SUNDRY CIVIL BILL.

THE HOUSE CONSIDERING SENATE AMENDMENTS.

Some are Agreed to, Others Rejected.—The Tariff Situation Remains Unchanged, Nothing Definite Having Been Done—Ricks' Committee.

WASHINGTON, Aug. 13.—The disputed senate amendments of the sundry civil bill were settled by the house Saturday after a session of animated debate. One was the proposition to give each of the arid lands states one million acres of surveyed arid lands to be reclaimed by irrigation, the plan which the house agreed to after the irrigation question had been discussed by many western members. The other amendment was the appropriation of \$250,000 to purchase a square owned by ex-Senator Mahone for a site for the government printing office and this was defeated, the house adopting a plan proposed by Chairman Bankhead of the committee on public buildings, to buy additional ground adjoining the building now in use. This action leaves still unsettled between the house and senate a question which has caused many disagreements.

The Tariff Bill.—WASHINGTON, Aug. 13.—Nothing definite was done regarding the tariff bill Saturday. Representatives Wilson and Montgomery of the house conferees, and Representative Strauss of Secretary Gresham at the Arlington hotel Saturday night, at which the situation was discussed and careful consideration given to the proposition to have the house take the senate bill in its entirety and subsequently remedy any defects by passing separate bills. Mr. Thurber came over to the conference with a message from the president. A report was in circulation that the bill had been decided to take the senate bill, but Representative Strauss, after the conference, said that to course had been decided on, but that the policy to be pursued was still a matter of speculation.

Bankruptcy Amendments.—WASHINGTON, Aug. 8.—Yesterday Senator George offered additional amendments to the uniform bankruptcy bill as it passed the house. Preference to debts due to servants and laborers is limited to those for labor done within a year. The debts due to any person arising from the debtor's dealings with the person while a minor as executor or guardian are excepted from the preference. Provision is made for auditors to be appointed by courts for carrying out the business of a failed firm under the act, and their powers and duties are designated. Oaths may be administered under authorized state officers. Dockets must be kept with records of cases.

Armor Plate Investigation.—WASHINGTON, Aug. 11.—The investigation of the alleged Carnegie armor plate frauds was resumed yesterday. Captain Sampson, the chief of the ordnance bureau of the navy department, was the witness. The principal matter of interest was in his opinion, the method of treatment of armor plate, concerning which he said that a plate hardened in one section and softened in another was not to be depended upon. Capt. Sampson said a plate could not be considered uniform if specimens from different parts varied 20,000 pounds in tensile strength. In an extreme case a difference of five or ten pounds might be permitted.

Split on Hill's Substitute.—WASHINGTON, Aug. 10.—The conferees on the immigration bill met yesterday and adjourned after two hours of discussion without reaching any agreement. The differences are wide, as Senator Hill's bill, most of which relates to the exclusion of anarchists, bears little resemblance to the measure introduced by Representative Stone of Pennsylvania for consular inspection on immigrants abroad, for which the anti-anarchist bill is a substitute.

The Ricks Investigation.—WASHINGTON, Aug. 13.—Representative Bailey of Texas says that the subcommittee of the judiciary committee, that is to investigate the charges against Judge Ricks, will go to Cleveland, O., for that purpose. The trip will be made after congress adjourns, unless the present session is unduly prolonged, in which case the subcommittee will make the investigation before the adjournment.

The recognition of the new republic was finally decided upon this week and the message was framed and mailed Wednesday through the regular channels.

Democratic Caucus.—WASHINGTON, Aug. 8.—Chairman Wilson and his house tariff conferees scored a victory yesterday when the house Democratic caucus, called with a view of terminating the tariff struggle by instructing or advising the house conferees, adjourned without taking action. The effect of this was to leave the house conferees to do as they saw best and to show conspicuously that the effort to advise them had failed.

