Orphans Receive 3-Ton Stew Mix

Orphans in Corsicana and elderly patients at Ennis received three tons of beautiful Castro County vegetables this week, thanks to a county-wide effort spearheaded by the Dimmitt Odd Fellows Lodge.

MEMBERS OF the Dimmitt lodge collected approximately 6,000 pounds of carrots, cabbage, potatoes and onions through the cooperation of La Mantia, Collum and Collier, Inc., and the H&S Produce Co. of Hart.

The Odd Fellows reported that growers donated their vegetables readily when contacted by lodge members and the two packing companies. The lodge pitched in with funds when they were needed to get the vegetables in and together for shipment.

LEE MEEKS volunteered to haul the vegetables free to the Odd Fellows Orphans' Home at Corsicana and the Home of the Aged at Ennis.

Last Rites Held For Mrs. Curtis

Funeral services were conducted Friday morning for Mrs. Nodie Mae Curtis, 75, who died at 7:40 p.m. Aug. 27 in Plainview Hospital.

LAST RITES were in the Bedford Street Church of Christ and were conducted by Ronnie Parker, minister. Burial was in Castro Memorial Gardens, under the direction of Dennis Funeral Home.

Mrs. Curtis had been a resident of Dimmitt for 34 years. She was born March 13, 1883, in Windom, Texas, and was the widow of Dan Curtis, long-time farmer here who died in July 1963. Her home was at 607 NW Eighth St.

SHE IS survived by five daughters, Mrs. Nell Youts of Dimmitt, Mrs. Elizabeth Bryant of Downing, Calif., Mrs. Inez Williams of Paris, Texas, Mrs. Thelma Henderson of Clovis and Mrs. Helen Price of West Covina, Calif.; two sons, Jack of Plainview and John of Lubbock; a sister, Mrs. Clarence Byrnes of Dimmitt; a brother, Homer Self of El Paso; 19 grandchildren and 11 great grandchildren.

Palbearers were J. B. Moore, John Ellis, Archie Bussay, Travis Campbell, Charles Youts and Roy Stafford.

Speeders Warned In School Zones

Felice Chief W. W. Jones said he is averaging a speeder a day in Dimmitt's school zones, and warned motorists to ease up on the accelerator.

"I'VE STOPPED three people during the first three days of school and warned them about speeding," he said. "I haven't issued any tickets yet, but I will if I have to. A driver is assuming an awful lot on the child's part when he drives too fast in a school zone."

Two Resign From Schools

Two vacancies were created in Dimmitt Public Schools Friday night when a grade school teacher and the schools' assistant curriculum director resigned.

MRS. JO PRATHER resigned effective Oct. 1, after learning that her husband, Capt. Dan Prather, is to return from Vietnam to be stationed at Fort Benning, Ga.

Virgil Young, who became the schools' first assistant curriculum director last year, resigned to join the Panhandle Educational Service Center (PESCO) in Amarillo. There, he will work with schools throughout the Panhandle on training aids and media.

Mrs. Prather and Young both gave 30-day notices, and Acting Supt. Weldon Skinner said he and the school board hope to find replacements for them before they leave.

"BOTH OF these people were anticipating these changes," Skinner said, "but we had hoped we wouldn't lose them as soon as we did. We regret their leaving, and wish them the best in their new endeavors."

Since Skinner took a temporary leave from his post as curriculum director to serve as acting superintendent, Young's resignation will leave the curriculum office vacant unless a replacement is hired before he leaves.

Second, I am firmly convinced that the supposed brainy people, who do the announcing for the major television networks, have been vastly over estimated as to intelligence and common sense. I, and I believe others, was thoroughly disgusted when the television announcers, and I believe without exception, shed crocodile tears for the way the Chicago police and the National Guard bashed in a few heads while enforcing the law of the land and the ordinances of the city. The television people did the nation a great disservice when they sided with the demonstrators, which no doubt included a large number of hippies, yuppies, many types of agitators and criminals of varying degrees. These people were out to disrupt a national political convention and to maybe commit murder as well as destroy property in every way possible. Instead of criticizing, the news media, television especially, should have supported Mayor Da'ey in his handling of the situation and for his instructions to the police force to nip the riots in the bud.

Sure there were some nice people in the crowds that filled the streets around the convention hotels in Chicago, but they were misled nice people and they know now that they were keeping the wrong company. In a crowd of rioters it is doubtful if a policeman has time to ask a person if he is nice people. The newspaper people that got their lumps should have stayed out of the mob, they don't have any special immunity when they decide to get involved in a fracas. Sometimes newspaper people, and lots of time television people, are just a little obnoxious anyway.

Thirdly, I am well pleased with and am satisfied that the Democratic party has a fine candidate team in Vice President Hubert Humphrey and Senator Edmund Muskie. They are both fine honest conscientious men who are well qualified to fill the office of president and vice president. It was heartening to know that the democratic nominees endorsed the decision of the Mayor of Chicago to suppress riots and unlawful demonstrations. There has been a lot said about the breakdown of law and order in the United States in recent years, maybe the events in Chicago last week heralds a change in the complacency of administrators and law enforcement officials.

