Austin — Car and home owners had encouraging promises of lower insurance rates from high level sources last week.

Gov. Dolph Briscoe threw his weight behind a modified form of competitive auto insurance rating, subject of an unsuccessful special legislative session last year.

The State Board of Insurance issued new rules and regulations which it pledged would bring lower rates for fire, homeowners and extended coverage policies.

Basically, what both plans would do is permit companies to deviate from the standard rates issued annually by the Board.

A bill introduced in the House and Senate undertook to permit the auto deviations — either below or above the standard rate

on showing that companies could make the change without endangering their solvency.

Companies would apply to the Board for deviated rates, and reductions (or increases) would be permitted if they meet tests of fairness to customers and financial stability for the companies.

While Briscoe expressed confidence the bill, if enacted, would mean substantial rate cuts, some remained skeptical that the so-called high risk driver wouldn't pay more under it.

Rate deviations on property insurance are permissible under state law and can be implemented by the Board's regulations.

Meanwhile, the House concurred in Senate amendments and sent to Briscoe HB 143 which would

After high school, will your kid go to work, or to college?

High school is the end of Free Education.

If your child decides to go on to college it'll take money. Lots of money. Money that you should probably be saving right now.

And there's no better way to start a college savings fund than by joining the Payroll Savings Plan where you work. That way an amount you specify will be set aside from each paycheck and used to buy U. S. Savings Bonds. Before you know it you'll have a nice little college fund on hand.

Now there's a bonus interest rate on all U. S. Savings Bonds—for E Bonds, 5 1/2% when held to maturity of 5 years, 10 months (4% the first year). That extra

3 1/2%, payable as a bonus at maturity, applies to all Bonds issued since June 1, 1970... with a comparable improvement for all older Bonds.

Join the Payroll Savings Plan. And, if your child keeps studying and you keep saving, you'll both be ready for college.

Bonds are safe. If lost, stolen, or destroyed, we replace them. When needed, they can be cashed at your bank. Tax may be deferred until redemption. And always remember, Bonds are a smart way to save.

Take stock in America. Now Bonds pay a bonus at maturity.

U.S. Department of the Treasury and the Advertising Council

authorize \$2,500 medical payment and loss of income coverage for auto passengers. The coverage would be included in all liability policies unless specifically rejected. Whether the new law would help lower or raise rates was a subject of debate.

MEETINGS LAW SIGNED — Governor Briscoe signed into law legislation (HB 3) to strengthen open meeting and predicted it will bring more "responsiveness and openness to government. Stiffer fines and a jail term are provided for violators.

The newsman's shield bill to protect confidential sources of information went to conference committee, as expected, and an attorney general's opinion concluded parts of the Senate revision are unconstitutional.

A Senate committee version of a new lobby control act was rapped by House Speaker Price Daniel Jr. as a "step backward" and by "Common Cause," the people's lobby, as "a joke." Changes were predicted after critics said the Senate panel bill is weaker than the 1957 act.

The Senate, meanwhile, passed another of Daniel's so-called reform bills prohibiting "legislative bribery" in exchange for support of a candidate for speaker.

JOB DISCRIMINATION REPORTED — Minority group members who work for the state generally hold lower paying jobs, even though their employment level has improved somewhat, Texas Legislative Council reported in a new survey on ethnic groups in government.

The Council found the percentage of Negroes working for the state has risen from 9.20 per cent of the total number of employees five years ago to 10.9 per cent, and the percentage of state employees with Spanish surnames from 7.8 per cent in 1968 to 9.02 in 1972. Blacks comprise about 12.5 per cent of the state population and Mexican-Americans more than 18 per cent.

A group of legislators, responding to the report, scheduled a series of meetings with state agencies which they claimed demonstrate "discriminatory employment practices" directed against blacks, Mexican-Americans and women.

Short Snorts

Forty-six million dollars has been allocated to Texas for manpower programs during the 1974 fiscal year under the federal manpower revenue sharing program; larger cities will get \$34 million.

Cigarette tax revenue declined \$229,592 from March 1972 to March 1973.

Bad weather has damaged highways in Texas about \$28.4 million worth during the last winter.

