Austin — Early senate approval of the act to the state. was forecast by Lt. Gov. Bill Hobby for HB 3 to strengthen the open meetings law.

The bill was cleared by a criminal matters sub-committee of the Jurisprudence Committee last week.

The shield bill (HB 10) to protect newsmen from forced disclosure of information sources was due consideration in the criminal matters sub-committee this week. It will be expanded to include definitions contained in a U. S. Senate bill and probably amended to provide for a State Supreme Court mandamus proceeding to compel disclosure of information sources under certain cases, according to Senate sponsor, Sen. Chet Brooks of Pasadena.

Hearing was delayed until April 10 on HB 6 to broaden accessibility of information on government records pending a Legislative Budget Board estimate on the cost

TAX BILL SEEN — Legislators will be forced to write a new tax bill due to demands of higher education and welfare, the chairman of an interim House Revenue and Tax Committee maintain.

If the regular session manages to get by with no new tax bill, lawmakers will be called into special session to pass one, predicted Rep. Don Cavness of Austin. Rep. Joe Wyatt of Bloomington, co-chairman of the Committee, shared the gloomy forecast, adding that federal welfare guidelines will cost the state an extra \$100 million a year.

Cavness also cited the estimated \$28 million a year cost of an adult education bill and a \$13 million a duty free lunch hour, plus the cost measure to insure teachers multi-million dollar bilingual education.

Both lawmakers also referred to the federal case involving validity

of the state's method of financing public school education.

Texas, the Committee found, ranks 40th among 50 states in tax load but has among the most regressive tax systems. The Committee recommended a permanent revenue and tax staff, increased use of bond income for appropriation, use of private collection attorneys and a monthly reporting option.

18 YEAR OLD RIGHTS APPROVED — Full rights of maturity for 18 to 20 year olds received tentative senate approval by a 19-11 vote.

The Senate also passed legislation to slow creation of new state supported colleges by requiring prior approval of the Coordinating Board, Texas College and University System.

Still later, senators voted to extend collective bargaining rights (but not the right to strike) to policemen and firemen. Local governing bodies would have an option to grant the rights or order elections on the issue.

CRIME RATE DOWN — Major crimes are on the decline in Texas, according to a new Department of Public Safety report.

Col. Wilson E. Speir, DPS director, said the number of crimes last year was 2.2 per cent below 1971—the first measureable decline since 1954.

Translated into crime rates, the 1972 figure was six per cent below the 1971 rate per 100,000 population.

The decrease, Speir said, was only the fourth since DPS began compiling its Texas Crime Report 30 years ago.

Decreases were noted in murders, aggravated assaults and thefts. Small increases were observed in rapes, robberies and auto thefts—with a larger increase in the burglary category.

The urban crime rate overall was down 5.7 per cent, with the rural rate off 5.8 per cent.

Crime clearance rates remained at 2 per cent. Clearance rate for murder improved from 86 per cent to 89 per cent, with further improvements noted in robberies, aggravated assaults and thefts.

The crime statistics break down to one major crime every minute, a murder every five and a quarter hours, a rape every three hours and 45 minutes and a robbery every half hour.

Short Snorts

Gov. Dolph Briscoe submitted as emergencies 14 bills dealing with creation of water districts and their operations.

The House passed 138-0 a bill to restrict influence on speaker-ship elections.

The House appropriations committee chairman has proposed a four months' welfare budget until uncertain cost factors are decided.

The House passed comparative negligence bill has received approval of the Senate Jurisprudence Committee.

The Court of Criminal Appeals of any appellate court in the U.S. says it has the heaviest work load and is eight to nine months behind in its docket.

Medical facilities at Lubbock, Eastland, Temple, Rockdale, El Paso and Houston received \$2.2 million in loans and grants approved by the State Board of Health.

The Governor's mansion will be open to visitors on Saturdays and Sundays in addition to weekdays.

Hearings are scheduled over the state next week on changes in laws affecting fish, game animals and fur bearing animals.

By Congressman O. C. Fisher

I fully support the President's recommendations. I am convinced that having in the law capital punishment as an alternate punishment for crime is indeed a deterrent. Criminals don't like to face that kind of music, and the fact they know they may get the electric chair will often cause them to have second thoughts

when they plan their evil designs. A few days ago in nearby Maryland four thugs pulled a daylight robbery during which they forced 25 hostages into an 8 by 12 foot restroom, and after being surrounded by officers they fired indiscriminately into the group of helpless hostages. One robber was quoted as saying to the victims:

"I think I'll throw a hand grenade in here. What can I lose—there's no death penalty any more."