Fourthly, the much publicized sp'it, greatly magnified by the excited television announcers, was only a little splinter. The splinter group headed by Senator McCarthy will come back into the fold, they don't have anywhere else to go. The Senator may put and refuse to cooperate with the majority, but he will find that he isn't very popular with the Democratic majority in the Senate when that body reconvenes.

END OF SKID — This 1968 Chevelle was virtually demolished at 2 a.m. Saturday when it skidded 218 feet down Oak Street and across Front Street, jumped a curb and collided with a parked pickup in the front yard of E. B. Minchew, 805 Front St. The car's driver, Jerry Cockreham, 28, of 715 Oak St., escaped serious injury. Patrol-

men Fred Moulton and Ellis Butler estimated Cockreham's speed at 55 mph before the accident, and cited the driver for failure to control speed. Damage was estimated at \$100 to the rear fender and bumper of the Red Barn Chemical Co. pickup in Minchew's yard.

County Enrollment: 2,830

A total of 2,830 students were enrolled for the first day of classes at Dimmitt, Hart and Nazareth public schools.

THIS IS a 124-pupil increase over the county's first-day enrollment last year.

Enrollment is up by 93 in Dimmitt schools, up 32 at Hart, and down one at Nazareth.

School officials explained that the first-day figures won't hold up long because the enrollment always climbs during the first week or two of classes.

Acting Supt. Weldon Skinner reported that the enrollment in Dimmitt Public Schools now stands at 1,821, including Head Start and new pre-school classes. This is 93 more students than were registered on the first day last year.

DIMMITT High School showed the most marked gain with 470 registered for the first day — 45 more than the starting figure last year.

Other Dimmitt school totals for the starting day: Dimmitt Junior High: 267, down two.

North Elementary: 465, up nine. South Elementary: 559, down 19. Besides these pre-school totals, Skinner explained, 66 additional pupils are on the roster this year because of two new classes for pre-schoolers.

SUPT. TED AVERITT of Hart reported that first-day enrollment was 662, which is 32 more than last year but still less than the year before. Averitt said the enrollment figure includes 266 high school and junior high students and 395 elementary pupils.

AT NAZARETH, Supt. John Slavik reported a first-day enrollment of 347, just one student less than last year at the same time. This includes 85 in Nazareth High School (down five from last year) and 262 in elementary and junior high grades (up four).

Youth Fair on Tap Saturday

Adults may learn a trick or two when the county's 4-H clubbers, FFA boys and FHA girls display their wide range of products in the annual County Youth Fair.

THE 1968 Youth Fair will be held in the courthouse basement from 9:30 a.m. to 4 p.m., and 60 to 80 youths are expected to enter hundreds of exhibits.

Boys will be shooting for the top title of Champion Farmer, while girls will go after blue ribbons in both junior and senior divisions. Boys and girls both will compete for the title of Champion Gardener.

Bill Simpson and Robert Duke are co-chairmen of the Individual Farm Products show, while Mrs. Joe Smith heads the Home Products exhibition. Department superintendents in the girls' competition are Mrs. Smith, baking; Mrs.

Milton Bagwell, clothing and household linens; and Mrs. David Acker, canned fruits and vegetables.

EXHIBITS must be in place by 9:30 a.m., when the judging will begin, and must remain in place until 4 p.m. for public viewing. All products and exhibits must have been grown or crafted by the youngsters themselves.

The Individual Farm Products show will consist of nine departments of competition. They are corn, small grains and seeds, grain sorghum, sheep grains, sheaf forage, baled hay, cotton, vegetables and fruits.

To be eligible for the Champion Gardener title, a boy or girl must have at least five entries in the different vegetable classes, and have at least five different farm products entries. In addition to their titles, the two champs will receive cash awards of \$7.50 each.

IN THE girls' baking competition, juniors 13 and younger will compete in 12 categories while seniors 14 and older will go after ribbons in 16 different categories. Exhibits will include biscuits,

brownies, several types of cookies, cup cakes, muffins, loaf cakes, fudges, marshmallow and layer cakes.

Juniors will compete in nine categories in the clothing division, while seniors will have 16 categories available, ranging from blouses and aprons to house coats, suits and knitted garments.

Household linens competition will be judged in six categories for both juniors and seniors — embroidery, textile painting, pot holders, TV shoes, crocheting, and other handwork. All linens will be exhibited in clear plastic wrappings.

JUNIOR AND senior girls will shoot for blue ribbons in five different categories of the Canned Fruits and Vegetables competition. They are fruits, vegetables, pickles, jellies and preserves. In all, more than 50 different fruit and vegetable canned products will be on display.

Cash awards will be given for first, second and third place in both the junior and senior girls' competition in each division. Top winners will be decided by a point system, with five points for each blue ribbon, three for each red ribbon and one for each white ribbon.

Already! Car Inspection Begins for '69

The 1969 vehicle inspection period started Sunday in Texas.

Col. Wilson E. "Pat" Speir, acting director of the Texas Dept. of Public Safety, said that more than six million vehicles are expected to receive the compulsory inspection by the April 15 deadline.

THE 1969 inspection can be performed at any of the 5,500 vehicle inspection stations in Texas, each of which displays the official vehicle inspection station sign.