A bill providing for a statewide program to treat chronic kidney diseases has gone to the governor.

Thoughts

From The Living Bible

So they brought the colt to Jesus and threw some of their clothing across its back for Jesus to sit on. Then the crowds spread out their robes along the road ahead of him, and as they reached the place where the road started down from the Mount of Olives, the whole procession began to shout and sing as they walked along, praising God for all the wonderful miracles Jesus had done. "God has given us a King!" they exulted. "Long live the King! Let all heaven rejoice! Glory to God in the highest heavens!"

47 Year Old Cotton Sold

Fifteen bales of hand picked cotton, some of which had been stored for nearly 47 years, were sold Monday.

Mr. and Mrs. Eugene Brooks, who live in the Lometa community, raised the cotton and stored 30 bales in a barn from 1926 to 1934.

The last 15 bales were sold to Roy Jacobs, a Ballinger cotton buyer, who loaded it out Monday about 10 a.m. Fifteen of the 30 bales originally stored were sold to Ewald & Sons, cotton buyers of San Angelo. Mr. Brooks continued to hold the last 15 bales for a higher price.

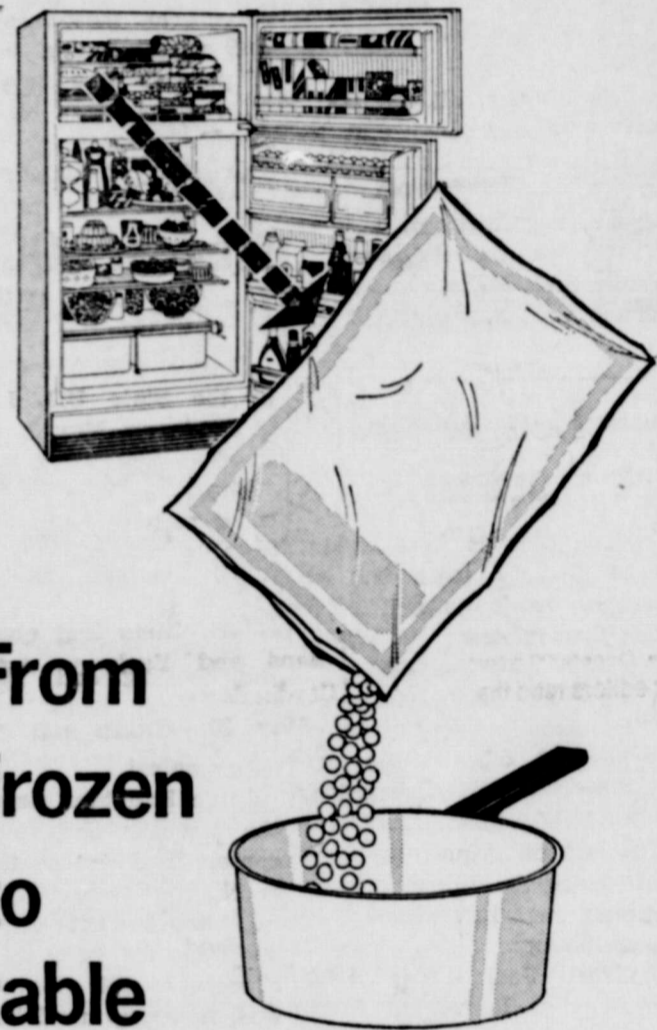

The Brooks family and nearby neighbors, the Fred Havins family, former residents of Lometa community and now of Midland, harvested the cotton crops by hand.

**FISHING REPORT from Lake Spence**

Some persons thought for awhile that warm weather had come to stay in West Texas. However, the latest blast of cool weather sent the mercury down to below freezing in several West Texas counties last week with Coke County and Lake Spence among those areas getting chilled.

The sudden surge of cold weather has driven fish from the shallows and anglers are now picking them up in water around 10 feet deep at Lake Spence.

Black bass are still carrying eggs and biologists are saying that they will return to shallow water regions as soon as the water temperature gets back to around 55 degrees.

Some good striped bass are still being taken by trotline fishermen at Lake Spence. The big exotic stripers are moving into the river section of the lake. The imported species have yet to spawn in Lake Spence and fishery men are keeping their fingers crossed in hopes that this might be the year for young stripers to be noted in Spence.

