCH 1 is deadline for submitting your ideas on proposed changes in the Packers and Stockyards Act as it relates to bonding regulations.

Proposed changes would include recovery under bonds, bond equivalents, termination of bond, and separate coverage for selling and buying activities.

Anyone wishing to submit comments should write the Hearing Clerk, U. S. Department of Agriculture, Washington, D. C. 20250. Copies of the amendments may be obtained by writing Information Officer, Packers and Stockyards Administration, U.S.D.A., Washington, D. C. 20250.