Texas law requires inspection of the brakes, lighting equipment, horns and warning devices, mirrors, windshield wipers, front seat belts in vehicles where seat belt anchorages were part of the original equipment, steering (including power steering), and wheels and rim (not to include removal of the

wheel from the vehicle) on all motor vehicles registered in the state.

SPECIAL inspection provisions apply to trailers, semi-trailers, pole trailers or mobile homes having a loaded gross weight exceeding 4,000 pounds.

The minimum fee is \$1.75. This does not include the cost of repairs or adjustments necessary to enable the vehicle to pass inspection, Speir explained.

SPEIR said the new vehicle inspection sticker will be a 2½-inch square replica of a DPS patrolman's badge with red background. He urged motorists to have the 1968 inspection performed as soon as possible to insure that their vehicles are mechanically safe for fall and winter driving.

Lions Net \$500 In Broom Sale

In their annual Broom Sale Tuesday, Dimmitt's Lions sold almost \$1,600 worth of brooms, mops, sponges, light bulbs and other household items, and netted almost \$500 for the city's two new baseball parks.

BOSS LION Bo Bryant and Broom Sale Chairman Jim Ratcliff said the Lions — selling downtown during the day and house-to-house in the residential areas in the evening — sold \$1,500 worth of brooms, mops, etc., and \$67 worth of household light bulb packs.

"We want to thank everyone for cooperating so well with us on this project," Bryant said. "This money will help us come a little closer to making our ball parks debt-free."

'68 Youth Fair To Be Saturday

By IRENE KEATING
Home Demonstration Agent
I hope you had a happy Labor Day weekend. You should be in the school routine again by now. SATURDAY is a very important day for our young people.

Martinez Serves On Repair Ship

Quartermaster Third Class Francisco J. Martinez, 22, son of Mr. and Mrs. Martin Martinez of Dimmitt, is serving aboard the repair ship USS Jason.

The ship is operating as a mobile repair base for vessels of the Navy's coastal harbor and river patrol forces at the mouth of the Saigon River in South Vietnam.

In addition, the 16,000-ton Seventh Fleet repair ship furnishes meals, laundry, postal, medical, dental and other services to ships nearby.

Food Packages That Plug In?

Plug in a food package into an ordinary wall socket — heat up dinner! One food company has given its student packaging design award to a Pratt Institute student for the idea, one of the newest in convenience foods.

SILLY? Maybe not. A precooked meat entree could be featured for snack or supper — no fuss over pots and pans, says consumer marketing specialist.

Epoxy-coated aluminum foil lining of cardboard container has a printed heated element in it — carries current from throw-away plug to inner package. It's all disposable.

Cabbage Useful In This Dessert

For a dessert centerpiece, Extension foods specialists at Texas A&M suggest varying the idea by spearing small squares of fruitcake, dried dates and figs, candied cherries, seedless green grapes, strawberries, and nuts. Stick them into the head of a raw cabbage and eat them for dessert right off the picks. Serve the head of cabbage later, either raw or cooked.

The annual Youth Fair will be held in the assembly room of the courthouse Saturday beginning at 9:30 a.m. I'd like to encourage you to come by if you're in town.

Our youths will exhibit baked goods, canned foods, sewing, linens, garden products and field crops. All divisions are open to both boys and girls. I'm sure glad I won't have to be a judge. Unfortunately, I won't be able to attend our Youth Fair. Friday I must go to Salado to attend a board of directors meeting of the Texas Home Economics Association. We will have sessions all day Saturday.

★ SEPTEMBER is "Better Breakfast Month."

September was chosen for this annual event since it is the month when children are in school again.

A breakfast is very important. If you send your child or children to school without a good breakfast, you should not be surprised if they don't make very good grades.

RESEARCH shows that anyone who goes without breakfast cannot work as effectively as one who has eaten breakfast. Breakfast is our most important meal, as it is the first meal of the day. Our bodies use up calories while we sleep and they need to have food in the morning to help make it fill the noon meal.

Regurgitation is one essential of an adequate breakfast. This is often overlooked by those who settle for a quick cup of coffee, glass of milk or other liquid breakfast drink.

"In a balanced diet, bulk occurs in the form of whole grain breads and cereals, and the skin and fibrous parts of fruits and vegetables," Dr. Fredrick J. Stare pointed out in his book, "Eating for Good Health." Sufficient bulk is needed to prevent irregularity.

THE FIRST step to a sound diet comes at the beginning of the day with breakfasts planned for extra vitality. The best breakfast includes servings from at least three of the four food groups in the Daily Food Guide. One built around a recommended pattern of fruit, cereal, milk, bread and spread includes servings from three of those four food groups. In addition, it provides necessary bulk in the fruit, cereal and bread.

Ladies to Host Area Golf Meet

The Castro County Ladies' Golf Association will host the High Plains Ladies' Golf Association Wednesday at Dimmitt's new golf course. Forty-five to 50 ladies are expected to attend from Friona, Morton, Hereford, Olton, Muleshoe, Tulia and Dimmitt.

TEE-OFF time will be 9 a.m. Luncheon will be served by the hostess group.