The "salties" have been imported from northern states in fingerling size.

# Seven sensible reasons why you should join the Payroll Savings Plan.

1. You'll save money.
2. It's easy, all you do is sign up once and money is automatically set aside from each paycheck.
3. The money is used to buy U.S. Savings Bonds. There isn't a safer way to save.
4. Bonds now pay the highest interest rate ever. There's a bonus interest rate on all U.S. Savings Bonds—for E Bonds, 5½% when held to maturity of 5 years, 10 months (4% the first year). That extra ½% payable as a bonus at maturity, applies to all Bonds issued since June 1, 1970... with a comparable improvement for all older Bonds.
5. The government replaces it if a Bond is lost, destroyed, or stolen.
6. You never see the money. It's deducted and saved before you can get your ever-spending hands on it.
7. Our seventh reason is really hundreds of reasons. Bad reasons, like you may lose your job someday or a medical emergency might come up. Good reasons, like that trip you always wanted to take, retirement, a home, a college education, a boat, a car or whatever else you may see in your future.

Bonds are safe. If lost, stolen, or destroyed, we replace them. When needed, they can be cashed at your bank. Tax may be deferred until redemption. And always remember, Bonds are a proud way to save.

## Firemen Attend Hill Country Meeting

Bronte volunteer firemen were among the approximately 400 persons who attended the Hill Country Firemen's Spring Convention at Rowena last Saturday. Three of the local firemen participated in the contests and brought home some trophies.

The morning session, conducted in St. Joseph's Parish Hall, consisted of a business meeting, entertainment by young people of Rowena. A luncheon for women present was provided at noon by the Rowena Auxiliary. The afternoon session concluded the business and a memorial service was conducted by Rev. Andy Daniel, association chaplain from Sterling City.

Races were held despite the rain which fell intermittently, but apparently did not dampen the spirit of the firemen. Frank Jackson, Wendell Lee and Roy Stout

were the Bronte firemen participating in the races. They brought home a trophy for second place in water polo and won fifth place in the three man horse race.

Fire Chief Jack Lee said the Bronte men were rated underdogs, as two of them had practiced only once and the other man none. He said, "Their spirit and determination is symbolic of Volunteer Fire Departments."

Other Bronte firemen and wives attending were Mr. and Mrs. Jack Lee, Mr. and Mrs. Larry Saunders, Mr. and Mrs. Marvin Bryant and Steve Badley.

Mmes. Willie B. Millikin, H. O. Whitt, Charles Ragsdale, Margaret Martin, Clara Grigg and Wade Rees attended the show on Thursday night on Mexico at the city auditorium in San Angelo.

## FIRST AID COURSE COMPLETED BY 15

The Standard First Aid Course which was recently conducted at the Bronte Fire Station has been completed by 15 Bronte men. Fire Chief Jack Lee, who is a qualified Red Cross instructor, taught the course.

Completing the course were Fred Alley, Steve Badley, Marvin Bryant, L. O. Clark, Wesley Globbs, Frank Jackson, Wendell Lee, Bill Lockett, Jim Mackey, Harry Morris, Mickey Pierce, Manuel Reyes, Roy Stout, Bill Thomas and Louis Thornton.

## Notaries Public Must Renew

Secretary of State Mark W. White Jr. announced this week that all presently commissioned Notaries Public desiring reappointment for the new term which begins June 1, 1973, and ends June 1, 1975, must pay the required fee and file a new oath and bond with County Clerk Mrs. Winnie Waldrop, between May 1 and May 15, 1973, inclusive.

Secretary of State White further stated that any person not now a Notary Public who desires appointment for the beginning of the new term on June 1, 1973, should apply to the County Clerk before May 14. The required application forms may be obtained from Mrs. Waldrop.

White emphasized that Notaries Public should not send requests for appointment or for commissions directly to the Secretary of State inasmuch as the law specifically requires that the county clerk approve Notary Bonds and forward copies of the application to the Secretary of State.

## MRS. HEANER PRESENTS PROGRAM ON RELIGIONS

Mrs. Heaner also told of some of her experiences while she was serving as a Methodist missionary in India.