What we do know is that from the beginning of time man, with all his ingenuity, has never discovered a means of preventing crime except by the example of punishment—and the degree of possible punishment is a major factor. Let's concern ourselves with the innocent who have not been killed and who have a right to live.

A Weekly Report Of Agri-Business News  
**Farmcast**  
 Compiled From Sources  
 Of The Texas Department of Agriculture  
 John C. White, Commissioner

**Broilers Are Popular . . . Onion Production Increases . . . Weather Delays.**

Texas continued its number seven ranking in the nation in broiler production during 1972. In recent weeks, broilers have become more popular than ever and prices to producers and at the retail level have shown dramatic changes.

Prices have increased as much as 10 cents per pound during recent weeks, a situation never be-

fore heard of in the broiler industry.

The value of the 1973 broiler segment of the state's agriculture industry should be considerably higher than in 1972.

Average price received by broiler producers in 1972 was only 14.2 cents per pound. Gross income from broiler production during this past year amounted to \$93,790,000. This is about \$6,000,000 higher than during 1971.

Total production in Texas during 1972 was 187,441,000. This is seven per cent above a year ago, but two per cent below the record of 1970. Weekly placements of broilers during 1972 ranged from a high of about 4,000,000 to a low of 2,000,000.

Although broiler prices to producers have increased substantially, production costs have skyrocketed. Costs of feed have more than doubled in many instances.

Nationwide broiler production during 1972 in 22 key states which produce 97 per cent of the nation's broilers showed an increase of five per cent.

Broiler prices to consumers are now at about the levels of 20 years ago. Until recently, the retail price of broilers has been 15 to 20 cents per pound under prices paid by consumers 20 years ago.

The four leading states in broiler production are Arkansas, Georgia, Alabama and North Carolina. The production in Arkansas is about three times that of Texas.

IF YOU like onions, you'll be happy to know that this year's crop in the Rio Grande Valley is estimated now to be five per cent above last year's crop. Yield per acre is down this year due to weather conditions.

The South Texas spring onion crop has been delayed two weeks because of weather conditions. In the Lower Rio Grande Valley where the majority of the crop is planted adverse weather conditions have prevailed since Christmas.

It is anticipated a good crop will be made if weather is warm and sunny from now through April.

WEATHER continues to delay other crop production, too. Cantaloupes will be a month later than normal in South Texas; the same is true for watermelons. Citrus harvest, which usually is concluded in South Texas in April, is expected to continue into June.

**FURNITURE REFINISHING PROGRAM SET FOR MARCH 27**

An educational program on Furniture Refinishing will be given by Darwin Warlick and J. R. Smith Tuesday, March 27, in the Robert Lee Recreation Hall, beginning at 2 p.m.

Repair and choosing the right finish for used or unfinished furniture will be demonstrated and discussed by Mrs. Fay C. Roe, Coke County Extension Agent. Antiquing with "Modern Day Paints" and glazes will be given by Warlick and Smith.

The program is free and everyone in the county is invited to attend. A door prize drawing will be held at the close of the program.

Sponsors of the program are the Home Demonstration Clubs and Mathews Lumber - Hardware of Robert Lee.

## Seven sensible reasons why you should join the Payroll Savings Plan.

1. You'll save money.
2. It's easy, all you do is sign up once and money is automatically set aside from each paycheck.
3. The money is used to buy U.S. Savings Bonds. There isn't a safer way to save.
4. Bonds now pay the highest interest rate ever. There's a bonus interest rate on all U.S. Savings Bonds—for E Bonds, 5½% when held to maturity of 5 years, 10 months (4% the first year). That extra ½% payable as a bonus at maturity, applies to all Bonds issued since June 1, 1970 . . . with a comparable improvement for all older Bonds.
5. The government replaces it if a Bond is lost, destroyed, or stolen.
6. You never see the money. It's deducted and saved before you can get your ever-spending hands on it.
7. Our seventh reason is really hundreds of reasons. Bad reasons, like you may lose your job someday or a medical emergency might come up. Good reasons, like that trip you always wanted to take, retirement, a home, a college education, a boat, a car or whatever else you may see in your future.

Bonds are safe. If lost, stolen, or destroyed, we replace them. When needed, they can be cashed at your bank. Tax may be deferred until redemption. And always remember, Bonds are a good way to save.