Thirteen members were present at the Aug. 27 play day held at the Hereford Golf Course. Luncheon was served and the regular business meeting was held. Awards were presented to Ann Touchstone, Ola Mae Trimble and Dorothy Hopson for wins on previous play days.

Also, Ann Touchstone and Ola Mae Trimble were "Hidden Partners" winners at last week's play day.

Gun Accidents Need Not Happen

Safety is the most important factor to remember in the upcoming hunting season, says Wallace Klussmann, Extension wildlife conservation specialist at Texas A&M University.

NEARLY ALL hunting accidents could be prevented if gun safety rules are followed.

It's the "over-anxious" hunter who endangers the lives of fellow hunters and causes needless damage to wildlife. Approximately two-thirds of all hunting accidents involve humans in the line of fire, humans mistaken for animals, and hunters not using the safety catch on their guns.

Hunting only in season and respecting the bag limits are rules of good hunting sportsmanship, says the specialist. Also, never throw away a lighted cigarette or leave a burning campfire, since either can start a destructive grass or forest fire.

And, always be as sure of your target as you would want your fellow hunter to be, Klussmann adds.

HART LINEMEN PUSH AND GROAN IN DREADED 'CHUTE'
... Longhorn squad is light, with 184-pounder the heaviest

'Horns Have New Tutors, New Style, New District

"New" is the only way to describe the football scene at Hart High School this year.

EVERYTHING is new except the players themselves. All four coaches are new. They're teaching the 33-member Longhorn squad a new offense and new defense. And the 'Horns will use their newly acquired tactics in a new conference this season.

The new head coach is Don Seymour, who formerly tutored offensive backs and defensive linemen for the Plainview High School varsity.

A product of West Texas State University, the blond, quiet Seymour is a no-nonsense coach who seems determined to build a winning team his first year.

HIS WORKOUTS are conducted on a tight, pre-carded schedule—10 minutes of this, 15 minutes of that — and his standards are high. "You can't play on THIS team unless..." he constantly reminds any player who pulls a pre-season goof.

SEYMOUR'S assistants are: —Doug Higgins, who comes to Hart from Coronado Junior High in Plainview, and who coached with Seymour at McCamey and Spearman. He's a WTSU graduate.

—Jackie Burns, who formerly was on the coaching staff at Vega. He's also a WTSU product.

—Robert Hayes, who coached with Higgins at Coronado Junior High in Plainview. He's a Texas Tech graduate.

DON SEYMOUR
... New head coach

THE NEW offense they're teaching the Longhorns this year is the pro set formation, with a split end and a "wide" halfback. It's designed to open up the offensive thrust with more passing. Seymour said the 'Horns will alternate between the pro set formation and the wing-T. Last year the 'Horns worked from a slot-T.

And the new Longhorn defense is liable to give a lot of opposing linemen an Excedrin headache

this fall — it's basically a four-man line with five linebackers.

SEYMOUR and his 'Horns will put their new offense and defense to work this year in a new district — 2-B. Their conference foes will be Nazareth, Lazbuddie, Matador and Turkey.

Hart has never won a district championship, and Seymour isn't guaranteeing anything for this year.

"The district is going to be a tough one," he said, "but right now we're worried the most about the teams we'll play before we start our district schedule."

Ropesville will be the Longhorns' first opponent on Sept. 13, and later will come Meadow and Amherst, "and they're all tough as a boot," Seymour said.

FROM LAST year's team that posted a 5-5 season and a 2-3 conference record, five starters are back.

They are senior halfback Joe Quiroz, junior guard and tackle Andy Rogers, junior Harold Bob Bennett (who started at center last year but has been converted to quarterback this year), junior fullback Danny Smith and junior end and halfback Quincy Hawkins. All five were starters on both offense and defense last season.

"Defensive experience is probably our main strength," Seymour said.

THIS TEAM'S weaknesses, he added, are that "We don't have any experience at quarterback, and we don't have any speed at all."

Sharing quarterback duties with the taller Bennett is Gary Rambo, a small, agile senior who saw only limited action last year behind all-district W. A. Hawkins.

Here's the Longhorn roster: Quarterbacks — Gary Rambo, senior; Harold Bob Bennett, junior; Jerry Heller, junior; Steve Cox, freshman; Gary Six, sophomore.

FULLBACKS — Charles Bass, senior, and Danny Smith, junior. Halfbacks — Joe Quiroz, senior; Luis Longoria, junior; Landria, Bruington, sophomore; Jimmy Crosby, freshman; Oscar Longoria, freshman; Robert Garcia, freshman; John Ethridge, freshman; Roy Ethridge, junior; David Hawkins, freshman.

Ends — Ronnie Barham, senior; Gerald Nelson, sophomore; Jim Averitt, junior; Quincy Hawkins, junior; Jessie Garcia, freshman. Tackles — Ricky Mitchell, junior; Rodger Kennedy, junior; Jackie Roberts, junior; Andy Rogers, junior.

Guards — Jimmy Allensworth, senior; Richard Murray, senior; Graciel Catano, junior; Greg Crosby, sophomore; Ricky Allensworth, freshman; Carlos Martinez, junior.

Centers — Ralph Bell, sophomore; David Harris, freshman.