No Agreement Yet.—WASHINGTON, Aug. 7.—The tariff conferees

to be able to announce an agreement yesterday. Instead of reaching any definite conclusion, the day closed with the bill in quite as much uncertainty as ever before in its history. The situation is in no wise improved and with the feeling between the friends of the senate and house bills intensified instead of allayed and with no one prepared to say that the outcome would be, or when the end would be reached. It was apparent at the very beginning of the conference that those who came to the conclusion at the adjournment of Wednesday's session that an agreement would be arrived at yesterday had not taken sufficiently into account the possibility of a misunderstanding or a change of mind. This discovery was made when the senate conferees prepared to go on with the bill on a basis of a duty of 10 cents per ton on coal and iron ore. Upon this the house conferees announced their unwillingness to assent to this arrangement and stated that they would insist on the reversal of the terms with coal free and iron ore dutiable, if either was to be, as they understood that they were to have a choice between the two. The avowal of this position put the senate conferees in a position as to the siding scale on the bill which were not altogether polite. The result is that the senate bill must virtually be accepted or no bill pass.

Never Will Agree.—WASHINGTON, Aug. 11.—The skies of tariff legislation are bright no longer. They are dark with clouds that have settled on them. In fact, in the mouth of every person you meet is the remark: "All chance of an agreement is dead." Senator Hill offered a resolution yesterday instructing the senate conferees to report disagreement, and in explanation he said: "My object in offering the resolution was to expedite the disposition of the tariff measures. Every day's delay is injurious to the business interests of the country and the bill should be disposed of at once one way or the other. It has now been under consideration in conference committee for over a month, and further delay is absolutely inexcusable. The conferees ought to know each other's minds by this time, and if they cannot agree on the fact of such disagreement should be reported to the two houses, when, if no understanding can be reached upon a bill congress should promptly adjourn and give the country a rest. We have now been in session for nearly a year and have had ample opportunity to legislate. A senator or member who does not know exactly what he wants to do on the tariff after all this time spent in useless deliberation is unfit to represent any constituency. We have deliberated enough."

Tariff Conference.—WASHINGTON, Aug. 8.—The tariff conference yesterday was entirely subordinated to the house caucus and was devoid of interesting features. The conferees held two brief sessions during the day and discussed the coal and iron questions, besides reverting to the sugar schedule. The talk, however, served no purpose except to emphasize the fact that the disagreement is still unbroken and that very little if any progress is being made. The purpose of taking up of the sugar schedule again cannot be learned. It is also impossible to ascertain what reason the house conferees assigned for declining to accept the siding scale on coal and iron ore proposed by the senate conferees. It would appear from all information that can be secured that without giving any special reason they resumed their argument for free raw material. It has come to be understood that in these meetings the house members are doing the greater part of the talking and the senators have come to be very passive listeners.

Tariff Agreement Proposed.—WASHINGTON, Aug. 9.—The gloomy outlook for tariff legislation except to dergone a market change and all Democrats are hopeful, many of them sanguine. The Democratic conferees met yesterday in a more conciliatory spirit. They came together gradually and again the adjournment of congress within a few days is predicted to result in a compromise session. A basis of agreement was reached which may produce a speedy end of the tariff contention. The proposed agreement is that the recent sugar compromise shall in substance be accepted; that iron ore shall be placed on the free list, and that coal shall remain as in the senate bill, dutiable at 40 cents per ton. There are some other changes in the bill, but they are immaterial.

No Quorum.—WASHINGTON, Aug. 9.—Among the bills laid aside with favorable recommendations in committee of the whole in the house yesterday were bills appropriating \$200,000 for a building at Omaha, Neb., and \$100,000 for a building at Pottsville, Pa. The fight of the day came on the bill appropriating \$4,000,000 for the erection of a public building at Chicago on the present site. When on roll call, no quorum being present, the bill went over.

The Statehood Bill.—WASHINGTON, Aug. 7.—With the present session of congress traveling to a close and all attention likely at any time to be concentrated upon the tariff bill, it is not considered probable that the senate will act upon either the Arizona or New Mexico statehood bills before the final adjournment at Chicago on the 15th. The understanding when the bills were reported from the committee on territories, and nothing has occurred since after the situation in this respect.

The leader of the gypsies who stole her was Bartley Gorman, who was afterward hung for killing his wife. He once gave the girl a kick which nearly caused her death. The situation was more serious last night as 1000 strikers have been doing about as they please. Yesterday evening they forced their picket line to prevent forty-eight hours surrounded the packing plants under the walls of big buildings, and their number was increased by the addition of several hundred men. At 8:50 yesterday evening Mayor Johnson of South Omaha went before the Omaha police board and asked that a detachment of police be sent there, as he was powerless to control the lawless men. The board was informed that the governor was in consultation with the officers with a view of putting the packing house district under martial law.

