Texas Farmers Asked To Return Forms

Letters appealing to 99 thousand Texas farmers to return completed report forms for the 1974 Census of Agriculture are being mailed by the Bureau of the Census. In January, 323 thousand forms were mailed to Texas farmers and residents associated with agriculture and so far, 69 per cent have been mailed back or otherwise accounted for.

Bureau officials say this is the last in the planned series of follow-up letters, as collection data is scheduled to be closed out June 30. In addition, telephone calls are being made to selected farmers who have not yet returned the forms in

order to obtain information about their 1974 agricultural operations.

Everyone who received a form should return it, even those not actively engaged in farming, such as landlords or those no longer farming. That information can be noted on the form which should be mailed back in the envelope provided.

Response to the census is mandatory by law. By the same law, all information about individual farms is confidential and can be used only for statistical purposes.

Farmers can refer to farm business records for many of the figures called for in the form. When records are not available, reasonable estimates are fully acceptable, Bureau officials said. Return of the completed forms is essential in order that published statistics on agriculture for each county and for the state will be accurate.

Results of the census will affect farmers and ranchers in many ways. Major agricultural suppliers and marketing organizations base their decisions on census statistics. Thus, they can affect the availability of goods and services in many farming communities.

Any future allocation programs for such critical production inputs as fuel and fertilizer will bear a direct relationship to the crop acreages and animal units reported in the census.

Farmers and ranchers have filled out and returned the forms from a low 59 per cent in Louisiana to a high of 77 per cent in West Virginia.

LETTERS TO THE EDITOR

Mr. Oglesby:

Just a moment of your time to file a complaint. For the past two years, Dry Division of the Wallace-Murry (sic) Corporation, located in Winters, Texas has sent you a write up with pictures on the scholarship program sponsored by that division. Neither year has this bit of news seemed important enough to be printed in your paper. Evidently (sic) you have no idea as to how many people have worked, and are now working for Dry's, that are from Bronte and the surrounding area. They might be interested in what has happened to some of the people that they have worked with.

But let something (The Danny Parker Incident) that has been nationally televised, covered thoroughly by radio and all surrounding papers—this rates front page with you. In my opinion and from several others from the talk around town, this was in extremely poor taste. This family has suffered untold embarrassment and heart break over the past several years. The least you could have done was to have thought of them.

Peggy Jackson
Bronte, Texas

Dear Mrs. Jackson:

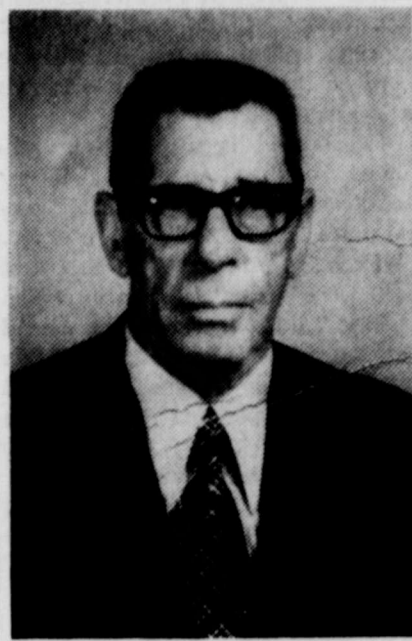

Thank you for your letter. It didn't exactly make us jump up and down with the joy of knowing that a reader approves our handling of various situations, but it did let us know that we have at least one reader who is aware of what does and does not get printed in The Enterprise.

The first paragraph of your letter leaves me a little non-plussed. We surely appreciate the Dry Division of Wallace-Murray Corp. and all it does for the citizens of this area. In fact, Hal Dry is a personal friend of mine. But, Mrs. Jackson, we have been receiving the press releases a lot longer than the two years you mention above, and so far as I can remember only one Bronte kid has ever received one of these scholarships. And, believe you me, we ran his picture. It's a little difficult in our limited way, to cover Bronte area news properly, and it always has been and shall continue to be our policy to let the Winters Enterprise cover Winters news.

The second paragraph of your letter relates to one of many past incidents involving the Danny Parker. Do you suggest that I ignore news of this kind? Really, I think your second paragraph is hardly deserving of an answer.

Thanks again for writing.