Oops! Ends, QB's Got Red-Shirted

Where did the Dimmitt Bobcats' quarterbacks and tight ends go in last week's pre-season football story in the News?

THAT'S A question that only the unseen gremlins of the gridiron and the typewriter can answer. The names of the tight ends and quarterbacks on the Bobcat squad were omitted from the roster.

Here are the names of the players vying for starting assignments at the two positions:

Quarterbacks — Bill Sanders, junior; Mark Cleavinger, junior; Jerry Birdwell, junior.

Tight Ends — Larry Gamble, senior; Loy Wiley, junior; Bobby Baker, junior.

Lots of Work Needed, Smith Says

"Our defense is ahead of our offense right now, but we've got a lot of work to do on both of them," said Head Coach Brown L. Smith after his Bobcats played "Scrimmage in the Rain" for an hour against the Clarendon Broncos last Thursday night.

ALTHOUGH scoring is secondary in a scrimmage, the Broncos crossed the rain-soaked goal line twice and Dimmitt waded across once during the workout.

Smith said the Broncos amply showed why they're ranked No. 7 among Texas Class A teams this year.

"Clarendon looked sharp, they had some hard runners, they were blocking real well — and they sure could hit on defense," he said.

"**BUT WE** thought our boys did a good job on defense, too," he added.

"We found out we need a lot of work on offense," the Bobcat mentor said. "Of course, we couldn't throw the ball because it was so wet, so we couldn't tell a lot about our passing game."

And passing is intended to be a big factor in the Dimmitt attack this year as the Bobcats work from a new slot-T formation.

THE BOBCATS picked up a few bruises from the rugged Clarendon visitors, "but nothing serious," Smith said. A speedy Clarendon wingback was knocked out

of action when three ambitious Bobcats gang-tackled him, but he expected to be back in the lineup sometime this week.

The scrimmage is still yielding an important payoff this week as coaches and players take a long, hard look at the game film to decode the action and pinpoint their mistakes and weaknesses.

Monday night, Smith and his coaching staff will show the scrimmage film at 7:30 to the Bobcat Booster Club in the Dimmitt High School cafeteria.

Plainview Sets Air Show Sunday

Plainview will be the site of the National Air Show Sunday.

THE SHOW will be sponsored by the Plainview Kiwanis Club to help raise funds to retire the debt on the Bob Hilburn Key Club Building, a recently completed boys' clubhouse adjacent to the airport.

Branaman Serves In Naval Mission

Machinist's Mate Fireman Deon E. Branaman, 19, son of Mrs. A. D. Chester of Dimmitt, is serving aboard the fleet oiler USS Caliente, which has just completed a joint anti-submarine warfare exercise with US Navy snips, aircraft and units of the British, Australian and New Zealand Navies. **AFTER** the exercise was completed, the Caliente made a four-day visit to Auckland, New Zealand. The visit highlighted an eight-month deployment with the Seventh Fleet in the Western Pacific.

While at sea, the 25,000-ton oiler conducted more than 280 underway replenishments with other Seventh Fleet ships. In addition to the replenishments, the oiler delivered fuel, mail, freight, ammunition, movies and other services.

The Long Beach based oiler has now completed four deployments with the Seventh Fleet.

DAMAGING existing trees on property under construction can be costly. A large healthy tree is a valuable and often irreplaceable asset to any property, and often it is killed or damaged beyond repair because construction crews, supervisors or property owners are careless in excavation and construction activities.

The show will start at 2 p.m. Sunday and will feature aerobatic flying, skydiving, displays military, antique, home-built and private aircraft, and exhibits from the National Aeronautics and Space Administration in Houston.

Performing for the first time in this area will be Harold Krier, whose fabulous flying has captured the USA Precision Aerobatic Championship seven times. Also appearing will be Charlie Hillard, who last year edged Krier out of the national championship by a scant 200 points and in so doing became the youngest pilot to ever win the title.

BROADCASTING the show over the National Air Show's 250-watt "Hi-Fi" public address system at the Plainview Airport will be Bill Sweet of Columbus, Ohio, America's number one aviation sporting events announcer-director. Sweet, the famed "Sill Sweet" in Zack Mosley's comic strip "Smilin' Jack," has been broadcasting the biggest air shows in the country since 1930, going back to the famous Cleveland Air Races. He also is associate editor of The Flyer magazine where his feature column "Cruising with Bill Sweet" is read by thousands monthly.

Special events will include a hair-raising car to plane transfer by a National Air Show professional stunt man, a glider demonstration, and an attempted flight of a 1929 Curtiss-Wright pusher plane. Like the American Indian and the buffalo, the old fashioned bi-plane of yesteryear, with its pilot in helmet and goggles and white-scarfed, is rapidly vanishing from the skies. These open-cockpit planes are now sadly passing out of the aviation picture and only a handful remain.

Parents of today's children (who probably have never seen a bi-plane) might remember the old days when everyone flocked out to the local air patch to the air show. The Plainview Kiwanis Club will be bringing back a bit of yesteryear for residents of the Plainview area to enjoy while it is still possible.