The Terrors of Paralysis

Overcome at Last by the Advance of Medical Science.

The Testimony of a Man Who Was Half Dead for Four Years—To-Day as Well and Strong as Ever.

(From the Otago N. Y. Palladium.)
No citizen of this village is better known or more highly respected than Theodore J. Wheeler, who has lived here for nearly half a century. Five years ago he was stricken with paralysis and was in its worst form. The physicians said that he would surely die. But Mr. Wheeler did not die, and it is to tell the readers of the Palladium about his almost miraculous recovery that a reporter called upon him.

Despite his sixty-five years of age, and the intense mental and bodily afflictions he has been obliged to endure for nearly five years, Mr. Wheeler is still a fine looking man. He answered the reporter's ring at the door bell in person, and invited him into his cozy sitting room, where he told the following story:
"It was on the morning of Nov. 27, 1888, that I was stricken down. I attempted to get up in the morning as usual, when I found that I could not use my limbs or feet. At first I thought they were asleep and rubbed them briskly with my hands for several minutes, but without result. Finally I got back into bed and sent for Dr. S. M. Bennett of this village. He informed me that I had suffered what is commonly called a 'stroke of paralysis.' I could not believe it at first, but the numbness continued to spread, accompanied by a prickling sensation, until the entire lower half of my body, as well as my legs, was affected. My bowels and kidneys refused to perform their functions and I was only relieved by mechanical process. I was not satisfied with Dr. Bennett's diagnosis, and sent for Dr. Low, of Pulaski. He only confirmed Dr. Bennett's statement and advised me to get ready to die. For six months I lay in bed at the home of my niece, Mrs. G. A. Penfield, unable to turn over in bed, hardly, and requiring constant attention and care. Finally I grew used to my helplessness, and getting dressed would drag my body about the house, using my hands like an infant when creeping, but unable to help myself in the least with my lower limbs. There was not the slightest feeling in the lower part of my body and a needle thrust into my afflicted parts would not produce any sensation. One day I read in the Palladium of a Canadian gentleman who suffered from paralysis and who had found relief in Dr. Williams' Pink Pills. In this symptoms described by the sufferer I read an almost exact counterpart of my own affliction, and I determined to give the medicine a trial. Before I could hardly hope for results I began to feel a marked improvement in my condition. First my kidneys and then my bowels began again, after a lapse of four years, to perform their natural functions. The numbness left my body and the sense of feeling returned. This continued until the numbness had left my limbs entirely. Now I can go up to the village with one cane and in the house I go around without any. It is with the greatest pleasure that I recommend Dr. Williams' Pink Pills to the public. I know what they have done for me, and I believe they will help others similarly afflicted."

Dr. Williams' Pink Pills are prepared by the Dr. Williams' Medicine Company of Schenectady, N. Y., and Brockville, Ontario. They contain in condensed form all the elements necessary to give new life and richness to the blood and restore shattered nerves. They are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, sciatica, neuralgia, rheumatism, nervous headache, the after effects of grippe, palpitation of the heart, pale and sallow complexion, and the tired feeling resulting from nervous prostration; all diseases resulting from vitiated humors in the blood, such as scrofula, chronic erysipelas, etc. They are also a specific for troubles peculiar to females, such as suppurations, irregularities of the blood, restore the glow of health to pale and sallow cheeks. In men they effect a radical cure in all cases arising from mental worry, overwork or excesses of whatever nature. Pink Pills are sold in boxes (never in loose form, by the dozen or hundred, and the public is cautioned against numerous imitations sold in this shape) at 50 cents a box, or six boxes for \$2.50, and may be had of all druggists or directly by mail from Dr. Williams' Medicine Company from either address.

It Was Not Worth a—Mr. John B. Baker, of Galveston, Texas, got into a little row with Hulet, of Chattanooga, Tenn., a few days ago, and now she would like to pay for it what he would consider an exorbitant price. He is 70 years old, and is a grand father, and she is 25. It seems that she is visiting Galveston, and had occasion to bring her old man a glass of water. He had all liberty of kissing her hand, he was so grateful, and the hand was so pretty, and now she is suing him for \$10,000 for breach of promise of marriage.