Sincerely,
Ben Oglesby

Lone Star Gas Asks Rate Raise

Bronte, June 19 — Lone Star Gas Company's local representative, H. K. Russ, today requested that Bronte city officials enact an ordinance increasing residential and commercial gas rates 10 cents per thousand cubic feet. The adjustment, he said, is requested to offset the increase in the city gate rate to 94.19 cents per thousand cubic feet which was authorized by the Texas Railroad Commission on May 1. The increase in the city gate rate authorized by the Commission is consistent with the position taken by the cities

in their testimony at the hearing in March.

The cities' presentation indicated that Lone Star needed an increase in this amount to provide a reasonable rate of return.

Mr. Russ explained the city gate rate applies to natural gas delivered by Lone Star's Transmission Division to its distribution division for sale to residential and commercial users.

Russ said the increase will raise the average residential gas bill in Bronte by about 8.2 per cent.

The requested increase follows a Texas Railroad Commission emergency order giving Lone Star a temporary increase in its city gate rate due to the company's increased costs for gas purchased to serve customers.

Lone Star officials noted that the latest figures available show that in February 1974, its average cost of gas was 30.68 cents per thousand cubic feet, and that it more than doubled to 72.29 cents by February 1975.

ENTERPRISE WILL BE CLOSED WEEK OF JUNE 29-JULY 5

There will be no Robert Lee Observer on Thursday, July 3, nor a Bronte Enterprise on Friday, July 4.

A law passed by the Texas Legislature a few years ago allows a weekly newspaper to continue its legal status by publishing 50 issues each year, where former requirements called for 52 issues per year.

The staff, and perhaps even our readers, are all looking forward to a week off. But we will be back.

Any printing which will be needed before the week of July 7, and any advertising relevant to the week of our closing should be turned in immediately.

We will have a paper next week.

Supplies the energy—but only YOU can use it wisely!

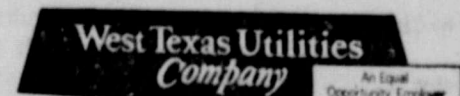

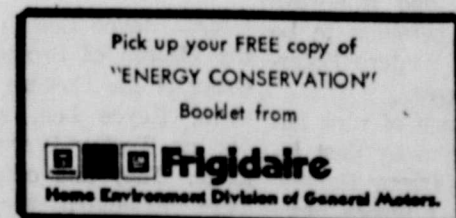

Reddy's helpful tips for your Room Air-Conditioners

Your air-conditioner will operate inefficiently if filters are not cleaned regularly. Dirt and lint, collected on the filters, restricts air flow to the coils. Clean filters every two weeks.

Let nature help you save energy by shading your home with trees and shrubs to help cut down on summer cooling costs. Draw draperies against afternoon sun.

Remember to keep outside doors, windows, and fireplace dampers closed. If you have window units, close the heating vents near the floor, as cool air falls and can escape through vents.

You purchased fine-home comfort when you bought your air conditioning unit. Properly maintained, it will offer you years of efficient service. A once-a-year check-up by your dealer pays dividends in savings on operating and breakdown costs.

G. C. "Cleve" Casey

Cleve Casey Among Honorees Over 90

By Mrs. Bryan Yarbrough

Grover Cleveland "Cleve" Casey was born in Arkansas Nov. 8, 1884. His parents were Jesse James Morrow Casey and Elizabeth Irvin Casey. His father never used the full name "Morrow." He signed his name as J. J. Casey. Both the father and mother were born in Arkansas.

The Caseys left Arkansas when Cleve was two years old and came to a place 18 miles from Waco Tex., where Mr. Casey's brother, Marion Casey, lived.

They moved to a little place 15 miles west of Merkel in Taylor County. While there, Cleve and the other Casey children attended Butman School in District 28. His teacher was O. E. Templin. A prized possession of Cleve is a souvenir of the school (given to him by the teacher) which contains a picture of the teacher and a list of the students. There were 73 enrolled with 66 of those who had remained in school all year listed in the neat folder. Cleve says the average daily attendance was 63.

The Caseys moved to Coke County when Cleve was 13, arriving "the 19 or 20 of December—a few days before Christmas." Cleve attended the Valley View School, a one teacher school with a large number of students. His teachers at Valley included N. C. Brown, Miss Lou Wilkins and Henry T. Carter.