THE SHOW will start with a patriotic salute to America's armed forces in which a parachutist unfurls a giant American flag as he floats to earth, while planes circle him trailing billowy white smoke and aerial bombs explode as the National Anthem is played. It will end with Harold Krier flying upside-down to snare a red ribbon from between two poles a scant 20 feet from the ground at 140 miles per hour.

By MYRTLE SHEFFY

A lot of people took advantage of the long weekend for a before school starts vacation. Aural Davis, Suzie and Janis went out to Ruidoso, as did the Jimmy Buckleys, Helen and Bob McLean, their son Charles and son Robert and his wife Roxie, Jo Evans and girls Chris, Kerri and Meri, G. L. and Ouida Wilis and Mr. and Mrs. Claude Hutcherson. Allan Webb took a plane load out there.

Some going from here were Dr. Bill and Marion Lee and girls, Peggy Webb, A'llan and Johnny, Jay Lee and Reba Touchstone, Lanny and Elouise Lewis, and Bud and Vaudine Giles and children.

Cambell of Waco.

Other guests last week were a niece and family, Mr. and Mrs. Stuart and twin girls, a boy and another girl, who have been in Oketown, South Africa where he is a chemist for a big company and also a lay missionary. The company paid his way home to study for a year in New York City. They say Capetown is much like the Panhandle. South Africa was settled by the English, Dutch and Belgians, much as the United States was.

DONNA HENLEY writes me from Pampa to tell us that she and her folks, the Horace Henleys have moved there. She says her sister Sharon is recuperating from a recent appendectomy. She would like to have letters from her friends. They live at 2209 Evergreen in Pampa.

THE BRIDE is the daughter of Mr. and Mrs. Elmer L. Fryar of Dimmitt. Daniel's parents are Mr. and Mrs. Robert W. Ellis, also of Dimmitt.

Rev. Charles Harris of Plainview, a friend of the bride's family, performed the ceremony before an altar lighted by tapers in seven branched candelabra centered in greenery. Spiral candelabra on each side flanked baskets of white gladioli and chrysanthemums.

The couple joined in lighting a symbolic candle of union.

MAID OF HONOR was Beth Sheffy, and bridesmaids were Carla Ward and Jo Ann Ferguson. Carl Moore served as best man, while Harley Daniel, brother of the groom, and Donny George of Plainview served as groomsmen.

GIVEN IN MARRIAGE by her father, the bride wore an Empire bridal gown of peau de soie with Alencon lace bodice and lace appliques across the shoulder line, down the front of the slender skirt and around the edge of the circular chapel train.

She carried a bouquet of a yellow-throated white orchid centered in Frenched mums and stephanotis, atop a white Bible. Her illusion veil extended over the shoulders from a cluster of pearl-trimmed lace petals.

The bride's attendants wore floor-length green satin crepe Empire dresses with bell sleeves of chiffon. Their headpieces were avocado green veils with satin buds. Each carried a large yellow mum circled with pompons and a nosegay tied with avocados and yellow ribbons.

AT THE RECEPTION which followed in the church's fellowship hall, Donna Fryar served the cake and Kay Culpepper poured punch at opposite ends of the serving table. The oval table was covered in white, with a net skirt caught by satin streamers in swag style. Centering the table was a silver candelabra flanked by the bridesmaids' bouquets. The colonnaded cake was surrounded by heart-shaped layers and ornamented with yellow sugar flowers, cupid figurines between tiers and a miniature bride and groom.

For the wedding trip to Ruidoso, N.M., the bride wore a knit suit and avocado accessories, with the orchid from her bouquet serving as her corsage.

THE COUPLE will be at home at 204 Front St., Dimmitt.

The bride attended West Texas State University after graduating from Dimmitt High School and is now employed by the First State Bank of Dimmitt. Daniel attended Dimmitt schools and served four years in the US Navy. He is employed by Dimmitt Feed Yards.

DEDICATION SET — The \$500,000 Herral Memorial Auditorium on the Wayland College campus in Plainview will be dedicated in a series of four programs beginning with ceremonies at 2:30 p.m. Sunday. A founders' day, institutional observance and youth entertainment are set during the week.

Tax-Loss Study Urged On 'Windshield Farmers'

One of the most significant changes on our farm life has been the changes in the types of farmers.

WE STILL have the farm family who lives on the farm or ranch and makes their livelihood from the produce that they raise.

A second but growing group in most rural communities is made up of those who live on the farm and work in the city. Some of these farm on a part time and weekend basis. Others raise food for their own use, and some depend on their salary or wages for their entire livelihood.

THE NEW AND most rapidly growing group is the "windshield farmer." He lives in town, or more likely the big city. His purpose in farming varies from hobby or weekend lark to a serious, well-financed, highly commercial farm venture.

The 1965 statistics of income show that farmers in the Internal Revenue Service District covering the 143 counties in the northern half of Texas grossed more than \$1 billion in the sale of agricultural products. However, they reported less than \$50 million as ad-

justed gross income on their tax returns.

The Secretary of Agriculture recently recommended that Congress review the farm tax loss situation. Internal Revenue people are quick to point out that their objective is fair and equal enforcement of the present laws, and that it is not advisable for IRS to comment on proposed legislation. However, IRS does point out that the Farmers Tax Guide spells out clear-cut rules covering a part of the farm losses being discussed or questioned.