Refreshments of sandwiches, ice cream and Russian tea were served to guests, Mrs. Heaner and Mrs. Wade Rees, and to members, Mmes. J. F. Hughes, Leslie Rolls, McQueen, Cecil Kemp, Otis Smith, Charles Ragsdale and Martin.

Mr. and Mrs. Grubb and children moved to Arizona the past weekend. Mr. Grubb has worked for the Borden Co. in Lubbock for 13 years as plant superintendent and was transferred to Phoenix.

While stationed in San Antonio, Texas, in 1957, Rev. Bob Terrell was saved by the Lord Jesus Christ and was called to the ministry of His gospel. He subsequently was licensed to preach by the Southern Baptist Convention.

Rev. Terrell has served as pastor of Southern Baptist churches in Louisiana and Oklahoma until 1969. Since that time he has been ministering in home Bible studies and charismatic meetings in southern Oklahoma and northern Texas.

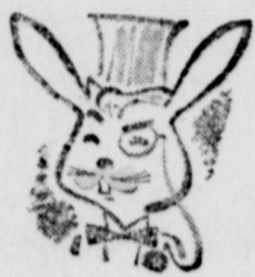

Rev. Terrell received the baptism in the Holy Spirit while in the armed services of the U. S. in Saudia Arabia in 1958.

Rev. Terrell has a Spirit-anointed ministry of teaching and ministering the Word of God with signs following this ministry.

# Farmcast

A Weekly Report Of Agri-Business News

Compiled From Sources  
Of The Texas Department of Agriculture  
John C. White, Commissioner

**Still Only Six... Sheep and Lamb Feeding Spurts Upward... Down But Still Up... Report Suspected Cases.**

With all the furor being raised about how high farm prices are these days, a government report still notes that only six commodities are above parity. Overall parity is now pegged at 82 per cent, which means the agricultural segment of our economy is still 18 per cent below being on an equal par with the rest of the economy. For the record, those six com-

modities which are above parity include hogs, beef cattle, calves sheep, wool, and mohair. Lamb and oats which were above par in February have now slipped under that ratio.

No crop is reported at or above parity prices. Cotton's average price of 21 cents is almost 40 cents per pound below effective parity. Grain sorghum at \$2.77 per cwt. is down two cents from February and almost a dollar under parity. Wheat at \$2.16 per bushel is \$1.05 per bushel under parity. Corn at \$1.75 per bushel is 41 cents below

parity. Oats, which were above parity in February, now average \$1.05 per bushel, a penny per bushel under parity.

Hog prices in Texas as of March 15 averaged \$37.20 per hundred pounds; that is \$3.30 per cwt. above parity. Calves at \$63.40 per cwt. are \$13.80 above parity. Sheep at \$19 per cwt. are \$7.50 above parity. Lambs at \$41.60 per cwt. are 30 cents under parity.

A NINETY per cent increase in sheep on feed is reported in Texas compared with a year ago. Dry-lot sheep feeders with a lot capacity of 2,000 head or more had 93,000 sheep and lambs on feed for slaughter as of April, according to the Texas Crop and Livestock Reporting Service.

This is 26 per cent above the number on feed a month earlier and a whopping 90 per cent above the number on feed April 1 of last year.

Placements during March totaled 51,000 head. Marketings during March were 32,000 head, 1,000 above the intended marketings reported earlier.

Current intentions are incomplete because additional lambs could still be placed on feed and marketed during the period.

RED MEAT production is up and down in Texas. Commercial slaughtering plants in Texas produced 171,400,000 pounds of red meat during February. This is down 12 per cent from the previous month but three per cent above the amount produced in February 1972.

Nationwide, commercial production of red meat during February was down five per cent from a year earlier.

GROSS income from chickens sold in Texas during 1972 was \$300,000 from 1971.

Cash receipts for chickens sold were \$4,700,000, up from the 1971 cash receipts of \$4,400,000. The number of chickens raised during 1972, excluding commercial broilers, decreased 11 per cent from the previous year.