Cleve remembers that Henry Carter had the children practice writing for 30 minutes each morning, and Cleve won the award for making the most progress in penmanship. Carter had speaking every Friday afternoon and sometimes had students to diagram sentences on the blackboard during the speaking. Carter often had Cleve to diagram a sentence, which Carter liked because he said, "Cleve can draw the neatest diagram." But Cleve says, "I couldn't explain the diagram, so Mr. Carter always had one of his boys to explain what I had drawn."

Cleve was married to Mary Parker Dec. 20, 1906. She died and he subsequently married Rosa Martin, Bertha Hamilton and Viola Gramling. His children, two sons and two daughters are Roy Casey, Robert Lee; Benny Frank Casey of Wyoming; Mrs. Irene Maples and Mrs. Sam Williams, both of Robert Lee.

HELP YOURSELF AND YOUR COUNTRY BUY U. S. SAVINGS BONDS

After high school, will your kid go to work, or to college?

High school is the end of Free Education.

If your child decides to go on to college it'll take money. Lots of money. Money that you should probably be saving right now.

And there's no better way to start a college savings fund than by joining the Payroll Savings Plan where you work. That way an amount you specify will be set aside from each paycheck and used to buy U. S. Savings Bonds. Before you know it you'll have a nice little college fund on hand.

Now there's a bonus interest rate on all U. S. Savings Bonds—for E Bonds, 5 1/2% when held to maturity of 5 years, 10 months (4% the first year). That extra

3 1/2% payable as a bonus at maturity, applies to all Bonds issued since June 1, 1970... with a comparable improvement for all older Bonds.

Join the Payroll Savings Plan. Add, if your child keeps studying and you keep saving, you'll both be ready for college.

Bonds are safe. If lost, stolen, or destroyed, we replace them. When needed, they can be cashed at your bank. Tax may be deferred until redemption. And always remember, Bonds are a good way to save.

Take stock in America.
Now Bonds pay a bonus at maturity.

If your house is insured at yesterday's prices, just hope it doesn't burn down tomorrow.

Inflation has raised the price of almost everything.

It would undoubtedly cost significantly more to replace or restore the things you own than your insurance was written to provide.

That's why it's vitally important for you to make sure your personal or commercial property and casualty insurance coverage is re-evaluated.

We as an independent agent are especially qualified to advise you. Because we are local, professional business people and we are very much aware of how inflation is affecting our community.

And we can give you expert, professional advice on insurance without any obligation to recommend any one of the many companies we represent.

Call us. We can sit down and examine your situation carefully and then figure out how to make sure your insurance still covers everything you think it covers. And that's what you really want, isn't it?

Now that you've retired, put your savings to work.

Trade your E Bonds for H Bonds

Bought a lot of Series E Savings Bonds over the years? Well, you probably want to keep your nest egg intact. But retirement is the time when you need some extra income.

Here's how to get that income. Just exchange your E Bonds (in cash value amounts of \$500 or more) for Series H Bonds. H Bonds pay out interest every six months by Treasury check mailed right to your door, and at a rate averaging 6% annually when held to 10-year maturity.

Just the thing for retirement, when you need steady income coming in.

You'll get a tax break on the exchange, too

When you exchange your E Bonds for H Bonds, your tax liability on your accumulated E Bond interest continues to be deferred. Right up until the H Bonds are cashed or reach final maturity (there's an optional 10-year extension privilege after original maturity).

The result? You get more for your money in the exchange. And when your H Bonds are redeemed, and you finally pay your deferred E Bond tax, it's at your lower post-retirement rate.

Get income as it's earned

Steady, dependable income. Twice a year. Or, if you prefer, get interest checks every month. Just buy an H Bond a month for six consecutive months. That way, you've got a regular income guaranteed.

Purchase \$500 to \$5,000

Your banker has exchange (as well as new purchase) applications for H Bonds. At face values of \$500, \$1,000 and \$5,000. There's an annual purchase limit of \$10,000 (\$20,000 with a co-owner), but this won't apply if you're trading in E Bonds.

H Bonds. A good way to make sure your money won't retire when you do.

Take stock in America.

Buy Series H Bonds—
now averaging 6% when held
to maturity of 10 years.