THE instructions set out for "Personal Living and Farm Expenses" on Page 33 of the Farmers Tax Guide apply to the farmer who is engaged in farming 100 percent of his time as well as the man who lives and works elsewhere and considers his part-time farming operation as a secondary business. The Farmers Tax Guide reads:

"Deduction of certain personal, living, and family expenses is specifically prohibited by law. These include rent and insurance premiums paid on property used as your residence, life insurance premiums on yourself or your family, the cost of maintaining automobiles or horses for personal use, allowances to minor children, attorney fees and legal expenses incurred in connection with personal matters, household expenses, and moving expenses of you, your family, and personal effects. Likewise, the cost of purchasing or raising produce or livestock consumed by you or your family is not deductible."

Prepare Home Now for Winter

Preparing your home for cold weather probably won't make the current summer heat any more pleasant, but certain maintenance jobs can be done now in time for that welcomed cold spell.

NECESSARY preparations vary according to the severity of fall in the area, but some work should be done almost everywhere, says Jane Berry, Extension housing and home furnishings specialist. The home handyman will be able to carry out many of the jobs but others require the skills of trained servicemen.

Have a qualified serviceman check heating systems thoroughly. Although a heating system usually lasts about 20 years without major repairs, annual checkups are necessary to assure efficient operation, according to the Texas A&M University specialist.

A dirty, worn-out heating system produces higher fuel bills, and it can endanger lives of family members and valuable possessions. Annual servicing should include the chimney or flue, the central heating plant, thermostats and the heating distributors in each room.

THE AMERICAN Gas Association calls insulation "the most important single item in fuel savings." If a house is not properly insulated, particularly its ceilings, floors and walls, the owner would be well advised to consider having this work done, Mrs. Berry says. Cost estimates may be obtained from reputable contractors.

On the outside of the house, fill all open joints with caulking compound. The process seals openings, keeps water from entering cracks, prevents indoor drafts and cuts down on heat loss.

Those hairline cracks on concrete drives, walks and steps may be a lot wider unless you take precautions now, the specialist reminds. Water cracks in concrete can freeze and make the cracks wider.

Repair loose or missing roof shingles and siding, and add roof gutters if your house isn't equipped with them. All roof gutters should pitch toward their downspouts, Mrs. Berry says, with the outside edges below the roof eaves.

360 to Receive FLB Dividends

Dividend payments totaling \$30,090 will be paid to members of the Dimmitt Federal Land Bank Association, Manager Billy Hackleman announced today.

HACKLEMAN said the dividend checks would be mailed immediately to the association's 360 local farmer-rancher stockholders.

The Dimmitt association is one of 73 in Texas served by the Federal Land Bank of Houston.

The local association makes Land Bank loans in Castro County. Directors are Jack Summers of Dimmitt, president; Sid Sheffy of Dimmitt, vice-president; Ed Drerup of Nazareth, Irvin Ott of Dimmitt and Wade Mills of Nazareth.

Make Soup Mix With Leftovers

If you end up with leftover vegetables but not quite enough to serve your family for another meal, here's an idea from Gwendolyn Clyatt, Extension consumer marketing specialist at Texas A&M. Combine a single leftover vegetable or a medley of several vegetables with a cream sauce and seasonings to make delicious and economical soup. Milk, used as the base for the cream soup, provides your family with the added bonus of valuable calcium and protein. Serve a tasty vegetable cream soup made this thrifty way for a family lunch or supper.

Vardell Fuel Changes Name; It's Now 'Redi-Fuel, Inc.'

Vardell Fuel of Dimmitt is now Redi-Fuel, Inc.

BUT O. T. Slim Vardell, manager, said the name is all that has changed. The company will continue to distribute the same brands of butane, propane, gaso line, diesel fuel and oil, with the same service policies and the same prices.

The computer age made the name change necessary, Vardell explained.

The local firm is a subsidiary of the Redco Corporation, which also owns nine other retail outlets in the Panhandle. To go to a computerized billing system with standardized forms, Redco renamed all outlets "Redi-Fuel, Inc."

BY GOING to a computerized operation in our paper work, we feel that we'll be able to build toward a better service program also, because of the time it will save us here," Vardell said.

Vardell has been providing fuel to this area since 1949, when he moved to Dimmitt to join Blanton Butane. He bought the firm in 1961 and named it Vardell Fuel, building a service area throughout the county — mainly butane and diesel service to farms.

In 1967, he sold his business to the Redco Corporation, and signed a management contract with the new owners.

REDCO is primarily a drilling and refining corporation. Its purchase of Vardell Fuel and nine other retail outlets in the Panhandle last year marked its entry into the retail fuel business.

In addition to having its own retail outlets now, Redco delivers its butane and propane products to many other fuel retailers in the area.

Vardell is a veteran of the fuel business, having started in 1940 as a general sales representative for the Mobil Oil Co. in his home town of Quitaque.

VARDELL'S "Girl Friday" in the Redi-Fuel office is his wife, Kathryn. They have two daughters, Ann, 16, and Nancy, 12, and they live at 310 NW Sixth St.