SUBMIT suspected screwworm samples to the fly laboratory at Mission. This year is off to a good start in controlling the screwworm for 1973, but continued reporting of suspected samples is imperative if the program is to succeed, authorities at the fly plant at Mission emphasize.

County agents and vocational agriculture teachers have vials in which the samples can be mailed.

**JUGGLING POVERTY FIGURES.** American taxpayers have contributed rather liberally to help the poverty stricken. But where is the line drawn between poverty and non-poverty in this classification process?

Today's official poverty definition applies to a family of four, not living on a farm, with an annual cash income of less than \$4,137.

This relates to cash income and disregards any other form of benefits.

In view of this basis for drawing the line, a federal inter-agency committee is now examining the possibility of recomputing these figures so as to take into account non-cash form of income.

It will be recalled that the sixties saw the creation of a maze of Great Society subsidies for the poor, from food stamps and Medicaid to manpower training and housing assistance, none of which are included in the Census Bureau's computation of who is and who is not below the mythical poverty line.

THAT MISS JANE FONDA, who said POWs who claimed mistreatment at the hands of their captors were "liars and hypocrites," is running into a peck of hostility as she parades her left wing pro-Hanoi doctrine. In Los Angeles the other day hecklers hanged her in effigy as she addressed 1500 college students.

Lt. Comdr. David W. Hoffman, it turns out, was one of the prisoners produced by the Communists to be seen by Miss Fonda and Ramsey Clark when they were in Hanoi, following which both at-

tested to good treatment being accorded the Americans.

Hoffman explains that he was tortured into "greeting" the two propaganda visitors — Fonda and Clark. The ex-POW reveals how he was coerced into the meeting.

"I had a broken arm," said Hoffman. "It was in a cast. I was hung by that broken arm several times and allowed to drop at the end of a rope from a table which was kicked out from under me."

## Today's Health News

Published by the American Medical Association

When little Marie Hothand burned her finger on the stove, she cried for 10 minutes while her parents argued about what to do. Mrs. Hothand reached in the refrigerator for a stick of margarine to rub on the wound, but her husband insisted on using baking soda. Both of them were wrong, victims of old wives' tales that make good reading but little medical sense. Grease, ointments, and baking soda are not recommended for burns, according to the doctors surveyed by Today's Health. Today, immersion in cold water and application of ice are the recommended treatments.

But that's not all, according to our medical experts. Here, then, is their list of other medical fallacies to be avoided in emergency situations.

Tourniquets are out — they destroy tissue and stop circulation. Instead, stop excess bleeding by applying pressure to the wound. Use a tourniquet only when a decision must be made between loss of life or loss of limb.

A slap on the back is a good greeting for an old friend, but for one who is choking, it may be a goodbye. Most choking situations arise when a large chunk of food is lodged in the throat. A slap on the back will only cause the victim to involuntarily gasp in air and suck the blockage down further. Yet, in most cases, the solution is simple: Open the victim's

mouth and reach into the back of the throat with a finger and hook out the object, being careful not to push it further down. If unable to reach the obstruction with a finger use a fork, salad tongs, anything that will serve the purpose.

Iodine and other antiseptics, once daubed on every wound, also have lost ground to washing with plain old soap and water. Medical experts say that soap and water are more effective in eliminating germs — by killing and washing them away — and don't carry a risk of side effects.

And, finally, for cases of poisoning, stay away from the concoctions touted as universal antidotes (this includes the old home-brewed mixture of burned toast, tea, and milk of magnesia!). All of the physicians interviewed by TH recommended that syrup of ipecac, available at any drugstore, be included in every medicine chest. Ipecac is used to induce vomiting and should be given except when definitely contraindicated as in poisoning from a petroleum product, bleach, lye, and other alkali solutions, which often call for stomach pumping. Nor should vomiting be induced if the victim is unconscious or suffering from convulsions.

**Immunization Program Set**

Immunization injections will be available for children of the area Friday, April 27. Parents whose children have not been immunized should bring them to the school between 8:30 and 11 a.m.

The program provides protection against polio, diphtheria, tetanus, measles and rubella.

Pre-school children who will start to kindergarten next fall are especially urged to take advantage of the immunization program, since the shots are required before a child will be allowed to start to school.
