

THE ROBERT LEE OBSERVER

VOLUME 36.

ROBERT LEE, COKE COUNTY, TEXAS, FRIDAY OCT 9 1925

NUMBER 19

Report of Crops

The United States Crop Reporting Board, answering criticism of its September 23 cotton report, announced to day that it stands fairly and squarely behind its reports and accepts full responsibility for them.

"The Board realizes at all times," the statement says, "the magnitude of this responsibility and the necessity always to act upon the evidence before it. It calls attention to the fact that critics are free to make any estimate they wish based upon as much or as little evidence as they may have. Statements that the Board erred in certain reports are frequently merely expressions of opinions based upon scant evidence and superficial observation."

The complete records of the Board are on file at the department and the Board pointed to and members of Congress and others have frequently been invited to inspect them. These reports contain the date upon which the September 23 and earlier reports were based and "refute the insinuations which have been made that the Board is affected by outside influences in arriving at this forecast."

The Board declared in connection with its report issued September 23, that every source of information available to the Board, including reports of township and county correspondents numbering many thousand, which are received direct at Washington, the reports of the thousand of field correspondents who report to the State statisticians, the reports of the State statisticians themselves based on personal field observations and inquiries, as well as estimated from key men in hundreds of counties as to the number of bales of bales of cotton likely to be produced in their own counties, showing a material increase in the crop out turned as of September 16 compared with the previous report. Further more, the Board added, a careful analysis of the genning report, which the Board had before it in making its last estimate, combine with estimates from the correspondent as to the percentage of the crop picked and ginned to September 16, fully confirmed the data received from other sources.

"Contrary to some of the statements which have appeared to the effect that the crop was going to pieces, many correspondents and State statisticians reported that the yield was turning out much better than expected in some States and that the recent rains had helped the late crop in some sections," the Board said. "When the September 1 report was issued excessive drought and the threatened invasion of numerous insects in various sections gave a decidedly pessimistic tone to many of the reports received. This pessimism was largely

Report of Parent Teacher Association

The Robert Lee Parent Teacher's Association met in the High School Auditorium Monday morning just after the opening exercises of the school.

A number of the mothers were present and ten new members were added to the list already enrolled.

The following officers were unanimously elected:

Mrs. H. C. Allen, President.
Mrs. C. E. Eaton, Vice President.

Mrs. Mattie Daniels, First Vice President.

Mrs. Henry Wyatt, Second Vice President.

Mrs. Ed. Grey, Third Vice President.

Mrs. N. H. MacFarland, Press Reporter.

The president, Mrs. Allen suggested that we take up the offer made by the editor of our local paper, since he is giving a page each month to the schools the club should be able to secure new subscribers.

missing from the reports received from the September 16 report, except in North Carolina, Tennessee, Missouri, Arkansas, and Oklahoma, where a decline in crop prospects occurred."

The function of the Board, it is pointed out, is to review carefully all of the evidence before the Board and to arrive at the best possible estimate of the crop as it appears from the data available. A majority of the Board which makes the cotton report arriving at Washington from the cotton belt the day previous to the report, while the other members of the Board make frequent trips to various sections of the belt where conditions seem to be uncertain. Every member of the Board is thoroughly familiar with methods used in estimating the crop, the Board said, and most of them have had many years' experience in the work.

Bronte Happenings.

The play carnival staged on the school campus Saturday evening was a decided success from every angle. A large crowd was present and all entered into the spirit of the occasion. The receipts were approximately \$100.00 and will go towards paying for the new school ground equipment which was recently erected under the auspices of the Parent-Teachers association.

A few bruises and three badly wrecked cars were the results a collision on the highway between Bronte and Fort Chadbourne early Saturday evening. Two cars, one occupied by Mrs. Maggie Scott and children, the other by a Mr. Moore and companion of Ft. Chadbourne, were travelling north when the Ft. Chadbourne car pulled out to go around the car in front and ran into one being driven by Everett Best in the opposite direction. In the compact Mrs. Scott's car was overturned in a shallow pool of water. The occupants of the three machines escaped without any serious injuries whatever, but two of the cars are complete wrecks while the third escaped with a demolished top. It is thought the dust obscuring the vision to some extent was the cause of accident.

Another accident which might have been serious occurred the same evening when a small child of Mr. and Mrs. Edd Buford was thrown from a rapidly moving car as a result of a door coming open. Some severe cuts and bruises on the head which are painful but not serious, were received.

Up until the closing hour Saturday night the receipts of the three gins at this place were a total of 2016 bales. Cotton is coming in at a rapid rate and the plants are kept busy all day and part of the night in order to keep up with the rush. The merchants are feeling the results in more business and also in collections.

An interesting meeting of the

Mrs. Gates Dead.

Mrs. Elizabeth J. Gates born December 6, 1838 and died at her home October 5, 1925, at the age of 87 years and ten months.

Rev. Story conducted the funeral services and interment was made in the Robert Lee cemetery, Tuesday at 10 a. m.

Mrs. Gates was a member of the Baptist Church about thirty two years ago. After her marriage to Mr. Gates she united with the Methodist church where she led a true christian life. Her devotion as a mother, her kindness to every one will linger as long as a fragrant memory in her home which her presents brightened and which death was darkened.

The floral offering was beautiful and profuse, attesting the love and high esteem in which she was held by all who knew her.

She is survived by a husband and daughters and other loved ones to mourn her going. The bereaved have the sympathy of many friends joined by the Observer in this sad hour.