Vardell is a member of the Rotary Club, Masonic Lodge and the First Baptist Church.

SANDWICH meals help family budgets. Meats and seafoods in fillings may be extended by using in-season fruits and vegetables. Less expensive meats or canned meat or fish, properly prepared, tempt and satisfy the most discriminating appetite as easily as more expensive fillings.

Beef Selectivity Aids Marketing

The beef cattle industry has enjoyed a tremendous increase in the consumption of beef, due in part of selection programs being employed by more and more breeders, says Dr. Frank A. Orts, Extension meats specialist at Texas A&M University.

CONSUMERS are asking for and getting more muscular beef cuts along with more quality. Quality of lean and quantity of lean are not antagonistic, so a breeder can select for these two attributes at the same time.

Marbling, which is a measure of beef palatability and tenderness, muscling, fat covering on the outside of the carcass and fast gaining animals, are highly heritable. Therefore, all of these economically important beef carcass traits can be used in a selection program. But a breeder must also include in his selection program percent calf crop, weaning weight and feed efficiency in order to produce cattle economically, Orts says.

A breeder should secure carcass evaluation data on at least 15 steers or heifers from each sire to determine what type of carcasses his cattle are producing. This may be accomplished by enlisting in the various breed association carcass evaluation programs which offer a carcass evaluation service.

Golden Spread Rest Home

By DeLORISE GILLILAND

Residents of the nursing home have been enjoying the cool weather. Some of the ladies have been sporting lightweight sweaters during the cool part of the morning. Tom Tate has found the afternoons very pleasant for a walk to his home and back to the nursing home.

SUNDAY was a busy day, with three groups coming to the home. At 9:45 the children's class from the Bedford Street Church of Christ came to entertain the residents with songs and scriptures.

The Church of Christ came for morning worship services. There was a nice crowd here from the church. We certainly appreciate their faithfulness from Sunday to Sunday, and residents look forward to their coming.

In the afternoon Sunday, the Bible Missionary Church from Clovis came for another service. Rev. Stanton is the new pastor of the church. A full lobby of people and several in the hall enjoyed the service.

Curtis Mathes sells only to franchised independent dealers, or "Associates", who sign an agreement to buy at least a truck or carload of Curtis Mathes merchandise each month (alone or in cooperation with other Associates). Each Associate must buy his quota every month, provide complete service for Curtis Mathes products, pay cash for goods purchased, keep a full display of Curtis Mathes products as well as adequate stock, pay a liberal commission on Curtis Mathes products and in general promote the Curtis Mathes line with enthusiasm and energy. The net result of this program to the dealer is at most unusual profit opportunity.

QUALITY is a 66 year old tradition at Curtis Mathes. In building this fine tradition over the years, C M has grown till today it includes SIX plants, 1,000,000 square feet and over 2,000 employees, building the finest in High Quality Home Entertainment equipment. As you contemplate the purchase of a Curtis Mathes Home Entertainment Center, the question will certainly arise in your mind as to how Curtis Mathes can offer such obviously fine merchandise at such terrific values.

There are very good reasons why a Curtis Mathes dealer can provide his customer higher quality at lower prices. Simply stated, these are the reasons:

1. Lower Occupancy Cost
2. Lower Executive Cost (Family Controlled Company)
3. Lower Advertising Costs (No National Advertising)
4. Lower Credit Losses
5. Lower Distributing Costs (we sell direct to selected outlets in car lots - for cash)
6. Lower Manufacturing Costs (we build our genuine hardwood cabinets, speakers, transformers, coils, chassis, fly-backs, plastic cabinets, plastic parts etc. - most of the industry buys many of these components)
7. Lower Overhead or Fixed Costs

we operate our main plant three shifts (approximately 126 hours per week). Our competitors operate their plants one shift or 40 hours per week. As a result our overhead or fixed costs are only 1/3 as high.

Perkins' Pencil . . .
 "What? Pray for a WHOLE WEEK? Preacher, you must be crazy. I've got work to do."

No, I never really heard that conversation, but when I have suggested that some do it, I've received a right jaundiced eye. But what's wrong with praying for a whole week?

Here's what we face. Texas has a population bordering on 12 million or more. Texas has folk from every part of the world in her borders (remember the International Students in our Universities). Texas has many people from different countries who have settled and adopted her as homeland. (For example, not 30 miles from our last pastorate was the Oldest Polish Settlement in the Western Hemisphere; a Lutheran church which ministered in a community where Swedish was the dominant spoken language; people who still spoke German with a flourish; and many, many people who for decades had their families in the United States, but who spoke not only English but also Spanish!)

Indeed, we are a rich state, rich in oil and agriculture. But our greatest riches lie in the people who are here. And we believe that every person deserves the right to hear about the spiritual wealth God gives through the Person of Jesus Christ. Many do not know, even in our own State of Texas. For this reason, our church has its "Week of Prayer" for State Missions each fall.

Here is our program. Each morning at 10:00 a.m. next week, September 9-13, (except Wednesday), groups will gather in the auditorium for a program of information, inspiration, and prayer. If you are truly interested in the future of our state, come visit with us in this time and spend a few moments in prayer. The state you save may be your own.