Woman's Progressive club was enjoyed at the home of Mrs. I. M. Cumbie Thursday afternoon when the first lesson of the season was studied. National Geographic Magazine topics together with some interesting material on our own state, are being used by the club this year. For roll call each member has been assigned a certain country from which she is supposed to bring something concerning its affairs each time throughout the year. The pretty home of the hostess was made more attractive on this occasion with baskets and vases of lovely autumn flowers. A delicious ice course was served.

All Day Singing at Bronte

Sunday October 11, is the date for our next County Singing Convention and this is to be held at Bronte in the tabernacle. All communities of the entire county are urged to be present and with a large singing class if possible.

We wish to extend a hearty invitation to the Runnels County Association and others.

A basket dinner is to be spread at noon. Let everyone be a booster for this convention to make it a success. This will be a great day for Bronte.

Robert Lee School Began Monday.

The Robert Lee school began its 1925-26 session Monday morning, under favorable and good auspices.

The entire faculty were present and each one ready to take up his or her place as teacher. The attendance as patrons and people generally was large and practically all the pupils of the school.

There was no set program except some musical numbers. This featured under the direction of Mrs. Bryan Farbrother which proved most pleasing to the audience.

Supt. Edwards had no special program arranged, as he wanted all to come and to feel that each one had a part in the opening exercise of the school.

Following religious exercises which were conducted by Rev. L. M. Story, the balance of the opening hour was taken up by short talks the school would seek to maintain and in announcements with reference to the daily school program.

Hence favorably begins the school session for this year and thus may it continue every day to the close of next spring should be the wish of every real friend of the education of the youth.

Happenings in West Texas

Stanford—B. M. Whitaker, exhibit manager of the West Texas Chamber of Commerce will open the exhibit program of the organization at the Texas Cotton Palace at Athens, Oct. 5. Seven regional fairs are included in the itinerary of the West Texas Chamber of Commerce exhibit program this year and exhibits will advertise West Texas resources to over two and one half million people.

Graham—Young County voted \$100,000 roads bonds for the purpose of constructing over thirty miles of state highway in Young County. This sum will be matched by state and federal aid making a total of \$300,000 to be spent on county highways.

Alpine Fifty thousand pounds of Candelilla wax were shipped from here to New York by one firm. This is the largest single shipment made in months. The wax comes from a wide plant here and is used in manufacture of rubber.

Rising Star—The longest continuous asphalt highway in Texas extends from this place to Ft. Worth and Dallas. Asphalt is now being placed on the gravel highway from here to Coleman and by Jan 1st, the entire distance from Ft. Worth to Coleman will be asphalt paved.

Goldthwait—Construction of the new "Pecan Belt" highway has begun here. The highway is to be the artery of travel through central west Texas and extends from Del Rio to Oklahoma City.

Pecos—The new cotton compress began operation here this week. The plant not only compresses the cotton but fertilizes and sterilizes it. This compress will serve a large territory in southwest Texas.

"Service"—Our Motto

W. M. SIMPSON

Bronte Baptist Church Notes.

One hundred and thirty five were present at Sunday school last Sunday. Seventy five of these brought their Bibles and used them. This is one of the points we have fallen down on in our efforts to reach a standard school, but by keeping up this percentage we will soon overcome this weakness. One new pupil was enrolled in the Fidelis class. This department of the church, as well as all others, is steadily growing and increasing in efficiency since the coming of the pastor, Rev. R. D. DeWeese.

A Junior B. Y. U. P. was organized with fourteen members last Sunday afternoon with Miss Fay Gannaway and Miss Jones, two of the public school teachers, in charge. No better leaders can be found anywhere and much interest is expected to be developed in this organization. The time of meeting has been set at 8:30 o'clock in the evening just one hour before the preaching service. An earnest invitation is extended to all young people of this age to join and take part in this work. No finer training for church service may be received in any department than that of the B. Y. P. U.

Services, both morning and evening, each Sunday are held at our church and everyone who will is invited to come and worship with us.

Church Reporter.

Doubtless the modern language crank would change "Well done, good and faithful servant" to "Atta boy!"

Uneasy Tight Feeling

"I used Thedford's Black-Draught first for constipation," said Mrs. C. E. Buntin, of R. F. D. 5, Starkville, Miss. "I would feel dull, stupid, and have severe headaches, even feverish. I had an uneasy, tight feeling in my stomach. I read quite a bit about

BLACK-DRAUGHT

Liver Medicine

I began using it and soon my bowels acted regularly and I was greatly relieved. I used it every once in a while for about 18 years.

"About two years ago I found I was having indigestion, a tight smothering in my chest, then severe pain, especially after eating sweets. I commenced taking just a pinch of Black-Draught after meals, and by doing this I could eat anything.

"I gave Black-Draught to my children for colds and headaches. I can certainly recommend it."

Black-Draught is used, with satisfaction, by millions. Get Thedford's.

We Beg Pardon.

We owe the opening of the Robert Lee school a better write up this week than they are getting and in fact we think we are giving you a mighty sorry paper this week, but the editor has been out of the office most of the week on the account of the death of his brother and we could not look after the things as they should have been. But to correct rumors that have been spread in regards to the death of our beloved brother, we will say this however that he fell from the top of a freight train that was standing still against a moving train finally landing under the moving train, his left leg below the knee and his head were cut completely off his body. His obituary will appear in next weeks paper.
